**Re: 19-12000016 Festival Marketplace DRC Resubmittal**

Dear City of Pompano Beach Fire Department:

In reference to the noted application, we agree to conduct an indoor radio propagation signal strength model testing to determine if a Bi-Directional Amplifier system will be required for the project. Should a system be required, we agree to construct the system in accordance with all requirements as determine by the City of Pompano Beach and Broward County.

Thank you,

  
Yoram Izhak, MGR
