

Placement Conditions

Signs are to be placed centered horizontally and vertically in the sign band. If building design obstructs placement, signs are to be placed centered either below or above the obstruction.

Signs may be either illuminated front-lit (flush mounted) channel letters or back-lit reverse channel letters (with 1 ½" stand-offs and Lexan backs) or non-illuminated cut out and painted acrylic ¼" or ½", thick stud mounted. Box signs are allowed as approved by the Property Managers and Landlord.
