Pompano Beach, FL

A Tree Disposition was conducted for above reference property. See TD-1 for information regarding palms and trees on site.

Tree#23 Stranger Fig (*Ficus Aurea*) 49" DBH X 30' HT X 26' SPRD 46% Condition \$5,713.26 Value

This tree is on the southside of the property growing directly below powerlines. This has engulfed the chain-link fence essentially destroying that section of fence. Large stub cuts could be seen inside the trees canopy, these cuts were most likely done by FPL to remove limbs touching or inside the powerlines. Some of these cuts were not able to compartmentalize causing rot to set into the wound. Extent of the root is unknown.

Please see photos below.
