
To the authorities of the City of Pompano Beach,

I have been informed of the 42 luxury condominiums project Entourage-in-the-Sun to be built on N. Riverside Drive in Pompano Beach and asked to give my opinion on it.

This project fits perfectly with the dedication, efforts and investments that the City of Pompano Beach has devoted to bring the City and its wonderful beach and Intracoastal area to a higher level of quality of residences, environment and life with the new commercial banners and services who will want to establish themselves among us and thus create new revenues for the City's dynamic program.
