

AutoZone Store #6365  
Pompano Beach, Fl

Legend: Crime Prevention Through Environmental Design

Principle 1: Surveillance

- 1A: The building is located near the streets and exterior doors are clearly visible
- 1B: Front building façade has clear windows.
- 1C: Only the storefront doors can be utilized without a key. All other doors need a key to open the exterior
- 1D: The store has an open floor plan and the only internal doors are for the restroom.

Principle 2: Natural Access Control

- 2A: Bollards are provided for public safety entering the store.
- 2B: There are no dead-end spaces being created by the design
- 2C: There is only one public access to the building

Principle 3: Territorial Reinforcement

- 3A: Property lines are defined with low landscaping
- 3B: The main entrance is accentuated architecturally and shall be illuminated
- 3C: Street numbers shall be 3" high minimum
- 3D: There are no exterior furnishings.

Principle 4: Maintenance

- 4A: Common areas and all landscaping shall be professionally maintained to industry standards
- 4B: Outdoor storage of any type shall be strictly prohibited and enforced

Other Considerations

- GA: The security system shall include electronic access control, digital cameras and full time monitoring of building entrances, all doors and windows
- GB: Parking lot will be illuminated during store hours
- GC: All glazing shall be impact-resistant laminated glass
- GD: Any security breach during non-open hours will trigger all lights interior and exterior to turn on.
