Introduction:

The intent of this "Request for Qualifications" is for the City to select a CMAR Firm capable of providing management services necessary to construct the improvements within the City as outlined above. The selected CMAR Firm(s) may be responsible for both preconstruction and construction phases of this project and/or may be responsible for only the construction phase of this project, depending on the determination of the CRA for this particular project. Generally, the selected CMAR Firm(s) will be responsible for the successful, timely, and economical completion of the project. Applicants are encouraged to self-perform any of the general services listed herein. The CMAR Firm may retain necessary design professionals under the process provided in Florida Statute Section 287.055.

1. Scope Of Services

The intent of this Request for Qualifications (RFQ) is to select the most qualified firm based on selection committee recommendations and CRA Board approved ranking, with whom to negotiate a Guaranteed Maximum Price (GMP) Agreement and enter into a Construction Manager at Risk (CMAR) Contract to carry out Construction Manager at Risk (CMAR) duties to construct streetscape improvements on Pier Street West from SR A1A to North Riverside Drive (see Location Map). The scope of work includes installation of a new traffic signal at the intersection of Pier Street West and SR A1A as well as improving sidewalks, replacing underground utilities (water main, drainage, etc.), installing new landscape, etc. Plans prepared by the City's design team comprised of Keith & Associates, Inc., Kimley-Horn and Associates, and Currie Sowards Aguila Architects will be provided to the successful CMAR for review and to arrive at a Guaranteed Maximum Price (GMP) for services provided.

Upon successful competitive negotiations with the selected Construction Management Firm, an individual Construction Management at Risk contract will be developed for this project including a Guaranteed Maximum Price (GMP) and construction schedule. Construction shall not commence until Notice to Proceed (NTP) is issued by the City.

Based on the Guaranteed Maximum Price (GMP), the CITY may or may not proceed if the GMP is not acceptable to the CITY. The CITY reserves the right to discontinue negotiations with the top ranked firm without recourse or liability. Should the CITY choose to discontinue negotiations with the top ranked, the CITY reserves the right to initiate negotiations with the second ranked firm, and so on.

The project entails installing a new traffic signal at the intersection of State Road A1A and Pier Street West. The successful applicant must have experience working with the State of Florida Department of Transportation (FDOT) and Broward County Traffic Engineering Department (BCTED) as the agencies have jurisdiction over the traffic signal and approvals and sign-offs from both agencies will be required. Firms that have no experience working with said agencies should refrain from participating in this solicitation. In addition, the CRA envisions a number of improvements along Pier Street West from SR A1A to N. Riverside Drive. The proposed improvements include new sidewalks, additional landscape, new street lights, upgrades to existing underground utilities (i.e., water main and drainage), etc.

The anticipated Scope of Services may include, but is not limited, to the following:

- Working side-by-side with CRA's professional design team during the design stages. CMAR will be tasked to review plans at 90% and 100% to ensure constructability, adequacy of pricing and materials, preparation of project schedules, conducting feasibility analyses, assisting with plans and/or design alternatives and recommendations leading to a Guaranteed Maximum Price (GMP) that's within the CRA's budget for this project (not to exceed \$1.2 million). Contractor shall help Identify any design restrictions that could affect the overall design and intent of the project(s).
- Preparation of a detailed cost estimate at the 90% design intervals to confirm initial budget allocations and/or to seek CRA's advice before proceeding with next level and final designs. The firm will be responsible for cost controls throughout the

design and construction project except for design and construction elements added or deleted by an expressed CRA directive.

- CMAR shall participate in presentations to elected officials, advisory boards, staff, and the public.
- Provide construction management services for the project. Services during construction may include periodic or routine inspections, threshold inspections, shop drawing/contractor submittal reviews and approvals, responding to contractor requests for information, and reviewing contractor payment applications.
- CMAR shall work with design team members to prepare all required bidding and construction documents for final permitting.
- CMAR will prepare bidding packages and secure no less than three (3) proposals for work not conducted by own work forces.
- Attendance at City Commission, Advisory Committee meetings, and public meeting will be required.

Firm(s) and/or any subcontractors must have previous experience in infrastructure projects, and must be properly licensed and bonded to provide services as outlined above. Bonding shall be equal to 100% of the anticipated construction costs. Firms must have previous municipal experience, particularly FDOT and BCTED work.

2. Tasks/Deliverables

Firms will provide plans at various intervals (30-60-90%) for City staff review. Due to the requirement that the Contractor(s) be readily available for meetings, discussions and tours within the affected areas of responsibility, it will be necessary for any Qualifier to have an office physically located within the tri-county areas of Miami-Dade, Broward or Palm Beach County. This office must be an active facility from which services are routinely provided and not merely a post office box or other type of mail drop, nor can it be the office of simply a representative agent. The City reserves the right to inspect any facility designated by the Qualifier to insure that it complies with this section. Should the City be unable to identify qualified providers within the tri-county areas, the City may at its sole discretion elect to negotiate with firms that are not based out of Miami-Dade, Broward or Palm Beach County, or re-advertise this solicitation and seek a new pool of applicants.

Upon successful competitive negotiations with the selected CMAR Firm, an agreement shall be prepared reflecting the agreed upon direct costs and unit prices and outlining the duties of the CMAR described herein. The agreement shall also provide a termination date agreed upon by the Parties. The City reserves the right to extend the contract in 90 day increments provided both parties agree to the extension; all the terms, conditions and specifications remain the same; and such extension is approved by the City. Thereafter, the CMAR shall be required to compile and submit a proposal with a GMP (GMP may include agreed upon contingencies and allowances) and a separate guaranteed completion date for each grouping of substantially similar

construction, rehabilitation, or renovation activities as defined by the City Representative, but shall not commence construction on any project until receipt of a Notice to Proceed (NTP) approved by the City based on the GMP and completion date.

Preconstruction (if applicable):

- A. Review and coordination of the proposed work that the architect, engineer and/or the owner prepare for the project, within the existing site conditions.
- B. Submit to the architect, engineer and owner for consideration appropriate cost and savings programs (value engineering), suitability of materials and equipment and schedule of construction.
- C. Coordinate competitive bidding and contracting for trade subcontractors.
- D. Calculate and provide a GMP for the project or each phase of the project.
- E. Provide a preliminary construction schedule.
- F. Attend all required meetings as required to facilitate the project.

Construction:

The Contract shall establish a GMP for the project and shall be negotiated and executed prior to the commencement of any work. The types of services required may include, but shall not be limited to, the following:

- A. Provide Performance and Payment Bonds for the full value of the GMP for each phase of the project.
- B. Monitor Minority/Women and Small Business Enterprises participation (M/WBE, SBE) for the project or phases of the project and monitor Local Participation in accordance with City's Code of Ordinances, City's Purchasing guidelines, and City's goals for each project.
- C. Apply for, obtain, coordinate and pay for all permits, inspections and tests. Ensure the successful, timely, and economical completion of the project or phases of the project.
- D. Coordinate and insure compliance with all contract and insurance requirements.
