

## MEMORANDUM

TO: Commission

FROM: Russell S. Ketchem, Solid Waste Manager 

COPIES: Greg Harrison, City Manager  
Robert McCaughan, Director Public Works

SUBJECT: Broward County Temporary Debris Management Sites ILA

DATE: 10 April 2018

---

The City seeks to enter into an agreement with Broward County to provide use of temporary debris management sites (TMDS).

The TMDS are commonly used in the aftermath of hurricanes. Materials are delivered to the site(s) for processing and volume reduction.

While the City of Pompano Beach has secured other locations, an additional level of redundancy will be accomplished by entering into this ILA. There are no obligations or guarantees within this agreement, as to materials delivered to the site(s).
