Subject: Approval Needed (Utilities Department): Emergency Procurement: LS 67 emergency Repairs

Thank you, Sir.

This department will continue to work with your department to finalize the release of the PO, as well as prepare the Agenda Item for this emergency procurement in accordance with City Ordinance 32.46 Emergency Procurement to ensure the health, safety, and general welfare of the residents due to the unexpected weather/flooding.

Hi Brian,

In accordance with City Ordinance 32.46 Emergency Procurement, please approve this request this request due to the dollar amount. Both departments have been collaborating to ensure compliance with the City's Ordinance.

Thank you,

From: Randolph Brown <Randolph.Brown@copbfl.com>

Subject: RE: Emergency Procurement: LS 67 emergency Repairs

Good Morning Carla,

I approve this request. The storm place exceptional demands on this station and we need to repair immediately to protect public health and the environment.

Thank you for your teams assistance,
Randy

Subject: Emergency Procurement: LS 67 emergency Repairs

Importance: High

Good morning Bobby,

Thank you for bringing this request to my attention and your explanation provided in your email below. Because I am a novice with Wastewater operations and in accordance with City Ordinance 32.46 Emergency Procurement (attached), please clarify "why" this is an emergency procurement due to it being an immediate threat to public health, welfare, or safety or to prevent or minimize serious disruption of government services. Once I receive your response specifically providing the reason this is an emergency and an email from Randy Brown approving this request, then, I will approve this as an emergency request, forward it for the City Manager's approval/designee's approval.

Once these approvals are received, please let Purchasing know the requisition number (with the appropriate attachments) for it to review and dispatch. Once these steps have been completed, then, Purchasing will prepare will prepare the agenda item for Commission for ratification as required by City Ordinance.

I look forward to your response and Randy Brown's approval.

Thank you,

From: Bobby Clayton <Bobby.Clayton@copbfl.com>

Subject: LS 67 emergency Repairs
Importance: High

Good morning Carla and Tammy,

Wastewater Lift Station 67 which is located at 50 SE 12 Street requires immediate emergency repairs to the pump bases and discharge piping. This master lift station which services Garden Isles and Lyons Park discharges up 1.5 million gallons per day of wastewater into the Cypress Road force main.

This past week's extreme rainfall event demonstrated that neither the station pumps nor the bypass pump was capable of maintaining the wet well at a safe level due to the disrepair state of the pump bases and discharge piping.

Given the state of the pump station and the current and ongoing weather conditions, multiple private Jet Vac companies with City Jet Vactors were required to aid in containing the wastewater within the system from Wednesday April 13, thru Sunday April 16; 24 hours a day.

City staff contacted Man Con, Inc. and Reynolds Construction, the two awarded vendors for RFP # P-27-19, Emergency and On Call Utility Repairs Services. Their response to the emergency solicitation to repair the City's Lift Station was considerably more than anticipated at the cost of \$108,030. The City contacted local vendor Trio Development Corporation and received a proposal of \$84,560, which provided a savings of \$23,470. It is recommended to approve Trio Development Corporation; a local Pompano Beach vendor to procure items and begin the emergency repairs to the wet well at Lift Station 67.

It is important that this emergency condition is corrected in a timely manner prior to the next major rain event or upcoming hurricane season.

Funding the emergency repair services will be through CIP 08-968, account number 420-7345-535-6512
