Re: 344 NW 6<sup>th</sup> St. Pompano Beach, FL

To Whomever This May Concern,

Treemendous Consulting Group, LLC was subcontracted by **Lee Green Consulting LLC** to assist with this project, we visited the above-mentioned property on Friday, September 30, 2022, to evaluate +/- 7 trees, take photographs, perform relocation evaluations, calculate appraisal values (Rule 14-10 2020), and note any defects.

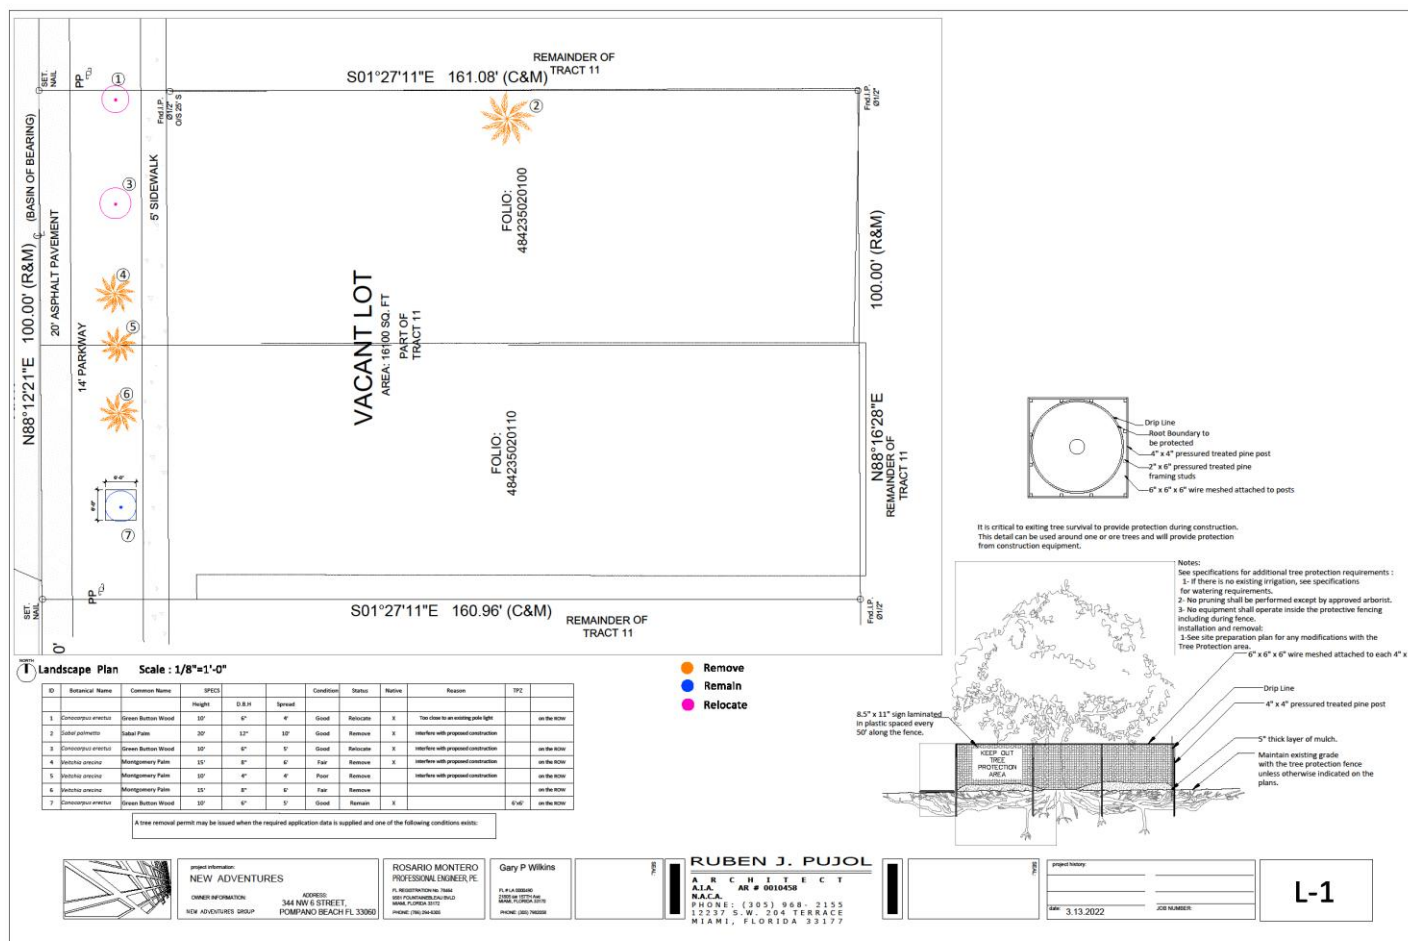

A total of 3 trees and 4 palms were evaluated. A tree evaluation spreadsheet with appraisal values has been attached for review. Please see additional photographs and tree specific comments below.

See the document we put together entitled "why we should replace trees" attached to your report for size options and other pertinent information as it relates to the installation, care and maintenance of trees. Also, see more details in the pictures of our findings below, in the attached tree inventory template along with your survey where the trees are labeled.
