CERTIFICATION:

I, the undersigned, being a licensed surveyor in the State of Florida, do hereby certify to the best of my knowledge and belief that the foregoing is a true and correct copy of the original survey as shown on the plat, and that the survey was made in accordance with the Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, as adopted by the American Land Title Association & American Congress on Surveying & Mapping, in 2005 and set forth in Items 1-4, 6, 7a, 7b, 8-10, 11a, 12, 13 & 14 on Table A that this survey fully and correctly represents a portion of the property owned by Sample of Park Central, LLC, including all above ground buildings, structures and improvements thereon.

I have shown all recorded easements and rights-of-way as described in copies of recorded instruments furnished to me by First American Title Insurance Company Commitment # FA-C-459160-8A and, unless otherwise shown, the physical evidence and recorded description of such easements conform. All of said above ground buildings, structures and improvements, including location and dimensions, are correctly depicted and are fully completed, except as shown hereon.

I further certify that there are no visible easements, rights-of-way across said property, party walls, encroachments on adjoining properties or streets by any of said buildings, structures or improvements or encroachments on said property by buildings, structures or other improvements situated on adjoining property, except as shown hereon; all easements furnished to me by First American Title Insurance Company are shown in their entirety to the extent possible, except as shown or noted hereon, the locations thereof are correct as shown and no above ground improvements are located within the easements areas except utility lines permitted by the terms of such easements, except as shown or noted hereon; there are no above ground streams, rivers, springs, ponds, lakes, ditches or drains located or bordering on or running through said property, except as shown; there are no gaps, gores or overlaps between parcels or roads, highways, streets or alleys and all parcels which comprise the whole property are contiguous.

All public roads, highways, streets and alleys (based on information supplied to me) running adjacent to or upon the property and all public roads to which the property may have indirect access over connecting easements (supplied to me) affecting private property are shown. All physical evidence of boundary lines and lines of possession or occupancy have been shown and proper notification made where in conflict with the legal description; except as shown, there are no boundary line discrepancies and no deficiencies in the quantity of the land described in the legal description, and the acreage shown hereon is correct; the survey was actually made on the ground as per description furnished by the title insurance company.

A physical examination of the property reveals no evidence of cemeteries. Also, this certifies that there are 158 parking spaces on said property, including 8 handicapped spaces. The property is zoned I-1.

The within described real estate lies within Flood Zone AH as shown on Panel Number 125093 0120 F of the Federal Emergency Management Agency's flood insurance rate map, dated August 18, 2010. The surveyed property contains a total of 7.1888 acres and 313,145 square feet.
