Community Development Advisory Committee

Summary Information Sheet

The **Community Development Advisory Committee** serves as the citizens' advisory body to the City Commission and makes recommendations on the adoption of an annual plan for community development projects. Said committee meets the **second Thursday of each month at 7:00 p.m.**, in the City Commission Chambers, 100 West Atlantic Boulevard, Pompano Beach, FL 33060. The Community Development Advisory Committee was established by Resolution No. 84-119/140. Some members are Commissioner appointed.

Coordination with the CDAC

The City of Pompano Beach CDAC actually reviews and ranks each application submitted on a fiscal basis for CDBG and HOME funding. Each applicant is permitted an opportunity to discuss their application during a CDAC Public Hearing. During those public hearings, the CDAC receives oral presentations from each applicant, but this is not the ranking session; that session will happen after all presentations are completed.

The announcement of the CDAC meetings are posted on the public bulletin boards in City Hall and on the City's website at least 72 hours before the meeting date.

Application Review

The application review is one of the CDAC's most important functions. The following are the general steps included in the application review stage:

1. Proposals received by OHUI staff.
2. All proposals are copied.
3. OHUI staff reviews all the proposals for eligibility and compliance.
4. Verify that the City Commission Chambers is available for the public hearings dates.
5. Distribution of copies to all CDAC members (via mail or hand delivery) along with information packet.
6. Notify applicants of the dates that they are to conduct oral presentations.
7. Distribute copies of evaluation criteria and scoring to each committee member to use to rank the applicants.
8. CDAC reviews and ranks each application at the next formal CDAC meeting. The CDAC should rank and review the forms before the meeting and bring them to the meeting. Staff should present staff comments to the CDAC prior to the final CDAC scoring, but only after providing the CDAC an opportunity to provide preliminary comments.

Application Review Criteria

Application evaluation criteria must be established BEFORE the applications are actually distributed. The application review criteria should accurately reflect the same items that applicants are asked to address in the application. More importantly, the application review format must be easy to follow so that the committee can carry out their task. OHUI will provide the CDAC with an application/proposal review evaluation criteria form. The evaluation criterion reflects the objectives that the City established for housing and community development programs. Any modifications to the form must be reviewed to ensure that the review criteria are consistent with the application/proposal format. Include a summary page in the application that identifies the evaluation criteria that will be used.

Presentations

As soon as the CDAC committee members have received their application packets, send letters to the applicants indicating the date and time for the oral presentation.

The applicants have the opportunity to provide a brief oral presentation (up to 15 minutes). It also provides an opportunity for the committee to ask questions and for the public to hear about the things proposed for their communities. Note: this is not a public meeting, so the public is not invited to dialogue with the committee or the presenters during the presentations.

CDAC Ranking of Proposals

Following the conclusion of all the public hearings, the committee's next regularly scheduled meeting is the opportunity to present/make funding recommendations. Encourage the CDAC to rank the proposals BEFORE the meeting and then come to the meeting prepared to discuss them as a group.

Final Funding Cycle Stage

1. Prepare summary information about the CDAC's funding recommendations.
2. Contact the applicants to advise of CDAC's recommendations.
3. Brief City Manager on staff and CDAC recommendations.
4. Develop final staff recommendations (if different than CDAC's).
5. Post information about public meeting of the Commission Meeting to discuss recommendations
6. Write the Commission agenda report and present funding recommendations for approval

The goal at this stage of the process is to inform and approve.

Prepare Summary Information

Based on the CDAC's funding recommendations, the OHUI staff will prepare a funding chart that indicates how much each applicant requested and how much funding the Commission awarded.

Contact the Applicants

Contact the applicants right after the CDAC makes their final funding recommendations. A simple e-mail or phone call or letter is sufficient. This is also the opportunity to explain that the CDAC recommendations are not the final funding awards; City Commission will ultimately have to approve the funding recommendations and they could choose funding levels that differ from the CDAC or staff's funding recommendations.

Finally, advise applicants that they will have an opportunity to voice their thoughts/concerns about the CDAC recommendations during the City Commission public hearing. During the public hearing, members of the audience who wish to address the Commission must submit a speaking slip. Advise the applicants of such and encourage them to arrive early to get on the speaker's list for public comment regarding the CDBG and HOME funding recommendations.

Commission Vote on Resolution

If all goes well, the Commission will accept the funding recommendations from the CDAC and Staff and pass the resolution on the night of the public hearing.

If however, the Commission does not approve the funding during the Commission meeting, the item will likely be moved to a work session to allow more time for the Commission to consider funding recommendations and to seek further clarification.

Notify the Applicants about Final Funding Recommendations

After the Commission has voted on the funding recommendations, send a commitment letter to each of the applicants acknowledging that the funding cycle is complete and indicate their final award amount.

As the beginning of the new grant year approaches, the CDBG administrator should send out a copy of the subrecipient agreement, performance reports, and other materials that will give grantees a better understanding of their responsibilities under the grant program.

Introduction

The Community Development Block Grant (CDBG) program is authorized by Title I of the Housing and Community Development Act of 1974, as amended, and provides annual grants on a formula basis to entitled metropolitan cities and urban counties to implement a wide variety of community and economic development activities directed toward neighborhood revitalization, economic development and the provision of improved community facilities and services. CDBG activities are initiated and developed at the local level based upon a community's perceptions of its local needs, priorities, and benefits to the community. Each entitlement grantee receiving CDBG funds is free to determine what activities it will fund as long as certain requirements are met, including that each activity is eligible and meets one of the following broad national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other community development needs of particular urgency.

The City uses CDBG funds to provide housing assistance and social enrichment activities to residents within the City. The City also awards CDBG funds to eligible nonprofit organizations through an annual competitive process.

This guidebook describes the responsibilities associated with the City's CDBG program and provides instructions for staff that are administering the CDBG program. The manual is organized in to coincide with the annual grant award and funding cycle. Thus, Chapter 1 begins with a description of the funding announcement process and the final chapter ends with the "close-out" procedure for end of year reporting.

CDBG Funding Cycle: Overview

This section describes, generally, the CDBG Funding Cycle. The following chapters will discuss each step of the process in further detail.

The CDBG Funding Announcement and Application stage marks the beginning of the grant cycle process. It is essentially the period in which the City announces the availability of funding and begins receiving applications. However, prior to the announcement, the CDBG Administrator must design the application, design the funding announcement coordinate meeting times for the CDAC to review applications, coordinate meeting space for the public hearings the CDAC will hold, coordinate the publication of the funding announcement in local media (e.g., television, newspaper, local bulletin boards) and mail the announcement to all the local civic organizations and previous grantees. The timeline included in this manual provides guidance on when all these things must happen. This chapter merely provides a description of how to undertake these activities.

Application Design

The CD application has a general proposal outline (application) that track/records information about the applicant, the proposed activity, the proposed budget, and what the activity expects to accomplish. The application may be modified to reflect changes in the City's housing and community development priorities. A sample application is attached to this chapter. The application should be shared with the OHUI Director before making it public. A sample application is included in this section.

Funding Announcement Design

The funding announcement design is pretty simple. The purpose of the announcement is to inform people that the City has grants available for housing and community development activities. The format is flexible, but it must include the list of eligible activities, the names of the grants, date the application is due, a verified amount of funds to be provided by the City of Pompano Beach for the activity, and whom to contact for more information, and the public hearing meeting dates.

Coordinate with the CDAC

The City of Pompano Beach CDAC actually reviews and ranks each application. Each applicant is permitted an opportunity to discuss their application during a CDAC Public Hearing. During those public hearings, the CDAC receives oral presentations from each applicant, but this is not the ranking session; that session will happen after all presentations are completed.

The CDBG Administrator must coordinate with the members of the CDAC to determine the date(s) for those public hearings. Generally, the CDAC can go through four applicants in a two-hour meeting, and the City has received up to 8 applications on average. Therefore it is a good practice to schedule two public hearings.

Coordinating Meeting Space for Public Hearings

Public hearings of this type generally take place in the City Commission Chambers next to City Hall, so you will need to reserve the room space for the public hearing dates. In addition, all public hearings and Commission meetings must be announced. The announcement of these meetings is as simple as posting a sign and meeting agenda on the public bulletin boards in City Hall at least 72 hours before the meeting date (see sample meeting announcement attached). The OHUI administrative staff will be glad to help you with posting the announcement and reserving meeting space.

Coordinate the Publication of the Funding Announcement in Local Media

Always remember: all contact with the media must be done through the Public Information Officer.

The announcement must be published in the local newspaper, in accordance with HUD's Consolidated Plan requirements at 24 CFR 91. It is also a general practice of the City to put the announcement in both English and Spanish. To publish a document in the local Press, simply use the format for newspaper publication and

CDBG FUNDING CYCLE OVERVIEW

provide an electronic copy of the announcement to the Public Information Officer with the dates that the announcement should appear. (The South Florida Sun Sentinel is published every day of the week). Keep in mind that you want to publish/broadcast the announcement up until the application due date (i.e., remove the announcement/ad after the applications are due).

To publish the announcement on the City of Pompano Beach web page, create a general MS Word file with an electronic copy of the application and save it on a floppy disk/CD. Provide a brief description of where you want the announcement to appear on the web page (generally on the home page and the OHUI page) and provide the disk/CD to the OHUI Director. After you receive the OHUI Director's approval, contact the Communications Division to coordinate posting on the web page.

Finally, to publish the announcement on the local Cable Access Channel, create a MS PowerPoint slide with brief information about the grant. Because the space is limited you may only be able to indicate that grants are available and give them the OHUI contact number for more information. After receiving the OHUI Director's approval, provide an electronic copy of document to the Communications Division and indicate the time period that the announcement should be published.

It is recommended that the CDBG administrator create a poster that can be displayed on City Hall bulletin boards or to simply use the funding announcement.

Mailing the Announcement

Publicity for the funding announcement primarily consists of mailing the announcement to all civic associations, Housing Organizations, and previous grantees. Throughout the year, begin introducing yourself to these organizations and researching organizations that provide services to low- and moderate-income persons but have not received grant funding through the City. The OHUI Administrative Staff maintain the mailing list; if you have an organization to add, simply pass the name onto them.

At this point, you have completed a significant amount of work. The next phase is Application Intake and Review.

Application Review

This section describes the application review process, with special attention to the CDBG Administrator's role in coordinating with the CDAC

The Application Review is, by far, one of the CDAC's favorite tasks. It's an opportunity for the Commission members to really get involved and make decisions that impact services for Falls Church families in need. With that said, care should be taken to ensure that the application review process runs smoothly and enables the Commissioners to make clear and fair decisions. The following are the general steps included in the application review stage:

1. OHUI Receives CD Proposals
2. Copy all proposals (ask OHUI Administrative Staff for assistance)
3. CDBG Administrator reviews of all CD proposals for eligibility, national objective compliance
4. Verify that City Commission Chambers is still available for all CD public hearing dates (if you have not reserved this space, reserve it NOW!)
5. Make at least 11 copies of all proposals
6. Distribute copy of all proposals to individual CDAC members (via mail or home delivery). Include information packet described in this section.
7. Notify applicants of the dates they are invited to conduct oral presentations during public hearings. Coordinate with OHUI staff to find a convenient time for applicants to present if OHUI staff members submitted any proposals.
8. Assist the CDAC with conducting the Public Hearings. Distribute copies of the evaluation criteria and scoring to each Commissioner to use to rank each applicant during oral presentations.

APPLICATION REVIEW

9. CDAC reviews and ranks each application at the next formal CDAC meeting. The CDAC should rank and review the forms **before** the meeting and bring them to the meeting. Staff should present staff comments to the CDAC prior to the final CDAC scoring, but only after providing the CDAC an opportunity to provide preliminary comments.

Application Review Criteria

Application evaluation criteria must be established **BEFORE** the applications are actually distributed. The application review criteria should accurately reflect the same items that applicants are asked to address in the application. More importantly, the application review format must be easy to follow so that the Commissioners can carry out their task. OHUI will provide the CDAC with an application/proposal review evaluation criteria form. The evaluation criterion reflects the objectives that the City established for housing and community development programs. Any modifications to the form must be reviewed to ensure that the review criteria are consistent with the application/proposal format. Include a summary page in the application that identifies the evaluation criteria that will be used.

Getting the CDAC ready for Application Reviews

At the beginning of the grant cycle, the CDAC should be advised of the dates that application/proposals will be reviewed (the Public Hearings) and the CDBG Administrator must ensure that the application states those dates and that meeting space is reserved in City Hall to review applications during the public hearings.

OHUI Review of proposals

Once application/proposals are published and applications are submitted to OHUI, the CDBG Administrator will begin reviewing each application to determine that the proposed activities are eligible under the CDBG or HOME programs; meet one of the three CDBG national objectives; target the correct HOME-income groups, and that the project is consistent with the needs and objectives identified in the City's Consolidated Plan. The CDBG Administrator will also complete an eligibility and national objective checklist for each activity and maintain this checklist for filing in each activity's file.

Distribution of OHUI-reviewed proposals

If a project meets these criteria, the CDBG Administrator should begin making copies of eligible applications for each of the members of the CDAC and distribute at least two weeks before the Public Hearings. The CDAC information packet should include the dates of the public hearings, the list of applicants that will present on each date, a

APPLICATION REVIEW

copy of the CDBG and HOME info sheet, a copy of the evaluation criteria form, and a summary of the proposals and total funds requested. A copy of this packet should also be provided to the City Managers Office and the NW CRA Advisory Committee.

Invite Applicants to Present

As soon as you have assembled the CDACs' information packets, send letters to the applicants indicating the date and time of their oral presentation.

CDAC Public Hearings

The CDAC Public Hearings are an opportunity for the applicants to provide a brief (up to 15 minutes) oral presentation. It is also an opportunity for the Commission to ask questions and for the public to hear about the things proposed for their communities. Note: this is not a public meeting, so the public is not invited to dialogue with the Commission or the presenters during the presentations.

The CDBG Administrator will facilitate this meeting by ensuring that presenters stick agenda and that each Commissioner has a ranking form.

REMEMBER: Do not forget to post a notice regarding the public hearing meeting.

CDAC Ranking of Proposals

Following the conclusion of all of the public hearings, the Commission's next regularly scheduled meeting is the opportunity to present/make funding recommendations. Encourage the CDAC to rank the proposals BEFORE the meeting and then come to the meeting prepared to discuss them as a group. A copy of the proposal-scoring chart and the overall ranking sheet is attached.

Final Funding Cycle Stage

Recommendations, Manager Briefing, Commission Public Hearing

This is the near final stage of the CDBG funding process. It is the job of the CDBG Administrator to undertake several activities, as listed below:

1. Prepare summary information about the CDAC's funding recommendations
2. Contact the applicants to advise of CDAC's recommendations and inform them of remaining process.
3. Brief City Manager on staff and CDAC recommendations
4. Develop final staff recommendations (if different than CDAC)
5. Post information about public meeting at Commission Meeting to discuss funding recommendations
6. Write Commission agenda report and present funding recommendations for approval.

The goal of this stage of the process is to inform and approve. There are a lot of tedious, time sensitive steps, so it helps to review the entire chapter right after the CDAC decides the final vote. This chapter will go into detail to describe how to undertake these activities.

Prepare Summary Information

Based on the CDAC's funding recommendations, the CDBG Administrator will prepare a funding chart, see attached, that indicates how much each applicant requested and how much funding the Commission awarded. An example of a funding chart is attached.

Contact the applicants

Contact the applicants (in writing) right after the CDAC makes their final funding recommendations. A simple e-mail and phone call or letter is sufficient (see attached). This is also the opportunity to explain that the CDAC recommendations are not the final funding awards; City Commission will ultimately have to approve the funding recommendations and they could choose funding levels that differ from the CDAC or staff's funding recommendations.

Finally, advise applicants that they will have an opportunity to voice their thoughts/concerns about the CDAC recommendations during the City Commission public hearing. During the public hearing, members of the audience who wish to address the Commission must submit a speaking slip. Advise the applicants of such and encourage them to arrive early to get on the speaker's list for public comment regarding the CDBG and HOME funding recommendations.

Brief the City Manager

As soon as you can, schedule some time with the City Manager to discuss the CDAC's recommendations (and staff recommendations). This is particularly important when the CDAC has decided to not fund an applicant or if the Commission has recommended less funding than requested by a specific applicant. The manager should get a 1-page summary and the Director should follow-up to schedule a meeting. See attached example.

During the Manager's meeting, the Director and CDBG Administrator should be prepared to provide staff recommendations, but be mindful that the manager may have some issues that could affect the Staff recommendations and whether the Commission will be prepared to hear the funding recommendations on the dates specified. (At this point, the director should have advised the Manager to place the item on the Commission Agenda several weeks in advance).

Brief City Commission about CD applications

The CDBG Administrator should also brief City Commission on the CD applications and the CDAC/Staff's recommendations. It is particularly important during funding years where Staff and/or the Commission recommend that organizations receive less than their funding request. In addition, the briefing provides an opportunity for Commission to learn about the CD process, particularly the funding provisions regarding public service, planning, and administrative activities.

The oral briefing should consist of a summary and comments about each applicant, similar to the summary packet prepared for the CDAC when applications were first

FINAL FUNDING CYCLE STAGE

received. The rest of the briefing should clearly describe how the Commission & Staff arrived at their funding decision and the final funding recommendations. The Commission may have several questions and may adjust the funding recommendations, but this is to be expected. It is CRITICAL, though, the CDBG administrator communicate the complexities of the funding and take thorough notes during the work session.

Post Information about Public Hearing

Consistent with the HUD requirements for Citizen Participation in the Consolidated Plan, public hearing notices must be posted BEFORE the meeting when the funding recommendations are presented, post the notices about the public hearing to discuss the funding recommendations. The funding recommendations are typically presented during the last November or first December meeting of the City Commission, which allows the CDBG Administrator time to submit the recommendations to City of Pompano Beach.

The City Clerk typically posts the public notices for City Commission meetings, so coordinate with her. However, in case the Clerk is not able to do so, be sure to post the notice at least 2 weeks before the actual public hearing date. The public hearing notices should be posted throughout City Hall and published in the South Florida Sun Sentinel News Press. To publish in the Sun Sentinel News Press, you must submit the public notice by Monday of the week you want the Notice published. Posting in the Sun Sentinel News Press should be coordinated with the Communications Division. You can ask the OHUI administrative staff to post the public hearing notice – but remember it must be posted at least 30 days prior to the Commission's public hearing.

Develop Staff Recommendations

Now that you have had an opportunity to meet with the City Manager, prepare staff recommendations. In the best of situations, it would be great for staff to have the same recommendations as the CDAC, but it is not required. If staff's recommendations differ, be prepared to discuss why during the City Manager briefing and during the Commission public hearing.

Write Commission agenda report, resolution for approval of CD funding recommendations

In order for Commission to consider an item, the respective City Office/Division must present an agenda report with some background. For the CD process, the agenda report consists of a summary of CDAC and staff recommendations and a chart illustrating how much each applicant requested and received per recommendations. A

FINAL FUNDING CYCLE STAGE

copy of this report is included in this chapter as well. The City Clerk will assign an agenda number to the document but the Administrator must contact the Clerk beforehand to request that the item be added to the Commission's agenda. Finally, verify that all the funding recommendation amounts are CORRECT – Commission will not act kindly if the funding amounts don't add up (and they will do the math!)

The preparation of the Commission agenda report must be coordinated with the City Clerk. The CDBG administrator should be sure that the Commission has the item on its agenda by calling the City clerk. Further the City Clerk provides an agenda item number for both the public hearing and funding recommendation resolution. These items will need to be typed onto the agenda report template and the agenda report must be posted to the G:/drive in the community development folder so that the City Manager can approve the items before it goes to Commission

During the City Commission Meeting, the CDAC Chair will present some overview comments, and the CDBG Administrator will go through, generally, the funding recommendations. The CDBG Administrator should prepare some comments for the CDAC, though the Chair can add to those comments. A sample copy of the Chair's comments is included in this section.

In addition to preparing the Commission's agenda report, the CDBG Administrator must prepare the formal resolution whereby Commission authorizes the City to use the CDBG, HOME Investment Partnership funds.

Presentation before City Commission

The CDBG administrator's presentation before City Commission should be brief. An example of the CDBG administrator's comments is included in this chapter, but these comments are merely an example. It is important that the CDBG administrator is prepared and invite the Commission to ask questions once the presentation is over. As a reminder, the Administrator must first ask Commission to allow for public hearing and then, after the public hearing, request that the Commission approve the funding recommendation resolution.

During the public hearing, the applicants and the public will have an opportunity to comment on the CDAC and Staff's funding recommendations. It is IMPORTANT that the administrator remind the applicants of the process for public comments at least one week before the public hearing. The Commission's public hearing process for receiving public comments: each applicant must fill out a speaker's slip and submit it to the City Clerk before the City Commission officially starts the meeting.

Commission Vote on Resolution

If all goes well, Commission will accept the funding recommendations from the CDAC and Staff and pass the resolution on the night of the public hearing. If this is the case, congratulations! Be sure to get a final, signed copy of the resolution for OHUP records and for your files.

If, however, Commission does not approve the funding during the Commission meeting, don't fret. The item will likely be moved to work session to allow more time for Commission to consider funding recommendations and to seek further clarification on the CD funding process.

It is important to bring various reference materials to the Commission work session and to invite the applicants to the Work Session but applicants must be informed that they will not be allowed to comment during work session). Items that the CDBG Administrator should bring include: copies of the CDBG regulations, copies of the proposals submitted, copies of the past year's performance reports, summary of previous year's CD funding awards.

Notify the Applicants about Final Funding Recommendations

After the Commission has voted on the CD funding recommendations, send a commitment letter to each of the applicants acknowledging that the funding cycle is complete and indicate their final award amount.

As the beginning of the new grant year approaches, the CDBG administrator should send out a copy of the subrecipient agreement, performance reports, and other materials that will give grantees a better understanding of their responsibilities under the grant program.

The following chapters will get into further detail concerning subrecipient or "performance reports."

Environmental Reviews

This chapter provides guidance on conducting an environmental review and assessment for CDBG-funded activities. It is important to document all steps of the environmental review process.

The Community Development Block Grant program is covered by three sets of Federal laws to help protect the environment where Federal funds will be spent, to help protect beneficiaries from environmental hazards, and to preserve federal resources by not funding projects located near dangers, such as flood plains.

For each CDBG-funded project, the CDBG Administrator must conduct an environmental analysis. Generally, the environmental review process involves the following steps):

1. **General Overview.** Take notes on the overall project that includes information on: project location, funding type, persons affected, general environmental conditions etc.
2. **Environmental Assessment.** Determine if the project is subject to the National Environmental Policy Act (NEPA) of 1969. To do this, go through the list at 24 CFR 58.34 and 24 CFR 58.35 (see the back of this chapter for the excerpts from these section of the Code of Federal Regulations) to see if the activity/project is listed as exempt or excluded from these regulations. If the project is not exempt or excluded, the activity will have to meet the NEPA requirements and an Environmental Impact Statement (EIS) must be completed. ALL CDBG projects other than those exempt or categorically excluded must be approved based on NEPA requirements.
3. **Determine Impacts.** Next, determine if the project is subject to the other Federal statutory or HUD regulatory requirements. ALL projects that are not exempt must adhere to the other statutory and regulatory requirements.

It is a good idea to have the Environmental Review Record Checklist, located in the back of this chapter, handy as you are reading this.

ENVIRONMENTAL REVIEWS

4. Document impacts (if applicable).

To help simplify the process, use the Environmental Review Record (ERR) Checklist included in this chapter to determine what steps to take for specific projects. A copy of the Environmental Review Record Checklist and the appropriate info sheet should be included in each CDBG-funded activity's file. The Environmental Review must be conducted BEFORE a project is funded, ideally at the end of May or beginning of June.

Environmental Reviews

There are three types of environmental reviews and the type of environmental review depends on the type of project. The three environmental reviews are as follows:

1. **Categorically Excluded Projects:** A quick review that does not include the NEPA requirements. These projects consist solely of activities that are listed at 24 CFR 58.35.
2. **Environmental Assessments:** An assessment is conducted to determine whether a project that is not categorically excluded from NEPA will or will not have a significant impact on the environment.
3. **Environmental Impact Statements:** This is a more intense review of a project that is subject to the NEPA requirements, the Commission on Environmental Quality Regulations, and the Environmental Impact Statement (EIS). It is a good idea to consult with HUD before attempting an EIS. See 24 CFR 58, Subpart F for general information about the EIS. The instructions for conducting an EIS are included in the back of this chapter and labeled as 24 CFR 58 Subpart H. The activities for which an EIS are required are listed at 24 CFR 58.37 and included in the back of this chapter.

Accessibility Reviews

The accessibility review is to ensure that the project/activity site will be accessible for persons with disabilities. This chapter provides instruction on how to conduct the accessibility review and how to encourage accessibility.

Projects that utilize federal funds (such as CDBG and HOME) are required to ensure that the activities and project site are compliant with the Americans with Disabilities Act and that the provision of services is accessible to persons with disabilities. It is important to note that disabilities do not refer just to those who have physical limitations and must use a wheelchair; it includes persons who are blind, mentally-disabled, people with broken legs and persons who can only walk short distances.

How to Conduct an Accessibility Review

The accessibility review is conducted by the CDBG administrator and consists of a site visit to the project site for each of the CDBG grantees. The Accessibility Checklist (see attachment at end of chapter) provides specific questions that ask about the entrance, restrooms, parking, and promotional material for each project/activity. The review takes about 30 minutes.

The Accessibility checklist is the minimum requirement for accessibility that a grantee is expected to meet before the City provides funding. However, the CDBG administrator may wish to speak with the City's ADA coordinator to talk about other items that may help improve accessibility for the clients.

When to conduct the review

Be sure to coordinate with each grantee to determine a convenient time to conduct the review, but the review **MUST** occur before a grantee begins to receive funding. After the review is completed, file a copy of the accessibility review in the grantee's project file folder.

Subrecipients

This chapter describes the grants management process when the City provides CDBG funds to various organizations, including City-operated activities

Subrecipient Agreements

After the applicants have been notified that they will receive CDBG, or HOME it is important to follow-up the award letter with a formal contract or "subrecipient agreement." The purpose of the subrecipient agreement is to notify each applicant of their responsibilities and the specific terms of using CDBG funds for the activity.

The subrecipient agreement is also important for ensuring that the subrecipient understands their responsibilities, which is why each organization that receives funding must sign a subrecipient agreement. A sample subrecipient agreement is included in this chapter. It is also important that the CD administrator provide grantees with a sample client intake form that describes the demographic information that the grantees/subrecipients must collect from all clients. A sample client intake form is included in this chapter.

Subrecipient agreements should be mailed out at the beginning of June to allow enough time for the subrecipients to receive, review, and return a signed copy to the CDBG administrator. A signed copy of the subrecipient agreement must be included in the subrecipient's file.

Subrecipient Reports

In addition to the subrecipient agreement, the CDBG administrator will send a copy of the performance report with the contract. The performance report describes the activities the grantee will undertake and for which the grantee will be evaluated; the subrecipient agreement spells out the grantee's general activities. The subrecipient quarterly report will be sent to each subrecipient at least 30 days before the beginning of the fiscal year (see attached letter).

SUBRECIPIENTS

Each subrecipient is required to submit a quarterly "performance" report that identifies the accomplishments for that quarter. The quarterly reports must be submitted to the CDBG administrator. Per the contract agreement, each subrecipient must submit a quarterly report prior to the release of funds. The dates that the subrecipient reports are due are generally, October 15, January 15, April 15, and June 5th. (The June report is due earlier so that the City can close out the books for the fiscal year).

Subrecipient reports reflect the performance information that Arlington County (the City's CDBG pass-through agency) requires and data that the City collects. A sample subrecipient report is included in this section, but the report may be modified. The performance indicators in the subrecipient report are based on the goals and estimated number of beneficiaries identified in the subrecipient's application.

Once all the subrecipient reports have been received, the performance data should be consolidated into the summary format and submitted before the established deadlines. (Typically, the quarterly reports are due two weeks after the end of each quarter).

There are two important policies that stand for performance reports, and these items are reiterated in each of the subrecipients' contracts:

Performance reports are due no later than each quarter of the fiscal year, and reimbursements will be provided ONLY after a quarterly performance report has been received and reviewed by OHUI staff

Provide the grantees with an electronic copy of the report to simplify their submission.

Receipt of Performance Report

When a quarterly report is received, the CDBG administrator will review it for progress towards meeting the overall goal. If performance measures are not met or if the information is the same for every quarter, follow-up with the subrecipient to provide technical assistance or to provide technical assistance. The CDBG Administrator should sign the report as a documentation of approval and file it in the subrecipient's CDBG file folder.

Following the receipt of the Performance Report, begin the process for reviewing the reimbursement request, as discussed in the next chapter.

The following chapters will also discuss the ongoing responsibilities of maintaining a relationship with subrecipients, including monitoring, correspondence, and funds management.

SUBRECIPIENTS

Monitoring Subrecipients

Overview

All grantees receiving Community Development Block Grant (CDBG) (as well as HOME Investment Partnerships (HOME)) are monitored in accordance with federal regulations for each program. Monitoring procedures include submission of quarterly performance reports by each agency that details the services provided, the demographic characteristics of individuals served, the number of persons served and the goal reached/accomplished. As a general rule, all persons served with CDBG and HOME funds must be income eligible and residents of the City of Pompano Beach. Agencies are required to maintain income and residency documentation for each client served, with the exception of agencies that provide services to groups that HUD presumes are income-eligible (e.g., elderly, severely disabled adults, etc.).

CDBG (and HOME) grant recipients are reimbursed for expenses incurred on a quarterly basis. Grantees may submit reimbursement requests prior to the end of the quarter if an interim performance report is received). Reimbursements are made only for line items contained in the budget of the contract between the agency and the City.

Beginning with the Fiscal Year 2006 grantees, the City has established a monitoring policy whereby grantees will also be monitored on-site at least once during each fiscal year the organization receives the grant. At that time, the City will review client files to confirm residency and income eligibility, and review the agency's performance with respect to the services identified in the contract.

The purpose of monitoring is to ensure that CDBG regulations are being followed. If any potential problems are noticed, it is the CD administrator's responsibility to provide corrective actions. The key thing to remember is that monitoring is not a one-time process and should be used as an opportunity to provide technical assistance – the CDBG Administrator should maintain regular contact with each grantee and have a thorough understanding of each project. In addition, the Administrator should be reviewing the quarterly reports to determine the organization's progress in carrying out the CDBG activities. Keep in mind that organizations with the highest risk (new grantees, grantees with previous performance deficiencies, and grantees undertaking large projects) should be monitored first and more frequent.

SUBRECIPIENTS

EQUIPMENT/FIXED ASSETS REVIEW

Real Property

For *grantees*, the use of real property is governed by 24 CFR 570.505. For real property acquired or improved in whole or in part with CDBG funds in excess of \$25,000, the grantee cannot change the use or planned use of the property (including the beneficiaries of such use) without first providing affected citizens notice and opportunity to comment, and determining that either:

- a) The contemplated new use meets one of the National Objectives and is not a building for the general conduct of government.
- b) The contemplated new use is deemed appropriate (after consultation with affected citizens) but will not meet a National Objective. In this latter case, the grantee must reimburse the CDBG program in the amount of the current fair market value of the property, less the value attributable to the non-CDBG portion of the acquisition or improvements.

The Subrecipient Agreement must be explicit about the use of any real property under the subrecipient's control that was acquired or improved in whole or in part with CDBG funds in excess of \$ 25,000. For such instances, 24 CFR 570.503(b)(7) mandates that such real property either:

- Must be used by the subrecipient to continue to meet one of the CDBG program's National Objectives for at least 5 years after the expiration of the Subrecipient Agreement (or a longer time as specified by the grantee in the Subrecipient Agreement); or
- If a National Objective is not met during this time period, the grantee must be reimbursed for the current fair market value, less any portion of the value attributable to non-CDBG funds.

Personal Property — Equipment

For governmental subrecipients (24 CFR 85.32):

- **Title:** Title to equipment acquired with CDBG funds is vested in the subrecipient, subject to the conditions described in the following section.
- **Use:** Equipment purchased with CDBG funds or other forms of Federal assistance must be used by the subrecipient in the program or project for which it was acquired, and as long as needed, whether or not the program or project continues to be supported by Federal funds.
 - When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.
 - The subrecipient also must make the acquired equipment available for use on other projects or programs currently or

SUBRECIPIENTS

previously supported by the Federal Government provided that such use will not interfere with the work on the project or program for which the equipment was originally acquired.

- A subrecipient is prohibited from using CDBG-acquired equipment to provide services for a fee to compete unfairly with private companies that provide equivalent services unless specifically authorized by Federal statute.
- With the approval of the grantee, equipment acquired with CDBG funds may be used as a trade-in on replacement property.
- **Management requirements:** For equipment (including replacement equipment) acquired in whole or in part with CDBG funds, the subrecipient must have procedures and control systems in place to:
 - Keep adequate equipment records, which must include information on:
 - Property description.
 - Identification.
 - Funding source (grant number).
 - Title holder.
 - Acquisition date and cost.
 - Federal share of cost.
 - Location, use, and condition.
 - Unit acquisition cost.
 - Disposition data.
 - Conduct a physical inventory of the property no less often than every 2 years, with a reconciliation of the inventory results with the equipment records.
 - Ensure adequate safeguards for preventing loss, damage, or theft of property.
 - Maintain the equipment in good condition.
- **Disposition:** When original or replacement equipment acquired with CDBG funds is no longer needed for the original project or program or for other activities currently or previously assisted with Federal funds, the following rules of disposition will apply to governmental subrecipients:

SUBRECIPIENTS

- 1) Equipment with a **current per-unit fair market value of less than \$5,000** may be retained, sold, or otherwise disposed of by the subrecipient *after notice to the grantee*, subject to the conditions in 3) in the following section.
- 2) Equipment with a **current per-unit fair market value of \$5,000 or more** may *after notice to the grantee* be retained or sold by the subrecipient with the grantee having the right to compensation in an amount equal to multiplying the current fair market value *or* the proceeds from sale by the Federal share (percentage) in the original acquisition price of the equipment.
- 3) The grantee may reserve the **right to transfer title of the equipment** to the Federal Government or a third party (24 CFR 85.32(g)).

In addition, per 24 CFR 570.502(a)(8), in all cases when equipment purchased with CDBG funds is sold, the net proceeds are considered **program income**.

For **non-profit subrecipients** (24 CFR 84.34):

- **Title:** Title to personal property acquired with CDBG funds is vested with the subrecipient, subject to the following conditions:
 - 1) In all cases in which personal property is no longer needed by the subrecipient for CDBG activities, it must be transferred to the grantee for the CDBG program or can be retained by the subrecipient after compensation to the grantee (per 24 CFR 570.502(b)(3)(vi)(B)).
 - 2) The grantee may reserve the **right to transfer title of the equipment** to the Federal Government or a third party (84.34(g)(4)).
 - 3) In all cases in which personal property is sold, the proceeds will be considered **program income** (24 CFR 570.502(b)(3)(vi)(A)).

SUBRECIPIENTS

Personal Property — Supplies

For governmental subrecipients (24 CFR 85.33):

- Upon termination of the subrecipient's agreement with or award from the grantee, if there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate fair market value, and if such supplies are not needed for any other Federally sponsored programs or project, the subrecipient must compensate the grantee for the share of such supplies which were acquired with CDBG funds.

For non-profit subrecipients, the requirements of 24 CFR 84.35 apply; that is,

- The residual inventory of unused supplies exceeding \$5,000 not needed by the subrecipient for CDBG activities must be transferred to the grantee for the CDBG program or can be retained after compensating the grantee.
- In all cases in which the residual inventory of supplies is sold, the proceeds are considered program income.

Personal Property — Copyrights

For governmental subrecipients (24 CFR 85.34) and for non-profit subrecipients (84.36):

- The Federal Government reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use and to authorize others to use, for Federal Government purposes:
 - The copyright to any work developed with CDBG funds.

The next few pages provide specific instructions on how to conduct a monitoring review.

Monitoring Instructions

Notify. Call each grantee at least 60 days prior to the desired monitoring date and inform them that you will be visiting their organization to review their grant performance. (See sample letter). Following the call, immediately send a formal letter that confirms the date of the review, the scope of the monitoring, and what information will be needed, and which of the grantee's staff members should be available for the monitoring.

Entrance Conference. At the beginning of the monitoring visit, hold a brief meeting with the executive director or other top leadership to be sure the subrecipient has a clear understanding of the purpose, scope, and schedule for the monitoring.

Documentation, Data Gathering, and Analysis. Take copious notes during the monitoring visit and be sure the notes clearly identify the information reviewed and conversations had during the monitoring. Use the attached checklist (I:\cdbggrantyr 2006\Monitoring\CDBG Program Monitoring Checklist.doc) and pull out the sections that are specific to the activity you are monitoring. The information you collect is the basis for conclusions drawn from the visit.

Exit Conference. At the end of the monitoring visit, the Administrator should meet again with the key representatives of the grantee's organization to present preliminary results from the monitoring and offer the grantee an opportunity to provide any additional information or clarification.

Follow-up Letter. After the monitoring visit, the CDBG Administrator will provide the subrecipient with a formal written notification of the results of the monitoring review. The purpose of the letter is to recognize both success and areas for improvement. The letter is a permanent written record of what was found during the review. Most importantly, the letter should outline concerns and findings as well as deadlines for a written response and corrective actions.

Final Follow-up. The CDBG administrator should follow-up with the subrecipients to be sure that corrective actions and other steps were taken to improve performance. The follow-up should happen after the deadline stated for each finding. An on-site follow-up visit is not mandatory, but may be appropriate if the finding related to the grantee's day-to-day operations. Write one last "closing letter" to let them know you are satisfied with their progress.

Remember this strategy:

Communicate with subrecipients to see "how they are doing" in a friendly way

Conduct the monitoring visit as described above

SUBRECIPIENTS

Identify areas of success and areas that need improvement

Follow-up to see that steps were taken to improve

Intervention and Sanctions

During your monitoring visit, you may find that the grantee has areas where they should improve or where the grantee has failed to comply with the terms of the grant or contract. In such cases, implement the following actions:

Stage 1: Early Intervention

Plan an "improvement strategy" with the grantee that includes additional training or technical assistance;

Require more frequent or more thorough reporting by the subrecipient; or

Conduct more frequent monitoring review of the subrecipient

Stage 2: Intervention for More Serious or Persistent Problems

Restrict the subrecipient's payment requests;

Disallow subrecipient expenses; or

Impose probationary status

Stage 3: Sanctions

Temporarily suspend the subrecipient from the CDBG program

Do not renew the subrecipient the next program year;

Terminate the subrecipient's activity for the current program year; or

Initiate legal action

Fund Management

This chapter describes the general steps to managing CDBG and HOME funds. It is important to remember that each grant must be separately tracked and that each grantee's budget must be accurate.

The CDBG Administrator is responsible for monitoring the budget of the CDBG program as well as the Section 8 Administrative Fee budget and the HOME program budget. Funds management involves the following:

- Processing reimbursement requests from subrecipients;
- Ensuring that funds are disbursed in a timely manner;
- Closing out the CDBG budget books at the end of the fiscal year; including closing out files for those organizations that did not draw CDBG funds within their two-year timeframe; and,
- Identifying funds that will be carried over into the next fiscal year (if applicable);
- Projecting budget needs and resources for the next year.

Budget Files

Luckily the budget process is fairly simple; the key part is keeping accurate data about the budget for EACH activity and EACH grant program. This chapter includes a spreadsheet model currently used for the CDBG program budget. As a reminder, no funds should be disbursed unless the subrecipient has provided the proper reimbursement documentation and only after the environmental review is completed.

In its simplest format, you need to include the following information in your CDBG budget files:

RECORDKEEPING

Name of Activity

Amount of Grant

Amount of Grant Expended

Remaining Grant Balance

Performance Report

Date of Reimbursement

It is a good practice for the Administrator to set up a master CDBG budget spreadsheet and then link that spreadsheet with an individual budget spreadsheet for each CDBG activity. An example is provided at the end of this chapter.

It is important to monitor this information so that the reimbursement request will be accurate. The City generally submits a reimbursement request to Arlington on a quarterly basis as well and submits the reimbursement request with a summary performance report.

Similar to a bank, the Administrator should also send periodic "balance statements" to each subrecipient advising them of the funds they have remaining in their "CDBG/HOME" account.

Finally, each grantee's file should have accurate budget information, including a copy of the award letter, a tally of the funds spent and funds remaining, and a final closeout statement indicating whether any funds are remaining.

Grant Closeout

At the end of the fiscal year, the CDBG Administrator must go through each grantee's budget and indicate whether all funds were drawn; whether funds will be carried over into the next year; or whether the activity did not draw funds and will not be carried over into the next year. A simple way to track this information is to use a spreadsheet that links the ending balance of the current fiscal year with the beginning balance of the upcoming fiscal year for each activity and for the City's overall CDBG program.

The administrator should send a formal letter to those grantees that did not draw their full grant amount within the fiscal year. The letter should clearly state the remaining balance and remind them that the funds must be spent before the end of the upcoming fiscal year. As a reminder, grantees can carry over funds that were unspent for one fiscal year; after two fiscal years have ended, the City must reprogram those funds for another activity. If a grantee has not drawn 75% of their grant by the end of the 3rd quarter, the grantee should be contacted to discuss whether they will carry out

the activity in the next fiscal year. A formal letter should also be sent acknowledging the outcome of the conversation.

Subrecipient Request for Payment

The City's CDBG program operates on an invoice payment system that is supported by eligible activity verification and support documentation. Under this payment policy, the City must ensure that the funds were spent for activities that were eligible, met a CDBG national objective, and complied with the terms of the subrecipient agreement.

It is critical that the subrecipient submit the invoice payment request in the correct format. The request should consist of the following items, as identified in the subrecipients' agreement:

- o A cover letter describing the request, amount, and what services were provided
- o An invoice on the subrecipient's letterhead with a detailed description of the services provided, their costs, and the quantity of the services for just the CDBG funds
- o An invoice from the third party organization (if the subrecipient is contracting with an organization to provide services to the subrecipient).

Failure to provide any of the three items above means that OHUI will not pay the subrecipient invoice. If this happens, OHUI should contact the subrecipient via telephone and via mail to advise them that the request cannot be processed and state the reason for the denial of the reimbursement request.

The CDBG administrator should also review the reimbursement requests to ensure that the services and costs that are listed on the invoice request are the same services and costs that the applicant identified in their application. Most importantly, the CDBG administrator should verify that the costs are eligible and allowable under the Federal Office of Management and Budget's financial Circulars.

If the subrecipient has included all of the required information, a copy of the reimbursement request should be placed in the subrecipient's file and the CDBG Administrator should advise the OHUI administrative staff to make a formal check request to the City's Finance Department to reimburse the subrecipient.

The CDBG Administrator should also input this information into the CDBG budget worksheets indicating the amount requested, the date of the request, the receipt of the performance report and the amount reimbursed. REMEMBER: Always file the reimbursement request and performance report in the subrecipient's folder.

Record keeping

The essential part of ensuring that grantees are carrying out the activities they received funds for and that the CDBG administrator is ensuring that the City manages its CDBG program effectively. File documentation is the most important demonstration of compliance. This chapter describes what records should be kept for various activities.

CDBG Administration Records

The CDBG administrator must ensure that the following items are included in the CDBG folder for any fiscal year. Several of these documents were discussed in the preceding chapters.

- Citizen Participation: Notices announcing the availability of CDBG funds; notices announcing the public hearing for the CDBG proposals; notices announcing the City Commission public hearing to vote on the CDAC's CDBG recommendations; flyers/announcements of outreach events regarding the CDBG funding process; sign-in sheets from public meetings of persons who attended (not mandatory); citizen complaints or general correspondence from citizens about the CDBG program.
- Application Materials: Copies of the application proposals and application packet. Copies of proposals (both funded and not funded).
- CDAC/Commission CDBG Documents: Maintain copies of the final CDAC CDBG recommendations, any CDAC ranking sheets; and Commission resolutions accepting approval of the CDAC's CDBG recommendations.
- Budget Materials: Items identifying the approved CDBG budget, the CDBG beginning budget, and the final CDBG expenditures for that program year. (Reference Fund Management chapter)

Activity Records

In addition to maintaining documents relating to general administration of the CDBG program, there should be a file for each activity. The activity file should have the following documents:

- Proposal
- Correspondence
- Subrecipient Agreement
- Eligibility and National Objective Checklist
- Accessibility Checklist
- Quarterly Performance Reports
- Reimbursement Request and Balance Sheet
- Environmental Review Worksheets

Activity Specific Documentation

Believe it or not, the CDBG program is really fifty-percent documentation and fifty-percent implementation. As part of the CDBG requirements spelled out in the CDBG regulations at 570.506, there are certain documents that each CDBG-eligible activity must have. Those documents are described below and are sorted by CDBG national objective, and then by CDBG activity type. Thus, each activity should have documentation that it meets a CDBG national objective and is eligible under the CDBG program.

It is important to note that for activities that are operated by a subrecipient, the CDBG Administrator should advise the subrecipient that documentation must be in the subrecipient's files. The items listed below should be inserted in the OHUI CDBG file after a monitoring visit or at the close of the program year. However, if the number of clients/households/families in the subrecipient's client files is large; make copies of 25% of their client files in the OHUI CDBG project/activity file.

CDBG National Objective Documentation

There are three primary national objectives: low- and moderate-income benefit; meets urgent community development needs, or elimination of slums or blight. The required documentation for each of these national objectives is described below:

Low & Moderate Income Benefit *Limited Clientele* National Objective must have documentation that demonstrates the following:

- Activity serves one of the following groups:

RECORDKEEPING

- Activity is limited to a segment of the population presumed to be low- and moderate-income by HUD (see 24 CFR 570.208(a)(2)) and 570.506(b)(3)), or
 - At least 51% of the beneficiaries are members of a low- and moderate-income family, or
 - Based on the nature and location of the activity, at least 51% of the beneficiaries are low- and moderate-income.
- Correct CDBG income limits were used to check income of the beneficiaries

Low & Moderate Income Benefit: Housing National Objective must have documentation that demonstrates the following:

- Buildings that are not yet occupied/vacant land acquired for housing should have the following documentation:
 - Written agreement with landlord/developer receiving CDBG assistance indicating the total number of dwelling units in each structure and the total number that will be occupied by low/mod persons
 - Files noting that all occupants of a single-family home will be low- and moderate-income; for multifamily family properties, that at least 51% of the units will be occupied by low and moderate-income households.
 - If less than 51% low/mod for a multifamily property, documentation that the total CDBG contribution is equal to the proportion of units that are low/mod.
- Buildings that are occupied should have all of the above, plus the following documentation:
 - For rental properties, the rents charged to low- and moderate-income households;
 - Copy of the affordable rents policy;
 - CDBG income limits used

Low & Moderate Income Benefit: Job Creation/Job Retention National Objective must have documentation that demonstrates the following:

For each assisted business, the subrecipient file should have the following items:

RECORDKEEPING

- Evidence that part-time jobs were computed on a full-time equivalent basis
- Evidence that temporary jobs were excluded from the jobs

For job creation activities, the subrecipient file should have the following documentation:

- Written agreement between the City and the subrecipient and business that at least low- and moderate-income persons will hold 51% of the (full-time equivalent basis) jobs. The agreement should list job title of the permanent jobs to be created and identifying which are part-time, if any.
- Evidence of all the jobs created that will result from the CDBG-activity have been created (as in there will be no more hires because all positions filled)
- The total number of jobs that were actually created
- Number of jobs created taken by low/mod persons
- At least 51% of the jobs have been taken by low/mod persons
- Number of jobs created claimed to have been made available to low/mod persons but not taken by low/mod persons
- Evidence that the number of jobs taken by low/mod persons plus the number of jobs available to low/mod persons resulted in at least 51% of the total jobs created being taken by or available to low/mod persons
- Evidence that jobs were made available to low/mod persons (e.g., that first consideration was given to low/mod persons or special recruitment efforts directed to low/mod persons).
- For jobs made available, the agreement between the City/subrecipient and the business should note the job title of the permanent jobs to be created; whether those jobs are part-time; whether those jobs require special skills or education and that the business will provide training opportunities;
- If special skills for the job were required, evidence that the business offered training opportunities;
- Evidence that the City/subrecipient or the business has a means to track the number of jobs created and held by low/mod persons; and,
- Evidence that the incomes of persons said to have been low/mod beneficiaries.

RECORDKEEPING

For job retention activities, the subrecipient's files should have the following documentation:

- When CDBG assistance was first provided to the project.
- Evidence from the business that shows that jobs would have been lost without the CDBG assistance.
- Number of jobs retained.
- Number of jobs retained held by low/mod persons at the time CDBG assistance was provided.
- Evidence that at least 51% of the jobs retained were held by low/mod persons.
- Whether there was job turnover required to meet the 51% requirement (if no job turnover required, jobs requirement not met).
- If it has been at least 2 years since CDBG assistance was provided, the number of jobs retained that have turned over and been taken by low/mod persons; Number of retained jobs claimed as benefiting low/mod persons because they were made available to such persons at the time the job turned over.

(Note: there is no discussion in this chapter on documenting low and moderate-income benefit on an area basis because there are currently no census tracts or block groups that meet the definition of low- and moderate-income. Also this guide does not have information on urgent need nor slum & blight national objective documentation because the City has not had any projects that have met the requirements for these national objectives.)

Eligible Activity Documentation

While there is no specific eligible activity record-keeping checklist, it is important to be sure that the activity is actually eligible and each activity file has an accurate description of the activity, the beneficiaries, the location of the activity, and the scope of work/services provided.

Other Federal Requirements Documentation

There are several other miscellaneous requirements that must be adhered to, such as compliance with Fair Labor Standards, Section 3 Hiring Opportunities for Low & Moderate-income persons, procurement standards, and contract standards. The Arlington County Department, which monitors the City's CDBG program, provides documentation on what guidance they seek in compliance with these items. Refer to the "General Standards and Guidelines for Subrecipients," included at the end of this chapter for a list of the reporting and record-keeping requirements.

Grant Closeout

At the end of the fiscal year, be sure to inset a sheet in the file that summarizes the status of the activity (i.e., activity completed, activity not completed, activity did not draw down funds, etc.). Also, be sure that the balance sheet for each activity reflects the correct amount of funds actually drawn. Finally, insert a final a balance sheet for all activities in the general CDBG file for that fiscal year, as noted in the last attachment of this chapter.

The City, however, may request the SUBRECIPIENT to have a limited scope audit for monitoring purposes. These limited scope audits will be paid for and arranged by the City and address only one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, earmarking; and, reporting.

All reports presented to the City shall, where applicable, include sufficient information to provide a proper perspective for judging the prevalence and consequences of the findings, such as whether an audit finding represents an isolated instance or a systemic problem.
