Aetna

Supplier Response

Event Information

Number:	RFP26-035 Addendum 3
Title:	Employee Medical Benefits Program (Fully Insured and Self-Funded Options)
Type:	Request for Proposals
Issue Date:	3/19/2026
Deadline:	4/27/2026 02:00 PM (ET)
Notes:	The City of Pompano Beach is soliciting experienced and qualified firms that demonstrate the highest level of ability to provide the following lines of coverage: • Medical Insurance with the following funding arrangement: o Fully-Insured o Self-Insured o Medical Insurance (Fully Insured and Self-Funded) o Pharmacy Benefit Management Services (if applicable) o Stop Loss Insurance (if applicable) The Cone of Silence shall take effect once this solicitation is released to the General Public. Respondents to this solicitation or persons acting on their behalf may not contact, between the release of the solicitation and the end of the 72 hours following the agency posting the notice of intended award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the procurement officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response.”

(F.S 287.057 (25)).
Proposers must be registered on the City's eBid System in order to view the solicitation documents and respond to this Solicitation. The complete solicitation document can be downloaded from the eBid System as a PDF at https://www.pompanobeachfl.ionwave.net. The City is not responsible for the accuracy or completeness of any documentation the proposer receives from any source other than the eBid System. The proposer is solely responsible for downloading all required documents. A list of proposers will be read aloud in a public forum. To attend the virtual public meeting, go to https://www.pompanobeachfl.gov/pages/meetings to find the Zoom link.
Carefully read all portions of the RFQ document to ensure the Proposer's bid fully complies with all requirements.

Procurement and Contracts Department

Proposal

Aetna Response to City of Pompano Beach.zip

Electronic version of proposal must be uploaded to the Response Attachments tab. The file size for uploads is limited to 250 MB. If the file size exceeds 250 MB the response must be split and uploaded as two (2) separate files.

Questionnaires

2. Questionnaires.docx

Bid Attributes

1	**Terms & Conditions** Check the box indicating you agree to the terms and conditions of this solicitation. ☑ Agree
2	**Acknowledgement of Addenda** Check this box to acknowledge that you have reviewed all addenda issued for this solicitation. ☑ Yes
3	**Local Business Participation Percentage** If you have indicated local business participation on the Local Business Participation Form Exhibit A enter the percentage of the contract that will be performed by local Pompano Beach businesses. 0%

4 Extension of prices, terms and conditions to other governmental entities

If awarded the contract resulting from this bid, will your company agree to extend the same prices, terms and conditions to other governmental entities? (Note -- Optional, agreement not required for contract award.) All Purchases made by other governmental entities shall be understood to be transactions between that entity and the awarded vendor; the City of Pompano Beach shall not be a party to or be responsible for any such purchases. Indicate by selecting yes or no from the drop down menu.

Yes

5 Vendor Certification Regarding Scrutinized Companies Lists (Any Dollar Amount)

Section 215.4725, Florida Statutes, prohibits agencies from contracting (at any dollar amount) with companies on the Scrutinized Companies that Boycott Israel List, or with companies that are engaged in a boycott of Israel. As the person authorized to electronically sign on behalf of Respondent, I hereby certify by selecting the box below that the company responding to this solicitation is not listed on the Scrutinized Companies that Boycott Israel List. I also certify that the company responding to this solicitation is not participating in a boycott of Israel, and is not engaged in business operations in Syria or Cuba. I understand that pursuant to sections 287.135 and 215.4725, Florida Statutes, the submission of a false certification may subject company to civil penalties, attorney's fees, and/or costs. Select yes for Agree, No for disagree on the drop down menu.

Yes

6 Drug-Free Workplace

STATEMENT UNDER SECTION 287.087, FLORIDA STATUTES ON DRUG-FREE WORKPLACE

REQUESTED INFORMATION BELOW IS ON THE ATTRIBUTES TAB FOR THE RFP IN THE EBID SYSTEM. PROVIDE THIS INFORMATION ELECTRONICALLY.

Preference must be given to Contractors submitting certification with their bid or proposal, certifying they have a drug-free workplace in accordance with Section 287.087, Florida Statutes. This requirement affects all public entities of the State and becomes effective January 1, 1991.

Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids which are equal with respect to price, quality and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

(1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

(2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

(3) Give each employee engaged in providing the commodities or contractual services that are under bid, a copy of the statement specified in subsection (1).

(4) In the statement specified in subsection (1) notify the employees that as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace, no later than five (5) days after such conviction.

(5) Impose a sanction on, or require the satisfactory participation in, a drug abuse assistance or rehabilitation program if such is available in the employee's community, by an employee who is so convicted.

(6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign this statement, I certify that his company/firm complies with the above requirements.

By choosing YES, I hereby certify that the company/firm complies with all the above requirements

Yes

7	**Conflict of Interest** For purposes of determining any possible conflict of interest, all bidders must disclose if any City of Pompano Beach employee is also an owner, corporate officer, or employee of their business. Indicate either "Yes" (a City employee is also associated with your business), or "No". (Note: If answer is "Yes", you must file a statement with the Supervisor of Elections, pursuant to Florida Statutes 112.313.)Indicate yes or no below with the drop down menu. No
8	**City of Pompano Beach Local Business** Is your company a Local Business located within the City of Pompano Beach City Limits as required by the Local Business Program? (A copy of your current City of Pompano Beach Business Tax Receipt may be requested.)Indicate yes or no from drop-down menu. Yes

National Provider Network

We're proud to offer a network our members can rely on, continuously focused on what matters most:

- **Guidance to high-quality providers**
- **Convenient access to care locally, digitally and virtually**
- **Cost and quality transparency**
- **Simpler, more coordinated care**

Aetna Healthy Chapters™

Aetna Healthy Chapters, our expanded family care program, delivers inclusive, personalized support across life stages and milestones. This includes maternity, menopause support, men's health and more. It helps close gaps in care, lower costs and drive healthier outcomes with:

- Proactive, data-driven outreach
- Targeted engagement
- Local access, digital tools and specialized providers
- Virtual care, a broader network and 24/7 access
- Integration with Aetna programs

A key feature of Aetna Healthy Chapters is our enhanced maternity support. We assess risks, help members understand what to expect during and after pregnancy, make postpartum outreach calls and encourage open communication with doctors. We also offer infertility support and prepregnancy planning education.

The convenience of local care, with the strength of a national foundation

Wherever you go, we're there offering quality care and support. And with data integration, amplified care management and proactive pharmacist interventions at CVS Health locations, your employees can achieve even greater engagement and better outcomes.

Network Discounts Guarantee

99%

Provider Medical Network Match

National Network

- No additional fees or enrollment process for students

Discount Guarantee = [redacted] 25% of fees at risk

- **99%** Provider Medical Network Match (little to no disruption)
- CVS Virtual Primary Care Plus

Right people, right approach, right outcomes

Tailored care and support

Each City of Pompano Beach employee is different. So are their health needs. Along with a strong clinical foundation, they can take advantage of:

- Proactive outreach
- One-to-one nurse engagement
- Chronic condition support
- Compassion Care program
- Hyperlocal care including MinuteClinic® locations and more.

Forward-thinking virtual care

Offering coverage for the care your employees need *how and when they need it* is a vital part of the health experience. Our virtual approach boasts a care team to help members seamlessly navigate their journey. And virtual care is easily integrated with in-person services, Aetna care management and Aetna high-performing specialists.

Guidance and insight

Aetna Smart Compare®, a national designation program, identifies physicians and specialty providers who deliver effective, quality care. And Intelligent Matching delivers a "picked for you" list of provider recommendations to help members make more informed decisions.

The Aetna One Flex® care model

[redacted]
projected return on investment, an average savings of [redacted] **per employee, per month*****

96%
member satisfaction rate[9]

~90%
of members reached engaged in a clinical conversation[10]

[redacted]

An integrated, innovative and fully connected health experience

With our combined CVS Health and Aetna medical and pharmacy assets, we help you drive engagement and improve healthy outcomes.

Our integrated approach offers proven cost savings for you, plus:

- Reduced emergency room visits and inpatient days
- Early, targeted engagement for at-risk members
- Integrated digital experience with one reporting platform
- Simpler member experience with one care team, one ID card and one app

Plus, we can find gaps in care, recommend alternatives for high-cost medication and identify drugs that may clash with a condition or other medication.

Integrated assets amplify results

Up to 15%
lower rates of admissions and readmissions[11]

Up to 19%
reduction in ER visits[11]

Up to 17%
increased mental health visits[11]

Personalized engagement drives improved outcomes

Motivate your employees to lead healthier lives with Aetna Advice®, our leading-edge data science tool. Together, we can inspire members to make smarter choices *on their terms*. This leads to better outcomes for them and bigger savings for you. Results tell us our approach works:

Up to 35%
Aetna Advice engagement rate[12]

Up to 16%
of members have changed their behaviors[12]

11 Measures are based on the Aetna One Advocate/Advisor Plan Sponsors who have Aetna Medical/Pharmacy only. Average membership is 1,000,952 members. Incurred claims with 2 months processed claims for CY 2023 vs CY 2022.
12 CVS Health® Analytics and Behavior Change. Aetna Advice program level results, 2024.

By your side

Strategic insights

Through one digital platform, we collect integrated data from medical, pharmacy and third parties and turn it into clear insights. These insights refine your plan strategy, position you for success and help you evaluate our performance.

By thoughtfully weighing this data we can work together to reduce barriers to care and help you save costs.

Stewardship you can trust

Every step of the way, we align with you to make sure you and your employees have an exceptional experience. Plus, we have a proven record of successfully transitioning plan sponsors from another carrier to Aetna. Our high-performing implementation teams differentiate us in the marketplace.

96%

overall customer satisfaction with Aetna[19]

Equally committed to your success

You have our word, we'll work as hard for you as you work for your employees and their families. Every day we're evolving health care *together*.

Proposal highlights- You have our commitment to transparency and a strong financial offering. Please refer to the financial section of the proposal for complete details.

Total Fees	**$480,039**	**$640,052**	**$640,052**

*Clarifications

- PEPM is defined as Per Employee, Per Month for subscribers covered under your Aetna medical plan.
- Please see Programs and Services for additional information. Some services may come at additional cost to the fees shown above.
- Broker Compensation, if applicable, is subject to customer approval.
- Any Plan Year costs are based on the Estimated Enrollment and subject to change based on actual enrollment.

Administrative Fee Guarantee

Our offer includes an administrative fee guarantee for the Guarantee Period October 1, 2026 to September 30, 2029. The guaranteed administrative fees excludes broker compensation, fee adjustments and other charges listed above. The guarantee is subject to the terms and conditions as stated in the caveats and is contingent upon the customer maintaining all lines of business with Aetna. Programs and Services billed via the Claim Wire and Additional Buy-up services outlined on the Programs and Services exhibit may be subject to annual increases provided at time of renewal.

Prescription Drug Benefits

Our quotation assumes that prescription drug benefits will be provided by Aetna. Additional pharmacy administrative fees may apply. Refer to our Pharmacy Service and Fee Schedule and Program Summary for additional information. If you terminate prescription drug benefits with us, we will increase the ASC Medical Service Fees and the medical trend assumption used for any applicable claim projections or guarantees. You may also be subject to additional charges to integrate data with external Pharmacy vendors. Refer to the reporting charges outlined in the Programs and Services exhibit for more information. Additionally, the Fee Credit may not apply. Refer to the terms on the Fee Credit Letter.

Fee Credit

We have included an administrative service fee credit. You agree to pay us the total amount of the fee credit issued if you terminate your medical plan(s) or any of the additional product(s) quoted (if applicable) prior to the end of the multi-year Guarantee Period. Refer to your fee credit letter for specific details.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies.

The information contained in this proposal is confidential and should not be shared with anyone other than your broker or benefit plan consultant.

Monthly 3rd Party Stop Loss Vendor Reports (12 total reports)*	$6,000	$6,000

*Additional Program Details

Claim Wire Billing, ID Cards, Subrogation, Contracted Services, Claim and Code Review
Details can be found in our UW Disclosure document located at the following URL:
https://www.aetna.com/content/dam/aetna/pdfs/aetnacom/legal-notices/documents/large-group-and-public-labor-self-funded-medical-underwriting-disclosures-as-of-01-01-2026.pdf

No Surprises Act - Fees
The NSA claim administration fee will increase at each annual renewal and apply to NSA eligible claims paid on or after that renewal date. Refer to the NSA Payment Practices in our Caveats for information on our payment practices for NSA eligible claims.

No Surprises Act - IDR Fees
IDR fees are required by the NSA rules and are payable to the IDR entity. There is an initial fee to begin an arbitration, which applies to each case. There is also an additional fee for the arbitration expenses; the losing party within the dispute is liable for this fee. For batch cases, the NSA permits IDR entities to charge a different arbitration fee based on a set fee range and/or percentage of the batch fee. The fees are passed through (with no mark up by Aetna) to a customer based on the number of line items for their plan that were included in the batch case. The current NSA fees are set by federal agencies. Both the initial fee and the arbitration expense fee are subject to future adjustments by the agencies (and any such adjustments shall be applied to your plan).

3rd Party Stop Loss Vendor Reports
The 3rd Party Stop Loss Vendor Reports fee will increase at each annual renewal. The fee can also change if the Stop Loss Contract Type is different from our assumption.

Aetna One® Flex
Engagement begins upon a two-way interaction (i.e. telephonic, email, secured messaging, etc.) with a member of the multi-disciplinary care team (i.e. nurse, registered social worker, pharmacist, health coach, or behavioral health specialist). After one month without a two-way interaction a member is no longer considered engaged.

CVS Health Virtual Care™
In addition to the administrative fees as outlined above, there is a per consultation charge which will be shared by the member and plan sponsor based on type of service provided and member's benefit plan. Specific charges are available upon request.

CVS Health Virtual Primary Care™ (CVSH VPC)
CVSH VPC requires CVS Health Virtual Care™. CVSH VPC is not available on gated plans (plans requiring a primary care physician referral.) CVSH VPC cannot be offered with some narrow network arrangements. Specific exclusions are available upon request.

Full National Reciprocity
Excludes some standalone Aetna Whole Health networks. Details are available upon request.

Institutes of Excellence™ (IOE)
This program includes a steerage component by educating members on the benefits of using an IOE designated facility. However, benefit differential steerage is not supported for IOE Infertility network.

National Advantage™ Program (including the Contracted Rates, Facility Charge Review and Itemized Bill Review Components)
NAP includes a Contracted Rates component and two optional components: Facility Charge Review (FCR) and Itemized Bill Review (IBR). In addition, some plans also elect Professional Claims Repricing Service (PCRS) as their out-of-network plan rate for professional services. NAP's Contracted Rates component offers access to contracted rates for many medical claims from non-network providers (including claims for emergency services and claims by hospital-based specialists such as anesthesiologists and radiologists who do not contract with insurers) and ad hoc negotiations (when a contracted rate is not available). We retain a percentage of savings achieved through NAP, including savings achieved through FCR, IBR, and PCRS, if elected. This NAP Fee is in addition to the per employee, per month administrative service fees.

Personal Health Record (PHR)
PHR requires MedQuery®.

City of Pompano Beach

Administrative Fee Credit Letter **Effective Date: October 1, 2026**

We are offering you a fee credit which will save you $160,013.*

We are offering you an administrative fee credit as shown in the chart below. This credit will be calculated based on the first month's enrollment and applied to the second month's bill in the Guarantee Period unless you notify us otherwise at the time of sale.

Administrative Fee Credit	Year 1
Plan Year Effective Date	10/01/2026
Fee Credit*	3 months to a maximum of $160,013

*Savings are estimated for the multi-year Guarantee Period. The calculation is based on Year 1 expected enrollment and the PEPM administrative service fees. The Fee Credit won't exceed the maximum dollar amount.

The fee credit will be subject to the following provisions:

- Our self-funded medical Agreement will remain in effect for the duration of the Guarantee Period.
- You are required to make the medical fee payments in accordance with your Agreement.
- Standard termination provisions apply.
- All of the plan caveats as stated on the Caveats page in the final proposal are met.
- Any producer compensations will be excluded from the medical fee credit.
- Future renewals will be calculated based on the annualized medical fees before giving any effect to the medical fee credit.
- Contingent upon Aetna being the sole provider for all quoted lines of coverage.

You agree to pay us the total amount of the fee credit issued for the multi-year Guarantee Period within 31 days of notice of non-compliance if any of the following occur:

- Any of the above provisions are not met
- You terminate the Agreement prior to the end of the multi-year Guarantee Period

The fees shown on the accompanying Fee Schedule will be billed every month of the Guarantee Period. The fee credit will be shown as a separate line item. When you accept our quote, the Fee Schedule will become part of your Agreement with us.

You may wish to consult with your legal advisors about any changes that you may need to make in the administration of your plan as a result of this credit consistent with your fiduciary obligations such as making adjustments to participant contributions.

Please sign and return to us by September 1, 2026 to indicate your acceptance of this offer.

Shannon Blakeslee – Underwriting Director Date

Officer – City of Pompano Beach Date

Allowances - Self-Funded

Effective Date: October 01, 2026

We are including allowance(s) for your Aetna plans applicable to each year of the Guarantee Period as outlined in the chart below. Allowance dollars must be used for your commercial Aetna medical plans and Aetna medical members.

Annual Allowance Type	Year 1	Year 2	Year 3	Year 4	Year 5
Plan Year Effective Date	10/01/2026	10/01/2027	10/01/2028	10/01/2029	10/01/2030
Health Plan	$150,000	$150,000	$150,000	$150,000	$150,000
Total	**$150,000**	**$150,000**	**$150,000**	**$150,000**	**$150,000**

Annual allowance amounts may be adjusted if actual enrollment changes by 15 percent or more from our enrollment assumptions.

Health Plan Allowance

- The **Health Plan allowance** can be used to offset reasonable documented expenses applicable to the Guarantee Period(s) for which it is offered. Your allowance can be used for implementation, communication, reporting, and audit associated with your Aetna Medical plan. Examples of reimbursable expenses include:
  – implementing your contract with us
  – promoting our products, programs or services, such as, educational content and materials for enrollees or prospective enrollees
  – Aetna required technology platforms or our system front-end charges to support our plans
  – communicating with our members
  – auditing our readiness
  – recurring or ad hoc reporting with us
  – reporting costs to integrate our data with third-party vendors.
- Your allowance can also be used to offset reasonable documented wellness-related programs or activities incurred during the Guarantee Period for which the allowance is offered. Wellness allowance expenses must be for wellness-related programs or activities that are reasonably designed to promote the health and well-being of Aetna members, or to educate Aetna members about healthy lifestyles and/or prevent disease. This means that there must be a connection to the health and well-being of the members, with a focus on preventative measures or healthy living (i.e., diet, exercise), not on acute care. Wellness programs and activities funded by allowance funds are not covered benefits under your Aetna plan.
- Claims audit expenses must be incurred during the Guarantee Period for which the allowance is offered.
- Should you terminate your contract with us, the allowance cannot be used to fund implementation/communication expenses related to the new carrier's contract.
- Any expenses associated with the implementation, administration or communication of another carrier’s plans, programs or services are also ineligible.

The above referenced fund(s) will be available after the effective date of each plan year. Only those expenses performed and billed by a third party are payable. Reimbursement for time and materials incurred directly by the plan sponsor (e.g., hours worked by the plan sponsor's own employees) are not eligible. Your normal business operation expenses, including employee salaries and overtime, are not eligible under the allowance. Our preferred method of payment is directly to the third-party vendor. We require submission of appropriate documentation detailing charges for the services provided by the vendor. Acceptable documentation includes, but is not limited to, detailed vendor invoices itemizing services provided, specific cost-elements and associated line-item charges.

On an exception basis, we can reimburse you directly provided you submit both the detailed invoice and receipt showing payment to the third-party vendor.

You should submit documentation within 60 days of the invoice date. We must receive all documentation no later than 60 days following the close of the plan year to be considered for reimbursement.

The allowance amounts indicated above for the following Allowance Type(s) are available for the years indicated in the chart. These allowances are forfeited at the end of each plan year if not fully utilized. There is no roll over of unused funds to the next policy year. Any unredeemed wellness incentives that may be offered through a "reward program" are forfeited at the end of each plan year.

- Health Plan

Allowances - Self-Funded

Effective Date: October 01, 2026

We assume the funding of any allowance dollars is either at the request of your Plan Administrator acting in its fiduciary capacity or for the exclusive benefit of your Plan. You are responsible for determining that your use of allowance dollars is appropriate and legally compliant. With respect to allowance dollars that are used in connection with a wellness program, you are responsible for ensuring that the program and any incentives/rewards comply with applicable laws, including limitations on maximum allowable incentives/rewards. We will pay any allowances in accordance with applicable law. We suggest you seek appropriate accounting and legal counsel for all payments to ensure they comply with applicable accounting principles and laws.

If you terminate your medical plan with us in whole or in part prior to the end of the multi-year Guarantee Period, you'll be responsible for remitting payment for any allowance amounts used during the multi-year Guarantee Period. Payment is due to us within 31 days of the invoice. Termination is defined as a 50 percent or greater membership reduction from the membership we assumed in this proposal.

Caveats - Self-Funded — Effective Date: October 01, 2026

For the purposes of this document, Aetna may be referred to using "we", "our" or "us"and City of Pompano Beach may be referred to using "you" or "your".

If fees are adjusted, the caveats below will apply and be based on the new assumptions.

Underwriting Caveats

Your pricing considers all the products, programs and services you have with us and will be in effect for the full 12 months of the plan year. Pricing for some programs and services are amortized over a 12-month period. Therefore, fees will not be reduced if termination occurs prior to the end of the plan year. We also assume the proposal assumptions below remain consistent throughout the plan year. We require notice to properly terminate before the plan year ends in accordance with the Termination provision in your Agreement. Otherwise, you may be charged for the cost until that notice is met.

If any of the changes outlined below occur, we may adjust your Guaranteed Fees. If this happens, you'll have to pay any difference between the fees collected and the new fees calculated back to the start of the Guarantee Period. If you are not notified of the change in advance, such difference will be reconciled in the year-end accounting for the Guarantee Period. If fees are adjusted, the caveats below will be based on the new assumptions.

During the Guarantee Period we may adjust your Guaranteed Fees if:

Enrollment

There is a 10 percent change in total or by product from the assumed enrollment shown on the Fee exhibit.
Our proposal assumes coverage will not be extended to additional employee groups without review of supplemental census information and other underwriting information for appropriate financial review.

Member-to-Employee Ratio

The member-to-employee ratio changes by more than 10 percent from the 1.77 ratio assumed in this quote.

Age 65 and Over Enrollment

The number of enrolled employees age 65 and over (excluding those enrolled on Medicare Direct plans) exceeds 10 percent of the total enrolled group or changes by more than 10 percent from the 74 enrollees assumed in this quote. Patient Management programs are excluded for Medicare primary members.

Maximum Account Structure

Maximum account structure exceeds the number of units illustrated in the table below. Account structure determines the reporting format. During the installation process, we'll work with you to finalize the account structure and determine which report formats will be most meaningful. Maximum total account structure includes Experience Rating Groups (ERGs), controls, suffixes, billing and claim accounts.

Total Employees (Choice POS II, Open Access Aetna Select, PPO, EPO, Aetna HealthFund®, Indemnity)	Maximum Total Structure Per Product
Less than 1,000	60
1,000 to 2,999	80
3,000 to 4,999	150
5,000 to 9,999	300
10,000 to 19,999	350
20,000 to 49,999	500
50,000 and over	750

Quoted Benefits and Administration

A material change is initiated by you or by legislative or regulatory action which materially affects the cost of the plan. This includes, but is not limited to, changes impacting standard contract provisions, claim settlement practices, plan administration, plan benefits or changes to the programs and services we offer you.

National Advantage™ Program

You change or terminate the National Advantage™ Program (NAP), Facility Charge Review (FCR), Itemized Bill Review (IBR), or Professional Claims Repricing Service (PCRS) programs.

Multi-Year Provision

You place the products, programs and services included in this multi-year fee guarantee out to bid with an effective date prior to September 30, 2029, then this guarantee is no longer valid.

Total Replacement

Any of the quoted lines of coverage are offered with an additional carrier.

Performance Guarantees

If any of the conditions outlined above occur, then any performance guarantees may be changed or terminated based on the caveats outlined in those guarantee documents.

Multiple Employer Welfare Arrangements (MEWAs) and Employer Association Health Plans (AHPs)

This quote was prepared based on the demographic information for eligible enrollees, including their home zip codes, in accordance with all applicable mandates. We must be notified immediately of any changes that affect plan locations due to new or changing enrollment statuses. We will evaluate regulatory requirements and may not be able to extend coverage in states which prohibit large group coverage through MEWAs and AHPs.

We're relying on information from you and your representatives in establishing the fees and terms of this proposal. If any of this information is inaccurate and has an impact on the cost of the programs, we reserve the right to adjust our fees and terms upon the receipt of corrected information.

Assumptions

Underwriting

Agreement Provisions

Our quotation assumes our standard Agreement provisions and claim settlement practices apply unless otherwise stated.

Participation

A minimum of 150 enrolled employees is required to administer the proposed products on a self-funded basis.

Plan Design

This proposal is based on the current benefit plan designs, plus any noted deviations, subject to the terms of our Benefit Review document.

Retiree-Only Plans and No Surprises Act (NSA)

Retiree-only plans, as defined by the Department of Labor, are exempt from the NSA. It is your responsibility to notify Aetna if you have a plan that qualifies as a retiree-only plan or if there are any changes to your plan's retiree-only status. Please contact your Account Team if you have a retiree-only plan, or if the retiree-only status changes, to ensure that the NSA and other Consolidated Appropriations Act (CAA) provisions are applied appropriately to your plan. Failure to do so may result in your plan's non-compliance with the NSA.

Claim Fiduciary - Option 1

Our proposal assumes we've been delegated claim fiduciary responsibilities. As claim fiduciary, we'll be responsible for final claim determination and the legal defense of disputed benefit payments. Our appeal administrative services are automatically included when we've been delegated claim fiduciary responsibilities.

External Review

We've included external review in our proposal. External review uses outside vendors who coordinate medical review through their network of outside physician reviewers.

Non-ERISA

For non-ERISA plan, the risk and responsibilities are different from those under ERISA plans, since the ERISA preemption and ERISA standard of performance do not apply. Our charge for non-ERISA plans must account for the additional liability risk as compared to known risks under an ERISA plan.

Member Communications

Pricing assumptions include direct communications access to Aetna membership through both ongoing Aetna Health communications and relevant ongoing included product/program specific communications. These communications can reduce member and plan costs by guiding in care navigation, managing chronic conditions, promoting preventive services, and more.

Wellness Incentives and Rewards

We offer several different wellness incentives and rewards programs that you may choose from to offer to your members. We, or our third-party vendors, will administer and distribute to your members any wellness incentives or rewards earned based on the programs selected under the direction and control of your plan. The wellness incentives and rewards earned through these programs may be taxable for your members. We will provide you with reporting which will identify members who have earned such wellness incentives or rewards. These reports will provide the data needed for any tax information reporting requirements that you determine are necessary.

With regard to these wellness incentives and rewards, you, as the Plan Sponsor have the following responsibilities:

- Ensure any incentives or rewards offered to your members comply with applicable law and any limitations imposed thereunder. This includes but is not limited to, the Health Insurance Portability Act (HIPAA), the Americans With Disabilities Act (ADA) and the Genetic Information Nondiscrimination Act (GINA).
- Distribute notices and/or obtain any authorizations required by law.
- Comply with all tax information reporting requirements regarding any wellness incentives or rewards earned through these programs (cash, cash equivalent, or other tangible property) and provided by us or our third-party vendor to your members.
- Assume any and all liability for your noncompliance with any tax withholding or information reporting requirements.

You may wish to consult with your legal counsel or other advisors as to the proper tax treatment of such wellness incentives or rewards and to ensure that the incentives or rewards offered under your program comply with applicable law.

Third-Party Audits

We don't typically charge to recoup internal costs associated with a third-party audit. We reserve the right to recover these expenses if significant time and materials are required.

Mental Health/Substance Abuse Benefits

Our quotation assumes that mental health/substance abuse benefits are included.

Prescription Drug Benefits

Our quotation assumes that prescription drug benefits will be provided by Aetna.

Additional pharmacy administrative fees may apply. Refer to our Pharmacy Service and Fee Schedule and Program Summary for additional information.

If you terminate prescription drug benefits with us, we will increase your ASC Medical Service Fees and the medical trend assumption used for any applicable claim projections or guarantees. You may also be subject to additional charges to integrate data with external Pharmacy vendors. Refer to the reporting charges outlined in the Programs and Services exhibit for more information. Additionally, the Fee Credit may not apply. Refer to the terms on the Fee Credit Letter.

Stop Loss Reporting

Our quotation assumes stop loss coverage is provided by Aetna and therefore reporting to an external vendor is not required. If we are no longer the stop loss carrier, external reporting charges will apply.

Medical Pharmacy Rebates

Rebates for pharmacy products administered and paid through the medical benefit rather than the pharmacy benefit will be retained by Aetna as compensation for our efforts in administering this program.

Additional Products, Programs and Services

Costs for special services rendered that are not included or assumed in the pricing guarantee will be billed through the claim wire, on a single claim account, when applicable, to separately identify charges. Additional charges that are not collected through the claim wire during the year will either be direct-billed or reconciled in conjunction with the year-end accounting and may result in an adjustment to the final administration charge. For example, you will be subject to additional charges for customized communication materials, as well as costs associated with custom reporting, booklet and SPD printing, etc. The costs for these types of services will depend upon the actual services performed and will be determined at the time the service is requested.

Caveats - Self-Funded — Effective Date: October 01, 2026

Billing Information

Advanced Notification of Fee Change

We'll notify you of any off-anniversary fee change within 31 days of the fee change.

Late Payment

We reserve the right to assess a late payment charge at a 12 percent annual interest rate as follows:

- if you fail to pay plan benefit payments the same day of the request.
- if you fail to pay administrative service fees within 31 days of the due date.

We'll notify you of any changes in late payment interest rates. The late payment charges described in this section are without limitation to any other rights or remedies available to us under the Agreement or at law or in equity for failure to pay.

Incurred late wire interest charges will be added to a future wire request and collected through your claim wire billing account. Incurred late fee payment interest charges will be added to a future service fee bill.

Producer Compensation

The quoted fees don't include producer compensation.

Claim and Member Services

Run-In Claim Processing

Our proposal excludes run-in claim processing from the prior carrier (claims incurred before the effective date of the plan).

Runoff Claims Processing

Your administrative service fees are mature. The expenses associated with processing runoff claims following termination are covered for one year.

Summary Plan Description (SPD) Modification

We've assumed that the standard SPD language will be used and any customization may require an additional cost.

Reporting and Data Transfer

Aetna Intellectual Property

Under the Agreement, you may have access to certain of Aetna's Plan Sponsor reporting systems. Aetna represents that it has either the ownership rights or the right to use all of the intellectual property used by Aetna in providing the Services under the Agreement ("Aetna IP"). Aetna will grant you, as the Plan Sponsor, a nonexclusive, non-assignable, royalty free, limited right to use certain of the Aetna IP for the purposes described in the Agreement. You agree not to modify, create derivative product from, copy, duplicate, decompile, dissemble, reverse engineer or otherwise attempt to perceive the source code from which any software component of the Aetna IP is compiled or interpreted. Nothing in the Agreement shall be deemed to grant any additional ownership rights in, or any right to assign, sublicense, sell, resell, lease, rent, or otherwise transfer or convey, the Aetna IP to you.

Claims History Transfer

These files are used to administer deductible and internal maximums. There is no cost associated with receiving claim history files electronically from the prior carrier for initial implementation. There is a charge for files received in a format other than electronically; costs are based on the complexity and format of the data.

Data Integration (Historical)

Our proposal assumes one historical medical and one historical pharmacy data integration feed. Additional fees will apply if feeds from more than one historical vendor are required.

Data Integration (Ongoing)

Options and pricing for integrating claims data from an external vendor into one or more of our systems will vary depending on the scale of your integration needs.

Data Transfer at Termination

Upon Agreement termination, we agree to cooperate with succeeding administrators in producing and transferring required claim and enrollment data. Data will be transferred within 30 days after determination of specific format and content requirements, subject to a charge that is based on direct labor cost and data processing time.

Caveats - Self-Funded — Effective Date: October 01, 2026

Banking

We've assumed that you provide funds through a bank initiated Fedwire wire transfer for drafts issued under the self-funded arrangement assumed in this proposal.

Our standard banking arrangement is to request funds when claims have accumulated to more than $20,000. In this arrangement, a wire request is sent to you and/or your bank requesting funds for the total claims from the previous day(s). For most customers, this would mean daily claim wire transfers. In place of this arrangement, we'll request funds for claims weekly on Friday. In addition, there will be a month end close out request on the first banking day of each subsequent month. We've included the cost of this service in your Guaranteed Fees.

The proposed banking arrangement is subject to change based on results of a credit risk evaluation. We may complete an evaluation upon notification of sale.

We've assumed you'll use no more than three primary banking lines which are shared across all self-funded products, excluding Flexible Spending Account (FSAs). Additional wire lines and customized banking arrangements will result in an adjustment to the proposed pricing.

Seed Money

An advanced deposit of $227,234 is required to cover benefit payments that have been issued under the self-funded arrangement. Seed money should not be funded with plan assets. The seed money deposit, equal to one week of claims for issued-basis, is due September 01, 2026. Upon receipt of the deposit, we will begin claim processing per the Agreement. If not received by the requested date, claims may be placed on hold and claim performance guarantees may be null and void at our discretion. In addition, we'll annually review and may adjust the seed money deposit requirement. If we're not processing runoff claims, the upfront deposit will be returned to you one year following the termination date. If we're processing runoff claims, the upfront deposit will be returned to you 12 months after the end of the runoff period, as long as there are no additional funds due to us. This requirement serves as a security deposit in the event that you're unable to honor your claim wire requests either while the Agreement is active or following termination.

Additional

Please review the additional important information found at the following URL. This information is incorporated by reference into this package and considered part of your Agreement. This quote is subject to all the terms and conditions set forth in this URL. In the event that any information contained herein conflicts or is inconsistent with the information in the Underwriting Disclosure Document, the information in your package prevails.

https://www.aetna.com/content/dam/aetna/pdfs/aetnacom/legal-notices/documents/large-group-and-public-labor-self-funded-medical-underwriting-disclosures-as-of-01-01-2026.pdf

Legislative and Regulatory Requirements

Affordable Care Act (ACA) Taxes and Fees - Notice to Self-Funded Group Health Plan's Financial Liability

The Affordable Care Act (ACA) imposed Patient-Centered Outcome Research Trust Fund fee (PCORI) on the issuers of specified health insurance policies and plan sponsors of applicable self-insured health plans. The fee was set to end in 2019, but it was extended for 10 years through 2029. The fee applies to policy or plan years ending on or after October 1, 2012, and before October 1, 2029.

Any taxes or fees (assessments) related to the Affordable Care Act that apply to the self-insured health plans are your obligation. The Administrative Service Fee does not include any such liability or the remittance of the fees on your behalf.

NSA Payment Practices

The No Surprises Act (NSA) applies to certain out of network claims at participating facilities when the member doesn't have a choice or is unaware the provider is out of network. The law protects plan participants by limiting cost sharing to the preferred benefit level and prohibits balance billing by out of network providers. For NSA eligible claims, we will pay the out of network provider an initial payment amount. In most cases, the initial payment will be an amount equal to the qualifying payment amount as defined in NSA regulations (generally, the median contracted rate for a specific service in a geographic area). A provider may choose to go to independent dispute resolution (IDR) if the provider does not accept our payment as payment in full. During the IDR process, you authorize us to pay more than the qualified payment amount in order to reasonably settle the matter when it appears expedient to do so.

Recovery of Overpayments

Our process of recovering overpayments attempts to recoup money in the most accurate, effective, and cost-efficient manner.

When seeking recovery of overpayments from a provider, we have established the following process: If unable to recover the overpayment through other means, we may offset one or more future payments to that provider for services rendered to Plan Participants by an amount equal to the prior overpayment. We may reduce future payments to the provider (including payments made to that provider involving your or other health and welfare plans that are administered by us) by the amount of the overpayment, and we will credit the recovered amount to the plan that overpaid the provider. By entering into an agreement with us, you are agreeing that its right to recover overpayments shall be governed by this process and that it has no right to recover any specific overpayment unless otherwise provided for in the Agreement.

Guarantee Summary — Effective Date: October 01, 2026

We believe that measuring the activities described below is an important indicator of how well we service your account, as such, we have included the following performance guarantee(s) as part of our proposed offering.

This information pertains to any performance guarantee(s) shown below, or for any additional guarantees which may be offered for the same Guarantee Period. Refer to the guarantee documents for additional conditions and details.

The performance guarantee(s) described herein will not apply if the Agreement is terminated prior to the end of the Guarantee Period. In addition, all included performance guarantee(s) are subject to enrollment requirements as outlined in the financial conditions of each included guarantee.

Aggregate Maximum

The maximum payout for all guarantees combined is 25 percent of the fees at risk based on the calculation as noted in the provisions below.

General Guarantee Provisions

1. Fees at risk are calculated at the year-end reconciliation, using the paid medical administrative service fees for employees covered under each guarantee for the Guarantee Period and excludes:
   - Allowance(s)
   - Any charges for services performed which are not included on the monthly administrative service fee bill
2. Results are estimated to be available at the end of the quarter noted below, following the close of the Guarantee Period:
   Second Quarter
   - Service Performance Guarantee

   Third Quarter
   - Discount Guarantee
3. If the guarantee(s) have not been met, we will either:
   - Provide reimbursement to you for the amount due, or
   - Reduce future administrative fee payment(s) by the amount due to you.
4. We reserve the right to revise or remove these guarantee(s) if a material change to the plan is initiated by you or legislative or regulatory action which:
   - Impacts our standard claim adjudication process, member services functions, medical management or network management
   - Changes the products, programs and services we offer you
5. The guarantee(s) are considered met if:
   - You terminate participation in products, programs and services tied directly to guarantee(s), prior to the end of the Guarantee Period.
   - You terminate your Aetna medical plan in whole or in part (defined as 50 percent or greater membership reduction from the membership we assumed in this proposal) prior to the end of the multi-year Fee Guarantee Period, September 30, 2029.
   - You fail to meet your obligations under the Agreement (for example, a submission of incomplete eligibility or failure to fund claim payments)
   - We do not receive all of the necessary information in the allotted timeframe, as outlined in the guarantee document(s).
6. If you do not purchase a product, program or service tied directly to a guarantee, the guarantee will be removed.

City of Pompano Beach

Guarantee Summary **Effective Date: October 01, 2026**

Medical Service Performance Guarantee

We guarantee the administration of your medical and behavioral health product(s) in the following areas:

Performance Category	Minimum Standard	Maximum Fees at Risk
Implementation		
Implementation	Average score of 3.0	3.0%
Account Management		
Overall Account Management	Average score of 3.0	3.0%
Claim Administration		
Turnaround Time (TAT)	14 days for 90.0%	2.0%
Financial Accuracy	99.0%	2.0%
Total Claim Accuracy	95.0%	2.0%
Member Services		
Customer Effort Score (CES)	95.0%	1.5%
Customer Satisfaction Score (CSAT)	95.0%	1.5%
Total		**15.0%**

Discount Guarantee

We guarantee that your in-network discount for the Guarantee Period will be [redacted] or better, assuming current enrollment and book-of-business service mix. The illustrative composite discounts are below.

Illustrative Inpatient Hospital Discount	Illustrative Outpatient Hospital Discount	Illustrative Physician/Other Discount	Illustrative Composite Target Discount	% of Fees at Risk
[redacted]	[redacted]	[redacted]	[redacted]	[redacted]

Medical Service Guarantees — Effective Date: October 01, 2026

Guarantee Period: October 1, 2026 through September 30, 2027
Medical Fees at Risk: 15.0%

We guarantee the administration of your self-funded medical and behavioral health product(s) in the following areas:

Category	Guarantee	Fees at Risk	Criteria
Implementation			
Implementation	An average score of 3.0 on the Implementation Evaluation Tool survey(s). Each question has a rating scale of 1 to 5 (1 = lowest, 5 = highest). The results of the surveys are used to facilitate a discussion between you, your Implementation Manager and your Account Team regarding the results achieved and opportunities for improvement. The implementation period begins at the initial implementation meeting and runs through the implementation sign-off. If the Implementation Evaluation Tool is not completed and returned within 30 business days of receipt, it is assumed that the service provided to you is satisfactory and the guarantee is deemed met.	Mutually agreed upon adjustment if the final evaluation score falls below a 3.0, (meaning that service levels have not improved), up to a maximum of 3.0% of medical fees.	Measurement basis Customer specific Measurement period Annually Reporting period Annually
Account Management			
Overall Account Management	An average score of 3.0 on the semi-annual surveys for on-going account management, financial, eligibility, drafting and benefit administration. The average is based on 24 questions with a rating scale of 1 to 5 (1 = lowest, 5 = highest). The results of the surveys are used to facilitate a discussion between you and your Account Team regarding the results achieved and opportunities for improvement. If the online surveys are not completed within 15 business days of receipt, it is assumed that the service provided to you is satisfactory and the guarantee is deemed met.	Mutually agreed upon adjustment if the final evaluation score falls below a 3.0, (meaning that service levels have not improved), up to a maximum of 3.0% of medical fees.	Measurement basis Customer specific Measurement period Annually Reporting period Annually

Medical Service Guarantees			Effective Date: October 01, 2026
Claim Administration			
Turnaround Time (TAT)	14 calendar days for 90.0% of the processed claims on a cumulative basis. We measure TAT from the claimant's viewpoint; that is, from the date the claim is received in the service center to the date that it is processed (paid, denied or pended). TAT excludes those claims identified as rework**. Weekends and holidays are included in turnaround time.**	0.40% for each full day that the TAT exceeds 14 calendar days for 90.0% of the processed claims, up to a maximum of 2.0% of medical fees.	Measurement basis Customer specific: *≥ 3,000 enrolled members* Site Level: *< 3,000 enrolled members* Measurement period Annually Reporting period Quarterly
Financial Accuracy	99.0% Financial accuracy is measured using industry accepted stratified audit methodology. The results are determined by calculating the financial accuracy for a subset of claims (a stratum). We extrapolate the results based on the size of the population and combine them with the extrapolated results of the other strata. Each overpayment and underpayment is considered an error; they do not offset each other. Financial accuracy includes both manual and auto adjudicated claims. Dollars Paid Correctly Total Dollars Paid	0.40% for each full 1.0% that financial accuracy drops below 99.0%, up to a maximum of 2.0% of medical fees.	Measurement basis Unit(s) processing your claims (all customers' claims handled in that unit, not just your plan's claims) Measurement period Annually Reporting period Quarterly
Total Claim Accuracy	95.0% Total claim accuracy is measured using industry accepted stratified audit methodology. We extrapolate the results based on the size of the population and combine them with the extrapolated results of the other strata. Accuracy in each stratum (a subset of the claim population) is calculated by: Number of claims processed correctly Total number of claims audited	0.40% for each full 1.0% that total claim accuracy drops below 95.0%, up to a maximum of 2.0% of medical fees.	Measurement basis Unit(s) processing your claims (all customers' claims handled in that unit, not just your plan's claims) Measurement period Annually Reporting period Quarterly

Medical Service Guarantees			Effective Date: October 01, 2026
Member Services			
Customer Effort Score (CES)	Positive response rate of 95.0% or better on the following statement "On a scale of 1 to 5, with 1 being the least likely and 5 being the most likely, please indicate if you agree with the following: "The representative was easy to work with". The survey assumes a 5-point scale with the top 2 responses viewed as positive. The result is based on a member completing an interactive survey that is offered at the end of the call.	0.30% for each full 1.0% that our positive response rate falls below 95.0%, up to a maximum of 1.5% of medical fees.	Measurement basis Accountable unit or the business segment level that services your plan in effect at the time of the member's call Measurement period Annually Reporting period Annually

Measurement basis Accountable unit or the business segment level that services your plan in effect at the time of the member's call Measurement period Annually Reporting period Annually

General Guarantee Provisions

- For purposes of the performance guarantees, the term "Business Day" is defined as Aetna's normal business hours on any day other than a Saturday or Sunday or a day on which Aetna is closed for general business purposes.
- These guarantees do not apply to third party benefit administrators contracted by Aetna.
- This offer does not contemplate significant changes in volume of claims and calls that may occur with novel conditions or circumstances affecting broad populations that place a significant strain on the health care system and/or your plan(s). These conditions include but are not limited to COVID-19. We reserve the right to adjust the terms and factors of this guarantee in response to these conditions and/or circumstances if necessary.
- In the event there is an outage or when experiencing peak volumes, calls may be transferred to other Aetna call centers. This guarantee may not apply, and a payment may not be made if results are not achieved due to severe weather events which directly or indirectly impact performance during the Guarantee Period.
- If we process runoff claims upon termination of the Agreement, the Turnaround Time, Financial Accuracy, and/or Total Claim Accuracy performance guarantee(s) will not apply to runoff claims.

Medical Discount Guarantee **Effective Date: October 01, 2026**

Guarantee Period: October 01, 2026 through September 30, 2027

Your in-network discount will be [redacted] or better*

**Assuming current enrollment and book-of-business service mix.*

Products: Aetna Choice® Point of Service II (CPII) and Open Access Aetna Select℠ (OA AS)

What we guarantee

Attachment A of the Discount Guarantee Attachment shows:

- Our guaranteed network contracted discounts by market, for each of the following three service types:
  - Inpatient hospital
  - Outpatient hospital
  - Physician/other
- Illustrative aggregate guaranteed network contracted discount based on a weighting of:
  - Projected, customer-specific employees by market
  - Book-of-business weighting by service type

We finalize the discount target during the reconciliation process. The final aggregate guaranteed discount will be determined by weighting the discounts by the actual aggregate billed eligible charges by product and service type. The reconciliation will be completed once the actual enrolled employees by market and product, and the actual billed eligible charges are known.

How discounts are calculated

The achieved discount percentage is calculated using the following calculation:

$$\frac{\text{In-network provider discounts in dollars}}{\text{Total in-network billed eligible charges*}}$$

We calculate the discount using data from our Aetna Informatics® data warehouse. Three months of runout data will be included in the calculation. The guarantee reconciliation excludes each medical case where the claims in that medical case exceed $100,000.

A medical case summarizes clinical events by linking or associating all of the claims submitted for a member during the same treatment For example, all claims associated with an Inpatient Acute hospital stay or an Outpatient Facility based procedure.

The guarantee results combine the CPII and SEL product(s) and we report in aggregate for purposes of this guarantee reconciliation.

*Billed eligible charges are charges prior to application of plan design, discounts and member cost sharing (copays and deductibles). Billed eligible charges exclude the following:

- Duplicate or other ineligible/not covered/denied claims
- Claims paid by coordination of benefits where we are not primary (e.g. Medicare)
- Claims on members age 65 and over
- Claims incurred in passive or custom networks
- Behavioral health claims
- Non-medical claims (e.g. dental and vision hardware claims, pharmacy and specialty pharmacy claims, including some of those specialty pharmacy claims paid under the medical plan)
- Charges where the provider billed at or below the allowed amount
- All pay for performance payments, including but not limited to, accountable care payments (ACP) and coordination of care (COC) payments.

Medical Discount Guarantee **Effective Date: October 01, 2026**

Guarantee reconciliation

We compare the guaranteed discount against the total achieved discount. The guaranteed discount is based on the actual enrollment by product and market, and billed eligible charges by product and service type. Based on the outcome of the comparison, we will make any applicable fee adjustments as shown in the table below.

Fee Adjustment	Max Guarantee Period Adjustment
2.0% fee reduction for each full 1.0% the achieved discount falls below the risk-free corridor	[redacted]

There is a risk-free corridor of 2.0 percentage points.
Any fee adjustment is calculated as follows:

- A fee reduction occurs when the achieved discount falls below the difference of the guaranteed discount minus the risk-free corridor by a full percentage point or greater.

Conditions for the guarantee

We rely on information from you and your representatives in creating and reconciling the terms of this guarantee. If any of this information is inaccurate, it may have an impact on the guaranteed network discounts. We reserve the right to revise the guarantee if any of the following conditions are not met.

- **Group Composition**
  You do not close any acquisitions or divestitures during the Guarantee Period.
- **Minimum Enrollment**
  You must enroll a minimum of 300 subscribers in the quoted Aetna self-funded medical products.
- **Pharmacy claims**
  Pharmacy and specialty pharmacy claims, including those paid under the medical plan, are excluded.
- **In-Network Claim Utilization**
  Our discount guarantee requires at least 80 percent of claims paid are in-network.
- **Provider Practice**
  Guarantee Year provider billing and reimbursement practices remain consistent with current practices.

Medical Discount Savings Illustration — Effective Date: October 01, 2026

Attachment A

Illustrative Inpatient Hospital Discount [1]	Illustrative Outpatient Hospital Discount [1][3]	Illustrative Physician/Other Discount [1][3]	Illustrative Composite Target Discount [2]
[redacted]	[redacted]	[redacted]	[redacted]

(1) These discounts are illustrative only as they have been weighted by the distribution of employees by network from the current census file.

(2) This composite target is illustrative only. The final guaranteed target will depend on the actual enrolled members by network and claim service mix known at the end of the Guarantee Period. For purposes of this illustration, the service mix of network billed eligible charges prior to discount is based on network level assumed utilization of hospital inpatient, hospital outpatient, and physician/other.

(3) Charges where the provider billed at or below the allowed amount.

Discounts by Location

We consider information concerning fees negotiated with providers to be proprietary, commercially valuable information, which is not in public domain. Consequently, the information contained herein is to be maintained in a confidential manner, and used solely for the purposes of reviewing this proposal.

*Clarifications

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies.

The information contained in this proposal is confidential and should not be shared with anyone other than your broker or benefit plan consultant.

Premium Credit **Effective Date: October 01, 2026**

Policy Period: October 1, 2026 through September 30, 2027
Medical Premium Credit: $310,000

We are offering a either a one-time premium credit in the amount stated above or an MBR Rate Cap, of which you must choose one. This credit will be applied starting with the second month's bill in the Policy Period unless you notify us otherwise at the time of sale. The credit will be included as part of the final contract and subject to the following provisions:

a. Our Fully Insured medical policy will remain in effect for the duration of the Policy Period.

b. You are required to make the premium payments in accordance with contract provisions.

c. Standard contract termination provisions apply.

d. All of the plan caveats as stated on the Caveats page in the final proposal are met.

e. We pay the producer based on the amount you pay in premium. We do not pay the producer for any credits you received to your total premium.

f. Future renewals will be calculated based on the annualized premium before giving any effect to the premium credit.

In the event that any of these provisions are not met or you terminate the contract prior to the end of the Policy Period listed above, you will be required to pay us the total amount of the credit within 31 days of notice of non-compliance.

The premium rates shown on the accompanying Rate Sheet will be billed every month of the Policy Period. The premium credit will be shown as a separate line item. When you accept our quote, the Rate Sheet will become part of your Group Agreement with us.

You may wish to consult with your legal advisors about any changes that you may need to make in the administration of your plan as a result of this credit consistent with your fiduciary obligations such as making adjustments to participant contributions.

Signature below indicates acceptance of these terms.

Medical Benefit Ratio Rate Cap - Prospective — Effective Date: October 01, 2026

Guarantee Period (Year 2): October 1, 2027 through September 30, 2028
Prior Period (Year 1): October 1, 2026 through September 30, 2027

We are offering a either a one-time premium credit or an MBR Rate Cap stated below, of which you must choose one. We guarantee your per member, per month (PMPM) premium for the Guarantee Period won't increase by more than the percentage stated in the chart below from the Prior Period premium PMPM based on your Medical Benefit Ratio (MBR).

Each plan is renewed separately then reviewed in aggregate against the maximum overall rate increase.

Year One (2026) Experience MBR			Year Two (2027) Rate Cap
87.0% and under	to	88.9%	11.50%
89.0%	to	90.9%	14.50%
91.0%	to	92.9%	17.00%
93.0%	to	94.9%	19.50%
95.0%	to	96.9%	22.00%
97.0%	to	98.9% and above	No Guarantee

The Year One Experience MBR is calculated by:

$$\frac{\text{Blended Projected Claims (PMPM)}}{\text{Total estimated premium collected in Year One policy period (PMPM)}}$$

Blended Projected Claims are medical and pharmacy per member per month incurred and completed claims trended and adjusted to reflect the Year One benefits for all plan options and blended with manual when not fully credible. The claims reflect the pooling charge and removal of pooled claims. We'll use a minimum of 12 consecutive months of claims ending in our latest claims available at the time of renewal delivery. Claims are experience weighted when more than 12 months of experience is available.

Total estimated premium is Year One policy period per member, per month premium excluding broker compensation, taxes, and allowances (if applicable). The Year One policy period per member, per month premium will be based on the estimated total number of participants enrolled in the Medical plans.

In addition, the pooling threshold used in the calculation of Year One Experience MBR will not be any higher than $250,000, provided that the plans/programs remain the same and the enrollment in total and by plan remains similar to current; we will also apply our standard pooling charges in the calculation.

The maximum premium rate increase will be the percentage listed above plus any applicable change in Federal (ACA or otherwise) or State Tax, Fees, or Assessments for the subsequent 12-month period. Any additional taxes or fees resulting from new Federal or State legislation will be added to the premium before the premium rate increase is applied.

Conditions for the Guarantee:

We reserve the right to revise or remove the guarantee if any of the following occur during or prior to the guarantee period:

- **Novel Conditions and Circumstances**
  This offer does not contemplate the changes in costs, utilization, risk or any form or type of testing associated with novel conditions or circumstances affecting broad populations that place a significant strain on the health care system and/or your plan(s). These conditions include but are not limited to COVID-19. We reserve the right to adjust the terms and factors of this guarantee in response to these conditions and/or circumstances if necessary.
- **Base Year Claims**
  We reserve the right to adjust base year/gap claims used in the development of our experience and rate projection to account for the anticipated impact of novel conditions, as stated above. These adjustments would be applied to normalize the experience for the projected impact of these conditions. (Only applies to cases that are partially or fully experience rated at the time of proposal.)
- **Group Size Variation**
  - A total of 922 employees are expected to be enrolled in the quoted medical products.
  - Of this assumed enrollment, the combined enrolled COBRA, pre-65 retirees, and disabled employees does not vary by more than two percent of the total Aetna covered group from the originally assumed enrollment. In addition, we assume that the combined enrolled COBRA, pre-65 retirees, and disabled employees will not comprise more than five percent of total Aetna covered group.
- **Data Requirement**
  Since this guarantee is partially based on the prior carrier(s) claims, Aetna must receive complete mature incurred claims experience from prior carrier(s) 30 days prior to the renewal delivery date. We will need:
  - Data will be provided in a summary format, preferably in excel, and will include, by incurred month: medical claims, capitation (if applicable), pharmacy claims, HRA fund claims (if applicable), subscribers and members.
  - Claim summaries should be provided separately for each plan design (basic, buy up, HMO, POS, PPO, etc.) and for each prior carrier.
  - Claims experience must be complete mature claims incurred to October 1, 2027 and paid through January 31, 2028.
  - Claims should represent subscriber groups included in this guarantee.
  - We require information on large claims by plan for claims in excess of $25,000 per member; medical and pharmacy amounts should be listed separately.
- The premium rate increase is subject to the terms and conditions as stated in the caveats.
- A change of greater than 10 percent from the assumed enrollment in total or by plan.
- A change in the quoted plan designs.
- A change of greater than 10 percent from the current employee contributions.
- We are no longer the sole providor of medical and pharmacy coverage including any self-funded plans we offer you.
- Failure to make your required premium payments in accordance with contract provisions.
- The plan is no longer experience rated. (Only applies to cases that are partially or fully experience rated at the time of proposal.)
- The medical plan is put out to bid for the first renewal period.
- Material changes required by legislative or regulatory action or initiated by you to the plan of benefits offered, claim payment requirements or procedures, changes in state premium taxes or assessments, or any other changes affecting the manner or cost of providing coverage.
- Filing changes that affect our ability to offer this guarantee or exercise underwriting judgment.

City of Pompano Beach

MBR Rate Cap Reconciliation Example — Effective Date: October 01, 2026

For Illustrative Purposes Only

Each plan is renewed separately then reviewed in aggregate against the maximum overall rate increase.

Year One (2026) Experience MBR			Year Two (2027) Rate Cap
80.0%	to	81.9%	6.0%
82.0%	to	83.9%	8.5%
84.0%	**to**	**85.9%**	**11.0%**
86.0%	to	87.9%	14.0%
88.0%	to	89.9%	16.5%
90.0%	to	91.9%	19.0%
92.0%	to	93.9% and above	No Guarantee

The Year One Experience MBR is calculated by:

$$\frac{\text{Blended Projected Claims (PMPM)}}{\text{Total estimated premium collected in Year One policy period (PMPM)}}$$

Refer to the guarantee document for definitions.

Example (For Illustrative Purposes Only)

Year One Blended Projected Claims
Experience Period: 2/1/2027 through 1/31/2028

1. Blended Projected Claims PMPM (Year Two)		$380.00
2. Trend		
a. Blended Annual Trend		11.24%
b. Minus Year 2 Trend Months		(12.0)
c. Trend Adjustment Factor		0.8990
3. Blended Projected Claims PMPM (Year One) (1 x 2c)		$341.60
Year One Total Premium		
4. Total Estimated Current Preimum PMPM		$425.00
5. Producer Service Fee	5.00%	($21.25)
6. Premium Tax/Health Insurance Assessment		($3.24)
7. Allowance(s) PMPM		($2.50)
8. Final Premium PMPM		$398.01
Actual Experience MBR (3 / 7)		**85.8%**
Year Two Rate Cap		**11.0%**

Programs and Services - Conventional Prospective — Effective Date: October 01, 2026

Allowances

We are including the following allowance(s) for your Aetna plans for the October 1, 2026 through September 30, 2027 plan year. Allowance dollars must be used for your commercial Aetna medical plan(s) and Aetna medical members.

- Wellness: $100,000
- Technology: $50,000

Annual allowance amounts may be adjusted if actual enrollment changes by 10 percent or more from our enrollment assumptions.

Wellness and Technology Allowances

- The **Wellness** allowance can be used to offset reasonable documented wellness-related programs or activities expenses incurred during the plan year. Wellness allowance expenses must be for wellness-related programs or activities that are reasonably designed to promote the health and well-being of Aetna members, or to educate Aetna members about healthy lifestyles and/or prevent disease. This means that there must be a connection to the health and well-being of the members, with a focus on preventative measures or healthy living (i.e., diet, exercise), not on acute care. Wellness programs and activities funded by allowance funds are not covered benefits under your Aetna plan.
- The **Technology** allowance can be used to offset reasonable documented technology-related expenses for services you received from third-party vendors incurred during the plan year. Your allowance must be used for system enhancements to facilitate your Aetna medical plan benefit administration or Aetna member eligibility.
- All allowance submissions, including those submitted by a third-party vendor, must comply with these conditions.

The above referenced fund(s) will be available as of the effective date of the plan year. Only those expenses performed and billed by a third party are payable. Reimbursement for time and materials incurred directly by the plan sponsor (e.g., hours worked by the plan sponsor's own employees) are not eligible. Your normal business operation expenses, including employee salaries and overtime, are not eligible under the allowance. Our preferred method of payment is directly to the third-party vendor. We require submission of appropriate documentation detailing charges for the services provided by the vendor. Acceptable documentation includes, but is not limited to, detailed vendor invoices itemizing services provided, specific cost-elements and associated line-item charges.

On an exception basis, we can reimburse you directly provided you submit both the detailed invoice and receipt showing payment to the third-party vendor.

You should submit documentations within 60 days of the invoice date. We must receive all documentation no later than 60 days following the close of the plan year to be considered for reimbursement.

The allowance(s) indicated above are forfeited at the end of the plan year if not fully utilized. There is no roll over of unused funds to the next policy year. Any unredeemed wellness incentives that may be offered through a "reward program" are forfeited at the end of each plan year.

We assume the funding of any allowance is either at the request of your Plan Administrator acting in its fiduciary capacity or for the exclusive benefit of your Plan. You are responsible for determining that your use of allowance dollars is appropriate and legally compliant. With respect to allowance dollars that are used in connection with a wellness program, you are responsible for ensuring that the program and any incentives/rewards comply with applicable laws, including limitations on maximum allowable wellness incentives/rewards. We will pay any allowances in accordance with applicable law. We suggest you seek appropriate accounting and legal counsel for all payments to ensure they comply with applicable accounting principles and law.

If you terminate your medical plan with us in whole or in part (defined as a 50 percent or greater membership reduction from the membership we assumed in this proposal) prior to the end of the plan year, you'll be responsible for remitting payment for any allowance amounts used. Payment is due to us within 31 days of the invoice.

Caveats - Conventional Prospective — Effective Date: October 01, 2026

For the purposes of this document, Aetna may be referred to using "we,"our" or "us"and City of Pompano Beach may be referred to using "you"or "your".

Our quoted rates are proposed for the policy period effective October 01, 2026 through September 30, 2027.

Our proposal is illustrative and subject to change based upon underwriting review of the information listed and requested below. Any of the information listed below, which has not been provided, may be required prior to final approval of sale. You'll receive firm rates approximately 150 days prior to the effective date.

The caveats below apply to any future rate adjustments made for the same policy period unless new caveats and assumptions are provided.

Documentation

Current

Current rates/fees and plan designs.

Renewal

Current carrier's renewal offer including rates/fees and plan design.

Billing Statement

Complete copy of the most recent billing statement, within one month of the effective date.

Claims Information

Updated monthly claims and large claim information on incumbent carrier letterhead on a rolling 12-month basis with corresponding exposures up to 150 days prior to the effective date. Large claim information must include diagnoses for all claimants in excess of $25,000.

If monthly claims and/or large claim information were not provided with this proposal request or you are unable to provide monthly claims and large claim information, we'll require completed Medical Questionnaire(s) signed by your officer, representative, and/or employee(s).

Demographics

Complete census data with all eligible members in Excel from you, including: each member's date of birth, insurance status, dependent coverage, gender, and home zip code. Census should also identify whether each member is included on a contract which is active, COBRA, part-time, union, early retiree, retiree or waiver and the plan/product in which the member is part-time workers are eligible.

Caveats - Conventional Prospective **Effective Date: October 01, 2026**

Underwriting Caveats

We reserve the right to revise the premium, modify the terms of the offer or terminate if:

Enrollment

There is a 10 percent change in the enrolled number of employees in total or by plan from our enrollment assumptions. This includes the impact of new or terminating locations and/or groups. (Change in census is based on additions and subtractions - a 60 life group who adds 3 people and takes away 3 others has a 6 person change in census even though they stay at 60 lives.) Our proposal assumes coverage will not be extended to additional employee groups without review of supplemental census information and other underwriting information for appropriate financial review.

Member-to-Employee Ratio

The member-to-employee ratio changes by more than 10 percent from the 1.77 ratio assumed in this quote.

COBRA Enrollment

The number of COBRA enrollees exceeds 10 percent of the total enrolled group or changes by more than 2 percent from the 92 enrollees assumed in this quote. COBRA enrollees must be eligible for the same benefits as the active population.

Retiree Enrollment

The number of early or non-Medicare eligible retirees exceeds 10 percent of the total enrolled group or changes by more than 2 percent from the 74 enrollees assumed in this quote. Early or non-Medicare eligible retirees must be eligible for the same benefits as the active population. Patient Management programs are excluded for Medicare primary members.

Group Size

In the event a Large Group, during the previous year, becomes a Small Group under the definition of Small Group of the situs state, the Large Group policy may not be renewed.

Plan Eligibility

The quoted plans are only for active employees and pre-65 retirees.

Large Claims

The enclosed rate assume that there are no known additional ongoing catastrophic/large claimants other than those already identified to us in this request for proposal process.

Quoted Benefits and Administration

A material change is initiated by you or by legislative or regulatory action which affects the cost of the plan. A material change includes, but is not limited to, changes impacting standard contract provisions, account structure, claim settlement practices, plan administration, plan benefits or changes to the programs and services we offer you.

Industry

The nature of business and/or SIC code changes from the 9111 code assumed in this quote.

Total Replacement

Any of the quoted lines of coverage are offered with an additional carrier.

Affordable Care Act Non-Renewal

Under Affordable Care Act (ACA) and state insurance regulations, a group health insurance policy may be non-renewed for certain reasons.

Multiple Employer Welfare Arrangements (MEWAs) and Employer Association Health Plans (AHPs)

This quote was prepared based on the situs state and demographic information for eligible enrollees, including their home zip codes, in accordance with all federal and state mandates. We must be notified immediately of any changes that affect plan locations due to new or changing enrollment status. We will evaluate regulatory requirements and may not be able to extend coverage in states which prohibit large group coverage through MEWAs and AHPs.

Assumptions

Underwriting

Prospective Quoting

The quoted insured medical rates are offered on a prospectively rated basis. No policy year accounting balance will be calculated for these coverages.

Participation

Our rates assume at least 75 percent of eligible employees excluding spousal and parental waivers must enroll in our Medical plans, but not less than 50 percent of all eligible employees regardless of spousal and parental waivers. We may adjust your final rates if our final participation level changes by more than 10 percent from what was assumed or falls below 30 percent of eligible employees regardless of spousal or parental waivers. Where federal law and state law permit, we may non-renew if our participation level falls below 20 percent of eligible employees participants regardless of spousal or parental waivers.

Contributions

You must provide the contribution strategy for both current and proposed plan(s).

Plan Design

This proposal is based on the current benefit plan designs, plus any noted deviations. Our standard provisions, contract wording and claim settlement practices will apply for items not specifically outlined. All applicable government regulations and state mandates will apply. These products are offered subject to the terms of our Benefit Review Document.

Underlying Plan

Our rates assume that there are no underlying plans in effect that will either partially or completely subsidize any member cost sharing including but not limited to copays, deductibles, and/or coinsurance balances.

Prescription Drug Benefits

Prescription drug benefits are included and will be provided by Aetna.

Point of Service Rebates

This proposal may include point of service rebates ("POS Rebates") favorable to, and shared with, eligible subscribers and dependents. However, Aetna reserves the right to make appropriate changes to the premium offered hereunder in the event POS Rebates are discontinued, in whole or in part, on account of any material changes made to

(i) the laws, rules and/or regulations applicable to POS Rebates or

(ii) any material drug manufacturer rebate contracts providing the source for POS Rebates.

Additional Products, Programs and Services

Costs for special services rendered that are not included or assumed in the pricing guarantee will be direct-billed after such services have been rendered. For example, you will be subject to additional charges for customized communication materials, as well as costs associated with custom reporting, booklet and SPD printing, etc. The costs for these types of services will depend upon the actual services performed and will be determined at the time the service is requested.

Member Communications

Pricing assumptions include direct communications access to Aetna membership through both ongoing Aetna Health communications and relevant ongoing included product/program specific communications. These communications can reduce member and plan costs by guiding in care navigation, managing chronic conditions, promoting preventive services, and more.

Billing Information

Billing and Payment of Premium

Amount due is payable on the first day of the month covered by the invoice. If the amount due is not paid in full within 30 days, we reserve the right to terminate the contract and/or assess late premium payment charges.

Producer Compensation

We are not serving as billing and collection agent for producer compensation. Our quoted rates do not include Producer Service Fees or commissions.

Claim and Member Services

Run-In Claim Processing

Our proposal excludes run-in claim processing from the prior carrier (claims incurred before the effective date of the plan).

Summary Plan Description (SPD) Modification

We've assumed that the standard SPD language will be used and any customization may require an additional cost.

Reporting and Data Transfer

Aetna Intellectual Property

Under the Group Policy, you may have access to certain of Aetna's Customer reporting systems. Aetna represents that it has either the ownership rights or the right to use all of the intellectual property used by Aetna in providing the Services under the Group Policy ("Aetna IP"). Aetna will grant you, as the Customer, a nonexclusive, non-assignable, royalty free, limited right to use certain of the Aetna IP for the purposes described in the Group Policy. You agree not to modify, create derivative product from, copy, duplicate, decompile, dissemble, reverse engineer or otherwise attempt to perceive the source code from which any software component of the Aetna IP is compiled or interpreted. Nothing in the Group Policy shall be deemed to grant any additional ownership rights in, or any right to assign, sublicense, sell, resell, lease, rent, or otherwise transfer or convey, the Aetna IP to you.

Additional

Please review the additional important information found at the following URL. This information is incorporated by reference into this package and considered part of your policy. This quote is subject to all the terms and conditions set forth in this URL. In the event that any information contained herein conflicts or is inconsistent with the information in the Underwriting Disclosure document, the information in your package prevails.

Legislative and Regulatory Requirements

Affordable Care Act (ACA) Taxes and Fees

The Affordable Care Act (ACA) imposes several fees/assessments. The Health Insurance Provider Fee (HIF) was applicable in 2020, but a federal omnibus bill signed on December 20, 2019 repealed the HIF for 2021 and beyond. Still applicable in 2026 is Patient-Centered Outcomes Research Trust Fund fee (PCORI). It applies to issuers of specified health insurance policies and plan sponsors of applicable self-insured health plans. The fee was set to end in 2019, but it was extended for 10 years through 2029. The fee applies to policy or plan years ending on or after October 1, 2012, and before October 1, 2029.

This rate quote includes, as applicable, an estimate of the PCORI fee. We reserve the right to modify the rate, or otherwise recoup such fees, based on future regulatory guidance, subsequent state regulatory approvals, or if estimates are materially insufficient.

Regulatory Reporting

We are entitled to rely on information supplied by you in connection with any regulatory filings we provide on your behalf or any other services we provide. We are not responsible for any penalties or fees associated with reporting delays/errors caused by your failure to provide us with accurate or timely information.

Mandates

Benefit provisions are subject to state, local, and federal mandates. Future mandates will be incorporated in the plan(s) as of the date required by law and may require rate adjustments.

Capitalized terms in the pricing charts above are not intended to reflect defined terms except where specifically noted in the Prescription Drug Services Schedule.

Standard core as well as additional and third-party service options are described in the Aetna Pharmacy Program Summary incorporated herein by reference.

In the event of any inconsistencies between the terms and conditions set forth in this Pharmacy Service and Fee Schedule and the terms and conditions set forth in the Prescription Drug Services Schedule, the term and conditions of this Pharmacy Service and Fee Schedule shall prevail.

Terms & Conditions

The pricing and services set forth herein are subject to the following Terms & Conditions:

- To the extent the pricing and services outlined in this document is part of a proposal to the Customer, the pricing set forth herein is valid for 90 days from the date of such offer.
- This pricing has an effective date of October 1, 2026. In order for Aetna to implement the pricing as set forth above by the effective date, a notification of award must be given 90 days prior to effective date.
- Our proposal assumes that Aetna administers both the medical and pharmacy benefits for Customer on an integrated basis. If Customer elects to use a different vendor to provide medical benefits, then Aetna reserves the right to adjust the pricing contained in this proposal.
- The pricing and services contained herein are limited to prescription drugs dispensed by a Participating Pharmacy to Plan Participants.
- Participating Pharmacy shall give the Plan Participant the benefit of the lesser of (i) the Participating Pharmacy's Usual and Customary Charge, (ii) MAC (where applicable) or (iii) discounted AWP cost. Participating Pharmacy shall collect and retain from the Plan Participant at the time of dispensing the lesser of (i) the Cost Share; (ii) the Participating Pharmacy's Usual and Customary Charge, (iii) MAC (where applicable) or (iv) discounted AWP cost.
- MAC Pricing applies at Mail Order.
- Cost Share will be calculated on the basis of the rates charged to the Customer by Aetna for Covered Services, except for fixed copays or where required by law to be otherwise.
- Discounts and Dispensing Fees contained in this Service and Fee Schedule are guaranteed on an annual basis, subject to the following conditions:
    - Discount and Dispensing Fee guarantees are measured individually and reconciled in the aggregate; surpluses in one or more component guarantees may be used to offset shortages in other component guarantees.
    - Discount and Dispensing Fee guarantees shall be reconciled and reported to Customer within one hundred eighty (180) days following the guarantee period.
    - Discount guarantees are calculated on ingredient cost prior to the application of Plan Participant Cost Share and include zero balance due claims.
    - The following types of Prescription Drug claims are excluded from the Discount and Dispensing Fee guarantees contained herein:
        - Compound Prescription claims
        - Direct Plan Participant reimbursement / out-of-network claims
        - Coordination of Benefits (COB) or secondary payor claims
        - In-house pharmacy claims
        - Vaccines (including for COVID) and other COVID testing-related claims
        - 340B claims
        - Claims paid at government required amounts or Claims priced in response to government regulatory requirements

  - Retail pricing guarantees exclude claims that reflect the Usual & Customary Retail Price.
  - Single Source Generic Drugs are included in the Generic Discount guarantees.
  - Only Specialty Products dispensed by a Specialty Pharmacy are included in the Specialty Pharmacy Discount guarantee listed above. Specialty Products dispensed by Participating Retail Pharmacies are not included in any Discount guarantee listed above.
  - Aetna has assumed 0.00% in-house pharmacy utilization. Aetna reserves the right to re-evaluate the proposed pricing if the actual in-house pharmacy utilization varies from this assumption.
- Pricing and terms in this proposal assume the Customer has elected the Aetna Standard formulary and the Choose Generics program.
- The proposed formulary includes certain preferred Brand Drugs where the Tier 1 cost share shall be assessed to Members.
- Specialty Regional Network means that Plan Participants are required to use participating Specialty Pharmacies (no fills at retail allowed), with the exception of the HIV class which is not required to be dispensed at CVS Specialty Pharmacies.
- Non-Specialty Claims dispensed by a CVS Specialty Pharmacy will adjudicate as a Retail Non-Specialty Claim.
- Our financial offer does not assume any adoption of the Transform Diabetes Program. If customer offers a Diabetes Management program, either by Aetna or another vendor, the proposed rebates will need to be re-evaluated.
- Rebate guarantees will exclude the claims noted below; however, any Rebate collected by Aetna for such claims will be passed through to the Customer in accordance with the Rebate terms described herein.
- Rebate guarantees may be subject to:
  - The adoption of Specialty Guideline Management (SGM) program.
  - Plan performance that is materially the same as the baseline data provided by Customer and relied upon by Aetna, including information regarding enrollment and utilization of pharmacy services.
- The above rebate guarantees exclude:
  - Over the Counter (OTC) Claims
  - Limited distribution drug (LDD) Claims
  - Any other Claim identified as having received 340B program wholesale pricing
  - Compound Drug Claims
  - Paper or Member Submitted Claims
  - Coordination of Benefits (COB) or secondary payor Claims
  - Vaccine and vaccine administration Claims
  - COVID treatment Claims

  - Claims for products with coverage or a plan design mandated by the government
  - Claims approved by Formulary Exception
- Rebate guarantees assume Advanced Control Specialty Formulary.
- Specialty Rebate Guarantees will only apply to Specialty Product Claims dispensed at participating Specialty Pharmacies when mandatory Specialty Pharmacy fulfillment is instituted herein, subject to any exceptions set forth herein.
- Brand drug claims in the HIV therapeutic category are included in the retail rebate guarantees.
- To receive the rebate guarantees noted:
  - Two-tier qualifying plan designs – will consist of an open plan design, with the first tier comprised of Generic Drugs and the second tier comprised of Brand Drugs. There are no requirements for a minimum Cost Share differential between these tiers. The plan design may need to implement formulary interventions recommended by Aetna.
  - Three-tier non-qualifying plan designs – maintain a first tier comprised of Generic Drugs, a second tier comprised of preferred Brand Drugs, and a third tier comprised of non-preferred Brand Drugs.
  - Three-tier qualifying plan designs – maintains a first tier comprised of Generic Drugs, a second tier comprised of preferred Brand Drugs, and a third tier comprised of non-preferred Brand Drugs. The plan design maintains at least a $15.00 co-payment differential between preferred and non-preferred Brand Drugs, at least a $15.00 differential in the minimum co-payment for coinsurance, or a differential of coinsurance 1.5 times or 50 percentage points between the preferred and non-preferred Brand Drugs (for example, if preferred brand coinsurance was 20%, non-preferred brand would need to be 30% to qualify).
- Rebate guarantees are measured individually by component and reconciled in the aggregate on an annual basis within 12 months following the end of the Plan year; a surplus in one or more component Rebate guarantees may be used to offset shortages in other component Rebate guarantees.
- The Aetna Extended Day Supply Network provides the flexible option of a nationwide network of retail pharmacies that can fill up to a 90 days' supply of medications. Aetna's Retail-90 Network pricing is applicable for non-specialty claims equal to or greater than an 84 days' supply filled by a participating Aetna Retail-90 Network pharmacy.

Allowances

Allowances which are based on the information available to Aetna during this process will be available as of the Effective Date of the Pharmacy Services and Fee Schedule. Aetna will pay related expenses directly to a third-party vendor once the Customer sends the invoice(s) outlining the expenses incurred to Aetna. Invoices must be submitted before the end of each Plan year otherwise the Customer forfeits

the funds. Any unused allowance monies at the end of each Plan year will be forfeited. It is the intention of the parties that, for purposes of the Federal Anti-Kickback Statute, this credit shall constitute and shall be treated as discounts against the price of drugs within the meaning of 42 U.S.C. §1320a-7b(b)(3)(A). The parties acknowledge and agree that the allowances provided by Aetna are commercially reasonable and necessary services related to this Agreement, including without limitation, implementation, audit, communication and/or external data file/feeds, and represent fair market value for the services provided.

Implementation Allowance

Aetna shall provide the Customer with an Implementation Allowance of up to $5.00 per member per year. The Customer can use this allowance to pay for reasonable implementation and enrollment services incurred during the first Plan year.

General Allowance

Aetna is including a general allowance up to $2.00 per enrolled member per year on a Annual basis. The Customer can use this allowance to pay for implementation, audit or communication related expenses along with external data files or feeds.

Additional Disclosures

The Customer acknowledges that the Discounts and Dispensing Fees contained in this Agreement reflect a Transparent or Pass Through pricing arrangement at Retail. Transparent or Pass Through Pricing means the amount charged to the Customer and Plan Participants for network claims shall equal the amount paid to Participating Retail Pharmacy. Maintenance Choice claims dispensed at CVS/pharmacy, if applicable, are exempt from the Transparent Pricing requirements under this Agreement. The amount billed to the Customer will be equal to the amount paid to the participating pharmacies.

The financial provisions in this Agreement are based upon Claims data and membership information provided by Customer (or Customer's authorized representative) during the pricing request process, which shall serve as the baseline. Aetna reserves the right to make an equitable adjustment to modify or amend the financial provisions set forth herein in a manner designed to account for the impact of specific triggering events identified below ("Equitable Adjustment").

1. Greater than 15% change in total membership or Claims volume as compared to the baseline
2. Customer-initiated change to the Benefit Plan Design, or Formulary alignment. To the extent applicable, Aetna will notify Customer in advance of any proposed Equitable Adjustment
3. Product offering decisions by drug manufacturers that result in a reduction of rebates, including the introduction of a lower cost alternative product which may replace an existing rebateable brand product; an unexpected launch of an interchangeable version of a brand product; or a branded product converted to OTC status, recalled or withdrawn from the market; or a material reduction in the Wholesale Acquisition Cost (WAC); or
4. Other events triggering an Equitable Adjustment as detailed below:

- Legal and/or regulatory changes specific to customers which negatively affects the economic value of the Agreement to a party or the parties under the Agreement, for example restrictions on preferred or limited network arrangements; policy changes impacting drug manufacturers which negatively affect the economic value of the Agreement including the ability to provide or maintain discounts or Rebates; and/or
- An inability to access, or changes to, industry pricing information (e.g. AWP) required to support the current economic structure of the Agreement.

If one or more of such triggering events occurs, Aetna may initiate a review to determine if an Equitable Adjustment to any of the financial provisions is warranted as a direct result of the triggering event(s). Aetna will conduct an analysis based upon Customer-specific Claims, utilization, and membership data demonstrating how the triggering event(s) result in the proposed Equitable Adjustment. Any such Equitable Adjustment based upon events #1 or #2 described above shall be effective on the first day that the triggering event occurred. Any such Equitable Adjustment based upon events #3 or #4 described above shall be effective 30 days after notification to Customer. Aetna will provide documentation of the reason for the proposed Equitable Adjustment in addition to a summary analysis demonstrating that the Equitable Adjustment is solely related to the impact of the specific triggering event. Aetna will disclose necessary facts and data to an independent auditor for validation.

Aetna reserves the right to modify its products, services, and fees, and to recoup any costs, taxes, fees, or assessments, in response to legislation, regulation or requests of government authorities. Any taxes or fees (assessments) applied to self-funded benefit Plans related to The Patient Protection and Affordable Care Act (PPACA) will be solely the obligation of the Customer. The pharmacy pricing contained herein does not include any such Customer liability.

Rebate Payment Terms

Rebates will be distributed on a quarterly basis by claim wire credit.

Rebate collections are paid quarterly one hundred and eighty (180) days after the quarter ends. Rebates are calculated and paid in accordance with the terms and conditions of this Agreement.
Earned Rebates are distributed in March, June, September and December each contract year.

Rebates are paid on Prescription Drugs dispensed by Participating Pharmacies and covered under Customer's Plan. Rebates are not available for Claims arising from Participating Pharmacies dispensing Prescription Drugs subject to either their (i) own manufacturer Rebate contracts or (ii) participation in the 340B Drug Pricing Program codified as Section 340B of the Public Health Service Act or other Federal government pharmaceutical purchasing program. The Customer shall adopt the formulary indicated in the rebates section of this Service and Fee Schedule in order to be eligible to receive Rebates.

Additional 340B reconciliation and true-up may occur post annual minimum Rebate guarantee reconciliation.

If this Agreement is terminated by Aetna for the Customer's failure to meet our obligations to fund benefits or pay administrative fees (medical or pharmacy) under the Agreement, Aetna shall be entitled to deduct deferred administrative fees or other plan expenses from any future rebate payments due to the Customer following the termination date.

When remitting and reconciling minimum Rebate guarantees, Aetna may add Rebate Credit value to the total Rebates remitted to Customer for each respective Rebate component. Rebate Credits shall consist of (i) the differential between the Wholesale Acquisition Cost (WAC) of a lower net cost Brand Covered Product, including but not limited to a Biosimilar (Low Cost Brand), Claim processed and the WAC of the reference Brand Drug, subject to the below cap; and/or (ii) the value of price reductions for rebateable products that have experienced a WAC decrease, measured as the differential between the Baseline WAC of the product and the WAC of the product when the Claim is processed, subject to the below cap. The Baseline WAC will be the WAC of the product prior to a reduction in WAC or, as applicable, for Low Cost Brands, the Baseline WAC will be the WAC of the reference Brand Drug at the time of Claim processing.

In no way will the Rebate Credit exceed the Baseline Rebate less the earned Rebates on either the Low Cost Brand or the rebateable product that has experienced a WAC decrease. Baseline Rebate is calculated as follows: in the year the price reduction occurred, Baseline Rebate will be the Rebate available for coverage of the product prior to the WAC reduction or, as applicable, for Low Cost Brands the Baseline Rebate will be the Rebate available for coverage of the reference Brand Drug on the date of claim processing. For a product experiencing a WAC reduction, in subsequent years the Baseline Rebate will increase over the prior year Baseline Rebate at the WAC inflation rate of the GPI subclass (GPI-6) of the applicable product. Aetna will notify Customer of any applicable Covered Product that qualifies for Rebate Credits. Aetna shall provide reporting upon Customer request demonstrating the net-cost impact in the therapeutic category.

Formulary Management

Aetna offers several versions of formulary options for Customer to consider and adopt as Customer's Formulary. The formulary options made available to Customer will be determined and communicated by Aetna prior to the implementation date. Customer agrees and acknowledges that it is adopting the Formulary as a matter of its plan design and that Aetna has granted Customer the right to use one of our Formulary options during the term of the Agreement solely in connection with the Plan, and to distribute or make the Formulary available to Plan Participants. As such, Customer acknowledges and agrees that it has sole discretion and authority to accept or reject the Formulary that will be used in connection with the Plan. Customer further understands and agrees that from time to time Aetna may propose modifications to the drugs and supplies included on the Formulary as a result of factors, including but not limited to, market conditions, clinical information, cost, rebates and other factors. Customer also acknowledges and agrees that the Formulary options provided to it by Aetna is the business confidential information of Aetna and is subject to the requirements set forth in the Agreement.

Other Payments

The term Rebates as defined in the Prescription Drug Services Schedule does not mean or include any manufacturer administrative fees that may be paid by pharmaceutical manufacturers to cover the costs related to the reporting and administration of the pharmaceutical manufacturer agreements. Such manufacturer administrative fees are not shared with Customer hereunder.

Aetna may also receive other payments from drug manufacturers and other organizations that are not Rebates. These payments are generally for one of two purposes: (i) to compensate Aetna for bona fide services it performs, such as the analysis or provision of aggregated data or (ii) to reimburse Aetna for the cost of various educational and other related programs, such as programs to educate physicians and members about clinical guidelines, disease management and other effective therapies. These payments are not considered Rebates and are not included in Rebate sharing arrangements with Customers.

Aetna may also receive network transmission fees from our network pharmacies for services we provide for them. These amounts are not considered Rebates and are not shared with Customers. These amounts are also not considered part of the calculation of claims expense for purposes of Discount Guarantees, if applicable.

Customer agrees that the amounts described above are not compensation for services provided under this Agreement by either Aetna or CVS Caremark and instead are received by Aetna in connection with network contracting, provider education and other activities Aetna conducts across our book of business. Customer further agrees that the amounts described above belong exclusively to Aetna or it's affiliate, CVS Caremark, and Customer has no right to, or legal interest in, any portion of the aforesaid amounts received by Aetna or CVS Caremark.

Rebates for Specialty Products that are administered and paid through the Plan Participant's medical benefit rather than the Plan Participant's pharmacy benefit will be retained by Aetna as compensation for Aetna's efforts in administering the preferred Specialty Products program. Payments or rebates from drug manufacturers that compensate Aetna for the cost of developing and administering value-based rebate contracting arrangements when drug therapies underperform thereunder also will be retained by Aetna.

Early Termination

In the event Customer terminates Aetna's arrangement of prescription drug benefit services as described in the Prescription Drug Services Schedule and Pharmacy Service and Fee Schedule to the Agreement prior to September 30, 2029 (an "Early Termination") Aetna shall retain any earned but unpaid rebates as of the Early Termination date subject to any exception thereto provided herein.

In the event of an Early Termination, the pharmacy guarantees described hereunder, if any, shall be considered null and void for the Plan year and, therefore, not subject to reconciliation.

In addition, in the event Customer terminates the Agreement prior to the expiration of the initial term for any reason other than for Aetna's material breach, Customer shall refund, prior to the termination

date, to Aetna all allowances described herein and received by Customer for the unfulfilled term on a prorated basis.

Aetna's remedies as described immediately above are liquidated damages and shall not be characterized as a penalty (collectively, the “Early Termination Fee”). Unless otherwise agreed in writing by the parties, such Early Termination Fee will be due and paid in full within sixty (60) days after the termination effective date.

Late Payment Charges

If the Customer fails to provide funds on a timely basis to cover benefit payments and/or fails to pay service fees on a timely basis as required in the Agreement, Aetna will assess a late payment charge. The current charges are outlined below:

i. Late funds to cover benefit payments (e.g., late wire transfers): 12.0% annual rate
ii. Late payments of Service Fees: 12.0%, annual rate

In addition, Aetna will make a charge to recover our costs of collection including reasonable attorney's fees. We will notify the Customer of any changes in late payment interest rates. The late payment charges described in this section are without limitation to any other rights or remedies available to Aetna under the Agreement or at law or in equity for failure to pay.

Pharmacy Audit Rights and Limitations

Customer is entitled to one annual Rebate audit, subject to the audit terms and conditions outlined in the Prescription Drug Services Schedule.

Customer is entitled to an annual electronic claim audit subject to standard pharmacy benefit audit practices and audit terms and conditions outlined in the Prescription Drug Services Schedule.

Pharmacy audits shall be conducted at the Customer’s own expense unless otherwise agreed to between the Customer and Aetna.

Aetna Pharmacy Program summary – Core Services

Unless otherwise specified, the services outlined below are available at no additional cost for our Customers and Members.

PBM Services	
Included in Core Services	
PBM Benefit Administration	**Member Services**
• Maintenance Choice	• Member Services Call Center – Available 24/7
• Aetna Standard Preventive Drug List (HDHP)	• Real-Time Benefits
• Aetna Standard Preventive Drug List (ACA)	• Aetna Health Mobile App and Internet Tools
• Integrated retail, mail and specialty claims with medical benefit claims in real-time • Benefit Automation • Loading Client Benefit Plan • RxSavingsPlus Savings Program • Generic Substitution/DAW Penalties	• Price-A-Drug Tool available at **aetna.com** or through our mobile app, Aetna Health
Member Communication Materials	**Customer Services**
• Initial Implementation benefits communication materials, printed and online support	• Claim funding and banking arrangements integrated with your Aetna medical plan
• Member specific e-mail communications	• Consultative services
• Aetna Integrated Pre- and Post-enrollment materials	• Education materials on key healthcare topics
• Clinical program member letters, including transition letters for formulary changes/updates	• Implementation support including eligibility loading and ongoing additions/deletions
• Informational brochures for using the CVS Caremark Mail Service Pharmacy, including order forms	• Regulatory and compliance support by specific line of business
• Member-specific formulary and plan design	• Meetings to discuss program performance
• Aetna Health website and app brochures	• Account Management • Client Authorized Override • Member Satisfaction Surveys • Post Rejection Communications (PRC) • Proactive Retail Refill Notice
Claims Processing Services	**Mail Service Pharmacy**
• Online, Point-of-Service (POS) claims adjudication with real-time integration with medical claims	• Use of CVS Caremark Mail Service Pharmacies • Information System Infrastructure & Maintenance • Profile/order form and return envelope • Member counseling labels – drug specific • First time fill prescription processing
Online Customer Access	
• Online Services (on-site eligibility maintenance and prior authorization overrides-viewing member claims history	

- Website Access allowing customized dashboard creating for members

AETNA PHARMACY PROGRAM SUMMARY – CORE SERVICES

Analytics and Reporting	
Included in Core Services	
Analytic Support	**Analytic Support cont.**
• Aetna Report Rx self-service reporting tool suite for up to 10 Customer users • RxNavigator Self-Service Reporting Tool Suite • E Tool Access (Self Service for Rx Insight Reports)	• Claim detail reporting combined with medical reporting through the new reporting tool, ART
• Account Team Supported Reporting • Clinical Program Opportunity Analysis	• Quarterly clinical and financial reports based on aggregate customer utilization

Formulary	
Included in Core Services	
Standard Formulary Administration	**Standard Formulary Administration cont.**
• Formulary maintenance	• Rebate administration
• Formulary exclusions lists	• Point of Sale (POS) Rebates
• Hyperinflation management	• Compound Management

Clinical Programs and Utilization Management Edits	
Included in Core Services	
Clinical Solutions	**Clinical Solutions cont.**
• Diabetic Meter Program • Standard Utilization Management edits, including quantity limits and step therapy • Pharmacy Advisor Support – Automatic refill and renewal programs	• Dose Optimization • Core Medication Management: Closing Gaps in Medication Therapy • Retrospective Safety Review • Point of Sale (POS) Drug Safety Alerts
• Pharmacy Advisor Support – Adherence to Drug Therapy	• Member and Physician clinical education
• Smart Edit overrides	• Global safety edits
• Opioid safety edits	• Compound drugs management
• Maximum pay edits • Mail Order DAW Solution	• Select OTC Coverage

AETNA PHARMACY PROGRAM SUMMARY – CORE SERVICES

Specialty

Included in Core Services

Specialty Clinical Solutions

- Specialty Starter Fill

AccordantCare Specialty

- Proactively supports and empowers Members with rare conditions to manage their whole condition, not just adherence to their medication (beyond traditional specialty pharmacy care). Members identified by Aetna Specialty dispense for nine (9) specialty conditions. Available to Customers who use the Aetna Specialty Performance Network.

Specialty Benefit Administration

- Specialty Guideline Management (SGM) – criteria development and maintenance
- Specialty Copay Card Plan Designs
- Standard Specialty Product List
- Exclusive Specialty Grace Fill Member Letter (Under Member Communication Materials)

Specialty Support cont.

- Specialty Expedite
- Specialty Connect
- Digital - Secure Messaging
- First time fill prescription processing
- Specialty CareTeam
- Patient Assistance Program

Specialty Pharmacy

- Use of the CVS Specialty Pharmacy network with full integration of retail, mail and specialty claims
- Information System Infrastructure & Maintenance
- Member Onboarding
- Member counseling label – drug specific
- Supply Management Optimization (SMO (Exclusive and Preferred Specialty Customers)
- Specialty Connect
- Digital Secure Messaging
- Specialty Expedite
- Specialty CareTeam

Digital

Included in Core Services

Standard Digital Services

- Open enrollment links
- Aetna.com configurations

Standard Digital Services cont.

- Single Sign on (SSO)
- Integrated medical and pharmacy websites

AETNA PHARMACY PROGRAM SUMMARY – CORE SERVICES

Mandatory Fees

The services outlined below are associated with meeting federal, state, and local regulatory compliance requirements

Regulatory Programs	Member Threshold, if any	Fee	Basis

Vaccine Program Management Fee	$0.05	PMPM
Manual Claim Administration Fee	$1.50	Per claim

Shipping and Handling of Temperature Sensitive Products	$22.00	Per Non-Specialty Mail Rx Temperature Sensitive

AETNA PHARMACY PROGRAM SUMMARY – ADDITIONAL SERVICES

Additional Specialty Programs	Fee	Basis
Custom Specialty Network - When Accreditation Support is Required	Quoted Upon Request	

Charges for services not identified above and/or changes in financial terms resulting from a change in the scope of services shall be quoted upon request.

Pricing noted above for programs not implemented within twelve (12) months from the time of pricing negotiations is subject to change.

NOTES:

[1] **Pharmacy Advisor Counseling Additional Terms:**

(a) Customer may terminate the Pharmacy Advisor Counseling program by providing Aetna at least 60-days prior written notice.

(b) The pricing described above for Pharmacy Advisor Counseling program is based on the following conditions:

(i) In the event Customer desires to include additional lines of business, implement a portion of the Plan Participants, or reduces the Plan Participants participating in the Pharmacy Advisor program, Aetna may revise pricing for the program.

(ii) Customer agrees to implement all the current conditions in Pharmacy Advisor Counseling: Asthma/COPD, Breast Cancer, Depression, Diabetes, Cardiovascular conditions, and Osteoporosis.

(iii) The above pricing reflects the current program and future program expansions may require an additional fee.

[2] **Drug Savings Review Additional Terms:**

Aetna guarantees that the gross customer savings realized from DSR Program over the first Clinical Program Year shall be 200% of the DSR Program fees paid by Customer during the first Clinical Program Year. For the subsequent Clinical Program Years, Aetna guarantees that the gross customer savings realized from DSR Program shall be 300% of the DSR Program fees paid by Customer during subsequent Clinical Program Years. "Clinical Program Year" means the twelve (12) month period commencing on the start date of the Drug Savings Review Program and each full consecutive twelve (12) month period thereafter that the Drug Savings Review Program is provided. In the event Aetna fails to meet the targeted savings, Customer shall be credited for any guaranteed savings short-fall following the end of the applicable Clinical Program Year, up to the amount of fees paid by Customer for the Drug Savings Review Program during the Clinical Program Year. Aetna calculates the guaranteed savings short-fall and reimburses Customer a portion of the fees paid based on the difference between the actual savings generated and the guaranteed savings, divided by the ROI guarantee amount. The amount of the fees

credited to Customer reduces the DSR Program Fees paid by Customer to an amount that satisfies the savings guarantee based on actual savings. Reconciliation will occur during the quarter after the conclusion of Clinical Program Year.

Aetna may revise the performance guarantee at time of reconciliation in a manner designed to account for membership shifts of 20% or more during the Clinical Program Year. The performance guarantee offered for the Drug Savings Review Program is conditioned on (1) Customer maintaining a monthly average of at least 1,500 Members throughout the Clinical Program Year and (2) Customer participating in the Drug Savings Review Program for the entire Clinical Program Year.

[3] Caremark Cost Saver™ **:** The pricing in the Pharmacy Service and Fee Schedule assumes the use of the Caremark Cost Saver™ program, under which Aetna may compare the price available under the Aetna contracted network with the price available through a non-Aetna contracted network if available for that pharmacy. If the price is lower through a non-Aetna contracted network (including an administrative fee paid to the third-party that contracts the network), the Claim will be processed through that network. These Claims are included in the reconciliation of all financial guarantees. In these instances, the prescription through retail may be less than the same Drug, dosage form, and dose through mail on the same day of adjudication.

[4] Reviews through the Specialty Guideline Management and Specialty Preferred Drug Plan Design programs will be charged this per review fee.

***DEFINITIONS:**

PMPM = Per Member Per Month

PEPM = Per Employee Per Month

****i**f retiree membership is over 15%, referral needed to review for custom pricing.

AETNA PHARMACY PROGRAM SUMMARY – THIRD-PARTY SERVICES

The services outlined below are provided by third party providers.

Optional Third-Party Services	Fee
PrudentRx Copay Optimization • The PrudentRx offering minimizes the impact of manufacturer copay cards, targeting all Specialty Drugs, including highly utilized classes such as hepatitis C, autoimmune, oncology and multiple sclerosis, to drive maximum value for Customers while providing Members with $0 out-of-pocket costs. • Customers contract directly with PrudentRx for this service. • Program costs are a percentage of shared savings billed monthly by PrudentRx. Aetna does not charge any fees to Customer to support the PrudentRx Copay Optimization services.	Quoted by Prudent Rx upon request

NOTES:

PRODUCT SHORTAGE:

- In the event of an industry-wide product shortage, we reserve the right to adjust pricing upon notice to the customer.

CONFIDENTIALITY:

- Customer acknowledges and agrees that the information included is confidential, proprietary and trade secret to Aetna and will agree to protect the information from disclosure.

PERFORMANCE GUARANTEES

The guarantees described herein will be effective for a period of 12 months and will run from October 1, 2026 through September 30, 2027 (hereinafter "guarantee period"). The performance guarantees shown below will apply to the commercial self-funded pharmacy benefit plans administered by Aetna Life Insurance Company ("Aetna") under the Master Services Agreement ("Services Agreement").

The maximum amount that Aetna will have at risk for any calendar year will be $50,000 for ongoing guarantees. The total amount at risk may be allocated at the Customer's discretion provided 1) no more than 20% and no less than 1% of the amount at risk will be allocated to any one guarantee; 2) the total amount allocated equals 100% of the total amount at risk; 3) Aetna receives written notice of Customer's allocations at least 30 days prior to the effective date or contract anniversary. If Aetna does not receive written notice of Customer's allocation, the total amount at risk will be allocated equally among the performance guarantees, unless otherwise stated in the performance guarantees.

ONGOING GUARANTEES:

#	Category	Guarantee	Measurement Basis	Reporting Frequency	Measurement Frequency
1	**Pharmacy Claims Accuracy**	Aetna shall have a Claims accuracy rate of at least 99.0%. Claims accuracy is calculated as the total number of Claims Adjudicated without financial error in the measurement period divided by total number of Claims Adjudicated in the measurement period. We shall pay Client 20% of the total amount at risk for each full percentage point below 99.0%.	Book of Business	Annually	Annually
2	**System Availability**	Aetna's online Claims processing system will be available for access by Aetna's contracted pharmacies no less than 99.5% of the time, excluding normal scheduled maintenance. This standard will not apply when Aetna does not have total control over the environment or communication links that impact the Claims adjudication process due to third-party involvement. Scheduled maintenance will not be performed during routine pharmacy business hours.	Book of Business	Annually	Annually
3	**Paper Claims**	Aetna guarantees that the claim payment processing turnaround time for all retail pharmacy claims submitted on paper will be 97.0% within a weighted average of five (5) Business Days of receipt and 99.0% within a weighted average of ten (10) Business Days. Total percentage of claims processed is measured as the number of claims processed within specified number of days divided by the total number of claims audited. This guarantee may not apply, and a penalty may not be paid if results are not achieved due to severe weather events which directly or indirectly impact performance during the guarantee period. Aetna will credit Client 20% of the amount at risk for each full 0.25% below	Book of Business	Annually	Annually

© 2024 Aetna. All Rights Reserved.

		target up to the maximum allocated to this guarantee.			
4	**Retail Pharmacy Audit**	Aetna guarantees it will perform an on-site audit each year of 3.0% of its retail pharmacies in Aetna's National Network that submit 500 or more claims a year to Aetna.	Book of Business	Annually	Annually
5	**Mail Turnaround Time (Clean)**	Within an average of two (2) Business Days of receipt, Aetna shall dispense all clean (not requiring intervention or clarification) mail service pharmacy prescriptions. The average calculation is determined by taking the total number of prescriptions metered (as recorded by Aetna's systems standard practices) multiplied by the number of days these prescriptions took to meter divided by the total number of metered prescriptions.	Book of Business	Annually	Annually
6	**Mail Turnaround Time (Non-Clean)**	Within an average of five (5) Business Days of receipt, Aetna shall dispense all non-clean (requiring intervention or clarification) mail service pharmacy Prescriptions. The average calculation is determined by taking the total number of prescriptions metered (as recorded by Aetna's systems standard practices) multiplied by the number of days these prescriptions took to meter divided by the total number of metered prescriptions.	Book of Business	Annually	Annually
7	**Mail Dispensing Accuracy**	Aetna's accuracy in dispensing Prescriptions from its mail service pharmacy (correct drug, correct strength, correct dosage form and correct Member) shall be at least 99.98%.	Book of Business	Annually	Annually
8	**Phone Average Speed of Answer**	Inbound calls to Aetna's toll-free customer service lines shall be answered within an average time of thirty (30) seconds or less. Measurement excludes calls routed to an IVR.	Book of Business	Annually	Annually
9	**Phone Abandonment Rate**	Inbound calls to Aetna's toll-free customer service lines shall be answered with an abandonment rate of 3.0% or less. Measurement excludes calls routed to an IVR and excludes calls abandoned by the Member within the first thirty (30) seconds.	Book of Business	Annually	Annually
10	**First Call Resolution**	Aetna guarantees that Aetna will resolve at least 95.0% of issues at the first point of contact. First call resolution is measured based on representative disposition of call as repeat caller.	Book of Business	Annually	Annually
11	**Written Inquiry**	Aetna guarantees to provide an initial response to 98.0% of email inquiries within 24 hours and provide a resolution to 94.0% of email inquiries within 3 calendar days. Aetna measures from the date the email inquiry is received by PBM from the member until date/time	Book of Business	Annually	Annually

© 2024 Aetna. All Rights Reserved.

		PBM sends its response that acknowledges the member's issue. This guarantee may not apply, and a penalty may not be paid if results are not achieved due to severe weather events which directly or indirectly impact performance during the guarantee period.			
12	**Plan Participant Satisfaction**	Satisfaction surveys shall be conducted during the plan year among Aetna's base of prescription drug benefit plan participants. Survey respondents shall be selected at random from plan participants who have recent experiences with one or more of the following Aetna services: 1) Retail Pharmacy benefits 2) Mail Service Pharmacy benefits 3) Customer Care. Overall satisfaction ratings of at least 90.0% shall be guaranteed. For the purposes of this guarantee, satisfaction shall be defined as Satisfied or better on the following 5-point scale; Completely Satisfied, Very Satisfied, Satisfied, Dissatisfied, Very Dissatisfied. Aetna shall be responsible for survey design, data collection, analysis and all costs associated with conducting the surveys.	Book of Business	Annually	Annually

CONDITIONS:

Our offer assumes 922 employee lives. Aetna reserves the right to revisit the guarantees if there is a change in enrollment of more than 15%.

For purposes of the performance standards herein, the term "Business Day" will mean Aetna's normal business hours on any day other than a Saturday or Sunday or a day on which Aetna is closed for general business purposes.

The proposed performance guarantees will be adjusted equitably by the parties to the extent that Aetna has suffered a force majeure event during the applicable measurement period.

Aetna will diligently attempt to maintain its performance at the levels represented herein, provided that failure to achieve or maintain those levels does not constitute a default for purposes of the termination provisions set forth in the Agreement.

Aetna will not be liable to Client for any failure to satisfy a performance guarantee during any time that no agreement existed between Aetna and Client, even if a subsequent written agreement between the parties provides that the effective date of the Agreement is prior to the time at which the written agreement actually was executed by the parties.

If Aetna fails to satisfy a performance guarantee that is measured for all Aetna Clients utilizing the same process platform, Aetna will have satisfied a performance guarantee regarding Client if it satisfies that guarantee with respect to Client only.

If any period covered by the Agreement is less than the period covered by the proposed performance guarantee, and Aetna has not met such performance guarantee for such period, the amount at risk associated with such failure will be prorated to reflect the actual period during which the Agreement was in effect.

© 2024 Aetna. All Rights Reserved.

In the event Aetna fails to meet the proposed guarantees, the amount at risk described above will be the sole and exclusive remedy available to Client for such failure.

Termination Provisions

Termination of the guarantee obligations shall become effective upon written notice by Aetna in the event of the occurrence of (i), (ii) or (iii) below:

i. a material change in the plan initiated by Client or by legislative action that impacts the claim adjudication process, member service functions, pharmacy network management or rebates;
ii. failure of Client to meet its obligations to remit administrative service fees or fund the Client bank account as stipulated in the General Conditions Addendum of the Services Agreement;
iii. failure of Client to meet their administrative responsibilities (e.g., a submission of incorrect or incomplete eligibility information).

No guarantees shall apply for a guarantee period during which the Services Agreement is terminated by Client or by Aetna.

© 2024 Aetna. All Rights Reserved.

Stop Loss Assumptions & Caveats — Effective Date: October 01, 2026

For the purposes of this document, Aetna may be referred to using "we", "our", or "us" and City of Pompano Beach may be referred to using "you" or "your".

We are pleased to provide you with our proposal for Stop Loss insurance. These Assumptions and Caveats, in conjunction with the Stop Loss Financials exhibit, combine to form the entirety of this proposal. Please review them carefully and notify us immediately if any of the features do not meet your expectations or if any of our assumptions are incorrect. Changes in the features or assumptions may affect premium rates or claim factors.

Additional state-specific notices should be reviewed at this link:
https://www.aetna.com/content/dam/aetna/pdfs/aetnacom/legal-notices/documents/stop-loss-underwriting-disclosures-06-06-2023.pdf

If you purchase Aetna's Stop Loss coverage, you will receive your application for insurance electronically. You will access it via a link delivered by email and endorse it using electronic signature capabilities. You will also receive your policy electronically. This process requires a web browser which supports the HTTPS protocol, HTML, and cookies. You will also need to view PDF documents using software such as Adobe Reader or similar.
You have the right to request that these transactions occur by regular mail using paper copies, which would require you to physically sign your application and mail it back to us. Please contact your broker and/or your Aetna Account Executive to make this request.

Stop Loss policies and applications/schedules of insurance are updated annually upon renewal. Please contact your broker and/or your Aetna Account Executive for a copy of the Stop Loss policy.

This proposal assumes you have notified us of any known applicants for gene replacement therapy.

Proposal Status

This is an illustrative proposal. To provide you with a firm offer, we must evaluate both total claims and large claims current to within 120 days of the proposed effective date. We reserve the right to adjust the quoted Stop Loss rates and/or establish High Risk ISL amounts (lasers) for any known large ongoing claims based on this review. We also reserve the right to update any Aggregate claim factor based on the latest experience and any other changes that may impact claim projections, as applicable.

Please note: We have in place procedures for handling "protected health information" that are compliant with HIPAA. Disclosure of the requested information is permitted by HIPAA. If you need additional information or require a confidentiality agreement, please contact your Aetna representative.

Assumptions

- The policy period is indicated on the Stop Loss Financials. The Stop Loss policy period must agree with the self-funded plan's contract period, both of which must end on the next renewal date.
- It is assumed Aetna is also the claim fiduciary for the self-funded plan(s) covered by Stop Loss. Claims approved by fiduciary override/exception are not covered by Stop Loss.
- Eligibility for Stop Loss coverage will apply as described in the self-funded benefit plan(s) and in accordance with the Stop Loss policy provisions.
- In at least one quoted option, Pre-65 and post-65 retirees, and their dependents, have been included in Stop Loss coverage.
- There must be common ownership among all participating divisions or subsidiaries for this quote to remain valid.
- Your business and/or Standard Industrial Code is 9111.

Stop Loss Assumptions & Caveats — Effective Date: October 01, 2026

What Is Covered

- Self-funded benefit plans covered by Stop Loss are identified on the Stop Loss Financials. All other benefit plans are excluded.
- Gene Replacement Therapy Drug coverage:
  - High Risk Individual Stop Loss Amounts (lasers) are not applied to an FDA-approved or pipeline gene replacement therapy drug dispensed as approved and directed.
  - Gene replacement therapy drug claims will not be included in the ISL claim experience used for rating purposes at the Stop Loss renewal.
  - This feature specifically applies only to the gene replacement therapy drugs approved to treat specific disease, age, and gene expressions via one-time infusion therapies – or curative treatments – for previously untreatable, often fatal, conditions.
- High Risk Individual Stop Loss Amounts may apply for all other diseases or drugs, including medical costs associated with the underlying condition or medical services associated with the gene replacement therapy treatment.
- A gene replacement therapy drug is excluded from this feature if a member is known to have received or be actively progressing through gene replacement therapy treatment at the time a final, firm Stop Loss proposal is delivered. A member is considered actively progressing through gene replacement therapy treatment beginning with initiating the application process through receiving an FDA-approved gene replacement therapy drug.
- Coverage of gene replacement therapy drugs will apply as follows:
  - When a gene replacement therapy drug is administered for the indicated disease, age, and gene expression by one of Aetna's "Gene-based, Cellular, and other Innovative Therapies" (GCIT) network providers, we will consider the eligible claim expense for the gene replacement therapy drug less the ISL amount shown on the Stop Loss Financials exhibit.
- The Stop Loss Financials displays the projected policy period Aggregate Corridor, calculated as
  the projected total enrollment x the ASL claim factor x the number of months in the policy period.
  The actual Aggregate Corridor will be updated to reflect actual monthly enrollment during the policy period.
  The Aggregate Corridor is also subject to the minimum Aggregate Stop Loss Amount.
- Contract Type - As indicated on the Stop Loss Financials, eligible claim expenses will be covered for incurred and paid dates based on:
  - A 12/12 contract type - Claims incurred prior to the policy effective date are excluded from the Individual Stop Loss coverage. This contract type is considered immature. The quoted premium rate is therefore discounted. This discount will be removed from premium rate(s) in the first renewal period as the contract is renewed on a mature paid basis.
  - A 12/12 contract type - Claims incurred prior to the policy effective date are excluded from the Aggregate Stop Loss coverage. This contract type is considered immature. The quoted premium rate is therefore discounted. This discount will be removed from premium rate(s) in the first renewal period as the contract is renewed on a mature paid basis.
- Terminal Liability Option (TLO) - This proposal includes TLO coverage for run-out protection upon termination of the Stop Loss policy in at least one quotation. The terms of the coverage are identified in the Stop Loss Financials. The TLO may be exercised by giving 31 days written notice prior to the termination of the Stop Loss Policy.
  The total TLO premium due by the termination date, using rates and factors on the Stop Loss Financials, is calculated as:
  TLO PEPM rate x enrollment covered on the first day of the last policy month x the number of months indicated
  Upon termination, the final policy period's Individual Stop Loss amount will continue through the TLO run-out period.
  The Aggregate Stop Loss amount for the final policy period will be increased to include the TLO period based on the enrollment covered on the first day of the last policy month, the number of months in the TLO period, and subject to the Minimum Aggregate Stop Loss amount.
  The TLO run-out period will be reconciled and any reimbursement made after the end of the run-out period.

Stop Loss Assumptions & Caveats — Effective Date: October 01, 2026

- A Maximum Annual Aggregate Stop Loss Payment amount is included in the coverage options on the Stop Loss Financials. It reflects the maximum reimbursement we will pay for Aggregate Stop Loss coverage during the policy period. If you elect this coverage feature, it will create a gap in coverage between your benefit plan(s) and your Stop Loss policy. If the total eligible claim expenses funded by Aggregate Stop Loss reach the Maximum Annual Aggregate Stop Loss Payment amount during a policy period, all subsequent eligible claim expenses will be funded by you until the renewal date.

What Is Not Covered

Coverage exclusions include but are not limited to the following:

- Expenses that are not payable under the plan or in accordance with Aetna's clinical policy and established claim practices. This includes expenses that are experimental or investigational, not medically necessary, in excess of the reasonable and customary charge, or any claim exception;
- Eligible claim expenses covered by another valid Stop Loss policy, including another Aetna policy, during the same time period, or run-in claims also covered by a prior policy carrier's run-out provision;
- Plan administration expenses including, but not limited to cost containment administrative fees, care management fees, and network access fees, with the exception of shared savings fees associated with our National Advantage Program (NAP);
- Assessments or surcharges applied to claims by any government body, with the exception of the MA Uncompensated Care Pool, Minnesota Care Provider Tax, or New York Health Care Reform Act surcharges;
- Incentive or risk share payments, care coordination payments, and other non-fee-for-service payments associated with any agreement with an accountable care or similar provider organization;
- Expenses for non-emergency services, treatment, or related complications provided outside the United States. This includes prescription drugs or medical supplies provided by non-U.S. based companies;
- Capitation payments excluded from Individual Stop Loss but included under Aggregate Stop Loss.

Stop Loss Guarantees

A Renewal Risk Cap is included on Individual Stop Loss quotations on the Stop Loss Financials. This feature caps the renewal policy period's Individual Stop Loss rate increase and guarantees we will not set new High Risk Individual Stop Loss amounts (lasers) for additional covered persons at renewal. The Renewal Risk Cap will apply assuming there are no material changes to the quotation assumptions during the policy period or at the subsequent renewal. Material changes are outlined within the Underwriting Requirements, Right to Recalculate caveat.
Adjustments for contract type changes at renewal (e.g.: 12/12 to a Paid basis) are not included in the Renewal Risk Cap.
The Renewal Risk Cap may be renewed, modified or cancelled for subsequent renewals at our discretion.

Stop Loss Reimbursement

- When Aetna is also the plan's administrator and the Stop Loss policy is in-force, eligible claims are funded by Stop Loss immediately, as they are approved for payment under the plan. This "Immediate Reimbursement" means that your cash flow is not impacted by waiting for reimbursement of claims exceeding the Stop Loss amount and claim reports are not required. Additional reconciliation is necessary when run-in or run-out is covered, or when other than a 12/12 or Paid contract type is utilized.
  When Aetna is not the claims administrator, reconciliation for reimbursable amounts is performed at the end of the policy period once you provide appropriate claim details and other necessary information.

City of Pompano Beach

Stop Loss Assumptions & Caveats — Effective Date: October 01, 2026

- The Monthly Budget Feature standardly applies to Aggregate Stop Loss claims as long as we are the claims administrator and the Stop Loss policy remains in-force. This feature provides cash flow protection by capping your monthly claim liability. However, when you choose to fund claims:
  - through multiple primary wire lines, or
  - through one primary wire line and report through one or more internal wire lines,

  additional, final reconciliation is necessary after the close of the policy period.
  When Aetna is not the claims administrator, reconciliation for reimbursable amounts is performed at the end of the policy period once you provide appropriate claim details and other necessary information.

Underwriting Requirements

- We reserve the right to amend or withdraw our offer to reflect the underwriting impact of any additional information we obtain or in the event you are unable to provide us any of the information we need to fully underwrite the risk.
- If you fail to meet the our underwriting requirements, including but not limited to a minimum of 51 eligible subscribers, our Stop Loss offer will be withdrawn.
- We reserve the right to adjust the premium rate or any aggregate Stop Loss factor as of the date of any change to the underlying assumptions that impacts the risk assumed. Changes include, but are not limited to:
  - Any change of +/- 10 percent in enrollment
  - Any change to the plan document(s) that will change the risk assumed under the Stop Loss policy
  - Any change to this policy
  - Any addition or deletion of a unit, division, subsidiary, affiliated or associated company exceeding 10 percent of existing enrollment
  - Any change in federal or state law or regulation that impacts the policy or the coverage provided
  - Any change impacting the risk we have assumed, including but not limited to: age, gender, geography, occupation, incorrect or incomplete information provided in Disclosure statements, etc., that impacts the nature of the risk by more than 10 percent
  - Any change in claims administrator, provider network or cost containment vendor, provided we have consented to the change in writing
  - Any change in the claims administrator's claim payment system or payment practices that causes a variation of +/- 5 percent versus the most recent 12 month average claim processing time.

  New units, subsidiaries, etc., will be underwritten. Claim reports may be requested. If this information is not provided, we reserve the right to require a completed and signed Disclosure and may apply AAW/DNC rules on the acquired group.

What is Stop Loss insurance?

Stop Loss insurance allows plan sponsors to enjoy the benefits of self-funding their medical and pharmacy plans while protecting against the corresponding risk of unknown, higher than anticipated claims. These risks, such as an unexpected large claimant or adverse claim fluctuations across the entire covered group, could impact a plan sponsor's immediate cash flow or even bottom line results.

There are two types of Stop Loss coverage:

- **Individual Stop Loss (ISL)** provides protection above a specific claim amount per covered person against that person's potential for catastrophic losses during a policy period.
- **Aggregate Stop Loss (ASL)** insures against potential adverse losses over the entire group in excess of a pre-determined maximum liability during a policy period. This maximum liability is typically reflected as a percentage of total expected claims, such as 125 percent.

Coverage is available for Individual Stop Loss only or combined with Aggregate Stop Loss for extra protection and peace of mind. Claims covered by Individual Stop Loss do not apply to Aggregate coverage. Recommended coverage levels are determined based on total membership in the self-funded health plan.

What other Stop Loss features are available?

Stop Loss insurance has a number of additional features to assist plan sponsors with predicting their liability and controlling costs.

- **Contract Types** - A Contract Type defines the time periods during which first, eligible claim expenses must be incurred by a covered person, and then second, paid by the claims administrator. The time periods are noted in months.
  - Our standard for new Stop Loss policies is a 12/12 contract type. Only claims that are both incurred and paid during the initial 12-month policy period are covered. This is considered an immature policy.
  - Our Stop Loss renewals are standardly covered on a Paid contract type basis. This is a mature policy, covering claims paid during the 12-month policy period regardless of when they were incurred as long as the Stop Loss policy was in force at the time of incurral. For more information on the benefits of a Paid renewal contract type, see our Aetna Stop Loss Advantage - Paid Renewal Contract Type exhibit.
  - Additional incurred and paid contract types may be offered upon request. These include run-in contract types (15/12, 18/12), which cover claims incurred prior to but paid during a policy period, as well as run-out contract types, which cover claims incurred during the policy period but paid for a specific length of time after it ends.
- **Terminal Liability Option (TLO)** - TLO coverage provides run-out protection in the event of termination of the Stop Loss policy. It covers claims incurred under covered self-funded benefit plans while the Stop Loss policy is active and paid within a pre-determined timeframe after termination.
  - TLO may only be purchased at policy inception or added at a subsequent policy renewal. It cannot be added to the policy upon termination.
  - The Individual Stop Loss amount is continued from the final policy period through the run-out period.
  - The Aggregate Stop Loss corridor is increased by a specific number of months of additional claim liability corresponding to the run-out period selected.
  - You have the option to exercise the TLO with at least 30 days advance notice prior to termination and payment of a pre-defined number of months of premium based upon the length of the run-out period.
  - Run-out claims are reconciled and any reimbursements made once the run-out period is completed.

- **Experience Refund Option (ERO)** - You may receive a refund of a specific percentage of net Individual Stop Loss premium when actual experience results in a loss ratio that is better than the loss ratio threshold. If the actual loss ratio is greater than the loss ratio threshold, no refund is available. This feature is offered for either one- or two-year periods, and is subject to additional qualifications.
- **Prior Carrier Run-in Coverage** - For new Stop Loss policyholders, we may cover claims incurred during a pre-determined timeframe prior to the effective date of coverage and paid during the initial policy period. For such claims to be eligible for Stop Loss coverage, the member must be enrolled in the health plan on the initial effective date of Aetna's Stop Loss policy. Run-in limits, or 'caps', may also apply on a per covered person basis for Individual and in total for Aggregate Stop Loss. Additional rules may apply.

Additional Stop Loss features are available to plan sponsors willing to take on additional risk in return for reduced premiums. These features include:

- **Annual Payment Maximums** - Stop Loss reimbursement payments may be limited on a per covered person basis for Individual and in total for Aggregate Stop Loss.
- **ISL Coinsurance** - You share the liability for a covered person's eligible claims after the Individual Stop Loss amount has been met. Coinsurance is offered from 10 percent to 50 percent.
- **Aggregating Specific Amount** - An additional Individual Stop Loss amount that applies across all covered persons for whom the policy's ISL Amount has already been met. The "Agg Spec" amount must also be met before Individual coverage reimbursements begin.

How is Stop Loss priced?

Stop Loss rates are calculated based on the following group-specific information:

- Stop Loss coverage selected
- self-funded plan(s) covered
- demographics and industry
- policy period duration
- contract type
- leveraged trend
- expected claim projections
- known high risk claimants
- optional features chosen
- first-year immature to renewal mature basis

Additionally, known high risk covered persons may be subject to a separate higher individual Stop Loss amount, also referred to as a 'laser'. All quotes are subject to underwriting guidelines.

How is Aetna's Stop Loss coverage administered?

- Stop Loss premiums are billed monthly on a composite per employee/covered unit basis.
- When Aetna is also the claims administrator of the self-funded health plan(s), Individual Stop Loss claims are automatically funded by Aetna; no action by the plan sponsor is needed.
- Additionally, when Aetna is the claims administrator of the self-funded health plan(s), Aggregate Stop Loss provides cash flow protection by capping a plan sponsor's monthly claim liability.
- When a third party administers a health plan(s), Individual Stop Loss is reconciled after the close of each policy period.

Stop loss policies are insured or underwritten by Aetna Life Insurance Company.

This material is subject to change. For more information about coverage details, including limitations, exclusions and other plan requirements, please refer to a sample Stop Loss policy or contact an Aetna representative.

City of Pompano Beach

Stop Loss - The Aetna Advantage **Effective Date: October 01, 2026**

Why Choose Aetna for Stop Loss Insurance?

Aetna's Stop Loss product has a proven track record of more than 35 years helping self-funded plan sponsors control costs and gain flexibility within their health plan(s) while providing protection against the financial risk of catastrophic claims. Coverage is comprehensive, aligning with the self-funded plan when it is administered by Aetna and offering Paid renewal contract types as our standard, eliminating coverage gaps.

What are the Benefits of integrated Plan Administration and Stop Loss insurance?

Our Stop Loss coverage benefits expand significantly when bundled with our self-funded plan administration.

Peace of Mind that Claims are Covered	• The same clinical policies and large claim care coordination apply to our plan administration and Stop Loss coverage. Claims paid according to these standards are automatically covered. • Stop Loss-only carriers 'readjudicate' claims according to their own standards and policies, resulting in coverage denials that causes additional financial risk for the plan sponsor.
Improved Cash Flow and Budgeting	• Our Stop Loss is linked to the self-funded plan's administration. Your bank account is never debited for any eligible claim over the ISL or ASL Amount. • Annual claim liability is split into monthly allotments. • With Stop Loss-only carriers, there can be a one to twelve-month reimbursement delay until documentation is submitted to the Stop Loss carrier and approved for payment.
Streamlined processes and resource needs	• Stop Loss claims are funded automatically as the claim is initially paid.* There are no claim reports involved, which saves on administrative fees. • There is no chance of missing or failing to submit eligible claims to Stop Loss. • Stop Loss-only carriers require claim and medical management reports to determine reimbursement.

How does integrated Plan Administration and Stop Loss insurance operate?

- **Immediate Reimbursement* for Individual Stop Loss (ISL)**
  - With Immediate Reimbursement, we automatically fund a covered member's eligible claims once the claims exceed the ISL amount. You never fund claims over the ISL amount.
  - The change in the funding of claims is automatic; no action is needed on your part. When claims reach the ISL or ASL amount, our claim system automatically switches the financial indicator of future claims from “customer funded” to “Aetna funded”.

- **Aggregate Stop Loss Monthly Budget Feature***
  - The Monthly Budget Feature provides cash flow protection by capping your monthly claim liability.
  - If the plan's monthly claims paid are less than the maximum calculated payment, you fund the total monthly claims and the unused claim liability is carried forward to the next month.
  - However, if the monthly paid claims are greater than the maximum payment calculated, we fund the difference and you will pay that amount in next month's payment.
  - The claim funding change is automatic; no action is needed on your part. There is no wait for reimbursement.

**Run-in and run-out contract types require additional reconciliation at the close of the policy and/or contract period.*

Stop loss policies are insured or underwritten by Aetna Life Insurance Company.

This material is subject to change. For more information about the coverage details, including limitations, exclusions and other plan requirements, please refer to a sample Stop Loss policy or contact an Aetna representative.

City of Pompano Beach

Aetna Stop Loss Advantage - Monthly Budget Feature — Effective Date: October 01, 2026

What is Aetna's Monthly Budget Feature?

- Aggregate coverage with the Monthly Budget Feature (MBF) is one of the advantages of bundling claims administration and Stop Loss coverage with Aetna.
- The Monthly Budget Feature provides cash flow protection by capping your monthly claim liability.
- If the plan's monthly claims paid are less than the maximum calculated payment, you fund the total monthly claims and the unused claim liability is carried forward to the next month.
- However, if the monthly paid claims are greater than the maximum payment calculated, we fund the difference and you will pay that amount in next month's payment.
- The change in the funding of claims is automatic; no action is needed on your part. There is no wait for reimbursement. This improves cash flow and reduces administration.

Here's how the Monthly Budget Feature works. Assume the following:

Monthly Employee Count	500
ASL claim factor for 125% coverage	$1,250.00
Monthly Claim Liability	$625,000
*The Individual Stop Loss amount is not exceeded for any member.	

	A	B	C	D	E	F
Policy Month	Monthly Claim Liability	Maximum Monthly Payment	Monthly Claims Paid	Monthly Policyholder Funded Claims	Unused Claim Liability	Aetna Funded Claims Over Max Payment
Jan	$ 625,000	$ 625,000	$ 525,000	$ 525,000	$ 100,000	$ -
Feb	625,000	725,000	500,000	500,000	225,000	-
Mar	625,000	850,000	875,000	850,000	-	25,000
Apr	625,000	625,000	550,000	575,000	50,000	-
May	625,000	675,000	750,000	675,000	-	75,000
Jun	625,000	625,000	550,000	625,000	-	-
Jul	625,000	625,000	600,000	600,000	25,000	-
Aug	625,000	650,000	625,000	625,000	25,000	-
Sep	625,000	650,000	575,000	575,000	75,000	-
Oct	625,000	700,000	725,000	700,000	-	25,000
Nov	625,000	625,000	675,000	625,000	-	75,000
Dec	625,000	625,000	700,000	625,000	-	150,000
Policy Period	$ 7,500,000		$ 7,650,000	$ 7,500,000	$ -	$ 150,000

A **Monthly Claim Liability** is the number of employees covered by the plan times the ASL claim factor.

B The **Maximum Monthly Payment** is the Monthly Claim Liability plus any prior month's Unused Claim Liability.

C **Monthly Claims Paid** is the eligible claims paid under the health benefit plans covered by Stop Loss.

D The **Monthly Policyholder Funded Claims** is the lesser of the Maximum Monthly Payment or the Monthly Claims Paid.

E **Unused Claim Liability** results when the Monthly Policyholder Funded Claims (D) is less than the Maximum Monthly Payment (B). Any Unused Claim Liability is carried forward to be available to fund claims in future months of the policy period.

F If the Monthly Claims Paid exceed the Maximum Monthly Payment, we fund the claim amount above the maximum payment (**Aetna Funded Claims Over Max Payment**). You then fund these claims at the start of the next policy month from the next month's claim liability.

Stop loss policies are insured or underwritten by Aetna Life Insurance Company.

6.4. Premium Cost Proposal:

Proposers shall provide complete premium rate information for both PPO and HMO plans, including employee and dependent combined costs, as required in the Proposal rate sheets. All pricing must be clearly presented and consistent with the submitted rate sheets. Complete the Proposal rate sheets included in the Attachments tab of IonWave and include them with the Proposal. Proposers shall also itemize all costs necessary to provide the services described in Section 3, Vendor Requirements.

Confirmed.

6.5. Qualifications of Personnel:

Proposers shall identify key personnel assigned to the City's account, including account managers, implementation specialists, customer service representatives, and any other support staff. For each individual, provide qualifications, relevant experience, certifications, and tenure with the organization.

Our goal is to be your trusted advisor. Your core account team includes a Vice President of Client Management, Account Executive, Account Manager and Plan Sponsor Liaison. Your account team serves as an extension of your internal benefit and leadership teams, working directly with you to collaborate on strategy, drive results and simplify plan administration.

Roles and responsibilities

You're supported by a core account management team that consists of:

- Renthia Jackson, Vice President of Client Management – Renthia serves as a senior team member who works consultatively with you, partnering with your account executive on future initiatives and benefit program development, and ensuring overall satisfaction with our relationship together. This includes connecting with your senior leadership, as appropriate, and optimally deploying tools and resources to support your employees and your bottom line.

- Gabrielle Dimitrakis, Account Executive - Gabby has overall responsibility for our relationship with you. They work with you to create your benefit program strategy and gather the right resources within our company to support it. Gabby has overall responsibility for the strategic direction of your benefit program and our partnership with you.

- Yaqueline Muradas, Sr. Account Manager – Jackie is your day-to-day contact. She works in tandem with the rest of your team to ensure smooth operation of your benefit program. Jackie is responsible for building and maintaining a strong relationship with you. This includes communicating with you on a regular basis, overseeing operational services for you, connecting internal teams across our company to ensure commitments are kept and managing day-to-day services to make sure we provide you with quality service.

Aetna will hire an approved onsite Wellness Coach upon sale.

Pharmacy

Real integration means a single team joining you in your goals. [Medical AE] serves as your account executive who works with you to create your benefit program strategy for the medical and pharmacy benefit. Likewise, [Medical AM] serves as your day-to-day account manager for both benefits. With real integration, you eliminate inefficiencies by choosing a partner who knows how pharmacy and medical work best together.

We support your account executive, Gabby Dimitrakis and account manager, Jackie Muradas, with an entire team of pharmacy specialists who are committed to the success of your overall plan.

- Vice president, business development – Andrew Conroy offers leadership during the RFP process and supports your account through implementation. He serves as a key resource with understanding of pharmacy products, services, implementation, pricing and the quote process.

- Strategic account executive (SAE) – Troy Puse, MBA acts as your financial and strategic lead for the pharmacy benefit. Troy will work with Gabby Dimitrakis, your Medical Account Executive to present consultative benefit design and program strategy to find ways to decrease drug spend and increase pharmacy plan value.

- Clinical advisor (CA) – Tarish Mehta, PharmD, MBA is a highly-skilled pharmacist who can help evaluate your plan's performance. He can regularly meet with you to review reports and discuss initiatives for your population.

- Pharmacy account manager – Nicole Ruiz also partners with your medical account manager, Jackie Muradas and the account team to oversee the servicing and continuity of the pharmacy benefit. She facilitates operational projects and serves as a liaison for service-level support.

- Pharmacy implementation manager – We assign both a medical and pharmacy implementation manager to coordinate all activities, team members and deadlines. The pharmacy implementation manager oversees plan testing, ensures your plan is ready by the effective date and obtains your sign-off on the implemented benefits.

This one team looks at your entire clinical and financial picture to create comprehensive solutions for you. We would be happy to meet with you to explain in detail why integration is better both for you, your HR team and your employees.

6.6. Availability of Personnel:

Proposers must also describe staffing levels, personnel availability for ongoing support, responsiveness standards, and escalation procedures. The Proposal should clearly demonstrate the Proposer's ability to provide sufficient, experienced personnel to ensure successful implementation, administration, and ongoing service of the program.

Confirmed. We commit to service levels and metrics associated with delivering speed of service and quality of service. We adhere to evolving industry best practices and service models to meet regulatory requirements, including adhering to all performance goals and service level agreements.

Our staffing is regularly reviewed and adjusted to member needs, with adjustments on an as-needed basis for internal and external factors such as pandemic impacts, natural disasters, seasonal trends and workforce well-being. Additionally, we strategically leverage enterprise resources to implement innovative approaches to customer service.

6.7. Prior Experience and Reference Satisfaction:

Proposers shall describe their firm's prior experience providing group health benefits coverage and related administrative services for governmental or similarly sized public sector clients. Include the number of years providing such services, experience with fully insured and self-funded arrangements, and evidence of client satisfaction, including references, retention history, performance outcomes, or other relevant indicators.

Aetna is an industry-leading, diversified health solutions company with 170 years of experience providing quality, reliable services to businesses, individuals and the government. Our services include medical, dental, vision, pharmacy, student health, voluntary, Medicare, Medicaid and other consumer-directed health benefits. Founded in 1853 in Hartford, CT, we entered the group health insurance business in 1936. Our first group hospitalization contract was issued in 1937. We introduced our first major medical product in 1951, our first dental plan in 1957 and our first stand-alone vision product in 2009.

CVS Health Corporation (CVS Health) acquired Aetna Inc. and its subsidiaries effective November 28, 2018, making CVS Health the ultimate parent company of Aetna and its subsidiaries. As CVS Health's health care benefits business, we offer a broad range of traditional, voluntary and consumer-directed health insurance products and related services to help our members achieve their best health in an affordable, convenient and comprehensive manner. Combining the assets of our health insurance products and services with CVS Health's unrivaled presence in local communities and their pharmacy benefits management capabilities, we're joining members on their path to better health and transforming the health care landscape in new and exciting ways every day.

For evidence of client satisfaction, please refer to 6.8 References in the Reference section of our proposal response.

6.8. References:

It is a requirement that all insurance carriers currently provide group insurance to at least two (2) Municipal entities with a minimum of 500 employees. Proposers not able to list two current Municipal references may be disqualified from consideration.

References	Reference 1	Reference 2
Group Name	City of Hialeah	City of Miramar
City/State	Hialeah, Florida	Miramar, Florida

Submit a client reference list, including the name of the contact, firm, and/or governmental entity, address, telephone number, email address, and type of service provided, and years of service provided to each reference.

We have extensive experience with multiple employer trusts, labor unions, national and international union staff and union-sponsored VEBAs. We provide services to many companies and government entities which enter into collective bargaining agreements with labor unions. Our client list is considered proprietary and not released externally.

6.9. Benefits Equal to or Better Than Current Plan:

Proposers are encouraged to match current plan designs as closely as possible. Proposers shall provide a detailed comparison of their proposed benefit plans to the City's current plan designs, clearly identifying any differences, enhancements, or limitations. The comparison should include deductibles, copayments, coinsurance, out-of-pocket maximums, covered services, exclusions, and prescription drug coverage. Proposers must demonstrate how their proposed plans are equal to or exceed the current benefits offered by the City and describe any added value, cost efficiencies, or innovative plan features that improve overall coverage or member experience.

Confirmed.

Benefit Review Document

Overview

We have reviewed City of Pompano Beach's medical plan designs and matched them as closely as possible to Aetna's Choice POS II, Open Access Aetna SelectSM, Aetna Open Access Managed Choice (POS), and Aetna Open Access Elect Choice (EPO) medical plans.

We have listed here those benefits that we cannot administer exactly as shown on the plan designs provided. Where benefits are not specified, we have assumed Aetna's standard benefit provisions will apply. We have assumed Aetna's standard claim policies, schedule frequencies, definitions, limitations and exclusions will also apply unless otherwise noted.

All plans and benefits are subject to and governed by applicable contracts, policies and government regulations. The information herein is believed accurate as of the date of submission and is subject to change without notice. All benefits of the plan are subject to coordination of benefits and the terms (including exclusions) of the Contract.

These plan reviews are based on self-insured and Insured FLORIDA contract situs. Plan features and product availability are subject to federal requirements as applicable. Plan features and product availability are subject to federal requirements as applicable. Wherever there is like legislation between the contract and extraterritorial locations, the legislation of the extraterritorial location will apply regardless of whether it is more liberal or not.

Benefit Review Document

Clarifications

*This review may not reflect the impact of all of the passed health care reform legislation, nor the regulations that may be issued to clarify and revise the law. Certain provisions of the law and regulations may have a material impact on this review.

*We are using the South Carolina benchmark plan as the model for Essential Health Benefits (EHB) compliance.

* All in-network member cost sharing must reduce the in-network out-of-pocket maximum, including in-network prescription drug plan copays or other cost sharing, for all medical plans that are subject to ACA, up to the published maximum amounts allowed.

*The following is a link to our Clinical Policy Bulletins: https://www.aetna.com/health-care-professionals/clinical-policy-bulletins.html

*Maternity: If the initial visit is not billed as prenatal, well-woman or preventive counseling, the applicable office visit cost share will apply. (If billed as preventive, the initial visit will be covered at 100%, no copay/deductible.)

*Our clinical policies will replace the current carriers.

*Our standard wellness programs will replace any existing programs.

*Our Precertification Lists will replace the current precertification requirements. In-network precertification is based on the National Provider List (NPL): https://www.aetna.com/health-care-professionals/precertification/precertification-lists.html

Benefit Review Document

*We assume that the Aetna Compassionate Care Program (ACCP) replaces the current Hospice Care program. This package includes the option for a member to continue to seek curative care while in hospice, the ability to enroll in a hospice program with a 12-month terminal prognosis, the elimination of the current hospice day and dollar maximum plan limits, and respite and bereavement care incorporated into the overall enhanced hospice package.

*A plan may elect to exclude coverage of Advanced Reproductive Technologies (ART); however, we will include coverage of Basic Infertility. Basic Infertility includes treatment of the underlying medical cause of infertility as well as intrauterine insemination/artificial insemination (IUI/AI) and is embedded in all our plans with no limits.

We do not distinguish inpatient rehabilitation from any other inpatient expense and subject it to a separate maximum. Facilities that meet the definition of a "hospital", such as inpatient rehabilitation, are considered on the same basis as any other hospital facility.
Aetna Choice POS II / ASC w/Aetna Stop Loss	BlueChoice 727-ASC	Short Term Rehabilitation & Spinal Manipulation Therapy - In and Out of Network	50 visits, including 26 manipulations	BETTER; We recommend 50 combined visits per year for physical therapy, occupational therapy, and speech therapy and a separate 26 visits for spinal manipulation. (We can also allow 50 combined visits for physical therapy, occupational therapy, speech therapy, and spinal manipulation.) However, we are unable to apply a 26-visit limit for spinal manipulation within an overall limit of 50 visits for STR as requested.
Aetna Open Access® Managed Choice (POS) / Fully Insured	BlueChoice 727-FI	Short Term Rehabilitation & Spinal Manipulation Therapy - In and Out of Network	50 visits, including 26 manipulations	BETTER; We recommend 50 combined visits per year for physical therapy, occupational therapy, and speech therapy and a separate 26 visits for spinal manipulation. (We can also allow 50 combined visits for physical therapy, occupational therapy, speech therapy, and spinal manipulation.) However, we are unable to apply a 26-visit limit for spinal manipulation within an overall limit of 50 visits for STR as requested.

Aetna Open Access Elect Choice® (EPO) / Fully Insured	BlueCare 55-FI	Telemedicine - CVS Health Virtual Care/CVS Health Virtual Primary Care - In Network (Preferred)	PCP and Specialist Virtual Visits: : PCP/Specialist copy applies	BETTER; Our CVS Health Virtual Care 24/7 care (CVSH VC), CVS Health Virtual Primary Care (CVSH VPC) and Teladoc Health program will replace any existing e-visit/telehealth program. CVSH VPC and CVSH VC will apply a $0 cost share. Teladoc Health cost shares for General Medical and Dermatology are dictated by plan sponsor intent. Teladoc cost shares for Mental Health will follow Parity guidelines. These are considered designated network-only programs. The virtual specialist care cost share would not apply as our programs do not have a general Specialist component. Note: We also cover general telemedicine services outside of our designated programs at the same cost share as an in-person visit. However, for our Aetna Health Plan (AHP) providers, a cost share that is different than the in-person office visit cost share can be applied to the following categories: Physician, Specialist, and Behavioral Health (must follow Parity guidelines).

PLAN DESIGN & BENEFITS
ADMINISTERED BY AETNA LIFE INSURANCE COMPANY - SELF FUNDED

PLAN FEATURES	IN-NETWORK	OUT-OF-NETWORK
Benefit limitations - Some service or supplies have limits on them per year. There might be a maximum number of visits or days, or a dollar limit per year. In such cases, the benefit year begins on January 1 (unless otherwise noted). Refer to your plan documents to learn more.		
Deductible (per calendar year)	$500 per Individual $750 per Family	$500 per Individual $750 per Family
Covered expenses in-network add up towards your in-network deductible. Covered expenses out-of-network add up towards your out-of-network deductible. You must first meet the deductible before the plan begins paying benefits, unless otherwise noted. The amount you pay (cost sharing) for some medical services does not count toward your deductible. Prescription drug costs do not count toward the deductible. Refer to your plan documents for details. Your family will have one deductible. You will meet it when the expenses of several family members add up to the family deductible. No one person will have to pay more than the individual deductible.		
Member coinsurance Applies to all expenses except as noted.	You pay 20%	You pay 30%
Out-of-pocket limit (per calendar year)	$2,000 per Individual $4,000 per Family	$2,000 per Individual $4,000 per Family
Covered expenses in-network add up towards your in-network out-of-pocket limit. Covered expenses out-of-network add up towards your out-of-network out-of-pocket limit. Your pharmacy expenses count toward your out-of-pocket limit. In-network expenses include coinsurance/copays and deductibles. Your family will have one out-of-pocket limit. You will meet it when the expenses of several family members add up to the family out-of-pocket limit. No one person will have to pay more than the individual out-of-pocket limit amount. Out-of-network expenses include coinsurance and deductibles. Penalty amounts do not apply.		
Lifetime maximum Unlimited except where otherwise indicated.		
Payment for out-of-network care**	Does not apply	Professional: Prevailing Charges Facility: Facility Charge Review
Primary care physician selection	Encouraged	Does not apply
Precertification requirements - Some out-of-network services need approval by us in advance (precertification). Without this approval, we reduce benefits by $400. Refer to your plan documents for a full list of services that need this approval.		
Referral requirement	Not required	None
Telehealth consultations - You can access covered services for telehealth visits from different kinds of providers in your network. Log on to **Aetna.com** to see a list of telehealth providers. You'll also find more about your options, including cost share amounts.		
Virtual care consultations - You can access covered services for virtual care visits from different kinds of providers in your network. Log on to **Aetna.com** to see a list of virtual care providers. You'll also find more about your options, including cost share amounts.

Retail	You can get up to a 30-day supply from Aetna National Network	
Mail order	You can get a 31-90-day supply from CVS Caremark® Mail Service Pharmacy.	
Specialty	You can get up to a 30-day supply of specialty drugs You must fill all specialty drugs through our preferred specialty pharmacy network. Aetna Specialty Performance Network Drug List	

Your prescription drug plan also includes:
• Diabetic supplies and blood glucose monitors
• Prescription weight loss drugs

Family planning
• Oral and injectable fertility drugs included (physician charges for injections are not covered under RX, medical coverage is limited).

The following are covered 100% in-network:
• Seasonal vaccinations
• Preventive vaccinations
• Travel vaccinations
• Affordable Care Act (ACA) eligible preventive medications and contraceptives
Refer to **Aetna.com** for a complete list of eligible prescription drugs.

Precertification requirements
Some covered prescription drugs need approval from us before we will cover the drug.
To get the most up-to-date precertification requirements, see your plan documents or go online to your member website.

Choose generics - Sometimes you or your provider may ask for a brand-name prescription drug when a generic is available. If so, you will pay the brand-name copay plus the difference between the generic price and the brand-name price.

PLAN DESIGN & BENEFITS
ADMINISTERED BY AETNA LIFE INSURANCE COMPANY - SELF FUNDED

GENERAL PROVISIONS

Dependents who are eligible to be on your plan	Spouse, children from birth to age 26. Student status of children does not matter.

**We cover the cost of services based on whether doctors are "in network" or "out of network." We want to help you understand how much we pay for your out-of-network care. At the same time, we want to make it clear how much more you will need to pay for this "out-of-network" care.
You may choose a provider (doctor or hospital) in our network. You may choose to visit an out-of-network provider. If you choose a doctor who is out of network, your health plan may pay some of that doctor's bill. Most of the time, you will pay a lot more money out of your own pocket if you choose to use an out-of-network doctor or hospital.

When you choose out-of-network care, we limit the amount it will pay. This limit is called the "recognized" or "allowed" amount.
This amount is based on the out-of-network plan you or your employer picks.
• For doctors and other professionals the amount is based on the "prevailing" charges. We get this data from an external database.

• For hospitals and other facilities, the amount is based on the Facility Fee Schedule.

Your doctor sets his or her own rate to charge you. It may be higher -- sometimes much higher -- than what your plan "recognizes." Your doctor may bill you for the dollar amount that we don't "recognize." You must also pay any copayments, coinsurance and deductibles under your plan. No dollar amount above the "recognized charge" counts toward your deductible or out-of-pocket maximums. To learn more about how we pay out-of-network benefits visit our website.
You can avoid these extra costs by getting your care from Aetna's broad network of health care providers. Go to www.aetna.com and click on "Find a Doctor" on the left side of the page. If you are already a member, sign on to your Navigator member site.
This applies when you choose to get care out of network. When you have no choice (for example: emergency room visit after a car accident, or for other emergency services), we will pay the bill as if you got care in network. You pay cost sharing and deductibles for your in-network level of benefits. Contact us if your provider asks you to pay more. You are not responsible for any outstanding balance billed by your providers for emergency services beyond your cost sharing and deductibles.
This way of paying out-of-network doctors and hospitals applies when you choose to get care out of network. When you have no choice (for example: emergency room visit after a car accident), we will pay the bill as if you got care in-network. You pay your plan's copayments and deductibles for your in-network level of benefits. Contact us if your provider asks you to pay more. You are not responsible for any outstanding balance billed by your providers for emergency services beyond your copayments and deductibles.

Plans are provided by: Aetna Health Inc. While this material is believed to be accurate as of the production date, it is subject to change.

Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered.

See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not our agents. Provider participation may change without notice. We do not provide care or guarantee access to health services.

PLAN DESIGN & BENEFITS
ADMINISTERED BY AETNA LIFE INSURANCE COMPANY - SELF FUNDED

The following is a list of services and supplies that are *generally* not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.
• All medical and hospital services not specifically covered in, or which are limited or excluded by your plan documents.
• Cosmetic surgery, including breast reduction.
• Custodial care.
• Dental care and dental X-rays.
• Donor egg retrieval
• Experimental and investigational procedures, except for coverage for medically necessary routine patient care costs for members participating in a cancer clinical trial.
• Hearing aids
• Home births
• Immunizations for travel or work, except where medically necessary or indicated.
• Implantable drugs and certain injectable drugs including injectable infertility drugs.
• Infertility services, including artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents.
• Long-term rehabilitation therapy.
• Non-medically necessary services or supplies.
• Outpatient prescription drugs (except for treatment of diabetes), unless covered by a prescription plan rider and over-the-counter medications (except as provided in a hospital) and supplies.
• Radial keratotomy or related procedures.
• Reversal of sterilization.
• Services for the treatment of sexual dysfunction/enhancement, including therapy, supplies or counseling or prescription drugs.
• Special duty nursing.
• Therapy or rehabilitation other than those listed as covered.
• Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions.

In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

PLAN DESIGN & BENEFITS
ADMINISTERED BY AETNA LIFE INSURANCE COMPANY - SELF FUNDED

Your prescription drug plan also includes:
• Diabetic supplies and blood glucose monitors
• Prescription weight loss drugs

Family planning
• Oral and injectable fertility drugs included (physician charges for injections are not covered under RX, medical coverage is limited).

The following are covered 100% in-network:
• Seasonal vaccinations
• Preventive vaccinations
• Travel vaccinations
• Affordable Care Act (ACA) eligible preventive medications and contraceptives
Refer to **Aetna.com** for a complete list of eligible prescription drugs.

Precertification requirements
Some covered prescription drugs need approval from us before we will cover the drug.
To get the most up-to-date precertification requirements, see your plan documents or go online to your member website.

Choose generics - Sometimes you or your provider may ask for a brand-name prescription drug when a generic is available. If so, you will pay the brand-name copay plus the difference between the generic price and the brand-name price.

GENERAL PROVISIONS

Dependents who are eligible to be on your plan	Spouse, children from birth to age 26. Student status of children does not matter.

Plans are provided by: Aetna Health Inc. While this material is believed to be accurate as of the production date, it is subject to change.

Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered.

See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not our agents. Provider participation may change without notice. We do not provide care or guarantee access to health services.

PLAN DESIGN & BENEFITS
ADMINISTERED BY AETNA LIFE INSURANCE COMPANY - SELF FUNDED

The following is a list of services and supplies that are *generally* not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.
• All medical and hospital services not specifically covered in, or which are limited or excluded by your plan documents.
• Cosmetic surgery, including breast reduction.
• Custodial care.
• Dental care and dental X-rays.
• Donor egg retrieval
• Experimental and investigational procedures, except for coverage for medically necessary routine patient care costs for members participating in a cancer clinical trial.
• Hearing aids
• Home births
• Immunizations for travel or work, except where medically necessary or indicated.
• Implantable drugs and certain injectable drugs including injectable infertility drugs.
• Infertility services, including artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents.
• Long-term rehabilitation therapy.
• Non-medically necessary services or supplies.
• Outpatient prescription drugs (except for treatment of diabetes), unless covered by a prescription plan rider and over-the-counter medications (except as provided in a hospital) and supplies.
• Radial keratotomy or related procedures.
• Reversal of sterilization.
• Services for the treatment of sexual dysfunction/enhancement, including therapy, supplies or counseling or prescription drugs.
• Special duty nursing.
• Therapy or rehabilitation other than those listed as covered.
• Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions.

In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

PLAN DESIGN & BENEFITS
MEDICAL PLAN PROVIDED BY AETNA LIFE INSURANCE COMPANY

PLAN FEATURES	IN-NETWORK
Benefit limitations - Some service or supplies have limits on them per year. There might be a maximum number of visits or days, or a dollar limit per year. In such cases, the benefit year begins on January 1 (unless otherwise noted). Refer to your plan documents to learn more.	
Deductible (per calendar year)	$250 per Individual $500 per Family
You must first meet the deductible before the plan begins paying benefits, unless otherwise noted. The amount you pay (cost sharing) for some medical services does not count toward your deductible. Prescription drug costs do not count toward the deductible. Refer to your plan documents for details. Your family will have one deductible. You will meet it when the expenses of several family members add up to the family deductible. No one person will have to pay more than the individual deductible.	
Member coinsurance Applies to all expenses except as noted.	Covered 100%
Out-of-pocket limit (per calendar year)	$2,500 per Individual $5,000 per Family
Your pharmacy expenses count toward your out-of-pocket limit. In-network expenses include coinsurance/copays and deductibles. Your family will have one out-of-pocket limit. You will meet it when the expenses of several family members add up to the family out-of-pocket limit. No one person will have to pay more than the individual out-of-pocket limit amount.	
Lifetime maximum Unlimited except where otherwise indicated.	
Primary care physician selection	Encouraged
Referral requirement	Not required
Telehealth consultations - You can access covered services for telehealth visits from different kinds of providers in your network. Log on to **Aetna.com** to see a list of telehealth providers. You'll also find more about your options, including cost share amounts.	
Virtual care consultations - You can access covered services for virtual care visits from different kinds of providers in your network. Log on to **Aetna.com** to see a list of virtual care providers. You'll also find more about your options, including cost share amounts.

PLAN DESIGN & BENEFITS
MEDICAL PLAN PROVIDED BY AETNA LIFE INSURANCE COMPANY

Pharmacy day supply and requirements

Retail	You can get up to a 30-day supply from Aetna National Network
Mandatory maintenance choice	Maintenance drugs are prescriptions commonly used to treat conditions that require regular, daily use of medicines. If you take a maintenance drug, you can get two retail fills. Then you must fill a 31-90-day supply of the maintenance drug at CVS Caremark® Mail Service Pharmacy, a designated network pharmacy, or a CVS Pharmacy®. If you do not, you will need to pay 100% of the drug cost.
Opt Out	You must notify us if you want to continue to fill the medicine at a network retail pharmacy. Just call the number on the member ID card.
Specialty	You can get up to a 30-day supply of specialty drugs You must fill all specialty drugs through our preferred specialty pharmacy network. Standard Opt Out Aetna Insured List

Your prescription drug plan also includes:
- Diabetic supplies
- $25 copay maximum per fill per 30 day supply for formulary insulin drugs
- A limited list of over-the-counter medications when filled with a prescription

Family planning
- Oral fertility drugs included.
- Contraceptives covered up to a 12-month supply. Contraceptive copay strategy applies.

The following are covered 100% in-network:
- Oral chemotherapy drugs
- Seasonal vaccinations
- Preventive vaccinations
- Affordable Care Act (ACA) eligible preventive medications and contraceptives

Refer to **Aetna.com** for a complete list of eligible prescription drugs.

Precertification requirements
Some covered prescription drugs need approval from us before we will cover the drug.
Some covered prescription drugs require step therapy before we cover them. With step therapy, you must first try one or more drugs before we will pay for drugs that require step therapy.
To get the most up-to-date precertification requirements and a list of drugs that require step therapy, see your plan documents or go online to your member website.

Choose generics - Sometimes you or your provider may ask for a brand-name prescription drug when a generic is available. If so, you will pay the brand-name copay plus the difference between the generic price and the brand-name price.

Prescription drug out-of-pocket limit	Prescription drug expenses apply to your medical out-of-pocket limit.	
Generic drugs		
Retail	$10 copay	50% of submitted cost; after applicable in-network cost share
Mail order	$20 copay	Not applicable
Preferred brand-name drugs		
Retail	$30 copay	50% of submitted cost; after applicable in-network cost share
Mail order	$60 copay	Not applicable
Non-preferred brand-name drugs		
Retail	$50 copay	50% of submitted cost; after applicable in-network cost share
Mail order	$100 copay	Not applicable
Pharmacy day supply and requirements		
Retail	You can get up to a 30-day supply from Aetna National Network	
Mandatory maintenance choice	Maintenance drugs are prescriptions commonly used to treat conditions that require regular, daily use of medicines. If you take a maintenance drug, you can get two retail fills. Then you must fill a 31-90-day supply of the maintenance drug at CVS Caremark® Mail Service Pharmacy, a designated network pharmacy, or a CVS Pharmacy®. If you do not, you will need to pay 100% of the drug cost.	
Opt Out	You must notify us if you want to continue to fill the medicine at a network retail pharmacy. Just call the number on the member ID card.	
Specialty	You can get up to a 30-day supply of specialty drugs You must fill all specialty drugs through our preferred specialty pharmacy network. Standard Opt Out Aetna Insured List	

Your prescription drug plan also includes:
• Diabetic supplies
• $25 copay maximum per fill per 30 day supply for formulary insulin drugs
• A limited list of over-the-counter medications when filled with a prescription

PLAN DESIGN & BENEFITS
MEDICAL PLAN PROVIDED BY AETNA LIFE INSURANCE COMPANY

Family planning
• Oral and injectable fertility drugs included (physician charges for injections are not covered under RX, medical coverage is limited).
• Contraceptives covered up to a 12-month supply. Contraceptive copay strategy applies.

The following are covered 100% in-network:
• Oral chemotherapy drugs
• Seasonal vaccinations
• Preventive vaccinations
• Affordable Care Act (ACA) eligible preventive medications and contraceptives
Refer to **Aetna.com** for a complete list of eligible prescription drugs.

Precertification requirements
Some covered prescription drugs need approval from us before we will cover the drug.
Some covered prescription drugs require step therapy before we cover them. With step therapy, you must first try one or more drugs before we will pay for drugs that require step therapy.
To get the most up-to-date precertification requirements and a list of drugs that require step therapy, see your plan documents or go online to your member website.

Choose generics - Sometimes you or your provider may ask for a brand-name prescription drug when a generic is available. If so, you will pay the brand-name copay plus the difference between the generic price and the brand-name price.

GENERAL PROVISIONS

Dependents who are eligible to be on your plan	Spouse, children from birth to age 26. Student status of children does not matter.

**We cover the cost of services based on whether doctors are "in network" or "out of network." We want to help you understand how much we pay for your out-of-network care. At the same time, we want to make it clear how much more you will need to pay for this "out-of-network" care.
You may choose a provider (doctor or hospital) in our network. You may choose to visit an out-of-network provider. If you choose a doctor who is out of network, your health plan may pay some of that doctor's bill. Most of the time, you will pay a lot more money out of your own pocket if you choose to use an out-of-network doctor or hospital.

When you choose out-of-network care, we limit the amount it will pay. This limit is called the "recognized" or "allowed" amount.
This amount is based on the out-of-network plan you or your employer picks.
• For doctors and other professionals the amount is based on the "prevailing" charges. We get this data from an external database.

• For hospitals and other facilities, the amount is based on what Medicare pays for these services. The government sets the Medicare rate. Exactly how much we "recognize" depends on the plan you or your employer picks.

PLAN DESIGN & BENEFITS
MEDICAL PLAN PROVIDED BY AETNA LIFE INSURANCE COMPANY

Your doctor sets his or her own rate to charge you. It may be higher -- sometimes much higher -- than what your plan "recognizes." Your doctor may bill you for the dollar amount that we don't "recognize." You must also pay any copayments, coinsurance and deductibles under your plan. No dollar amount above the "recognized charge" counts toward your deductible or out-of-pocket maximums. To learn more about how we pay out-of-network benefits visit our website.
You can avoid these extra costs by getting your care from Aetna's broad network of health care providers. Go to www.aetna.com and click on "Find a Doctor" on the left side of the page. If you are already a member, sign on to your Navigator member site.
This applies when you choose to get care out of network. When you have no choice (for example: emergency room visit after a car accident, or for other emergency services), we will pay the bill as if you got care in network. You pay cost sharing and deductibles for your in-network level of benefits. Contact us if your provider asks you to pay more. You are not responsible for any outstanding balance billed by your providers for emergency services beyond your cost sharing and deductibles.
This way of paying out-of-network doctors and hospitals applies when you choose to get care out of network. When you have no choice (for example: emergency room visit after a car accident), we will pay the bill as if you got care in-network. You pay your plan's copayments and deductibles for your in-network level of benefits. Contact us if your provider asks you to pay more. You are not responsible for any outstanding balance billed by your providers for emergency services beyond your copayments and deductibles.

Plans are provided by: Aetna Health Inc. While this material is believed to be accurate as of the production date, it is subject to change.

Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered.

See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not our agents. Provider participation may change without notice. We do not provide care or guarantee access to health services.

If you are in a plan that requires the selection of a primary care physician and your primary care physician is part of an integrated delivery system or physician group, your primary care physician will generally refer you to specialists and hospitals that are affiliated with the delivery system or physician group.

PLAN DESIGN & BENEFITS
MEDICAL PLAN PROVIDED BY AETNA LIFE INSURANCE COMPANY

The following is a list of services and supplies that are *generally* not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.
• All medical and hospital services not specifically covered in, or which are limited or excluded by your plan documents.
• Cosmetic surgery, including breast reduction.
• Custodial care.
• Dental care and dental X-rays.
• Donor egg retrieval
• Experimental and investigational procedures, except for coverage for medically necessary routine patient care costs for members participating in a cancer clinical trial.
• Hearing aids
• Home births
• Immunizations for travel or work, except where medically necessary or indicated.
• Implantable drugs and certain injectable drugs including injectable infertility drugs.
• Infertility services, including artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents.
• Long-term rehabilitation therapy.
• Non-medically necessary services or supplies.
• Outpatient prescription drugs (except for treatment of diabetes), unless covered by a prescription plan rider and over-the-counter medications (except as provided in a hospital) and supplies.
• Radial keratotomy or related procedures.
• Reversal of sterilization.
• Services for the treatment of sexual dysfunction/enhancement, including therapy, supplies or counseling or prescription drugs.
• Special duty nursing.
• Therapy or rehabilitation other than those listed as covered.
• Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions.

In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

6.10. Referral System:

Proposers shall describe their referral procedures, including how referrals are initiated, processed, tracked, and communicated to members and providers. The response should address requirements for specialist referrals, authorization processes, ease of use for members, and any digital tools or platforms that support the referral process. Proposers should also explain how their referral system minimizes administrative burden, reduces delays in care, and ensures timely access to appropriate medical services.

Network PCPs are responsible for coordinating all aspects of care for the member. PCPs authorize referrals for most specialty care except for our direct access programs. Members may seek routine care through these programs without PCP referral, within the limits of their benefits plan.

We don't prospectively review referrals to participating specialists and most diagnostic services using network providers. Instead, the PCP authorizes those services.

PCPs can send referrals electronically (telephone voice response unit, point of service device software or Internet). We maintain a central computer system log of electronic referrals. They can also send referrals on paper, using our referral form. PCPS write paper referrals on a multi-part paper form. One copy of the referral stays with their office and they return one copy to us and give one copy to the specialist. This reduces the likelihood that we won't be able to retrieve a referral record.

PCPs can issue the referral for any number of visits. However, we recommend that one visit is appropriate for the initial consultation with a specialist. The referral is valid for 90 days from the date of authorization. If the PCP authorizes a referral for more than one visit, the first visit needs to occur within 90 days of the issue date. The remaining visits need to take place within one year from the authorization date.

Referrals authorize a range of care. Automatic Studies are common in-office diagnostic procedures. Specialists can do these without members returning to their PCP for another referral. Using valid physician orders, specialists can direct members for laboratory studies or X-rays to one of our contracted providers.

Members are responsible for:

- Contacting their PCP when medical care is needed
- Scheduling the specialist referral visit
- Being aware of the specific services/visits authorized by their PCP

Members need to get all necessary referrals from their PCP before receiving services from specialists, except in emergencies or for out-of-area urgent care. Members who don't get the necessary referrals may be responsible for the payment(s) associated with the services provided.

6.11. Provider Network:

Proposers shall submit a comprehensive provider network analysis, including an interruption report and access analysis, demonstrating the availability and accessibility of participating providers for the City's employees and dependents. The analysis should include the percentage of current providers that are in-network, geographic coverage within Broward County and surrounding areas, and access to primary care physicians, specialists, hospitals, and ancillary services. Proposers should also describe network stability, strategies for minimizing disruption, and any network expansion initiatives. Proposers shall include an interruption report and analysis identifying the extent to which currently utilized providers and facilities participate in the proposed network.

Confirmed. As we continue our transformation as a diversified consumer health care company leveraging the strengths of CVS Health and Aetna, it changes the way we look at the provider network and how we build and support them. Specifically, we see our network from the perspective of our members and maximizing their health and well-being. We work from there to build a network that meets their needs and drives an exceptional experience. Our differentiated approach to our network strategy is based on the cornerstones of creating a network experience that's comprehensive, connected and convenient.

Our network development priorities are focused on:

- Meeting the needs of the whole person: Extending the network to non-traditional and non-clinical providers and services that support members
- Connecting the different parts of our network to each other to create care options that are coordinated and integrated: Connections between providers and hospitals and ensures that a visit to a CVS MinuteClinic location is coordinated with a member's PCP
- Ensuring members get the right care in the right manner at the right time: Supportive reimbursement policies for access to virtual and home care as well as the ability to engage our local CVS Health resources to complement our provider network

A comprehensive network strategy

Our purpose as an organization is to help people on their path to better health. To remove barriers to care, for people in all walks of life, we give members an array of options. From either our broad or high-performance networks we'll connect you and your employees with high-quality, cost-effective care.

We're uniquely positioned to create an ecosystem for our members that drives engagement and improves outcomes. Our combined capabilities with CVS Health position us well for addressing key trends in care delivery. We take a retail approach to health care by having more health care services and products near a member's home. We deliver integrated, in-depth medical and pharmacy data and also offer digital care with easy navigation of cost and quality information. We offer increased access to mental well-being network providers, including additional support through self-help and digital tools.

An important aspect of providing the right ecosystem of support includes offering other holistic local alternatives for care. This includes access to providers like acupuncturists for pain management when that's what is needed or helping members understand how best to adjust their diet with guided assistance from nutritionists. We continue to include provider types of all kinds in our network and are working to ensure the right quality incentives and value-based care programs are in place.

Advancing network development

We have a national initiative and team dedicated to developing and testing new strategies and capabilities that rapidly advance our network strategy and overall vision. There are four core pillars to our strategy.

Building on success

We ensure our members have easy access to affordable care with a focus on enhancing capabilities that enable them to identify and access the best care and services for their unique needs. This also includes simplifying the provider and consumer experience through efficient operations, aligned policies and enhanced digital capabilities.

Extending the network

We've extended our definition of the network to address the needs of the whole person, with a focus on increasing access to behavioral health by growing our network and creating innovative provider relationships. Increasingly, we're evaluating access metrics, setting and achieving market-specific network adequacy goals and improving the member experience across the continuum of behavioral health programs.

We're also offering timely access to virtual care and maintaining a focus on value-based contracting. As we expand our network, we're:

- Completing market analysis and benchmarking to strengthen the breadth and depth of the network

- Working to strengthen provider relationships and crafting an exceptional provider experience
- Using CVS Health clinicians and capabilities to provide access to care and activation of members into primary care relationships
- Integrating non-traditional providers and community-based organizations into our network to address clinical and non-clinical needs that impact health

Investing in primary care

We believe a consumer-focused network strategy that is focused on maximizing members' health and well-being needs to have high-performing primary care as its core. Accordingly, we're focusing heavily on both providing access to high-performing primary care as well as supporting it with an emphasis on:

- Expanding the availability of high-performing and advanced primary care practices within our network
- Using care teams and services to both complement and supplement the delivery of primary care in local markets
- Developing and scaling payment models that promote effective outcomes and spending more time with members

Delivering network innovation

Our goal is for our network to deliver superior clinical outcomes, financial impact and an exceptional member and provider experience. To achieve this, we're actively focusing on:

- Expanding the application of virtual care technology to promote improved access and member outcomes
- Creating innovative provider relationships focused on specific member needs
- Enabling members to make informed decisions about provider choices through Aetna Smart Compare, a member-focused tool that provides clinical quality and efficiency information that helps members find the best providers for their clinical needs

We continue to expand our network capabilities in innovative ways and remain committed to helping serve our members no matter their unique health needs.

Network stability and expansion

We haven't made any significant network contracting or service area changes in the past year. We aren't planning any significant changes for our current network contracting model in the near future.

One of our competitive advantages is our uncompromising focus on providing access to care in as many geographic locations as possible. We base our strategy on providing our members with a comprehensive provider network through directly contracted and depending on the health care plan, indirectly contracted providers. We are generally able to offer network access in most areas of the country. Additionally, we review individual network accessibility to see that members have appropriate access to a full complement of providers, including those accepting new members. Our inclusive network strategy allows us to offer our members, regardless of product, the most comprehensive network available.

Our accessibility standards use reporting indicators for urban, suburban and rural ZIP codes. In areas where there's a shortage, we are working to find ways to improve care to underserved populations and that includes leveraging our capabilities and partners with virtual care where possible. When we identify gaps, we work with you to create a potential solution for member coverage.

6.12. System for Paying Claims:

Proposers shall describe in detail their claims administration process, including claim intake, adjudication procedures, payment timelines, accuracy controls, and audit mechanisms. The response should include average turnaround times, electronic claims capabilities, coordination of benefits processes, fraud detection measures, and compliance with applicable federal and state regulations. Proposers should also describe their reporting capabilities, the transparency of their claims data, and any tools available to the City for monitoring claims activity and financial performance.

When it comes to claims, we operate at a high standard of quality and efficiency. Our people, processes and technology all work together to ensure fast, accurate payments. We're able to identify and avoid payments for unnecessary services and incorrectly coded claims.

We execute on the fundamentals:

- We pay what should be paid, accurately
- We avoid paying what shouldn't be paid
- We answer questions and resolve issues the first time

We are also vigilant against fraud, waste and abuse in the system. Our Special Investigative Unit (SIU) recovered approximately $20 million in fraud payments in 2025. This prompted the New York State Insurance Fraud Bureau to refer to us as "the gold standard for SIUs." In 2025, SIU efforts helped us catch more than $1.1 billion in incorrect or fraudulent billing before the payment was made. These are actual figures, not forecasted or assumed amounts.

Paying what should be paid

Electronic transactions save time, money and ensure accuracy. They allow providers to focus on caring for patients and less on administration. We receive approximately 95 percent of our total medical claims electronically, and we send over 93 percent of total medical claim payments to providers electronically.

Avoiding errors, duplicates and waste

Our automated claim reviews help us identify claim bundling, reductions and duplicate claims, so our processors can take appropriate action. It uses medical diagnosis data in real-time to help us curb off-label and potentially unsafe use of prescription drugs, and to identify and cut payments for unnecessary services and billing.

We identify savings opportunities by using in excess of 200,000 claim edits that help us reduce unnecessary spending.

Stopping fraud before we make a payment

Alerts built into our claims system identify potential fraud before the claim is paid. Our system sends the claims to our SIU for a deeper level of review to make sure the claim is legitimate.

Taking the time to get it right — the first time

Our customer service representatives and claims processors talk to each other, taking you and your members out of the middle. They have access to the same phone call records, written correspondence and e-mails. They access the same eligibility data, benefit descriptions, provider files and claims history, so that both know what's going on with a claim at any time.

Quality Review

Components of our claim processing measurement include an extensive monitoring program that includes the following:

- Stratified Quality Audits – Using an industry-accepted, statistically valid stratified audit methodology, populations of processed claims are segregated into dollar categories (strata) based upon the amount paid. A sampling of claims is randomly selected from within each stratum. Results are extrapolated over the respective populations based upon the weight of each stratum relative to the given populations. Sampling levels are such that an industry acceptable typical precision level of ± 3 percent is achieved.

- Monthly Processor Rework – Claim rework is tracked, assigned to the responsible claim processor and trended for improvement initiatives. Monthly claim rework is an integral component of an individual claim processor's performance results. 100 percent of the processor claims are considered in the use of rework as the processor-level quality metric. Discretionary, targeted claim audits may be performed as warranted by a claim processor's rework results.

- Prepayment Review – We audit all claims equal to or greater than a specified dollar threshold paid on a pre-disbursement basis.

- Auditor Re-audit – Auditors are subject to a re-audit of their work based on a random sample. This audit validates the accuracy of the auditors and compliance with the audit program. Overall results are reported for pay incidence, pay dollar and total claim accuracy.

Quality results are based on the processing unit level. We don't notify the customer of any irregularities discovered. However, we conduct root-cause and trend analysis to identify opportunities to continuously improve our service. We assess training needs and conduct training sessions as needed.

6.13. Questionnaire and Fact Sheet:

Provide responses to all items listed in the City's Questionnaire and Fact Sheet included in the Attachments tab of the eBid System, and include the completed documents with your Proposal.

Confirmed.

Questionnaire – Medical

1. Please provide your proposed Benefit Summaries as part of your response.

Confirmed. Please see our Benefit Review Document and Plan Designs located within our Plan Design section of our proposal response.

2. Please provide a Medical Geo Access report that illustrates the number of:

a. 1 Hospital within 10 miles
b. 2 PCPs & Pediatricians within 10 miles
c. 2 OBs/Gyns, within 10 miles
d. 2 Specialists within 10 miles (excluding OBs/Gyns)
e. 2 Urgent Care Centers within 10 miles

The report format should include a breakdown by employee city of residence, with the number of employees in that location and the number of providers servicing that location. The report should also include reporting on the number and location of employees who do not meet the above criteria.

Please see our Geo Access Reports located within the Network Information section of our proposal response.

3. Please confirm average discounts for the geographic area represented in the employee/member census as follows:

Charge Type	Location#1	Location#2	Location#3	Location#4
Location	Miami/Broward County	Palm Beach	Tampa	Orlando
Doctors/Physicians	REDACTED	REDACTED	REDACTED	REDACTED
Urgent Care Centers	REDACTED	REDACTED	REDACTED	REDACTED
In-Patient Hospital	REDACTED	REDACTED	REDACTED	REDACTED

4. Please identify the proposed provider network.

For our fully insured plans, we are proposing our Open Access® Elect Choice® and Aetna Open Access® Managed Choice® plans. For our self-funded plans, we are proposing our Aetna Choice® POS II and Open Access Aetna Select℠ plans. Provided below is a description of each of these plan offerings.

Open Access® Elect Choice® plan

We are proposing our Open Access® Elect Choice® plan as a national solution. Our Open Access Elect Choice plan is an in-network only health plan which lets a network doctor guide our members' care. Members can visit any doctor in our national network and they don't need referrals. Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. You can also design their plan so that the PCP cost share applies only to the member's chosen PCP or to any network PCP. PCP Choice is also a product feature available on the Open Access Elect Choice plan. If you elect this feature, the member must choose a PCP.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,762,000 specialists
- 6,100 hospitals
- 44,800 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Aetna Open Access® Managed Choice® plan

We are proposing our Open Access® Managed Choice® plan as a national solution. Our Open Access Managed Choice plan lets our members visit any doctor they choose. Members don't need referrals and can visit both in-network and out-of-network providers. Their out-of-pocket costs may be higher when they see a doctor not in our network.

As of December 31, 2025, our national network has more than:

- 294,000 primary care doctors
- 1,739,000 specialists
- 6,000 hospitals

- 44,000 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Members may need to choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health. Plus, members may even lower their costs by having a PCP.

Our Open Access Managed Choice plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Aetna Choice® POS II plan

We are proposing our Choice POS II plan as a national solution. Our Choice POS II plan is a point-of-service (POS) plan which lets our members visit in-network and out-of-network doctors and hospitals. Members have the freedom to pick their doctors and they don't need referrals.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,768,000 specialists
- 6,200 hospitals
- 45,000 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Choice POS II uses our national network plus rural providers contracted through third-party vendors. Based on our internal analysis of your geography, leased networks provide zero percent of network access.

Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health, and guide them on important health decisions. And, depending on their specific plan, seeing a PCP could cost less.

Our Choice POS II plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Open Access Aetna Select℠ plan

We are proposing our Open Access Aetna Select plan as a national solution. Our Open Access Aetna Select plan lets our members choose from quality in-network providers. Members can visit any doctor in our national network and they don't need referrals.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,762,000 specialists
- 6,100 hospitals
- 44,800 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health, and help guide members on important health decisions and direct their care. And, depending on their specific plan, seeing a PCP could cost less.

Our Open Access Aetna Select plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

5. For bidders not proposing national network coverage, please describe available access for out-of-state residents (retirees and/or dependents of covered participants).

Not applicable.

6. Is the proposer willing to provide performance guarantees for your network discounting? If so, please include details.

We have included a discount guarantee at 25% of collected fees at risk. Please see the financial package for specific information about our guarantees.

7. Please confirm requirements for coordination with Medicare for both active employees and their dependents, as well as retired employees and their dependents.

We have three methods for coordinating benefits with Medicare depending on the customer provisions or state regulation:

- 100 percent Allowable – This method allows payments up to 100 percent of allowable expenses incurred in a calendar year. An allowable expense is defined as any necessary and reasonable health expense, covered in whole or in part under our plan, which covers the person making a claim. When the primary plan pays on a charge that we don't cover due to the general exclusion of our plan, we consider it COB allowable if one of the plans covers the expense.
- Maintenance of Benefits - The primary plan pays regular plan benefits for covered expenses or the benefits payable if there were no other group health benefits plan in effect. The secondary plan may reduce its benefits to the lesser of either:
  - What it would have paid had it been primary
  - What it would have paid less the primary plan's payment

- Government Exclusion (This method only applies to Medicare) - Government Exclusion is a method of determining our payment when Medicare is primary for the member. When including this method, we consider the member's responsibility after the primary carrier has processed the claim.

When Medicare is primary, we base our benefits on either Medicare's approved amount for Medicare assigned claims, or Medicare's balance billing limit on Medicare non-assigned claims.

COB for employees and dependents

We follow the National Association of Insurance Commissioners (NAIC) OBD rules to find out primary coverage responsibility. We apply COB order of benefit determination for dependents and children as outlined below.

Non-dependent/dependent rule

A plan that covers a person as a subscriber (non-dependent) pays benefits before a plan that covers the individual as a dependent.

A dependent child whose parents aren't separated or divorced

The plan of the parent whose birthday comes first in the calendar year, based on month and day only, is the primary plan of the dependent. The plan of the parent whose birthday comes later in the calendar year is secondary. If the other plan doesn't have this provision regarding birthdays, then the rule set forth in that plan determines the order of benefits.

A dependent child whose parents are separated, divorced or not living together

For a dependent child with divorced or separated parents, if there's a court decree that establishes financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of the plan that covers the child as a dependent of the parent with financial responsibility is primary before the benefits of any other plan that covers the child as a dependent child.

If there's a joint custody court decree which states that the parents share joint custody of a dependent child, without stating that one of the parents is responsible for the health care expenses of the child, the parent birthday rule described above applies to determine the order of benefits.

In the absence of court-decreed financial responsibility, if the parent with custody of the child hasn't remarried, the benefits of the plan that covers the child as a dependent of the parent with custody of the child is primary before the benefits of a plan that covers the child as a dependent of the parent without custody.

In the absence of court-decreed financial responsibility and if either one parent has custody or the child lives with one parent, then the order of birthdate is in this order:

- Parent with custody/child lives with
- Spouse of parent with custody/parent child lives with
- Parent without custody/child doesn't live with
- Spouse of parent without custody/child doesn't live with

In the absence of court-decreed financial responsibility when neither parent has custody and the child doesn't live with either parent, then the parent birthday rule applies to determine the order of benefits.

Dependents on spouse's plan and dependent on parent's plan(s)

- Under the Affordable Care Act, members can have coverage both as a dependent on their spouse's or domestic partner's plan and as a dependent under their parent's plan(s)
- One or both parents' plans can cover the dependent

If a spouse or domestic partner's plan covers the member and either or both parent's plan if one of the plans doesn't have a COB rule, then the plan without a rule is primary.

If members have coverage under both their parent's plans and their spouse's plan, the longer or shorter rule applies between all plans.

If coverage under the spouse's plan began on the same date as the dependent child's coverage under either or both parents' plans, then the birthday rule applies to the parent(s) and the dependent's spouse.

8. Each proposer must confirm that they will provide the following reports upon request by the City of Pompano Beach or its Agent of Record: a. Large Claimants (over $25,000), inclusive of gender, plan, diagnosis, last date of service, prognosis, and if the claimant remains covered on the plan. b. Utilization reports by diagnosis, place of service, employee vs. dependent costs. c. Monthly paid claims

Confirmed.

9. Are you willing to conduct face-to-face meetings annually (including medical/pharmacy director and financial analyst support) with the client to discuss financial and program enhancement/cost containment ideas that will assist the client in benefit design strategy, and will not necessarily be focused on plan design coverager eductions?

Yes. We have a reputation for providing industry-leading service and plan management consultation to our customers. We know that a personal relationship makes all the difference, and we understand that each customer is unique with specific goals and objectives. That's why your account team serves as an extension of your benefit team, providing day-to-day support and helping you shape future strategy through analysis and insight.

Surrounding you with tailored support

A connected, personal approach is at the heart of our account service model. We build an account management plan specific to you to drive accountability and mutual success. The plan includes the following:

- Annual strategic planning and review
- Quarterly account management meetings
- Monthly plan management meetings
- Day-to-day account management

We provide the right contacts and experts throughout our organization to ensure you're supported every step of the way.

Strategic review

To promote collaboration and shape plan strategy, we meet at least annually to review your business goals, provide insights into our future direction and examine macro-trends driving opportunities and risks. We also discuss business-to-business endeavors and ensure strategic alignment between our two organizations as needed.

Your account team, supported by subject matter experts throughout our company, hosts meetings to focus on your data and results, and provides specific recommendations for plan improvement. Discussion topics include, but are not limited to:

- Strategic consultation and innovation
- Trend mitigation plans
- Plan performance
- Utilization measurement
- Deep dive analytics
- Clinical insight
- Custom network performance
- Member engagement levels
- Customer and member service issues and trends
- Annual enrollment planning, support and debrief

Plan management meetings

Your account team consults with your team formally each month, and provides:

- Trend updates
- Mitigation strategies
- Consultative solutions
- Discussion of hot topics
- Utilization review, reporting and analytics
- Actuarial and underwriting support for plan change modeling

Day-to-day account management

Your account management team works continuously with your benefits team to provide a best-in-class customer service experience for your company and employees by acting as your trusted advisor. This team is responsible for managing all aspects of our relationship, including:

- Proactively addressing and managing trends that concern you or us
- Promptly managing escalated employee issues
- Working with our internal business teams to provide the support your benefits team needs

Your account manager is your day-to-day contact and is always available for issue resolution. Initially, we recommend weekly account management meetings, led by your account manager, to ensure we are effectively managing all service needs.

10. Are you willing to waive the actively at work, dependent non-confinement limitation provisions for all currently enrolled individuals on medical?

Confirmed. For our fully insured plans, any employee or eligible dependent that is covered by your benefit or service program as of the effective date is fully covered. All actively-at-work and non-confinement limitations are waived.

For our self-funded plans, actively at work clauses and non-confinement limitations are customer options.

11. Please list and describe your Disease Management programs that are included in the proposal.

Included in our proposal is our care management program, Aetna One Flex. This program provides support to our highest risk members, placing an emphasis on treating comorbid conditions along with acute, episodic events. Additionally, our proposed well-being buy-up, Aetna Health Your Way - Achieve, offers broad population support through its Lifestyle and Condition Coaching program. Together, all three programs offer holistic support that meets our members' needs wherever they are in their health journey.

Disease management within Aetna Health Your Way™ Achieve

Aetna Health Your Way™ Achieve is our evidence-based well-being program that brings health solutions directly to your members. Aetna Health Your Way includes a suite of capabilities to help your members manage and improve their well-being on their terms and according to their preferences. From a health assessment to curated well-being pathways (digital coaching), Aetna Health Your Way helps you improve the health and productivity of your employees. This results in better health outcomes, which can lower costs for you and your employees. Aetna Health Your Way focuses on prevention and health risk reduction to help you address health issues critical to the success of your business.

Lifestyle and Condition Coaching (LCC)

Our LCC program allows members across all risk levels (low, moderate and high) to engage with a health coach telephonically or on video. The program is available to all members and their dependents who are 18 years and older.

LCC helps members identify and focus on their personal health and well-being priorities. These priorities may include tobacco cessation, weight management, stress management, nutrition, physical fitness or managing a chronic health condition. Members work with their coach to create a healthy action plan suited to their preferences and learning styles. A robust suite of online tools and engaging educational materials support this plan.

Our CareEngine®, which ingests data from multiple sources, including our health assessment, biometric screenings, activity data and claims, identifies participants for outreach. Members may also enroll in the program through a toll-free phone number.

Comprehensive disease management with LCC and Aetna One Flex

Our Lifestyle and Condition Coaching program works alongside our Aetna One Flex program to break the cycle of rising health costs while improving clinical outcomes for our members. These programs coordinate together to ensure that members are supported and coached based on their individual situation and unique health needs. Our nurses and coaches take a whole health view of members and track their progress over time. We focus on acute and chronic conditions and emerging health risks and lifestyle factors.

Our vision is to improve the consumer health care experience by helping our members achieve their personal health ambitions. To support this vision, we built our Lifestyle and Condition Coaching and Aetna One Flex programs with personalization and engagement in mind. Using a personalized and engaging approach, these programs combine to assist members across the entire spectrum of potential health needs. We provide support from a multi-disciplinary team, along with comprehensive digital interaction points and the convenience of connected devices that provide near real-time data sharing.

Lifestyle and Condition Coaching and Aetna One Flex are at the forefront of what's possible for health care delivery, leveraging deep analytics, integrated technology and advanced predictive modeling to find those who need help the most in a manner that's meaningful to them and their health goals. Whatever their health needs, we offer members the right kind of support to:

- Reinforce and broaden existing healthy behavior
- Improve lifestyle choices
- Manage acute and chronic conditions
- Address emotional well-being and women's health concerns including perimenopause and menopause

An integrated, holistic approach to care

Our Lifestyle and Condition Coaching program is an integral part of any comprehensive population health strategy. The program provides support for a wide array of lifestyle and well-being needs along with many chronic co-morbid conditions that are costly and debilitating. Members receive the right support at the right time in the right way to meet their needs and encourage sustained engagement. Our program helps members form long-term healthy habits and successfully manage their chronic conditions through a single-coach model with the support of a multi-disciplinary team. Lifestyle and Condition Coaching provides specific focus on rising-risk members who need support making lifestyle changes to reduce their overall health risk and help limit future health care costs.

For greater chronic and acute care needs, members receive the right combination of digital and one-on-one nurse support with our Aetna One Flex program. As their needs change, we let them shift seamlessly between programs. Clinicians connect with members in their current state of health and anticipate how their health may change over time. Our Aetna One Flex program provides specific focus on high-risk members with active impactable risk factors such as new diagnoses, poor symptom management, recent hospitalizations and recurring disease flare-ups.

Coordination between programs

We believe that a single nurse point of contact is very important. To that end, we've established a hierarchy within our programs to identify a primary contact when the member qualifies for more than one program. Because of our integrated clinical management approach, all nurses and multidisciplinary resources (such as social workers and behavioral health specialists) on the care team have a comprehensive view of member information. When the member qualifies for both care management and condition management, the care manager is the primary initial contact. The care manager coordinates acute health needs through our Aetna One Flex program, such as care needed after a hospitalization.

Our Lifestyle and Condition Coaching team coordinates with care management to provide focused support for chronic conditions and lifestyle factors through phone, e-mail, SMS and group sessions to positively impact health. When a member's clinical needs have been met, they may then be engaged by our Lifestyle and Condition Coaching program to address certain chronic conditions and lifestyle factors.

By providing support across the entire spectrum of health needs and engaging members of varying health risk, we're able to identify, target and focus our efforts on improving the health and well-being of your employee population. This helps serve your overall population health strategy by reducing costs and improving health outcomes.

12. Please list and describe Utilization Management programs included in the proposal and other available options, if applicable.

Our utilization management programs effectively support your employees and their families by ensuring they receive the care they need.

We accomplish this through:

- Early identification of members for referral to other programs, such as care, disease or maternity management, disability or behavioral health
- Identification of the most cost-effective network providers
- Early discharge planning
- Steerage to Aetna Institutes of Excellence™ and Institutes of Quality®

Precertification

Precertification is the process of collecting information before inpatient admissions and select ambulatory procedures and services. The process permits advance eligibility verification, determination of coverage and communication with the physician or member. It also allows us to coordinate the member's transition from the inpatient setting to the next level of care (discharge planning) and to register members for specialized programs like our maternity management program.

We use precertification to help members and physicians make more cost-effective decisions about scheduling and to help manage outpatient surgical procedures, along with low-tech and high-tech radiology.

Concurrent review and discharge planning

Our clinical team reviews inpatient admissions (except normal maternity care) while the member is in the hospital. We use proven standards of care as guidelines to help make sure care given is necessary and covered. Not all inpatient admissions require this clinical review. For example, routine admissions with a short length of stay normally don't need concurrent review.

Our clinical team determines the frequency of review on a case-by-case basis. They base it on the member's clinical progress and our internally developed Focused Interaction Tool (FIT).

Our review process helps lower the average length of hospital stays and helps members get quality care.

We also help members get the care they need after they leave the hospital. Our proactive discharge planning begins during the hospital stay. We work with doctors, members and their families to develop a transition plan from one level of care to the next.

This helps keep the member cared for and comfortable and helps lower health care costs.

Care management

We originally designed the program using industry and state requirements and have evolved it over time based upon experience and corresponding data. We modified it by assessing population needs and using evidence-based best practices in managing complex illnesses and conditions.

The care management program is a collaborative process based on:

- Assessment
- Development of a care plan
- Implementation
- Coordination of services
- Monitoring
- Providing options and services to meet an individual member's health care needs

It focuses on the continuum of care, addresses the health care needs of members and stresses medically appropriate care and member involvement in the health care process. Communication with the individual member, caregivers and health care providers, combined with enhanced care coordination, assists in promoting quality, cost-effective outcomes. All eligible members have the right to participate. Members can decline participation at any time by opting out of the voluntary program. During our utilization reviews, we find members who can benefit from a nurse care manager to help prevent more significant health events.

A key to program success

Good communication is the key to the engagement that drives success. We use our reviews as opportunities to educate members and physicians on the right care, at the right time for a more cost-effective price. We also refer members to personalized programs to help meet their needs.

The key is making healthy choices convenient and easy to keep members engaged. Engaged employees are healthier, more productive and have lower total health care costs.

13. Please confirm dependent child(ren) eligibility.

Confirmed. Our standard definition of an eligible dependent child, married or unmarried, from birth up to 26 years of age includes:

- Biological children
- Stepchildren, including children of covered domestic partners when the plan provides domestic partner coverage for all employees
- Legally adopted children and proposed adoptive children
- Foster children, including any children placed with the employee for adoption
- Children for whom the employee is responsible for under court order
- Grandchildren who meet the applicable grandchildren eligibility requirements
- A handicapped dependent, defined as a dependent above the limiting age that is incapable of self-support due to mental or physical handicap which began prior to the limiting age

Most of our contracts state that an individual is eligible for coverage if they are a regular full-time employee, who normally works at least 25 hours a week and is actively at work on the effective date unless otherwise noted in your plan documents.

14. Please confirm the proposer has included the telemedicine benefit in the medical quote. Please confirm if this includes mental/behavioral health.

Confirmed. Included in both of our fully insured and self-funded quotes is our CVS Health Virtual Care™ program.

CVS Health Virtual Care™ offers 24/7 general medicine alongside scheduled mental health services, providing members with convenient access to comprehensive virtual care. Mental health services include support for depression screening and medication management, as well as scheduled counseling and psychiatry visits.

Members have access to a broad range of mental health services designed to support emotional well-being across life stages. These services include therapy for anxiety and mood disorders, as well as support for stress management, life transitions, conflict resolution, depression, grief, sleep concerns, and related health behaviors. Psychiatry services are also available for mental health evaluations, prescriptions, and ongoing medication management.

CVS Health Virtual Care™ mental health services are supported by a network of licensed mental health professionals delivering high-quality counseling and psychiatric care. Available mental health counselors hold licensure such as LCSW, LMFT, LMHC, LPC, LISCW, and psychologist. Psychiatric prescribers, including PMHNPs and FNPs, support select scheduled services such as evaluations and medication management. CVS Health Virtual Care™ continuously evaluates demand and scales capacity as needed to help ensure members have appropriate access across all mental health lines of service.

15. For plans that provide out-of-network coverage, if radiologists, anesthesiologists and pathologists are not part of the network, is the member responsible for cost at the in-network or out-of-network reimbursement levels?

When a member receives services at an in-network facility and by an out-of-network hospital-based physician, we cover the services at the in-network benefit level. These services typically occur in conjunction with emergency care and outpatient and surgical care. Hospital-based physicians (HAIRPNs) typically include: anesthesiologists, emergency physicians, pathologists, radiologists, hospitalists, intensivists and neonatologists.

The Federal No Surprise Act (NSA) protects members from the costs of unplanned medical bills from nonparticipating providers. These bills may occur when members receive care at an in-network facility and from nonparticipating providers who perform services as part of the facility's service. Members typically don't have an opportunity to choose a provider.

For self-funded plan sponsors that haven't opted in to any state surprise bill regulation, HAIRPNs services by out-of-network providers at in-network qualifying facilities are subject to the Federal No Surprises Act (NSA). The NSA requires health plans to process out of network provider claims issued in qualifying facilities at the plan's in-network benefit level and to calculate the in-network cost share based on the Qualifying Payment Amount (QPA). The QPA is the median of the carrier's contracted rates for the same service or supply in the same geographic region, based on 2019 contracts and adjusted as required by the NSA. To calculate the member's cost share based on the QPA, we have to allow the QPA for covered services.

The NSA doesn't protect the member if the service isn't a covered service and the member has signed a consent form agreeing to out-of-network care.

Our claims system supports this process, and it typically wouldn't require manual processing.

Contracts with hospital-based physicians

In some markets, the hospital directly contracts and reimburses hospital-based physicians such as radiologists, anesthesiologists and pathologists. In other markets, we directly contract and reimburse hospital-based physicians in accordance with an agreed fee schedule.

We continuously work to contract with hospital-based physicians. Our hospital contracts instruct network hospitals to assist in that effort. We also have a policy in place to protect members by covering services from out-of-network hospital-based physicians in network facilities at the in-network benefit level.

Emergency care coverage

In the case of a true emergency, the member may seek medical care at the nearest emergency facility. We cover emergency room services at the preferred benefit level, regardless of the facility's participating status. These covered services include radiologist, anesthesiologist, pathologist, laboratory, hospital laboratory and emergency room physician services. If an out-of-network provider bills the member, we hold the member harmless for amounts above the plan cost share.

We reimburse out-of-network providers in accordance with the appropriate recognized charge. Our reimbursement rates comply with applicable state regulations. For large dollar amounts, we try to negotiate a rate with the provider.

16. How do you handle the transition of care for members currently undergoing treatment or have existing relationships with the incumbent carrier's network providers?

Our transition of care coverage allows a member in an active course of treatment to continue the treatment for a limited time at a higher benefit level. We define active course of treatment as a program of planned services that:

- Starts on the date a provider first renders a service to correct or treat the diagnosed condition
- Covers a defined number of services or period of treatment
- Includes a qualifying situation

During the transition, we provide Transition of Care Coverage Request forms and "Transition of Care Coverage Questions and Answers" communications to you. You can then give these forms to those employees who wish to apply for our transition of care coverage. Members may also request forms by contacting member services. Once we receive the completed forms we review the submitted information for continued treatment approval.

We don't automatically identify members for special handling. The doctor or member is responsible for initiating this process by sending us a completed Transition Coverage Request Form.

Our clinical team, including a medical director or licensed behavioral health clinician, performs the following as needed:

- Reviews the coverage request to verify that the correct team received it for processing
- Records receipt of the transition of care coverage request in our clinical management system when member eligibility becomes available
- Verifies member eligibility
- Verifies that the forms are complete and signed
- Verifies that the service is not a plan exclusion
- Determines whether we can approve the transition of care coverage request based upon the information submitted or whether we need additional information
- Documents the transition of care request decision

- Provides a notification of the decision including:
  - The reason for the denial
  - The clinical rationale used to support the decision
  - The clinical criteria used to make the determination upon request

Examples of medical conditions that are appropriate for transition of care consideration include, but are not limited to:

- Pregnancy in the second and third trimester
- Rehabilitation for an acute or short-term condition
- Surgery pre-approved before the new plan effective date but scheduled within three months of the new plan year
- Cancer treatment
- Inpatient or outpatient mental health or chemical dependency treatment
- Outpatient intravenous therapy for a resolving condition
- Advanced stages of terminal illness
- Chronic renal dialysis
- Solid organ or bone marrow transplant
- Infertility

We make transition of care benefit determinations within the precertification timeframe.

Provider nominations

You're welcome to contact your account representative and members can email or call Member Services to nominate a provider for our network. Our teams forward the provider nomination information to our credentialing unit for eligibility and network review.

Physician nominations

If the physician is in a network area where we are pursuing applications for their specialty, we send a nomination communication. It includes information on how to request an application to join the network. Physicians who return the application request undergo credentialing. If the physician is in a rental network area, we send a nomination communication and request they contact the designated rental vendor directly for consideration.

We send the first nomination communication to the provider within 30 days of the nomination and follow-ups if needed.

We accept physicians into the network if they meet our quality and business criteria.

Once we receive all required documentation, it may take 90 to 120 days to credential and add a physician.

Hospital or facility nominations

We forward the hospital or facility nomination information to the appropriate local market network manager for review.

We accept hospitals into the network if they meet our quality and business criteria.

Once we receive all required documentation, it may take up to a year to add a hospital.

Notifications

Upon request, the account representative provides you with an update of the nomination status and you may notify the member. We don't directly notify the member if we add a physician or hospital they nominate to our network.

Members can check if a physician or hospital participates in our network by searching online in our provider directory or by calling Member Services.

We haven't historically tracked the number of physicians or hospitals added from member or customer nominations.

17. Please describe your prior authorization process, specifically as it relates to high-cost specialty medications (such as Ozempic, Mounjaro, etc). Please confirm if you are able to accept a file of current authorizations and if there is a cost associated with this.

We don't prescribe GLP-1 drugs as part of our medical benefit administration. However, we do offer programs focused on diabetes prevention and diabetes management. We also offer programs focused on weight management.

While our Transform Diabetes Care program doesn't include prescription of any medications, one of the program's areas of focus is medication optimization. This includes application of American Diabetes Association (ADA) guidelines to make anti-diabetes drug classification recommendations to the member which can then be discussed with the member's provider. Transform Diabetes Care has not been shown in your quote at this time.

Precertification

We apply our National Precertification List (NPL) to all medical outpatient services. We require precertification for certain complex, high-cost therapies and treatments. Our approach improves the quality of care while lowering costs for our members. With precertification, we make sure that members are receiving the drugs that they need while avoiding waste. We do this by approving the right dose, steering to the most appropriate site of care and following a recertification process that ensures continued effectiveness of therapy. Because of our strong provider relationships, they know our guidelines and have increasingly adhered to them over time.

Our full list of drugs that require precertification is available at **Aetna.com/health-care-professionals/precertification/precertification-lists.html**

Real-time feedback with our prior authorization tool

Our online, real-time access automated prior authorization tool allows providers to enter precertification requests and receive immediate feedback on preferred drug strategies, site of care opportunities and other coverage requirements, enabling a more seamless experience for providers. It also integrates with our pharmacy benefit tool when a provider needs to send a request to that benefit. The tool provides claim editing capabilities for complex drugs and allows edits that are personalized to member-specific dosing.

Precertification criteria

You can access our precertification criteria in our Clinical Policy Bulletins (CPBs) at **Aetna.com/health-care-professionals/clinical-policy-bulletins/medical-clinical-policy-bulletins.html**

We track these drugs by drug name, dose and indication for use. We only pay claims if they have authorization in our system.

The CVS Caremark National Pharmacy and Therapeutics (P&T) Committee, in partnership with Aetna, provides clinical input on all medical specialty formulary decisions. These decisions include an extensive review of FDA-approved drugs. We base our coverage criteria and decisions on efficacy first. If efficacy is equal, then we look at cost.

Accepting prior authorizations from the incumbant carrier

For our self-funded customers, prior authorization cases are part of the standard transition process as of January 1, 2026, for all commercial business. The standard for transition of case will be 90 days effective January 1, 2026 unless the plan sponsor has an exception. Please note we require a signed Hold Harmless agreement for self-funded customers.

18. Are you willing to honor each member's deductible and out-of-pocket maximum accumulation credits (if applicable)? Please advise what reports you would need in order to honor each member's accumulation credits.

Yes. We meet with you to discuss the transfer of financial information as soon as we are selected to administer your plan. To correctly process claims, we need a list of financial accumulators for each employee and dependent. The list may vary based on your needs and can include:

- Coinsurance amounts
- Deductibles
- Out-of-pocket limits
- Annual and lifetime maximums
- Visits
- HRA fund balance rollover

To load this data into our claims system, we need the following information:

- Subscriber's Social Security number
- Claimant's last name
- Claimant's first name
- Claimant's relationship to employee
- Claimant's date of birth (YYYY-MM-DD)

Format and timing

We accept the information in both Microsoft Excel® (preferred method) and text delimited formats. We accept these formats through an email that is password protected or through a secure file transfer protocol online. The first file should come to us from the prior carrier at least two weeks before the effective date. There's no charge to transfer the accumulator data to us.

Because the prior carrier continues to process claims during the run-out period, this data can quickly become outdated. To keep data current, we suggest a subsequent update one to two months later to capture run-out claims. There's no additional charge for the second and third accumulator file. There's a charge for each ongoing accumulator file received from a third-party pharmacy or behavioral health vendor on a bi-weekly or monthly basis.

Questionnaire – Wellness

1. Please confirm that your proposal includes annual Wellness Funds and the amount you will be providing annually. Please outline how the funds can be used and if any conditions apply.

Our wellness funds vary by funding type as described below.

Fully insured

We have included a $100,000 Wellness and $50,000 Technology allowance as part of our financial proposal. In general, allowances must be used for expenses directly related to the administration of your Aetna plan. Our financial proposal documents provide a detailed description of how we administer the Wellness and Technology allowance and outline our terms and conditions. The Financial Information section of our proposal response includes these documents.

Self-funded

We have included a $150,000 Health Plan Allowance as part of our financial proposal. In general, you must use allowances for expenses directly related to the administration of your Aetna plan. Our financial proposal documents provide a detailed description of how we administer the Health Plan Allowance and outline our terms and conditions. We include these documents in the Financial Information section of our proposal response.

2. Are there any additional costs to the City of Pompano Beach or employees to participate in your wellness programs or services?

The costs of our wellness programs vary by funding as described below.

Fully insured

We have included our standard fully insured well-being programs in our quoted rates.

We are proposing Aetna Health Your Way Achieve on an optional basis, for an additional premium cost. Our financial proposal documents provide pricing for programs available on an optional basis, and any applicable terms and conditions. These documents are included in the Financial Information section of our proposal response.

Self-funded

We have included Aetna Health Your Way Core in our self-funded proposal. The cost of the program is included in the per employee, per month administrative fee.

We are proposing Aetna Health Your Way Achieve on an optional basis, for an additional cost.

Our financial proposal documents provide a list of programs included in our pricing, pricing for programs available on an optional basis, and any applicable terms and conditions. These documents are included in the Financial Information section of our proposal response.

3. Will the account team assigned include a designated wellness coordinator? If so, which wellness services will be included?

For our Aetna Health Your Way – Core program, which is included with all of our proposed plans, we don't offer the option of a well-being coordinator at this time.

However, for our Aetna Health Your Way – Achieve program that is being offered as a buy-up for all of our proposed plan options, we do include a designated well-being program consultant. Working collaboratively with you, your well-being program consultant acts as an extension of your Account team to help you build an effective strategy that meets your short and long-term well-being goals. Your well-being program consultant can:

- Assist with the development, coordination, management and maintenance of your well-being programming to reduce health risk and medical costs, as well as encourage healthy lifestyles
- Help define practical and actionable well-being goals as well as gather and define baseline data and measures of success over time
- Participate in discussions with well-being committees and well-being champions to drive goals and advance a culture of well-being
- Leverage existing programs, relationships and resources to use well-being dollars wisely (if applicable)
- Assess and evaluate health promotion programs, such as biometric screenings and health assessments (if applicable)
- Support onsite services and work with third-party administrators to vet and implement new solutions and maintain current vendor relationships (if applicable)
- Answer questions about well-being programs and encourage participation in available programs while coordinating referrals to appropriate programs, as necessary
- Recommend meaningful incentive strategies that drive participation in new and existing programs

Your well-being program consultant also has access to our reporting and analytics platform, ART. This platform helps identify key cost and utilization drivers, as well as social determinants of health (SDOH) affecting your employee population.

4. Will you attend Wellness Events throughout the year? If so, how many? Are there any related costs for attendance?

Yes. As mentioned previously, one of the roles of our well-being program consultants is to support our customer's benefits and total rewards team in various well-being events (onsite, virtual and hybrid). Through these events, well-being program consultants answer questions about well-being programs, encourage participation in available programs and coordinate referrals to appropriate programs as necessary. The well-being program consultant works with cross-enterprise partners and other vendors to deliver tools and resources to execute the strategy. The account management team and the well-being program consultant will work with you to collaborate on the number of wellness events to attend throughout the year. There is no additional cost for attending wellness events.

5. Does your company offer rate discounts on the proposed programs, in dollars or percent, to employer groups who implement an active, participatory Wellness Program? If so, please describe the discount model, the amount, and the requirements.

No. We do not offer any rate or fee discounts to the proposal, but your Health Plan Allowance can be used to support wellness initiatives.

6. Does your wellness program provide a proactive health education and improvement program for those with a chronic condition?

Yes. Our well-being content and tools aren't customizable, but they are personalized, offering a great member experience.

Personalized member experiences

We use data persistence to continuously update, personalize and simplify the user experience on our Aetna Health Your Way™ well-being platform. After taking the health assessment, members receive a unique numeric health score (MyHealth100) which shows their current health state. Based on their MyHealth100 score, we offer members prioritized well-being goal options to improve their health. Each goal includes a simulated improvement score.

Aetna Health Your Way pathways are personalized, guided well-being experiences that include goal-based check-ins, AI powered content recommendations, educational materials and a curated health checklist. Our purpose-driven pathways encourage members to set health goals and offer daily check-ins to stay motivated and accountable as they pursue committed objectives to improve their health

After the member has selected a well-being pathway, additional health and well-being content is available to members in a variety of formats and search preferences in our Explore section. We offer the latest health content from award-winning vendors. This includes information on medications, health topics, tests and procedures, as well as community-based resources, webinars, health articles, recipes and interactive videos. Industry experts research, create and review our market-leading educational content. This helps ensure all content is accurate, unbiased and refreshed monthly.
Another exciting feature of the pathway member experience is our proprietary AI-powered content recommender. While on their pathway, members are presented with a curated health checklist with important tasks for them to complete, including personalized content, open health actions, prompts to connect a device for activity tracking, etc. The interactive checklist displays the activities that are open, and those the member has completed.

Completing our content preferences survey enables personalized recommendations for the member in the "Recommended For You" section. As members engage with content, they can upvote or downvote based on their experience. These votes are aggregated to highlight trending topics popular with other users, enhancing the platform's social aspect.

We work collaboratively with you to provide the right information and support for your well-being benefit strategy.

7. Does your wellness program utilize behavioral coaching principles and evidence-based medicine guidelines to optimize self-management skills to foster sustained health improvement?

Yes. Our nurses help guide members to make lasting behavior change through motivational interviewing techniques. These techniques help them discover the member's goals and what motivates them to make sustainable behavior change. Nurses uncover possible hurdles to making positive behavior change and help members eliminate or manage these obstacles. They focus on the member's internal desire to change rather than just general education.

Motivational interviewing is at the core of our program. This is evident in our:

- Tools - Rather than just training employees in motivational interviewing, we give them tools to develop expertise and confidence. Our team gains valuable information from peer supervision and social network resources.
- Caller priorities - Because a human touch is important, we've reduced the use of scripts and formal assessments. Conversations are led by the member's needs, not a script.
- Sophisticated analytics - Measuring the results of our program helps us stay in tune with member needs. We measure individual responses and evaluate the impact on member behavior and cost benefits.
- Personalized care plans - Based on our discovery of the member's internal motivators and through system-driven assessments, nurses create a care plan specific to the member through one-on-one nurse support or virtual, self-directed care.
- Digital support - Members may prefer to use online programs to manage their health. These programs replicate the successful behavior change methodology used by our nurses and include tailored messaging technology that helps improve engagement rates, program completion and outcomes.

Having a trusted person to support them keeps members engaged and motivated. This helps us provide more impactful care support, leading more members to achieve their health ambitions.

Coaching through Lifestyle and Condition Coaching (LCC)

Our proposed buy-up, Aetna Health Your Way - Achieve, includes our Lifestyle and Condition Coaching program. Our coaching model is deeply rooted in evidence-based practices backed by qualified research including the U.S. National Library of Medicine and PubMed. Our approach to behavior change employs evidence-based methods, including motivational interviewing, cognitive behavioral therapy and behavioral economics, which are endorsed by leading health organizations such as the American Medical Association, the American Heart Association, the American Academy of Pediatrics and the Agency for Healthcare Research and Quality.

Our evidence-based behavior change coaching uses the principles of self-determination theory to help members establish their own personal path to health and well-being. Coaches provide non-judgmental support to help members define personal well-being goals and overcome any obstacles to success. With ongoing support, coaches help to improve the member's self-efficacy, foster accountability and inspire intrinsic motivation, which promotes engagement and sustainable behavior change. Evidence indicates that if coaches offer support, encourage accountability and examine and resolve a member's ambivalence about changing, there's a better chance that individuals develop self-management skills and coping strategies which help them overcome obstacles they may face.

Motivational interviewing

We use motivational interviewing approaches to identify issues and explore base motivation to make lifestyle changes and address ambivalence. Coaches use a direct approach to point out inconsistent positions and then actively support positive behavior change choices resulting in accountability for lifestyle choices.

Motivational interviewing is a form of collaborative conversation that helps strengthen an individual's own motivation and commitment to change. It's a person-centered counseling style for addressing the common problem of ambivalence about change by paying particular attention to the language of change. It's also designed to strengthen an individual's motivation for and movement toward a specific goal by eliciting and exploring the person's own reasons for change within an atmosphere of acceptance and compassion.

Motivational interviewing techniques use four methods to achieve its ends: engagement, focus, evocation and planning.

- Engagement – Involves the individual in talking about their issues, concerns and hopes while helping establish a trusting relationship
- Focus – Narrows the conversation to habits or patterns that individuals want to change
- Evocation – Elicits individual motivation for change by increasing the member's sense of the importance of change, their confidence about change and their readiness to change
- Planning – Develops the practical steps individuals want to use to implement the changes they desire

Conscious inclusion

Our coaches are trained in conscious inclusion, cultural awareness, empathy and listening. Our assessments also address physical limitations, health literacy, language needs and learning preferences. Coaches have access to certain demographic information on members including preferred language, preferred form of address, ethnic group, marital status, gender identity, sex assigned at birth and sexual orientation. All of this information helps us further engage members in a personalized manner that is best suited to their preferences which can help support behavior change.

8. Does your wellness program include: a. Chronic condition-specific coaching? b. Pre- and post-discharge calls? c. Lifestyle management coaching: stress, weight management, and tobacco cessation? d. Treatment decision support and coaching?

Yes. Included in our proposal is our Aetna One Flex program and our Aetna Health Your Way™ Achieve buy-up. While Aetna One Flex targets our highest risk members and offers services such as post-discharge calls, Aetna Health Your Way™ Achieve is our evidence-based well-being program that complements Aetna One flex by offering digital support, engagement and self-management tools to help your members manage and improve their well-being on their terms and according to their preferences.

Lifestyle and Condition Coaching (LCC)

Included with Aetna Health Your Way™ Achieve buy-up is our LCC program that targets chronic conditions and provides disease management. LCC allows members across all risk levels (low, moderate and high) to engage with a health coach telephonically or on video. The program is available to all members and their dependents who are 18 years and older.

LCC helps members identify and focus on their personal health and well-being priorities. These priorities may include tobacco cessation, weight management, stress management, nutrition, physical fitness or managing a chronic health condition. Members work with their coach to create a healthy action plan suited to their preferences and learning styles. A robust suite of online tools and engaging educational materials support this plan.

Our CareEngine®, which ingests data from multiple sources, including our health assessment, biometric screenings, activity data and claims, identifies participants for outreach. Members may also enroll in the program through a toll-free phone number.

Post-discharge calls

As a part of our included Aetna One Flex program, we conduct post-discharge calls. All members with a scheduled admission who are discharged from a hospital receive a post-discharge outreach. This occurs within seven business days of their discharge. We do not perform post-discharge calls for outpatient surgeries, maternity, newborns, behavioral health, coordination of benefits (COB) or Medicare. If a member transitions from an inpatient setting to a skilled nursing or acute rehabilitation facility, the post-discharge call occurs once the member is discharged from these facilities. The goal of our outreach is to prevent avoidable readmissions.

We don’t measure post-discharge outreach in our standard reports but use readmission reporting for insight.

Digital solutions

Aetna Health Your Way offers a dynamic, intuitive and personalized well-being platform for app and web with focused self-guided digital coaching for members to learn and sustain healthy habits in body, mind and spirit. The gamified format promotes and rewards member engagement with enhanced features that drive behavior change through goal-setting, motivation and encouragement to complete activities and earn rewards.

Our platform leverages the latest technologies including artificial intelligence (AI) and machine learning (ML) using evidence-based health information. Our well-being platform aligns with the evolving needs and expectations of our members, including using traveler and explorer personas for members to navigate their pathway.

In addition to a proprietary health assessment and personalized well-being pathways, our well-being platform offers other proprietary programs and features, including:

- A unique MyHealth100 score
- An AI content recommender
- An interactive health resources library (articles, videos, audio recipes and community-based resources) personalized by content preferences
- An incentive program with rewards using "hearts" digital currency and personal challenges
- Recommendations for personal (telephonic) coaching and group coaching
- A mental health check-in

- Well-being webinars and trending well-being content
- Activity and device tracking and reporting

Our well-being platform also offers gift card fulfillment services.

MyHealth100

Our well-being platform includes MyHealth100. This is a new tool that gives a unique health score to each member after they complete our health assessment. Derived from our proprietary Aetna Health Your Way Index, MyHealth100 empowers participants to actively manage their health by analyzing each member's health profile and issuing a score (0 to 100) that's easy to understand and encourages them to take action to improve their health score. MyHealth100 drives personalized member pathway recommendations that focus on the aspects of health they want to improve.

Well-being pathways

We offer nine different well-being pathways as part of our digital coaching support with varying intensity levels as determined by the member's health profile. These pathways feature the following coaching topics:

- Be More Active
- Reduce Your Diabetes Risk
- Manage Your Stress
- Get Restful Sleep
- Manage Your Blood Pressure
- Reduce Your Health Risks
- Make Healthier Food Choices
- Say Goodbye to Tobacco
- Manage Your Weight

The duration of each pathway varies based on the selected pathway and intensity level for each goal. These purpose-driven pathways encourage members to set health goals and offer varied daily check-ins to stay motivated as they pursue committed objectives to improve their health.

Aetna Health Your Way takes a holistic approach to pathways by offering a daily mood check-in during the pathway experience. The mood check-in is a new feature that poses a single question to help members reflect on how they're feeling each day in relation to their goals. Members rate their mood on a scale of 1 -10. If a member's rating is between a 1-3, we display emergency resources to the member (911, 988 and National Suicide Hotlines).

Another significant part of the pathway experience is our proprietary AI-powered content recommender. It learns about the member's health state to recommend personalized content and refreshes post-completion. Members can view the content as a daily activity. While on their pathway, members receive a curated health checklist with important tasks for them to complete. This includes open health actions, prompts to connect a device for activity tracking, personalized recommendations for coaching options (personal 1:1 and group) and all available client-incented activities.

The interactive checklist displays the activities that are open and those the member has completed. For example, during their initial pathway check-in, members learn about the option of connecting a device. The devices suggested are specifically related to their chosen pathway goal. The pathways and the curated health checklist within each pathway create a personalized, focused experience that guides the member towards a clear goal.

Curated content

After the member has selected a pathway, additional well-being content is available to members to learn more about their health in our Explore section. We ensure our content is relevant and accurate with well-being advancements and trends by using award-winning health content vendors. This includes Healthwise, Dotdash Meredith and FindHelp.org. We offer the latest well-being content, including information on medications, health topics, tests and procedures, as well as health articles, recipes, interactive videos and much more.

Challenge programs

Aetna Health Your Way also offers a variety of well-being challenges designed for personal participation. Our challenges leverage the core tenets of game mechanics, animation, incentives and social competition to create a fun experience to motivate your employees. Aetna Health Your Way's challenge program leverages science and evidence-based medicine to promote sustained engagement, incremental habit adoption and healthy competition.

Incentive strategy and rewards

Our well-being platform employs an incentive strategy grounded in the science of behavior change to promote daily engagement. By integrating established habit-building techniques, the platform leverages gamification and incremental feedback to foster the development of healthy behaviors. All activities within the platform are rewardable with "hearts", a digital currency that members earn as they progress toward their goals and complete incentivized activities.

We provide clients with a turn-key reward program that features a built-in menu of activities for hearts gamification and pre-set heart values for specific actions. The value of a heart is standardized at 100 hearts to one dollar, allowing for a straightforward client configuration of reward values. Members can easily view available incentives and track their progress using the platform's health checklist.

Our platform incorporates a broad range of offerings to encourage and reward healthy behaviors beyond initial enrollment and completion of a health assessment. This incentive design approach ensures that members remain engaged in activities that deliver the greatest benefit and impact to their health.

Health decision support

Our included Aetna One Flex program also provides health decision support. Employees and their families may be faced with a new diagnosis or health care decision at any time. Our well-being platform uses best-in-class Healthwise Knowledgebase's library of online learning videos and interactive tools to give members the information they need to make better decisions about their health. These resources educate members on a variety of common conditions, treatments, procedures and surgeries, and help them pick the best course of action for their health.

The programs are engaging and interactive, encouraging thought, preparation and discussion. They provide information in a clear, concise manner and help members weigh the benefits and risks of their different health care options, as well as discuss those options with their doctors. With Healthwise Knowledgebase, members can review over 8,000 health topics, watch more than 700 informational videos, view detailed images and illustrations and have access to an interactive symptom checker.

Members have 24/7 access to Healthwise Knowledgebase through our member website.

Questionnaire - Mental/Behavioral Health

1. Describe how your integrated offerings engage those with unaddressed behavioral health concerns or needs. Do you have any outcome metrics that show the success of these measures and the impact on overall medical costs?

Medical/behavioral health integration is a core competency and at the heart of all we do. We provide members with both medical and behavioral health conditions with health and lifestyle management support. Medical nurse case managers screen members with a medical condition for other impacting issues including behavioral health concerns, stress and social determinants.

When a member is found to be struggling with behavioral health, stress, and/or social concerns, the nurse can request a consultation with a behavioral health resource. In fact, a behavioral health clinician is assigned to each medical team. Through consultation, we provide the medical nurse with the right clinical and resource options to support the member's needs. With each, our care management staff screens to identify the following behavioral health issues:

- Anxiety
- Alcohol use
- Eating disorders
- Bipolar screening
- Depression

Medical nurses address most "routine" issues - such as feeling stressed, overwhelmed, irritable, nervous, anxious or worried. A behavioral health clinician provides support and guidance to the nurse in coordinating the member's care.

When we identify members with needs that are more complex, the medical nurse case manager refers them to our behavioral health case management team. This can be done via warm transfer and our shared clinical system. From that point, the medical nurse case manager helps the member manage the medical concerns, while the behavioral health case manager supports the member with behavioral health concerns.

Both case managers collaborate and coordinate on multiple levels including ad hoc consultations, attending joint medical rounds and reviewing care notes in our shared clinical system.

By providing a blended, holistic approach to our member interactions and through enhanced screening, our staff now has the ability to see and address all co-morbidities as they affect the member.

Specifically, this will aid and impact:

- Identification - Care management teams are better able to identify behavioral health conditions for the members who have triggered for their program and mitigate the behavioral health impact on acute and co-morbid medical conditions. Conversely, behavioral health team members have care management team members available to discuss medical conditions for the membership they manage when they identify medical co- morbidities.
- Assessment - The care management team quickly assesses the severity of the behavioral health condition and the impact on the member's medical conditions. This is the key driver to determine the next steps for the medical management team, as they incorporate behavioral health components into the members' plan of care.
- Care management - The care management team manages the member more holistically through the continuum of care, addressing both medical and routine behavioral health gaps in care. They work closely with the behavioral health clinician(s) to determine the most appropriate care for the member through consultation, co-management and case conferencing.
- Outcomes - With continued cross-collaboration and integration of the care management and behavioral teams, the member will receive holistic quality care in a cost-effective manner. Customers will see for their members improved and sustained health outcomes.

The goal is a clinical model that demonstrates real integration of care across all programs and populations to:

- Identify and addresses routine behavioral health issues by leveraging behavioral health and medical management expertise
- Improve the effectiveness of medical interventions and outcomes by addressing behavioral health drivers of medical outcomes.

The success of our behavioral health programs

Integration advantages include earlier identification of BH issues, improvement of medical outcomes, increased member involvement with management of physical, mental and emotional well-being and increased participation in our BH and BH condition management programs. All of this helps create a positive impact on cost savings.

Behavioral Health Condition Management BoB clinical results

For our Behavioral Health Condition Management program included only with self-funded quotes, in 2025, engaged members saw a 32.16 percent improvement in depression and a 35.73 percent improvement in anxiety based on the difference from the initial and final assessments for each case. Additionally, we saw on average 1.66 days at work gained per month and a 59.66 percent program completion rate.

2. Describe how you assist members in navigating and identifying available behavioral health appointments.

Within our utilization management and care management programs, we have a robust provider linkage process for members needing provider access and availability. Our behavioral health teams do the research for members by outreaching in-network and if needed, out-of-network providers to confirm availability and clinical fit. We then provide our members confirmed availability options. This capability is standard within our behavioral health precertification, concurrent review, Behavioral Health 360 and condition management teams.

We do not schedule appointments for members. Behavioral Health member services, however, is always available to assist in finding providers and offering information. Our customer service team can help with appointment finding and can provide members with a curated list of providers with confirmed availability within three days of request.

Emergency appointments

Clinical triage staff schedule emergency and initial, urgent care appointments for both mental health and substance use.

For routine, non-urgent care, we help members identify appropriate providers in their geographic area. They can then schedule the appointment that best meets their needs.

CVS Health Virtual Primary Care™

Included in your quote is our CVS Health Virtual Primary Care™ prgroram which offers support for common behvairoal health conditions. We are committed to providing members with an optimal care experience, which includes transitioning members to the right additional care setting when needed. CVS Health Virtual Primary Care™ takes a thoughtful approach to care transitions to enable members access in-person care, care management and quality-driven specialists when needed. The Care team is equipped to help members navigate these care transitions either through warm hand-offs, proactively scheduling appointments for members or connecting them with quality in-network specialists in their area.

Additionally, members have access to their own health data including visit details and test results through our simple and convenient web-based navigation page. A single patient profile is accessible to providers across sites of care, fostering better communication between providers. With a broader view of care activity, providers deliver personalized health alerts for health screenings as well as lifestyle recommendations. The Care team helps members maintain wellness and resolve critical care gaps before they emerge.

3. Please list any lawsuits or settlements against your company in the past three years regarding mental health parity or denial of behavioral claims.

Aetna Life Insurance Company (ALIC) may be involved in regulatory actions and litigation regarding the administration of our businesses. Due to the size of our business, non-material government, regulatory or administrative investigations, proceedings, complaints, lawsuits or other legal proceedings naturally flow from disputes that arise out of the sensitive nature of services provided by a managed care organization.

ALIC is an indirect wholly owned subsidiary of CVS Health Corporation. We disclose significant regulatory actions and litigations in our parent company’s SEC filings. You can find information on Litigation and Regulatory Proceedings in CVS Health's annual and quarterly filings with the SEC.

We haven’t been debarred or precluded in any way from doing business in any state. We work diligently and expeditiously to resolve issues that arise as a result of administering or insuring benefit plans for our customers.

4. Describe your efforts to improve access to behavioral care and your efforts to identify and engage people reluctant to seek behavioral care.

We want our members to have access to high quality in-network providers. Our constant and continuous goal is to provide members with timely access to a robust network of available, high quality behavioral health providers. To do so, we:

- Encourage providers to offer telehealth services in all 50 states
- Conduct targeted provider recruitments and fee schedule updates, as well as negotiate nonstandard higher rates for providers in areas where there is a specific need
- Increase our network by encouraging members and plan sponsors to nominate providers for inclusion in our network plans
- Increasing national contracts and partnerships with providers in the both the brick-and-mortar space, as well as virtually

Developing and increasing our network

We currently have an open network of behavioral health providers and have successfully increased our in-network provider footprint by 21percent in 2024 and over 40 percent since January 2023. Our goal is to provide members with timely access to a robust network of available, high quality behavioral health providers and we now offer 514,000 behavioral health providers nationwide. We have included an attachment titled *BH national network picture (1.1.24 growth).*pptx for state-by state information.

We're also making care more accessible by adding outpatient behavioral health treatment in our CVS HealthHubs in select states. Members can now receive integrated and confidential behavioral health care in a familiar, comfortable setting in their local community.

Telehealth

We know that our member's need in mental health vary from mild to moderate and encompass all ages. Our overriding goal is to create more access and serve more members. Our focus is on increasing utilization and scale by enhancing our service options.

To do so, we partner with innovative digitally enabled or televideo mental well-being services and we are continually assessing new potential partners. These services allow us to offer alternatives for people who need all levels of care and where traditional counseling may not be appropriate. Our digital partners can also offer mental well-being support in between appointments, as well.

Network providers - For members who need behavioral health services—but can't get to a provider's office—we provide them with access to sessions with a behavioral health provider using their computers, laptops, smartphones or any mobile device. Telemedicine improves access to care, is convenient and allows for continuity of care for our members.

Virtual/digital providers - People's needs in mental health vary from mild to moderate and encompass all ages. Our overriding goal is to create more access and serve more members. Our focus is on increasing utilization and scale by enhancing our service options.

To do so, we partner with innovative digitally enabled or televideo mental well-being services and we are continually assessing new potential partners. These services allow us to offer alternatives for people who need all levels of care and where traditional counseling may not be appropriate. Our digital partners can also offer mental well-being support in between appointments, as well. Please refer to the attachment titled *2025 Aetna BH Televideo-Digital Partners.docx* for more information.

Targeted Provider Recruitment

We use multi-faceted measures of network adequacy for recruitment. These are customized based on local market and individual customer needs. For example, we use geo-access measures of available providers who are actively treating our members. These targeted analyses help focus our recruitment efforts on specific provider types in geographic areas with higher member access to care needs.

We also use internal network data to create customer specific recruitment and retention strategies at no additional charge. We continually identify and recruit out-of-network providers based on data sources such as:

- Account disruption reports
- Out-of-network utilization and single case agreements
- Provider, customer and member feedback
- Competitor network analyses

Retention and provider satisfaction

Our provider recruitment efforts also focus on retention and provider satisfaction. To build relationships and create differentiated value, we offer:

- Competitive reimbursement rates and timely reimbursement
- No prior authorization or clinical review requirements for routine outpatient care
- Access to dedicated Network Management staff to help guide providers through the online enrollment process and provide general administrative support
- Access to the Availity® provider portal (Availity.com), which offers helpful online tools and clinical resources to help manage their clinical practice.

Our efforts have succeeded in that we consistently meet or exceed state network adequacy requirements in all major markets.

Breaking stigmas to encourage engagement

We understand the motivational issues associated with the stigma and hard work it takes to succeed at behavioral health treatment. We believe that members and their families need ease of access and active support to overcome these challenges. When a member contacts us, we take the time to listen and understand what they need. This occurs at multiple points of entry.

Your Aetna Virtual Assistant (YAVA) is an AI-powered virtual assistant used by Aetna to help members and colleagues by providing information and support through conversational AI. YAVA is designed to understand why a member is calling and deliver the information they need, making customer service more efficient and allowing the BH representatives to focus on more complex issues. YAVA is used in both telephone and chat services to provide accurate responses and improve the overall experience for users.

We strive to connect each member with the benefits and services that make sense for where the member is at that moment. Multiple channels, such as televideo and digital solutions, allow your employees to access care when they need to, wherever they are. This removes the barriers that prevent people from accessing mental health care and that contribute to the stigma.

All our clinical teams (BH and Medical) are trained on motivational interviewing to work through ambivalence and take action to improve health. Motivational Interviewing empowers individuals to explore their thoughts and feelings without judgment, helping to break down the stigma around mental health. By fostering empathy, respect, and personal autonomy, MI creates a safe space where people feel heard and supported—making it easier to take the first step toward getting help and improving their well-being.

Also, within our Behavioral Health clinical teams, we offer:

- Improved engagement through intensive outreach strategies – Performed by our clinical team, outreach actions include connection with the:
    - Member
    - Family, when appropriate
    - Treating providers
    - Co-managing partner (medical nurse, case manager, disability manager, etc.)

- Health advocacy for members to coordinate and work through any co-existing medical and behavioral health conditions
- A unified approach to help members successfully engage in the right treatment, services and resources.

The medical team routinely assesses for behavioral health concerns and when present, guide members to appropriate care and services. The team has direct access to the BH clinicians for consultation and guidance for an integrated approach.

Enhanced provider search online experience

We are redesigning our website and offering apps to create a better experience. This will make it easier to navigate and understand available resources and access services more easily. Our technology guides members to the appropriate resource based on their preferences. We are also investigating the use of chatbots and other technology to improve our members' ability to navigate the system. We are launching a search capability that includes BH provider quality performance and member preferences to intelligently match the member to the right in-network provider in a timely manner.

Aetna and CVS Health are actively working to reduce mental health stigma through several key initiatives:

1. Stamp Out Stigma Campaign

- This campaign encourages open conversations about mental health and substance use disorders, aiming to reeducate colleagues and the public on the realities of mental illness and addiction.
- Employees are invited to share their personal stories or "Snapshots" of their mental health journeys, which are featured in the Faces of Mental Health Snapshot gallery and internal communications.
- The campaign also encourages adding #StampoutStigma to email signatures to promote awareness and support for mental health in the workplace.

2. Promoting Open Dialogue

- Leadership and colleagues are encouraged to start open discussions about mental well-being, especially during Mental Health Awareness Month and Women's Health Month.
- The organization highlights the importance of treating mental health as a key part of overall well-being, making it easier for people to speak up and seek help.
- Support groups and confidential counseling are available through programs like Resources for Living, and expanded behavioral health services are offered at MinuteClinic locations and virtually.

3. Education and Advocacy

- Aetna provides resources to help colleagues recognize the high prevalence of mental illness and substance use disorders, and to understand that these are treatable health issues—just like any physical health condition.
- The organization encourages everyone to check in with peers, listen without judgment, and advocate for workplace well-being.

4. Support and Resources

- Employees and members have access to confidential counseling, work-life support, and crisis intervention services.
- The National Suicide Prevention Lifeline (988) is promoted for anyone in crisis.
- These efforts are designed to create a culture where mental health is prioritized, stigma is reduced, and everyone feels supported in seeking help when needed.

5. Please describe any specific programs you have targeting first responders and/or the law enforcement population.

We have offered our First Responder Peer Support program as an optional buy-up.

First responders protect us, but at a cost. They're more likely to face behavioral health challenges because of constant exposure to trauma. To make matters worse, many public safety professionals are not comfortable with seeking help or discussing their behavioral health needs. The results can be deadly. Police officers, firefighters, paramedics and emergency medical technicians face high levels of stress, anxiety, depression and post-traumatic stress. Police and firefighters are more likely to die by suicide than in the line of duty[1]. Additionally, 30 percent of first responders develop behavioral health conditions, which is five times higher than the civilian population rate[2].

Unfortunately, the stigma associated with support programs can often impede first responders from accessing crucial emotional support. Therefore, we've created our First Responder Peer Support program to help bridge this gap. Our First Responder Peer Support program is a well-being program designed specifically for first responders who typically do not engage with traditional wellness offerings.

Comprehensive emotional well-being support

We've partnered with Responder Health to develop our First Responder Peer Support program. Together with Responder Health, we understand the unique needs of first responders and speak their language. The goal is to provide the first responder and their family with the resources and treatment they need to return to the job and their families happier and healthier. To help achieve confidential, personalized support for police, fire professionals and their families, the foundation of our First Responder Peer Support program is a 24/7 helpline and is built on the State of Washington's confidentiality laws, RCW 43.101.425, which are the strongest in the nation for first responders.

When a first responder calls the helpline, they speak with another first responder who is highly trained and has “lived experience”. This is much different than calling a traditional Employee Assistance Program (EAP). We know through direct feedback from first responders that having someone answer their call that has walked in their shoes is absolutely essential. First responders need to talk to someone who understands what they are going through, especially in times of crisis such as anxiety, post-traumatic stress and depression. The helpline is staffed by retired first responders who have gone through program training specifically to help. The 24/7 helpline also gives first responders a path toward therapy for those who need it and who may not otherwise seek it on their own.

To encourage referrals to therapy, first responders in our program are directed to clinicians who have experience working with police, firefighters and emergency medical technicians. This specialized support increases the likelihood that they continue therapy after the first session. To help maintain trust, therapy referrals are always confidential. All referrals are for vetted in-network therapists and treatment centers that have been personally trained and physically vetted to ensure the best treatment outcomes for first responders and their families.

Our program focuses on the whole person and their needs. Individuals are not simply given a website with providers and facilities and left to find their way. Instead, we provide a guided approach and throughout each step in the treatment process, the first responder and their family are the primary focus.

Digital tools designed for first responders

We’ve partnered with Armor Up America to provide a digital app designed with first responders and their families in mind. The app connects members and their families with:

- Direct peer-to-peer hotline access for active and retired workers
- Help for substance use disorder and addiction
- Physical and mental health resources
- Training, education and employment assistance

Through our partnership with Armor Up America, we are giving members and their families the tools to make support simple and personal.

Supporting engagement

Often times, handing a first responder a flyer is not enough to get them to engage with emotional support programs. Therefore, to engage members in our First Responder Peer Support and to support their continued success, we provide access to:

- Face-to-face engagement with a retired first responder
- Connections between the program and local resources
- An app with content designed for first responders and their families

Through Responder Health we offer a dedicated app for first responders and their families. The app includes self-evaluation assessments and tools, self-help videos and content specific to first responders and their job. The app allows first responders to explore our program on their own time in a safe place. All digital content is designed for the needs of first responders and their families, covering such topics as:

- First responder stress
- Common responses to critical incidents
- Hope and help for family members
- How stress impacts your family
- How to support peers

The app also gives the first responder or their family member an option to call the 24/7 helpline with a button conveniently on the home page.

With our First Responder Peer Support program, we're providing your population with peer support developed by first responders for first responders. By helping to remove the stigma of behavioral health for first responders, we're supporting the physical and mental well-being of our police, firefighters and emergency medical technicians on their path to better health.

Questionnaire – Pharmacy

1. Provide a copy of the proposed formulary. Is the proposer's formulary based on the lowest cost and evidence-based guidelines?

Please refer to our attachment labeled Aetna Standard Formulary.

The Pharmacy and Therapeutics (P&T) Committee thoroughly reviews individual drugs and drug classes, using principles defined by the evidence-based medical literature. Our formulary process is developed and managed through the activities of the National P&T Committee. This committee works to achieve a rigorous formulary process and maintain coordinated protocols. Objective and comprehensive reviews are presented to our National P&T Committee for discussion and action. Agents are added to the formulary based on their effectiveness, safety, and therapeutic role (e.g., treatment/prevention) in the management of disease states. The P&T Committee also considers national trends, client needs, and member demographics in conjunction with evidence-based guidelines.

2. Provide a list of standard drug exclusions.

Please refer to our attachment labeled Aetna Standard Formulary Exclusions.

3. Do prescription drug proposals include Step Therapy, Prior Authorization, and Quantity Limits?

Under the Aetna Standard Formulary you may customize step therapy, prior authorization and quantity limits. We do require the utilization of safety edits and all specialty medications require prior authorization. We charge $45 per review.

4. Does prescription drug proposal(s) include an open or closed formulary?

We consider our Aetna Standard Formulary an open formulary as all exclusions have a formulary alternative.

5. Will the proposer cover the cost of transferring existing mail-order prescriptions from the incumbent carrier? If so, please provide the file specifications for the data transfer. If not, please outline the Mail Order process.

No. Aetna shall provide the Customer with an Implementation Allowance of up to $5.00 per member per year. The Customer can use this allowance to pay for reasonable implementation and enrollment services incurred during the first Plan year.Aetna is including a general allowance up to $2.00 per enrolled member per year on a Annual basis. The Customer can use this allowance to pay for implementation, audit or communication related expenses along with external data files or feeds.

6. Will the proposer cover the cost of transferring existing Prior Authorizations and other satisfied Drug Edits from the incumbent carrier? If so, please provide the file specifications for the data transfer.

No. Aetna shall provide the Customer with an Implementation Allowance of up to $5.00 per member per year. The Customer can use this allowance to pay for reasonable implementation and enrollment services incurred during the first Plan year.Aetna is including a general allowance up to $2.00 per enrolled member per year on a Annual basis. The Customer can use this allowance to pay for implementation, audit or communication related expenses along with external data files or feeds.

7. Please outline the proposer's Specialty Drug process, including clinical support available to members, and if a third-party vendor is involved in these transactions.

Our specialty pharmacy CareTeams manage all members using our specialty pharmacies on a regular basis to help manage side effects and ensure adherence to their prescribed medication. We see an opportunity for a more holistic approach to management of the most complex – high-cost members. This holistic approach encompasses management of co-morbidities, self-care and other issues that are related to the condition of the member, not just their medications.

Our AccordantCare Specialty nurse management program offers members with rare conditions nurse support with a holistic view, in addition to medication management services through our specialty pharmacy. For rare conditions, our AccordantCare Rare nurses are integrated with our specialty solutions to support members in managing their whole condition and co-morbidities, especially in critical conditions. We provide clinical care focused on the member and the condition vs. the drug dispensed. This can therefore reduce total health care costs and improve quality of life. Members benefit from an integrated specialty pharmacist and nurse experience. This results in timely and coordinated clinical interventions and leads to improved medication as well as care plan adherence.

We are the only specialty pharmacy to provide a truly comprehensive solution by integrating nurse-led care management for rare, complex conditions with our specialty pharmacy services.

Member engagement with our AccordantCare Specialty nurses is a voluntary process to be actively engaged (opt-in). Approximately 40 percent (40%) of members are actively engaged and opt into our nurse care management model. Approximately 65 percent (65%) of those engaged members remain engaged for 10 months or more.

In turn, avoidable ER (Emergency Room) visits and hospitalizations are reduced. The result is a substantial overall decrease in health care costs. In one year, we have seen an 11 percent (11%) reduction in hospital admissions and $2,158 savings per engaged member.

How it works

With our program, an AccordantCare Specialty nurse works as an integrated part of the specialty CareTeam to address all aspects of the member's condition. This solution is designed to increase clinical education and member engagement leading to improved medication and care plan adherence. By working together as one clinical team, we can provide the member coordinated clinical support and intervene earlier and more effectively which increases member engagement and helps to close gaps in care.

Our specialty pharmacy staff manage the following components for each member:

- Access to specialty medication
- Benefits verification
- Financial assistance coordination
- Injection training coordination
- Education on medication adherence and side effects
- REMS compliance
- Inventory coordination to reduce drug waste
- Refill reminders.

Our AccordantCare Specialty nurses provide critical member support in the following areas:

- Care Optimization – Interventions such as cost of care support, home adaptations and caregiver education.
- Symptom management – Interventions including management or prevention of exacerbations (flares), fatigue, disease progression, pain and cognitive issues.
- Self-Care – Interventions including fall prevention, diet and nutrition support, assessment of motivation or learning gaps.
- Medication Optimization – Reinforce specialty therapy management adherence and interventions related to medication options, cost of medication/site of care support and non-specialty medication adherence.
- Co-Morbidity Management – Interventions including those to address diabetes, depression and heart disease.

AccordantCare Specialty conditions treated

We have focused on the conditions with associated specialty utilization. We refer to this as our AccordantCare Specialty program. We support the following nine (9) rare conditions:

- Multiple Sclerosis
- Rheumatoid Arthritis
- Crohn's Disease
- Ulcerative Colitis
- Hemophilia
- Cystic Fibrosis
- Systemic Lupus Erythematosus
- Gaucher's Disease
- Hereditary Angioedema.

Our AccordantCare Specialty program allows member-focused clinical care once they fill a specialty medication through one of our specialty pharmacies. This offering is available to self-insured ERISA customers adopting the specialty performance network with zero grace fills and is bundled within the specialty medication pricing. While there is no savings guarantee for this solution, you may achieve up to 11 percent (11%) savings.

8. Are insulin or other diabetic supplies, such as glucometers, test strips, lancets, etc., considered under the pharmacy benefit proposed or subject to medical plan benefits? If subject to medical plan benefits, please confirm service category.

To ensure that members with diabetes have the tools to control their blood sugar, we include the following diabetes supplies in all of our plan designs:

- Alcohol swabs
- Blood glucose calibration liquid
- Injection devices including insulin syringes, needles and pens
- Lancet devices and kits
- Test Strips- blood glucose, ketone and urine

We can also offer you a $0 Preferred Diabetic Benefit. This option entirely removes the member's cost share for certain preferred brands and generics. You may choose whether to offer a $0 cost share with the following:

- Preferred diabetic supplies
- Preferred insulin
- Preferred diabetic Supplies and insulin

There are considerations to take into account such as claim impact. In addition, we have other programs to support members with diabetes such as Pharmacy Advisor Counseling®, Adherence to Drug Therapy and our Diabetic Meter program. We would be happy to meet with you to determine whether combining this benefit plan with other adherence programs would be the right fit for you and your employees.

9. Is the proposed pricing offer based on the implementation of any new mandatory mail programs, clinical programs, or plan design changes?

No.

10. Is the proposer willing to grandfather existing users of a non-covered drug? If so, please confirm if indefinite or subject to a defined time period (i.e., 12 months).

No. Prescribing physicians must submit a request to obtain a medical coverage exception for drugs on our prior authorization, step therapy and formulary exclusions lists. Physicians can make this request by:

- Fax
- Telephone
- Password-protected physician website
- e-Prescribing tools.

Because we want members to receive medically necessary treatment, we ask physicians to include the member ID, medical history and any applicable laboratory data with their request.

We grant or deny these medical exceptions based on specific coverage criteria, which health care professionals can access on our website at aetna.com. We communicate the medical exception decision back to the physicians by telephone, fax or e-mail (depending on how we receive the request). If we deny the request, we fax or mail a follow-up letter to the physician and member within two business days (or as otherwise required by state law). This letter states the reason for denial and explains the appeal procedure. Once entered into the system, the information is immediately available to participating pharmacies.

11. Is the proposer willing to grandfather existing users of medications that require prior authorization (including specialty medications) without having to meet the proposer's requirements?

Yes. For clients adopting exclusion strategies, some non-specialty and specialty products can be given Prior Use Exemption (PUE) for existing utilizers. A few examples are outlined below. This policy is subject to change based on new clinical guidance. There are two classes that allow PUE for non-specialty drugs: antipsychotics and anticonvulsants. The rules listed below are utilized to determine if a drug in these classes is eligible for PUE:*Excluded oral drug does not have an AB-rated generic or a generic that is the same chemical entity (tablet vs capsule; capsule vs ODT)* Excluded injectable drug does not have an AB-rated generic (cannot switch between one IM formulation to another) Some examples of specialty classes that are eligible for PUE are the following:*Fertility*Hepatitis C* Osteoarthritis.*Certain autoimmune conditions.

12. What is the generic substitution policy and process for both mail order and retail?

We will always dispense a generic if available, unless indicated by the prescribing physician.

13. Does the proposer own the mail-order program? If not, please confirm the Mail Order process.

Yes. We own and operate CVS Mail Order Pharmacy.

14. Self-Insured PBM: Does prescription drug proposal(s) ensure that no discount guarantee value will be derived from (1) the additional co-pay value in member pay the difference claims, (2) the AWP value from any compound claims or bulk chemical claims that are labeled and adjudicated under U&C, and (3) the AWP value from pharmacy input errors? All discount guarantees will be true-up on an annual basis, 90 days after the end of each contract year.

Not confirmed. Discounts and Dispensing Fees contained in this Service and Fee Schedule are guaranteed on an annual basis, subject to the following conditions:

- Discount and Dispensing Fee guarantees are measured individually and reconciled in the aggregate; surpluses in one or more component guarantees may be used to offset shortages in other component guarantees.
- Discount and Dispensing Fee guarantees shall be reconciled and reported to Customer within one hundred eighty (180) days following the guarantee period.
- Discount guarantees are calculated on ingredient cost prior to the application of Plan Participant Cost Share and include zero balance due claims.

The following types of Prescription Drug claims are excluded from the Discount and Dispensing Fee guarantees contained hereinto Compound Prescription claims Direct Plan Participant reimbursement / out-of-network claims Coordination of Benefits (COB) or secondary payor claims In-house pharmacy claims Vaccines (including for COVID) and other COVID testing-related claims 340B claims Claims paid at government required amounts or Claims priced in response to government regulatory requirements

- Retail pricing guarantees exclude claims that reflect the Usual & Customary Retail Price.
- Single Source Generic Drugs are included in the Generic Discount guarantees.
- Only Specialty Products dispensed by a Specialty Pharmacy are included in the Specialty Pharmacy Discount guarantee listed above. Specialty Products dispensed by Participating Retail Pharmacies are not included in any Discount guarantee listed above.

- Aetna has assumed 0.00% in-house pharmacy utilization. Aetna reserves the right to re-evaluate the proposed pricing if the actual in-house pharmacy utilization varies from this assumption.

15. Self-Insured PBM: Does the prescription drug proposal ensure that the Average Wholesale Price (AWP) for individual claims will not be an annual average, is from one consistent source, and will not, in any way, be calculated, adjusted, or assigned an alternate NDC number?

Yes. We use Medi-Span.

16. Self-Insured PBM: Each proposer must confirm that the proposed generic guarantee is based on all generic drugs adjudicated and classified by MONY codes, including single source, and not only MAC'd generic drugs.

Confirmed.

17. Self-Insured PBM: Do prescription drug proposal(s) provide an auditable contract with guaranteed price points at the specific client level?

Confirmed.

18. Self-Insured PBM: Does the proposer retain any portion of the Rx rebates (retail or mail)? If so, what percentage? If not, are you willing to provide a quote in which all rebates are passed through to the employer?

Please refer to the Pharmacy Service and Fee Schedule rebate guarantee grids for additional details. Rebate guarantees will exclude the claims noted below; however, any Rebate collected by Aetna for such claims will be passed through to the Customer in accordance with the Rebate terms described herein.

19. Self-Insured PBM: Please confirm that the proposal includes Rx rebates payable directly to the City of PompanoBeach.]

Rebate guarantees will exclude the claims noted below; however, any Rebate collected by Aetna for such claims will be passed through to the Customer in accordance with the Rebate terms described herein. Rebate guarantees may be subject to: The adoption of Specialty Guideline Management (SGM) program.
- Plan performance that is materially the same as the baseline data provided by Customer and relied upon by Aetna, including information regarding enrollment and utilization of pharmacy services. The above rebate guarantees exclude:

-Over the Counter (OTC) Claims
- Limited distribution drug (LDD) Claims
- Any other Claim identified as having received 340B program wholesale pricing
- Compound Drug Claims
- Paper or Member Submitted Claims
- Coordination of Benefits (COB) or secondary payor Claims
- Vaccine and vaccine administration Claims
- COVID treatment Claims
- Claims for products with coverage or a plan design mandated by the government
- Claims approved by Formulary Exception

- Rebate guarantees assume Advanced Control Specialty Formulary.
- Specialty Rebate Guarantees will only apply to Specialty Product Claims dispensed at participating Specialty Pharmacies when mandatory Specialty Pharmacy fulfillment is instituted herein, subject to any exceptions set forth herein.
- Brand drug claims in the HIV therapeutic category are included in the retail rebate guarantees.

20. Self-Insured PBM: Each proposer must confirm that the client will receive all quarterly formulary rebate and reconciliation payments within 90 days of the quarter's close. If "Not Confirmed," indicate the number of days that you will pay quarterly rebates within.

Not confirmed. Rebates will be distributed on a quarterly basis by claim wire credit. Rebate collections are paid quarterly one hundred and eighty (180) days after the quarter ends. Rebates are calculated and paid in accordance with the terms and conditions of this Agreement. Earned Rebates are distributed in March, June, September and December each contract year.

21. Self-Insured PBM: Do single-source generics fall within the proposer's generic or brand-name tiers? How are single-source generics classified when projecting discounts by tier?

Single Source Generic Drugs are included in the Generic Discount guarantees.

22. Please outline details of the proposer's Weight-Loss medication program(s) available.

Metabolic health is an umbrella term for the intersection of diabetes and obesity. Poor metabolic health can have a direct correlation to a person's risk for heart disease, diabetes, and stroke- also leading to significant health care costs for both members and payors. We take a comprehensive approach, offering a suite of solutions aimed at improving outcomes by treating the entire patient, reducing costs, and providing the flexibility to design a solution that meets your goals and objectives.

The use of glucagon-like peptide 1 receptor agonists, or GLP-1s, has skyrocketed over the past few years, and the upward curve shows no sign of slowing: The category could reach more than $77 billion in global sales by 2030.[1] These therapies are highly effective. However, they are also costly.

We will support you in developing a thoughtful, data-driven approach to meet your specific needs focused on three key elements:

- **Coverage** options for GLP-1s
- **Cost** management options based on coverage
- **Care** management solutions, which include:
  - Weight Management
  - Diabetes Management (Transform Diabetes Care/TDC)
  - Deprescribing (DeRx)

Coverage options for GLP-1s

Coverage approaches to GLP-1s are not one-size-fits-all. Some plan sponsors may choose to offer coverage that fully aligns with U.S. Food and Drug Administration (FDA)-approved labeling and clinical compendia-supported uses. Others may want to exclude coverage of GLP-1s for weight management or put in place more stringent coverage requirements for the weight management class.

Coverage decisions should take into account the health outcomes and total cost of care impact that weight management can have in preventing chronic condition onset or progression. Treating obesity can help reduce downstream pharmacy and medical spend. Pharmacy benefits can also be an important talent attraction and retention tool in today's competitive labor market.

Plan sponsors may assess their coverage options depending on the nature of their employee population. For example, those in industries that experience high turnover may have lower vested interest in long-term outcomes and may opt for a more stringent coverage approach, with rigorous utilization management (UM) levers in place.

Cost management options based on coverage

Our multifaceted approach to cost management includes leveraging our scale and market expertise to negotiate low net cost and using formulary design to prefer low net cost products. Plan sponsors can choose plan design and formulary levers that align with plan goals, including a 100-percent member copay option and plan design with category exclusion. Select formularies also include new-to-market review, which evaluates appropriate use of drugs according to FDA-labeled indication and encourages use of comparable formulary drugs.

Utilization management strategies

If your plan design includes coverage for GLP-1s, we can help ensure appropriate utilization through intelligent controls, including:

- **Prior authorization** (PA) to help ensure utilization is clinically appropriate at the onset of therapy and throughout treatment.
- **Step therapy** requiring members with type 2 diabetes to try metformin before progressing to a GLP-1.
- **Quantity limits** to help ensure dosing does not exceed recommendations.
- **Weight Management UM Bundle** that allows for comprehensive drug class management by automatically updating and/or adding new UM criteria, when available.
- **Smart logic PA** to help prevent coverage of off-label utilization while minimizing member impact.[2]

Tailor coverage of new weight management drugs from day one

The Weight Management UM Bundle helps ensure clinically appropriate and cost-effective coverage for weight management medications. It automatically applies evidence-based UM criteria so you can manage coverage for new agents as soon as UM criteria become available.[3]

The bundle currently includes criteria for:

- Contrave
- Qsymia
- Saxenda
- Wegovy
- Xenical
- Additional weight management agents[4]

UM criteria are supported by medical evidence and require documentation and drug-specific quantity limits.

23. Please also confirm the City of Pompano Beach's ability to accept or reject proposed Formulary changes.

The offer in this proposal is based upon your alignment to our standard formulary. For a custom formulary, additional administrative costs may apply, ranging from $50,000-$100,000 depending upon the level of customization.

Questionnaire - Stop Loss

1. Please confirm the proposed quote is firm. If not, please provide details as to why.

The proposed quote is illustrative and not firm. The quotation offer becomes firm when claims are updated within 120 days of the effective or renewal date and a final review of large claims is completed. The customer must accept a firm offer within 30 calendar days from the date of delivery of the quote. If the customer doesn't accept within 30 calendar days, we reserve the right to request updated underwriting data, which may alter rates or the terms of the quote.

We require a system-generated claim detail report for Rx claims which includes

- Employee name
- Employee social security number
- Claimant name
- Claimant relationship to employee
- Claimant date of birth
- Incurred date of claim
- Paid date of claim
- Paid claim amount
- Name of drug
- Name of provider

This report should show each claim individually, as well as subtotals for each claimant.

2. Please confirm the proposed quote contract terms.

This stop loss proposal is illustrative. Please see the stop loss caveats for full terms and conditions of our offer.

3. Please confirm the proposal does not include lasers.

Lasers remain To Be Determined until the quote is considered Firm.

4. Please confirm the proposer's process for inclusion of lasers, if applicable, at renewal.

Our approach for dealing with ongoing large claims at renewal depends on various factors: amount of the ongoing large claims, case size, expected Stop Loss renewal premium, and specific deductible level. Aetna typically offers more than one renewal option for dealing with this situation. These options would include; adding a premium rate load, coinsuring the ongoing large claim at other than 100 percent, incorporating a combination of risk share and premium load, an aggregating specific deductible option and/or a family individual deductible option.

We will not offer, as the sole renewal option, a quote which lasers a claimant that had not previously been lasered. Upon request, we will review any first year lasered claimants in advance of the renewal year and re-evaluate their risk and the need to continue to laser those individuals.

5. Please detail data requirements in order to process reimbursements.

When we're the claims administrator, the customer must provide eligibility information for purposes of making claim payments for their plan. When sold together, this eligibility information is also used to determine coverage under the Stop Loss policy. The customer determines eligibility for their plan, as required by ERISA, and subject to the terms stated in the customer's plan document. Enrollment exceptions made by the customer that aren't as stated in their ERISA-required plan documents, aren't covered by Stop Loss.

6. What is the time frame for reimbursements once the claim information is submitted for payment? Do you offer Advanced Funding on claims reimbursements at no cost to the client?

When we're the claims administrator, the underlying self-funded medical plans are fully integrated with our standard Stop Loss features at no additional cost. Funding is immediate and claim report submissions aren't required. Eligible claim expenses that exceed the individual Stop Loss amount are immediately funded by Aetna, on the same day the claim payment is issued. The group has no out-of-pocket expenses for these specific claims.

Circumstances under which funding isn't immediate include non-standard Stop Loss features, claim run-in, claim run-out and claims paid by third party administrators. Advance Funding or Special Cash Flow Assistance isn't currently available in these situations.

7. Please confirm that the proposer will base stop loss coverage reimbursements on the 'Eligible Expenses' as defined by the medical ASO plan document.

Stop Loss covers eligible claim expenses:

When paid according to the plan of benefits; and
In accordance with Aetna's Clinical Policy Bulletins (CPBs); and
Except as otherwise excluded by the policy or legislation.

Stop Loss does not cover benefits when coverage or eligibility is made at the plan sponsor's direction but that we determine are not payable under the plan, according to our standard provisions, Clinical Policy Bulletins, and claim settlement practices, or that are in excess of the reasonable and customary charge. A complete list of our Stop Loss exclusions is available upon request. For this reason, Aetna will only cover benefits paid when Aetna is the claim final fiduciary for paid benefits and the appeals process.

Department of Insurance (DOI) and Department of Labor (DOL) regulations mandate that Stop Loss coverage be applied uniformly, consistently and without bias. We comply with these requirements through our E&I (experimental & investigational) and medical necessity definitions and exclusions. Our Clinical Policy Bulletins determine this coverage, just as they do for commercial insured business, preventing discrimination and ambiguous coverage determinations. When we are the claims administrator, we have the information necessary to support coverage determinations and eligible claim expenses apply to Stop Loss, automatically.

8. Proposers must confirm Stop Loss coverage is also quoted for Retirees Over 65 (Medicare) remaining on a Group Medical plan through the City of Pompano Beach. Does the proposal exclude any member population included in the census?

Confirmed. No member population excluded from the stop loss.

9. If the proposer is awarded the Stop Loss insurance contract, please confirm if the policy is guaranteed renewable.

Confirmed. We offer all renewals on a true paid contract basis, providing maximum coverage with no gaps due to differing contract or policy periods.

We determine the offering of run-in coverage on a case-by-case basis. There may be a limit on the number of months of run-in that we are willing to quote, and we do limit the liability we assume for run-in claims. Stop loss reimbursement for eligible claims occurring during the run-in period is handled on a delayed year reimbursement basis. Final settlement with regard to the run-in claims is made at the end of the policy year or after the end of the run-out period, if run-out coverage is also being provided.

Our renewal Stop Loss policy operates on a policy year, paid claim basis. Claims that cross policy periods are covered by the subsequent year's policy. We don't pay the same claims under multiple policies. We do, however, apply claims overturned by an Independent Review Organization in accordance with HIPAA requirements.

10. Upon underwriting approval, does the proposer offer a maximum renewal rate cap on specific rates?

A renewal risk cap has not been included in our stop loss proposal. Upon request we will provide a quoted option with a renewal risk cap.

11. Does the proposer have an aggregating specific deductible option available that represents a dollar-for-dollar premium offset to share risk?

Aetna offers an Aggregating Specific option, which offers a reduction in premium in exchange for the customer assuming more risk or in lieu of lasering.

12. What aggregate corridors are available for consideration?

115%, 120%, 125%

Questionnaire - Implementation and Billing

1. Please provide a brief description of the implementation process, including requirements and timeline.

We use custom tools, a team approach and survey feedback to keep improving the quality of our implementation process. In this way, we continue to build, improve, support and maintain high-performing implementation teams that truly differentiate us in the marketplace. In 2025, our overall customer satisfaction rate was 96 percent which is a strong testament to our commitment to you.

The cornerstones of our implementation approach are:

- Experience — We provide an experienced team of subject matter experts
- Collaboration — We work strategically with your internal team and vendor partners
- Customization — We use versatile project plans and management tools
- Effectiveness — We develop result-oriented plans and execute flawlessly
- Quality — We strive for continuous improvement in our processes and procedures

Your implementation is more than simply hitting the right dates. It's about making the change easier. We remove barriers, offer timely solutions and stay by your side throughout the implementation process.

Supporting you every step of the way

Our high-touch approach includes a team of technical experts and specialists. They consult with you to implement the chosen programs and provide ongoing service. Likewise, we ask you to identify a team made up of members from your financial, benefits, information technology and human resources departments, as well as other business areas, as needed.

We find that the team concept increases accountability and responsiveness. It also provides the highest level of customer and member satisfaction.

Custom implementation tools

We use custom project management tools to meet and exceed your expectations for a smooth transition. During the process, we illustrate the products, programs and services you choose on our detailed Implementation Management Plan. This plan identifies members of the implementation team. It also establishes target completion dates for all associated activities.

We use an implementation tracking tool to track open items to resolution. We regularly update and distribute this document to the implementation team to keep team members on track and informed of the project's progress. The document is part of our "all-in-one" approach and includes all relevant information and project details in a single spot.

A comprehensive and phased approach to implementation

We use a phased approach to your implementation so that all aspects of the project are thoroughly accounted for, including:

Phase 1 — Discovery

In the discovery phase of your implementation, we review plan proposal commitments, obtain preliminary information and form our internal implementation team.

Phase 2 — Define

In the defining phase of your implementation, we conduct a strategy meeting, assign technical resources, define roles and responsibilities, as well as conduct an internal kick-off meeting.

Phase 3 — Implementation

In this phase of your implementation, we conduct an implementation meeting with you, confirm your vendor partners, review your implementation project plan and milestones, as well as schedule status meeting calls.

Phase 4 — Plan setup

In the fourth phase of your implementation, we finalize plan design, account structure, eligibility and coding, confirm any vendor coordination requirements, set up systems according to the benefits and programs you select, train member service center team and support open enrollment activity.

Phase 5 — Go live

To successfully go live, in this phase of your implementation, we complete plan testing, load eligibility and enroll members, mail ID cards and release claim hold for processing.

Phase 6 — Post implementation

In the final phase of your implementation, we monitor remaining tasks, complete a signoff call with your team and our team, as well as transition responsibilities and any open activities to the account team.

We also send out surveys to you and the account team that ask for comments on the process, as well as feedback on the implementation manager. The survey results tie directly back to the implementation manager's performance rating.

Please see our *Implementation Solutions* located within the Exhibits section of our proposal response.

2. Please confirm the proposer is flexible to modify the standard contract language.

Confirmed.

3. Please confirm the proposer is willing to waive the binder payment requirements.

Not applicable. We do not require a binder payments for fully insured or self-funded contracts.

4. Please confirm the proposer is willing to accept a self-bill for the proposed line(s) of coverage.

Confirmed. Please see the information below for the variations based on coverage lines and funding types.

Fully insured medical and pharmacy

For list and summary billing with our fully insured medical and pharmacy plans, we accept a customer's version of our billing statement if it contains the required information: social security number, last name, first name, premium and tier. Additionally, the customer's billing consultant must approve it prior to use.

We accept premium rosters submitted electronically in a Microsoft Excel file. We don't accept paper files.

An example of the acceptable format is provided below:

Social Security Number	Last Name	First Name	Premium	Tier
123-45-6789	Smith	John	236.50	Couple
123-45-6789	Johnson	Jim	197.50	Single
123-45-6789	Hare	William	-327.00	Family

Self-funded medical and pharmacy

For our self-funded medical and pharmacy plans, your version of our service fee billing statement must contain the following required information: customer number, plan sponsor unique ID number (PSUID) and bill package (BP), due date, product code, list of member names, rate and the total fee due.

Additionally, your billing consultant must review and approve the self-billing statement prior to use.

Self-funded stop loss

Stop Loss premium is billed monthly. We may bill you electronically and you may pay premium due to us electronically. If you aren't billed electronically, you must send your premium to us at the address shown on the invoice on or before the premium due date. Premium is due on the premium due date.

All premium payments must be made in U.S. dollars no later than 30 days after the premium due date. If we haven't received the premium due by the due date, the policy automatically terminates without further notice to you and all rights to benefits under this policy end. Premiums are due for any period the policy was in force. Refer to the termination section of this policy.

5. What is the proposer's standard billing snapshot date and grace period for payment?

We expect the monthly payment by the due date. We standardly allow a 31-day grace period following the due date.

6. Would you allow a grace period after the due date of 45 days for payment of an invoice?

Confirmed. We expect the monthly payment by the due date. We standardly allow a 31-day grace period following the due date. However, we will allow a 45-day grace period following the due date.

Questionnaire - Renewal Planning and Additional Fees

1. Is the proposer willing to provide a renewal offer at least 120 days prior to the renewal effective date?

Confirmed.

2. Are any of the rates proposed contingent on any additional information? If so, please disclose.

Our proposal assumes that prescription drug benefits and stop loss are included and will be provided by Aetna. In the event that Aetna is not selected as the pharmacy or stop loss vendor, we have included buy up charges associated with accepting feeds from a third-party vendor and integrating the data into the medical management program.

3. What additional services are available and at what cost?

Please see the financial proposal for a suggested list of additional programs and services available for additional costs.

Questionnaire - Enrollment & Implementation Technology

1. Does your company (or third-party) process electronic eligibility files via automation, or are manual steps necessary? If manual steps are required to process files, please explain this process and its impact on processing time.

We can accept and process eligibility data in any of the following methods:

- Internet-based enrollment system - EZenroll®, our online enrollment application, you can perform several enrollment functions online, including additions, changes, terminations and PCP selection.
- Internet-based eligibility transfer solution - SecureTransport™ allows you or your vendor to transmit eligibility files to us during open enrollment and for ongoing updates. SecureTransport is a trademark of Axway used under license.
- Electronic transport method - You can submit eligibility through any number of electronic transport methods. Depending on the method used, we can accommodate secure Internet FTP and EDI ANSI X12 formats.
- e.List - We accept an e.List formatted as an Excel spreadsheet populated with eligibility data to submit initial enrollment. We scan the spreadsheet into our systems and mirror an electronic file, eliminating manual intervention.

We provide you with the options mentioned above so that you have choices that match your needs and preferences.

Manual intervention

Your designated eligibility consultant can assist you with manually enrolling a member on an emergency basis. Manual updates appear immediately in the eligibility system. Our system overwrites any ad hoc changes made to our system if the next regular transmission doesn't include the new information.

2. Does your company outsource the processing of electronic eligibility to a third-party? If so, please provide the company name.

No. We do not outsource the processing of electronic eligibility to a third-party. Our eligibility system is the Member Enrollment Application (MEA) system. The eligibility aspect of our MEA interfaces with policy entry, claims and pharmacy management systems.

3. Please specify if your company (or third-party) accepts the HIPAA 834 5010 file layout as well as all other file layouts accepted for automated enrollment. Please provide applicable coding supplements and other applicable file specification documents.

We comply with the HIPAA Electronic Transactions Regulations (version 5010) and support the American National Standards Institute (ANSI) ASC X12N and NCPDP (version D.0) standard formats. Additionally, Aetna is Phase III certified with the Council for Affordable Quality Healthcare's Committee (CAQH) on Operating Rules for Information Exchange® for all our transactions. Our transactions demonstrate IT system or product operating in conformance with a specific rule set(s) of the CAQH CORE Operating Rules. The NCPDP standard formats are used by retail pharmacies for drug claim transactions.

Among current Aetna-supported electronic transactions:

- 270/271: Eligibility/benefit inquiry and response
- 276/277: Claim status inquiry and notification (including document attachment)
- 278: Referral/precertification request and response
- 275/277: Precert Document Upload (Attachments)
- X12N 275 6020 version EDI Claim Attachments (In production with Change Healthcare - phased roll-out to Availity, PnT Data, Waystar)

- 820: Health plan premium payments (ANSI ASC X12N)
- 834: Enrollment and disenrollment in a health plan (ANSI ASC X12N)
- 835: Claim payment and remittance (electronic remittance advice (ERA)
- 837: Claim/bulk encounter submission (professional, institutional, dental)
- 837: Coordination of Benefits
- NCPDP D.0: Pharmacy claim submission

We recommend that you or your eligibility vendor provide electronic eligibility in our preferred industry ANSI 834 file format. This format allows the most flexibility in meeting your eligibility reporting needs. We can also accept an electronic eligibility file in our proprietary 2000-byte format or in our Consolidated Eligibility Format (CEF) file format. Any customization to our standard format is evaluated on a customer specific basis. If approved, charges to establish and support the customization generally apply.

4. What is your company's (or third party's) standard processing time for electronic eligibility to be updated in all applicable internal systems (eligibility/claims/billing/etc)? If time varies, please specify for each system.

We work with you during implementation to determine the methods available to obtain initial and ongoing eligibility. These discussions include medium, frequency and transaction types. We can accept transaction-only electronic files or full in-force files twice a week, weekly, twice a month or monthly. We prefer full in-force and weekly files. We accept transaction-only files if we receive at least one full file submission each quarter. We upload electronic eligibility files received in the proper format automatically to our mainframe system. We don't accept paper enrollment forms.

Once we upload the eligibility information to our mainframe system, we notify your designated eligibility consultant to review an edit of the file online. The eligibility consultant reviews the file within 48 hours and updates the eligibility system if there are no other data quality concerns. Updated information appears in our eligibility and claims system immediately. Eligibility files that are submitted in an incorrect format do not automatically proceed to the edit stage and your eligibility consultant is notified. Your eligibility consultant is responsible for working with you to resolve any errors, data quality or formatting issues that may arise.

5. Will your company (or third-party) provide confirmation notification to the group when files are processed? Please provide details related to this notification process (email, requirement of group login into the company website, etc.)

Your designated eligibility consultant notifies you when we receive and upload eligibility files. Once we load the eligibility files into our system and create reports, the receipt of the reports is your additional confirmation of successful processing.

6. Please provide implementation time (in days) for the initial set-up of automated enrollment (electronic eligibility) of an established group with your company.

As your current benefit program administrator, we would assume that we would continue to use the eligibility process we had in place today. However, should you want to change to a different enrollment method, we would recommend sending test eligibility files at least 90 days prior to the effective date. This allows time for any adjustments to the file and subsequent testing prior to sending a full eligibility file. We recommend having a full eligibility file 30 days before the effective date.

7. Please provide implementation time (in days) for the initial set-up of automated enrollment (electronic eligibility) of a new group with your company.

We recommend sending test eligibility files at least 90 days prior to the effective date. This allows time for any adjustments to the file and subsequent testing prior to sending a full eligibility file. We recommend having a full eligibility file 30 days before the effective date.

8. Please provide the set-up time needed for changes to file structure, plans, funding strategy, and platform changes for an established group within your company. What alternative options does your company provide to receive enrollment should these changes cause a delay in the setup of the EDI process?

For established customers the time it takes to implement plan or program changes varies depending on your choice of products, services and clinical model. We generally recommend a lead time of 120 days prior to the effective date for a smooth transition.

New member coverage is active immediately after a viable Electronic Data Interchange (EDI) file loads into our eligibility system. Common problems during implementation, and the first few months of the plan, may include delays in receiving required implementation documents or files, late enrollments and data errors. We work closely with you throughout the implementation to stay on track with key milestones.

To ensure timely and successful enrollment, our team helps you plan, coordinate and conduct enrollment activities that help your employees understand their new benefits program.

In addition, the assigned eligibility consultant works with you to review eligibility submission options, set dates for the submission of eligibility information and establish a target date for the production and mailing of member ID cards.

9. Please provide the file testing time frame (in days) for initial set-up and structure changes.

For a group new to Aetna, the time it takes to implement a plan varies depending on your choice of products, services and clinical model.

We generally recommend a lead time of 120 days prior to the effective date for a smooth transition.

We develop an implementation schedule that outlines the tasks associated with each portion of the project. It provides a scheduled start and completion date for each task and helps keep team members on track.

10. Please provide the standard time frame required to process files, generate, and mail member ID cards. What options does the group have if ID card delivery is delayed beyond the plan's effective date?

To make ID cards available on or before the plan effective date, we need the clean electronic eligibility file at least 15 business days before the plan effective date.

Timeframe to mail member ID cards

Our goal is to create and distribute 99 percent of ID cards within two business days of receipt of clean eligibility data. In 2024, we printed and mailed 99.96 percent of ID cards within two business days. Our vendor performs a quality review before releasing ID cards.

We mail ID cards first class through the United States Postal Service directly to the member's home. If the member's address isn't present or valid, we mail the ID cards to you for distribution. We produce our ID cards on laminated paper.

Members can request a new printed ID card on our member website or by calling Member Services. Members requesting that we mail a replacement ID card receive it within 7 to 10 business days from when we receive a request.

Mailing delays

We provide a digital image for replacement ID cards to members. Members can view and print the digital ID card on our member website at **Aetna.com** approximately 24 hours after the eligibility information updates.

We provide ID cards at no additional cost to you unless you request suppression of all digital cards. If you request that we print all ID cards, we charge for the printed cards that'd have been digital.

11. If the group utilizes a third-party vendor for data analytics, will you cover the $2,500 set up fee and the $0.65 PEPM for the monthly data analytics interface?

Confirmed.

12. Please confirm your company will provide ongoing file feeds to multiple third-party vendors (i.e., PBM, Stop Loss, and Data Analytics) at no cost to the group?

Confirmed. We offer weekly, biweekly or monthly feeds of medical, dental and CVS Caremark® prescription drug claim data. Please note, additional fees may apply and vary depending on the frequency of the feeds and customization requirements. Files are available within three to five days from the end of the reporting period. A signed confidentiality agreement is required prior to the release of this information.

Questionnaire - Data and Reports

1. Describe the reports you will provide regarding the utilization and claims associated with the employee benefits program(s) you are proposing. Please indicate in your description if any of the reports would be provided at an additional cost over the fees associated with the programs.

We provide a variety of comprehensive reporting packages that allow you to evaluate plan and program performance, monitor cash flows and identify cost and utilization trends. These standard reports are availabel to you at no additional cost. Availability of certain reports is dependent upon your plan of benefits. We have outlined the types of reports available to you, including the frequency.

Utilization

We offer a state-of-the-art data and analytics experience, to encourage data-driven decision making for optimal plan performance and best well-being. Secure access to Analyze-Rethink-Transform (ART), unlocks a powerful, collaborative, browser-based analytic platform to be used by customers, our account teams and customer-approved advisors, brokers and consultants.

ART is designed for intuitive on demand data investigations into cost drivers, utilization, population health and outcomes. Analytic pathways reveal meaningful insights into opportunities for plan improvements and cost savings, using a self-service business intelligence approach. This means users may explore vast amounts of data using an intuitive, point and click environment specifically designed to support analytic investigations.

Many standard, preformatted reports can also be run on demand with choices of filters such as account structure, age band and network. The report package is produced on a rolling 12-month incurred claim basis, and includes statistics related to plan elements such as demographics, trends by cost category, network usage, most frequently utilized services and providers, high-dollar claims and disease incidence. We deliver these reports to you through our secure Internet report delivery system, which is a standard component of our administrative services. The preformatted reports are in Microsoft® Excel and easily downloaded monthly for review, analysis and electronic communication. You can also create your own reports on demand by selecting various time periods, account structure, product combinations and claim basis including incurred or processed. Data is updated monthly.

Annual accounting

For self-funded and fully-insured retrospective plans, at the end of each contract period, we provide a look-back at the year to determine an overall financial balance. The package includes detailed and summary exhibits of service fee payments, claims and reserve charges and administrative expenses. We provide the accounting 120 days after the end of the policy period. The reports are available electronically, usually in Microsoft Word format.

Claims

For self-funded plans, we provide you with a monthly Claim Detail Report claim report, in a Microsoft Excel format, 10 business days following the end of the reporting period. The Claim Detail Report provides a claim line level of financial information that provides a breakdown of claims information for all funding request activity for that particular reporting month. The report is made available through a secure email.

Banking

For self-funded plans, the funds summary report package provides a listing of monthly wire transfers, which allows you to reconcile claims payments with wire transfers. The reports are available to you through our secure email no later than the 25th of the following month for the prior month's activity.

2. What is your proposed frequency of reporting on utilization experience? Is there a charge for analyzing utilization data?

As a part of our standard reporting, we provide you with online, on demand, utilization reporting. Data updates occur 30 days following the end of the reporting period with a 2-month lag time.

Additionally, we can provide you with email ad hoc reporting as needed. When requested, we prepare the reports within three to five business days.

Analytic costs

For our fully insured plans, your account team works with our Plan Sponsor Insights (PSI) consultants to support analytic consultations and ad hoc reporting while making the most of the consultative hours available to you.

For our self-funded plans, customers with 100 or more enrolled subscribers who are looking for support beyond our standard reporting have access to our regionally aligned Plan Sponsor Insights (PSI) consulting group and 10 hours of consultative support. This service includes ad-hoc reporting. We quote highly complex requests on a fee-for-service basis.

3. How often are claim audits conducted, and what percentage of claims are audited? If you use a third party to audit claims, please disclose the name of the auditor.

We conduct our claim audits internally using stratified audits. We don't audit claims using a fixed percentage. In keeping with industry best practices, a sampling of claims is randomly selected from within each stratum. On a quarterly basis, we typically audit over 300 claims per stratified audit.

4. How do you identify fraudulent claims, and how will you notify the City of Pompano Beach?

We subscribe to a zero-tolerance policy on health care fraud. As a founding member of the National Health Care Antifraud Association (NHCAA), we have been an industry leader in the fight against health care fraud.

Alerts built into our claims system identify potential fraud before the claim is paid. When we suspect fraud and abuse, we create a case and assign a Special Investigation Unit (SIU) investigator. Our SIU is comprised of more than 160 employees and is responsible for our health care fraud, waste and abuse (FWA) program. When the investigator has enough evidence to allege that it is indeed fraud and abuse, we place a flag on the provider's file. This triggers an edit that alerts the claim processor to the investigation. Only our SIU team members can place and remove fraud flags in our system.

If we've already made a payment that we later learn to be either incorrect billing or outright fraudulent, our SIU investigators work directly with the providers to recover the money.

The New York State Insurance Frauds Bureau referred to our SIU as "the gold standard for SIUs." The unit recovered approximately $20 million in fraud payments in 2025. But it's much more than that. The specialists in our SIU also work hard to stop fraud and abuse in its tracks before payment is made. In 2025, their efforts helped us catch more than $1.1 billion in incorrect or fraudulent billing before the payment was made. These are actual figures, not forecasted or assumed amounts.

The major components of our program include:

- Prevention – Prepayment claim review and routing to prevent fraud, waste and abuse and other improper payments.
- Detection – Proactive data analysis to identify providers where behavior differs significantly from their peers or other potential fraudulent billing behaviors. Dedicated team members are responsible for data mining and case triage.
- Investigation – Thoroughly exploring all of a provider's billing and practice behaviors, not just a single claim or issue. Credentials of our investigative team include certified coders, accredited health care fraud investigators, certified pharmacy technicians, nurse professionals, and a medical director.

- Recovery – Aggressive pursuit for full recovery of money lost due to fraud, waste and abuse. We address the issue directly with the suspected provider or member, and file civil action, if necessary, when it makes sense to do so. We also educate providers where appropriate.
- Training – Mandatory annual fraud, waste and abuse and compliance training for all employees, business associates and delegates.
- Reporting and Compliance – Compliance with all mandatory state and federal fraud, waste and abuse reporting requirements. If an investigation suggests the intent by a member to defraud, we notify the customer through the account representative for self-funded customers upon completion of the investigation.

The SIU maintains a 24-hour toll-free hotline (**1-800-338-6361**) for fraud reporting and receives more than 2,000 calls per year.

5. Describe the process for identifying and paying claims that may be subject to subrogation.

Our subrogation processes vary based on funding type.

Fully insured

We use the Rawlings Group dba Machinify, an experienced national vendor of third-party recovery services, headquartered in Louisville, KY, as our subrogation vendor.

Subrogation is a standard component of the fully insured contract, and no additional fees apply. Our subrogation program is only administered on a "pay and pursue" basis, since to subrogate, we must first incur a medical expense.

We send paid claims data to the Rawlings Group for investigation. Using predictive analytics, the Rawlings Group mines paid claims data and member eligibility data using a proprietary set of diagnostic codes to identify trauma-related treatments. The Rawlings Group's proprietary analytics, along with using multiple data sources has reduced our need to involve the member in the investigation process. As a last resort, where information isn't available from other data sources, members are sent up to five inquiry communications that include a brief questionnaire asking about their treatment. The Rawlings Group opens a file and pursues all avenues of recovery upon confirmation that a recovery situation exists. Subrogation opportunities may also be brought to our attention when we are asked to respond to a subpoena in a member’s tort lawsuit requesting records of payment.

The Rawlings Group remits funds and reports to us twice a month. We don't provide subrogation recovery reports to fully insured customers. We retain all net recovery dollars for fully insured plans.

Self-funded

For self-funded plans, the Rawlings Group dba Machinify is our subrogation vendor. They're an experienced national vendor of third-party recovery services headquartered in Louisville, KY.

For a self-funded group electing to use Rawlings, the account manager makes arrangements for subrogation and reimbursement services. The account manager is responsible for completing applicable forms and providing them to Rawlings. The finalized Summary Plan Description (SPD) must include subrogation and reimbursement language before pursuing any recoveries.

The following provides an overview of The Rawlings Group's file identification, investigation and recovery processes.

Identification

- Using predictive analytics, Rawlings mines paid claims data and member eligibility data using a proprietary set of diagnostic codes to identify trauma-related treatments.
- Rawlings' proprietary analytics, along with the use of multiple data sources, reduces our need to involve the member in the investigation process.
- As a last resort, where information isn't available from other sources, members receive up to three inquiry letters that include a brief questionnaire asking about their treatment.
- Members have three ways to respond to Rawlings' questionnaire:
  - Call a toll-free number answered by experienced analysts
  - Return their completed questionnaire in a postage-paid reply envelope
  - Visit **TRGClaimsInfo.com** and complete the questionnaire online
- Self-funded customers have an option to enroll in a "Partnership Program" with Rawlings to receive monthly detailed non-cooperation reports to encourage cooperation among employees and dependents.
- Subrogation opportunities may also be brought to our attention when we are asked to respond to a subpoena in a member's tort lawsuit requesting records of payment.

Investigation

- Investigations are assigned to analysts organized by client-specific teams who are supported by team attorneys.
- Analysts define a strategy based on every possible source of recovery and place all parties on notice of your claim.
- Analysts manage files on their proprietary software. Some of the many features include:
  - An automated diary system that allows analysts to record the details of all file activity and share these with other team members collaborating on the file.
  - A tickler system that automatically prompts analysts to plan effective follow-up for each file.
  - Automated special-handling notifications (group restrictions).
  - A library of letters and notices approved by Rawlings' legal team.

Recovery

Subrogation recoveries are remitted from Rawlings to Aetna via a bulk wire and recoveries are credited to an individual customer at the claim level through their wireline account. The customer sees a credit for the gross recovery, a charge for Rawlings' fee and a separate charge for any administrative fee charged by Aetna on their claim detail report. Amounts paid but not recovered through subrogation remain charged to your plan. Subrogation recoveries are remitted and processed twice a month and reports are provided quarterly.

We continue to pay the member's eligible expenses during the investigation. Rawlings generally doesn't involve you in the investigation. If the investigation and recovery efforts warrant, Rawlings pursues a third party through legal action. If the member has already obtained a recovery, Rawlings may, where appropriate, pursue litigation against the member.

6. Will there be online access for claim reports by the City of Pompano Beach and Gehring Group?

Confirmed. As mentioned previously, we grant secure access to Analyze-Rethink-Transform (ART), our powerful online, self-service, analytic platform for customers, trusted account teams and supporting resources, and customer-approved advisors, brokers and consultants. Additionally, depending on the report type, we can provide reports online through secure email. The standard claim-related reports we offer to you is dependent upon your plan of benefits, but can include claim, utilization, accounting and banking reports.

Granting your broker access

At your request, and with the appropriate agreements in place, we can authorize brokers or consultants as designated users of Analyze-Rethink-Transform (ART), our powerful analytic platform. With self-service access for registered users, ART provides key metrics and trends affecting costs, behaviors and plan performance. ART allows users to explore data for new insights in areas like social determinants of health. With an integrated view across medical and pharmacy plan information, users discover powerful insights and understanding of member well-being and plan performance.

For self-funded customers, brokers or consultants may also have access to monthly claim reporting through secure email. We format the file in Microsoft Excel and compress it using WinZip. The file contains recorded claim records for the reporting month. This financial file is an audit trail for the claim activity for the month. At the direction of our customers and with proper privacy agreements in place, we can send our claim reports to whomever they deem appropriate, including brokers.

There's no charge for a consultant or broker to have access to these reports.

6.14. Contract:

Please include your carrier standard contract in Word Document format with the RFP for the City of Pompano Beach's review.

Confirmed.

MASTER SERVICES AGREEMENT
MSA-SAMPLE

This master services agreement ("**Agreement**") between **AETNA LIFE INSURANCE COMPANY**, a Connecticut corporation located at 151 Farmington Avenue, Hartford, Connecticut ("**Aetna**"), and **XXXX**, a XXXX corporation, located at XXXX("**Customer**") is effective as of XXXX ("**Effective Date**").

The Customer has established one or more self-funded employee benefits plans, described in Exhibit 1, (the "**Plan(s)**"), for certain covered persons, as defined in the Plan(s) (the "**Plan Participants**").

The Customer wants to make available to Plan Participants one or more products and administrative services ("**Services**") offered by Aetna, as specified in the attached schedules, and Aetna wants to provide those Services to the Customer for the compensation described herein.

The parties therefore agree as follows:

1. TERM

The initial term of this Agreement will be one year beginning on the Effective Date. This Agreement will automatically renew annually unless otherwise terminated pursuant to section 17 (Termination). The initial term and each successive one year renewal shall be considered an "**Agreement Period**". The schedules may provide for different start and end dates for certain Services.

2. SERVICES

Aetna shall provide the Services described in the attached schedules.

3. STANDARD OF CARE

Aetna and the Customer will discharge their obligations under this Agreement with that level of reasonable care which a similarly situated services provider or plan administrator, respectively, would exercise under similar circumstances. If the Customer delegates claim fiduciary duties to Aetna pursuant to the applicable schedule, Aetna shall observe the standard of care and diligence required of a fiduciary under ERISA Section 404(a)(1)(B). Aetna and the Customer will discharge their obligations under this Agreement with that level of reasonable care which a similarly situated services provider or plan administrator, respectively, would exercise under similar circumstances. If the Customer delegates claim fiduciary duties to Aetna pursuant to the applicable schedule, Aetna shall observe the standard of care and diligence required of a fiduciary under applicable state law.

4. SERVICE FEES

The Customer shall pay Aetna the fees according to the Service and Fee Schedule(s) ("**Service Fees**"). Aetna may change the Services and the Service Fees annually by giving the Customer 30 days' notice before the changes take effect. Changes will take effect on the anniversary of the Effective Date unless otherwise indicated in the applicable Service and Fee Schedule(s).

Aetna shall provide the Customer with a monthly statement indicating the Service Fees owed for that month. The Customer shall pay Aetna the Service Fees no later than 31 calendar days after the first calendar day of the month in which the Services are provided (the "**Payment Due Date**"). The Customer shall provide with their

payment either a copy of the Aetna invoice, modified to reflect current eligibility, or a copy of a pre-approved invoice which meets Aetna's billing requirements. The Customer shall also reimburse Aetna for certain additional expenses, as stated in the Service and Fee Schedule(s).

All overdue amounts are subject to the late charges outlined in the Service and Fee Schedule(s).

Aetna shall prepare and submit to the Customer an annual report showing the Service Fees paid.

5. BENEFIT FUNDING

The Customer shall choose one of the banking facilities offered by Aetna through which Plan benefit payments, Service Fees and Plan benefit related charges will be made. All such amounts will be paid through the banking facility by check, electronic funds transfer or other reasonable transfer methods. The Customer shall reimburse the banking facility for all such payments on the day of the request. All such reimbursements will be made by wire transfer in federal funds using the instructions provided by Aetna, or by another transfer method agreed upon by both parties.

Since funding is provided on a checks issued basis, Customer and Aetna agree that outstanding payments to providers (e.g., uncashed checks or checks not presented for payment) will be handled in the manner indicated and memorialized by the Parties in a separate form letter. The terms and conditions of this Agreement shall apply to that letter.

In the event that Aetna has exercised its right to suspend claim payments or terminate this Agreement as stated in section 17(B) (Termination), Aetna may place a stop payment order on all of the Customer's outstanding benefit checks.

6. FIDUCIARY DUTY

It is understood and agreed that the Customer, as plan administrator, retains complete authority and responsibility for the Plan, its operation, and the benefits provided there under, and that Aetna is empowered to act on behalf of the Customer in connection with the Plan only to the extent expressly stated in this Agreement or as agreed to in writing by Aetna and the Customer.

The Customer has the sole and complete authority to determine eligibility of persons to participate in the Plan.

Claim fiduciary responsibility is identified in the applicable Schedule.

7. CUSTOMER'S RESPONSIBILITIES

(A) Eligibility – The Customer shall supply Aetna, by electronic medium acceptable to Aetna, with all relevant information identifying Plan Participants and shall notify Aetna by the tenth day of the month following any changes in Plan participation. Aetna is not required to honor a notification of termination of a Plan Participant's eligibility which Aetna receives more than 60 days after termination of such Plan Participant. Aetna has no responsibility for determining whether an individual meets the eligibility requirements of the Plan.

(B) Plan Document Review – The Customer shall provide Aetna with all Plan documents at least 30 days prior to the Effective Date. Aetna will review the Plan documents to determine any potential differences that may exist among such Plan documents and Aetna's claim processing systems and internal policies and procedures. Aetna does NOT review the Customer's Summary of Benefits and Coverage ("**SBC**"), Summary Plan Description ("**SPD**") or other Plan documents for compliance with applicable law. The Customer also agrees that it is responsible for satisfying any and all Plan reporting and disclosure requirements imposed by law, including updating the SBC or SPD and other Plan documents and issuing any necessary summaries of material modifications to reflect any changes in benefits.

(C) Notice of Plan or Benefit Change – The Customer shall notify Aetna in writing of any changes in Plan documents or Plan benefits (including changes in eligibility requirements) at least 30 days prior to the effective date of such changes. Aetna will have 30 days following receipt of such notice to inform the Customer whether Aetna will agree to administer the proposed changes. If the proposed changes increase Aetna's costs, alter Aetna's ability to meet any performance standards or otherwise impose substantial operational challenges, Aetna may require an adjustment to the Service Fees or other financial terms.

(D) Employee Notices – The Customer shall furnish each employee covered by the Plan written notice that the Customer has complete financial liability for the payment of Plan benefits. The Customer shall inform its Plan Participants, in a manner that satisfies applicable law, that confidential information relating to their benefit claims may be disclosed to third parties in connection with Plan administration.

(E) Third Party Consents – The Customer shall obtain any consents, authorizations or other permissions from Employees or relevant third parties, which may be required under law or otherwise necessary in order for Aetna to access, use or disclose information and data for the purposes of providing Services under this Agreement.

(F) Miscellaneous – The Customer shall promptly provide Aetna with such information regarding administration of the Plan as required by Aetna to perform its obligations and as Aetna may otherwise reasonably request from time to time. Such information shall include, at no cost to Aetna, all relevant medical records, lab and pharmacy data, claim and other information pertaining to Plan Participants and/or Employees. Aetna is entitled to rely on the information most recently supplied by the Customer in connection with the Services and Aetna's other obligations under the Agreement. Aetna is not responsible for any delay or error caused by the Customer's failure to furnish correct information in a timely manner. Aetna is not responsible for responding to Plan Participant requests for copies of Plan documents. The Customer shall be liable for all Plan benefit payments made by Aetna, including those payments made following the termination date or which are outstanding on the termination date.

8. RECORDS

Aetna, its affiliates and authorized agents shall use all Plan-related documents, records and reports received or created by Aetna in the course of delivering the Services ("**Plan Records**") in compliance with applicable privacy laws and regulations. Aetna may de-identify Plan Records and use them for quality improvement, statistical analyses, product development and other lawful, non-Plan related purposes. Such Plan Records will be kept by Aetna for a minimum of seven years, unless Aetna turns such documentation over to the Customer or a designee of the Customer.

9. CONFIDENTIALITY

(A) Business Confidential Information - Neither party may use "Business Confidential Information" (as defined below) of the other party for its own purpose, nor disclose any Business Confidential Information to any third party. However, a party may disclose Business Confidential Information to that party's representatives who have a need to know such information in relation to the administration of the Plan, but only if such representatives are informed of the confidentiality provisions of this Agreement and agree to abide by them. The Customer shall not disclose Aetna's provider discount or payment information to any third party, including the Customer's representatives, without Aetna's prior written consent and until each recipient has executed a confidentiality agreement reasonably satisfactory to Aetna.

The term "**Business Confidential Information**" as it relates to the Customer means the Customer identifiable business proprietary data, procedures, materials, lists and systems, but does not include Protected Health Information ("PHI") as defined by HIPAA or other claims-related information.

The term "**Business Confidential Information**" as it relates to Aetna means the Aetna identifiable business proprietary data, rates, fees, provider discount or payment information, procedures, materials, lists and systems.

(B) Plan Participant Information - Each party will maintain the confidentiality of Plan Participant-identifiable information, in accordance with applicable law and, as appropriate, the terms of the HIPAA business associate agreement associated with this Agreement. The Customer may identify, in writing, certain Customer employees or third parties, who the Plan has authorized to receive Plan Participant-identifiable information from Aetna in connection with Plan administration. Subject to more restrictive state and federal law, Aetna will disclose Plan Participant-identifiable information to the Customer designated employees or third parties. In the case of a third party, Aetna may require execution by the third party of a non-disclosure agreement reasonably acceptable to Aetna. The Customer agrees that it will only request disclosure of PHI to a third party or to designated employees if: (i) it has amended its Plan documents, in accordance with 45 CFR 164.314(b) and 164.504(f)(2), so as to allow the Customer designated employees or third parties to receive PHI, has certified such to the Plan in accordance with 45 CFR 164.504(f)(2)(ii), and will provide a copy of such certification to Aetna upon request; and (ii) the Plan has determined, through its own policies and procedures and in compliance with HIPAA, that the PHI that it requests from Aetna is the minimum information necessary for the purpose for which it was requested.

(C) Upon Termination - Upon termination of the Agreement, each party, upon the request of the other, will return or destroy all copies of all of the other's Business Confidential Information in its possession or control except to the extent such Business Confidential Information must be retained pursuant to applicable law or cannot be disaggregated from Aetna's databases. Aetna may retain copies of any such Business Confidential Information it deems necessary for the defense of litigation concerning the Services it provided under this Agreement, for use in the processing of runoff claims for Plan benefits, and for regulatory purposes.

10. AUDIT RIGHTS

The Customer may, at its own expense, audit Plan claim transactions upon reasonable notice to Aetna. The Customer may conduct one audit per year and the audit must be completed within two years of the end of the time period being audited. Audits of any performance guarantees, if applicable, must be completed in the year following the period to which the performance guarantee results apply. Audits must be performed at the location where the Customer's claims are processed.

The Customer may select its own representative to conduct an audit, provided that the representative must be qualified by appropriate training and experience for such work and must perform the audit in accordance with published administrative safeguards or procedures and applicable law. In addition, the representative must not be subject to an Auditor Conflict of Interest which would prevent the representative from performing an independent audit. An "Auditor Conflict of Interest" means any situation in which the designated representative (i) is employed by an entity which is a competitor of Aetna, (ii) has terminated from Aetna or any of its affiliates within the past 12 months, or (iii) is affiliated with a vendor subcontracted by Aetna to adjudicate claims. If the audit firm is not licensed or a member of a national professional group, or if the audit firm has a financial interest in audit findings or results, the audit agent must agree to meet Aetna's standards for professionalism by signing Aetna's Agent Code of Conduct prior to performing the audit. Neither the Customer nor its representative may make or retain any record of provider negotiated rates or information concerning treatment of drug or alcohol abuse, mental/nervous, HIV/AIDs or genetic markers.

The Customer shall provide reasonable advance notice of its intent to audit and shall complete an Audit Request Form providing information reasonably requested by Aetna. No audit may commence until the Audit Request Form is completed and executed by the Customer, the auditor and Aetna. Further, the Customer or its representative shall provide Aetna with a complete listing of the claims chosen for audit at least four weeks prior to the on-site portion of the audit.

The Customer's auditors shall provide their draft audit findings to Aetna, prior to issuing the final report. This draft will provide the basis for discussions between Aetna and the auditors to resolve and finalize any open issues. Aetna shall have a right to review the auditor's final audit report, and include a supplementary statement containing information and material that Aetna considers pertinent to the audit.

Additional guidelines related to the scope of the audit are included in the applicable schedules.

11. RECOVERY OF OVERPAYMENTS

Aetna shall reprocess any identified errors in Plan benefit payments (other than errors Aetna reasonably determines to be *de minimis*) and seek to recover any resulting overpayment by attempting to contact the party receiving the overpayment twice by letter, phone, or email. The Customer may direct Aetna not to seek recovery of overpayments from Plan Participants, in which event Aetna will have no further responsibility with respect to those overpayments. The Customer shall reasonably cooperate with Aetna in recovering all overpayments of Plan benefits.

If Aetna elects to use a third party recovery vendor, collection agency, or attorney to pursue the recovery, the overpayment recoveries will be credited to the Customer net of fees charged by Aetna or those entities.

Any requested payment from Aetna relating to an overpayment must be based upon documented findings or direct proof of specific claims, agreed to by both parties, and must be due to Aetna's actions or inactions.

Indirect or inferential methods of proof – such as statistical sampling, extrapolation of error rate to the population, etc. – may not be used to determine overpayments. In addition, use of software or other review processes that analyze a claim in a manner different from the claim determination and payment procedures and standards used by Aetna shall not be used to determine overpayments.

When seeking recovery of overpayments from a provider, Aetna has established the following process: if it is unable to recover the overpayment through other means, Aetna may offset one or more future payments to that provider for services rendered to Plan Participants by an amount equal to the prior overpayment. Aetna may reduce future payments to the provider (including payments made to that provider involving the same or other health and welfare plans that are administered by Aetna) by the amount of the overpayment, and Aetna will credit the recovered amount to the plan that overpaid the provider. By entering into this Agreement, the Customer is agreeing that its right to recover overpayments shall be governed by this process and that it has no right to recover any specific overpayment unless otherwise provided for in this Agreement.

The Customer may not seek recovery of overpayments from network providers, but the Customer may seek recovery of overpayments from other third parties once the Customer has provided Aetna notice that it will seek such recovery and Aetna has been afforded a reasonable opportunity to recover such amounts. Aetna has no duty to initiate litigation to pursue any overpayment recovery.

12. INDEMNIFICATION

(A) Aetna shall indemnify the Customer, its affiliates and their respective directors, officers, and employees (only as employees, not as Plan Participants) for that portion of any loss, liability, damage, expense, settlement, cost or obligation (including reasonable attorneys' fees) ("**Losses**") caused directly by (i) any material breach of this Agreement by Aetna, including a failure to comply with the standard of care in section 3; (ii) Aetna's negligence, willful misconduct, fraud, or breach of fiduciary responsibility; or (iii) Aetna's infringement of any U.S. intellectual property right of a third party, arising out of the Services provided under this Agreement.

(B) The Customer shall indemnify Aetna, its affiliates and their respective directors, officers, and employees for that portion of any Losses caused directly by (i) any material breach of this Agreement by the Customer including a failure to comply with the standard of care in section 3; (ii) the Customer's negligence, willful misconduct, fraud, or breach of fiduciary responsibility; (iii) the release or transfer of Plan Participant-identifiable information to the Customer or its designee, or the use or further disclosure of such information by the Customer or such designee; or (iv) in connection with the design or administration of the Plan by the Customer or any acts or omissions of the Customer as an employer or Plan Sponsor.

(C) The party seeking indemnification under this Agreement must notify the indemnifying party within 20 days in writing of any actual or threatened action, to which it claims such indemnification applies. Failure to so notify the indemnifying party will not be deemed a waiver of the right to seek indemnification, unless the actions of the indemnifying party have been prejudiced by the failure of the other party to provide notice as indicated above.

The indemnifying party may join the party seeking indemnification as a party to such proceeding; however the indemnifying party shall provide and control the defense and settlement with respect to claims to which this section applies.

(D) The Customer and Aetna agree that: (i) health care providers are not the agents or employees of the Customer or Aetna and neither party renders medical services or treatments to Plan Participants; (ii) health care providers are solely responsible for the health care they deliver to Plan Participants, and neither the Customer nor Aetna is responsible for the health care that is delivered by health care providers; and (iii) the indemnification obligations of (A) or (B) above do not apply to any portion of any loss relating to the acts or omissions of health care providers with respect to Plan Participants.

(E) These indemnification obligations above shall not apply to any claims caused by (i) an act, or failure to act, by one party at the direction of the other, or (ii) with respect to intellectual property infringement, the Customer's modification or use of the Services or materials that are not contemplated by this Agreement, unless directed by Aetna, including the combination of such Services or materials with services, materials or processes not provided by Aetna where the combination is the basis for the claim of infringement. For purposes of the exclusions in this paragraph, the term "Customer" includes any person or entity acting on the Customer's behalf or at the Customer's direction. For purposes of (A) and (B) above, the standard of care to be applied in determining whether either party is "negligent" in performing any duties or obligations under this Agreement shall be the standard of care set forth in section 3.

13. DEFENSE OF CLAIM LITIGATION

In the event of a legal, administrative or other action arising out of the administration, processing or determination of a claim for Plan benefits, the party designated in this document as the fiduciary which rendered the decision in the appeal last exercised by the Plan Participant which is being appealed to the court ("appropriate named fiduciary") shall undertake the defense of such action at its expense and settle such action when in its reasonable judgment it appears expedient to do so. If the other party is also named as a party to such action, the appropriate named fiduciary will defend the other party PROVIDED the action relates solely and directly to actions or failure to act by the appropriate named fiduciary and there is no conflict of interest between the parties. The Customer agrees to pay the amount of Plan benefits included in any judgment or settlement in such action. The other party shall not be liable for any other part of such judgment or settlement, including but not limited to legal expenses and punitive damages, except to the extent provided in section 12 (Indemnification).

Notwithstanding anything to the contrary in this section 13, in any multi-claim litigation (including arbitration) disputing reimbursement for benefits for more than one Plan Sponsor, the Customer authorizes Aetna to defend and reasonably settle the Customer's benefit claims in such litigation.

14. REMEDIES

Other than in an action between the parties for third party indemnification, neither party shall be liable to the other for any consequential, incidental or punitive damages whatsoever.

15. BINDING ARBITRATION OF CERTAIN DISPUTES

Any controversy or claim arising out of or relating to this Agreement or the breach, termination, or validity thereof, except for temporary, preliminary, or permanent injunctive relief or any other form of equitable relief, shall be settled by binding arbitration in Hartford, CT, administered by the American Arbitration Association ("AAA") and conducted by a sole arbitrator in accordance with the AAA's Commercial Arbitration Rules ("Rules"). The arbitration shall be governed by the Federal Arbitration Act, 9 U.S.C. §§ 1-16, to the exclusion of state laws inconsistent therewith or that would produce a different result, and judgment on the award rendered by the

arbitrator may be entered by any court having jurisdiction thereof. Except as may be required by law or to the extent necessary in connection with a judicial challenge, or enforcement of an award, neither a party nor the arbitrator may disclose the existence, content, record or results of an arbitration. Fourteen (14) calendar days before the hearing, the parties will exchange and provide to the arbitrator (a) a list of witnesses they intend to call (including any experts) with a short description of the anticipated direct testimony of each witness and an estimate of the length thereof, and (b) pre-marked copies of all exhibits they intend to use at the hearing. Depositions for discovery purposes shall not be permitted. The arbitrator may award only monetary relief and is not empowered to award damages other than compensatory damages.

16. COMPLIANCE WITH LAWS

Aetna shall comply with all applicable federal and state laws including, without limitation, the Patient Protection and Affordable Care Act of 2010 ("**PPACA**"), and the Health Insurance Portability and Accountability Act of 1996 ("**HIPAA**").

17. TERMINATION

This Agreement may be terminated by Aetna or the Customer as follows:

(A) Termination by the Customer – The Customer may terminate this Agreement, or the Services provided under one or more schedules, for any reason, by giving Aetna at least 30 days' prior written notice of when such termination will become effective.

(B) Termination by Aetna and Suspension of Claim Payments-

(1) Aetna may terminate this Agreement, or the Services provided under one or more schedules, for any reason, by giving the Customer at least 30 days' prior written notice of when such termination will become effective.

(2) If the Customer fails to fund claim wire requests from Aetna, or fails to pay Service Fees by the Payment Due Date, Aetna has the right to cease paying claims and suspend Services until the requested funds or Service Fees have been provided. Aetna may terminate the Agreement immediately upon notice to the Customer if the Customer fails to fund claim wire requests or pay the applicable Service Fees in full within five business days of written notice by Aetna.

(C) Legal Prohibition - If any jurisdiction enacts a law or Aetna reasonably interprets an existing law to prohibit the continuance of the Agreement or some portion thereof, the Agreement or that portion shall terminate automatically as to such jurisdiction on the effective date of such law or interpretation; provided, however, if only a portion of the Agreement is impacted, the Agreement shall be construed in all respects as if such invalid or unenforceable provision were omitted.

(D) Responsibilities on Termination –

Upon termination of the Agreement, for any reason other than default of payment by the Customer, Aetna will continue to process runoff claims for Plan benefits that were incurred prior to the termination date, which are received by Aetna within 12 months following the termination date. The Service Fee for such activity is included in the Service Fees described in the Service and Fee Schedule(s). Runoff claims will be processed and paid in accordance with the terms of this Agreement. New requests for benefit payments received after the 12 month runoff period will be returned to the Customer or to a successor administrator at the Customer's expense. Claims which were pended or disputed prior to the start of the runoff period will be handled to their conclusion by Aetna, as well as provider performance or incentive payments paid for prior period performance pay outs, and Customer agrees to fund such claims or payments when requested by Aetna.

The Customer shall continue to fund Plan benefit payments and agrees to instruct its bank to continue to make funds available until all outstanding Plan benefit payments have been paid or until such time as mutually agreed upon by Aetna and the Customer. The Customer's wire line and bank account from which funds are requested must remain open for one year after runoff processing ends, or two years after termination.

Upon termination of the Agreement and provided all Service Fees have been paid, Aetna will release to the Customer, or its successor administrator, all claim data in Aetna's standard format, within a reasonable time period following the termination date. All costs associated with the release of such data shall be paid by the Customer.

18. GENERAL

(A) Relationship of the Parties - The parties to this Agreement are independent contractors. This Agreement is not intended and shall not be interpreted or construed to create an association, agency, joint venture or partnership between the parties or to impose any liability attributable to such a relationship. Each party shall be solely responsible for all wages, taxes, withholding, workers compensation, insurance and any other obligation on behalf of any of its employees, and shall indemnify the other party with respect to any claims by such persons.

(B) Intellectual Property - Aetna represents that it has either the ownership rights or the right to use all of the intellectual property used by Aetna in providing the Services under this Agreement (the "**Aetna IP**"). Aetna has granted the Customer a nonexclusive, non-assignable, royalty free, limited right to use certain of the Aetna IP for the purposes described in this Agreement. Customer agrees not to modify, create derivative product from, copy, duplicate, decompile, disassemble, reverse engineer or otherwise attempt to perceive the source code from which any software component of the Aetna IP is compiled or interpreted. Nothing in this Agreement shall be deemed to grant any additional ownership rights in , or any right to assign, sublicense, sell, resell, lease, rent or otherwise transfer or convey, the Aetna IP to the Customer.

(C) Communications - Aetna and the Customer may rely upon any communication believed by them to be genuine and to have been signed or presented by the proper party or parties. For a notice or other communication under this Agreement to be valid, it must be in writing and delivered (i) by hand, (ii) by e-mail or (iii) by fax to a representative of each party as mutually agreed upon. Notices or communications may also be sent by U.S. mail to the address below.

If to Aetna:	If to the Customer:
XXXX	XXXX
XXXX	XXXX
XXXX	XXXX

XXXX	XXXX
XXXX	XXXX

(D) Force Majeure – With the exception of the Customer's obligation to fund benefit payments and Service Fees, neither party shall be deemed to have breached this Agreement, or be held liable for any failure or delay in the performance of any portion of its obligations under this Agreement, including performance guarantees if applicable, if prevented from doing so by a cause or causes beyond the reasonable control of the party. Such causes include, but are not limited to: acts of God; acts of terrorism; pandemic; fires; wars; floods; storms; earthquakes; riots; labor disputes or shortages; and governmental laws, ordinances, rules, regulations, or the opinions rendered by any court, whether valid or invalid.

(E) Governing Law - The Agreement shall be governed by and interpreted in accordance with applicable federal law. To the extent such federal law does not govern, the Agreement shall be governed by Connecticut law.

(F) Financial Sanctions – If Plan benefits or reimbursements provided under this Agreement violate or will violate any economic or trade sanctions, such Plan benefits or reimbursements are immediately considered invalid. Aetna cannot make payments for claims or Services if it violates a financial sanction regulation. This includes sanctions related to a blocked person or a country under sanction by the United States, unless permitted under a written office of Foreign Assets Control (OFAC) license.

(G) Waiver - No delay or failure of either party in exercising any right under this Agreement shall be deemed to constitute a waiver of that right.

(H) Third Party Beneficiaries - There are no intended third party beneficiaries of this Agreement.

(I) Severability – If any provision of this Agreement or the application of any such provision to any person or circumstance shall be held invalid, illegal or unenforceable in any respect by a court of competent jurisdiction, such invalidity, illegality or unenforceability shall not affect any other provision of this Agreement and all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect.

(J) Entire Agreement; Order of Priority - This Agreement, and the accompanying HIPAA business associate agreement, constitutes the entire understanding between the parties with respect to the subject matter of this Agreement, and supersedes all other agreements, whether oral or written, between the Parties.

(K) Amendment – Except as provided for in the Customer's renewal package, no modification or amendment of this Agreement will be effective unless it is in writing and signed by both Parties, except that a change to a party's address of record as set forth in section 18(C) (Communications) may be made without being countersigned by the other party.

(L) Taxes – The Customer shall be responsible for any sales, use, or other similarly assessed and administered tax (and related penalties) incurred by Aetna by reason of Plan benefit payments made or Services performed hereunder, and any interest thereon. Additionally, if Aetna makes a payment to a third party vendor at the request of the Customer, Aetna will assume the tax reporting obligation, such as Form 1099-MISC or other applicable forms.

(M) Assignment - This Agreement may not be assigned by either party without the written approval of the other party. The duties and obligations of the parties will be binding upon, and inure to the benefit of, successors, assigns, or merged or consolidated entities of the parties.

(N) Survival - Sections 5, 8 through 13 and 17(D) shall survive termination of the Agreement.

The parties are signing this agreement as of the date stated in the introductory clause.

GENERAL ADMINISTRATION SCHEDULE
MASTER SERVICES AGREEMENT MSA- SAMPLE
EFFECTIVE XXXX

This General Administration Schedule describes certain of the Services to be performed by Aetna for the Customer pursuant to the Agreement. The Services described in this schedule apply generally to any medical, dental, pharmacy and behavioral health Plans that are subject to the Agreement. Terms used but not otherwise defined in this schedule shall have the meaning assigned to them in the Agreement.

1. CLAIM SERVICES:

(A) Aetna shall process claims for Plan benefits incurred on or after the Effective Date using Aetna's normal claim determination, payment and audit procedures and applicable cost control standards in a manner consistent with the terms of the Plan(s), any applicable provider contract, and the Agreement. Aetna shall issue a payment of benefits and related charges on behalf of the Customer in accordance with section 5 of the Agreement, for such benefits and related charges that are determined to be payable under the Plan(s). With respect to any claims that are denied on behalf of the Customer, Aetna shall notify the Plan Participant of the denial and of the Plan Participant's right of review of the denial in accordance with applicable law.

(B) Where the Plan contains a coordination of benefits clause or antiduplication clause, Aetna shall administer all claims consistent with such provisions and any information concurrently in its possession regarding duplicate or primary coverage. Aetna shall have no obligation to recover sums owed to the Plan by virtue of the Plan's rights to coordinate where the claim was incurred prior to the Effective Date. Aetna has no obligation to bring actions based on subrogation or lien rights, unless the Customer has elected Aetna's subrogation services as indicated in the Service and Fee Schedule.

(C) In circumstances where Aetna may have a contractual, claim or payment dispute with a provider, the settlement of that dispute with the provider may include a one-time payment in settlement to the provider or to Aetna, or may otherwise impact future payments to providers. Aetna, in its discretion, may apportion the settlement to self-funded customers, either as an additional service fee from, or as a credit to, the Customer, as may be the case, based upon specific applicable claims, proportional membership or some other allocation methodology, after taking into account Aetna's cost of recovery. The Customer shall remain liable after termination of the Agreement, for their portion of any settlement payments arising from claims paid while an active customer.

(D) If the Customer wishes to participate in Aetna's enhanced customer servicing framework, the program will be indicated as included in the Service and Fee Schedule. This initiative empowers Aetna's customer service representatives to resolve complex Plan Participant inquiries in a limited number of instances, in accordance with documented guidelines that fall within the context of Aetna's standard claims administration payment and audit procedures. The program allows an authorization of a one-time payment of a previously processed claim. The limits and requirements associated with the program are available to the Customer upon request.

2. MEMBER SERVICES:

Aetna shall establish and maintain one or more service centers, responsible for handling calls and other correspondence from Plan Participants with respect to questions relating to the Plan and Services under the Agreement.

3. PLAN SPONSOR SERVICES:

(A) Aetna shall assign an experienced Account Management Team to the Customer's account. This team will be available to assist the Customer in connection with the Services provided under the Agreement.

(B) Aetna shall design and install a benefit-account structure separately by class of employees, division, subsidiary, associated company, or other classification reasonably requested by the Customer.

(C) Aetna shall assist the Customer in connection with the design of the Customer's Plan, including actuarial and underwriting support reasonably requested by the Customer, provided that the Customer shall have ultimate responsibility for the content of the Plan and compliance with law in connection therewith.

(D) Aetna shall make employee identification cards available to Plan Participants. Upon request, Aetna will arrange for the custom printing of identification cards, with all costs borne by the Customer.

(E) Upon request of the Customer, Aetna shall provide the Customer with information reasonably available to Aetna relating to the administration of the Plans which is necessary for the Customer to prepare reports that are required to be filed with the United States Internal Revenue Service and Department of Labor.

(F) Aetna shall provide the following reports to the Customer for no additional charge:

(1) Monthly/Quarterly/Annual Reports - Aetna shall prepare the following reports in accordance with the benefit-account structure for use by the Customer in the financial management and administrative control of the Plan benefits:

(a) a monthly listing of funds requested and received for payment of Plan benefits;

(b) a monthly reconciliation of funds requested to claims paid within the benefit-account structure;

(c) a monthly listing of paid benefits;

(d) online access to monthly, quarterly and annual standard claim analysis reports; and

(e) if applicable, monthly, quarterly, or annual HealthFund product reports for customers with at least 100 enrolled lives in each HealthFund to be used for the financial evaluation and management of each HealthFund plan.

(2) Annual Accounting Reports - Aetna shall prepare standard annual accounting reports detailing product specific financial and plan information including enrollment fees and/or rates for each Agreement Period.

(3) Annual Renewal Reports – Aetna shall prepare standard annual renewal reports detailing product specific financial and plan information, including enrollment fees and/or rates for each Agreement Period.

Any additional reporting formats and the price for any such reports shall be mutually agreed upon by the Customer and Aetna.

(G) Upon request of the Customer, for no additional charge, Aetna shall provide either of the following services in support of the preparation of Plan descriptions:

(1) Prepare an Aetna standard Plan description, including descriptions of benefit revisions; or

(2) Review the Customer-prepared employee Plan descriptions, subject to the Customer's final and sole authority regarding benefits and provisions in the self-insured portion of the Plan.

Upon request of the Customer, Aetna shall prepare a non-standard Plan description, provided the Customer must agree in advance to reimburse Aetna for the costs of that work. If the Customer requires both preparation (1) and review (2), Aetna may require an additional charge.

(H) Upon request of the Customer, Aetna will arrange for the printing of Plan descriptions, with all costs borne by the Customer.

(I) Upon request of the Customer, if applicable, Aetna will provide assistance in connection with the preparation of the Customer's draft Summaries of Benefits and Coverage (SBCs). Aetna may charge an additional fee for such request.

(J) The Customer acknowledges that it has the responsibility to review and approve all Plan documents and SBCs, if applicable, and shall have the final and sole authority regarding the benefits and provisions of the Plan(s), as outlined in the Customer's Plan document. Aetna shall have no responsibility or liability for the content of any of the Customer's Plan documents, or SBC's, if applicable, regardless of the role Aetna may have played in the preparation of such documents.

4. NETWORK ACCESS SERVICES

(A) Aetna shall provide Plan Participants with access to Aetna's network hospitals, physicians and other health care providers ("**Network Providers**") who have agreed to provide services at agreed upon rates and who are participating in the applicable Aetna network covering the Plan Participants.

(B) Aetna has value-based contracting ("VBC") arrangements with Network Providers. These arrangements reward providers based on indicators of value, such as, effective population health management, efficiency and quality care. Contracted rates with Network Providers may be based on fee-for-service rates, case rates, per diems, performance-based contract arrangements, risk-adjustment mechanisms, quality incentives, pay-for-performance and other incentive and adjustment mechanisms. These mechanisms may include payments to physicians, physician groups, health systems and other provider organizations, including but not limited to organizations that may refer to themselves as accountable care organizations and patient-centered medical homes, in the form of periodic payments and incentive arrangements based on performance. Aetna will process any incentive payments attributable to the Plan in accordance with the terms of each VBC arrangement. Each Customer's results will vary. It is possible that incentives paid to a particular provider or health system may be required even if the Customer's own population did not experience the same financial or qualitative improvements. It is also possible that incentives will not be paid to a provider even if the Customer's own population did experience financial and quality improvements. Upon request, Aetna will provide additional information regarding our VBC arrangements.

(C) Retroactive adjustments are occasionally made to Aetna's contract rates. Retroactive adjustments may occur, for example, when the federal government does not issue cost of living data in sufficient time for an adjustment to be made on a timely basis, or because contract negotiations were not completed by the end of the prior price period or due to contract dispute settlements. In all cases, Aetna shall adjust the Customer's payments accordingly. The Customer's liability for all such adjustments shall survive the termination of the Agreement.

(D) Aetna may contract with vendors who in turn are responsible for contracting with the providers who perform the health care services, and potentially for certain other services related to those providers such as claims processing, credentialing, and utilization management. Under some of these arrangements, the

vendor bills Aetna directly for those services by its network of providers at the vendor's contracted rate with Aetna, and Aetna pays the vendor for those services. In certain cases, the amount billed by the vendor to Aetna, paid pursuant to the plan, includes an administrative fee for delegated services by the vendor. As a result, the amount the vendor pays to the health care provider through the vendor's contract with the provider may be different than the amount paid pursuant to the Plan because the allowed amount under the Plan will be Aetna's contracted rate with the vendor, and not the contracted amount between the vendor and the health care provider.

(E) Aetna reserves the right to set a minimum plan benefit design structure for in-area network claims to which the Customer must comply in order to access a particular Aetna network.

(F) Aetna shall maintain an online directory containing information regarding Network Providers. Upon request and for an additional charge, Aetna shall provide the Customer with paper copies of physician directories.

(G) Aetna makes no guarantee and disclaims any obligation to make any specific health care providers or any particular number of health care providers available for use by Plan Participants or that any level of discounts or savings will be afforded to or realized by the Customer, the Plan or Plan Participants.

(H) Customer agrees to comply with all of the applicable terms of Aetna's network provider contracts.

5. NON-DIRECT NETWORKS

If Aetna is requested by the Customer, or otherwise arranges for network services to be provided for Plan Participants in a geographic area where Aetna does not have a directly contracted network of providers (or additional access is requested or advisable), Aetna may contract with another network and or additional providers ("**non-Aetna network**") to provide the network services. With respect to the services provided by providers in the non-Aetna network ("**non-Aetna network providers**"), the Customer acknowledges and agrees that, any other provisions of the agreement notwithstanding:

(A) Aetna may not credential, monitor or oversee the providers or the administrative procedures or practices of any non-Aetna network;

(B) No particular discounts may, in fact, be provided or made available by any particular providers;

(C) Performance guarantees appearing in the agreement may not apply to Services delivered by non-Aetna providers or networks; and

(D) Non-Aetna network providers are not employees or agents of Aetna and may not be contractors or subcontractors of Aetna.

The Customer further agrees that, if Aetna subsequently establishes or expands its own contracted provider network in a geographic area where services are being provided by a non-Aetna network, Aetna may terminate the non-Aetna network contract, and begin providing services through a network that is subject to the terms and provisions of the agreement. The Customer acknowledges that such conversion may cause disruption, including the possibility that a particular provider in a non-Aetna network may not be included in the replacement network.

MEDICAL
SERVICE AND FEE SCHEDULE
MSA - SAMPLE

The Service Fees and Services effective for the period beginning XXXX and ending XXXX are specified below. They shall be amended for future periods, in accordance with section 4 of the Agreement. Any reference to "Member" shall mean a Plan Participant as defined in the Agreement.

For purposes of this document, Aetna may be referred to using 'we', 'our' or 'us' and Customer may be referred to using 'you' or 'your'.

XXXX Medical Fee Schedule from the Proposal would be added here–

The following standard programs/services are also included:

Care Management Services	
▪ Utilization Management Inpatient and Outpatient Precertification	Included
▪ Utilization Management Concurrent Review	Included
▪ Utilization Management Discharge Planning	Included
▪ Utilization Management Retrospective Review	Included
▪ Case Management Program	Included
▪ Infertility Case Management	Included
▪ Aetna's Compassionate Care℠ Program	Included
▪ ACCP Enhanced Hospice Benefits Package	Included
▪ National Medical Excellence/ Institutes of Excellence	Included
▪ Informed Health Line Nurseline 1-800# Only	Included
▪ Simple Steps To A Healthier Life® ▪ RedBrick Compass™	Included Included
Behavioral Health Services	
▪ Managed Behavioral Health	Included
▪ Behavioral Health Condition Management	Included
Technology/Web Tools	
▪ Online Provider Directory	Included
▪ Secure Member Portal	Included
▪ Health Decision Support (Basic)	Included

Aetna Subrogation Program	**Not Included**XX% of recovered amount will be retained

National Advantage Program (NAP) National Advantage - Facility Charge Review (NAP-FCR) National Advantage– Itemized Bill Review(IBR)	 Included Included	National Advantage Access Fee: XXXX% of Aggregate Savings – Fee will be included in Plan Benefit Funding Request from Bank

Teladoc®	$3.00 Consultation Fee billed via the claim wire for each Teladoc session

Claim Wire Billing Fees

Claim wire billing fees refers to the portion of the total administrative expenses that are charged through the claim wire as the services are rendered, and are subject to any future fee increases. Expenses that are charged through the claim wire include those described in the Service and Fee Schedule as well as those fees that the parties may subsequently agree to add to the claim wire from time to time. Programs/services that are charged through the claim wire are excluded from the monthly PEPM Administrative Fees as illustrated above and will not appear on the monthly billing statement for PEPM Administrative Fees, but will appear in other monthly reports provided to the Customer.

XXXX –Caveats from Proposal would appear here.

Value-Based Contracting

A. Introduction to Value-Based Contracting

We have a variety of different value-based contracting (VBC) arrangements with many of our Network Providers. These arrangements compensate providers to improve indicators of value such as, effective population health management, efficiency and quality care.

B. Value-Based Contracting Models

We have VBC arrangements ranging from bundled payments and pay-for-performance approaches to more advanced forms of collaborative arrangements that include integrated technology and case management, aligned incentives and risk sharing. Our VBC models include:

Pay for Performance (P4P). Under P4P programs, we work together with providers (doctors and hospitals) to develop and agree to a set of quality and efficiency measures and their performance impacts their total compensation.

Bundled Payments. In a Bundled Payment model, a single payment is made to doctors or health care facilities (or jointly to both) for all services associated with an episode-of-care. Bundled payment rates are determined based on the total expected costs for a particular treatment, including pre- and post-treatment services, and are set to incentivize efficient medical treatment.

Patient Centered Medical Home (PCMH). In a PCMH, a primary care doctor leads a clinical team that oversees the care of each patient in a practice. The medical practice receives data about their patients' quality and costs of care in order to improve care delivery. Financial incentives can be earned based upon performance on specific quality and efficiency measures.

Accountable Care Organizations (ACOs). In an ACO, we team up with systems of doctors, hospitals and other health care providers to help these organizations manage risk, improve clinical care management, and implement data and technology to connect providers, health plans and patients. The ACO arrangements include financial incentives for the organization to improve the quality of patient care and health outcomes, while controlling costs.

We will continue to evolve our value-based contracting arrangements over time. We employ a broad spectrum of different reimbursement arrangements with providers to advance the goals of improving the quality of patient care and health outcomes, while controlling costs.

C. Value-Based Contracting Example Calculations

A customers' financial responsibility under many VBC arrangement is determined based on provider performance, using an allocation method appropriate for each particular performance program. These methods include: percentage of allowed claims dollars and percentage of paid capitation dollars; number of members; percentage of member months.

Examples

1. Pay for Performance. Percentage of allowed claims dollars and percentage of paid capitation dollars: Achieving agreed upon clinical and efficiency performance goals by comparing performance year end to performance year baseline or an industry standard.
    a. Provider earns $100,000 performance-based compensation for the 12-month period January to December;
    b. All plan sponsors, combined incurred $8,500,000 in claims with the provider for the 12-month period January to December;
    c. Plan sponsor incurred $150,000 in claims with the provider for the 12-month period January to December;
    d. Plan sponsor's share of claims costs is ($150,000/$8,500,000) = 1.7647 %. Formula: (Plan sponsor incurred claims/All plan sponsors incurred claims);
    e. Plan sponsor's share of the $100,000 performance-based compensation is 1.7647 % * $100,000) = $1,764.70, which would be processed as a claim through ordinary self-funded banking channels.

2. Patient Centered Medical Home and Accountable Care Organization. Percentage of member months: Achieving agreed upon clinical and efficiency goals as measured by performance year end to performance year baseline or an industry standard.
    a. Provider earns $100,000 performance-based compensation for the 12-month period January to December;
    b. All plan sponsors, combined had 100,500 member months with the provider for the 12-month period January to December;
    c. Plan sponsor had 9,500 member months(for 850 unique members) attributed to the provider for the 12-month period January to December;
    d. Plan sponsor's share of the member months is (9,500/100,500) = 9.4527 %. Formula: (Plan sponsor member months/All plan sponsors months);
    e. Plan sponsor's share of the $100,000 performance-based compensation is (9.4527 % * $100,000) = $9,452.73, which would be processed as a claim through ordinary self-funded banking channels.

3. Patient Centered Medical Home and Accountable Care Organization. Number of Members: In addition to Example 2 above, a quarterly Accountable Care Payment (ACP) may be made to the provider to fund activities necessary to meet the financial and clinical objectives. These are paid quarterly either during, or after the end of each quarter. The financial impact is considered in the total financial package negotiated with the provider.

a. We determine the attributed patients for the provider for the quarter April through June;
b. Plan sponsor had 850 members attributed to the provider for the quarter April through June;
c. ACP and FFS payments are incorporated into the final analysis of provider performance against the medical claims target;
d. We apply the agreed upon rate to the attributed patients; i.e. $2.00 per-member, per-month (PMPM) = $6.00 per quarter per member, to determine funding to the provider;
e. Plan sponsor's calculated share is $5,100 ($6.00 * 850), which would be processed as a claim through ordinary self-funded banking channels.

D. General

We will process any payments in accordance with the terms of each VBC arrangement. In each of the VBC models, self-funded plan sponsors reimburse us for any payment attributable to their plan when the payments are made. Each customer's results will vary. It is possible that payments paid to a particular provider or health system may be required even if the plan sponsor's own population did not experience the same financial or qualitative improvements. It is also possible that payments will not be paid to a provider even if the customer's own population did experience financial and quality improvements. A report of VBC charges to a plan sponsor will be available on a quarterly basis.

Upon request, we will provide additional information regarding our VBC arrangements.

Late Payment Charges

We will assess a late payment charge if you do not provide funds on a timely basis to cover benefit payments and/or fail to pay service fees on a timely basis as outlined in the Agreement.

The current charges are outlined below:

1. Late funds to cover benefit payments (e.g., late wire transfers): 12 percent annual rate
2. Late payments of Service Fees: 12 percent annual rate

We reserve the right to collect any incurred late payment charges through the claim wire on a monthly basis provided there is no other special payment arrangements in-force to fund any incurred late payment charges. You will be notified by us in writing to obtain approval prior to billing any late payment charges through the claim wire.

In addition, we'll charge to recover costs of collection including reasonable attorney's fees.

We will notify you of any changes in late payment interest rates.

The late payment charges described in this section are without limitation to any other rights or remedies available to us under the Agreement or at law or in equity for failure to pay.

PHARMACY SERVICE AND FEE SCHEDULE

MSA - SAMPLE

The Service Fees and Services effective for the period beginning XXXX and ending XXXX are specified below. They shall be amended for future periods, in accordance with section 4 of the Agreement. Any reference to "Member" shall mean a Plan Participant as defined in the Agreement.

XXXX

MEDICAL SERVICES SCHEDULE
MASTER SERVICES AGREEMENT MSA- SAMPLE
EFFECTIVE SAMPLE

Subject to the terms and conditions of the Agreement, the medical Services available from Aetna are described below. Unless otherwise agreed in writing, only the Services selected by the Customer in the Service and Fee Schedule (as modified by Aetna from time to time pursuant to section 4, Service Fees, of the Agreement) will be provided by Aetna. Additional Services may be provided at the Customer's written request under the terms of the Agreement. This Schedule shall supersede any previous document(s) describing the Services.

Some programs are available to Plan Participants and other eligible employees as determined by Customer not otherwise covered under products provided under this Agreement ("**Employee**").

I. CLAIM FIDUCIARY

The Customer and Aetna agree that with respect to Section 503 of the Employee Retirement Income Security Act of 1974, as amended, Aetna will be the "appropriate named fiduciary" of the Plan for the purpose of reviewing denied claims under the Plan. The Customer understands that the performance of fiduciary duties under ERISA necessarily involves the exercise of discretion on Aetna's part in the determination and evaluation of facts and evidence presented in support of any claim or appeal. Therefore, and to the extent not already implied as a matter of law, the Customer hereby delegates to Aetna discretionary authority to determine entitlement to benefits under the applicable Plan documents for each claim received, including discretionary authority to determine and evaluate facts and evidence, and discretionary authority to construe the terms of the Plan. It is also agreed that, as between the Customer and Aetna, Aetna's decision on any claim is final and that Aetna has no other fiduciary responsibility.

II. EXTERNAL REVIEW

The external review process will be conducted by an independent clinical reviewer with appropriate expertise in the area in question. External Review shall be available for certain "Adverse Benefit Determinations" as defined in 29 CFR 2560.503-1 as amended by 26 CFR 54.9815-2719. It shall also be available for eligible "Final Internal Adverse Benefit Determinations", which is an eligible Adverse Determination that has been upheld by the appropriate named fiduciary (Aetna) at the completion of the internal review process or an Adverse Benefit Determination for which the appeal process has been exhausted. The External Review process shall meet the standards of the Federal Affordable Care Act and utilize a minimum of three accredited Independent Review Organizations. Independent reviewers conduct a de novo review of the information provided to them as part of the External Review process. Both Aetna and Customer acknowledge that neither Plan Participants nor providers will be penalized for exercising their right to an External Review.

The Customer delegates the sole discretionary authority to make the determination regarding the eligibility for external review, under the Plan, to Aetna. If an appeal is denied through the final level of internal appeal, Aetna will determine if it is eligible for ERO. Then Aetna will inform the Plan Participant of the right to appeal through ERO. If the appeal is upheld, Aetna will inform the Plan Participant the reason for the denial. If the appeal is not eligible for ERO, Aetna will inform the Plan Participant of the reasons for the ineligibility.

The Customer acknowledges that the Independent Review Organizations that make the external review decisions are independent contractors and not agents or employees of Aetna, and that Aetna is not responsible for the decision of the Independent Review Organization.

To assist in conducting such external reviews, the Customer agrees to provide Aetna with the current Plan documents, and any revised, amended, or updated versions no later than the date of any revisions, amendments, or updates.

III. ADDITIONAL AUDIT GUIDELINES

Aetna is not responsible for paying customers' audit fees or the costs associated with an audit. Aetna will bear its own expenses associated with an audit; provided (i) the on-site portion of the audit is completed within five days, and (ii) the sample size is no more than 250 claims. Aetna will notify the Customer prior to the audit, if an audit request would require an additional payment from the Customer for any audits in excess of the aforementioned thresholds.

IV. CARE MANAGEMENT SERVICES

1. Utilization Management:

a. Inpatient and Outpatient Precertification:

A process for collecting information prior to an inpatient confinement (Inpatient Precertification) or selected ambulatory procedures, surgeries, diagnostic tests, home health care and durable medical equipment (Outpatient Precertification). The precertification process permits eligibility verification/confirmation, initial determination of coverage, and communication with the physician and/or Plan Participant in advance of the provision of the procedure, service or supply at issue. Outpatient precertification is not applicable to Indemnity or PPO Products.

b. Concurrent Review:

Concurrent review encompasses those aspects of patient management that take place during the provision of services at an inpatient level of care or during an ongoing outpatient course of treatment. The concurrent review process includes obtaining information regarding the care being delivered; assessing the clinical condition, providing benefit determination, identifying continuing care needs to facilitate appropriate discharge plans, and identifying Plan Participants for other specialty programs such as Case Management or Disease Management.

c. Discharge Planning:

This is an interdisciplinary process that assists Plan Participants as their medical condition changes and they transition from the inpatient setting. Discharge planning may be initiated at any stage of the patient management process. Assessment of potential discharge planning needs begins at the time of notification, and coordination of discharge plans commences upon identification of post discharge needs during precertification or concurrent review. This program may include evaluation of alternate care settings and identification of care needed after discharge. The goal is to provide continuing quality of care and to avoid delay in discharge due to lack of outpatient support.

d. Retrospective Review:

Retrospective review is the process of reviewing coverage requests for initial certification after the service has been provided or when the Plan Participant is no longer in-patient or receiving the service. Retrospective review includes making coverage determinations for the appropriate level of service consistent with the Plan Participant's needs at the time the service was provided after confirming eligibility and the availability of benefits within the Plan Participant's benefit plan.

Not all services are subject to utilization management. Aetna maintains the discretion as to the particular level and intensity of these utilization management programs. The services subject to utilization review may vary from time to time.

2. Case Management Programs:

The Aetna Case Management program is a collaborative process of assessment, planning, facilitation and advocacy for options and services to meet an individual's health needs in accordance with the Plan through communication and available resources to promote quality, cost-effective outcomes.

Those Plan Participants with diagnoses and clinical situations for which a specialized nurse, working with the Plan Participant and their physician, can make a material impact to the course or outcome of care and/or reduce medical costs will be accepted into the program at Aetna's discretion. Case management staff strives to enhance the Plan Participant's quality of life, support continuity of care, facilitate provision of services in the appropriate setting and manage cost and resource allocation to promote quality, cost-effective outcomes in accordance with the Plan. Case Managers collaborate with the Plan Participant, family, caregiver, physician and healthcare provider community to coordinate care, with a focus on closing gaps in the Plan Participant's care.

Aetna targets two types of case management opportunities:

- Complex Case Management targets Plan Participants who have already experienced a health event and are likely to have care and benefit coordination needs after the event. The objective for Case Managers is to identify care or benefit coordination needs which lead to faster or more favorable clinical outcomes and/or reduced medical costs.
- Proactive Case Management targets Plan Participants, from Aetna's perspective, who are misusing, over-using or under-utilizing the health care system, leading them towards avoidable and costly health events. This program's objective is to confirm gaps in Plan Participants' care leading to their over-use, misuse, or under-use, and to work with the Plan Participant and their physician to close those gaps.

Case management programs can vary based on the level of advocacy and overall intensity of the programs. The variation is determined by the changing the thresholds by which Plan Participants are identified for outreach. The various case management program options include:

- **Aetna Flexible Medical Model℠** - This program provides the Customer with the option to purchase more clinical resources devoted specifically to their Plan Participants. The Flex Model provides a Single Point of Contact Nurse (SPOC Nurse) and designated team to handle all case management activities for three levels of Flex Model Options, as elected. This team will engage in outbound Plan Participant outreach calls to provide case management support based on specific criteria. Each Flexible Medical Management option provides an increase in member engagement and outreach.

- **Dedicated Units, Designated Units and Care Advocate Teams -** These services were created to help coordinate care, support and resources for Plan Participants under one Care Unit.
  - Aetna's Dedicated Unit provides centralized care management services for pre-certification, utilization management and Case Management.
  - Aetna's Designated Unit is a unit team that provides centralized care management services for pre-certification, utilization management, and Case Management for a specific set of Customers, and
  - Aetna's Care Advocate Team has customized workflows based on the Customer's needs, vendor integration, specialized outreach, and program integration. The Care Advocate Team will:
    - Help the Plan Participant understand their doctor's diagnosis and treatment plan
    - Coordinate care across all Aetna programs to help the Plan Participant to optimize use of Aetna programs,
    - Help the Plan Participant decide what questions to ask the doctor or health care provider,

- Introduce the Plan Participant to a disability specialist if they need to file a disability claim, and
- Support the Plan Participant throughout their treatment and recovery by making follow-up calls and helping them get the support they need.

These services are the basis for National Accounts Targeted Care Solutions and Custom Case Management Solutions

3. **Specialty Case Management Programs:**
   - **Aetna Compassionate Care℠ Program ("ACCP")** - The Aetna Compassionate Care program provides additional support to terminally ill Plan Participants and their families. It removes barriers to hospice and provides more choices for end-of-life care so that the Plan Participant is able to spend time with family and friends outside a hospital setting.

     ACCP Enhanced Hospice Benefits Package - The enhanced hospice benefits package includes the following:
     - The option for a Plan Participant to continue to seek curative care while in hospice
     - The ability to enroll in a hospice program with a 12-month terminal prognosis
     - The elimination of the current hospice day and dollar maximum plan limits
     - Respite and bereavement services are included as part of the enhanced hospice benefits. The hospice services provided through a hospice regularly include these services and are coordinated by the hospice agency providing care and the Aetna nurse case manager who precertifies care for the Plan Participant. In addition, bereavement services are available through the Aetna Employee Assistance Program ("**EAP**") for Customers without an EAP vendor.

     Bereavement counseling shall be available to Plan Participants upon loss of a loved one, and to family and caregivers of a Plan Participant enrolled in ACCP following the death of such Plan Participant.

   - **Infertility Case Management:** - Aetna operates two types of infertility programs:
     - Basic Infertility Program coordinates covered diagnostic services and treatment of the underlying medical causes of infertility, helps Plan Participants understand complex infertility treatments and helps control treatment costs through care coordination and patient education.
     - Infertility Case Management Program provides education and information resources for Plan Participants who are experiencing infertility. Depending on the plan selected, the program may guide eligible Plan Participants to a select network of infertility providers for covered or non-covered services. If the services are covered, Aetna's Infertility Case Management Unit issues any appropriate authorizations required under the Plan.

4. **National Medical Excellence Program®/Institutes of Excellence™ /Institutes of Quality®:**
   The National Medical Excellence Program was created to help arrange for access to effective care for Plan Participants with particularly difficult conditions requiring transplants or complex cardiac, neurosurgical or other procedures, when the needed care is not available in a Plan Participant's service area. The program utilizes a national network of experienced providers and facilities selected based on their volume of cases and clinical outcomes. The National Medical Excellence Program Unit provides specialized case management through the use of nurse case managers, each with procedure and/or disease-specific training. There are two networks:

   - **The Aetna Institutes of Excellence (IOE)** transplant network was established to enhance quality standards and lower the cost of transplant care for Plan Participants. It is made up of a select group of hospitals and transplant centers that meet quality standards for the number of transplants performed and their outcomes, as well as access criteria for Plan Participants.

- **The Aetna Institutes of Quality (IOQ)** are a national network of health care facilities that are designated based on measures of clinical performance, access and efficiency for orthopedic, cardiac, and bariatric surgery. Bariatric surgery, also known as weight loss surgery, refers to various surgical procedures to treat people living with morbid or extreme obesity.

5. Aetna Health Connections℠ Disease Management:

Aetna Health Connections Disease Management is an enhancement to Aetna's medical/disease management spectrum, designed to engage the Plan Participant at the appropriate level of care, and assist the Plan Participant to close gaps in care in order to avoid complications, improve clinical outcomes and demonstrate medical cost savings.

While traditional disease management is focused on delivering education to Plan Participants about a specific chronic condition, Aetna Health Connections focuses on the entire person with specific interventions driven by the CareEngine® System, a patented, analytical technology platform that continuously compares individual patient information against widely accepted evidence-based best medical practices in order to identify gaps in care, medical errors and quality issues.

6. MedQuery®:

The MedQuery program is a data-mining initiative, aimed at turning Aetna's data into information that physicians can use to improve clinical quality and patient safety. Through the program, Aetna's data is analyzed and the resulting information gives physicians access to a broader view of the Plan Participant's clinical profile. The data which fuels this program includes claim history, current medical claims, pharmacy, physician encounter reports, and patient demographics. Data is mined on a weekly basis and compared with evidence-based treatment recommendations to find possible errors, gaps, omissions (meaning, for example, that a certain accepted treatment regimens may be absent) or co-missions in care (meaning, for example, drug-to-drug or drug-to disease interactions). When MedQuery identifies a Plan Participant whose data indicates that there may be an opportunity to improve care, outreach is made to the treating physician based on the apparent urgency of the situation. For customers who have elected to purchase MedQuery with member messaging feature, in certain situations outreach will be made directly to the Plan Participant by MedQuery, requesting that the Plan Participant discuss with their physician, specific opportunities to improve their care.

When available information reveals lack of compliance with a clinical risk, condition, or demographic-related recommendation for preventive care, a Preventive Care Consideration ("**PCC**") is generated. The PCC is a preventive/wellness alert sent to the Plan Participant electronically via the Plan Participant's Personal Health Record. Paper copies of a PCC, delivered via U.S. Mail, are also available as an additional purchase option.

7. Personal Health Record:

Personal Health Record ("**PHR**") is a collection of personal health information about an individual Plan Participant that is stored electronically. The PHR is designed so that the Plan Participant can maintain his or her own comprehensive health record. In a PHR developed by a health plan, health information is commonly derived from claims data collected during plan administration activities. Health information may be supplemented with information entered by the Plan Participant.

Aetna offers the Aetna CareEngine®-Powered PHR (for Customers who have elected this additional purchase option). The CareEngine-Powered PHR combines the basic functions of a PHR with a personalized, proactive, evidence-based messaging platform. The Plan Participant's PHR is pre-populated with health information from Aetna's claims system. Plan Participants can also input personal health information themselves. An online health assessment is available to facilitate the self-reporting

process. The Aetna CareEngine-Powered PHR also offers personalized messaging and alerts based on medical claims, pharmacy claims, and demographic information, and lab reports.

Member Health Engagement Plan ("MHEP") offering aims to help Plan Participants better identify health opportunities and take action to improve their health and wellness. MHEP features include an enhanced Plan Participant specific "to-do" list, which includes personalized tasks unique to each Plan Participant's health status and needs, and a progress bar added to the "My Health Activities" page, which visually shows the percentage of completed "to-do" list tasks. The progress bar is updated when evidence of action is collected from lab data, pharmacy claim data, medical claims data, or self-reported data.

8. **Aetna Enhanced Maternity Program:**
   Provides best-in-class member support for all members regardless of risk level throughout maternity journey. It starts with family-planning and fertility support and uses predictive analytics to help you keep your members and their families healthy throughout the entire maternity experience. This comprehensive solution helps identify opportunities to manage costs for one of the largest claim spend categories while improving clinical outcomes.

9. **Informed Health® Line:**
   Informed Health Line provides Employees with toll-free 24-hour/7 day telephonic access to registered nurses experienced in providing information on a variety of health topics. The nurses can contribute to informed health care decision-making and optimal patient/provider relationships through coaching and support. Informed Health Line has added the Healthwise® Video Library to enhance the Employees access to health information. The Employee can be sent links to health education videos from the Healthwise Video Library, via email.

   The range of available service components options include:
   - **Nurse Information line 1-800# Only**. This includes toll-free telephone access to the Informed Health Line.
   - **Service Plus**. (optional additional purchase) Includes toll-free access to the Informed Health Line; introductory program announcement letter, reminder postcards mailed directly to Employee's homes; and semi-annual activity utilization report.
   - **Service Green** (optional additional purchase) IHL Service Green is an environmentally friendly version of the Service Plus option. It provides the same level of service and availability as Service Plus but instead of mailing postcards and reminders, email is used.
   - **Optional Service Features**. (optional additional purchase) These features may be purchased in conjunction with the Service Plus or Service Green package and includes an additional introductory kit; and annual Plan Participant or Employee survey and comprehensive results report.

10. **Simple Steps To A Healthier Life®:**
    Aetna has developed an internet-based comprehensive management information resource, known as "Simple Steps To A Healthier Life" (the "**Simple Steps**"). Employees can access Simple Steps at www.aetna.com, an online support tool which provides advice relating to disease prevention, condition education, behavior modification, and health promotion programs that may contribute to the health and productivity of Employees.

    Simple Steps allows users to create a health assessment profile that generates personalized health reports. In addition to generating a health profile/assessment, Employees also have access to an action plan with links to personalized online health programs called Journeys®, offered through a relationship with RedBrick Health®. Through RedBrick Health, there is also an alternative health assessment option called RedBrick Compass™.

11. Aetna Healthy Actions[SM]:

Aetna Healthy Actions provides participation tracking for many of Aetna's wellness and care management programs. The participation reports generated may be used for incentive administration. Customers can use the reports to provide their own incentives, which may be HSA deposits, payroll credits, premium reductions/credits, raffles, etc. Additionally, Aetna can provide incentive administration through gift cards and credits to Employee's Health Reimbursement Arrangements (HRAs) and Health Incentive Credit (HIC) accounts.

12. Get Active[SM] Program:

Get Active is an evidence-based Employee health and wellness program that focuses on bringing employees together on teams to pursue healthy lifestyles. The program takes the form of a company-wide, multi-week exercise, walking, and weight loss competition that promotes friendly competition, group support, and camaraderie in the workplace. The site also allows for the ability to create personal challenges (exercise, sports, nutrition, smoking cessation, relaxation, etc.), find activity partners, form health-related interest groups (e.g. healthy cooking club, lunch-time walking group), and share fitness plans with colleagues.

13. Enhanced Clinical Review:

This radiology program is designed, through a clinical prior authorization process, to promote appropriate and effective use of outpatient diagnostic imaging services and procedures. Aetna will provide these services nationally and/or regionally, and interact with, free-standing radiology and/or outpatient network facilities that provide the following services: Computed Tomography/Coronary Computed Tomography Angiograph (CT/CTA), Magnetic Resonance Tomography, Magnetic Resonance Angiography (MRIs/MRAs), Nuclear Medicine and Positron Emission Tomography (PET) and/or PET/CT Fusion, Stress Echocardiography (Stress Echo), and Diagnostic Cardiac Catherization, Sleep Studies and Cardiac Rhythm Implantable procedures (Pacemakers, Implantable Cardioverter-Defibrillators, and Cardiac Resynchronization Therapy). The Enhanced Clinical Review program will typically be administered through relationships with third parties.

14. Aetna Oncology Solutions[SM]:

The Aetna Oncology Solutions program works with medical oncologists/hematologists, either directly or through a vendor relationship, to identify factors that can make cancer care more effective, more affordable and safer for the Plan Participant. Plan Participants utilize providers who use tools and technology (data analysis and decision-support tools) to assist them with treatment using the most current medical guidelines and drug therapies considered to be best practices.

15. Lifestyle and Condition Coaching:

Lifestyle and Condition Coaching is part of a population health solution for Employees and their dependents which delivers a holistic, person-centric experience designed to promote healthier and more engaged employees, which in turn, drives improved organizational performance and cost savings.

The total health and well-being of each participant is monitored and analyzed using sophisticated and integrated clinical, consumer, behavioral and predictive analytics. A multi-disciplinary care team and digital toolset, helps participants to achieve their health and well-being goals with personalized support, and education.

The standard Lifestyle and Condition Coaching program offering includes lifestyle and condition management coaching. However, customers who choose to focus on lifestyle only or chronic conditions only may purchase standalone options including:

- Lifestyle and Condition Coaching: Lifestyle coaching
- Lifestyle and Condition Coaching: Condition coaching
- Lifestyle and Condition Coaching: Tobacco cessation

Lifestyle and Condition Coaching uses the Aetna Health Index to quantify the difference between the current and optimal health state for an individual or population. The difference between the current to the optimal health state is then scored and used to spot health improvement opportunities across an integrated health profile (e.g. unresolved Care Considerations, nonadherence to chronic medications, uncontrolled diabetes, at-risk for stroke, low-perception of health, etc.). With this approach, Plan Participants achieve a healthier lifestyle and better manage conditions like heart disease, type 2 diabetes, hypertension and obesity.

16. **Member Engagement Platform:**

Aetna's member engagement platform provides well-being related digital tools, programs and resources in a new comprehensive online experience designed to promote participant engagement, and includes visuals and graphics that prompt participants' interest and enthusiasm. The platform includes device integration and an online scheduling tool. Optional tools are also available, including the Rewards Center that coordinates incentive administration, and the ActiveChallenges that promote better nutrition, physical activity and weight management through team challenges.

The member engagement platform combines the following components:

- Comprehensive, proprietary health assessment
- Health Report and Health Actions
- Online digital coaching
- Personal Health Record
- Health Decision Support
- Health Trackers
- Health-related videos and online content
- Engaging tools and resources
- Social Communities
- Rewards Center
- ActiveChallenge program (buy-up option)

17. **Aetna One® Care Management Programs:**

Aetna One Care Management programs addresses chronic and acute conditions holistically, instead of through separate case management and disease management programs. This program supports Plan Participants with an integrated program experience for the Plan Participant. Aetna's One Care program is condition agnostic, provides a more holistic approach to care, and a higher level of engagement supporting Plan Participants with the most risk and the greatest opportunity for health impacts.

Aetna One Care Management identifies Plan Participants based on assessing their clinical urgency, financial impact, and clinical impact. Based on this assessment, Plan Participants are then assigned to one of three program tracks: high, moderate, or low. Plan Participants would then be targeted for either one-on-one nurse support or through virtual support, providing the appropriate level of support when needed. Plan Participants targeted for one-on-one support will be assigned a single nurse point of contact providing a holistic approach to care. This single nurse model also assigns the same nurse to the other family members for support if needed. Management interactions are tailored to match the Plan Participant's engagement preferences, such as online contact.

These services are the basis for National Accounts Aetna One™ Flex and Aetna One™ Choice offerings.

Aetna One® Advisor is a high-touch, high tech engagement model focused on driving optimal Plan Participant health performance. The data Aetna has about each Plan Participant such as medical claims,

lab values, pharmacy data, precertification requests and provider relationships is combined with information from Plan Participants regarding their preferred method of communication (i.e. phone calls, emails, text messages) to transform the health care experience and guide each Plan Participant on their path to better health. This proactive model integrates clinical support and member service. The advocate team is made up of co-located nurses, EAP/Work-life consultants, designated, concierge-level member Advocates, provider network specialists, and a care management associates. This fully integrated service and clinical team reduces the need for transfers and provides members a single point of contact who can address their needs and ambitions, while keeping them engaged over their long-term health care journey.

Aetna One® Advocate is a high-touch, high-tech customer service model that combines data driven processes with the expertise of highly-trained advocates. The data that Aetna has about each Plan Participant such as medical claims, lab values, pharmacy data, precertification requests and provider relationships is combined with information from Plan Participants regarding their preferred method of communication (i.e. phone calls, emails, text messages), and the Plan Participant is paired up with an advocate team. Advocate teams may include concierge-level benefits specialists, nurses, wellbeing professionals, and provider network experts, and are all cross-trained to provide support from benefit questions to complex care management. Advocates also work directly with other internal resources or programs, external vendors and network providers to support Plan Participant and their families.

Aetna One Basics program is a utilization management and precertification only model that carves care/case management out to the plan sponsor. With our Aetna One Basics program, we ensure each Plan Participant gets the care they need from network providers, avoid unnecessary treatment and use benefit dollars wisely. Our nurses work together to get each Plan Participant the care they need. Aetna One Basics includes coverage and eligibility reviews for precertification and utilization management including concurrent review, discharge planning and retrospective review.

18. **Healing Better:**

Healing Better is a coordinated program for everything members need across provider and facility selection, medication guidance, home care expectations, covered Durable Medical Equipment (DME), and support services in order to recover quickly and without complications. Eligible members will receive an initial care package that includes information related to their condition and support to order supplies on a curated CVS site specific to their recovery needs.

This program includes:

Predictive modeling to identify members early in their journey

Care Package and Product Bundle to surprise and delight our members

Digital Support Center with stories from peers that have had the procedures

Pain management support materials

Concierge Service to support higher risk members

19. **Aetna Enhance**

The version of Advice included with Aetna One Essentials does not include the option to add incentives. This is an incentive buy-up, offered to plan sponsors who have elected the Aetna One Flex or Aetna One Choice care management tiers. The incentive product enables customers to “enhance” their medical cost savings opportunity from Aetna’s care management program by adding incentives to existing Advice preventive and site-of-care campaigns. Incentives will be redeemable for gift cards and will range

in value (up to $300 in total per targeted member per calendar year) depending on the medical cost savings generated for each campaign.

20. Cirrus MD

CirrusMD's text-first, anything next platform connects members directly to a live, licensed doctor. Encounters can also seamlessly shift to include video, voice and images when needed. Members consult with board-certified physicians by in-platform secure text, telephone or video via vendor website or mobile app. Members can access these services for the same cost as an office visit with a network physician in under a minute without having to schedule an appointment. This setup means members can easily access care when their PCP is not available. They do not need to travel, take time off from work or make childcare arrangements. CirrusMD's Platform Includes: Care Delivery Platform, Member online portal ("platform") with easy registration, available both on desktop and in a mobile application ("app"). On-demand consults available by in-platform text, phone, online video and mobile app Integrated visit history and visit notes. Dedicated customer support team that assists members that are having issues with the platform (web and mobile). Customer support is available for live chat messaging during business hours. Support inquiries received outside of business hours receive a reply within 24 hours. General Medical Physicians: Instant, barrier-free access to a physician. There is no chat bot or paywall in the user experience delaying care. CirrusMD's partner organization CMDPN, LLC. directly contracts with a network of licensed professionals. The number of physicians changes as membership grows. CirrusMD's licensed contracted physicians are in all 50 states and the District of Columbia.
Per consultation fee includes 7 continuous days of access to a physician at no extra charge.
No time limits on consults, allowing your employees to get care on their schedule.
To enroll on the CirrusMD platform, a member will register through the CirrusMD website or app.

21. Aetna Back and Joint Care™

Includes Aetna predictive analytics and care management coordination and digital MSK therapy programs from Hinge Health.

22. Transform Diabetes Care (TDC) Program

Most of today's diabetes solutions take a one-size-fits-all approach and do not effectively address the complexity of managing diabetes. Based on our breadth of clinical assets and member engagement data, we know that providing more personalized, actionable solutions for all members with diabetes is the best approach. Leveraging our care management assets and integrating medical and pharmacy data for advanced targeting and interventions, we now have a comprehensive model that addresses diabetes across 5 major treatment categories. By addressing all 5 key categories critical to complete diabetes management: taking the right medication, adherence to medication, preventative screenings, lifestyle & comorbidity management and monitoring blood glucose, this program offers the best chance to lower A1C for members and reduce overall medical and pharmacy costs for clients. Complete condition management increases the depth and breadth of care management for a single condition. Complete diabetes care offers the member individualized support inclusive of local, direct care delivered by an integrated team of pharmacists, Aetna care managers, Minute Clinic providers, and Health Hub specialists.

V. BEHAVIORAL HEALTH SERVICES

1. Managed Behavioral Health:

A set of services that includes both inpatient and outpatient care management.

- Inpatient Care Management provides phone-based utilization review of inpatient behavioral health (mental health and chemical dependency) admissions intended to contain confinements to appropriate lengths, assure medical necessity and appropriateness of care, and control costs. Inpatient Care Management provides precertification, concurrent review and discharge planning of inpatient behavioral health admissions. These services also include identification of Plan Participants for referral to a Behavioral Health Condition Management program.

- Outpatient Care Management includes precertification on a limited number of selected services. Where precertification is required, the request for services is reviewed against a set of criteria established by clinical experts and administered by trained staff, in order to determine coverage of the proposed treatment. Where precertification is not required, cases are identified for Outpatient Case Management through the application of clinical algorithms.

2. Behavioral Health Condition Management

The Aetna Behavioral Health Condition Management program identifies and engages Employees diagnosed with high-risk acute and chronic behavioral health conditions. Employees enrolled in the program get support with behavior change to improve overall functioning and wellness, which keeps them involved in and compliant with their treatment. The program promotes active collaboration and coordination of everyone involved in the Employee's medical and behavioral health care, including providers, family, friends and other Aetna clinical programs.

Base Level Program (Embedded) - Triggers include: high cost claimants, re-admissions, and multiple diagnoses/co-morbidities.

High Level Program (Optional)
This option includes quarterly utilization reports. Triggers include: base embedded triggers plus, medical or behavioral health diagnosed conditions, inpatient admission, ER visits for behavioral health.

3. AbleTo

AbleTo performs outreach, on behalf of Aetna, to offer Plan Participants, with certain medical conditions or those going through certain life changes, an alternative treatment setting. Outreach is made to offer behavioral health support to Plan Participants using web-based videoconferencing, online interface or telephone support, instead of a face-to-face office visit. AbleTo provides condition-specific, structured, fixed duration support. AbleTo is an in-network provider and its clinical team consists of therapists and behavioral health coaches. Each web-based videoconferencing session, online interface or telephone support session, is subject to Plan terms applicable to a behavioral health office visit, including cost share, deductible, etc.

VI. TECHNOLOGY/WEB TOOLS

1. Online Provider Directory:

Aetna's online participating provider directory--updated daily -- that anyone can use to locate network physicians and other health care providers such as dentists, optometrists, hospitals and pharmacies.

2. Secure Member Portal:

The secure member portal is a Plan Participant website that can be used as an online resource for personalized health and financial information.

3. Health Decision Support:

Health Decision Support provides educational support so Employees can better understand their conditions and treatment options, including tests, procedures and surgery. This helps Employees make more informed decisions for their health care.

Health Decision Support has two options for customers. Both options offer programs for treatment, procedure and surgery decision support.

- **Basic --** Offers 30 programs. It is available to all secure member portal registered users at no additional cost to customers or employees.
- **Premium –** (optional additional purchase) Offers over 200 programs and plan sponsor-specific engagement reporting. Aetna Healthy Actions℠ incentive tracking is available for program completion in the premium option.

4. **Metabolic Health in Small Bytes:**
   Metabolic Health in Small Bytes is a program promoting metabolic syndrome risk reduction and reversal. This program targets the root cause of obesity by using a holistic approach (mental, emotional, and physiological) to help Employees identify underlying reasons for their weight and what barriers may exist which impede weight loss. Classes are taught live in an online virtual classroom. The program is available in multiple formats for convenience and engagement.

5. **Aetna Second Opinion:**
   Aetna Second Opinion, powered by 2nd.MD is a virtual program that provides access to skilled medical specialists who are under contract with our vendor 2nd.MD, to provide advice and second opinions. 2nd.MD has a dedicated 1-800 telephone number, online portal and integrated app. The medical specialists made available through the 2nd.MD program are independent contractors and are neither employees nor agents of 2nd.MD or Aetna. 2nd.MD supports a Plan Participant by onboarding the Plan Participant and assigning them a nurse coordinator, vetting the appropriateness of their second opinion request, connecting the Plan Participant with a 2nd.MD medical specialist based on the Plan Participant's condition, obtaining all relevant medical records and digitizing, and coordinating the consultation and follow-up. On average, 2nd.MD can provide a plan participant with a second opinion within three days.

6. **2nd.MD Reach:**
   A comprehensive proactive outreach program that uses a plan sponsor's claims data and 2nd.MD predictive model algorithms to engage members who are on the path to a high-cost or high-impact medical event before it happens. It's a best-in-class solution that uses proven strategies to engage members who could benefit the most from a consultation with an elite specialist physician who specializes in their condition.

VII. OTHER SERVICES

1. **Teladoc:**
   Teladoc is a vendor that provides access to physicians who are under contract with Teladoc, to provide consultations for non-urgent care needs by telephone. The physicians made available through the Teladoc program are independent contractors and are neither employees nor agents of Teladoc or Aetna.

2. **Virtual Primary Care (VPC):**
   If elected by Customer as indicated on the Medical Service and Fee Schedule, Virtual Primary Care (VPC) allows plan participants 18 and older to receive eligible in-network services through a contracted VPC telemedicine provider with a copay as low as a $0 (members enrolled in qualified high-deductible health plans must meet their deductible before receiving covered non-preventive for as low as $0).

3. **CVS Health Solutions-PLLC:**

CVS Health Solutions PLLC is a vendor that provides access to clinicians who are under contract with CVS Health Solutions PLLC, to provide consultations for non-urgent care and mental health needs via synchronous audio/video using web browsers. The providers made available through the CVS Health Virtual Care benefit are independent contractors and are neither employees nor agents of Aetna.

4. **Virtual Primary Care (VPC):**
   If elected by Customer as indicated on the Medical Service and Fee Schedule, Virtual Primary Care (VPC) allows plan participants 18 and older to receive eligible in-network services through a contracted VPC telemedicine provider with a copay as low as a $0 (members enrolled in qualified high-deductible health plans must meet their deductible before receiving covered non-preventive for as low as $0).

5. **ALEX® Benefits Advisor:**
   ALEX Benefits Advisor ("ABA") is an interactive, online decision support tool designed to assist employees in making their benefits elections during open enrollment. A virtual host ("ALEX") begins the session by learning about the employee so that he can tailor his approach and content to the needs of the individual. ALEX uses plain language to ask questions about topics such as family status, dependents, health care needs, lifestyle, financial status and risk tolerance – all the while avoiding insurance jargon often associated with choosing a benefits plan. The online and mobile-friendly experience includes audio, on-screen text and animations to ensure an engaging, personalized interaction.

3. **Aetna Concierge:**
   Aetna Concierge is a level of customer service that provides a dedicated team of Aetna employees to support the delivery of high-touch, tailored service for Customers. The dedicated Aetna Concierges obtain Customer-specific training in order to serve as a single point of contact across the full-spectrum of plan and benefit offerings available to Plan Participants, even if such offerings are external to Aetna. The dedicated team is staffed with more customer service representatives than Aetna's traditional Customer Service Model, without call handle time guidelines, thereby allowing for longer, more relevant Plan Participant interactions. Aetna Concierges use their skills and training to listen for opportunities to educate and empower Plan Participants by sharing insights, providing useful information, and offering guidance through the use of Aetna tools and resources so that Plan Participants become more informed health care consumers. Aetna Concierge include a dedicated team, individual Aetna Concierges can serve as an extension of the Customer benefits team, and as an available single point of contact for Plan Participants via a dedicated, toll-free 800-number, as well as via live web chat through Aetna's secure member portal.

4. **Onsite Health Screening Services:**
   Aetna's Onsite Health Screening Services help employers engage and educate their Employees about wellness at the workplace. These offerings provide turnkey solutions to support employers' overall wellness strategies, increase consumerism and promote informed-decision making. Offerings include Onsite Health Screenings, Workshops, Special Awareness Campaigns; and Educational Resources. Aetna may contract with nationally recognized vendors to administer Onsite Health Screening Services, and such vendors may be subject to change.

5. **Mindfulness at Work:**
   Aetna's Mindfulness at Work program is an evidence-based mind-body solution that targets Employees with stress. The program teaches evidence-based stress management skills, including mindfulness awareness, breathing techniques and emotions management. Classes are taught live in an online virtual classroom. The program is available in multiple formats for convenience and engagement.

6. **eM Life™:**

The eM Life platform offers daily, live short-form classes, an on-demand library of audio and video content, working memory game, well-being articles, meditation timer, and an annual engagement campaign. Available via web browser and mobile devices.

7. **Aetna Fitness Reimbursement Program:**
   The Aetna Fitness Reimbursement Program (the "**Program**"), powered by GlobalFit®, is available to Employees. The Program provides reporting and reimbursement for fitness expenses, including fitness club/gym dues, group exercise class fees for classes led by certified instructor; fitness equipment purchases; personal training; and weight management and nutrition counseling sessions.

8. **Peerfit®:**
   Aetna has contracted with a vendor, Peerfit®, to provide a fitness program. Customers buy access to the platform for their employees by sponsoring the program. The program would give each employee a designated amount of standard fitness classes per month in the form of a credit allowance. These credits would be distributed to Employees via the Peerfit site. These Employees would sign in to the site and look for classes or fitness activities within a network of boutique fitness studios in their area, which would be paid for with the program credit allowance. Employees can try fitness classes without the burden of a long term commitment or contract. Any unused credits are forfeited at the end of the month, but are replenished to the designated number of credits for use in the next month.

9. **ID Cards:**
   Upon the Customer's request, Aetna will include third party vendor information on Plan Participant identification cards. In such event, the Customer shall indemnify Aetna, its affiliates and their respective directors, officers, and employees from that portion of any actual third party loss (including reasonable attorney's fees) resulting from the inclusion of such third party vendor information on identification cards.

10. **Subrogation Services:**
    Aetna will provide subrogation/reimbursement services when the Customer's summary plan description (SPD) is finalized, available to the Customer's employees, and includes subrogation/reimbursement language.

    Aetna does not delay processing or deny claims for subrogation/reimbursement purposes.

    Aetna has the exclusive discretion to: (a) decide whether to pursue potential recoveries on subrogation/reimbursement claims; (b) determine the reasonable methods used to pursue recoveries on such claims, except with respect to initiation of formal litigation; and (c) decide whether to accept any settlement offer relating to a subrogation/reimbursement claim. Aetna shall advise the Customer if the pursuit of recovery requires initiation of formal litigation. In such event, the Customer shall have the option to approve or disapprove the initiation of litigation. Subrogation /reimbursement services will be delegated to an organization of Aetna's choosing.

    The subrogation/reimbursement fee is outlined in the Service and Fee Schedule and includes reasonable expenses such as (a) collection agency fees, (b) police and fire reports, (c) asset checks, (d) locate reports and (e) attorneys' fees. If no monies are recovered as a result of the subrogation/reimbursement service, no fee will be charged to the Customer.

    Subrogation/reimbursement recoveries will be credited to the Customer net of fees charged by Aetna. Aetna does not credit individual Plan Participant claims for subrogation/reimbursement recoveries.

    The Customer must notify Aetna should the Customer pursue, recover by settlement or otherwise waive any subrogation/ reimbursement claim, or instruct Aetna to cease pursuit of a potential subrogation

claim. Aetna will be entitled to the subrogation/reimbursement fee, which will be calculated based on the full amount of claims paid at the time the Customer settles the file or instructs Aetna to cease pursuit.

The Customer must notify Aetna of its election to terminate the subrogation/reimbursement services provided by Aetna. All claims identified for potential subrogation/reimbursement recovery prior to the date notification of such election is received, including both open subrogation files and matters under investigation, shall be handled to conclusion by Aetna and shall be governed by the terms of this provision. Aetna does not handle new subrogation/reimbursement cases on matters identified after the Customer's termination date.

XXXX - INCLUDE THE FOLLOWING ITEM 11 ONLY IF NAP IS INCLUDED.

11. NATIONAL ADVANTAGE PROGRAM (NAP)

There are three components to NAP: Contracted Rates (with or without Professional Claims Repricing), Facility Charge Review and Itemized Bill Review. Plans enrolled in NAP automatically have access to NAP's Contracted Rates component. The Contracted Rates component also includes Professional Claims Repricing, if warranted, based on the plan's out-of-network rate structure. Plans enrolled in the Contracted Rates component have two optional components that are available: Facility Charge Review and Itemized Bill Review. Unless otherwise agreed in writing, only the NAP components selected by the Customer in the Service and Fee Schedule will be provided by Aetna.

A. **Contracted Rates Component (with or without Professional Claims Repricing)**

XXXX INCLUDE THE FOLLOWING IF STANDARD NAP IS INCLUDED. THIS LANGUAGE WOULD APPLY IF NONE OF THE ALTERNATIVES LISTED BELOW APPLY (I.E., MEDICARE FEE SCHEDULE WITH OR WITHOUT NAP FLEX, NAP LESSER OF) – (STANDARD NAP – NO MEDICARE FEE SCHEDULE)

Through the Contracted Rates component of NAP, Aetna either contracts with third-party vendors to access their contracted rates with providers (a "**Vendor Accessed Rate**"), or directly contracts with providers (a "**Directly Contracted Rate**") (collectively, a "**Pre-Negotiated Contracted Rate")** for (i) medical claims paid under non-network indemnity plans, (ii) claims covered under the out-of-network portion of network-based plans ("**Voluntary Out-of-Network Claims**"), and (iii) claims from out-of-network providers covered as in-network benefits under the Plan because the claims are for emergency services, because the services are provided by out-of-network providers at in-network facilities, or because Aetna otherwise determines that the Plan Participant received the services out-of-network because of circumstances outside the Plan Participant's control ("**Involuntary Out-of-Network Claims**"). An Aetna Directly Contracted Rate is applied to a claim first, if available (for example, a Directly Contracted Rate is typically applicable for indemnity plans and narrow-network arrangements). If a Directly Contracted Rate is not available, an external vendor looks for a Vendor Accessed Rate, based on a preset hierarchy of vendor contracted networks. Providers with Pre-Negotiated Rates are collectively referred to as "**NAP Providers**."

When a Pre-Negotiated Contracted Rate is applied to a claim, the provider is contractually bound not to balance bill Plan Participants. To limit balance billing for Plan Participants, the Pre-Negotiated Contracted Rate will apply even if that rate exceeds the amount determined by the benefit level under the Plan.

In the absence of a Pre-Negotiated Contracted Rate, Aetna or a third-party vendor will attempt to negotiate a claim specific rate/discount **("Ad-Hoc Rate")**.

XXX INCLUDE IF DATA ISIGHT ("DIS") APPLIES XXX

For certain eligible out-of-network claims, Aetna or its external vendor, will use a methodology for pricing professional claims that is based on typical competitive charges and/or payments for a service, adjusted for the geography in which the service was provided ("**Professional Claims Repricing**"). In the event Professional Claims Repricing is applied and a Plan Participant receives a balance bill from a provider, patient advocacy services are available to assist in order to minimize balance billing. For Voluntary Out-of-Network Claims for Professional services, the Plan Participant may be responsible for charges in excess of the re-priced rate. For Involuntary Out-of-Network Claims for Professional services, the provider may be paid up to billed charges to ensure the Plan Participant is held harmless.

XXXX INCLUDE THE FOLLOWING IF NAP "LESSER OF" WITH OR WITHOUT A MEDICARE FEE SCHEDULE IS INCLUDED

Through the Contracted Rates component of NAP, Aetna either contracts with third-party vendors to access their contracted rates with providers (a "**Vendor Accessed Rate**") or directly contracts with providers (a "**Directly Contracted Rate**") (collectively, a "**Pre-Negotiated Contracted Rate**") for (i) medical claims paid under non-network indemnity plans, (ii) claims covered under the out-of-network portion of network-based plans ("**Voluntary Out-of-Network Claims**"), and (iii) claims from out-of-network providers covered as in-network benefits under the Plan because the claims are for emergency services, because the services are provided by out-of-network providers at in-network facilities, or because Aetna otherwise determines that the Plan Participant received the services out-of-network because of circumstances outside the Plan Participant's control ("**Involuntary Out-of-Network Claims**")**.** An Aetna Directly Contracted Rate is applied to a claim first, if available (for example, a Directly Contracted Rate is typically applicable for indemnity plans and narrow-network arrangements). If a Directly Contracted Rate is not available, an external vendor looks for a Vendor Accessed Rate, based on a preset hierarchy of vendor contracted networks. Providers with Pre-Negotiated Rates are collectively referred to as "**NAP Providers**."

When a Pre-Negotiated Contracted Rate is applied to a claim, the provider is contractually bound not to balance bill Plan Participants.

In the absence of a Pre-Negotiated Contracted Rate, Aetna or a third-party vendor will attempt to negotiate a claim specific rate/discount **("Ad-Hoc Rate")**.

Vendor Accessed Rates will only be used when these rates are lower than the rates determined by the benefit level for out-of-network benefits under the Plan (e.g., Percentage of Medicare rates). For Voluntary Out-of-Network Claims, Vendor Accessed Rates will be compared to the amount determined by the benefit level defined by the Plan. For Involuntary Out-of-Network Claims, Vendor Accessed Rates will be compared to the rates that would be paid under Aetna policy applicable to Involuntary Out-of-Network Claims.

XXXX Include the following if NAP Flex with Medicare Fee Schedule is included

Through the Contracted Rates component of NAP, Aetna either contracts with third-party vendors to access their contracted rates with providers (a "**Vendor Accessed Rate**"), or directly contracts with providers (a "**Directly Contracted Rate**") (collectively, a "**Pre-Negotiated Contracted Rate**") for (i) medical claims paid under non-network indemnity plans, (ii) claims covered under the out-of-network portion of network-based plans ("**Voluntary Out-of-Network Claims**"), and (iii) claims from out-of-network providers covered as in-network benefits under

the Plan because the claims are for emergency services, because the services are provided by out-of-network providers at in-network facilities, or because Aetna otherwise determines that the Plan Participant received the services out-of-network because of circumstances outside the Plan Participant's control ("**Involuntary Out-of-Network Claims**"). An Aetna Directly Contracted Rate is applied to a claim first, if available (for example, a Directly Contracted Rate is typically applicable for indemnity plans and narrow-network arrangements). If a Directly Contracted Rate is not available, an external vendor looks for a Vendor Accessed Rate, based on a preset hierarchy of vendor contracted networks. Providers with Pre-Negotiated Rates are collectively referred to as "**NAP Providers"**.

When a Pre-Negotiated Contracted Rate is applied to a claim, the provider is contractually bound not to balance bill Plan Participants.

In the absence of a Pre-Negotiated Contracted Rate, Aetna or a third-party vendor will attempt to negotiate a claim specific rate/discount **("Ad-Hoc Rate")**.

For Voluntary Out-of-Network Claims, allowed amounts will be based upon Directly Contracted Rates, as available, or a percentage of Medicare rates, rather than Vendor Accessed Rates. If a Medicare or analogous rate is not available, the claim will be referred for an Ad Hoc Rate or Facility Charge Review (as described below), as applicable. For Involuntary Out-of-Network Claims, all aspects of the Contracted Rates component will apply.

XXXX INCLUDE THE FOLLOWING IF NAP WITH MEDICARE FEE SCHEDULE IS INCLUDED

Through the Contracted Rates component of NAP, Aetna either contracts with third-party vendors to access their contracted rates with providers (a "**Vendor Accessed Rate**"), or directly contracts with providers (a "**Directly Contracted Rate**") (collectively, a "**Pre-Negotiated Contracted Rate**") for (i) medical claims paid under non-network indemnity plans, (ii) claims covered under the out-of-network portion of network-based plans ("**Voluntary Out-of-Network Claims**"), and (iii) claims from out-of-network providers covered as in-network benefits under the Plan because the claims are for emergency services, because the services are provided by out-of-network providers at in-network facilities, or because Aetna otherwise determines that the Plan Participant received the services out-of-network because of circumstances outside the Plan Participant's control ("**Involuntary Out-of-Network Claims**"). An Aetna Directly Contracted Rate is applied to a claim first, if available (for example, a Directly Contracted Rates is typically applicable for indemnity plans and narrow-network arrangements). If a Directly Contracted Rate is not available, an external vendor looks for a Vendor Accessed Rate based on a preset hierarchy of vendor contracted networks. Providers with Pre-Negotiated Rates are collectively referred to as "**NAP Providers**."

When a Pre-Negotiated Contracted Rate is applied to a claim, the provider is contractually bound not to balance bill Plan Participants. To limit balance billing for Plan Participants, the Pre-Negotiated Contracted Rate will apply even if that rate exceeds the amount determined by the benefit level under the Plan.

In the absence of a Pre-Negotiated Contracted Rate Aetna or a third-party vendor will attempt to negotiate a claim specific rate/discount **("Ad-Hoc Rate")**.

For Voluntary Out-of-Network Claims, allowed amounts will be based upon the Contracted Rates component, as available, or a percentage of Medicare rates. If a Medicare or analogous rate is not available, the claim will be referred for an Ad Hoc Rate or Facility Charge Review (as described below), as applicable. For Involuntary Out-of-Network Claims, all aspects of the Contracted Rates component will apply.

B. **Facility Charge Review ("FCR") Component**

FCR applies to inpatient and outpatient facility claims for which a Pre-Negotiated Contracted Rate is not available and for which the claim amount exceeds a certain threshold as determined by Aetna. Through the FCR component, Aetna establishes a charge for a Plan benefit in the geographic area where such benefit was provided to the Plan Participant ("**Recognized Charge**"). The Recognized Charge is based on the provider's estimated cost, including an anticipated profit margin. The claim will be priced based on the Recognized Charge. Even with FCR, if a provider refuses to agree to a negotiated rate, claims may be priced at billed charges in certain circumstances.

C. **Itemized Bill Review ("IBR") Component**

IBR applies to inpatient facility claims submitted by Aetna network providers (directly contracted) if (a) the submitted claim amount exceeds a certain threshold as determined by Aetna; and (b) Aetna's contracted rate with the provider uses a "percentage of billed charges" methodology. Aetna refers to these as "**IBR Claims**."

Aetna will forward IBR Claims to a vendor to review and identify any billing inconsistencies and errors. The vendor reports back the amount of eligible charges after adjusting for any identified inconsistencies and errors. Aetna then pays the claim based on the adjusted bill.

D. **Terms and Conditions**

(i) NAP Fees

(a) The Customer's fees for the NAP program are charged as a percentage of the Savings achieved for a claim paid under NAP ("**NAP Fee**"), as described in the Service and Fee Schedule. For purposes of calculating the NAP Fee, the following definitions shall apply:

- "**Savings**" means the difference between (i) the Reference Price, and (ii) the NAP priced amount.

XXXX CHOOSE ONE OF THE FOLLOWING THREE DEFINITIONS OF REFERENCE PRICE, DELETE OTHERS

XXXX INCLUDE THE FOLLOWING DEFINITION OF "REFERENCE PRICE" IF "OLD STYLE" REFERENCE PRICE

- "**Reference Price**" means (i) for a facility service, the amount billed by the provider (other than where Itemized Bill Review applies); (ii) for in-network facility services where Itemized Bill Review applies, the rate for the facility service prior to removal of any non-payable charges identified as part of the claim review; (iii) for a Professional service paid using an Ad Hoc Rate negotiated by Aetna for an Involuntary Out-of-Network Claim, the amount billed by the provider; and (iv) for all other Professional services, the lesser of the billed charge or the 80th percentile of the applicable FAIR Health database, *provided* that from time to time Aetna may elect to substitute another reference database or methodology reasonably comparable to FAIR Health.

XXXX USE FOR "NEW" REFERENCE PRICE WITH MEDICARE FEE SCHEDULE

- "**Reference Price**" means (i) for Involuntary Out-of-Network Claims, the amount billed by the provider for the covered service; (ii) for Voluntary Out-of-Network Claims, the benefit level set forth under the Plan; and (iii) for in-network facility services where Itemized Bill Review applies, the rate for the facility service prior to removal of any non-payable charges identified as part of the claim review.

- "**Reference Price**" means (i) for Involuntary Out-of-Network Claims and facility Voluntary Out-of-Network Claims, the amount billed by the provider for the covered service; (ii) for Professional Voluntary Out-of-Network Claims, the benefit level set forth under the plan; and (iii) for in-network facility services where Itemized Bill Review applies, the rate for the facility service prior to removal of any non-payable charges identified as part of the claim review.

(b) The Customer will not owe any NAP Fees with respect to amounts that are the financial responsibility of Aetna, such as when Aetna writes stop loss insurance and the individual or aggregate limit, as applicable, is reached.

(c) If Aetna pays more than the Reference Price, the Savings will be defined as zero.

(d) NAP Fees will be credited back to the Customer for any Savings subsequently reduced or eliminated for which the Customer has already paid a NAP Fee.

(e) Aetna will provide a quarterly report of Savings and NAP Fees. NAP Fees may be included with claims in other reports.

(ii) Plan Participant Information Regarding NAP

The Customer shall inform Plan Participants of the availability of NAP Providers. Further, the Customer's Summary Plan Description specifying coverage for out-of-network health services must conform to Aetna requirements. Aetna shall provide information regarding NAP Providers on DocFind®, Aetna's online provider listing, on our website at www.Aetna.com or by other comparable means.

(iii) Customer Acknowledgements

Customer acknowledges that:

(a). Aetna does not credential, monitor or oversee those providers who participate through Vendor Accessed Rates. NAP Providers participating in the Contracted Rates component may not necessarily be available or convenient.

(b). The following claim situations may not be eligible for NAP:

- Claims involving Medicare when Aetna is the secondary payer
- Claims involving coordination of benefits (COB) when Aetna is the secondary payer
- Claims that have already been paid directly by the Plan Participant.

(iv) General Provisions

(a) Aetna's only liability to the Customer for any loss of access to a discount arising under or related to NAP, regardless of the form of action, shall be limited to the NAP Fee actually paid to Aetna by the Customer for services rendered. Any performance standards agreed to by Aetna and set forth in the Agreement are not affected by this provision and shall remain in effect.

(b) The terms and conditions of NAP shall remain in effect for any claims incurred prior to the termination date that are administered by Aetna after the termination date.

PRESCRIPTION SERVICES SCHEDULE
MASTER SERVICES AGREEMENT MSA- SAMPLE
EFFECTIVE SAMPLE ("Schedule Effective Date")

Subject to the terms and conditions of the Agreement, management or administration of prescription drug benefits selected by the Customer in the Pharmacy Service and Fee Schedule (as modified by Aetna from time to time pursuant to section 4, Service Fees, of the Agreement) will be performed by CaremarkPCS Health, L.L.C. and/or its affiliates (CVS Caremark), each of which is an affiliated, licensed pharmacy benefit manager. This Schedule shall supersede any previous document(s) describing the Services.

I. SCHEDULE TERM

The initial term of this Schedule shall be XXXX beginning on the Schedule Effective Date (referred to as an "Agreement Period"). This Schedule will automatically renew for additional Agreement Periods (successive one-year terms) unless otherwise terminated pursuant to the Agreement.

II. CLAIM FIDUCIARY

The Customer and Aetna agree that with respect to Section 503 of the Employee Retirement Income Security Act of 1974, as amended, Aetna will be the "appropriate named fiduciary" of the Plan for the purpose of reviewing denied claims under the Plan. The Customer understands that the performance of fiduciary duties under ERISA necessarily involves the exercise of discretion on Aetna's part in the determination and evaluation of facts and evidence presented in support of any claim or appeal. Therefore, and to the extent not already implied as a matter of law, the Customer hereby delegates to Aetna discretionary authority to determine entitlement to benefits under the applicable Plan documents for each claim received, including discretionary authority to determine and evaluate facts and evidence, and discretionary authority to construe the terms of the Plan. It is also agreed that, as between the Customer and Aetna, Aetna's decision on any claim is final and that Aetna has no other fiduciary responsibility.

III. EXTERNAL REVIEW

The external review process will be conducted by an independent clinical reviewer with appropriate expertise in the area in question. External Review shall be available for certain "Adverse Benefit Determinations" as defined in 29 CFR 2560.503-1 as amended by 26 CFR 54.9815-2719. It shall also be available for eligible "Final Internal Adverse Benefit Determinations", which is an eligible Adverse Determination that has been upheld by the appropriate named fiduciary (Aetna) at the completion of the internal review process or an Adverse Benefit Determination for which the appeal process has been exhausted. The External Review process shall meet the standards of the Federal Affordable Care Act and utilize a minimum of three accredited Independent Review Organizations. Independent reviewers conduct a de novo review of the information provided to them as part of the External Review process. Both Aetna and Customer acknowledge that neither Plan Participants nor providers will be penalized for exercising their right to an External Review.

The Customer delegates the sole discretionary authority to make the determination regarding the eligibility for external review, under the Plan, to Aetna. If an appeal is denied through the final level of internal appeal, Aetna will determine if it is eligible for ERO. Then Aetna will inform the Plan Participant of the right to appeal through ERO. If the appeal is upheld, Aetna will inform the Plan Participant the reason for the denial. If the appeal is not eligible for ERO, Aetna will inform the Plan Participant of the reasons for the ineligibility.

The Customer acknowledges that the Independent Review Organizations that make the external review decisions are independent contractors and not agents or employees of Aetna, and that Aetna is not responsible for the decision of the Independent Review Organization.

To assist in conducting such external reviews, the Customer agrees to provide Aetna with the current Plan documents, and any revised, amended, or updated versions no later than the date of any revisions, amendments, or updates.

IV. DEFINITIONS

When used in this Schedule and/or the Pharmacy Service and Fee Schedule, all capitalized terms shall have the following meanings if not already defined in the Agreement:

"**AWP**" means the "average wholesale price" for a standard package size of a Prescription Drug from the most current pricing information provided to us by Medi-Span Master Drug Database (MDDB) (with supplements) or any other nationally available reporting service of pharmaceutical prices as selected by us. We use a single data reporting source for determining a Customer's AWP pricing. The standard package size applicable to a Mail Order Pharmacy shall mean the actual package size dispensed. The standard package size applicable to a Participating Retail Pharmacy shall be the actual package size dispensed as reported by the Participating Retail Pharmacy to CVS Caremark.

"Benefit Cost(s)" means the cost of providing Covered Services to Plan Participants and includes amounts paid to Participating Pharmacies and other providers. Benefit Costs do not include Cost Share amounts paid by Plan Participants. Benefit Costs do not include Service Fees. The Benefit Cost includes any Dispensing Fee paid to a Participating Pharmacy or other provider for dispensing covered medications to Plan Participants.

"Benefit Plan Design" means the terms, scope and conditions for Prescription Drug or device benefits under a Plan, including Formularies, exclusions, days or supply limitations, prior authorization or similar requirements, applicable Cost Share, benefit maximums and any other features or specifications as may be included in Plan documents, as communicated by the Customer to Aetna in accordance with any implementation procedures described herein. The Customer shall disclose to Plan Participants any and all matters relating to the Benefit Plan Design that are required by law to be disclosed, including information relating to the calculation of Cost Share or any other amounts that are payable by a Plan Participant in connection with the Benefit Plan Design. Customer acknowledges that it is responsible for determining whether products or services added by Customer to the Benefit Plan Design are compliant with the laws applicable to Customer's plan.

"Biosimilar Drug" means a biological product that is highly similar to a biological product already approved by the FDA (i.e. reference product) and is licensed and approved by the FDA as a biosimilar under Section 351(k) of the Public Health Service Act, as added by the Biologics Price Competition and Innovation Act of 2009, notwithstanding minor differences in clinically inactive components but otherwise no clinically meaningful differences between the biologic product and the reference products in terms of safety, purity and potency of the product.

"Brand Drugs" shall mean drugs or devices for which the Medi-Span Multisource Code field contains "M" (co-branded product), or "N" (single source brand), or "O" (originator). In limited circumstances, Aetna may override the M, N, or O indicators and deem the drug to be a Generic Drug through review of additional information including other Medi-Span data, FDA application data (NDA/ANDA) and price.

"Calculated Ingredient Cost" means the lesser of:

a) AWP less the applicable percentage Discount;

b) MAC; or
c) U&C Price.

The Calculated Ingredient Cost does not include the Dispensing Fee or sales tax, if any. The amount of the Calculated Ingredient Cost payable by the Customer is net of the applicable Cost Share.

"Claim" or **"Claims"** means any electronic or paper request for payment or reimbursement arising from a Participating Pharmacy providing Covered Services to a Plan Participant.

"Compound Prescription" means a Prescription Drug which would require the dispensing pharmacist to produce an extemporaneously produced mixture containing at least one Federal Legend drug, the end product of which is not available in an equivalent commercial form. For purposes of this Schedule, a prescription will not be considered a Compound Drug if it is reconstituted or if the only ingredient added to the prescription is water, alcohol, a sodium chloride solution or other common diluents.

"Concurrent Drug Utilization Review" or **"Concurrent DUR"** means the review of drug utilization when an On-Line Claim is processed by Aetna at the point of sale.

"**Cost Share"** means that portion of the charge for a Prescription Drug or device dispensed to a Plan Participant that is the responsibility of the Plan Participant as provided in the applicable Plan, including coinsurance, copayments, deductibles and penalties, and may be a fixed amount or a percentage of an applicable amount. Cost Share will be calculated on the basis of the rates charged to the Customer by Aetna for Covered Services except as required by law to be otherwise.

"Covered Services" means Prescription Drugs, Specialty Products, over-the-counter medications or other services or supplies that are covered under the terms and conditions set forth in the description of the Plan.

"Discount" means the percentage deduction from AWP that is to be taken into account by Aetna in determining the Calculated Ingredient Cost.

"Dispensing Fee" means an amount agreed by the Customer and Aetna in consideration of the costs associated with a Participating Pharmacy dispensing medication to a Plan Participant.

"DMR Claim" means a direct member (Plan Participant) reimbursement claim.

"Drug Classification" means that CVS Caremark shall use Medi-Span Master Drug Database (Medi-Span) indicators, and their associated files, or indicators provided by another nationally available reporting service of pharmaceutical drug information, in helping to determine the classification of drugs (e.g., Prescription Drug vs. OTC, Brand Drug vs. Generic Drug, Single-Source vs. Multi-Source) for purposes of this Agreement.

"Formulary" or **"Formularies"** means the list(s) of Prescription Drugs and supplies approved by the U.S. Food and Drug Administration ("FDA") developed by Aetna which classifies drugs and supplies for purposes of benefit design and coverage decisions.

"Generic Drugs" shall mean drugs or devices for which the Medi-Span Multisource Code field contains a "Y" (generic). In addition, Claims with DAW 5 code ("House Generics") shall be classified as Generic Drug Claims. In limited circumstances, Aetna may override the M, N, or O indicators and deem the drug to be a Generic Drug after a review of additional information including other Medi-Span data, FDA application data (NDA/ANDA) and price.

"Implementation Credit" if applicable, is a credit provided to the Customer to cover specific costs related to the transition from another vendor to Aetna and further described in the Fee Schedule

"Limited distribution drugs (LDDs) and exclusive distribution Specialty Products" are only available through a limited number of pharmacy providers due to exclusive or preferred vendor arrangements with drug manufacturers.

"Mail Order Pharmacy" or **"Specialty Pharmacy"** means a licensed mail order and specialty pharmacy designated by Aetna to provide or arrange for Covered Services to Plan Participants.

"Maximum Allowable Cost" or **"MAC"** means the cost basis for reimbursement established by Aetna, as modified from time to time, for the same dose and form of Generic Drugs which are included on Aetna's applicable MAC List.

"MAC List(s)" means the lists of MAC payment schedules for Prescription Drugs, devices and supplies identified as readily available as a Generic Drug or generally equivalent to a Brand Drug (in which case the Brand Drug may also be on the MAC List) and developed and maintained or selected by Aetna and that, in each case, are deemed to require or are otherwise capable of pricing management due to the number of drug manufacturers, utilization and/or pricing volatility.

"National Average Drug Acquisition Cost" or **"NADAC"** means an average of the drug acquisition costs submitted by retail community pharmacies as published by the Centers for Medicare and Medicaid Services.

"National Drug Code" or **"NDC"** means a universal product identifier for human drugs. The National Drug Code Query (NDCQ) content is limited to Prescription Drugs and a few selected OTC products. The National Drug Code (NDC) Number is a unique, eleven-digit, three-segment number that identifies the labeler/vendor, product, and trade package size.

"On-Line Claim" means a claim that (i) meets all applicable requirements, is submitted in the proper timeframe and format, and contains all necessary information, and (ii) is submitted electronically for payment to Aetna by a Participating Pharmacy as a result of provision of Covered Services to a Plan Participant.

"Participating Pharmacy" means a Participating Retail Pharmacy, Mail Order Pharmacy or Specialty Pharmacy.

"Participating Retail Pharmacy" means any licensed retail pharmacy that has entered into an arrangement with Aetna to provide Covered Services to Plan Participants.

"**Pharmacy Service and Fee Schedule**" means a document entitled same and incorporated herein by reference setting forth certain guarantees (if applicable), underlying conditions and other financial information relevant to Customer.

"Precertification" means a process under which certain drugs require precertification (prior approval) before Plan Participants can obtain them as a covered benefit. Aetna's Precertification unit must receive prior notification from physicians or their authorized agents requesting coverage for medications on the Precertification List.

"Prescriber" means an individual who is appropriately licensed and permitted by law to order drugs that legally require a prescription.

"Prescription Drug" means a legend drug that, by law, cannot be sold without a written prescription from an authorized Prescriber. For purposes of this Schedule, insulin, certain supplies, and devices shall be considered a Prescription Drug.

“Prospective Drug Utilization Review” or **“Prospective DUR”** means a review of drug utilization that is performed before a prescribed medication is covered under a Plan.

“**Rebates**” means the pharmaceutical manufacturer revenue shared with Aetna by CVS Caremark and/or any of their respective affiliates (i) pursuant to the terms of an agreement with a pharmaceutical manufacturer, (ii) in consideration for the inclusion of such manufacturer’s Prescription Drugs on Aetna’s Formulary and (ii) which are directly related and attributable to, and calculated based upon, the specific and identifiable utilization of certain Prescription Drugs by Plan Participants. Rebates shall not include any fees or other compensation paid, credited, or owing by a pharmaceutical manufacturer to Aetna or CVS Caremark or any of their respective affiliates, as applicable, in exchange for the performance or provision of front-end pharmacy or clinical services or activities, including any of the following services and activities: (i) Plan Participant adherence or compliance services, (ii) nursing or other Plan Participant support, (iii) physician or member communication services, (iv) Plan Participant assistance and referrals, (v) product launch and similar support, (vi) equipment replacement services, (vii) clinical and other research or studies, (viii) data and analytics, and (ix) services to ensure the appropriate distribution of high risk biopharmaceuticals.

“Rebate Guarantee” means the Rebate amount that Aetna guarantees the Customer will receive as set forth in the Pharmacy Service and Fee Schedule.

“Retrospective Drug Utilization Review” or **“Retrospective DUR”** means a review of drug utilization that is performed after a Claim for Covered Services is processed.

“Single Source Generics” means those generics having fewer than two FDA-approved Abbreviated New Drug Application (ANDA) manufacturers (not including any "authorized generics"), or alternatively generic drugs for which there is insufficient inventory and/or competition to supply market demand.

“Specialty Products” means those injectable and non-injectable Prescription Drugs, other medicines, agents, substances and other therapeutic products that are designated in the Pharmacy Service and Fee Schedule and modified by Aetna from time to time in its sole discretion as Specialty Products on account of their having particular characteristics, including one or more of the following: (i) they address complex, chronic diseases with many associated co-morbidities (e.g., cancer, rheumatoid arthritis, hemophilia, multiple sclerosis), (ii) they require a greater amount of pharmaceutical oversight and clinical monitoring for side effect management and to limit waste, (iii) they have limited pharmaceutical supply chain distribution as determined by the drug’s manufacturer and/or (iv) their relative expense.

“Step-Therapy” means a type of Precertification under which certain medications will be excluded from coverage unless the Plan Participant tries one or more “prerequisite” drug(s) first, or unless a medical exception for coverage is obtained.

“Tennessee Low Volume Pharmacy” means a Participating Pharmacy qualifying as low-volume ambulatory pharmacies pursuant to Tennessee Code Annotated, Section 56-7-3206(f) and the regulations promulgated thereunder.

“Tennessee Non-Low Volume Pharmacy” means every other Participating Pharmacy falling outside of the definition of the Tennessee Low Volume Pharmacy.

“Usual and Customary Retail Price” or **“U&C Price”** means the cash price less all applicable Customer discounts which Participating Pharmacy usually charges customers for providing pharmaceutical services.

"Wholesale Acquisition Cost" or **"WAC"** means the wholesale acquisition cost of a prescription drug as listed in the Medispan weekly price updates (or any other similar publication designated by Aetna) received by Aetna.

"340B Claim" means a Claim identified by the submission of "20" in any of the submission clarification code fields and/or a Claim submitted by a Participating Pharmacy owned by a covered entity, as defined in Section 340B(a)(4) of the Public Health Services Act, whose 340B status is coded as "38" or "39" in the NCPDP DataQ database.

V. ADMINISTRATIVE SERVICES

Subject to the terms and conditions of this Schedule, the Services to be provided by Aetna, as well as certain Customer obligations in connection thereto, are described below.

1. General Responsibilities and Obligations

a. Exclusivity

During the term of this Schedule, the Customer shall use Aetna as the exclusive provider of the Benefit Plan Design for Plan Participants covered thereby, including without limitation, for pharmacy claims processing, pharmacy network management, clinical programs, formulary management and rebate management. All terms under this Schedule and on the attached Pharmacy Service and Fee Schedule are conditioned on Aetna's status as the exclusive provider of the Benefit Plan Design. Any failure by the Customer to comply with this Section shall constitute a material breach of this Schedule and the Agreement. Without limiting Aetna's other rights or remedies, in the event the Customer fails to comply with this section, Aetna shall have the right to modify the terms and conditions of this Schedule, including without limitation, the financial terms set forth in the Pharmacy Service and Fee Schedule and any Performance Guarantees attached hereto.

2. Pharmacy Benefit Management Services

a. Pharmacy Claims Processing

(i) On-Line Claims Processing. Aetna will perform claims processing services for Covered Services that are provided by a Participating Pharmacy as of the Effective Date, and submitted electronically to Aetna's on-line claims processing system. On-Line Claims processing services shall include confirmation of coverage, performance of drug utilization review activities pursuant to this Schedule, determination of Covered Services, and adjudication of the On-Line Claims.

(ii) DMR Claims Processing. The Plan Participant shall be responsible for the submission of DMR Claims directly to Aetna on such form(s) provided by Aetna within the timeframe specified on the description of Plan benefits. DMR Claims shall be reimbursed by Aetna based on the lesser of: (i) the amount invoiced and indicated on such DMR Claim; or (ii) the amount the Plan Participant is entitled to be reimbursed for such claim pursuant to the description of Plan benefits.

b. Pharmacy Network Management

(i) Participating Retail Pharmacies. Any additions or deletions to the network of Participating Retail Pharmacies shall be made in Aetna's sole discretion. Aetna shall provide notice to the Customer of any deletions that have a material adverse impact on Plan Participants' access to Participating

Retail Pharmacies. Aetna shall direct each Participating Retail Pharmacy to (a) verify the Plan Participant's eligibility using Aetna's on-line claims system, and (b) charge and collect the applicable Cost Share from Plan Participants for each Covered Service. Aetna will adjudicate On-Line Claims for Covered Services from Participating Retail Pharmacies using the negotiated rates that Aetna has in place with the applicable Participating Retail Pharmacy.

- Aetna shall require each Participating Retail Pharmacy to comply with Aetna's applicable network participation requirements. Aetna does not direct or otherwise exercise any control over the professional judgment exercised by any pharmacist dispensing prescriptions or providing pharmacy services. Participating Retail Pharmacies are independent contractors of Aetna and Aetna shall have no liability to the Customer, any Plan Participant or any other person or entity for any act or omission of a Participating Retail Pharmacy or its agents, employees or representatives.

- Aetna shall adjudicate each On-Line Claim for services rendered by a Participating Retail Pharmacy at the applicable Discount and Dispensing Fee negotiated between Aetna and the Customer. For the avoidance of doubt, the Benefit Cost paid by the Customer in connection with On-Line Claims for services rendered by Participating Retail Pharmacies may or may not be equal to the Discount and Dispensing Fees negotiated between Aetna and such pharmacies. This is considered "traditional" or "lock in" pricing.

- For Customers contracted or headquartered in Tennessee, the Customer acknowledges that the Discounts and Dispensing Fees contained in this Agreement reflect a "transparent" or "pass-through pricing" arrangement with Tennessee Non-Low Volume Pharmacies at retail and Tennessee Low Volume Pharmacies at both retail and specialty. Transparent or pass-through pricing means the amount charged to the Customer and Plan Participants for network claims shall equal the amount paid to the Participating Pharmacy. Such amounts will include NADAC pricing where available in the Low Volume Network at both retail and specialty. The amount billed to the Customer will be equal to the amount paid to the Participating Pharmacies. Maintenance Choice Claims dispensed at CVS/pharmacy, if applicable, are exempt from the transparent pricing requirements under this Agreement.

- For Customers contracted or headquartered in West Virginia, Aetna shall adjudicate each On-Line Claim filled in West Virginia for services rendered by a Participating Retail Pharmacy at the applicable NADAC or WAC (in the event NADAC is not available) or at the prices paid to the Participating Retail Pharmacy (in the event WAC is not available). For the avoidance of doubt, the Benefit Cost paid by the Customer in connection with On-Line Claims for services rendered by the Participating Retail Pharmacies located in West Virginia will be equal to the Discount and Dispensing Fees paid to such pharmacy. This is considered "transparent" or "pass through" pricing. Maintenance Choice Claims dispensed at CVS/pharmacy, if applicable, are exempt from the transparent pricing requirements under this Agreement. For further clarification for Claims filled in West Virginia, pursuant to state regulations (subject to change as future regulations are introduced), the ingredient cost component will be calculated as follows: (NADAC price on the date dispensed) * the number of units dispensed. If no NADAC price is available, the calculation will be: (WAC price on the date dispensed) * the number of units dispensed. If no WAC price is available, the calculation will default to AWP minus a given percentage as negotiated with the pharmacy. Further, the Dispensing Fee component will be as outlined in state regulation.

(ii) Mail Order Pharmacy. Aetna shall make available information regarding how Plan Participants may access and use the Mail Order Pharmacy on its internet website and via its member services call center. The Mail Order Pharmacy shall verify the Plan Participant's eligibility using

Aetna's on-line claims system and shall charge and collect the applicable Cost Share from Plan Participants for each Covered Service. The Mail Order Pharmacy generally will require that medications and supplies be dispensed in quantities not to exceed a 90-day supply, unless otherwise specified in the description of Plan benefits. If the prescription and applicable law do not prohibit substitution of a Generic Drug equivalent, if any, for the prescribed drug, or if the Mail Order Pharmacy obtains consent of the Prescriber, the Mail Order Pharmacy shall require that the Generic Drug equivalent be dispensed to the Plan Participant. Certain Specialty Products, some acute drug products or certain compounds cannot be ordered through the Mail Order Pharmacy. The Mail Order Pharmacy shall make refill reminder and on-line ordering services available to Plan Participants. Aetna and/or the Mail Order Pharmacy may promote the use of the Mail Order Pharmacy to Plan Participants through informational mailings, coupons or other financial incentives at Aetna's and/or the Mail Order Pharmacy's cost, unless otherwise agreed upon by Aetna and the Customer.

(iii) Specialty Pharmacy. Aetna shall make available information regarding how Plan Participants may access and use the Specialty Pharmacy on its internet website and via its member services call center. The Specialty Pharmacy shall verify the Plan Participant's eligibility using Aetna's on-line claims system and shall charge and collect the applicable Cost Share from Plan Participants for each Covered Service. The Specialty Pharmacy generally will require that Specialty Products be dispensed in quantities not to exceed a 30-day supply, unless otherwise specified in the description of Plan benefits. If the prescription and applicable law do not prohibit substitution of a Generic Drug equivalent, if any, to the prescribed drug, or if the Specialty Pharmacy obtains consent of the Prescriber, the Specialty Pharmacy shall require that the Generic Drug equivalent be dispensed to the Plan Participant. The Specialty Pharmacy shall make refill reminder services available to Plan Participants. Aetna and/or the Specialty Pharmacy may promote the use of the Specialty Pharmacy to Plan Participants through informational mailings, coupons or other financial incentives at Aetna's and/or the Specialty Pharmacy's cost, unless otherwise agreed upon by Aetna and the Customer. Further information regarding Specialty Product pricing and limitations is provided in the Service and Fee Schedule.

c. Clinical Programs

(i) Formulary Management. Aetna offers several versions of formulary options ("Formulary") for the Customer to consider and adopt as its Formulary. The Formulary options made available to the Customer will be determined and communicated by Aetna prior to the implementation date. The Customer agrees and acknowledges that it is adopting the Formulary as a matter of its plan design and that Aetna has granted the Customer the right to use one of its Formulary options during the term of the Agreement solely in connection with the plan, and to distribute or make the Formulary available to members. As such, the Customer acknowledges and agrees that it has sole discretion and authority to accept or reject the Formulary that will be used in connection with the plan. The Customer further understands and agrees that from time to time Aetna may propose modifications to the drugs and supplies included on the Formulary as a result of factors, including but not limited to, market conditions, clinical information, cost, rebates and other factors. The Customer agrees that any proposed additions and/or deletions to the Formulary will be adopted by the plan sponsor as a matter of the plan sponsor's plan design, and that the Customer has the right to elect to not implement any such addition or deletion, which such election shall be considered a Customer change to the Formulary subject to Aetna's ability to operationally administer such election and, if so, Aetna's reservation of right to make appropriate and equitable financial changes resulting therefrom. The Customer also acknowledges and agrees that the Formulary options provided to it by Aetna is the business confidential information of Aetna and is subject to the requirements set forth in the Agreement.

(ii) Prospective Drug Utilization Review Services. Aetna shall implement and administer as specified in the description of Plan benefits the Prospective DUR program, which may include Precertification and Step-Therapy programs and other Aetna standard Prospective DUR programs, with respect to On-Line Claims. Under these programs, Plan Participants must meet standard Aetna clinical criteria before coverage of the Prescription Drugs included in the program will be authorized; provided, however, the Customer authorizes Aetna to approve coverage of drugs for uses that do not meet applicable clinical criteria in the event of complications, co-morbidities and other factors that are not specifically addressed in such criteria. Aetna shall perform exception reviews and authorize coverage overrides when appropriate for such programs, and other benefit exclusions and limitations. In performing such reviews, Aetna may rely solely on diagnosis and other information concerning the Plan Participant deemed credible and supplied to Aetna by the requesting provider, applicable clinical criteria and other information relevant or necessary to perform the review.

(iii) Concurrent Drug Utilization Review Services. Aetna shall implement and administer as specified in the description of Plan benefits its standard Concurrent DUR programs with respect to On-Line Claims. Aetna's Concurrent DUR programs help Participating Pharmacies to identify potential drug interactions, duplicate drug therapy and other circumstances where prescriptions may be clinically inappropriate for Plan Participants. Aetna's Concurrent DUR programs are educational programs that are based on available clinical literature. Aetna's Concurrent DUR programs are administered using information submitted to and available in Aetna's on-line claims system, as well as On-Line Claims information submitted by the Participating Pharmacy.

(iv) Retrospective Drug Utilization Review Services. Aetna shall implement and administer as specified in the description of Plan benefits its standard Retrospective DUR programs with respect to On-Line Claims. Aetna's Retrospective DUR programs are designed to help providers and Plan Participants identify circumstances where prescription drug therapy may be clinically inappropriate or other cost-effective drug alternatives may be available. Aetna's Retrospective DUR programs are educational programs and program results may be communicated to Plan Participants, providers and plan sponsors. Aetna's Retrospective DUR programs are administered using information submitted to and available in Aetna's On-Line Claims system, as well as On-Line Claims information submitted by the Participating Pharmacy.

(v) Drug Savings Review If purchased by the Customer as indicated on the Pharmacy Service and Fee Schedule, Aetna shall administer the Drug Savings Review program. Drug Savings Review uses Retrospective DUR approach. Claims are systematically analyzed within 72 hours of adjudication, for possible physician outreach based on program algorithms. The specific outreach programs are designed to promote quality, cost-effective care in accordance with accepted clinical guidelines through mailings or telephone calls to physicians.

Drug Savings Review will analyze Claims on a daily basis, identify potential opportunities for quality and cost improvements, and will notify physicians of those opportunities. The physician-based programs will identify:

- Certain medications that may duplicate each other's effect;
- Certain drug to drug interactions; and
- Prescriptions for a multiple daily dose when symptoms might be controlled with a once-daily dosing.

(vi) Pharmacy Advisor Program. Aetna shall implement and administer as specified in the description of Plan benefits the Pharmacy Advisor Program which focuses on improving adherence, reducing costs and closing gaps in care in targeted conditions where adherence is

critical, such as diabetes, asthma and heart failure. Identifying members with such targeted conditions will enable the Pharmacy Advisor Program to alert and provide pharmacists at local Participating Retail Pharmacies with information that will be helpful in their treatment. Effective January 1, 2021, the Pharmacy Advisor Program will be available only if purchased by the Customer as indicated on the Pharmacy Service and Fee Schedule.

(vii) Aetna Healthy Actions℠ Rx Savings. If purchased by the Customer as indicated on the Pharmacy Service and Fee Schedule, the Aetna Healthy Actions Rx Savings program helps to reduce a Plan Participant's cost share for certain prescription drugs and can include outreach to Plan Participants and prescribing doctor to help promote adherence. It targets drugs for which compliance has been found to be most critical to realize cost savings for Plan Participants and plan sponsors. The targeted drugs treat certain chronic conditions such as diabetes, hypertension, and asthma.

(viii) Choose Generics Program. If purchased by the Customer as indicated on the Fee Schedule, the Choose Generics Program is an option that encourages Plan Participants to receive generic equivalent rather than the Brand Drug. Under this program, Plan Participants can choose to obtain the Brand Drug at a higher than normal cost (subject to the exceptions described in the paragraph immediately below). Such higher cost will be equal to the Cost Share for the Brand Drug plus the difference in the cost between the Brand Drug and its generic equivalent. The cost differential is not applied to the Plan Participant's deductible.

If no generic equivalent medication or corresponding MAC amount is available or the prescriber has written "dispense as written" on the prescription order, the cost differential described above is not applied to the higher cost. In some instances, a Brand Drug is not eligible for a corresponding MAC amount due to Formulary and/or Rebate contract requirements that prohibit application of "member pay the difference" logic or mandate minimum copay steerage levels. In other instances, a Brand Drug may not be eligible for a corresponding MAC amount due to supply and/or pricing considerations.

Disclaimer Regarding Clinical Programs. Aetna's clinical programs do not dictate or control providers' decisions regarding the treatment of care of Plan Participants. Aetna assumes no liability from the Customer or any other person in connection with these programs, including the failure of a program to identify or prevent the use of drugs that result in injury to a Plan Participant.

d. Plan Participant Services and Programs

Internet services including the Secure Member Portal and Aetna Website.
Through the Secure Member Portal, Plan Participants have access to the Aetna website and Aetna Health mobile app. Plan Participants have access to the following:

- Estimating the cost of Prescription Drugs (Price a Drug℠).
- Prescription Comparison Tool – Compares the estimated cost of filling prescriptions at a Participating Retail Pharmacy to the Mail Order Pharmacy mail-order prescription service.
- Aetna Formulary – Available for Plan Participants who wish to review prescribed medications to verify if any additional coverage requirements apply.
- View drug alternatives for medications not on the Preferred Drug List.
- Claim information and EOBs.

RxSavings Plus Program (Core)

The RxSavings Plus Program (Core) allows Discount Program Participants to fill certain Prescription Drugs at discounted prices through Program Pharmacies. Discount Program Participants include former Plan Participants as well as non Plan Participants (i.e., part-time employees and new employees prior to benefit eligibility under this Agreement). Program Pharmacies are certain retail pharmacies participating in a discount network. All communication regarding the Rx Savings Plus Program (Core) will be provided by Customer.

RxSavings Plus Program (Optional)

If elected by Customer as indicated on the Pharmacy Service and Fee Schedule, the RxSavings Plus Program (Optional) will allow Plan Participants to fill Prescription Drugs not covered under the Benefit Plan Design through Program Pharmacies. All communication regarding the RxSavings Plus Program (Optional) will be provided by Customer.

Through the Aetna Pharmacy website, Plan Participants have access to the following:

- Find-A-Pharmacy – This service helps locate an Aetna participating chain or independent pharmacy on hundreds of medications and herbal remedies.
- Tips on drug safety and prevention of drug interactions.
- Answers to commonly asked questions about prescription drug benefits and access to educational videos.
- Preferred Drug List and Generic Substitution List.
- Step Therapy List.

e. Rebate Administration

(i) CVS Caremark shares Rebates with Aetna based on the utilization by Plan Participants of covered Prescription Drugs administered and paid through the Plan Participant's pharmacy benefits. Aetna, in turn, may share Rebates with Customer subject to the terms and conditions set forth in the Pharmacy Service and Fee Schedule.

(ii) If the Customer is eligible to receive Rebates under this Schedule, the Customer acknowledges and agrees that Aetna shall retain the interest (if any) on, or the time value of, any Rebates received by Aetna prior to Aetna's payment of such Rebates to the Customer in accordance with this Schedule. Aetna may delay payment of Rebates to the Customer to allow for final adjustments or reconciliation of Service Fees or other amounts owed by the Customer upon termination of this Schedule.

(iii) If the Customer is eligible to receive a portion of Rebates under this Schedule, the Customer acknowledges and agrees that such eligibility under paragraphs a. and b. above shall be subject to the Customer's and its affiliates', representatives' and agents' compliance with the terms of this Schedule, including without limitation, the following requirements:

- Election of, and compliance with, Aetna's Formulary;
- Adoption of and conformance to certain benefit plan design requirements related to the Formulary as described in Pharmacy Service and Fee Schedule; and
- Compliance with other generally applicable requirements for participation in Aetna's rebate program, as communicated by Aetna to the Customer from time to time.

The Customer further acknowledges and agrees that if it is eligible to receive a portion of Rebates under this Schedule, such eligibility shall be subject to the condition that the Customer, its affiliates, representatives and agents do not contract directly or indirectly with any other person or entity for discounts, utilization limits, Rebates or other financial incentives on pharmaceutical products or formulary programs for Claims processed by Aetna pursuant to this Agreement, without the prior written consent of Aetna. Without limiting Aetna's right to other remedies, failure by the Customer to obtain Aetna's prior written consent in accordance with the immediately preceding sentence shall constitute a material breach of the Agreement, entitling Aetna to (a) suspend payment of Rebates hereunder and to renegotiate the terms and conditions of this Agreement, and/or (b) immediately withhold any Rebates earned by, but not yet paid to, the Customer as necessary to prevent duplicative Rebates on such drugs.

VI. IMPORTANT INFORMATION ABOUT THE PHARMACY BENEFIT MANAGEMENT SERVICES

1. Rebate amounts vary based on several factors, including the volume of utilization, Benefit Plan Design, and Formulary or preferred coverage terms. Aetna may offer the Customer an amount of Rebates on Prescription Drugs that are administered through the Plan Participant's pharmacy benefit. These Rebates are earned when members use drugs listed on Aetna's Formulary and preferred Specialty Products. Aetna determines each customer's Rebates based on actual Plan Participant utilization of those Formulary and preferred Specialty Products for which Aetna receives Rebates from CVS Caremark. The amount of Rebates will be determined in accordance with the terms set forth in the Customer's Pharmacy Service and Fee Schedule.

   Rebates for Specialty Products that are administered and paid through the Plan Participant's medical benefit rather than the Plan Participant's pharmacy benefit will be retained by Aetna as compensation for Aetna's efforts in administering the preferred Specialty Products program. Pharmaceutical rebates earned on Prescription Drugs and Specialty Products administered and paid through the Plan Participant's pharmacy benefits represent the great majority of Rebates.

   A report indicating the Plan's Rebate payments, broken down by calendar quarter, is included with each remittance received under the program, and is also available upon request. Remittances are distributed as outlined in the Pharmacy Service and Fee Schedule. Interest (if any) received by Aetna prior to allocation to eligible self-funded customers is retained by Aetna.

2. The Customer acknowledges that from time to time, Aetna receives other payments from Prescription Drug manufacturers and other organizations that are not Rebates and which are paid separately to Aetna or designated third parties (e.g., mailing vendors, printers). These payments are to reimburse Aetna for the cost of various educational programs. These programs are designed to reinforce Aetna's goals of maintaining access to quality, affordable health care for Plan Participants and the Customer. These goals are typically accomplished by educating physicians and Plan Participants about established clinical guidelines, disease management, appropriate and cost-effective therapies, and other information. Aetna may also receive payments from Prescription Drug manufacturers and other organizations that are not Rebates. These payments are generally for one of three purposes: (i) to compensate Aetna for bona fide services it performs, such as the analysis or provision of aggregated data, (ii) to reimburse Aetna for the cost of various educational and other related programs, such as programs to educate physicians and Plan Participants about clinical guidelines, disease management and other effective therapies, or (iii) to compensate Aetna for the cost of developing and administering value-based rebate contracting arrangements when drug therapies underperform thereunder. These payments are not considered as Rebates and are not included in rebate sharing arrangements with plan sponsors, including without limitation, Customer.

CVS Caremark may also receive network transmission fees from its network pharmacies for services it provides for them. These amounts are not considered rebates and are not shared with plan sponsors. These amounts are also not considered part of the calculation of claims expense for purposes of discount guarantees.

Customer agrees that the amounts described above are not compensation for services provided under this Agreement by either Aetna or CVS Caremark, and instead are received by Aetna or CVS Caremark in connection with network contracting, provider education and other activities Aetna conducts across its book of business. Customer further agree that the amounts described above belong exclusively to Aetna or CVS Caremark, and Customer has no right to, or legal interest in, any portion of the aforesaid amounts received by Aetna or CVS Caremark.

These other payments are unrelated to the Prescription Drug Formulary Rebate arrangements and serve educational as well as other functions. Consequently, these payments are not considered Rebates, and are not included in the Rebates provided to the Customer, if any.

3. The Customer acknowledges that in evaluating clinically and therapeutically similar Prescription Drugs for selection for the Formulary, Aetna reviews the costs of Prescription Drugs and takes into account Rebates negotiated between CVS Caremark and Prescription Drug manufacturers. Consequently, a Prescription Drug may be included on the Formulary that is more expensive than a non-Formulary alternative before any Rebates Aetna may receive from CVS Caremark are taken into account. In addition, certain Prescription Drugs may be chosen for Formulary status because of their clinical or therapeutic advantages or level of acceptance among physicians even though they cost more than non-Formulary alternatives. The net cost to the Customer for Covered Services will vary based on: (i) the terms of CVS Caremark's arrangements with Participating Pharmacies; (ii) the amount of the Cost Share obligation under the terms of the Plan; and (iii) the amount, if any, of Rebates to which the Customer is entitled under this Schedule and Pharmacy Service and Fee Schedule. As a result, the Customer's actual claim expense per prescription for a particular Formulary Prescription Drug may in some circumstances be higher than for a non-Formulary alternative.

   In Plans with Cost Share tiers, use of Formulary Prescription Drugs generally will result in lower costs to Plan Participants. However, where the Plan utilizes a Cost Share calculated on a percentage basis, there could be some circumstances in which a Formulary Prescription Drug would cost the Plan Participant more than a non-Formulary Prescription Drug because: (i) the negotiated Participating Pharmacy payment rate for the Formulary Prescription Drug charged to Aetna by CVS Caremark may be more than the negotiated Participating Pharmacy payment rate charged to Aetna by CVS Caremark for the non-Formulary Prescription Drug; and (ii) Rebates received by Aetna from CVS Caremark are not reflected in the cost of a Prescription Drug obtained by a Plan Participant.

4. The Customer acknowledges that Aetna contracts with Participating Pharmacies through CVS Caremark to provide the Customer and Plan Participants with access to Covered Services. The prices negotiated and paid by Aetna to CVS Caremark for Covered Services dispensed by Participating Pharmacies can vary from one pharmacy product, plan or network to another.

   Under this Schedule and Pharmacy Service and Fee Schedule, the Customer and Aetna have negotiated and agreed upon a uniform or "lock-in" price to be paid by the Customer for all claims for Covered Services dispensed by Participating Pharmacies. This uniform price may exceed or be less than the actual price negotiated and paid by Aetna to CVS Caremark for Covered Services dispensed by the Participating Pharmacy. Where the uniform price exceeds the actual price negotiated and paid by Aetna to CVS Caremark for Covered Services dispensed by the Participating Pharmacy, Aetna realizes a positive margin. In cases where the uniform price is lower than the actual price negotiated and paid by Aetna to CVS Caremark for Covered Services dispensed by the Participating Pharmacy, Aetna realizes a negative

margin. Overall, lock-in pricing arrangements result in a positive margin for Aetna. Such margin is retained by Aetna in addition to any other fees, charges or other amounts agreed upon by Aetna and the Customer, as compensation for the pharmacy benefit management services Aetna provides to the Customer. Also, when Aetna receives payment from the Customer before payment to CVS Caremark, Aetna retains the benefit of the use of the funds between these payments.

5. The Customer acknowledges that Aetna generally pays CVS Caremark for Brand Drugs dispensed by Participating Pharmacies whose patents have expired and their Generic Drug equivalents at a single, fixed price established by Aetna (Maximum Allowable Cost or MAC). MAC pricing is designed to help promote appropriate, cost-effective dispensing by encouraging Participating Pharmacies to dispense equivalent Generic Drugs where clinically appropriate. When a Brand Drug patent expires and one or more generic alternatives first become available, the price for the Generic Drug(s) may not be significantly less than the price for the Brand Drug. Aetna reviews the drugs to determine whether to pay CVS Caremark based on MAC or on a discounted fee-for-service basis, typically a percentage discount off of the listed Average Wholesale Price of the drug (AWP Discount). This determination is based in part on a comparison under both the MAC and AWP Discount methodologies of the relative pricing of the Brand and Generic Drugs, taking into account any Rebates Aetna may receive from CVS Caremark in connection with the Brand Drug. If Aetna determines that under AWP Discount pricing the Brand Drug is less expensive (after taking into account manufacturer Rebates Aetna receives) than the generic alternative(s), Aetna may elect not to establish a MAC price for such Prescription Drugs and continue to pay CVS Caremark according to an AWP Discount.

   In some circumstances, a decision not to establish a MAC price for a Brand Drug and its generic equivalents dispensed by Participating Pharmacies could mean that the cost of such Prescription Drugs for the Customer is not reduced. In addition, there may be some circumstances where the Customer could incur higher costs for a specific Generic Drug ordered through the Mail Order Pharmacy than if such Generic Drug were dispensed by a Participating Retail Pharmacy. These situations may result from: (i) the terms of CVS Caremark's arrangements with Participating Pharmacies; (ii) the amount of the Cost Share; (iii) reduced retail prices and/or discounts offered by Participating Pharmacies to Plan Participants; and (iv) the amount, if any, of Rebates to which the Customer is entitled under the Schedule and the Pharmacy Fee Schedule.

XXXX - THIS AUDIT RIGHTS SECTION IS FOR WHEN REBATES ARE SHARED WITH THE CUSTOMER:
VII. AUDIT RIGHTS

1. General Pharmacy Audit Terms and Conditions

a. Subject to the terms and conditions set forth in the Agreement and disclosures made in the Pharmacy Service and Fee Schedule, the Customer shall be entitled to have audits performed on its behalf (hereinafter "**Pharmacy Audits**") to verify that Aetna has (a) processed Claims submitted by CVS Caremark for Covered Services dispensed by Participating Pharmacies, (b) paid Rebates in accordance with this Schedule and the Pharmacy Service and Fee Schedule. Pharmacy Audits may be performed at Aetna's Minnetonka, MN or Hartford, CT location.

b. Additional Terms and Conditions

   (i) Auditor Qualifications and Requirements specific to Pharmacy Audits

   All Pharmacy Audits shall be performed solely by third party auditors meeting the qualifications and requirements of the Agreement, this Schedule and the Pharmacy Service and Fee Schedule. In addition, to such qualifications requirements the auditor chosen by the Customer must be mutually agreeable to both the Customer and Aetna. Auditors may not be compensated on the

basis of a contingency fee or a percentage of overpayments identified, in accordance with the provisions of Section 8.207 through 8.209 of the International Federation of Accountant's (IFAC) Code of Ethics for Professional Accountants (Revised 2004).

(ii) Auditor Qualifications and Requirements specific to Rebate Audits

Any audit of Aetna's agreements with pharmaceutical manufacturers will be conducted by (a) one of the major public accounting firms (currently the "Big 4") approved by Aetna whose audit department is a separate stand alone function of its business, or (b) a national CPA firm approved by Aetna whose audit department is a separate stand alone function of its business.

(iii) Closing Meeting

In the event that Aetna and the Customer's auditors are unable to resolve any such disagreement regarding draft Pharmacy Audit findings, either Aetna or the Customer shall have the right to refer such dispute to an independent third-party auditor meeting the requirements of the Agreement, this section VII and the Pharmacy Service and Fee Schedule and selected by mutual agreement of Aetna and the Customer. The parties shall bear equally the fees and charges of any such independent third-party auditor, provided however that if such auditor determines that Aetna or the Customer's auditor is correct, the non-prevailing party shall bear all fees and charges of such auditor. The determination by any such independent third-party auditor shall be final and binding upon the parties, absent manifest error, and shall be reflected in the final Pharmacy Audit report.

2. Additional Claim and Rebate Audit Terms and Conditions

a. Rebate Audits

Subject to the terms and limitations of this Schedule, the Agreement, and the Pharmacy Service and Fee Schedule including without limitation the general Pharmacy Audit terms and conditions set forth in this section VII, the Customer shall be entitled to audit Aetna's calculation of Rebates received by the Customer as set forth below. Aetna will share the relevant portions of the applicable formulary rebate contracts, including the manufacturer names, drug names and rebate percentages for the drugs being audited. The drugs to be audited will be selected by mutual agreement of the parties. The parties will reasonably cooperate to select drugs for each audit that (a) represent the fewest unique manufacturer rebate contracts required for audit so that the selected drugs represent a maximum of 15% of the Customer's Rebates; which are attributable to the drugs most highly utilized by Plan Participants (b) shall be limited to (two) 2 consecutive quarters and (c) are subject to manufacturer rebate agreements that do not contain restrictions prohibiting Aetna from disclosing to the Customer portions of such contracts concerning the rebates, payments or fees payable there under. Aetna will also provide access to all documents reasonably necessary to verify that Rebates have been invoiced, calculated, and paid by Aetna in accordance with this Schedule. The Customer is entitled to only one annual Rebate audit. Prior to the commencement of such audit, the Customer and auditor shall enter into a rebate audit confidentiality agreement acceptable to Aetna.

b. Pharmacy Claim Audits

Claim audits are subject to the above referenced audit standards in the case of a physical, on-site, Claim-based audit. In the case of electronic Claim audits that follow standard pharmacy benefit audit practices where electronic re-adjudication of Claims is requested and processed off-site, the Customer may elect to audit electronically 100% of the prior contract year claims. Aetna will review

and respond to a maximum of 250 disputed Claims from the auditor's fall out within 30 business days. The Customer is entitled to only one annual Claim audit.

XXXX - THIS AUDIT SECTION IS FOR WHEN REBATES ARE NOT SHARED

VII. AUDIT RIGHTS

1. General Pharmacy Audit Terms and Conditions

a. Subject to the terms and conditions set forth in this Schedule, the Agreement and the Pharmacy Service and Fee Schedule, the Customer shall be entitled to have audits performed on its behalf (hereinafter "**Pharmacy Audits**") to verify that Aetna has processed Claims submitted by CVS Caremark for Covered Services dispensed by Participating Pharmacies in accordance with this Agreement. Pharmacy Audits must be performed at Aetna's Minnetonka, MN location.

b. Additional Terms and Conditions

(i) Auditor Qualifications and Requirements specific to Pharmacy Audits

All Pharmacy Audits shall be performed solely by third party auditors meeting the qualifications and requirements of the Agreement, this Schedule and the Pharmacy Service and Fee Schedule. In addition, the requirements set forth in section 11, Audit Rights of the Agreement, the auditor chosen by the Customer must be mutually agreeable to both the Customer and Aetna. Auditors may not be compensated on the basis of a contingency fee or a percentage of overpayments identified, in accordance with the provisions of Section 8.207 through 8.209 of the International Federation of Accountant's (IFAC) Code of Ethics for Professional Accountants (Revised 2004).

(ii) Closing Meeting

In the event that Aetna and the Customer's auditors are unable to resolve any such disagreement regarding draft Pharmacy Audit findings, either Aetna or the Customer shall have the right to refer such dispute to an independent third-party auditor meeting the requirements of the Agreement, this section VII, and the Pharmacy Service and Fee Schedule and selected by mutual agreement of Aetna and the Customer. The parties shall bear equally the fees and charges of any such independent third-party auditor, provided however that if such auditor determines that Aetna or the Customer's auditor is correct, the non-prevailing party shall bear all fees and charges of such auditor. The determination by any such independent third-party auditor shall be final and binding upon the parties, absent manifest error, and shall be reflected in the final Pharmacy Audit report.

2. Additional Pharmacy Claim Audit Terms and Conditions

Claim audits are subject to the above referenced audit standards in the case of a physical, on-site, Claim-based audit. In the case of electronic Claim audits that follow standard pharmacy benefit audit practices where electronic re-adjudication of Claims is requested and processed off-site, the Customer may elect to audit 100% of claims. The Customer is entitled to only one annual Claim audit.

TEMPORARY EXHIBIT 1 –HEALTH COVERAGE
PLAN OF BENEFITS
MASTER SERVICES AGREEMENT MSA - SAMPLE
EFFECTIVE SAMPLE

The Plan(s) described in this Temporary Exhibit are benefit plans of the Customer. These benefits are not insured with Aetna but will be paid from the Customer's funds. Until this Temporary Exhibit is otherwise modified or replaced in its entirety by agreement between Aetna and the Customer:

1. Aetna will provide certain administrative services to the Plan as outlined in the Letter of Understanding signed by Aetna.
2. Aetna will use the description of covered benefits, services and programs outlined in the Plan Design(s), including any subsequent changes agreed to by Aetna and the Customer, in the administration of the Plan(s).
3. Further, in the administration of the Plan(s), Aetna will use Aetna's standard plan General Exclusions and standard Glossary definitions of terms.

The terms of this Temporary Exhibit control until superseded by a subsequent Plan document or Summary Plan Description, for any specific benefits applicable to any class(es) of employees, as indicated therein.

6.15. Wellness Incentive Program:

Please outline, in detail, your proposed Wellness Program and any resources available to the City of Pompano Beach (including Mental Health wellness resources). Please also include a minimum of $100,000 in annual Wellness Funds.

Fully Insured

Aetna Health Your Way Core is included in our financial proposal. We are proposing Aetna Health Your Way Achieve on an optional basis, for an additional premium cost. Our financial proposal documents provide pricing for programs available on an optional basis, and any applicable terms and conditions. These documents are included in the Financial Information section of our proposal response.

We have included a $100,000 Wellness Allowance and a $50,000 Technology Allowance as part of our financial proposal. Please see the financial proposal for additional information about our wellness program and allowances.

Self-Funded

Aetna Health Your Way Core is included in the base fee. Aetna Health Your Way Achieve is available for purchase as a buy up for $5.75 PEPM. Please see the financial package for specific information about our wellness programs.

We have included a $150,000 Health Plan Allowance, that can be used for wellness related expenses, as part of our financial proposal. Please see the financial proposal for additional information about our wellness program and allowances.

6.16. Technology Funds:

Proposers are encouraged to include technology funds in their Proposal.

Fully Insured

We have included a $100,000 Wellness Allowance and a $50,000 Technology Allowance as part of our financial proposal. Please see the financial proposal for additional information about our wellness program and allowances.

Self-Funded

We have included a $150,000 Health Plan Allowance, that can be used for wellness related expenses, as part of our financial proposal. Please see the financial proposal for additional information about our wellness program and allowances.

6.17. Guarantees:

Proposers are encouraged to include performance guarantees, implementation guarantees, service guarantees, and network discount guarantees.

Medical

We have included performance guarantees at 15% of collected fees at risk which include metrics on implementation and service, and a discount guarantee at REDACTED of collected fees at risk. Please see the financial package for specific information about our guarantees.

Pharmacy

Please refer to our financial proposal documents included within our proposal response for a detailed description of our proposed guarantees and our terms and conditions.

6.18. Rate Guarantees:

The City of Pompano Beach highly recommends Proposals for ASO to provide multiple-year rate guarantees.

Confirmed. We have offered a three year flat fee guarantee of REDACTED PEPM with a three percent escalator applied to years four and five. Please see the financial proposal for additional information.

6.19. Plan Implementation:

It is a requirement that the Proposer awarded this contract provide representative(s) to assist with implementation, open enrollment, employee communications, and ongoing assistance with routine plan administration.

Confirmed. Tawanda Simmons-Johnson will be your Implementation Manager. Please refer to the Biography attached to this request.

Implementation Solutions

The proactive implementation team approach

We understand that implementing new health benefits packages can present many challenges. That's why we provide you with a whole team of experts to help guide you through a smooth transition.

You will have many questions along the way, including:

- How are business and member deliverables managed?
- How and when are benefit changes communicated to employees?
- What is the timing of the open enrollment period?
- How is the exchange of key information facilitated?

We help you address these questions by combining a team of experts supported by effective project management tools. This approach, in place for over 30 years and refined annually through our continuous quality initiatives, sets the foundation for a long-lasting relationship with you.

Collaboration and accountability

Our implementation team approach establishes a collaborative environment through the partnership we create with you and your business partners. Your Implementation Manager leads a team of our subject matter experts and City of Pompano Beach representatives. While each member of the implementation team contributes his or her unique talents to ensure a seamless transition, the Implementation Manager has overall accountability to you.

Your Implementation Manager develops an Implementation Management Plan that outlines tasks and target completion dates specific to each team member. The Implementation Manager carefully monitors the progress using this plan and other project management tools. Through regularly scheduled meetings and conference calls, the team provides updates and the status and resolution of issues raised during the transition.

Continuous commitment

We remain committed in our service to you. Several members of the implementation team remain actively involved with the ongoing service of your account.

Implementation Solutions

The implementation team – roles and responsibilities

The implementation team members work together throughout the duration of the project toward a seamless transition of your benefits program. This team includes the following representatives:

The City of Pompano Beach team

We recommend that the implementation team includes City of Pompano Beach representatives from the following areas:

- Employee benefits
- Eligibility
- Finance
- Human resources
- Communications

In addition, we recommend including Gehring Group contact.

The Aetna team

Your implementation team includes the following Aetna members:

- Renthia Jackson, Sales Executive

- Account Executive/Account Manager

  - Primary Aetna contact throughout implementation
  - Coordinates open enrollment activities
  - Provides ongoing account management after the plan effective date

- Susan Victoria, Proposal Director
  Ashley Hinckley, Strategic Proposal Consultant

  - Provides initial details of sale, rates, special procedures
  - Prepares and documents the Letter of Understanding

Implementation Solutions

- Member Service Center
  - Provides member services support
  - Processes claims
  - Coordinates audits
- Implementation Manager
  - Directs implementation activities
  - Oversees activities of all Aetna areas
- Plan Benefit Set-Up
  - Reviews benefits plans
  - Codes benefits and structure into Aetna systems
  - Distributes documents to appropriate departments
- Contracts/Agreements
  - Drafts contracts
  - Prepares funding agreements
  - Drafts employee Booklets and/or Certificates of Coverage, if applicable
- Eligibility
  - Maintains member eligibility data
  - Coordinates production and ID card mailings
- Billing
  - Codes billing rates into Aetna systems
  - Prepares billing statements

Implementation Solutions

Assumptions

We have created the project management tools (Key Events, Implementation Management Plan and Gantt Chart) based upon the information and assumptions provided.

- The decision to implement the proposed benefits program will be made by 06/10/2026
- The effective date will be 10/01/2026
- Benefits will be those described in the proposal
- Eligibility certification:
  - Aetna will certify eligibility for medical and pharmacy claims
  - City of Pompano Beach will report eligibility via electronic file
- Funding arrangements:
  - The Retail Pharmacy and Open Access Aetna Select plans will be on a self-funded basis with Stop Loss
  - The Open Access Managed Choice POS and Open Access Elect Choice plans will be on a fully insured basis
- Billing methods:
  - List or Summary Style Invoice
- Aetna pays claims incurred on and after the effective date of 10/01/2026
- Prior Carrier will pay claims runoff incurred prior to 10/01/2026

Implementation Solutions

Project management tools

We manage implementation of your plan with the help of the tools listed below. All dates are approximate and will be modified as priorities are determined.

Key Events

The Key Events view of the implementation plan highlights the important milestones and dates that the team focuses on during the implementation.

City of Pompano Beach_KEY.pdf

Implementation Management Plan

The Implementation Management Plan provides an ongoing status report on the team's progress and identifies the following:

- Tasks to be completed
- The individual(s) responsible
- A scheduled start and finish date

This plan is updated throughout the implementation and distributed to all implementation team members.

Your Aetna team

Tawanda Simmons-Johnson

Senior Implementation Manager

Tawanda Simmons-Johnson joined Customer Implementation Management Services (CIMS) in March 2022 after excelling as an implementation manager in the Key and Select market for seven years. She is responsible for managing new implementations and new business for Aetna plan sponsors. This includes managing all activities of the project team and establishing effective relationships with customers, product managers and service personnel, both internal and external to Aetna. The project team members consist of Aetna service, operations, product, program, and IT employees, members of the plan sponsor's organization, consultants and brokers, and specialty vendors.

Tawanda has been with Aetna and in the healthcare industry for over 25 years. She oversees Large Group Case Installation processes focusing on Public & Labor, Key and Select business. She has over eight years of team leadership/project management experience. Tawanda is focused on supporting Aetna's Values, identifying and meeting our customer's needs and adding value within the implementation process.

Tawanda's credentials include ABX Yellow Belt certification, former Life, Health & Variable Annuity Licensed Agent, Project Management Essentials Certified, and a Master of Business Administration degree.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).

©2022 Aetna Inc.

6.20. Conflicts of Interest:

Provide the name(s) of any officer, director, agent, or immediate family member (spouse, parent, sibling, and child) who is also an employee, elected or appointed official of the City of Pompano Beach. Further, the Proposer must disclose the name of any City employee, elected or appointed official who owns, either directly or indirectly, an interest of ten (10%) percent or more in the Proposer entity or any of its affiliates.

Not applicable.

6.21 Litigation:

Disclose any litigation within the past five (5) years of the firm's/team member's performance, including status/outcome. If there is no litigation, the Proposer must include a letter that no litigation exists within the past (5) years.

Aetna Life Insurance Company (ALIC) may be involved in regulatory actions and litigation regarding the administration of our businesses. Due to the size of our business, non-material government, regulatory or administrative investigations, proceedings, complaints, lawsuits or other legal proceedings naturally flow from disputes that arise out of the sensitive nature of services provided by a managed care organization.

ALIC is an indirect wholly owned subsidiary of CVS Health Corporation. We disclose significant regulatory actions and litigations in our parent company's SEC filings. You can find information on Litigation and Regulatory Proceedings in CVS Health's annual and quarterly filings with the SEC.

We haven't been debarred or precluded in any way from doing business in any state. We work diligently and expeditiously to resolve issues that arise as a result of administering or insuring benefit plans for our customers.

6.22. Local Business Program (Maximum 5 points)

The Procurement and Contracts staff will evaluate this section. On March 13, 2018, the City Commission approved Ordinance 2018-46, establishing a Local Business Program, a policy to increase the participation of City businesses in the City's procurement process.

For purposes of this solicitation, "Local Business" will be defined as follows: TIER 1 LOCAL VENDOR.

POMPANO BEACH BUSINESS EMPLOYING POMPANO BEACH RESIDENTS. A business entity that has maintained a permanent place of business within the City limits and maintains a staffing level, within this local office, of at least ten percent who are residents of the City, or includes subcontracting commitments to Local Vendors Subcontractors for at least ten percent of the contract value. The permanent place of business may not be a post office box. The business must be located in a non-residential zone and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the City. In addition, the business must have a current business tax receipt from the City for a minimum of one year prior to the date of issuance of a solicitation.
TIER 2 LOCAL VENDOR.

BROWARD COUNTY BUSINESS EMPLOYING POMPANO BEACH RESIDENTS OR UTILIZING LOCAL VENDOR SUBCONTRACTORS. A business entity, which has maintained a permanent place of business within Broward County and maintains a staffing level, within this local office, of at least 15% who are residents of the City, or includes subcontracting commitments to Local Vendors Subcontractors for at least 20% of the contract value. The permanent place of business may not be a post office box. The business must be located in a non-residential zone and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the City. In addition, the business must have a current business tax receipt from the respective Broward County municipality for a minimum of one year prior to the date of issuance of a solicitation.

LOCAL VENDOR SUBCONTRACTOR.

POMPANO BEACH BUSINESS. A business entity that has maintained a permanent place of business within the City limits of the City. The permanent place of business may not be a post office box. The business must be located in a non-residential zone and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the City. In addition, the business must have a current business tax receipt from the City for a minimum of one year prior to the date of issuance of a solicitation.

You can view the list of City businesses with a current Business Tax Receipt on the City's website and locate local companies that are available to perform the work required by the RFP scope of services. The business information, sorted by business use classification, is posted on the Business Tax Receipt Division webpage: www.pompanobeachfl.gov by selecting the Pompano Beach Business Directory in the Shop Pompano! Section.

The City is strongly committed to ensuring the participation of City Businesses as contractors and subcontractors for procuring goods and services, including labor, materials, and equipment.

Proposers are required to participate in the City's Local Business Program by including, as part of their package, the Local Business Participation Form (Exhibit A), listing the local businesses that will be used on the contract, and the Letter of Intent Form (Exhibit B) from each local business that will participate in the contract.

If a Prime Contractor/Vendor is not able to achieve the level of goal attainment of the contract, the Prime Vendor will be requested to demonstrate and document that good faith efforts were made to achieve the goal by providing the Local Business Unavailability Form (Exhibit C), listing companies that were contacted but not available, and the Good Faith Effort Report (Exhibit D), describing the efforts made to include local business participation in the contract. This documentation shall be provided to the City Commission for acceptance.

The awarded Proposer will be required to submit "Local Business Subcontractor Utilization Reports" during projects and after projects have been completed. The reports will be submitted to the assigned City project manager. The Local Business Subcontractor Utilization Report template and instructions have been included in the bid document.

Failure to meet Local Vendor Goal commitments will result in an "unsatisfactory" compliance rating. Unsatisfactory ratings may impact the award of future projects if a sanction is imposed by the City Commission.

The City shall award a Local Vendor preference based upon vendors, contractors, or subcontractors who are local, with a preference as follows:

For evaluation purposes, the Tier 1 and Tier 2 businesses shall be a criterion for award in this Solicitation. No business may qualify for more than one tier level.

For evaluation purposes, local vendors shall receive the following preferences:

Tier 1 business, as defined by this subsection, shall be granted a preference in the amount of 5 Points. Tier 2 business, as defined by this subsection, shall be granted a preference in the amount of 2.5 Points.

It is the responsibility of the awarded vendor/contractor to comply with all Tier 1 and Tier 2 guidelines. The awarded vendor/contractor must ensure all requirements are met before contract execution.

PROPOSERS APPLYING FOR TIER 1 STATUS, OR THOSE LISTING LOCAL SUBCONTRACTORS OR SUBCONSULTANTS IN EXHIBIT A, MUST PROVIDE A VALID CITY OF POMPANO BEACH BUSINESS TAX RECEIPT FOR THE PROPOSER AND FOR EACH LOCAL SUBCONTRACTOR OR SUBCONSULTANT IDENTIFIED. FAILURE TO INCLUDE THE REQUIRED BUSINESS TAX RECEIPT(S) WILL RESULT IN THE DISQUALIFICATION OF THE SUBCONTRACTOR OR SUBCONSULTANT FROM THE LOCAL BUSINESS PROGRAM AND THE LOSS OF ALL ASSOCIATED POINTS.

IF A PROPOSER IS NOT CLAIMING PARTICIPATION IN ANY LOCAL BUSINESS PROGRAM TIER, THE REQUIRED FORMS (EXHIBITS A THROUGH D, AS APPLICABLE) MUST STILL BE SUBMITTED AND CLEARLY MARKED "NOT APPLICABLE" THROUGHOUT. PROPOSALS SUBMITTED WITHOUT THE REQUIRED DOCUMENTATION WILL BE DEEMED NON-RESPONSIVE AND INELIGIBLE FOR AWARD.

Confirmed.

The following form is not applicable as we have claimed Tier 2 status that our firm has maintained a permanent place of business within Broward County and maintains a staffing level, within this local office, of at least 15% who are residents of the City of Pompano Beach.

Aetna Standard Plan Exclusions List

PREFERRED OPTIONS LIST FOR FORMULARY DRUG REMOVALS AND DRUGS COVERED ONLY WHEN PREFERRED OPTIONS ARE NOT CLINICALLY APPROPRIATE

The preferred options listed below are a broad representation of available treatment options and do not necessarily represent clinical equivalency.

Key	
UPPERCASE	Brand-name medicine
Upper and lowercase italics	Branded generic medicine
lowercase italics	Generic medicine

DRUG NAME(S)	PREFERRED OPTION(S)
ABILIFY	*aripiprazole, clozapine, lurasidone, olanzapine, quetiapine, quetiapine ext-rel, risperidone, ziprasidone,* VRAYLAR
ACANYA	*adapalene* (except *adapalene pad*)*, benzoyl peroxide, clindamycin gel* (except NDC 68682046275)*, clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
ACIPHEX, ACIPHEX SPRINKLE	*esomeprazole delayed-rel*, *lansoprazole delayed-rel capsule*, *omeprazole delayed-rel*, *pantoprazole delayed-rel tablet*
Activite	*generic multivitamins*
ACTOS	*pioglitazone*
ACUVAIL	*bromfenac, diclofenac, ketorolac,* ILEVRO
acyclovir cream	*acyclovir capsule, acyclovir tablet, valacyclovir*
ACZONE	*adapalene* (except *adapalene pad*)*, benzoyl peroxide, clindamycin gel* (except NDC 68682046275)*, clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
adapalene pad	*adapalene* (except *adapalene pad*)*, benzoyl peroxide, clindamycin gel* (except NDC 68682046275)*, clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI

DRUG NAME(S)	PREFERRED OPTION(S)
ADDERALL	*amphetamine-dextroamphetamine mixed salts, methylphenidate*
ADDERALL XR	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
ADRENALIN	*epinephrine* (except NDCs 00093-XXXX-XX, 49502-XXXX-XX), AUVI-Q
ADVAIR DISKUS, ADVAIR HFA	*budesonide-formoterol, fluticasone-salmeterol* (except certain NDCs), *Breyna, Wixela Inhub,* BREO ELLIPTA (except certain NDCs)
ADZENYS XR-ODT	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
AIMOVIG	AJOVY, EMGALITY, QULIPTA
albuterol sulfate CFC-free aerosol (NDCs 00093317431, 66993001968 only)	*albuterol sulfate CFC-free aerosol* (except NDCs 00093317431, 66993001968), *levalbuterol tartrate CFC-free aerosol*
ALEVICYN GEL, ALEVICYN SG, ALEVICYN SOLUTION	*desonide* (except *desonide gel*), *hydrocortisone*
ALIMTA	*pemetrexed*
ALLISON MEDICAL INSULIN S YRINGES	BD ULTRAFINE INSULIN SYRINGES, EMBECTA ULTRAFINE INSULIN SYRINGES (except certain NDCs)
ALREX	*azelastine*, *bepotastine*, *cromolyn sodium*, *loteprednol, olopatadine*
ALTOPREV	*atorvastatin, ezetimibe-simvastatin, fluvastatin, lovastatin, pitavastatin, pravastatin, rosuvastatin, simvastatin*
ALVESCO	ASMANEX HFA, PULMICORT FLEXHALER
AMITIZA	*lubiprostone*, *prucalopride,* LINZESS, MOVANTIK, SYMPROIC
AMRIX	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
ANDROGEL	*testosterone gel* (except authorized generics for TESTIM and VOGELXO), *testosterone solution,* NATESTO
APIDRA	FIASP, NOVOLOG
APLENZIN	*bupropion, bupropion ext-rel* (except *bupropion ext-rel tablet 450 mg)*
APTENSIO XR	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
ARAZLO	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
ARNUITY ELLIPTA	ASMANEX HFA, PULMICORT FLEXHALER
ARTHROTEC	*celecoxib; diclofenac sodium, ibuprofen, meloxicam tablet* or *naproxen* (except *naproxen CR* or *naproxen suspension*) **WITH** *esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel,* or *pantoprazole delayed-rel tablet*
ASCENSIA STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS

DRUG NAME(S)	PREFERRED OPTION(S)
ASMANEX	ASMANEX HFA, PULMICORT FLEXHALER
ATACAND, ATACAND HCT	*candesartan, candesartan-hydrochlorothiazide, irbesartan, irbesartan-hydrochlorothiazide, losartan, losartan-hydrochlorothiazide, olmesartan, olmesartan-hydrochlorothiazide, telmisartan, telmisartan-hydrochlorothiazide, valsartan, valsartan-hydrochlorothiazide*
ATIVAN	*alprazolam*, *clonazepam*, *diazepam*, *lorazepam*, *oxazepam*
AVENOVA	Talk to your doctor
AZASITE	*ciprofloxacin, erythromycin, gentamicin, levofloxacin, moxifloxacin, ofloxacin, sulfacetamide, tobramycin,* BESIVANCE

AZESCO	*generic prenatal vitamins*
AZOR	*amlodipine-olmesartan, amlodipine-telmisartan, amlodipine-valsartan*
BALCOLTRA	*ethinyl estradiol-drospirenone, ethinyl estradiol-drospirenone-levomefolate, ethinyl estradiol-levonorgestrel, ethinyl estradiol-levonorgestrel-iron, ethinyl estradiol-norethindrone acetate, ethinyl estradiol-norethindrone acetate-iron, ethinyl estradiol-norgestimate,* LO LOESTRIN FE, NATAZIA
BANZEL	*clobazam*, *clonazepam, lamotrigine*, *rufinamide*, *topiramate*, *topiramate ext-rel*
BASAGLAR	INSULIN GLARGINE-YFGN, LANTUS
BENICAR, BENICAR HCT	*candesartan, candesartan-hydrochlorothiazide, irbesartan, irbesartan-hydrochlorothiazide, losartan, losartan-hydrochlorothiazide, olmesartan, olmesartan-hydrochlorothiazide, telmisartan, telmisartan-hydrochlorothiazide, valsartan, valsartan-hydrochlorothiazide*
BENSAL HP	*desonide* (except *desonide gel*)*, hydrocortisone*
benzonatate (NDCs 69336012615, 69499032915 only)	*benzonatate* (except NDCs 69336012615, 69499032915)
BEPREVE	*azelastine, bepotastine, cromolyn sodium*, *loteprednol, olopatadine*
BETAMETHASONE ACETATE-BETAMETHASONE SODIUM PHOSPHATE	*dexamethasone, hydrocortisone, methylprednisolone, prednisolone solution* (except *prednisolone solution 10 mg/5 mL, 20 mg/5 mL*)*, prednisone*
betamethasone dipropionate ointment 0.05%	*desoximetasone* (except *desoximetasone ointment 0.05%*)*, fluocinonide* (except *fluocinonide cream 0.1%*), BRYHALI
BETAPACE, BETAPACE AF	*sotalol*
BETIMOL	*timolol maleate solution,* BETOPTIC S
BEVESPI AEROSPHERE	ANORO ELLIPTA, STIOLTO RESPIMAT
BEYAZ	*ethinyl estradiol-drospirenone, ethinyl estradiol-drospirenone-levomefolate, ethinyl estradiol-levonorgestrel, ethinyl estradiol-levonorgestrel-iron, ethinyl estradiol-norethindrone acetate, ethinyl estradiol-norethindrone acetate-iron, ethinyl estradiol-norgestimate,* LO LOESTRIN FE, NATAZIA
BREEZE 2 STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK

DRUG NAME(S)	PREFERRED OPTION(S)
	GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS
BROMSITE	*bromfenac, diclofenac, ketorolac,* ILEVRO
budesonide ext-rel tablet	*balsalazide, mesalamine delayed-rel, mesalamine ext-rel, sulfasalazine, sulfasalazine delayed-rel*
bupropion ext-rel tablet 450 mg	*bupropion, bupropion ext-rel* (except *bupropion ext-rel tablet 450 mg*)
butalbital-acetaminophen capsule, butalbital-acetaminophen tablet 25-325 mg, butalbital-acetaminophen tablet 50-300 mg, BUTALBITAL-ACETAMINOPHEN (NDC 69499034230 only)	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
butalbital-acetaminophen-caffeine capsule	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
BUTRANS	*buprenorphine transdermal*, BELBUCA
BYDUREON BCISE	*liraglutide,* MOUNJARO, OZEMPIC, RYBELSUS, TRULICITY
BYETTA	*liraglutide,* MOUNJARO, OZEMPIC, RYBELSUS, TRULICITY
BYSTOLIC	*acebutolol, atenolol, carvedilol, carvedilol phosphate ext-rel, metoprolol succinate ext-rel, metoprolol tartrate, nadolol, nebivolol, pindolol, propranolol, propranolol ext-rel*
calcipotriene cream, CALCIPOTRIENE FOAM	*calcipotriene ointment, calcipotriene solution, tazarotene,* VTAMA, ZORYVE CREAM, ZORYVE FOAM
calcipotriene-betamethasone	*calcipotriene ointment* or *calcipotriene solution* **WITH** *desoximetasone* (except *desoximetasone ointment 0.05%*), *fluocinonide* (except *fluocinonide cream 0.1%*) or

DRUG NAME(S)	PREFERRED OPTION(S)
	BRYHALI; *tazarotene,* ENSTILAR, VTAMA, ZORYVE CREAM, ZORYVE FOAM
calcitriol ointment	*calcipotriene ointment, calcipotriene solution, tazarotene,* VTAMA, ZORYVE CREAM, ZORYVE FOAM
CAMBIA	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
Capsinac	*diclofenac sodium, diclofenac sodium gel 1%*, *diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)
CARAFATE	*sucralfate tablet*
carbinoxamine tablet 6 mg (NDC 73684011060 only), CARBINOXAMINE TABLET 6 MG	*levocetirizine*
CARDIZEM, CARDIZEM CD, CARDIZEM LA	*diltiazem ext-rel* (except generics for CARDIZEM LA), *verapamil ext-rel*
carisoprodol 250 mg	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
CARNITOR, CARNITOR SF	*levocarnitine*
CELEBREX	*celecoxib, diclofenac sodium, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)
chlordiazepoxide-clidinium (NDCs 11534019701, 42494040901, 51293069601, 51293069610, 67877073101, 70700018501 only)	*dicyclomine*
chlorzoxazone 250 mg, chlorzoxazone 375 mg, chlorzoxazone 500 mg (NDC 73007001303 only), *chlorzoxazone 750 mg*	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
CIALIS	*avanafil, sildenafil*, *tadalafil*
CICATRACE	Talk to your doctor
CILOXAN	*ciprofloxacin, erythromycin, gentamicin, levofloxacin,*

DRUG NAME(S)	PREFERRED OPTION(S)
	moxifloxacin, ofloxacin, sulfacetamide, tobramycin, BESIVANCE
CIPRO HC OTIC	*ciprofloxacin-dexamethasone, ofloxacin otic*
ciprofloxacin-fluocinolone	*ciprofloxacin-dexamethasone, ofloxacin otic*
CITRANATAL	*generic prenatal vitamins*
CLIMARA	*estradiol*
CLIMARA PRO	COMBIPATCH
clindamycin gel (NDC 68682046275 only)	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin*, AKLIEF, EPIDUO, TWYNEO, WINLEVI
clobetasol emollient foam	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
clobetasol spray	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
CLOBEX SPRAY	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
clocortolone cream	*hydrocortisone butyrate cream, hydrocortisone butyrate ointment, hydrocortisone butyrate solution, mometasone, triamcinolone cream, triamcinolone lotion, triamcinolone ointment* (except *triamcinolone ointment 0.05%*)
COLAZAL	*balsalazide, mesalamine*
	delayed-rel, mesalamine ext-rel, sulfasalazine, sulfasalazine delayed-rel
COLCRYS	*colchicine*
COMBIGAN	*brimonidine-timolol*
CONCERTA	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
CONTOUR NEXT STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

Formulary removals/drugs not included on the preferred options list may be covered by the plan when preferred options are not clinically appropriate. For more information, please sign in or register on **Aetna.com**.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

An ACCU-CHEK or TRUE METRIX blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or TRUE METRIX. For more information on how to obtain a blood glucose meter, call: **1-877-418-4746** **(TTY: 711)**.

BD ULTRAFINE or EMBECTA ULTRAFINE (except certain NDCs) syringes and needles are the only preferred options.

ACCU-CHEK or TRUE METRIX (Trividia manufactured NDCs) brand test strips are the only preferred options.

ACCU-CHEK lancets and lancing devices are the only preferred options.

Generic multivitamins (except Activite, Dexifol, HylaVite, Multipro, TronVite, Vitasure) are the only preferred options.

Generic prenatal vitamins are the only preferred options.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with Aetna. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.

2026 Aetna Pharmacy Drug Guide
Aetna Standard Plan

Visit **www.aetna.com/formulary** for the most up-to-date information. For a summary of your coverage or benefits plan log in to your secure member site. Or call the toll-free number on your member ID card.

The formulary is updated the first week of each month. The formulary is subject to change. Previous versions are no longer in effect.

2026 Aetna Standard Plan Pharmacy Drug Guide

The 2026 Aetna Standard Plan Pharmacy Drug Guide Aetna is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing**. If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list and does not guarantee coverage. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics,* and generic products in lowercase *italics*.

PLAN MEMBER

Your benefit plan provides you with prescription drug coverage that is administered by Aetna. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list the next time you or a covered family member sees a doctor.

- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document. Medications and products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered immediately upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- For specific information regarding your prescription benefit coverage and cost sharing, or if you have additional questions, please sign in or register for your secure member site at **www.aetna.com**.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by Aetna. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is medically necessary, consider prescribing a brand name on this list.

- The member's prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. The member’s specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered immediately upon release to the market.
- The member's prescription benefit plan may have different cost sharing for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to Aetna.com to check coverage and cost sharing information for a specific medicine.

tramadol ext-rel tablet

OPIOID PARTIAL AGONISTS

buprenorphine transdermal
BELBUCA

ANTI-INFECTIVES

ANTHELMINTICS

ivermectin tablet
EMVERM

ANTIFUNGALS

fluconazole
itraconazole
terbinafine tablet

ANTIVIRALS

acyclovir capsule, tablet
oseltamivir
valacyclovir
valganciclovir
PAXLOVID
RELENZA

CEPHALOSPORINS

cefdinir
cefprozil
cefuroxime axetil
cephalexin

ERYTHROMYCINS/MACROLIDES

azithromycin
clarithromycin
clarithromycin ext-rel
erythromycins
DIFICID

FLUOROQUINOLONES

ciprofloxacin
levofloxacin
moxifloxacin

MISCELLANEOUS

clindamycin
linezolid
metronidazole
nitrofurantoin (except NDC 16571074024)
pyrimethamine
sulfamethoxazole-trimethoprim
vancomycin capsule
XIFAXAN 550 MG

PENICILLINS

amoxicillin
amoxicillin-clavulanate
dicloxacillin
penicillin vk

TETRACYCLINES

doxycycline hyclate 20 mg
doxycycline hyclate capsule
minocycline
tetracycline

ANTINEOPLASTIC AGENTS

ANTIMETABOLITES

pemetrexed

HORMONAL ANTINEOPLASTIC AGENTS

bicalutamide

CARDIOVASCULAR

ACE INHIBITOR COMBINATIONS

fosinopril-hydrochlorothiazide
lisinopril-hydrochlorothiazide
quinapril-hydrochlorothiazide

ACE INHIBITORS

enalapril
fosinopril
lisinopril
quinapril
ramipril

ALDOSTERONE RECEPTOR ANTAGONISTS

spironolactone
KERENDIA

ANGIOTENSIN II RECEPTOR ANTAGONIST COMBINATIONS

amlodipine-olmesartan
amlodipine-telmisartan
amlodipine-valsartan
amlodipine-valsartan-hydrochlorothiazide
candesartan-hydrochlorothiazide
irbesartan-hydrochlorothiazide
losartan-hydrochlorothiazide
olmesartan-amlodipine-hydrochlorothiazide
olmesartan-hydrochlorothiazide
telmisartan-hydrochlorothiazide
valsartan-hydrochlorothiazide

ANGIOTENSIN II RECEPTOR ANTAGONISTS

candesartan
irbesartan
losartan
olmesartan
telmisartan
valsartan

ANTIARRHYTHMICS

amiodarone
disopyramide
sotalol
MULTAQ

ANTILIPEMICS, ACL INHIBITORS/COMBINATIONS

NEXLETOL
NEXLIZET

ANTILIPEMICS, BILE ACID RESINS

cholestyramine
colesevelam

ANTILIPEMICS, CHOLESTEROL ABSORPTION INHIBITOR

ezetimibe

ANTILIPEMICS, FIBRATES

fenofibrate (except fenofibrate capsule 30 mg, 50 mg, 90 mg, 130 mg; fenofibrate tablet 40 mg, 120 mg)
fenofibric acid delayed-rel

ANTILIPEMICS, HMG-COA REDUCTASE INHIBITORS

atorvastatin
fluvastatin
lovastatin
pitavastatin
pravastatin
rosuvastatin
simvastatin

ANTILIPEMICS, HMG-COA REDUCTASE INHIBITORS/COMBINATIONS

ezetimibe-simvastatin

ANTILIPEMICS, MISCELLANEOUS

niacin ext-rel

ANTILIPEMICS, OMEGA-3 FATTY ACIDS

omega-3 acid ethyl esters
VASCEPA

BETA-BLOCKERS

acebutolol
atenolol
carvedilol
carvedilol phosphate ext-rel
metoprolol succinate ext-rel
metoprolol tartrate
nadolol
nebivolol
pindolol
propranolol
propranolol ext-rel

CALCIUM CHANNEL BLOCKER/ANTILIPEMIC COMBINATIONS

amlodipine-atorvastatin

CALCIUM CHANNEL BLOCKERS

amlodipine
diltiazem ext-rel (except generics for CARDIZEM LA)
nifedipine ext-rel
verapamil ext-rel

DIGITALIS GLYCOSIDES

digoxin

DIRECT RENIN INHIBITORS/COMBINATIONS

aliskiren

DIURETICS

amiloride
chlorthalidone
ethacrynic acid
furosemide
hydrochlorothiazide
metolazone
spironolactone-hydrochlorothiazide
torsemide
triamterene
triamterene-hydrochlorothiazide

HEART FAILURE

isosorbide dinitrate-hydralazine
ivabradine
sacubitril-valsartan
VERQUVO

MISCELLANEOUS

midodrine
ranolazine ext-rel

NITRATES

isosorbide dinitrate (except isosorbide dinitrate 40 mg)
isosorbide mononitrate
nitroglycerin lingual spray
nitroglycerin sublingual

CENTRAL NERVOUS SYSTEM

ANTIANXIETY

alprazolam
lorazepam
oxazepam

ANTIDEMENTIA

donepezil
galantamine
galantamine ext-rel
memantine
rivastigmine
rivastigmine transdermal
NAMZARIC

ANTIDEPRESSANTS

bupropion
bupropion ext-rel (except bupropion ext-rel tablet 450 mg)
citalopram
desvenlafaxine ext-rel
duloxetine
escitalopram
fluoxetine (except fluoxetine tablet 60 mg, fluoxetine tablet [generics for SARAFEM])
mirtazapine
paroxetine hcl
paroxetine hcl ext-rel (except NDC 60505367503)
sertraline
trazodone
venlafaxine
venlafaxine ext-rel capsule
vilazodone
AUVELITY
TRINTELLIX

ANTIPARKINSONIAN AGENTS

amantadine
carbidopa-levodopa
carbidopa-levodopa ext-rel
carbidopa-levodopa-entacapone

halobetasol cream, ointment
HUMULIN R U-500
hydrochlorothiazide
hydrocodone ext-rel
hydrocodone-acetaminophen
hydrocortisone
hydrocortisone
hydrocortisone
hydrocortisone butyrate cream, ointment, solution
hydrocortisone enema
hydromorphone
hydromorphone ext-rel

I

ibandronate
ibuprofen
ibuprofen-famotidine
ILEVRO
imiquimod
IMVEXXY
INSULIN GLARGINE-YFGN
ipratropium inhalation solution
ipratropium-albuterol inhalation solution
irbesartan
irbesartan-hydrochlorothiazide
isosorbide dinitrate (except isosorbide dinitrate 40 mg)
isosorbide dinitrate-hydralazine
isosorbide mononitrate
isotretinoin capsule 10 mg, 20 mg, 30 mg, 40 mg
itraconazole
ivabradine
ivermectin cream
ivermectin tablet

J

JARDIANCE

K

KERENDIA
ketoconazole cream 2%
ketoconazole shampoo 2%
ketorolac

L

lacosamide
lactulose solution
lamotrigine
lamotrigine ext-rel
lansoprazole delayed-rel capsule
LANTUS
latanoprost
levalbuterol tartrate cfc-free aerosol
levetiracetam
levetiracetam ext-rel
levocarnitine
levocetirizine
levofloxacin
levofloxacin
levothyroxine
lidocaine patch
lidocaine viscous
lidocaine-prilocaine
linezolid
LINZESS
liothyronine
liraglutide
lisdexamfetamine
lisinopril
lisinopril-hydrochlorothiazide
LO LOESTRIN FE
loperamide
lorazepam
losartan
losartan-hydrochlorothiazide
loteprednol
loteprednol
lovastatin
lubiprostone
lurasidone
LYVISPAH

M

meclizine
medroxyprogesterone
megestrol acetate
meloxicam tablet
memantine
mesalamine delayed-rel
mesalamine enema
mesalamine ext-rel
mesalamine suppository
metformin
metformin ext-rel (except generics for FORTAMET and GLUMETZA)
methadone
methotrexate
methoxsalen
methylphenidate
methylphenidate ext-rel
methylprednisolone

metoclopramide
metolazone
metoprolol succinate ext-rel
metoprolol tartrate
metronidazole
metronidazole
midodrine
minocycline
mirtazapine
modafinil
mometasone
mometasone
montelukast
morphine
morphine ext-rel
MOUNJARO
MOVANTIK
moxifloxacin
moxifloxacin
MULTAQ
multivitamins
mupirocin ointment
MYFEMBREE

N

nadolol
naftifine
naloxone
NAMZARIC
naproxen (except naproxen CR or naproxen suspension)
naratriptan
NATAZIA
nateglinide

nebivolol
neomycin-polymyxin b-bacitracin-hydrocortisone
neomycin-polymyxin b-dexamethasone
neomycin-polymyxin b-hydrocortisone
NEUPRO
NEXLETOL
NEXLIZET
niacin ext-rel
nifedipine ext-rel
nitrofurantoin (except NDC 16571074024)
nitroglycerin lingual spray
nitroglycerin sublingual
NOVOLIN 70/30
NOVOLIN N
NOVOLIN R
NOVOLOG
NOVOLOG MIX 70/30
NURTEC ODT
nystatin

O

ODACTRA
ofloxacin
ofloxacin otic
olanzapine
olmesartan
olmesartan-amlodipine-hydrochlorothiazide
olmesartan-hydrochlorothiazide
olopatadine
olopatadine
omega-3 acid ethyl esters
omeprazole delayed-rel
OMNIPOD 5 INSULIN INFUSION PUMP
OMNIPOD DASH INSULIN INFUSION PUMP
OMNIPOD INSULIN INFUSION PUMP
ondansetron
OPZELURA
ORACEA
ORIAHNN
ORILISSA
orlistat
oseltamivir
oxazepam
oxcarbazepine
OXTELLAR XR
oxybutynin
oxybutynin ext-rel
oxycodone
oxycodone-acetaminophen
OZEMPIC

P

pantoprazole delayed-rel tablet
paroxetine hcl
paroxetine hcl ext-rel (except NDC 60505367503)
PAXLOVID
peg 3350-electrolytes (except generics for MOVIPREP)
pemetrexed
penicillin vk
PERSERIS
phenobarbital
phenytoin
phenytoin sodium extended
pimecrolimus
pindolol
pioglitazone
pioglitazone-glimepiride
pioglitazone-metformin
pitavastatin
potassium chloride liquid
pramipexole
pramipexole ext-rel
prasugrel
pravastatin
prednisolone acetate 1%
prednisolone solution (except prednisolone solution 10 mg/5 mL, 20 mg/5 mL)
prednisone
pregabalin
pregabalin ext-rel
PREMPHASE
PREMPRO
prenatal vitamins
primidone
probenecid
prochlorperazine
PROCTOFOAM-HC
progesterone, micronized
promethazine
propranolol
propranolol ext-rel
prucalopride
PULMICORT FLEXHALER
pyrimethamine

PREFERRED OPTIONS LIST FOR FORMULARY DRUG REMOVALS AND DRUGS COVERED ONLY WHEN PREFERRED OPTIONS ARE NOT CLINICALLY APPROPRIATE

The preferred options listed below are a broad representation of available treatment options and do not necessarily represent clinical equivalency.

DRUG NAME(S)	PREFERRED OPTION(S)
ABILIFY	*aripiprazole, clozapine, lurasidone, olanzapine, quetiapine, quetiapine ext-rel, risperidone, ziprasidone,* VRAYLAR
ACANYA	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
ACIPHEX, ACIPHEX SPRINKLE	*esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel, pantoprazole delayed-rel tablet*
Activite	*generic multivitamins*
ACTOS	*pioglitazone*
ACUVAIL	*bromfenac, diclofenac, ketorolac,* ILEVRO
acyclovir cream	*acyclovir capsule, acyclovir tablet, valacyclovir*
ACZONE	*adapalene* (except *adapalene pad*), *benzoyl peroxide,*

DRUG NAME(S)	PREFERRED OPTION(S)
	clindamycin gel (except NDC 68682046275)*, clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
adapalene pad	*adapalene* (except *adapalene pad*)*, benzoyl peroxide, clindamycin gel* (except NDC 68682046275)*, clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI
ADDERALL	*amphetamine-dextroamphetamine mixed salts, methylphenidate*
ADDERALL XR	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
ADRENALIN	*epinephrine* (except NDCs 00093-XXXX-XX, 49502-XXXX-XX)*,* AUVI-Q
ADVAIR DISKUS, ADVAIR HFA	*budesonide-formoterol, fluticasone-salmeterol* (except certain NDCs)*, Breyna, Wixela Inhub,* BREO ELLIPTA (except certain NDCs)
ADZENYS XR-ODT	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
AIMOVIG	AJOVY, EMGALITY, QULIPTA
albuterol sulfate CFC-free aerosol (NDCs 00093317431, 66993001968 only)	*albuterol sulfate CFC-free aerosol* (except NDCs 00093317431, 66993001968)*, levalbuterol tartrate CFC-free aerosol*

DRUG NAME(S)	PREFERRED OPTION(S)
ALEVICYN GEL, ALEVICYN SG, ALEVICYN SOLUTION	*desonide* (except *desonide gel*)*, hydrocortisone*
ALIMTA	*pemetrexed*
ALLISON MEDICAL INSULIN SYRINGES	BD ULTRAFINE INSULIN SYRINGES, EMBECTA ULTRAFINE INSULIN SYRINGES (except certain NDCs)
ALREX	*azelastine*, *bepotastine*, *cromolyn sodium*, *loteprednol, olopatadine*
ALTOPREV	*atorvastatin, ezetimibe-simvastatin, fluvastatin, lovastatin, pitavastatin, pravastatin, rosuvastatin, simvastatin*
ALVESCO	ASMANEX HFA, PULMICORT FLEXHALER
AMITIZA	*lubiprostone*, *prucalopride,* LINZESS, MOVANTIK, SYMPROIC
AMRIX	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
ANDROGEL	*testosterone gel* (except authorized generics for TESTIM and VOGELXO), *testosterone solution,* NATESTO
APIDRA	FIASP, NOVOLOG
APLENZIN	*bupropion, bupropion ext-rel (*except *bupropion ext-rel tablet 450 mg)*
APTENSIO XR	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
ARAZLO	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin,* AKLIEF, EPIDUO, TWYNEO, WINLEVI

DRUG NAME(S)	PREFERRED OPTION(S)
ARNUITY ELLIPTA	ASMANEX HFA, PULMICORT FLEXHALER
ARTHROTEC	*celecoxib; diclofenac sodium, ibuprofen, meloxicam tablet* or *naproxen* (except *naproxen CR* or *naproxen suspension*) **WITH** *esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel,* or *pantoprazole delayed-rel tablet*
ASCENSIA STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS
ASMANEX	ASMANEX HFA, PULMICORT FLEXHALER
ATACAND, ATACAND HCT	*candesartan, candesartan-hydrochlorothiazide, irbesartan, irbesartan-hydrochlorothiazide, losartan, losartan-hydrochlorothiazide, olmesartan, olmesartan-hydrochlorothiazide, telmisartan, telmisartan-hydrochlorothiazide, valsartan, valsartan-hydrochlorothiazide*
ATIVAN	*alprazolam*, *clonazepam*, *diazepam*, *lorazepam*, *oxazepam*
AVENOVA	Talk to your doctor
AZASITE	*ciprofloxacin, erythromycin, gentamicin, levofloxacin, moxifloxacin, ofloxacin, sulfacetamide, tobramycin,* BESIVANCE
AZELEX	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin*, AKLIEF, EPIDUO, TWYNEO, WINLEVI
AZESCO	*generic prenatal vitamins*
AZOR	*amlodipine-olmesartan, amlodipine-telmisartan, amlodipine-valsartan*
BALCOLTRA	*ethinyl estradiol-drospirenone, ethinyl estradiol-drospirenone-levomefolate, ethinyl estradiol-levonorgestrel, ethinyl estradiol-levonorgestrel-iron, ethinyl estradiol-norethindrone acetate, ethinyl estradiol-norethindrone acetate-iron, ethinyl estradiol-norgestimate,* LO LOESTRIN FE, NATAZIA
BANZEL	*clobazam*, *clonazepam, lamotrigine*, *rufinamide*, *topiramate*, *topiramate ext-rel*
BASAGLAR	INSULIN GLARGINE-YFGN, LANTUS
BENICAR, BENICAR HCT	*candesartan, candesartan-hydrochlorothiazide, irbesartan, irbesartan-hydrochlorothiazide, losartan, losartan-hydrochlorothiazide, olmesartan, olmesartan-hydrochlorothiazide, telmisartan, telmisartan-hydrochlorothiazide, valsartan, valsartan-hydrochlorothiazide*
BENSAL HP	*desonide* (except *desonide gel*), *hydrocortisone*
benzonatate (NDCs 69336012615, 69499032915 only)	*benzonatate* (except NDCs 69336012615, 69499032915)
BEPREVE	*azelastine, bepotastine, cromolyn sodium*, *loteprednol, olopatadine*
BETAMETHASONE ACETATE-BETAMETHASONE SODIUM PHOSPHATE	*dexamethasone, hydrocortisone, methylprednisolone, prednisolone solution* (except *prednisolone solution 10 mg/5 mL, 20 mg/5 mL*), *prednisone*
betamethasone dipropionate ointment 0.05%	*desoximetasone* (except *desoximetasone ointment 0.05%*), *fluocinonide* (except *fluocinonide cream 0.1%*), BRYHALI
BETAPACE, BETAPACE AF	*sotalol*

DRUG NAME(S)	PREFERRED OPTION(S)
BETIMOL	*timolol maleate solution,* BETOPTIC S
BEVESPI AEROSPHERE	ANORO ELLIPTA, STIOLTO RESPIMAT
BEYAZ	*ethinyl estradiol-drospirenone, ethinyl estradiol-drospirenone-levomefolate, ethinyl estradiol-levonorgestrel, ethinyl estradiol-levonorgestrel-iron, ethinyl estradiol-norethindrone acetate, ethinyl estradiol-norethindrone acetate-iron, ethinyl estradiol-norgestimate,* LO LOESTRIN FE, NATAZIA
BREEZE 2 STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS
BROMSITE	*bromfenac, diclofenac, ketorolac,* ILEVRO
budesonide ext-rel tablet	*balsalazide, mesalamine delayed-rel, mesalamine ext-rel, sulfasalazine, sulfasalazine delayed-rel*
bupropion ext-rel tablet 450 mg	*bupropion, bupropion ext-rel* (except *bupropion ext-rel tablet 450 mg*)
butalbital-acetaminophen capsule, butalbital-acetaminophen tablet 25-325 mg, butalbital-acetaminophen tablet 50-300 mg, BUTALBITAL-ACETAMINOPHEN (NDC 69499034230 only)	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
butalbital-acetaminophen-caffeine capsule	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
BUTRANS	*buprenorphine transdermal*, BELBUCA
BYDUREON BCISE	*liraglutide,* MOUNJARO, OZEMPIC, RYBELSUS, TRULICITY
BYETTA	*liraglutide,* MOUNJARO, OZEMPIC, RYBELSUS, TRULICITY
BYSTOLIC	*acebutolol, atenolol, carvedilol, carvedilol phosphate ext-rel, metoprolol succinate ext-rel, metoprolol tartrate, nadolol, nebivolol, pindolol, propranolol, propranolol ext-rel*
calcipotriene cream, CALCIPOTRIENE FOAM	*calcipotriene ointment, calcipotriene solution, tazarotene,* VTAMA, ZORYVE CREAM, ZORYVE FOAM
calcipotriene-betamethasone	*calcipotriene ointment* or *calcipotriene solution* **WITH** *desoximetasone* (except *desoximetasone ointment 0.05%*), *fluocinonide* (except *fluocinonide cream 0.1%*) or BRYHALI; *tazarotene,* ENSTILAR, VTAMA, ZORYVE CREAM, ZORYVE FOAM
calcitriol ointment	*calcipotriene ointment, calcipotriene solution, tazarotene,* VTAMA, ZORYVE CREAM, ZORYVE FOAM
CAMBIA	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
Capsinac	*diclofenac sodium, diclofenac sodium gel 1%, diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)
CARAFATE	*sucralfate tablet*
carbinoxamine tablet 6 mg (NDC 73684011060 only), CARBINOXAMINE TABLET 6 MG	*levocetirizine*
CARDIZEM, CARDIZEM CD, CARDIZEM LA	*diltiazem ext-rel* (except generics for CARDIZEM LA), *verapamil ext-rel*
carisoprodol 250 mg	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
CARNITOR, CARNITOR SF	*levocarnitine*
CELEBREX	*celecoxib, diclofenac sodium, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)

DRUG NAME(S)	PREFERRED OPTION(S)
chlordiazepoxide-clidinium (NDCs 11534019701, 42494040901, 51293069601, 51293069610, 67877073101, 70700018501 only)	*dicyclomine*
chlorzoxazone 250 mg, chlorzoxazone 375 mg, chlorzoxazone 500 mg (NDC 73007001303 only), *chlorzoxazone 750 mg*	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
CIALIS	*avanafil, sildenafil, tadalafil*
CICATRACE	Talk to your doctor
CILOXAN	*ciprofloxacin, erythromycin, gentamicin, levofloxacin, moxifloxacin, ofloxacin, sulfacetamide, tobramycin,* BESIVANCE
CIPRO HC OTIC	*ciprofloxacin-dexamethasone, ofloxacin otic*
ciprofloxacin-fluocinolone	*ciprofloxacin-dexamethasone, ofloxacin otic*
CITRANATAL	*generic prenatal vitamins*
CLIMARA	*estradiol*
CLIMARA PRO	COMBIPATCH
clindamycin gel (NDC 68682046275 only)	*adapalene* (except *adapalene pad*), *benzoyl peroxide, clindamycin gel* (except NDC 68682046275), *clindamycin solution, clindamycin-benzoyl peroxide, dapsone, erythromycin solution, erythromycin-benzoyl peroxide, tazarotene, tretinoin*, AKLIEF, EPIDUO, TWYNEO, WINLEVI
clobetasol emollient foam	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
clobetasol spray	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
CLOBEX SPRAY	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*
clocortolone cream	*hydrocortisone butyrate cream, hydrocortisone butyrate ointment, hydrocortisone butyrate solution, mometasone, triamcinolone cream, triamcinolone lotion, triamcinolone ointment* (except *triamcinolone ointment 0.05%*)
COLAZAL	*balsalazide, mesalamine delayed-rel, mesalamine ext-rel, sulfasalazine, sulfasalazine delayed-rel*
COLCRYS	*colchicine*
COMBIGAN	*brimonidine-timolol*
CONCERTA	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
CONTOUR NEXT STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS
CONTOUR STRIPS AND KITS	ACCU-CHEK AVIVA PLUS STRIPS AND KITS, ACCU-CHEK GUIDE STRIPS AND KITS, ACCU-CHEK SMARTVIEW STRIPS AND KITS, TRUE METRIX STRIPS AND KITS
CONTRAVE	*orlistat*, QSYMIA, SAXENDA, WEGOVY
CORDRAN TAPE	*clobetasol cream, clobetasol foam* (except *clobetasol emollient foam*), *clobetasol gel, clobetasol lotion, clobetasol ointment, halobetasol cream, halobetasol ointment*

DRUG NAME(S)	PREFERRED OPTION(S)
COREG CR	*acebutolol, atenolol, carvedilol, carvedilol phosphate ext-rel, metoprolol succinate ext-rel, metoprolol tartrate, nadolol, nebivolol, pindolol, propranolol, propranolol ext-rel*
COZAAR	*candesartan, irbesartan, losartan, olmesartan, telmisartan, valsartan*
CRESEMBA	*itraconazole*
CRESTOR	*atorvastatin, ezetimibe-simvastatin, fluvastatin, lovastatin, pitavastatin, pravastatin, rosuvastatin, simvastatin*
cyclobenzaprine ext-rel capsule, cyclobenzaprine tablet 7.5 mg	*cyclobenzaprine* (except *cyclobenzaprine tablet 7.5 mg*)
CYMBALTA	*desvenlafaxine ext-rel, duloxetine, venlafaxine, venlafaxine ext-rel capsule*
CYTOMEL	*levothyroxine, liothyronine*, SYNTHROID
DALIRESP	*roflumilast*
DARAPRIM	*pyrimethamine*
DAYTRANA	*amphetamine-dextroamphetamine mixed salts ext-rel, dexmethylphenidate ext-rel, lisdexamfetamine, methylphenidate ext-rel,* AZSTARYS
DAYVIGO	*doxepin, eszopiclone, ramelteon, zolpidem, zolpidem ext-rel,* BELSOMRA, QUVIVIQ
DELZICOL	*balsalazide, mesalamine delayed-rel, mesalamine ext-rel, sulfasalazine, sulfasalazine delayed-rel*
DEPAKOTE, DEPAKOTE ER, DEPAKOTE SPRINKLE	*carbamazepine, carbamazepine ext-rel, clonazepam, divalproex sodium, divalproex sodium ext-rel, eslicarbazepine, ethosuximide, gabapentin, lacosamide, lamotrigine, lamotrigine ext-rel,*
	levetiracetam, levetiracetam ext-rel, oxcarbazepine, phenobarbital, phenytoin, phenytoin sodium extended, pregabalin, primidone, tiagabine, topiramate, topiramate ext-rel, valproic acid, zonisamide, BRIVIACT, OXTELLAR XR, XCOPRI
desonide gel	*desonide* (except *desonide gel*), *hydrocortisone*
desoximetasone ointment 0.05%	*hydrocortisone butyrate cream, hydrocortisone butyrate ointment, hydrocortisone butyrate solution, mometasone, triamcinolone cream, triamcinolone lotion, triamcinolone ointment* (except *triamcinolone ointment 0.05%*)
DETROL LA	*darifenacin ext-rel, fesoterodine ext-rel, oxybutynin ext-rel, solifenacin, tolterodine, tolterodine ext-rel, trospium, trospium ext-rel,* GEMTESA
dexchlorpheniramine	*levocetirizine*
Dexifol	*generic multivitamins*
DEXILANT	*esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel, pantoprazole delayed-rel tablet*
dexlansoprazole delayed-rel	*esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel, pantoprazole delayed-rel tablet*
diclofenac potassium capsule 25 mg, diclofenac potassium tablet 25 mg	*diclofenac sodium, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)
diclofenac potassium powder	*diclofenac sodium, ibuprofen, naproxen* (except *naproxen CR* or *naproxen suspension*)
diclofenac sodium solution 2%	*diclofenac sodium, diclofenac sodium gel 1%, diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet,*

DRUG NAME(S)	PREFERRED OPTION(S)
	naproxen (except *naproxen CR* or *naproxen suspension*)
Diclofex DC	*diclofenac sodium, diclofenac sodium gel 1%*, *diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)
Diclosaicin	*diclofenac sodium, diclofenac sodium gel 1%, diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet, naproxen* (except *naproxen CR* or *naproxen suspension*)

ZONTIVITY	Talk to your doctor
ZYLET	*neomycin-polymyxin B-bacitracin-hydrocortisone, neomycin-polymyxin B-dexamethasone, tobramycin-dexamethasone,* TOBRADEX OINTMENT

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

Formulary removals/drugs not included on the preferred options list may be covered by the plan when preferred options are not clinically appropriate. For more information, please sign in or register on **Aetna.com**.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

An ACCU-CHEK or TRUE METRIX blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or TRUE METRIX. For more information on how to obtain a blood glucose meter, call: **1-877-418-4746 (TTY: 711)**.

BD ULTRAFINE or EMBECTA ULTRAFINE (except certain NDCs) syringes and needles are the only preferred options.

ACCU-CHEK or TRUE METRIX (Trividia manufactured NDCs) brand test strips are the only preferred options.

ACCU-CHEK lancets and lancing devices are the only preferred options.

Generic multivitamins (except Activite, Dexifol, HylaVite, Multipro, TronVite, Vitasure) are the only preferred options.

Generic prenatal vitamins are the only preferred options.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with Aetna. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.

©2026 CVS Health and/or one of its affiliates. All rights reserved. 1348063-01-04 (01/26)

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Assurance Pennsylvania Inc., Aetna Health Insurance company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Utah and Wyoming by Aetna Health of Utah Inc. and Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products. Pharmacy benefits are administered by an affiliated pharmacy benefit manager, CVS Caremark. Aetna is part of the CVS Health family of companies.

Disclaimers:

Please note that if your prescription drug benefits plan changes, the information here may no longer apply.

Medications on the Aetna Drug Guide, precertification, step-therapy and quantity limits lists are subject to change.

Not all health services are covered. Your plan may not cover certain drugs such as infertility, erectile dysfunction, weight loss and smoking cessation. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

The drugs on the Pharmacy Drug Guide (formulary), Formulary Exclusions, Precertification, and Quantity Limit Lists are subject to change. The quantity limits and step therapy drug coverage review programs are not available in all service areas. However, these programs are available to self-funded plans.

In accordance with state law, commercial fully insured members in Louisiana and Texas (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added or removed from the Pharmacy Drug Guide (formulary), Precertification, Quantity Limits or Step-Therapy Lists during the plan year will continue to have those medications covered at the same benefit level until their plan's renewal date. In Texas, precertification approval is known as "pre-service utilization review." It is not "verification" as defined by Texas law.

In accordance with state law, certain fully insured commercial California members (except Federal Employee Health Benefit Plan members) who obtained approval from an Aetna plan for coverage of drugs that are later added to the Preauthorization or Step Therapy Lists or removed from the Pharmacy Drug Guide will continue to have those drugs covered, for as long as the treating in-network provider continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. Aetna reserves the right to periodically request clinical information from your provider to assess your medical condition and the appropriateness of your ongoing treatment. Failure to provide clinical information could result in subsequent denial of coverage for this medication.

In accordance with state law, fully insured Commercial Connecticut preferred provider organization (PPO) members (except Federal Employee Health Benefit Plan members) who are receiving coverage for drugs that are added to the Precertification or Step-Therapy Lists will continue to have those drugs covered for as long as the prescriber prescribes them, provided the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

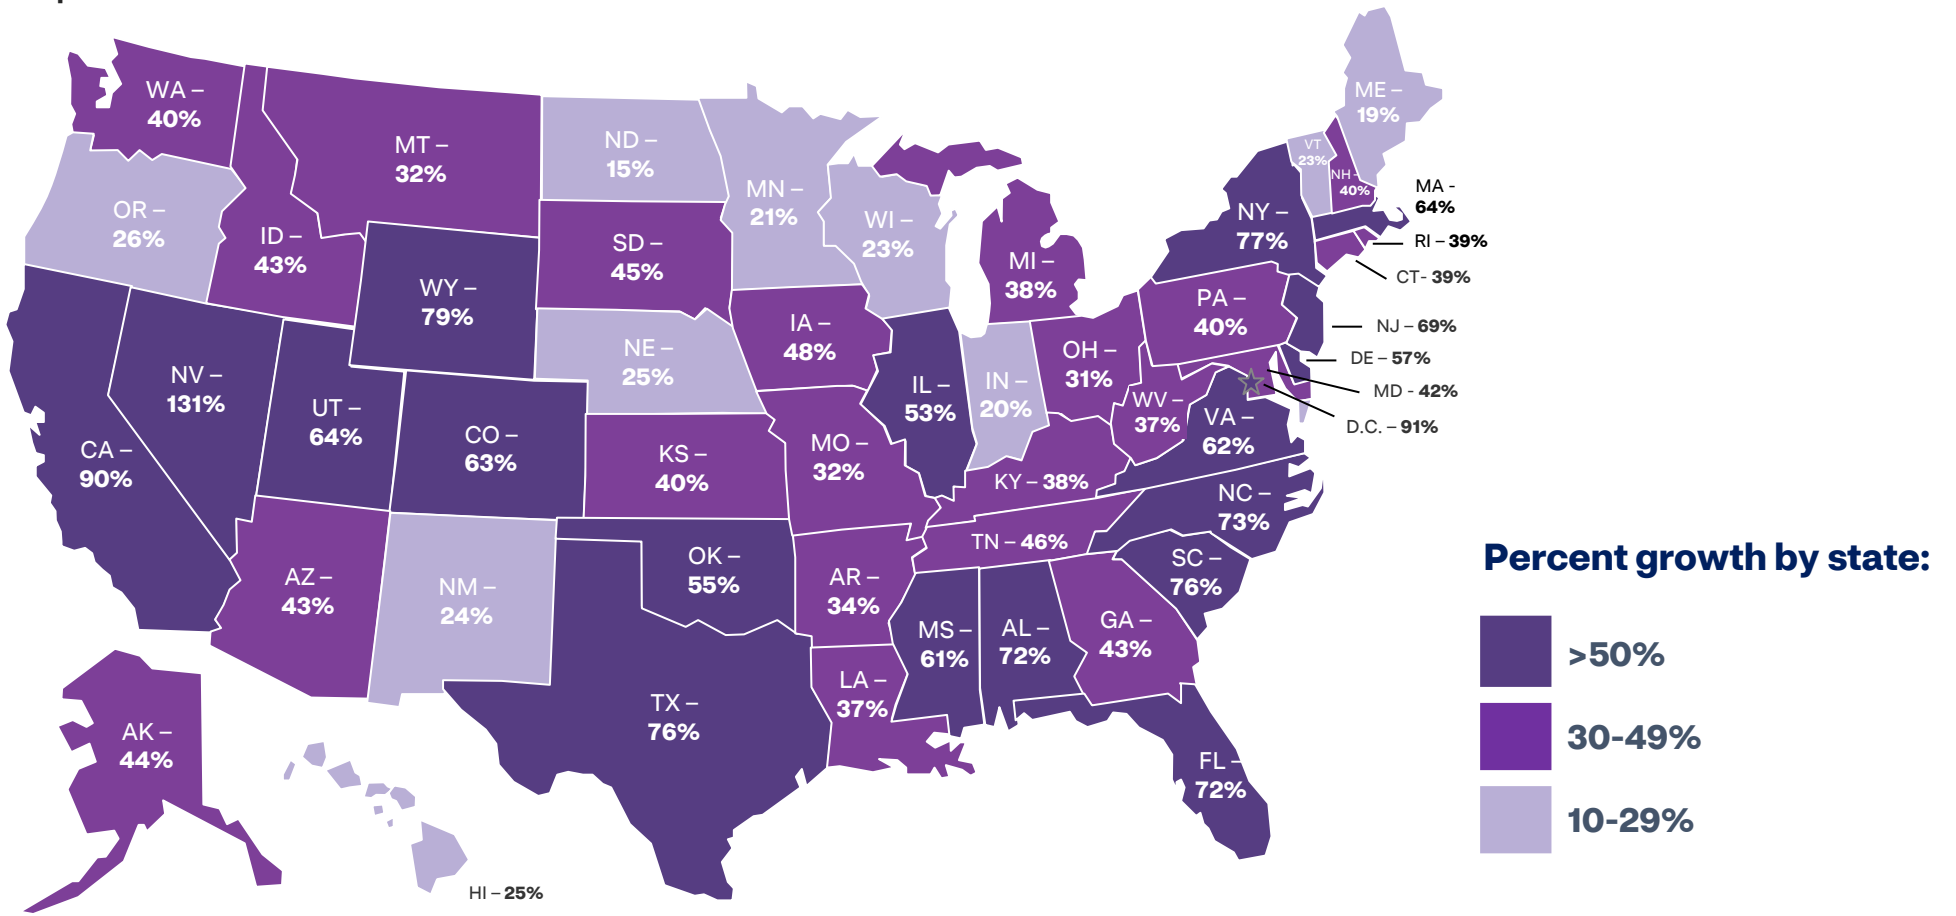

In certain states, including Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Louisiana, Maryland, Minnesota, North Dakota, Pennsylvania and Texas, step therapy programs do not apply to fully insured members utilizing prescription drugs for the treatment of stage-four advanced, metastatic cancer.

This material is for information only. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. Information is subject to change. CVS Caremark Mail Service Pharmacy is part of the CVS Health family of companies.

6.23. Other Required Documentation

The following documents are required to determine whether the Proposal meets the minimum requirements. However, these documents will not be considered when scoring the Proposal.

6.23.1. City Forms:

Responses should include all pages of this solicitation, completed where indicated, and completed Local Business forms. These forms are included in this RFP and available as attachments to the eBid System. These forms must be completed electronically in the Attributes tab or uploaded to the Response Attachments tab of the eBid System.

Confirmed.

6.23.2. Insurance

Please see Exhibit B with the Insurance Requirements in the Attachments tab of the eBid System.

Confirmed.

Aetna has designated certain information Proprietary and Confidential (collectively, "trade secrets") in our proposal to City of Hollywood. Pursuant to Florida's Public Records law, F.S.A. § 119.075, a trade secret held by an agency is confidential and exempt from public disclosure. This public records exemption defines trade secret consistent with the definition found in F.S.A. § 688.002(4) as:

"…information, including a formula, pattern, compilation, program, device, method, technique, or process that:

(a) Derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and

(b) Is the subject of efforts that are reasonable under the circumstances to maintain its secrecy."

In enacting this exception, the Florida legislature expressly recognized that businesses provide trade secret information to an agency for various purposes, and that disclosure of trade secret information to competitors would be detrimental their business.

Consistent with the statutory definition of "trade secret", the designated information is of independent economic value to Aetna, is not generally known or accessible to competitors, and undoubtedly competitors would obtain economic value from its disclosure. Aetna goes to great lengths to protect this information. If released, the information Aetna has designated in its proposal as a trade secret would undercut our competitive advantage in the marketplace. Armed with this information, Aetna's competitors could formulate business strategies and take other actions that would undermine our ability to compete against them. This information is held in systems guarded by complex encryption technology, and accessible only to authorized individuals within our company. Years of time and money have been spent developing this information, and once created, Aetna works diligently to ensure that it does not fall into the hands of our competitors, and has been successful in protecting this information in jurisdictions with substantially similar laws. Aetna has engaged in administrative processes and litigation in order to protect this information from being released to the public, which serves as evidence of its sensitive nature, the efforts made to maintain its secrecy, and the potential consequences of its release.

Should you receive a request for this information, Aetna requests prompt notification and objects to the release of any of the designated trade secret information unless expressly authorized, in writing, by Aetna.

Consistent with the above rationale, and Public Records Law listed in the RFP, Aetna is claiming the following information as confidential, proprietary, and trade secret:

Document Name	Section	Page Numbers	Reasoning
Letter of Interest	Letter of Interest	1-5	This document contains information related to our financial offer and is therefore considered confidential.

			Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format.
Self-Funded Medical Financial Package	Premium Cost Proposal	1-26	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Fully Insured Medical Financial Package	Premium Cost Proposal	1-8	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Pharmacy Service and Fee Schedule	Premium Cost Proposal	1-24	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format.

			The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Specialty Pharmacy Addendum	Premium Cost Proposal	1-14	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Pharmacy Performance Guarantees	Premium Cost Proposal	1-4	The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Stop Loss Quote	Premium Cost Proposal	1-12	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format.
Response Forms - Self-Funded Medical	Premium Cost Proposal	1-5	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry.

			Our provider contracts and negotiations include that Aetna will not make this information available in a public format.
BlueCare HMO 55 - Medical Plan Design	Benefits Equal to or Better Than Current Plan	1-4	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
BlueChoice PPO 0727 - Medical Plan Design	Benefits Equal to or Better Than Current Plan	1-5	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
BlueChoice PPO 0727 (Retirees O65)	Benefits Equal to or Better Than Current Plan	1-2	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format. The information contained in the guarantee would give competitive

			information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
Questionnaires	Questionnaire and Fact Sheet	1	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format.
6.15 Wellness Incentive Program	Welness Incentive Program	1	Aetna's negotiated average network discounts are confidential and a competitive differentiator in the industry. Our provider contracts and negotiations include that Aetna will not make this information available in a public format.
6.17 Guarantees	Guarantees	1	The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.
6.18 Rate Guarantees	Rate Guarantees	1	The information contained in the guarantee would give competitive information around the value of our clinical programs, what we project for medical management savings, and what we willing to guarantee for return on investment. This is a critical component to our overall financial offer as it relates to a customer's total cost.

INSURANCE REQUIREMENTS

CONTRACTOR shall not commence services under the terms of this Agreement until certification or proof of insurance detailing terms and provisions has been received and approved in writing by the CITY's Risk Manager. If you are responding to a bid and have questions regarding the insurance requirements hereunder, please contact the City's Purchasing Department at (954) 786-4098. If the contract has already been awarded, please direct any queries and proof of the requisite insurance coverage to City staff responsible for oversight of the subject project/contract.

CONTRACTOR is responsible to deliver to the CITY for timely review and written approval/disapproval Certificates of Insurance which evidence that all insurance required hereunder is in full force and effect and which name on a primary basis, the CITY as an additional insured on Commercial General Liability policy. **Such policy or policies shall be issued by United States Treasury approved companies authorized to do business in the State of Florida. The policies shall be written on forms acceptable to the City's Risk Manager, meet a minimum financial A.M. Best and Company rating of no less than Excellent, and be part of the Florida Insurance Guarantee Association Act. No changes are to be made to these specifications without prior written approval of the City's Risk Manager.**

Throughout the term of this Agreement, CITY, by and through its Risk Manager, reserve the right to review, modify, reject or accept any insurance policies required by this Agreement, including limits, coverages or endorsements. CITY reserves the right, but not the obligation, to review and reject any insurer providing coverage because of poor financial condition or failure to operate legally.

Failure to maintain the required insurance shall be considered an event of default. The requirements herein, as well as CITY's review or acceptance of insurance maintained by CONTRACTOR, are not intended to and shall not in any way limit or qualify the liabilities and obligations assumed by CONTRACTOR under this Agreement.

Throughout the term of this Agreement, CONTRACTOR and all subcontractors or other agents hereunder, shall, at their sole expense, maintain in full force and effect, the following insurance coverages and limits described herein, including endorsements.

A. Worker's Compensation Insurance covering all employees and providing benefits as required by Florida Statute, Chapter 440, regardless of the size of the company (number of employees) or the state in which the work is to be performed or of the state in which Contractor is obligated to pay compensation to employees engaged in the performance of the work. Contractor further agrees to be responsible for employment, control and conduct of its employees and for any injury sustained by such employees in the course of their employment.

B. Liability Insurance.

(1) Including the City of Pompano Beach as an additional insured as City's interests may appear, on General Liability Insurance only, relative to claims which arise from Contractor's negligent acts or omissions in connection with Contractor's performance under this Agreement.

(2) Such Liability insurance shall include the following checked types of insurance and indicated minimum policy limits.

Type of Insurance	**Limits of Liability**
GENERAL LIABILITY:	Minimum $1,000,000 Per Occurrence and $2,000,000 Per Aggregate
* Policy to be written on a claims incurred basis	
XX_ comprehensive form	bodily injury and property damage
XX_ premises - operations	bodily injury and property damage
__ explosion & collapse hazard	
__ underground hazard	
XX_ products/completed operations hazard	bodily injury and property damage combined
XX_ contractual insurance	bodily injury and property damage combined
XX_ broad form property damage	bodily injury and property damage combined
__ independent contractors	personal injury
XX_ personal injury	
XX_ CG2010	ongoing operations (or its' equivalent)
XX_ CG 2037	completed operations (or its' equivalent)
__ sexual abuse/molestation	Minimum $1,000,000 Per Occurrence and Aggregate
AUTOMOBILE LIABILITY: [X]	Minimum $1,000,000 Per Occurrence and $2,000,000 Per Aggregate. Bodily injury (each person) bodily injury (each accident), property damage, bodily injury and property damage combined.
comprehensive form [ ]	Minimum $10,000/$20,000/$10,000 (Florida's Minimum Coverage)
XX owned	
XX hired	
XX non-owned	

Please note that Florida Statue Section 255.05 requires contractors who enter into a contract with the City to purchase a payment and performance bond when the contract is in excess of $200,000.

REAL & PERSONAL PROPERTY

__ comprehensive form	Agent must show proof they have this coverage.	

EXCESS LIABILITY		Per Occurrence	Aggregate
XX umbrella (Drop Down).	bodily injury and property damage combined	$2,000,000	$2,000,000

ENVIRONMENTAL/POLLUTION LIABILITY	Per Occurrence	Aggregate
* Policy to be written on a claims made basis	$1,000,000	$1,000,000

CONTRACTOR is required to provide Environmental/Pollution Liability for damage(s) caused by hazardous waste material.

PROFESSIONAL LIABILITY	Per Claim	Aggregate
XX * Policy to be written on a claims made basis	$2,000,000	$2,000,000

Broker is required to provide Professional Liability.

CYBER LIABILITY (Technology)	Per Claim	Aggregate
XX * Policy to be written on a claims made basis	$2,000,000	$4,000,000

XX_ Network Security / Privacy Liability
XX_ Breach Response / Notification Sublimit (minimum limit of 50% of policy aggregate)
XX_ At a minimum the policy must include the following:

- Data breach response costs
- Unauthorized access / use
- HIPAA/privacy violations
- Notification costs
- Credit monitoring
- Regulatory defense and penalties

XX_ Technology Products E&O - $2,000,000 (only applicable for vendors supplying technology related services and or products)
XX_ Coverage shall be maintained in effect during the period of the Agreement and for not less than four (4) years after termination/ completion of the Agreement.

CRIME LIABILITY	Per Occurrence	Aggregate

_ * Policy to be written on a claims made basis $1,000,000 $1,000,000

---

(3) If Professional Liability insurance is required, Contractor agrees the indemnification and hold harmless provisions of Section 12 of the Agreement shall survive the termination or expiration of the Agreement for a period of three (3) years unless terminated sooner by the applicable statute of limitations.

C. Employer's Liability. CONTRACTOR for the benefit of their employees, provide, carry, maintain and pay for Employer's Liability Insurance in the minimum amount of One Hundred Thousand Dollars ($100,000.00) per employee, Five Hundred Thousand Dollars ($500,000) per aggregate.

D. Policies: Whenever, under the provisions of this Agreement, insurance is required of the CONTRACTOR, the CONTRACTOR shall promptly provide the following:

(1) Certificates of Insurance evidencing the required coverage;

(2) Names and addresses of companies providing coverage;

(3) Effective and expiration dates of policies; and

(4) A provision in all policies affording CITY thirty (30) days written notice by a carrier of any cancellation or material change in any policy.

E. Insurance Cancellation or Modification. Should any of the required insurance policies be canceled before the expiration date, or modified or substantially modified, the issuing company shall provide thirty (30) days written notice to the CITY.

F. Waiver of Subrogation. CONTRACTOR hereby waives any and all right of subrogation against the CITY, its officers, employees and agents Commercial General Liability, Automobile Liability, and Workers; Compensation. When required by the insurer, or should a policy condition not permit an insured to enter into a pre-loss agreement to waive subrogation without an endorsement, then CONTRACTOR shall notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy which includes a condition to the policy not specifically prohibiting such an endorsement, or voids coverage should CONTRACTOR enter into such an agreement on a pre-loss basis.

Please note that Florida Statue Section 255.05 requires contractors who enter into a contract with the City to purchase a payment and performance bond when the contract is in excess of $200,000.

Questionnaire – Medical

1. Please provide your proposed Benefit Summaries as part of your response.

Confirmed. Please see our Benefit Review Document and Plan Designs located within our Plan Design section of our proposal response.

2. Please provide a Medical Geo Access report that illustrates the number of:

a. 1 Hospital within 10 miles
b. 2 PCPs & Pediatricians within 10 miles
c. 2 OBs/Gyns, within 10 miles
d. 2 Specialists within 10 miles (excluding OBs/Gyns)
e. 2 Urgent Care Centers within 10 miles

The report format should include a breakdown by employee city of residence, with the number of employees in that location and the number of providers servicing that location. The report should also include reporting on the number and location of employees who do not meet the above criteria.

Please see our Geo Access Reports located within the Network Information section of our proposal response.

3. Please confirm average discounts for the geographic area represented in the employee/member census as follows:

CONFIDENTIAL

Charge Type	Location#1	Location#2	Location#3	Location#4
Location	Miami/Broward County	Palm Beach	Tampa	Orlando
Doctors/Physicians	78.0%	67.8%	79.6%	65.7%
Urgent Care Centers	75.4%	67.7%	79.6%	66.0%
In-Patient Hospital	65.6%	62.3%	66.1%	62.2%

4. Please identify the proposed provider network.

For our fully insured plans, we are proposing our Open Access® Elect Choice® and Aetna Open Access® Managed Choice® plans. For our self-funded plans, we are proposing our Aetna Choice® POS II and Open Access Aetna Select℠ plans. Provided below is a description of each of these plan offerings.

Open Access® Elect Choice® plan

We are proposing our Open Access® Elect Choice® plan as a national solution. Our Open Access Elect Choice plan is an in-network only health plan which lets a network doctor guide our members' care. Members can visit any doctor in our national network and they don't need referrals. Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. You can also design their plan so that the PCP cost share applies only to the member's chosen PCP or to any network PCP. PCP Choice is also a product feature available on the Open Access Elect Choice plan. If you elect this feature, the member must choose a PCP.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,762,000 specialists
- 6,100 hospitals
- 44,800 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Aetna Open Access® Managed Choice® plan

We are proposing our Open Access® Managed Choice® plan as a national solution. Our Open Access Managed Choice plan lets our members visit any doctor they choose. Members don't need referrals and can visit both in-network and out-of-network providers. Their out-of-pocket costs may be higher when they see a doctor not in our network.

As of December 31, 2025, our national network has more than:

- 294,000 primary care doctors
- 1,739,000 specialists
- 6,000 hospitals

- 44,000 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Members may need to choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health. Plus, members may even lower their costs by having a PCP.

Our Open Access Managed Choice plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Aetna Choice® POS II plan

We are proposing our Choice POS II plan as a national solution. Our Choice POS II plan is a point-of-service (POS) plan which lets our members visit in-network and out-of-network doctors and hospitals. Members have the freedom to pick their doctors and they don't need referrals.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,768,000 specialists
- 6,200 hospitals
- 45,000 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Choice POS II uses our national network plus rural providers contracted through third-party vendors. Based on our internal analysis of your geography, leased networks provide zero percent of network access.

Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health, and guide them on important health decisions. And, depending on their specific plan, seeing a PCP could cost less.

Our Choice POS II plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

Open Access Aetna Select℠ plan

We are proposing our Open Access Aetna Select plan as a national solution. Our Open Access Aetna Select plan lets our members choose from quality in-network providers. Members can visit any doctor in our national network and they don't need referrals.

As of December 31, 2025, our national network has more than:

- 300,000 primary care doctors
- 1,762,000 specialists
- 6,100 hospitals
- 44,800 ancillary providers
- 488,999 behavioral health providers[1]
- 147,868 EAP providers[2]

Although not required, we recommend that all of our members choose a primary care physician (PCP). Their PCP provides routine medical exams and gets to know each member and their medical history to direct their care. They also help members learn about and understand their health, and help guide members on important health decisions and direct their care. And, depending on their specific plan, seeing a PCP could cost less.

Our Open Access Aetna Select plan also gives members access to our tools, tips, programs and services that help them find network doctors, estimate costs and make informed decisions.

[1] Data represents behavioral health providers in our PPO-based plans as of 1/1/2026.
[2] Data represents our EAP providers available nationally as of 1/1/2026.

5. For bidders not proposing national network coverage, please describe available access for out-of-state residents (retirees and/or dependents of covered participants).

Not applicable.

6. Is the proposer willing to provide performance guarantees for your network discounting? If so, please include details.

We have included a discount guarantee at 25% of collected fees at risk. Please see the financial package for specific information about our guarantees.

7. Please confirm requirements for coordination with Medicare for both active employees and their dependents, as well as retired employees and their dependents.

We have three methods for coordinating benefits with Medicare depending on the customer provisions or state regulation:

- 100 percent Allowable – This method allows payments up to 100 percent of allowable expenses incurred in a calendar year. An allowable expense is defined as any necessary and reasonable health expense, covered in whole or in part under our plan, which covers the person making a claim. When the primary plan pays on a charge that we don't cover due to the general exclusion of our plan, we consider it COB allowable if one of the plans covers the expense.
- Maintenance of Benefits - The primary plan pays regular plan benefits for covered expenses or the benefits payable if there were no other group health benefits plan in effect. The secondary plan may reduce its benefits to the lesser of either:
  - What it would have paid had it been primary
  - What it would have paid less the primary plan's payment

- Government Exclusion (This method only applies to Medicare) - Government Exclusion is a method of determining our payment when Medicare is primary for the member. When including this method, we consider the member's responsibility after the primary carrier has processed the claim.

When Medicare is primary, we base our benefits on either Medicare's approved amount for Medicare assigned claims, or Medicare's balance billing limit on Medicare non-assigned claims.

COB for employees and dependents

We follow the National Association of Insurance Commissioners (NAIC) OBD rules to find out primary coverage responsibility. We apply COB order of benefit determination for dependents and children as outlined below.

Non-dependent/dependent rule

A plan that covers a person as a subscriber (non-dependent) pays benefits before a plan that covers the individual as a dependent.

A dependent child whose parents aren't separated or divorced

The plan of the parent whose birthday comes first in the calendar year, based on month and day only, is the primary plan of the dependent. The plan of the parent whose birthday comes later in the calendar year is secondary. If the other plan doesn't have this provision regarding birthdays, then the rule set forth in that plan determines the order of benefits.

A dependent child whose parents are separated, divorced or not living together

For a dependent child with divorced or separated parents, if there's a court decree that establishes financial responsibility for the medical, dental or other health care expenses with respect to the child, the benefits of the plan that covers the child as a dependent of the parent with financial responsibility is primary before the benefits of any other plan that covers the child as a dependent child.

If there's a joint custody court decree which states that the parents share joint custody of a dependent child, without stating that one of the parents is responsible for the health care expenses of the child, the parent birthday rule described above applies to determine the order of benefits.

In the absence of court-decreed financial responsibility, if the parent with custody of the child hasn't remarried, the benefits of the plan that covers the child as a dependent of the parent with custody of the child is primary before the benefits of a plan that covers the child as a dependent of the parent without custody.

In the absence of court-decreed financial responsibility and if either one parent has custody or the child lives with one parent, then the order of birthdate is in this order:

- Parent with custody/child lives with
- Spouse of parent with custody/parent child lives with
- Parent without custody/child doesn't live with
- Spouse of parent without custody/child doesn't live with

In the absence of court-decreed financial responsibility when neither parent has custody and the child doesn't live with either parent, then the parent birthday rule applies to determine the order of benefits.

<u>Dependents on spouse's plan and dependent on parent's plan(s)</u>

- Under the Affordable Care Act, members can have coverage both as a dependent on their spouse's or domestic partner's plan and as a dependent under their parent's plan(s)
- One or both parents' plans can cover the dependent

If a spouse or domestic partner's plan covers the member and either or both parent's plan if one of the plans doesn't have a COB rule, then the plan without a rule is primary.

If members have coverage under both their parent's plans and their spouse's plan, the longer or shorter rule applies between all plans.

If coverage under the spouse's plan began on the same date as the dependent child's coverage under either or both parents' plans, then the birthday rule applies to the parent(s) and the dependent's spouse.

8. Each proposer must confirm that they will provide the following reports upon request by the City of Pompano Beach or its Agent of Record: a. Large Claimants (over $25,000), inclusive of gender, plan, diagnosis, last date of service, prognosis, and if the claimant remains covered on the plan. b. Utilization reports by diagnosis, place of service, employee vs. dependent costs. c. Monthly paid claims

Confirmed.

9. Are you willing to conduct face-to-face meetings annually (including medical/pharmacy director and financial analyst support) with the client to discuss financial and program enhancement/cost containment ideas that will assist the client in benefit design strategy, and will not necessarily be focused on plan design coverager eductions?

Yes. We have a reputation for providing industry-leading service and plan management consultation to our customers. We know that a personal relationship makes all the difference, and we understand that each customer is unique with specific goals and objectives. That's why your account team serves as an extension of your benefit team, providing day-to-day support and helping you shape future strategy through analysis and insight.

Surrounding you with tailored support

A connected, personal approach is at the heart of our account service model. We build an account management plan specific to you to drive accountability and mutual success. The plan includes the following:

- Annual strategic planning and review
- Quarterly account management meetings
- Monthly plan management meetings
- Day-to-day account management

We provide the right contacts and experts throughout our organization to ensure you're supported every step of the way.

Strategic review

To promote collaboration and shape plan strategy, we meet at least annually to review your business goals, provide insights into our future direction and examine macro-trends driving opportunities and risks. We also discuss business-to-business endeavors and ensure strategic alignment between our two organizations as needed.

Your account team, supported by subject matter experts throughout our company, hosts meetings to focus on your data and results, and provides specific recommendations for plan improvement. Discussion topics include, but are not limited to:

- Strategic consultation and innovation
- Trend mitigation plans
- Plan performance
- Utilization measurement
- Deep dive analytics
- Clinical insight
- Custom network performance
- Member engagement levels
- Customer and member service issues and trends
- Annual enrollment planning, support and debrief

Plan management meetings

Your account team consults with your team formally each month, and provides:

- Trend updates
- Mitigation strategies
- Consultative solutions
- Discussion of hot topics
- Utilization review, reporting and analytics
- Actuarial and underwriting support for plan change modeling

Day-to-day account management

Your account management team works continuously with your benefits team to provide a best-in-class customer service experience for your company and employees by acting as your trusted advisor. This team is responsible for managing all aspects of our relationship, including:

- Proactively addressing and managing trends that concern you or us
- Promptly managing escalated employee issues
- Working with our internal business teams to provide the support your benefits team needs

Your account manager is your day-to-day contact and is always available for issue resolution. Initially, we recommend weekly account management meetings, led by your account manager, to ensure we are effectively managing all service needs.

10. Are you willing to waive the actively at work, dependent non-confinement limitation provisions for all currently enrolled individuals on medical?

Confirmed. For our fully insured plans, any employee or eligible dependent that is covered by your benefit or service program as of the effective date is fully covered. All actively-at-work and non-confinement limitations are waived.

For our self-funded plans, actively at work clauses and non-confinement limitations are customer options.

11. Please list and describe your Disease Management programs that are included in the proposal.

Included in our proposal is our care management program, Aetna One Flex. This program provides support to our highest risk members, placing an emphasis on treating comorbid conditions along with acute, episodic events. Additionally, our proposed well-being buy-up, Aetna Health Your Way - Achieve, offers broad population support through its Lifestyle and Condition Coaching program. Together, all three programs offer holistic support that meets our members' needs wherever they are in their health journey.

Disease management within Aetna Health Your Way™ Achieve

Aetna Health Your Way™ Achieve is our evidence-based well-being program that brings health solutions directly to your members. Aetna Health Your Way includes a suite of capabilities to help your members manage and improve their well-being on their terms and according to their preferences. From a health assessment to curated well-being pathways (digital coaching), Aetna Health Your Way helps you improve the health and productivity of your employees. This results in better health outcomes, which can lower costs for you and your employees. Aetna Health Your Way focuses on prevention and health risk reduction to help you address health issues critical to the success of your business.

Lifestyle and Condition Coaching (LCC)

Our LCC program allows members across all risk levels (low, moderate and high) to engage with a health coach telephonically or on video. The program is available to all members and their dependents who are 18 years and older.

LCC helps members identify and focus on their personal health and well-being priorities. These priorities may include tobacco cessation, weight management, stress management, nutrition, physical fitness or managing a chronic health condition. Members work with their coach to create a healthy action plan suited to their preferences and learning styles. A robust suite of online tools and engaging educational materials support this plan.

Our CareEngine®, which ingests data from multiple sources, including our health assessment, biometric screenings, activity data and claims, identifies participants for outreach. Members may also enroll in the program through a toll-free phone number.

Comprehensive disease management with LCC and Aetna One Flex

Our Lifestyle and Condition Coaching program works alongside our Aetna One Flex program to break the cycle of rising health costs while improving clinical outcomes for our members. These programs coordinate together to ensure that members are supported and coached based on their individual situation and unique health needs. Our nurses and coaches take a whole health view of members and track their progress over time. We focus on acute and chronic conditions and emerging health risks and lifestyle factors.

Our vision is to improve the consumer health care experience by helping our members achieve their personal health ambitions. To support this vision, we built our Lifestyle and Condition Coaching and Aetna One Flex programs with personalization and engagement in mind. Using a personalized and engaging approach, these programs combine to assist members across the entire spectrum of potential health needs. We provide support from a multi-disciplinary team, along with comprehensive digital interaction points and the convenience of connected devices that provide near real-time data sharing.

Lifestyle and Condition Coaching and Aetna One Flex are at the forefront of what's possible for health care delivery, leveraging deep analytics, integrated technology and advanced predictive modeling to find those who need help the most in a manner that's meaningful to them and their health goals. Whatever their health needs, we offer members the right kind of support to:

- Reinforce and broaden existing healthy behavior
- Improve lifestyle choices
- Manage acute and chronic conditions
- Address emotional well-being and women's health concerns including perimenopause and menopause

<u>An integrated, holistic approach to care</u>

Our Lifestyle and Condition Coaching program is an integral part of any comprehensive population health strategy. The program provides support for a wide array of lifestyle and well-being needs along with many chronic co-morbid conditions that are costly and debilitating. Members receive the right support at the right time in the right way to meet their needs and encourage sustained engagement. Our program helps members form long-term healthy habits and successfully manage their chronic conditions through a single-coach model with the support of a multi-disciplinary team. Lifestyle and Condition Coaching provides specific focus on rising-risk members who need support making lifestyle changes to reduce their overall health risk and help limit future health care costs.

For greater chronic and acute care needs, members receive the right combination of digital and one-on-one nurse support with our Aetna One Flex program. As their needs change, we let them shift seamlessly between programs. Clinicians connect with members in their current state of health and anticipate how their health may change over time. Our Aetna One Flex program provides specific focus on high-risk members with active impactable risk factors such as new diagnoses, poor symptom management, recent hospitalizations and recurring disease flare-ups.

Coordination between programs

We believe that a single nurse point of contact is very important. To that end, we've established a hierarchy within our programs to identify a primary contact when the member qualifies for more than one program. Because of our integrated clinical management approach, all nurses and multidisciplinary resources (such as social workers and behavioral health specialists) on the care team have a comprehensive view of member information. When the member qualifies for both care management and condition management, the care manager is the primary initial contact. The care manager coordinates acute health needs through our Aetna One Flex program, such as care needed after a hospitalization.

Our Lifestyle and Condition Coaching team coordinates with care management to provide focused support for chronic conditions and lifestyle factors through phone, e-mail, SMS and group sessions to positively impact health. When a member's clinical needs have been met, they may then be engaged by our Lifestyle and Condition Coaching program to address certain chronic conditions and lifestyle factors.

By providing support across the entire spectrum of health needs and engaging members of varying health risk, we're able to identify, target and focus our efforts on improving the health and well-being of your employee population. This helps serve your overall population health strategy by reducing costs and improving health outcomes.

12. Please list and describe Utilization Management programs included in the proposal and other available options, if applicable.

Our utilization management programs effectively support your employees and their families by ensuring they receive the care they need.

We accomplish this through:

- Early identification of members for referral to other programs, such as care, disease or maternity management, disability or behavioral health
- Identification of the most cost-effective network providers
- Early discharge planning
- Steerage to Aetna Institutes of Excellence™ and Institutes of Quality®

Precertification

Precertification is the process of collecting information before inpatient admissions and select ambulatory procedures and services. The process permits advance eligibility verification, determination of coverage and communication with the physician or member. It also allows us to coordinate the member's transition from the inpatient setting to the next level of care (discharge planning) and to register members for specialized programs like our maternity management program.

We use precertification to help members and physicians make more cost-effective decisions about scheduling and to help manage outpatient surgical procedures, along with low-tech and high-tech radiology.

Concurrent review and discharge planning

Our clinical team reviews inpatient admissions (except normal maternity care) while the member is in the hospital. We use proven standards of care as guidelines to help make sure care given is necessary and covered. Not all inpatient admissions require this clinical review. For example, routine admissions with a short length of stay normally don't need concurrent review.

Our clinical team determines the frequency of review on a case-by-case basis. They base it on the member's clinical progress and our internally developed Focused Interaction Tool (FIT).

Our review process helps lower the average length of hospital stays and helps members get quality care.

We also help members get the care they need after they leave the hospital. Our proactive discharge planning begins during the hospital stay. We work with doctors, members and their families to develop a transition plan from one level of care to the next.

This helps keep the member cared for and comfortable and helps lower health care costs.

Care management

We originally designed the program using industry and state requirements and have evolved it over time based upon experience and corresponding data. We modified it by assessing population needs and using evidence-based best practices in managing complex illnesses and conditions.

The care management program is a collaborative process based on:

- Assessment
- Development of a care plan
- Implementation
- Coordination of services
- Monitoring
- Providing options and services to meet an individual member's health care needs

It focuses on the continuum of care, addresses the health care needs of members and stresses medically appropriate care and member involvement in the health care process. Communication with the individual member, caregivers and health care providers, combined with enhanced care coordination, assists in promoting quality, cost-effective outcomes. All eligible members have the right to participate. Members can decline participation at any time by opting out of the voluntary program. During our utilization reviews, we find members who can benefit from a nurse care manager to help prevent more significant health events.

A key to program success

Good communication is the key to the engagement that drives success. We use our reviews as opportunities to educate members and physicians on the right care, at the right time for a more cost-effective price. We also refer members to personalized programs to help meet their needs.

The key is making healthy choices convenient and easy to keep members engaged. Engaged employees are healthier, more productive and have lower total health care costs.

13. Please confirm dependent child(ren) eligibility.

Confirmed. Our standard definition of an eligible dependent child, married or unmarried, from birth up to 26 years of age includes:

- Biological children
- Stepchildren, including children of covered domestic partners when the plan provides domestic partner coverage for all employees
- Legally adopted children and proposed adoptive children
- Foster children, including any children placed with the employee for adoption
- Children for whom the employee is responsible for under court order
- Grandchildren who meet the applicable grandchildren eligibility requirements
- A handicapped dependent, defined as a dependent above the limiting age that is incapable of self-support due to mental or physical handicap which began prior to the limiting age

Most of our contracts state that an individual is eligible for coverage if they are a regular full-time employee, who normally works at least 25 hours a week and is actively at work on the effective date unless otherwise noted in your plan documents.

14. Please confirm the proposer has included the telemedicine benefit in the medical quote. Please confirm if this includes mental/behavioral health.

Confirmed. Included in both of our fully insured and self-funded quotes is our CVS Health Virtual Care™ program.

CVS Health Virtual Care™ offers 24/7 general medicine alongside scheduled mental health services, providing members with convenient access to comprehensive virtual care. Mental health services include support for depression screening and medication management, as well as scheduled counseling and psychiatry visits.

Members have access to a broad range of mental health services designed to support emotional well-being across life stages. These services include therapy for anxiety and mood disorders, as well as support for stress management, life transitions, conflict resolution, depression, grief, sleep concerns, and related health behaviors. Psychiatry services are also available for mental health evaluations, prescriptions, and ongoing medication management.

CVS Health Virtual Care™ mental health services are supported by a network of licensed mental health professionals delivering high-quality counseling and psychiatric care. Available mental health counselors hold licensure such as LCSW, LMFT, LMHC, LPC, LISCW, and psychologist. Psychiatric prescribers, including PMHNPs and FNPs, support select scheduled services such as evaluations and medication management. CVS Health Virtual Care™ continuously evaluates demand and scales capacity as needed to help ensure members have appropriate access across all mental health lines of service.

15. For plans that provide out-of-network coverage, if radiologists, anesthesiologists and pathologists are not part of the network, is the member responsible for cost at the in-network or out-of-network reimbursement levels?

When a member receives services at an in-network facility and by an out-of-network hospital-based physician, we cover the services at the in-network benefit level. These services typically occur in conjunction with emergency care and outpatient and surgical care. Hospital-based physicians (HAIRPNs) typically include: anesthesiologists, emergency physicians, pathologists, radiologists, hospitalists, intensivists and neonatologists.

The Federal No Surprise Act (NSA) protects members from the costs of unplanned medical bills from nonparticipating providers. These bills may occur when members receive care at an in-network facility and from nonparticipating providers who perform services as part of the facility's service. Members typically don't have an opportunity to choose a provider.

For self-funded plan sponsors that haven't opted in to any state surprise bill regulation, HAIRPNs services by out-of-network providers at in-network qualifying facilities are subject to the Federal No Surprises Act (NSA). The NSA requires health plans to process out of network provider claims issued in qualifying facilities at the plan's in-network benefit level and to calculate the in-network cost share based on the Qualifying Payment Amount (QPA). The QPA is the median of the carrier's contracted rates for the same service or supply in the same geographic region, based on 2019 contracts and adjusted as required by the NSA. To calculate the member's cost share based on the QPA, we have to allow the QPA for covered services.

The NSA doesn't protect the member if the service isn't a covered service and the member has signed a consent form agreeing to out-of-network care.

Our claims system supports this process, and it typically wouldn't require manual processing.

Contracts with hospital-based physicians

In some markets, the hospital directly contracts and reimburses hospital-based physicians such as radiologists, anesthesiologists and pathologists. In other markets, we directly contract and reimburse hospital-based physicians in accordance with an agreed fee schedule.

We continuously work to contract with hospital-based physicians. Our hospital contracts instruct network hospitals to assist in that effort. We also have a policy in place to protect members by covering services from out-of-network hospital-based physicians in network facilities at the in-network benefit level.

Emergency care coverage

In the case of a true emergency, the member may seek medical care at the nearest emergency facility. We cover emergency room services at the preferred benefit level, regardless of the facility's participating status. These covered services include radiologist, anesthesiologist, pathologist, laboratory, hospital laboratory and emergency room physician services. If an out-of-network provider bills the member, we hold the member harmless for amounts above the plan cost share.

We reimburse out-of-network providers in accordance with the appropriate recognized charge. Our reimbursement rates comply with applicable state regulations. For large dollar amounts, we try to negotiate a rate with the provider.

16. How do you handle the transition of care for members currently undergoing treatment or have existing relationships with the incumbent carrier's network providers?

Our transition of care coverage allows a member in an active course of treatment to continue the treatment for a limited time at a higher benefit level. We define active course of treatment as a program of planned services that:

- Starts on the date a provider first renders a service to correct or treat the diagnosed condition
- Covers a defined number of services or period of treatment
- Includes a qualifying situation

During the transition, we provide Transition of Care Coverage Request forms and "Transition of Care Coverage Questions and Answers" communications to you. You can then give these forms to those employees who wish to apply for our transition of care coverage. Members may also request forms by contacting member services. Once we receive the completed forms we review the submitted information for continued treatment approval.

We don't automatically identify members for special handling. The doctor or member is responsible for initiating this process by sending us a completed Transition Coverage Request Form.

Our clinical team, including a medical director or licensed behavioral health clinician, performs the following as needed:

- Reviews the coverage request to verify that the correct team received it for processing
- Records receipt of the transition of care coverage request in our clinical management system when member eligibility becomes available
- Verifies member eligibility
- Verifies that the forms are complete and signed
- Verifies that the service is not a plan exclusion
- Determines whether we can approve the transition of care coverage request based upon the information submitted or whether we need additional information
- Documents the transition of care request decision

- Provides a notification of the decision including:
  - The reason for the denial
  - The clinical rationale used to support the decision
  - The clinical criteria used to make the determination upon request

Examples of medical conditions that are appropriate for transition of care consideration include, but are not limited to:

- Pregnancy in the second and third trimester
- Rehabilitation for an acute or short-term condition
- Surgery pre-approved before the new plan effective date but scheduled within three months of the new plan year
- Cancer treatment
- Inpatient or outpatient mental health or chemical dependency treatment
- Outpatient intravenous therapy for a resolving condition
- Advanced stages of terminal illness
- Chronic renal dialysis
- Solid organ or bone marrow transplant
- Infertility

We make transition of care benefit determinations within the precertification timeframe.

Provider nominations

You're welcome to contact your account representative and members can email or call Member Services to nominate a provider for our network. Our teams forward the provider nomination information to our credentialing unit for eligibility and network review.

Physician nominations

If the physician is in a network area where we are pursuing applications for their specialty, we send a nomination communication. It includes information on how to request an application to join the network. Physicians who return the application request undergo credentialing. If the physician is in a rental network area, we send a nomination communication and request they contact the designated rental vendor directly for consideration.

We send the first nomination communication to the provider within 30 days of the nomination and follow-ups if needed.

We accept physicians into the network if they meet our quality and business criteria.

Once we receive all required documentation, it may take 90 to 120 days to credential and add a physician.

Hospital or facility nominations

We forward the hospital or facility nomination information to the appropriate local market network manager for review.

We accept hospitals into the network if they meet our quality and business criteria.

Once we receive all required documentation, it may take up to a year to add a hospital.

Notifications

Upon request, the account representative provides you with an update of the nomination status and you may notify the member. We don't directly notify the member if we add a physician or hospital they nominate to our network.

Members can check if a physician or hospital participates in our network by searching online in our provider directory or by calling Member Services.

We haven't historically tracked the number of physicians or hospitals added from member or customer nominations.

17. Please describe your prior authorization process, specifically as it relates to high-cost specialty medications (such as Ozempic, Mounjaro, etc). Please confirm if you are able to accept a file of current authorizations and if there is a cost associated with this.

We don't prescribe GLP-1 drugs as part of our medical benefit administration. However, we do offer programs focused on diabetes prevention and diabetes management. We also offer programs focused on weight management.

While our Transform Diabetes Care program doesn't include prescription of any medications, one of the program's areas of focus is medication optimization. This includes application of American Diabetes Association (ADA) guidelines to make anti-diabetes drug classification recommendations to the member which can then be discussed with the member's provider. Transform Diabetes Care has not been shown in your quote at this time.

Precertification

We apply our National Precertification List (NPL) to all medical outpatient services. We require precertification for certain complex, high-cost therapies and treatments. Our approach improves the quality of care while lowering costs for our members. With precertification, we make sure that members are receiving the drugs that they need while avoiding waste. We do this by approving the right dose, steering to the most appropriate site of care and following a recertification process that ensures continued effectiveness of therapy. Because of our strong provider relationships, they know our guidelines and have increasingly adhered to them over time.

Our full list of drugs that require precertification is available at **Aetna.com/health-care-professionals/precertification/precertification-lists.html**

Real-time feedback with our prior authorization tool

Our online, real-time access automated prior authorization tool allows providers to enter precertification requests and receive immediate feedback on preferred drug strategies, site of care opportunities and other coverage requirements, enabling a more seamless experience for providers. It also integrates with our pharmacy benefit tool when a provider needs to send a request to that benefit. The tool provides claim editing capabilities for complex drugs and allows edits that are personalized to member-specific dosing.

Precertification criteria

You can access our precertification criteria in our Clinical Policy Bulletins (CPBs) at **Aetna.com/health-care-professionals/clinical-policy-bulletins/medical-clinical-policy-bulletins.html**

We track these drugs by drug name, dose and indication for use. We only pay claims if they have authorization in our system.

The CVS Caremark National Pharmacy and Therapeutics (P&T) Committee, in partnership with Aetna, provides clinical input on all medical specialty formulary decisions. These decisions include an extensive review of FDA-approved drugs. We base our coverage criteria and decisions on efficacy first. If efficacy is equal, then we look at cost.

Accepting prior authorizations from the incumbant carrier

For our self-funded customers, prior authorization cases are part of the standard transition process as of January 1, 2026, for all commercial business. The standard for transition of case will be 90 days effective January 1, 2026 unless the plan sponsor has an exception. Please note we require a signed Hold Harmless agreement for self-funded customers.

18. Are you willing to honor each member's deductible and out-of-pocket maximum accumulation credits (if applicable)? Please advise what reports you would need in order to honor each member's accumulation credits.

Yes. We meet with you to discuss the transfer of financial information as soon as we are selected to administer your plan. To correctly process claims, we need a list of financial accumulators for each employee and dependent. The list may vary based on your needs and can include:

- Coinsurance amounts
- Deductibles
- Out-of-pocket limits
- Annual and lifetime maximums
- Visits
- HRA fund balance rollover

To load this data into our claims system, we need the following information:

- Subscriber's Social Security number
- Claimant's last name
- Claimant's first name
- Claimant's relationship to employee
- Claimant's date of birth (YYYY-MM-DD)

Format and timing

We accept the information in both Microsoft Excel® (preferred method) and text delimited formats. We accept these formats through an email that is password protected or through a secure file transfer protocol online. The first file should come to us from the prior carrier at least two weeks before the effective date. There's no charge to transfer the accumulator data to us.

Because the prior carrier continues to process claims during the run-out period, this data can quickly become outdated. To keep data current, we suggest a subsequent update one to two months later to capture run-out claims. There's no additional charge for the second and third accumulator file. There's a charge for each ongoing accumulator file received from a third-party pharmacy or behavioral health vendor on a bi-weekly or monthly basis.

Questionnaire – Wellness

1. Please confirm that your proposal includes annual Wellness Funds and the amount you will be providing annually. Please outline how the funds can be used and if any conditions apply.

Our wellness funds vary by funding type as described below.

Fully insured

We have included a $100,000 Wellness and $50,000 Technology allowance as part of our financial proposal. In general, allowances must be used for expenses directly related to the administration of your Aetna plan. Our financial proposal documents provide a detailed description of how we administer the Wellness and Technology allowance and outline our terms and conditions. The Financial Information section of our proposal response includes these documents.

Self-funded

We have included a $150,000 Health Plan Allowance as part of our financial proposal. In general, you must use allowances for expenses directly related to the administration of your Aetna plan. Our financial proposal documents provide a detailed description of how we administer the Health Plan Allowance and outline our terms and conditions. We include these documents in the Financial Information section of our proposal response.

2. Are there any additional costs to the City of Pompano Beach or employees to participate in your wellness programs or services?

The costs of our wellness programs vary by funding as described below.

Fully insured

We have included our standard fully insured well-being programs in our quoted rates.

We are proposing Aetna Health Your Way Achieve on an optional basis, for an additional premium cost. Our financial proposal documents provide pricing for programs available on an optional basis, and any applicable terms and conditions. These documents are included in the Financial Information section of our proposal response.

Self-funded

We have included Aetna Health Your Way Core in our self-funded proposal. The cost of the program is included in the per employee, per month administrative fee.

We are proposing Aetna Health Your Way Achieve on an optional basis, for an additional cost.

Our financial proposal documents provide a list of programs included in our pricing, pricing for programs available on an optional basis, and any applicable terms and conditions. These documents are included in the Financial Information section of our proposal response.

3. Will the account team assigned include a designated wellness coordinator? If so, which wellness services will be included?

For our Aetna Health Your Way – Core program, which is included with all of our proposed plans, we don't offer the option of a well-being coordinator at this time.

However, for our Aetna Health Your Way – Achieve program that is being offered as a buy-up for all of our proposed plan options, we do include a designated well-being program consultant. Working collaboratively with you, your well-being program consultant acts as an extension of your Account team to help you build an effective strategy that meets your short and long-term well-being goals. Your well-being program consultant can:

- Assist with the development, coordination, management and maintenance of your well-being programming to reduce health risk and medical costs, as well as encourage healthy lifestyles
- Help define practical and actionable well-being goals as well as gather and define baseline data and measures of success over time
- Participate in discussions with well-being committees and well-being champions to drive goals and advance a culture of well-being
- Leverage existing programs, relationships and resources to use well-being dollars wisely (if applicable)
- Assess and evaluate health promotion programs, such as biometric screenings and health assessments (if applicable)
- Support onsite services and work with third-party administrators to vet and implement new solutions and maintain current vendor relationships (if applicable)
- Answer questions about well-being programs and encourage participation in available programs while coordinating referrals to appropriate programs, as necessary
- Recommend meaningful incentive strategies that drive participation in new and existing programs

Your well-being program consultant also has access to our reporting and analytics platform, ART. This platform helps identify key cost and utilization drivers, as well as social determinants of health (SDOH) affecting your employee population.

4. Will you attend Wellness Events throughout the year? If so, how many? Are there any related costs for attendance?

Yes. As mentioned previously, one of the roles of our well-being program consultants is to support our customer's benefits and total rewards team in various well-being events (onsite, virtual and hybrid). Through these events, well-being program consultants answer questions about well-being programs, encourage participation in available programs and coordinate referrals to appropriate programs as necessary. The well-being program consultant works with cross-enterprise partners and other vendors to deliver tools and resources to execute the strategy. The account management team and the well-being program consultant will work with you to collaborate on the number of wellness events to attend throughout the year. There is no additional cost for attending wellness events.

5. Does your company offer rate discounts on the proposed programs, in dollars or percent, to employer groups who implement an active, participatory Wellness Program? If so, please describe the discount model, the amount, and the requirements.

No. We do not offer any rate or fee discounts to the proposal, but your Health Plan Allowance can be used to support wellness initiatives.

6. Does your wellness program provide a proactive health education and improvement program for those with a chronic condition?

Yes. Our well-being content and tools aren't customizable, but they are personalized, offering a great member experience.

Personalized member experiences

We use data persistence to continuously update, personalize and simplify the user experience on our Aetna Health Your Way™ well-being platform. After taking the health assessment, members receive a unique numeric health score (MyHealth100) which shows their current health state. Based on their MyHealth100 score, we offer members prioritized well-being goal options to improve their health. Each goal includes a simulated improvement score.

Aetna Health Your Way pathways are personalized, guided well-being experiences that include goal-based check-ins, AI powered content recommendations, educational materials and a curated health checklist. Our purpose-driven pathways encourage members to set health goals and offer daily check-ins to stay motivated and accountable as they pursue committed objectives to improve their health

After the member has selected a well-being pathway, additional health and well-being content is available to members in a variety of formats and search preferences in our Explore section. We offer the latest health content from award-winning vendors. This includes information on medications, health topics, tests and procedures, as well as community-based resources, webinars, health articles, recipes and interactive videos. Industry experts research, create and review our market-leading educational content. This helps ensure all content is accurate, unbiased and refreshed monthly.
Another exciting feature of the pathway member experience is our proprietary AI-powered content recommender. While on their pathway, members are presented with a curated health checklist with important tasks for them to complete, including personalized content, open health actions, prompts to connect a device for activity tracking, etc. The interactive checklist displays the activities that are open, and those the member has completed.

Completing our content preferences survey enables personalized recommendations for the member in the "Recommended For You" section. As members engage with content, they can upvote or downvote based on their experience. These votes are aggregated to highlight trending topics popular with other users, enhancing the platform's social aspect.

We work collaboratively with you to provide the right information and support for your well-being benefit strategy.

7. Does your wellness program utilize behavioral coaching principles and evidence-based medicine guidelines to optimize self-management skills to foster sustained health improvement?

Yes. Our nurses help guide members to make lasting behavior change through motivational interviewing techniques. These techniques help them discover the member's goals and what motivates them to make sustainable behavior change. Nurses uncover possible hurdles to making positive behavior change and help members eliminate or manage these obstacles. They focus on the member's internal desire to change rather than just general education.

Motivational interviewing is at the core of our program. This is evident in our:

- Tools - Rather than just training employees in motivational interviewing, we give them tools to develop expertise and confidence. Our team gains valuable information from peer supervision and social network resources.
- Caller priorities - Because a human touch is important, we've reduced the use of scripts and formal assessments. Conversations are led by the member's needs, not a script.
- Sophisticated analytics - Measuring the results of our program helps us stay in tune with member needs. We measure individual responses and evaluate the impact on member behavior and cost benefits.
- Personalized care plans - Based on our discovery of the member's internal motivators and through system-driven assessments, nurses create a care plan specific to the member through one-on-one nurse support or virtual, self-directed care.
- Digital support - Members may prefer to use online programs to manage their health. These programs replicate the successful behavior change methodology used by our nurses and include tailored messaging technology that helps improve engagement rates, program completion and outcomes.

Having a trusted person to support them keeps members engaged and motivated. This helps us provide more impactful care support, leading more members to achieve their health ambitions.

Coaching through Lifestyle and Condition Coaching (LCC)

Our proposed buy-up, Aetna Health Your Way - Achieve, includes our Lifestyle and Condition Coaching program. Our coaching model is deeply rooted in evidence-based practices backed by qualified research including the U.S. National Library of Medicine and PubMed. Our approach to behavior change employs evidence-based methods, including motivational interviewing, cognitive behavioral therapy and behavioral economics, which are endorsed by leading health organizations such as the American Medical Association, the American Heart Association, the American Academy of Pediatrics and the Agency for Healthcare Research and Quality.

Our evidence-based behavior change coaching uses the principles of self-determination theory to help members establish their own personal path to health and well-being. Coaches provide non-judgmental support to help members define personal well-being goals and overcome any obstacles to success. With ongoing support, coaches help to improve the member's self-efficacy, foster accountability and inspire intrinsic motivation, which promotes engagement and sustainable behavior change. Evidence indicates that if coaches offer support, encourage accountability and examine and resolve a member's ambivalence about changing, there's a better chance that individuals develop self-management skills and coping strategies which help them overcome obstacles they may face.

Motivational interviewing

We use motivational interviewing approaches to identify issues and explore base motivation to make lifestyle changes and address ambivalence. Coaches use a direct approach to point out inconsistent positions and then actively support positive behavior change choices resulting in accountability for lifestyle choices.

Motivational interviewing is a form of collaborative conversation that helps strengthen an individual's own motivation and commitment to change. It's a person-centered counseling style for addressing the common problem of ambivalence about change by paying particular attention to the language of change. It's also designed to strengthen an individual's motivation for and movement toward a specific goal by eliciting and exploring the person's own reasons for change within an atmosphere of acceptance and compassion.

Motivational interviewing techniques use four methods to achieve its ends: engagement, focus, evocation and planning.

- Engagement – Involves the individual in talking about their issues, concerns and hopes while helping establish a trusting relationship
- Focus – Narrows the conversation to habits or patterns that individuals want to change
- Evocation – Elicits individual motivation for change by increasing the member's sense of the importance of change, their confidence about change and their readiness to change
- Planning – Develops the practical steps individuals want to use to implement the changes they desire

Conscious inclusion

Our coaches are trained in conscious inclusion, cultural awareness, empathy and listening. Our assessments also address physical limitations, health literacy, language needs and learning preferences. Coaches have access to certain demographic information on members including preferred language, preferred form of address, ethnic group, marital status, gender identity, sex assigned at birth and sexual orientation. All of this information helps us further engage members in a personalized manner that is best suited to their preferences which can help support behavior change.

8. Does your wellness program include: a. Chronic condition-specific coaching? b. Pre- and post-discharge calls? c. Lifestyle management coaching: stress, weight management, and tobacco cessation? d. Treatment decision support and coaching?

Yes. Included in our proposal is our Aetna One Flex program and our Aetna Health Your Way™ Achieve buy-up. While Aetna One Flex targets our highest risk members and offers services such as post-discharge calls, Aetna Health Your Way™ Achieve is our evidence-based well-being program that complements Aetna One flex by offering digital support, engagement and self-management tools to help your members manage and improve their well-being on their terms and according to their preferences.

Lifestyle and Condition Coaching (LCC)

Included with Aetna Health Your Way™ Achieve buy-up is our LCC program that targets chronic conditions and provides disease management. LCC allows members across all risk levels (low, moderate and high) to engage with a health coach telephonically or on video. The program is available to all members and their dependents who are 18 years and older.

LCC helps members identify and focus on their personal health and well-being priorities. These priorities may include tobacco cessation, weight management, stress management, nutrition, physical fitness or managing a chronic health condition. Members work with their coach to create a healthy action plan suited to their preferences and learning styles. A robust suite of online tools and engaging educational materials support this plan.

Our CareEngine®, which ingests data from multiple sources, including our health assessment, biometric screenings, activity data and claims, identifies participants for outreach. Members may also enroll in the program through a toll-free phone number.

Post-discharge calls

As a part of our included Aetna One Flex program, we conduct post-discharge calls. All members with a scheduled admission who are discharged from a hospital receive a post-discharge outreach. This occurs within seven business days of their discharge. We do not perform post-discharge calls for outpatient surgeries, maternity, newborns, behavioral health, coordination of benefits (COB) or Medicare. If a member transitions from an inpatient setting to a skilled nursing or acute rehabilitation facility, the post-discharge call occurs once the member is discharged from these facilities. The goal of our outreach is to prevent avoidable readmissions.

We don’t measure post-discharge outreach in our standard reports but use readmission reporting for insight.

Digital solutions

Aetna Health Your Way offers a dynamic, intuitive and personalized well-being platform for app and web with focused self-guided digital coaching for members to learn and sustain healthy habits in body, mind and spirit. The gamified format promotes and rewards member engagement with enhanced features that drive behavior change through goal-setting, motivation and encouragement to complete activities and earn rewards.

Our platform leverages the latest technologies including artificial intelligence (AI) and machine learning (ML) using evidence-based health information. Our well-being platform aligns with the evolving needs and expectations of our members, including using traveler and explorer personas for members to navigate their pathway.

In addition to a proprietary health assessment and personalized well-being pathways, our well-being platform offers other proprietary programs and features, including:

- A unique MyHealth100 score
- An AI content recommender
- An interactive health resources library (articles, videos, audio recipes and community-based resources) personalized by content preferences
- An incentive program with rewards using "hearts" digital currency and personal challenges
- Recommendations for personal (telephonic) coaching and group coaching
- A mental health check-in

- Well-being webinars and trending well-being content
- Activity and device tracking and reporting

Our well-being platform also offers gift card fulfillment services.

MyHealth100

Our well-being platform includes MyHealth100. This is a new tool that gives a unique health score to each member after they complete our health assessment. Derived from our proprietary Aetna Health Your Way Index, MyHealth100 empowers participants to actively manage their health by analyzing each member's health profile and issuing a score (0 to 100) that's easy to understand and encourages them to take action to improve their health score. MyHealth100 drives personalized member pathway recommendations that focus on the aspects of health they want to improve.

Well-being pathways

We offer nine different well-being pathways as part of our digital coaching support with varying intensity levels as determined by the member's health profile. These pathways feature the following coaching topics:

- Be More Active
- Reduce Your Diabetes Risk
- Manage Your Stress
- Get Restful Sleep
- Manage Your Blood Pressure
- Reduce Your Health Risks
- Make Healthier Food Choices
- Say Goodbye to Tobacco
- Manage Your Weight

The duration of each pathway varies based on the selected pathway and intensity level for each goal. These purpose-driven pathways encourage members to set health goals and offer varied daily check-ins to stay motivated as they pursue committed objectives to improve their health.

Aetna Health Your Way takes a holistic approach to pathways by offering a daily mood check-in during the pathway experience. The mood check-in is a new feature that poses a single question to help members reflect on how they're feeling each day in relation to their goals. Members rate their mood on a scale of 1 -10. If a member's rating is between a 1-3, we display emergency resources to the member (911, 988 and National Suicide Hotlines).

Another significant part of the pathway experience is our proprietary AI-powered content recommender. It learns about the member's health state to recommend personalized content and refreshes post-completion. Members can view the content as a daily activity. While on their pathway, members receive a curated health checklist with important tasks for them to complete. This includes open health actions, prompts to connect a device for activity tracking, personalized recommendations for coaching options (personal 1:1 and group) and all available client-incented activities.

The interactive checklist displays the activities that are open and those the member has completed. For example, during their initial pathway check-in, members learn about the option of connecting a device. The devices suggested are specifically related to their chosen pathway goal. The pathways and the curated health checklist within each pathway create a personalized, focused experience that guides the member towards a clear goal.

Curated content

After the member has selected a pathway, additional well-being content is available to members to learn more about their health in our Explore section. We ensure our content is relevant and accurate with well-being advancements and trends by using award-winning health content vendors. This includes Healthwise, Dotdash Meredith and FindHelp.org. We offer the latest well-being content, including information on medications, health topics, tests and procedures, as well as health articles, recipes, interactive videos and much more.

Challenge programs

Aetna Health Your Way also offers a variety of well-being challenges designed for personal participation. Our challenges leverage the core tenets of game mechanics, animation, incentives and social competition to create a fun experience to motivate your employees. Aetna Health Your Way's challenge program leverages science and evidence-based medicine to promote sustained engagement, incremental habit adoption and healthy competition.

Incentive strategy and rewards

Our well-being platform employs an incentive strategy grounded in the science of behavior change to promote daily engagement. By integrating established habit-building techniques, the platform leverages gamification and incremental feedback to foster the development of healthy behaviors. All activities within the platform are rewardable with "hearts", a digital currency that members earn as they progress toward their goals and complete incentivized activities.

We provide clients with a turn-key reward program that features a built-in menu of activities for hearts gamification and pre-set heart values for specific actions. The value of a heart is standardized at 100 hearts to one dollar, allowing for a straightforward client configuration of reward values. Members can easily view available incentives and track their progress using the platform's health checklist.

Our platform incorporates a broad range of offerings to encourage and reward healthy behaviors beyond initial enrollment and completion of a health assessment. This incentive design approach ensures that members remain engaged in activities that deliver the greatest benefit and impact to their health.

Health decision support

Our included Aetna One Flex program also provides health decision support. Employees and their families may be faced with a new diagnosis or health care decision at any time. Our well-being platform uses best-in-class Healthwise Knowledgebase's library of online learning videos and interactive tools to give members the information they need to make better decisions about their health. These resources educate members on a variety of common conditions, treatments, procedures and surgeries, and help them pick the best course of action for their health.

The programs are engaging and interactive, encouraging thought, preparation and discussion. They provide information in a clear, concise manner and help members weigh the benefits and risks of their different health care options, as well as discuss those options with their doctors. With Healthwise Knowledgebase, members can review over 8,000 health topics, watch more than 700 informational videos, view detailed images and illustrations and have access to an interactive symptom checker.

Members have 24/7 access to Healthwise Knowledgebase through our member website.

Questionnaire - Mental/Behavioral Health

1. Describe how your integrated offerings engage those with unaddressed behavioral health concerns or needs. Do you have any outcome metrics that show the success of these measures and the impact on overall medical costs?

Medical/behavioral health integration is a core competency and at the heart of all we do. We provide members with both medical and behavioral health conditions with health and lifestyle management support. Medical nurse case managers screen members with a medical condition for other impacting issues including behavioral health concerns, stress and social determinants.

When a member is found to be struggling with behavioral health, stress, and/or social concerns, the nurse can request a consultation with a behavioral health resource. In fact, a behavioral health clinician is assigned to each medical team. Through consultation, we provide the medical nurse with the right clinical and resource options to support the member's needs. With each, our care management staff screens to identify the following behavioral health issues:

- Anxiety
- Alcohol use
- Eating disorders
- Bipolar screening
- Depression

Medical nurses address most "routine" issues - such as feeling stressed, overwhelmed, irritable, nervous, anxious or worried. A behavioral health clinician provides support and guidance to the nurse in coordinating the member's care.

When we identify members with needs that are more complex, the medical nurse case manager refers them to our behavioral health case management team. This can be done via warm transfer and our shared clinical system. From that point, the medical nurse case manager helps the member manage the medical concerns, while the behavioral health case manager supports the member with behavioral health concerns.

Both case managers collaborate and coordinate on multiple levels including ad hoc consultations, attending joint medical rounds and reviewing care notes in our shared clinical system.

By providing a blended, holistic approach to our member interactions and through enhanced screening, our staff now has the ability to see and address all co-morbidities as they affect the member.

Specifically, this will aid and impact:

- Identification - Care management teams are better able to identify behavioral health conditions for the members who have triggered for their program and mitigate the behavioral health impact on acute and co-morbid medical conditions. Conversely, behavioral health team members have care management team members available to discuss medical conditions for the membership they manage when they identify medical co- morbidities.
- Assessment - The care management team quickly assesses the severity of the behavioral health condition and the impact on the member's medical conditions. This is the key driver to determine the next steps for the medical management team, as they incorporate behavioral health components into the members' plan of care.
- Care management - The care management team manages the member more holistically through the continuum of care, addressing both medical and routine behavioral health gaps in care. They work closely with the behavioral health clinician(s) to determine the most appropriate care for the member through consultation, co-management and case conferencing.
- Outcomes - With continued cross-collaboration and integration of the care management and behavioral teams, the member will receive holistic quality care in a cost-effective manner. Customers will see for their members improved and sustained health outcomes.

The goal is a clinical model that demonstrates real integration of care across all programs and populations to:

- Identify and addresses routine behavioral health issues by leveraging behavioral health and medical management expertise
- Improve the effectiveness of medical interventions and outcomes by addressing behavioral health drivers of medical outcomes.

The success of our behavioral health programs

Integration advantages include earlier identification of BH issues, improvement of medical outcomes, increased member involvement with management of physical, mental and emotional well-being and increased participation in our BH and BH condition management programs. All of this helps create a positive impact on cost savings.

Behavioral Health Condition Management BoB clinical results

For our Behavioral Health Condition Management program included only with self-funded quotes, in 2025, engaged members saw a 32.16 percent improvement in depression and a 35.73 percent improvement in anxiety based on the difference from the initial and final assessments for each case. Additionally, we saw on average 1.66 days at work gained per month and a 59.66 percent program completion rate.

2. Describe how you assist members in navigating and identifying available behavioral health appointments.

Within our utilization management and care management programs, we have a robust provider linkage process for members needing provider access and availability. Our behavioral health teams do the research for members by outreaching in-network and if needed, out-of-network providers to confirm availability and clinical fit. We then provide our members confirmed availability options. This capability is standard within our behavioral health precertification, concurrent review, Behavioral Health 360 and condition management teams.

We do not schedule appointments for members. Behavioral Health member services, however, is always available to assist in finding providers and offering information. Our customer service team can help with appointment finding and can provide members with a curated list of providers with confirmed availability within three days of request.

Emergency appointments

Clinical triage staff schedule emergency and initial, urgent care appointments for both mental health and substance use.

For routine, non-urgent care, we help members identify appropriate providers in their geographic area. They can then schedule the appointment that best meets their needs.

CVS Health Virtual Primary Care™

Included in your quote is our CVS Health Virtual Primary Care™ prgroram which offers support for common behvairoal health conditions. We are committed to providing members with an optimal care experience, which includes transitioning members to the right additional care setting when needed. CVS Health Virtual Primary Care™ takes a thoughtful approach to care transitions to enable members access in-person care, care management and quality-driven specialists when needed. The Care team is equipped to help members navigate these care transitions either through warm hand-offs, proactively scheduling appointments for members or connecting them with quality in-network specialists in their area.

Additionally, members have access to their own health data including visit details and test results through our simple and convenient web-based navigation page. A single patient profile is accessible to providers across sites of care, fostering better communication between providers. With a broader view of care activity, providers deliver personalized health alerts for health screenings as well as lifestyle recommendations. The Care team helps members maintain wellness and resolve critical care gaps before they emerge.

3. Please list any lawsuits or settlements against your company in the past three years regarding mental health parity or denial of behavioral claims.

Aetna Life Insurance Company (ALIC) may be involved in regulatory actions and litigation regarding the administration of our businesses. Due to the size of our business, non-material government, regulatory or administrative investigations, proceedings, complaints, lawsuits or other legal proceedings naturally flow from disputes that arise out of the sensitive nature of services provided by a managed care organization.

ALIC is an indirect wholly owned subsidiary of CVS Health Corporation. We disclose significant regulatory actions and litigations in our parent company’s SEC filings. You can find information on Litigation and Regulatory Proceedings in CVS Health's annual and quarterly filings with the SEC.

We haven’t been debarred or precluded in any way from doing business in any state. We work diligently and expeditiously to resolve issues that arise as a result of administering or insuring benefit plans for our customers.

4. Describe your efforts to improve access to behavioral care and your efforts to identify and engage people reluctant to seek behavioral care.

We want our members to have access to high quality in-network providers. Our constant and continuous goal is to provide members with timely access to a robust network of available, high quality behavioral health providers. To do so, we:

- Encourage providers to offer telehealth services in all 50 states
- Conduct targeted provider recruitments and fee schedule updates, as well as negotiate nonstandard higher rates for providers in areas where there is a specific need
- Increase our network by encouraging members and plan sponsors to nominate providers for inclusion in our network plans
- Increasing national contracts and partnerships with providers in the both the brick-and-mortar space, as well as virtually

Developing and increasing our network

We currently have an open network of behavioral health providers and have successfully increased our in-network provider footprint by 21percent in 2024 and over 40 percent since January 2023. Our goal is to provide members with timely access to a robust network of available, high quality behavioral health providers and we now offer 514,000 behavioral health providers nationwide. We have included an attachment titled *BH national network picture (1.1.24 growth).*pptx for state-by state information.

We're also making care more accessible by adding outpatient behavioral health treatment in our CVS HealthHubs in select states. Members can now receive integrated and confidential behavioral health care in a familiar, comfortable setting in their local community.

Telehealth

We know that our member's need in mental health vary from mild to moderate and encompass all ages. Our overriding goal is to create more access and serve more members. Our focus is on increasing utilization and scale by enhancing our service options.

To do so, we partner with innovative digitally enabled or televideo mental well-being services and we are continually assessing new potential partners. These services allow us to offer alternatives for people who need all levels of care and where traditional counseling may not be appropriate. Our digital partners can also offer mental well-being support in between appointments, as well.

Network providers - For members who need behavioral health services—but can't get to a provider's office—we provide them with access to sessions with a behavioral health provider using their computers, laptops, smartphones or any mobile device. Telemedicine improves access to care, is convenient and allows for continuity of care for our members.

Virtual/digital providers - People's needs in mental health vary from mild to moderate and encompass all ages. Our overriding goal is to create more access and serve more members. Our focus is on increasing utilization and scale by enhancing our service options.

To do so, we partner with innovative digitally enabled or televideo mental well-being services and we are continually assessing new potential partners. These services allow us to offer alternatives for people who need all levels of care and where traditional counseling may not be appropriate. Our digital partners can also offer mental well-being support in between appointments, as well. Please refer to the attachment titled *2025 Aetna BH Televideo-Digital Partners.docx* for more information.

Targeted Provider Recruitment

We use multi-faceted measures of network adequacy for recruitment. These are customized based on local market and individual customer needs. For example, we use geo-access measures of available providers who are actively treating our members. These targeted analyses help focus our recruitment efforts on specific provider types in geographic areas with higher member access to care needs.

We also use internal network data to create customer specific recruitment and retention strategies at no additional charge. We continually identify and recruit out-of-network providers based on data sources such as:

- Account disruption reports
- Out-of-network utilization and single case agreements
- Provider, customer and member feedback
- Competitor network analyses

Retention and provider satisfaction

Our provider recruitment efforts also focus on retention and provider satisfaction. To build relationships and create differentiated value, we offer:

- Competitive reimbursement rates and timely reimbursement
- No prior authorization or clinical review requirements for routine outpatient care
- Access to dedicated Network Management staff to help guide providers through the online enrollment process and provide general administrative support
- Access to the Availity® provider portal (Availity.com), which offers helpful online tools and clinical resources to help manage their clinical practice.

Our efforts have succeeded in that we consistently meet or exceed state network adequacy requirements in all major markets.

Breaking stigmas to encourage engagement

We understand the motivational issues associated with the stigma and hard work it takes to succeed at behavioral health treatment. We believe that members and their families need ease of access and active support to overcome these challenges. When a member contacts us, we take the time to listen and understand what they need. This occurs at multiple points of entry.

Your Aetna Virtual Assistant (YAVA) is an AI-powered virtual assistant used by Aetna to help members and colleagues by providing information and support through conversational AI. YAVA is designed to understand why a member is calling and deliver the information they need, making customer service more efficient and allowing the BH representatives to focus on more complex issues. YAVA is used in both telephone and chat services to provide accurate responses and improve the overall experience for users.

We strive to connect each member with the benefits and services that make sense for where the member is at that moment. Multiple channels, such as televideo and digital solutions, allow your employees to access care when they need to, wherever they are. This removes the barriers that prevent people from accessing mental health care and that contribute to the stigma.

All our clinical teams (BH and Medical) are trained on motivational interviewing to work through ambivalence and take action to improve health. Motivational Interviewing empowers individuals to explore their thoughts and feelings without judgment, helping to break down the stigma around mental health. By fostering empathy, respect, and personal autonomy, MI creates a safe space where people feel heard and supported—making it easier to take the first step toward getting help and improving their well-being.

Also, within our Behavioral Health clinical teams, we offer:

- Improved engagement through intensive outreach strategies – Performed by our clinical team, outreach actions include connection with the:
    - Member
    - Family, when appropriate
    - Treating providers
    - Co-managing partner (medical nurse, case manager, disability manager, etc.)

- Health advocacy for members to coordinate and work through any co-existing medical and behavioral health conditions
- A unified approach to help members successfully engage in the right treatment, services and resources.

The medical team routinely assesses for behavioral health concerns and when present, guide members to appropriate care and services. The team has direct access to the BH clinicians for consultation and guidance for an integrated approach.

Enhanced provider search online experience

We are redesigning our website and offering apps to create a better experience. This will make it easier to navigate and understand available resources and access services more easily. Our technology guides members to the appropriate resource based on their preferences. We are also investigating the use of chatbots and other technology to improve our members' ability to navigate the system. We are launching a search capability that includes BH provider quality performance and member preferences to intelligently match the member to the right in-network provider in a timely manner.

Aetna and CVS Health are actively working to reduce mental health stigma through several key initiatives:

1. Stamp Out Stigma Campaign

- This campaign encourages open conversations about mental health and substance use disorders, aiming to reeducate colleagues and the public on the realities of mental illness and addiction.
- Employees are invited to share their personal stories or "Snapshots" of their mental health journeys, which are featured in the Faces of Mental Health Snapshot gallery and internal communications.
- The campaign also encourages adding #StampoutStigma to email signatures to promote awareness and support for mental health in the workplace.

2. Promoting Open Dialogue

- Leadership and colleagues are encouraged to start open discussions about mental well-being, especially during Mental Health Awareness Month and Women's Health Month.
- The organization highlights the importance of treating mental health as a key part of overall well-being, making it easier for people to speak up and seek help.
- Support groups and confidential counseling are available through programs like Resources for Living, and expanded behavioral health services are offered at MinuteClinic locations and virtually.

3. Education and Advocacy

- Aetna provides resources to help colleagues recognize the high prevalence of mental illness and substance use disorders, and to understand that these are treatable health issues—just like any physical health condition.
- The organization encourages everyone to check in with peers, listen without judgment, and advocate for workplace well-being.

4. Support and Resources

- Employees and members have access to confidential counseling, work-life support, and crisis intervention services.
- The National Suicide Prevention Lifeline (988) is promoted for anyone in crisis.
- These efforts are designed to create a culture where mental health is prioritized, stigma is reduced, and everyone feels supported in seeking help when needed.

5. Please describe any specific programs you have targeting first responders and/or the law enforcement population.

We have offered our First Responder Peer Support program as an optional buy-up.

First responders protect us, but at a cost. They're more likely to face behavioral health challenges because of constant exposure to trauma. To make matters worse, many public safety professionals are not comfortable with seeking help or discussing their behavioral health needs. The results can be deadly. Police officers, firefighters, paramedics and emergency medical technicians face high levels of stress, anxiety, depression and post-traumatic stress. Police and firefighters are more likely to die by suicide than in the line of duty[1]. Additionally, 30 percent of first responders develop behavioral health conditions, which is five times higher than the civilian population rate[2].

Unfortunately, the stigma associated with support programs can often impede first responders from accessing crucial emotional support. Therefore, we've created our First Responder Peer Support program to help bridge this gap. Our First Responder Peer Support program is a well-being program designed specifically for first responders who typically do not engage with traditional wellness offerings.

Comprehensive emotional well-being support

We've partnered with Responder Health to develop our First Responder Peer Support program. Together with Responder Health, we understand the unique needs of first responders and speak their language. The goal is to provide the first responder and their family with the resources and treatment they need to return to the job and their families happier and healthier. To help achieve confidential, personalized support for police, fire professionals and their families, the foundation of our First Responder Peer Support program is a 24/7 helpline and is built on the State of Washington's confidentiality laws, RCW 43.101.425, which are the strongest in the nation for first responders.

When a first responder calls the helpline, they speak with another first responder who is highly trained and has “lived experience”. This is much different than calling a traditional Employee Assistance Program (EAP). We know through direct feedback from first responders that having someone answer their call that has walked in their shoes is absolutely essential. First responders need to talk to someone who understands what they are going through, especially in times of crisis such as anxiety, post-traumatic stress and depression. The helpline is staffed by retired first responders who have gone through program training specifically to help. The 24/7 helpline also gives first responders a path toward therapy for those who need it and who may not otherwise seek it on their own.

To encourage referrals to therapy, first responders in our program are directed to clinicians who have experience working with police, firefighters and emergency medical technicians. This specialized support increases the likelihood that they continue therapy after the first session. To help maintain trust, therapy referrals are always confidential. All referrals are for vetted in-network therapists and treatment centers that have been personally trained and physically vetted to ensure the best treatment outcomes for first responders and their families.

Our program focuses on the whole person and their needs. Individuals are not simply given a website with providers and facilities and left to find their way. Instead, we provide a guided approach and throughout each step in the treatment process, the first responder and their family are the primary focus.

Digital tools designed for first responders

We’ve partnered with Armor Up America to provide a digital app designed with first responders and their families in mind. The app connects members and their families with:

- Direct peer-to-peer hotline access for active and retired workers
- Help for substance use disorder and addiction
- Physical and mental health resources
- Training, education and employment assistance

Through our partnership with Armor Up America, we are giving members and their families the tools to make support simple and personal.

Supporting engagement

Often times, handing a first responder a flyer is not enough to get them to engage with emotional support programs. Therefore, to engage members in our First Responder Peer Support and to support their continued success, we provide access to:

- Face-to-face engagement with a retired first responder
- Connections between the program and local resources
- An app with content designed for first responders and their families

Through Responder Health we offer a dedicated app for first responders and their families. The app includes self-evaluation assessments and tools, self-help videos and content specific to first responders and their job. The app allows first responders to explore our program on their own time in a safe place. All digital content is designed for the needs of first responders and their families, covering such topics as:

- First responder stress
- Common responses to critical incidents
- Hope and help for family members
- How stress impacts your family
- How to support peers

The app also gives the first responder or their family member an option to call the 24/7 helpline with a button conveniently on the home page.

With our First Responder Peer Support program, we're providing your population with peer support developed by first responders for first responders. By helping to remove the stigma of behavioral health for first responders, we're supporting the physical and mental well-being of our police, firefighters and emergency medical technicians on their path to better health.

Questionnaire – Pharmacy

1. Provide a copy of the proposed formulary. Is the proposer's formulary based on the lowest cost and evidence-based guidelines?

Please refer to our attachment labeled Aetna Standard Formulary.

The Pharmacy and Therapeutics (P&T) Committee thoroughly reviews individual drugs and drug classes, using principles defined by the evidence-based medical literature. Our formulary process is developed and managed through the activities of the National P&T Committee. This committee works to achieve a rigorous formulary process and maintain coordinated protocols. Objective and comprehensive reviews are presented to our National P&T Committee for discussion and action. Agents are added to the formulary based on their effectiveness, safety, and therapeutic role (e.g., treatment/prevention) in the management of disease states. The P&T Committee also considers national trends, client needs, and member demographics in conjunction with evidence-based guidelines.

2. Provide a list of standard drug exclusions.

Please refer to our attachment labeled Aetna Standard Formulary Exclusions.

3. Do prescription drug proposals include Step Therapy, Prior Authorization, and Quantity Limits?

Under the Aetna Standard Formulary you may customize step therapy, prior authorization and quantity limits. We do require the utilization of safety edits and all specialty medications require prior authorization. We charge $45 per review.

4. Does prescription drug proposal(s) include an open or closed formulary?

We consider our Aetna Standard Formulary an open formulary as all exclusions have a formulary alternative.

5. Will the proposer cover the cost of transferring existing mail-order prescriptions from the incumbent carrier? If so, please provide the file specifications for the data transfer. If not, please outline the Mail Order process.

No. Aetna shall provide the Customer with an Implementation Allowance of up to $5.00 per member per year. The Customer can use this allowance to pay for reasonable implementation and enrollment services incurred during the first Plan year.Aetna is including a general allowance up to $2.00 per enrolled member per year on a Annual basis. The Customer can use this allowance to pay for implementation, audit or communication related expenses along with external data files or feeds.

6. Will the proposer cover the cost of transferring existing Prior Authorizations and other satisfied Drug Edits from the incumbent carrier? If so, please provide the file specifications for the data transfer.

No. Aetna shall provide the Customer with an Implementation Allowance of up to $5.00 per member per year. The Customer can use this allowance to pay for reasonable implementation and enrollment services incurred during the first Plan year.Aetna is including a general allowance up to $2.00 per enrolled member per year on a Annual basis. The Customer can use this allowance to pay for implementation, audit or communication related expenses along with external data files or feeds.

7. Please outline the proposer's Specialty Drug process, including clinical support available to members, and if a third-party vendor is involved in these transactions.

Our specialty pharmacy CareTeams manage all members using our specialty pharmacies on a regular basis to help manage side effects and ensure adherence to their prescribed medication. We see an opportunity for a more holistic approach to management of the most complex – high-cost members. This holistic approach encompasses management of co-morbidities, self-care and other issues that are related to the condition of the member, not just their medications.

Our AccordantCare Specialty nurse management program offers members with rare conditions nurse support with a holistic view, in addition to medication management services through our specialty pharmacy. For rare conditions, our AccordantCare Rare nurses are integrated with our specialty solutions to support members in managing their whole condition and co-morbidities, especially in critical conditions. We provide clinical care focused on the member and the condition vs. the drug dispensed. This can therefore reduce total health care costs and improve quality of life. Members benefit from an integrated specialty pharmacist and nurse experience. This results in timely and coordinated clinical interventions and leads to improved medication as well as care plan adherence.

We are the only specialty pharmacy to provide a truly comprehensive solution by integrating nurse-led care management for rare, complex conditions with our specialty pharmacy services.

Member engagement with our AccordantCare Specialty nurses is a voluntary process to be actively engaged (opt-in). Approximately 40 percent (40%) of members are actively engaged and opt into our nurse care management model. Approximately 65 percent (65%) of those engaged members remain engaged for 10 months or more.

In turn, avoidable ER (Emergency Room) visits and hospitalizations are reduced. The result is a substantial overall decrease in health care costs. In one year, we have seen an 11 percent (11%) reduction in hospital admissions and $2,158 savings per engaged member.

How it works

With our program, an AccordantCare Specialty nurse works as an integrated part of the specialty CareTeam to address all aspects of the member's condition. This solution is designed to increase clinical education and member engagement leading to improved medication and care plan adherence. By working together as one clinical team, we can provide the member coordinated clinical support and intervene earlier and more effectively which increases member engagement and helps to close gaps in care.

Our specialty pharmacy staff manage the following components for each member:

- Access to specialty medication
- Benefits verification
- Financial assistance coordination
- Injection training coordination
- Education on medication adherence and side effects
- REMS compliance
- Inventory coordination to reduce drug waste
- Refill reminders.

Our AccordantCare Specialty nurses provide critical member support in the following areas:

- Care Optimization – Interventions such as cost of care support, home adaptations and caregiver education.
- Symptom management – Interventions including management or prevention of exacerbations (flares), fatigue, disease progression, pain and cognitive issues.
- Self-Care – Interventions including fall prevention, diet and nutrition support, assessment of motivation or learning gaps.
- Medication Optimization – Reinforce specialty therapy management adherence and interventions related to medication options, cost of medication/site of care support and non-specialty medication adherence.
- Co-Morbidity Management – Interventions including those to address diabetes, depression and heart disease.

AccordantCare Specialty conditions treated

We have focused on the conditions with associated specialty utilization. We refer to this as our AccordantCare Specialty program. We support the following nine (9) rare conditions:

- Multiple Sclerosis
- Rheumatoid Arthritis
- Crohn's Disease
- Ulcerative Colitis
- Hemophilia
- Cystic Fibrosis
- Systemic Lupus Erythematosus
- Gaucher's Disease
- Hereditary Angioedema.

Our AccordantCare Specialty program allows member-focused clinical care once they fill a specialty medication through one of our specialty pharmacies. This offering is available to self-insured ERISA customers adopting the specialty performance network with zero grace fills and is bundled within the specialty medication pricing. While there is no savings guarantee for this solution, you may achieve up to 11 percent (11%) savings.

8. Are insulin or other diabetic supplies, such as glucometers, test strips, lancets, etc., considered under the pharmacy benefit proposed or subject to medical plan benefits? If subject to medical plan benefits, please confirm service category.

To ensure that members with diabetes have the tools to control their blood sugar, we include the following diabetes supplies in all of our plan designs:

- Alcohol swabs
- Blood glucose calibration liquid
- Injection devices including insulin syringes, needles and pens
- Lancet devices and kits
- Test Strips- blood glucose, ketone and urine

We can also offer you a $0 Preferred Diabetic Benefit. This option entirely removes the member's cost share for certain preferred brands and generics. You may choose whether to offer a $0 cost share with the following:

- Preferred diabetic supplies
- Preferred insulin
- Preferred diabetic Supplies and insulin

There are considerations to take into account such as claim impact. In addition, we have other programs to support members with diabetes such as Pharmacy Advisor Counseling®, Adherence to Drug Therapy and our Diabetic Meter program. We would be happy to meet with you to determine whether combining this benefit plan with other adherence programs would be the right fit for you and your employees.

9. Is the proposed pricing offer based on the implementation of any new mandatory mail programs, clinical programs, or plan design changes?

No.

10. Is the proposer willing to grandfather existing users of a non-covered drug? If so, please confirm if indefinite or subject to a defined time period (i.e., 12 months).

No. Prescribing physicians must submit a request to obtain a medical coverage exception for drugs on our prior authorization, step therapy and formulary exclusions lists. Physicians can make this request by:

- Fax
- Telephone
- Password-protected physician website
- e-Prescribing tools.

Because we want members to receive medically necessary treatment, we ask physicians to include the member ID, medical history and any applicable laboratory data with their request.

We grant or deny these medical exceptions based on specific coverage criteria, which health care professionals can access on our website at aetna.com. We communicate the medical exception decision back to the physicians by telephone, fax or e-mail (depending on how we receive the request). If we deny the request, we fax or mail a follow-up letter to the physician and member within two business days (or as otherwise required by state law). This letter states the reason for denial and explains the appeal procedure. Once entered into the system, the information is immediately available to participating pharmacies.

11. Is the proposer willing to grandfather existing users of medications that require prior authorization (including specialty medications) without having to meet the proposer's requirements?

Yes. For clients adopting exclusion strategies, some non-specialty and specialty products can be given Prior Use Exemption (PUE) for existing utilizers. A few examples are outlined below. This policy is subject to change based on new clinical guidance. There are two classes that allow PUE for non-specialty drugs: antipsychotics and anticonvulsants. The rules listed below are utilized to determine if a drug in these classes is eligible for PUE:*Excluded oral drug does not have an AB-rated generic or a generic that is the same chemical entity (tablet vs capsule; capsule vs ODT)* Excluded injectable drug does not have an AB-rated generic (cannot switch between one IM formulation to another) Some examples of specialty classes that are eligible for PUE are the following:*Fertility*Hepatitis C* Osteoarthritis.*Certain autoimmune conditions.

12. What is the generic substitution policy and process for both mail order and retail?

We will always dispense a generic if available, unless indicated by the prescribing physician.

13. Does the proposer own the mail-order program? If not, please confirm the Mail Order process.

Yes. We own and operate CVS Mail Order Pharmacy.

14. Self-Insured PBM: Does prescription drug proposal(s) ensure that no discount guarantee value will be derived from (1) the additional co-pay value in member pay the difference claims, (2) the AWP value from any compound claims or bulk chemical claims that are labeled and adjudicated under U&C, and (3) the AWP value from pharmacy input errors? All discount guarantees will be true-up on an annual basis, 90 days after the end of each contract year.

Not confirmed. Discounts and Dispensing Fees contained in this Service and Fee Schedule are guaranteed on an annual basis, subject to the following conditions:

- Discount and Dispensing Fee guarantees are measured individually and reconciled in the aggregate; surpluses in one or more component guarantees may be used to offset shortages in other component guarantees.
- Discount and Dispensing Fee guarantees shall be reconciled and reported to Customer within one hundred eighty (180) days following the guarantee period.
- Discount guarantees are calculated on ingredient cost prior to the application of Plan Participant Cost Share and include zero balance due claims.

The following types of Prescription Drug claims are excluded from the Discount and Dispensing Fee guarantees contained hereinto Compound Prescription claims Direct Plan Participant reimbursement / out-of-network claims Coordination of Benefits (COB) or secondary payor claims In-house pharmacy claims Vaccines (including for COVID) and other COVID testing-related claims 340B claims Claims paid at government required amounts or Claims priced in response to government regulatory requirements

- Retail pricing guarantees exclude claims that reflect the Usual & Customary Retail Price.
- Single Source Generic Drugs are included in the Generic Discount guarantees.
- Only Specialty Products dispensed by a Specialty Pharmacy are included in the Specialty Pharmacy Discount guarantee listed above. Specialty Products dispensed by Participating Retail Pharmacies are not included in any Discount guarantee listed above.

- Aetna has assumed 0.00% in-house pharmacy utilization. Aetna reserves the right to re-evaluate the proposed pricing if the actual in-house pharmacy utilization varies from this assumption.

15. Self-Insured PBM: Does the prescription drug proposal ensure that the Average Wholesale Price (AWP) for individual claims will not be an annual average, is from one consistent source, and will not, in any way, be calculated, adjusted, or assigned an alternate NDC number?

Yes. We use Medi-Span.

16. Self-Insured PBM: Each proposer must confirm that the proposed generic guarantee is based on all generic drugs adjudicated and classified by MONY codes, including single source, and not only MAC'd generic drugs.

Confirmed.

17. Self-Insured PBM: Do prescription drug proposal(s) provide an auditable contract with guaranteed price points at the specific client level?

Confirmed.

18. Self-Insured PBM: Does the proposer retain any portion of the Rx rebates (retail or mail)? If so, what percentage? If not, are you willing to provide a quote in which all rebates are passed through to the employer?

Please refer to the Pharmacy Service and Fee Schedule rebate guarantee grids for additional details. Rebate guarantees will exclude the claims noted below; however, any Rebate collected by Aetna for such claims will be passed through to the Customer in accordance with the Rebate terms described herein.

19. Self-Insured PBM: Please confirm that the proposal includes Rx rebates payable directly to the City of PompanoBeach.]

Rebate guarantees will exclude the claims noted below; however, any Rebate collected by Aetna for such claims will be passed through to the Customer in accordance with the Rebate terms described herein. Rebate guarantees may be subject to: The adoption of Specialty Guideline Management (SGM) program.
- Plan performance that is materially the same as the baseline data provided by Customer and relied upon by Aetna, including information regarding enrollment and utilization of pharmacy services. The above rebate guarantees exclude:

-Over the Counter (OTC) Claims
- Limited distribution drug (LDD) Claims
- Any other Claim identified as having received 340B program wholesale pricing
- Compound Drug Claims
- Paper or Member Submitted Claims
- Coordination of Benefits (COB) or secondary payor Claims
- Vaccine and vaccine administration Claims
- COVID treatment Claims
- Claims for products with coverage or a plan design mandated by the government
- Claims approved by Formulary Exception

- Rebate guarantees assume Advanced Control Specialty Formulary.
- Specialty Rebate Guarantees will only apply to Specialty Product Claims dispensed at participating Specialty Pharmacies when mandatory Specialty Pharmacy fulfillment is instituted herein, subject to any exceptions set forth herein.
- Brand drug claims in the HIV therapeutic category are included in the retail rebate guarantees.

20. Self-Insured PBM: Each proposer must confirm that the client will receive all quarterly formulary rebate and reconciliation payments within 90 days of the quarter's close. If "Not Confirmed," indicate the number of days that you will pay quarterly rebates within.

Not confirmed. Rebates will be distributed on a quarterly basis by claim wire credit. Rebate collections are paid quarterly one hundred and eighty (180) days after the quarter ends. Rebates are calculated and paid in accordance with the terms and conditions of this Agreement. Earned Rebates are distributed in March, June, September and December each contract year.

21. Self-Insured PBM: Do single-source generics fall within the proposer's generic or brand-name tiers? How are single-source generics classified when projecting discounts by tier?

Single Source Generic Drugs are included in the Generic Discount guarantees.

22. Please outline details of the proposer's Weight-Loss medication program(s) available.

Metabolic health is an umbrella term for the intersection of diabetes and obesity. Poor metabolic health can have a direct correlation to a person's risk for heart disease, diabetes, and stroke- also leading to significant health care costs for both members and payors. We take a comprehensive approach, offering a suite of solutions aimed at improving outcomes by treating the entire patient, reducing costs, and providing the flexibility to design a solution that meets your goals and objectives.

The use of glucagon-like peptide 1 receptor agonists, or GLP-1s, has skyrocketed over the past few years, and the upward curve shows no sign of slowing: The category could reach more than $77 billion in global sales by 2030.[1] These therapies are highly effective. However, they are also costly.

We will support you in developing a thoughtful, data-driven approach to meet your specific needs focused on three key elements:

- **Coverage** options for GLP-1s
- **Cost** management options based on coverage
- **Care** management solutions, which include:
  - Weight Management
  - Diabetes Management (Transform Diabetes Care/TDC)
  - Deprescribing (DeRx)

Coverage options for GLP-1s

Coverage approaches to GLP-1s are not one-size-fits-all. Some plan sponsors may choose to offer coverage that fully aligns with U.S. Food and Drug Administration (FDA)-approved labeling and clinical compendia-supported uses. Others may want to exclude coverage of GLP-1s for weight management or put in place more stringent coverage requirements for the weight management class.

Coverage decisions should take into account the health outcomes and total cost of care impact that weight management can have in preventing chronic condition onset or progression. Treating obesity can help reduce downstream pharmacy and medical spend. Pharmacy benefits can also be an important talent attraction and retention tool in today's competitive labor market.

Plan sponsors may assess their coverage options depending on the nature of their employee population. For example, those in industries that experience high turnover may have lower vested interest in long-term outcomes and may opt for a more stringent coverage approach, with rigorous utilization management (UM) levers in place.

Cost management options based on coverage

Our multifaceted approach to cost management includes leveraging our scale and market expertise to negotiate low net cost and using formulary design to prefer low net cost products. Plan sponsors can choose plan design and formulary levers that align with plan goals, including a 100-percent member copay option and plan design with category exclusion. Select formularies also include new-to-market review, which evaluates appropriate use of drugs according to FDA-labeled indication and encourages use of comparable formulary drugs.

Utilization management strategies

If your plan design includes coverage for GLP-1s, we can help ensure appropriate utilization through intelligent controls, including:

- **Prior authorization** (PA) to help ensure utilization is clinically appropriate at the onset of therapy and throughout treatment.
- **Step therapy** requiring members with type 2 diabetes to try metformin before progressing to a GLP-1.
- **Quantity limits** to help ensure dosing does not exceed recommendations.
- **Weight Management UM Bundle** that allows for comprehensive drug class management by automatically updating and/or adding new UM criteria, when available.
- **Smart logic PA** to help prevent coverage of off-label utilization while minimizing member impact.[2]

Tailor coverage of new weight management drugs from day one

The Weight Management UM Bundle helps ensure clinically appropriate and cost-effective coverage for weight management medications. It automatically applies evidence-based UM criteria so you can manage coverage for new agents as soon as UM criteria become available.[3]

The bundle currently includes criteria for:

- Contrave
- Qsymia
- Saxenda
- Wegovy
- Xenical
- Additional weight management agents[4]

UM criteria are supported by medical evidence and require documentation and drug-specific quantity limits.

23. Please also confirm the City of Pompano Beach's ability to accept or reject proposed Formulary changes.

The offer in this proposal is based upon your alignment to our standard formulary. For a custom formulary, additional administrative costs may apply, ranging from $50,000-$100,000 depending upon the level of customization.

Questionnaire - Stop Loss

1. Please confirm the proposed quote is firm. If not, please provide details as to why.

The proposed quote is illustrative and not firm. The quotation offer becomes firm when claims are updated within 120 days of the effective or renewal date and a final review of large claims is completed. The customer must accept a firm offer within 30 calendar days from the date of delivery of the quote. If the customer doesn't accept within 30 calendar days, we reserve the right to request updated underwriting data, which may alter rates or the terms of the quote.

We require a system-generated claim detail report for Rx claims which includes

- Employee name
- Employee social security number
- Claimant name
- Claimant relationship to employee
- Claimant date of birth
- Incurred date of claim
- Paid date of claim
- Paid claim amount
- Name of drug
- Name of provider

This report should show each claim individually, as well as subtotals for each claimant.

2. Please confirm the proposed quote contract terms.

This stop loss proposal is illustrative. Please see the stop loss caveats for full terms and conditions of our offer.

3. Please confirm the proposal does not include lasers.

Lasers remain To Be Determined until the quote is considered Firm.

4. Please confirm the proposer's process for inclusion of lasers, if applicable, at renewal.

Our approach for dealing with ongoing large claims at renewal depends on various factors: amount of the ongoing large claims, case size, expected Stop Loss renewal premium, and specific deductible level. Aetna typically offers more than one renewal option for dealing with this situation. These options would include; adding a premium rate load, coinsuring the ongoing large claim at other than 100 percent, incorporating a combination of risk share and premium load, an aggregating specific deductible option and/or a family individual deductible option.

We will not offer, as the sole renewal option, a quote which lasers a claimant that had not previously been lasered. Upon request, we will review any first year lasered claimants in advance of the renewal year and re-evaluate their risk and the need to continue to laser those individuals.

5. Please detail data requirements in order to process reimbursements.

When we're the claims administrator, the customer must provide eligibility information for purposes of making claim payments for their plan. When sold together, this eligibility information is also used to determine coverage under the Stop Loss policy. The customer determines eligibility for their plan, as required by ERISA, and subject to the terms stated in the customer's plan document. Enrollment exceptions made by the customer that aren't as stated in their ERISA-required plan documents, aren't covered by Stop Loss.

6. What is the time frame for reimbursements once the claim information is submitted for payment? Do you offer Advanced Funding on claims reimbursements at no cost to the client?

When we're the claims administrator, the underlying self-funded medical plans are fully integrated with our standard Stop Loss features at no additional cost. Funding is immediate and claim report submissions aren't required. Eligible claim expenses that exceed the individual Stop Loss amount are immediately funded by Aetna, on the same day the claim payment is issued. The group has no out-of-pocket expenses for these specific claims.

Circumstances under which funding isn't immediate include non-standard Stop Loss features, claim run-in, claim run-out and claims paid by third party administrators. Advance Funding or Special Cash Flow Assistance isn't currently available in these situations.

7. Please confirm that the proposer will base stop loss coverage reimbursements on the 'Eligible Expenses' as defined by the medical ASO plan document.

Stop Loss covers eligible claim expenses:

When paid according to the plan of benefits; and
In accordance with Aetna's Clinical Policy Bulletins (CPBs); and
Except as otherwise excluded by the policy or legislation.

Stop Loss does not cover benefits when coverage or eligibility is made at the plan sponsor's direction but that we determine are not payable under the plan, according to our standard provisions, Clinical Policy Bulletins, and claim settlement practices, or that are in excess of the reasonable and customary charge. A complete list of our Stop Loss exclusions is available upon request. For this reason, Aetna will only cover benefits paid when Aetna is the claim final fiduciary for paid benefits and the appeals process.

Department of Insurance (DOI) and Department of Labor (DOL) regulations mandate that Stop Loss coverage be applied uniformly, consistently and without bias. We comply with these requirements through our E&I (experimental & investigational) and medical necessity definitions and exclusions. Our Clinical Policy Bulletins determine this coverage, just as they do for commercial insured business, preventing discrimination and ambiguous coverage determinations. When we are the claims administrator, we have the information necessary to support coverage determinations and eligible claim expenses apply to Stop Loss, automatically.

8. Proposers must confirm Stop Loss coverage is also quoted for Retirees Over 65 (Medicare) remaining on a Group Medical plan through the City of Pompano Beach. Does the proposal exclude any member population included in the census?

Confirmed. No member population excluded from the stop loss.

9. If the proposer is awarded the Stop Loss insurance contract, please confirm if the policy is guaranteed renewable.

Confirmed. We offer all renewals on a true paid contract basis, providing maximum coverage with no gaps due to differing contract or policy periods.

We determine the offering of run-in coverage on a case-by-case basis. There may be a limit on the number of months of run-in that we are willing to quote, and we do limit the liability we assume for run-in claims. Stop loss reimbursement for eligible claims occurring during the run-in period is handled on a delayed year reimbursement basis. Final settlement with regard to the run-in claims is made at the end of the policy year or after the end of the run-out period, if run-out coverage is also being provided.

Our renewal Stop Loss policy operates on a policy year, paid claim basis. Claims that cross policy periods are covered by the subsequent year's policy. We don't pay the same claims under multiple policies. We do, however, apply claims overturned by an Independent Review Organization in accordance with HIPAA requirements.

10. Upon underwriting approval, does the proposer offer a maximum renewal rate cap on specific rates?

A renewal risk cap has not been included in our stop loss proposal. Upon request we will provide a quoted option with a renewal risk cap.

11. Does the proposer have an aggregating specific deductible option available that represents a dollar-for-dollar premium offset to share risk?

Aetna offers an Aggregating Specific option, which offers a reduction in premium in exchange for the customer assuming more risk or in lieu of lasering.

12. What aggregate corridors are available for consideration?

115%, 120%, 125%

Questionnaire - Implementation and Billing

1. Please provide a brief description of the implementation process, including requirements and timeline.

We use custom tools, a team approach and survey feedback to keep improving the quality of our implementation process. In this way, we continue to build, improve, support and maintain high-performing implementation teams that truly differentiate us in the marketplace. In 2025, our overall customer satisfaction rate was 96 percent which is a strong testament to our commitment to you.

The cornerstones of our implementation approach are:

- Experience — We provide an experienced team of subject matter experts
- Collaboration — We work strategically with your internal team and vendor partners
- Customization — We use versatile project plans and management tools
- Effectiveness — We develop result-oriented plans and execute flawlessly
- Quality — We strive for continuous improvement in our processes and procedures

Your implementation is more than simply hitting the right dates. It's about making the change easier. We remove barriers, offer timely solutions and stay by your side throughout the implementation process.

Supporting you every step of the way

Our high-touch approach includes a team of technical experts and specialists. They consult with you to implement the chosen programs and provide ongoing service. Likewise, we ask you to identify a team made up of members from your financial, benefits, information technology and human resources departments, as well as other business areas, as needed.

We find that the team concept increases accountability and responsiveness. It also provides the highest level of customer and member satisfaction.

Custom implementation tools

We use custom project management tools to meet and exceed your expectations for a smooth transition. During the process, we illustrate the products, programs and services you choose on our detailed Implementation Management Plan. This plan identifies members of the implementation team. It also establishes target completion dates for all associated activities.

We use an implementation tracking tool to track open items to resolution. We regularly update and distribute this document to the implementation team to keep team members on track and informed of the project's progress. The document is part of our "all-in-one" approach and includes all relevant information and project details in a single spot.

A comprehensive and phased approach to implementation

We use a phased approach to your implementation so that all aspects of the project are thoroughly accounted for, including:

Phase 1 — Discovery

In the discovery phase of your implementation, we review plan proposal commitments, obtain preliminary information and form our internal implementation team.

Phase 2 — Define

In the defining phase of your implementation, we conduct a strategy meeting, assign technical resources, define roles and responsibilities, as well as conduct an internal kick-off meeting.

Phase 3 — Implementation

In this phase of your implementation, we conduct an implementation meeting with you, confirm your vendor partners, review your implementation project plan and milestones, as well as schedule status meeting calls.

Phase 4 — Plan setup

In the fourth phase of your implementation, we finalize plan design, account structure, eligibility and coding, confirm any vendor coordination requirements, set up systems according to the benefits and programs you select, train member service center team and support open enrollment activity.

Phase 5 — Go live

To successfully go live, in this phase of your implementation, we complete plan testing, load eligibility and enroll members, mail ID cards and release claim hold for processing.

Phase 6 — Post implementation

In the final phase of your implementation, we monitor remaining tasks, complete a signoff call with your team and our team, as well as transition responsibilities and any open activities to the account team.

We also send out surveys to you and the account team that ask for comments on the process, as well as feedback on the implementation manager. The survey results tie directly back to the implementation manager's performance rating.

Please see our *Implementation Solutions* located within the Exhibits section of our proposal response.

2. Please confirm the proposer is flexible to modify the standard contract language.

Confirmed.

3. Please confirm the proposer is willing to waive the binder payment requirements.

Not applicable. We do not require a binder payments for fully insured or self-funded contracts.

4. Please confirm the proposer is willing to accept a self-bill for the proposed line(s) of coverage.

Confirmed. Please see the information below for the variations based on coverage lines and funding types.

Fully insured medical and pharmacy

For list and summary billing with our fully insured medical and pharmacy plans, we accept a customer's version of our billing statement if it contains the required information: social security number, last name, first name, premium and tier. Additionally, the customer's billing consultant must approve it prior to use.

We accept premium rosters submitted electronically in a Microsoft Excel file. We don't accept paper files.

An example of the acceptable format is provided below:

Social Security Number	Last Name	First Name	Premium	Tier
123-45-6789	Smith	John	236.50	Couple
123-45-6789	Johnson	Jim	197.50	Single
123-45-6789	Hare	William	-327.00	Family

Self-funded medical and pharmacy

For our self-funded medical and pharmacy plans, your version of our service fee billing statement must contain the following required information: customer number, plan sponsor unique ID number (PSUID) and bill package (BP), due date, product code, list of member names, rate and the total fee due.

Additionally, your billing consultant must review and approve the self-billing statement prior to use.

Self-funded stop loss

Stop Loss premium is billed monthly. We may bill you electronically and you may pay premium due to us electronically. If you aren't billed electronically, you must send your premium to us at the address shown on the invoice on or before the premium due date. Premium is due on the premium due date.

All premium payments must be made in U.S. dollars no later than 30 days after the premium due date. If we haven't received the premium due by the due date, the policy automatically terminates without further notice to you and all rights to benefits under this policy end. Premiums are due for any period the policy was in force. Refer to the termination section of this policy.

5. What is the proposer's standard billing snapshot date and grace period for payment?

We expect the monthly payment by the due date. We standardly allow a 31-day grace period following the due date.

6. Would you allow a grace period after the due date of 45 days for payment of an invoice?

Confirmed. We expect the monthly payment by the due date. We standardly allow a 31-day grace period following the due date. However, we will allow a 45-day grace period following the due date.

Questionnaire - Renewal Planning and Additional Fees

1. Is the proposer willing to provide a renewal offer at least 120 days prior to the renewal effective date?

Confirmed.

2. Are any of the rates proposed contingent on any additional information? If so, please disclose.

Our proposal assumes that prescription drug benefits and stop loss are included and will be provided by Aetna. In the event that Aetna is not selected as the pharmacy or stop loss vendor, we have included buy up charges associated with accepting feeds from a third-party vendor and integrating the data into the medical management program.

3. What additional services are available and at what cost?

Please see the financial proposal for a suggested list of additional programs and services available for additional costs.

Questionnaire - Enrollment & Implementation Technology

1. Does your company (or third-party) process electronic eligibility files via automation, or are manual steps necessary? If manual steps are required to process files, please explain this process and its impact on processing time.

We can accept and process eligibility data in any of the following methods:

- Internet-based enrollment system - EZenroll®, our online enrollment application, you can perform several enrollment functions online, including additions, changes, terminations and PCP selection.
- Internet-based eligibility transfer solution - SecureTransport™ allows you or your vendor to transmit eligibility files to us during open enrollment and for ongoing updates. SecureTransport is a trademark of Axway used under license.
- Electronic transport method - You can submit eligibility through any number of electronic transport methods. Depending on the method used, we can accommodate secure Internet FTP and EDI ANSI X12 formats.
- e.List - We accept an e.List formatted as an Excel spreadsheet populated with eligibility data to submit initial enrollment. We scan the spreadsheet into our systems and mirror an electronic file, eliminating manual intervention.

We provide you with the options mentioned above so that you have choices that match your needs and preferences.

Manual intervention

Your designated eligibility consultant can assist you with manually enrolling a member on an emergency basis. Manual updates appear immediately in the eligibility system. Our system overwrites any ad hoc changes made to our system if the next regular transmission doesn't include the new information.

2. Does your company outsource the processing of electronic eligibility to a third-party? If so, please provide the company name.

No. We do not outsource the processing of electronic eligibility to a third-party. Our eligibility system is the Member Enrollment Application (MEA) system. The eligibility aspect of our MEA interfaces with policy entry, claims and pharmacy management systems.

3. Please specify if your company (or third-party) accepts the HIPAA 834 5010 file layout as well as all other file layouts accepted for automated enrollment. Please provide applicable coding supplements and other applicable file specification documents.

We comply with the HIPAA Electronic Transactions Regulations (version 5010) and support the American National Standards Institute (ANSI) ASC X12N and NCPDP (version D.0) standard formats. Additionally, Aetna is Phase III certified with the Council for Affordable Quality Healthcare's Committee (CAQH) on Operating Rules for Information Exchange® for all our transactions. Our transactions demonstrate IT system or product operating in conformance with a specific rule set(s) of the CAQH CORE Operating Rules. The NCPDP standard formats are used by retail pharmacies for drug claim transactions.

Among current Aetna-supported electronic transactions:

- 270/271: Eligibility/benefit inquiry and response
- 276/277: Claim status inquiry and notification (including document attachment)
- 278: Referral/precertification request and response
- 275/277: Precert Document Upload (Attachments)
- X12N 275 6020 version EDI Claim Attachments (In production with Change Healthcare - phased roll-out to Availity, PnT Data, Waystar)

- 820: Health plan premium payments (ANSI ASC X12N)
- 834: Enrollment and disenrollment in a health plan (ANSI ASC X12N)
- 835: Claim payment and remittance (electronic remittance advice (ERA)
- 837: Claim/bulk encounter submission (professional, institutional, dental)
- 837: Coordination of Benefits
- NCPDP D.0: Pharmacy claim submission

We recommend that you or your eligibility vendor provide electronic eligibility in our preferred industry ANSI 834 file format. This format allows the most flexibility in meeting your eligibility reporting needs. We can also accept an electronic eligibility file in our proprietary 2000-byte format or in our Consolidated Eligibility Format (CEF) file format. Any customization to our standard format is evaluated on a customer specific basis. If approved, charges to establish and support the customization generally apply.

4. What is your company's (or third party's) standard processing time for electronic eligibility to be updated in all applicable internal systems (eligibility/claims/billing/etc)? If time varies, please specify for each system.

We work with you during implementation to determine the methods available to obtain initial and ongoing eligibility. These discussions include medium, frequency and transaction types. We can accept transaction-only electronic files or full in-force files twice a week, weekly, twice a month or monthly. We prefer full in-force and weekly files. We accept transaction-only files if we receive at least one full file submission each quarter. We upload electronic eligibility files received in the proper format automatically to our mainframe system. We don't accept paper enrollment forms.

Once we upload the eligibility information to our mainframe system, we notify your designated eligibility consultant to review an edit of the file online. The eligibility consultant reviews the file within 48 hours and updates the eligibility system if there are no other data quality concerns. Updated information appears in our eligibility and claims system immediately. Eligibility files that are submitted in an incorrect format do not automatically proceed to the edit stage and your eligibility consultant is notified. Your eligibility consultant is responsible for working with you to resolve any errors, data quality or formatting issues that may arise.

5. Will your company (or third-party) provide confirmation notification to the group when files are processed? Please provide details related to this notification process (email, requirement of group login into the company website, etc.)

Your designated eligibility consultant notifies you when we receive and upload eligibility files. Once we load the eligibility files into our system and create reports, the receipt of the reports is your additional confirmation of successful processing.

6. Please provide implementation time (in days) for the initial set-up of automated enrollment (electronic eligibility) of an established group with your company.

As your current benefit program administrator, we would assume that we would continue to use the eligibility process we had in place today. However, should you want to change to a different enrollment method, we would recommend sending test eligibility files at least 90 days prior to the effective date. This allows time for any adjustments to the file and subsequent testing prior to sending a full eligibility file. We recommend having a full eligibility file 30 days before the effective date.

7. Please provide implementation time (in days) for the initial set-up of automated enrollment (electronic eligibility) of a new group with your company.

We recommend sending test eligibility files at least 90 days prior to the effective date. This allows time for any adjustments to the file and subsequent testing prior to sending a full eligibility file. We recommend having a full eligibility file 30 days before the effective date.

8. Please provide the set-up time needed for changes to file structure, plans, funding strategy, and platform changes for an established group within your company. What alternative options does your company provide to receive enrollment should these changes cause a delay in the setup of the EDI process?

For established customers the time it takes to implement plan or program changes varies depending on your choice of products, services and clinical model. We generally recommend a lead time of 120 days prior to the effective date for a smooth transition.

New member coverage is active immediately after a viable Electronic Data Interchange (EDI) file loads into our eligibility system. Common problems during implementation, and the first few months of the plan, may include delays in receiving required implementation documents or files, late enrollments and data errors. We work closely with you throughout the implementation to stay on track with key milestones.

To ensure timely and successful enrollment, our team helps you plan, coordinate and conduct enrollment activities that help your employees understand their new benefits program.

In addition, the assigned eligibility consultant works with you to review eligibility submission options, set dates for the submission of eligibility information and establish a target date for the production and mailing of member ID cards.

9. Please provide the file testing time frame (in days) for initial set-up and structure changes.

For a group new to Aetna, the time it takes to implement a plan varies depending on your choice of products, services and clinical model.

We generally recommend a lead time of 120 days prior to the effective date for a smooth transition.

We develop an implementation schedule that outlines the tasks associated with each portion of the project. It provides a scheduled start and completion date for each task and helps keep team members on track.

10. Please provide the standard time frame required to process files, generate, and mail member ID cards. What options does the group have if ID card delivery is delayed beyond the plan's effective date?

To make ID cards available on or before the plan effective date, we need the clean electronic eligibility file at least 15 business days before the plan effective date.

Timeframe to mail member ID cards

Our goal is to create and distribute 99 percent of ID cards within two business days of receipt of clean eligibility data. In 2024, we printed and mailed 99.96 percent of ID cards within two business days. Our vendor performs a quality review before releasing ID cards.

We mail ID cards first class through the United States Postal Service directly to the member's home. If the member's address isn't present or valid, we mail the ID cards to you for distribution. We produce our ID cards on laminated paper.

Members can request a new printed ID card on our member website or by calling Member Services. Members requesting that we mail a replacement ID card receive it within 7 to 10 business days from when we receive a request.

Mailing delays

We provide a digital image for replacement ID cards to members. Members can view and print the digital ID card on our member website at **Aetna.com** approximately 24 hours after the eligibility information updates.

We provide ID cards at no additional cost to you unless you request suppression of all digital cards. If you request that we print all ID cards, we charge for the printed cards that'd have been digital.

11. If the group utilizes a third-party vendor for data analytics, will you cover the $2,500 set up fee and the $0.65 PEPM for the monthly data analytics interface?

Confirmed.

12. Please confirm your company will provide ongoing file feeds to multiple third-party vendors (i.e., PBM, Stop Loss, and Data Analytics) at no cost to the group?

Confirmed. We offer weekly, biweekly or monthly feeds of medical, dental and CVS Caremark® prescription drug claim data. Please note, additional fees may apply and vary depending on the frequency of the feeds and customization requirements. Files are available within three to five days from the end of the reporting period. A signed confidentiality agreement is required prior to the release of this information.

Questionnaire - Data and Reports

1. Describe the reports you will provide regarding the utilization and claims associated with the employee benefits program(s) you are proposing. Please indicate in your description if any of the reports would be provided at an additional cost over the fees associated with the programs.

We provide a variety of comprehensive reporting packages that allow you to evaluate plan and program performance, monitor cash flows and identify cost and utilization trends. These standard reports are availabel to you at no additional cost. Availability of certain reports is dependent upon your plan of benefits. We have outlined the types of reports available to you, including the frequency.

Utilization

We offer a state-of-the-art data and analytics experience, to encourage data-driven decision making for optimal plan performance and best well-being. Secure access to Analyze-Rethink-Transform (ART), unlocks a powerful, collaborative, browser-based analytic platform to be used by customers, our account teams and customer-approved advisors, brokers and consultants.

ART is designed for intuitive on demand data investigations into cost drivers, utilization, population health and outcomes. Analytic pathways reveal meaningful insights into opportunities for plan improvements and cost savings, using a self-service business intelligence approach. This means users may explore vast amounts of data using an intuitive, point and click environment specifically designed to support analytic investigations.

Many standard, preformatted reports can also be run on demand with choices of filters such as account structure, age band and network. The report package is produced on a rolling 12-month incurred claim basis, and includes statistics related to plan elements such as demographics, trends by cost category, network usage, most frequently utilized services and providers, high-dollar claims and disease incidence. We deliver these reports to you through our secure Internet report delivery system, which is a standard component of our administrative services. The preformatted reports are in Microsoft® Excel and easily downloaded monthly for review, analysis and electronic communication. You can also create your own reports on demand by selecting various time periods, account structure, product combinations and claim basis including incurred or processed. Data is updated monthly.

Annual accounting

For self-funded and fully-insured retrospective plans, at the end of each contract period, we provide a look-back at the year to determine an overall financial balance. The package includes detailed and summary exhibits of service fee payments, claims and reserve charges and administrative expenses. We provide the accounting 120 days after the end of the policy period. The reports are available electronically, usually in Microsoft Word format.

Claims

For self-funded plans, we provide you with a monthly Claim Detail Report claim report, in a Microsoft Excel format, 10 business days following the end of the reporting period. The Claim Detail Report provides a claim line level of financial information that provides a breakdown of claims information for all funding request activity for that particular reporting month. The report is made available through a secure email.

Banking

For self-funded plans, the funds summary report package provides a listing of monthly wire transfers, which allows you to reconcile claims payments with wire transfers. The reports are available to you through our secure email no later than the 25th of the following month for the prior month's activity.

2. What is your proposed frequency of reporting on utilization experience? Is there a charge for analyzing utilization data?

As a part of our standard reporting, we provide you with online, on demand, utilization reporting. Data updates occur 30 days following the end of the reporting period with a 2-month lag time.

Additionally, we can provide you with email ad hoc reporting as needed. When requested, we prepare the reports within three to five business days.

Analytic costs

For our fully insured plans, your account team works with our Plan Sponsor Insights (PSI) consultants to support analytic consultations and ad hoc reporting while making the most of the consultative hours available to you.

For our self-funded plans, customers with 100 or more enrolled subscribers who are looking for support beyond our standard reporting have access to our regionally aligned Plan Sponsor Insights (PSI) consulting group and 10 hours of consultative support. This service includes ad-hoc reporting. We quote highly complex requests on a fee-for-service basis.

3. How often are claim audits conducted, and what percentage of claims are audited? If you use a third party to audit claims, please disclose the name of the auditor.

We conduct our claim audits internally using stratified audits. We don’t audit claims using a fixed percentage. In keeping with industry best practices, a sampling of claims is randomly selected from within each stratum. On a quarterly basis, we typically audit over 300 claims per stratified audit.

4. How do you identify fraudulent claims, and how will you notify the City of Pompano Beach?

We subscribe to a zero-tolerance policy on health care fraud. As a founding member of the National Health Care Antifraud Association (NHCAA), we have been an industry leader in the fight against health care fraud.

Alerts built into our claims system identify potential fraud before the claim is paid. When we suspect fraud and abuse, we create a case and assign a Special Investigation Unit (SIU) investigator. Our SIU is comprised of more than 160 employees and is responsible for our health care fraud, waste and abuse (FWA) program. When the investigator has enough evidence to allege that it is indeed fraud and abuse, we place a flag on the provider's file. This triggers an edit that alerts the claim processor to the investigation. Only our SIU team members can place and remove fraud flags in our system.

If we've already made a payment that we later learn to be either incorrect billing or outright fraudulent, our SIU investigators work directly with the providers to recover the money.

The New York State Insurance Frauds Bureau referred to our SIU as "the gold standard for SIUs." The unit recovered approximately $20 million in fraud payments in 2025. But it's much more than that. The specialists in our SIU also work hard to stop fraud and abuse in its tracks before payment is made. In 2025, their efforts helped us catch more than $1.1 billion in incorrect or fraudulent billing before the payment was made. These are actual figures, not forecasted or assumed amounts.

The major components of our program include:

- Prevention – Prepayment claim review and routing to prevent fraud, waste and abuse and other improper payments.
- Detection – Proactive data analysis to identify providers where behavior differs significantly from their peers or other potential fraudulent billing behaviors. Dedicated team members are responsible for data mining and case triage.
- Investigation – Thoroughly exploring all of a provider's billing and practice behaviors, not just a single claim or issue. Credentials of our investigative team include certified coders, accredited health care fraud investigators, certified pharmacy technicians, nurse professionals, and a medical director.

- Recovery – Aggressive pursuit for full recovery of money lost due to fraud, waste and abuse. We address the issue directly with the suspected provider or member, and file civil action, if necessary, when it makes sense to do so. We also educate providers where appropriate.
- Training – Mandatory annual fraud, waste and abuse and compliance training for all employees, business associates and delegates.
- Reporting and Compliance – Compliance with all mandatory state and federal fraud, waste and abuse reporting requirements. If an investigation suggests the intent by a member to defraud, we notify the customer through the account representative for self-funded customers upon completion of the investigation.

The SIU maintains a 24-hour toll-free hotline (**1-800-338-6361**) for fraud reporting and receives more than 2,000 calls per year.

5. Describe the process for identifying and paying claims that may be subject to subrogation.

Our subrogation processes vary based on funding type.

Fully insured

We use the Rawlings Group dba Machinify, an experienced national vendor of third-party recovery services, headquartered in Louisville, KY, as our subrogation vendor.

Subrogation is a standard component of the fully insured contract, and no additional fees apply. Our subrogation program is only administered on a "pay and pursue" basis, since to subrogate, we must first incur a medical expense.

We send paid claims data to the Rawlings Group for investigation. Using predictive analytics, the Rawlings Group mines paid claims data and member eligibility data using a proprietary set of diagnostic codes to identify trauma-related treatments. The Rawlings Group's proprietary analytics, along with using multiple data sources has reduced our need to involve the member in the investigation process. As a last resort, where information isn't available from other data sources, members are sent up to five inquiry communications that include a brief questionnaire asking about their treatment. The Rawlings Group opens a file and pursues all avenues of recovery upon confirmation that a recovery situation exists. Subrogation opportunities may also be brought to our attention when we are asked to respond to a subpoena in a member’s tort lawsuit requesting records of payment.

The Rawlings Group remits funds and reports to us twice a month. We don't provide subrogation recovery reports to fully insured customers. We retain all net recovery dollars for fully insured plans.

Self-funded

For self-funded plans, the Rawlings Group dba Machinify is our subrogation vendor. They're an experienced national vendor of third-party recovery services headquartered in Louisville, KY.

For a self-funded group electing to use Rawlings, the account manager makes arrangements for subrogation and reimbursement services. The account manager is responsible for completing applicable forms and providing them to Rawlings. The finalized Summary Plan Description (SPD) must include subrogation and reimbursement language before pursuing any recoveries.

The following provides an overview of The Rawlings Group's file identification, investigation and recovery processes.

Identification

- Using predictive analytics, Rawlings mines paid claims data and member eligibility data using a proprietary set of diagnostic codes to identify trauma-related treatments.
- Rawlings' proprietary analytics, along with the use of multiple data sources, reduces our need to involve the member in the investigation process.
- As a last resort, where information isn't available from other sources, members receive up to three inquiry letters that include a brief questionnaire asking about their treatment.
- Members have three ways to respond to Rawlings' questionnaire:
  - Call a toll-free number answered by experienced analysts
  - Return their completed questionnaire in a postage-paid reply envelope
  - Visit **TRGClaimsInfo.com** and complete the questionnaire online
- Self-funded customers have an option to enroll in a "Partnership Program" with Rawlings to receive monthly detailed non-cooperation reports to encourage cooperation among employees and dependents.
- Subrogation opportunities may also be brought to our attention when we are asked to respond to a subpoena in a member's tort lawsuit requesting records of payment.

Investigation

- Investigations are assigned to analysts organized by client-specific teams who are supported by team attorneys.
- Analysts define a strategy based on every possible source of recovery and place all parties on notice of your claim.
- Analysts manage files on their proprietary software. Some of the many features include:
  - An automated diary system that allows analysts to record the details of all file activity and share these with other team members collaborating on the file.
  - A tickler system that automatically prompts analysts to plan effective follow-up for each file.
  - Automated special-handling notifications (group restrictions).
  - A library of letters and notices approved by Rawlings' legal team.

Recovery

Subrogation recoveries are remitted from Rawlings to Aetna via a bulk wire and recoveries are credited to an individual customer at the claim level through their wireline account. The customer sees a credit for the gross recovery, a charge for Rawlings' fee and a separate charge for any administrative fee charged by Aetna on their claim detail report. Amounts paid but not recovered through subrogation remain charged to your plan. Subrogation recoveries are remitted and processed twice a month and reports are provided quarterly.

We continue to pay the member's eligible expenses during the investigation. Rawlings generally doesn't involve you in the investigation. If the investigation and recovery efforts warrant, Rawlings pursues a third party through legal action. If the member has already obtained a recovery, Rawlings may, where appropriate, pursue litigation against the member.

6. Will there be online access for claim reports by the City of Pompano Beach and Gehring Group?

Confirmed. As mentioned previously, we grant secure access to Analyze-Rethink-Transform (ART), our powerful online, self-service, analytic platform for customers, trusted account teams and supporting resources, and customer-approved advisors, brokers and consultants. Additionally, depending on the report type, we can provide reports online through secure email. The standard claim-related reports we offer to you is dependent upon your plan of benefits, but can include claim, utilization, accounting and banking reports.

Granting your broker access

At your request, and with the appropriate agreements in place, we can authorize brokers or consultants as designated users of Analyze-Rethink-Transform (ART), our powerful analytic platform. With self-service access for registered users, ART provides key metrics and trends affecting costs, behaviors and plan performance. ART allows users to explore data for new insights in areas like social determinants of health. With an integrated view across medical and pharmacy plan information, users discover powerful insights and understanding of member well-being and plan performance.

For self-funded customers, brokers or consultants may also have access to monthly claim reporting through secure email. We format the file in Microsoft Excel and compress it using WinZip. The file contains recorded claim records for the reporting month. This financial file is an audit trail for the claim activity for the month. At the direction of our customers and with proper privacy agreements in place, we can send our claim reports to whomever they deem appropriate, including brokers.

There's no charge for a consultant or broker to have access to these reports.
