## 1.0 EXECUTIVE SUMMARY

### 1.1 General Information

**Project Information:**

Proposed City of Pompano Beach Fire Station

**Consultant Information:**

Cherokee Enterprises, Inc.

14474 Commerce Way

Miami Lakes, Florida 33016

**Telephone:** 305-828-3353

**Fax:** 305-828-9317

**Reconnaissance Date:** March 23, 2017

**Site Assessor:** Mr. Charles Overstreet

**Senior Reviewer:** Mr. Jeffrey S. Northrup

**Environmental Professional:** Charles Overstreet

**Site Information:**

1499 Southwest 36<sup>th</sup> Avenue

Pompano Beach, Florida 33069

County: Broward

**Site Access Contact:**

City of Pompano Beach

Chief Michael Hohl

120 Southeast 3<sup>rd</sup> Street

Pompano Beach, Florida 33060

**Client Information:**

City of Pompano Beach

Chief Michael Hohl

120 Southeast 3<sup>rd</sup> Street

Pompano Beach 33060

**Environmental Professional Statement:**

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental Professional* as defined in § 312.10 part of 40 CFR 312. We have the specific qualifications based on education, training and experience to assess a Property of the nature, history and setting of the subject Property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Charles Overstreet

Project Geologist/Environmental Professional

Jeffrey S. Northrup, P.G., CHMM

Director, Technical Services/Environmental Professional

## 1.2 Findings and Conclusions Summary

Cherokee Enterprises, Inc. (CEI) has performed this Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Standard Practice E 1527-13. Any exceptions to, or deletions from, this practice are described in Section 2.0 of this report. This assessment has revealed no evidence of *recognized environmental conditions* in connection with the Property.

FINDINGS AND CONCLUSIONS SUMMARY						
Report Section	Further Action?	De Minimis Condition	Recognized Environmental Condition (REC)	Historical REC	ASTM Non-Scope Condition	Description
4.0 User Provided Information	No					
5.1.1 Federal Database Findings	No					
5.1.2 State and Tribal Database Findings	No					
5.1.3 Local Environmental Record Sources	No					
5.3 Historical Records Sources	No					
6.2 Hazardous Substance Use, Storage and Disposal	No					
6.3 Underground Storage Tanks	No					
6.4 Aboveground Storage Tanks	No					
6.5 Other Petroleum Products	No					
6.6 Polychlorinated Biphenyls (PCBs)	No					
6.7 Unidentified Substance Containers	No					
6.8 Nonhazardous Solid Waste	No					
6.9 Wastewater	No					
6.10 Waste Pits, Ponds and Lagoons	No					
6.11 Sumps	No					
6.12 Septic Systems	No					
6.13 Stormwater Management System	No					
6.14 Wells	No					
7.0 Interviews	No					
8.1 Asbestos-Containing Material (ACM)	No					
8.2 Radon	No					
8.3 Lead in Drinking Water	No					
8.4 Lead-Based Paint (LBP)	No					
8.5 Mold Screening	No					
8.6 Additional User Requested Conditions	No					

### Notable Findings

Several large trees are located throughout the Property; the City of Pompano Beach and/or Broward County may require permits to remove and/or relocate the trees.

## 1.3 Significant Data Gap Summary

The following is a summary of *significant data gaps* identified in this report.

PHASE I ENVIRONMENTAL SITE ASSESSMENT  
Proposed City of Pompano Beach Fire Station  
1499 Southwest 36<sup>th</sup> Avenue  
Pompano Beach, Florida 33069

---

SIGNIFICANT DATA GAP SUMMARY		
Report Section		Description
3.5	Current Uses of Adjoining Properties	No <i>significant data gap</i> identified.
4.2	Environmental Liens or Activity and Use Limitations (AULs)	No <i>significant data gap</i> identified.
5.1	Standard Environmental Records	No <i>significant data gap</i> identified.
5.2	Physical Setting Sources	No <i>significant data gap</i> identified.
5.3	Historical Records Sources	No <i>significant data gap</i> identified.
6.1	Methodology and Limiting Conditions	No <i>significant data gap</i> identified.
7.0	Interviews	None - Since the Property was historical undeveloped land at the time this ESA was prepared, CEI does not consider the lack of interviews as a <i>significant data gap</i> identified.

#### 1.4 Recommendations

This Phase I ESA has revealed no evidence of *recognized environmental conditions* in connection with the Property; and CEI recommends no further environmental assessment at this time. Please note as documented in Section 4.5.1 of ASTM E 1527-13, “No environmental site assessment can wholly eliminate uncertainty regarding the potential *recognized environmental conditions* in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for *recognized environmental conditions* in connection with a property.”

## **2.0 INTRODUCTION**

### **2.1 Purpose**

The purpose of this Phase I ESA was to identify *recognized environmental conditions* and certain potential environmental conditions outside the scope of ASTM Standard Practice E 1527-13 in connection with the proposed location of Fire Station #103 (herein referred to as “the Property”) at the time of the site reconnaissance. This report documents the findings, opinions and conclusions of the Phase I ESA.

### **2.2 Scope**

This Phase I ESA was conducted in general accordance with the ASTM Standard Practice E 1527-13, consistent with a level of care and skill ordinarily practiced by the environmental consulting profession currently providing similar services under similar circumstances. Significant additions, deletions or exceptions to ASTM Standard Practice E 1527-13 are noted below or in the corresponding sections of this report. The scope of this assessment included an evaluation of the following:

- Physical setting characteristics of the Property through a review of referenced sources such as topographic maps and geologic, soils and hydrologic reports.
- Usage of the Property, adjoining properties and surrounding area through a review of referenced historical sources such as fire insurance maps, city directories, aerial photographs, prior reports and interviews.
- Observations and interviews regarding current Property usage and conditions including: the use, treatment, storage, disposal or generation of hazardous substances, petroleum products, hazardous wastes, nonhazardous solid wastes and wastewater.
- Usage of adjoining and surrounding area properties and the likely impact of known or suspected releases of hazardous substances or petroleum products from those properties on the Property.
- Information in referenced environmental agency databases and local environmental records, within the specified approximate minimum search distance from the Property.

The scope of the assessment also included consideration of the following environmental issues or conditions that are beyond the scope of ASTM Standard Practice E 1527-13:

- Radon document review, consisting of the review of published radon data with regard to the potential for elevated levels of radon gas in the surrounding area of the Property.
- Wetlands document review, consisting of a review of a current National Wetlands Inventory map of the surrounding area to note if the Property is identified as having a wetland.
- Flood plain document review, consisting of a review of a reasonably ascertainable flood plain map of the surrounding area to note if the Property is identified as being located within a flood plain.

## 2.3 Significant Assumption

Any assumptions in this report were not considered as having significant impact on the determination of *recognized environmental conditions* associated with the Property.

## 2.4 Limitations and Exceptions

CEI has prepared this Phase I ESA report using reasonable efforts to identify *recognized environmental conditions* associated with hazardous substances or petroleum products at the Property. Findings contained within this report are based on information collected from observations made on the day of the site reconnaissance and from reasonably ascertainable information obtained from certain public agencies and other referenced sources.

The ASTM Standard Practice E 1527-13 recognizes inherent limitations for Phase I ESAs, including, but not limited to:

- *Uncertainty Not Eliminated* – A Phase I ESA cannot completely eliminate uncertainty regarding the potential for *recognized environmental conditions* in connection with any Property.
- *Not Exhaustive* – A Phase I ESA is not an exhaustive investigation of the Property and environmental conditions on such Property.
- *Past Uses of the Property* – Phase I requirements only require review of standard historical sources at five year intervals. Therefore, past uses of Property at less than five year intervals may not be discovered.

Users of this report may refer to ASTM Standard Practice E 1527-13 further information regarding these and other limitations. This report is not definitive and should not be assumed to be a complete and/or specific definition of all conditions above or below grade. Current subsurface conditions may differ from the conditions determined by surface observations, interviews and reviews of historical sources. The most reliable method of evaluating subsurface conditions is through intrusive techniques, which are beyond the scope of this report. Information in this report is not intended to be used as a construction document and should not be used for demolition, renovation, or other Property construction purposes. Any use of this report by any party, beyond the scope and intent of the original parties, shall be at the sole risk and expense of such user.

CEI makes no representation or warranty that the past or current operations at the Property are, or have been, in compliance with all applicable federal, state and local laws, regulations and codes. This report does not warrant against future operations or conditions, nor does it warrant against operations or conditions present of a type or at a location not investigated. Regardless of the findings stated in this report, CEI is not responsible for consequences or conditions arising from facts not fully disclosed to CEI during the assessment.

An independent data research company provided the government agency database referenced in this report. Information on surrounding area properties was requested for approximate minimum search distances and is assumed to be correct and complete unless obviously contradicted by CEI's observations or other credible referenced sources reviewed during the assessment. CEI shall not be liable for any such database firm's failure to make relevant files or documents properly available, to properly index files, or otherwise to fail to maintain or produce accurate or complete records.

CEI used reasonable efforts to identify evidence of aboveground and underground storage tanks and ancillary equipment on the Property during the assessment. “Reasonable efforts” were limited to observation of accessible areas, and review of referenced public records. These reasonable efforts may not identify subsurface equipment or evidence hidden from view by things including, but not limited to, paving, construction activities, stored materials and landscaping.

Any estimates of costs or quantities in this report are approximations for commercial real estate transaction due diligence purposes and are based on the findings, opinions and conclusions of this assessment, which are limited by the scope of the assessment, schedule demands, cost constraints, accessibility limitations and other factors associated with performing the Phase I ESA. Subsequent determinations of costs or quantities may vary from the estimates in this report. The estimated costs or quantities in this report are not intended to be used for financial disclosure related to the Financial Accounting Standards Board (FASB) Statement No. 143, FASB Interpretation No. 47, Sarbanes/Oxley Act or any United States Securities and Exchange Commission reporting obligations, and may not be used for such purposes in any form without the express written permission of CEI.

CEI is not a professional title insurance or land surveyor firm and makes no guarantee, express or implied, that any land title records acquired or reviewed in this report, or any physical descriptions or depictions of the Property in this report, represent a comprehensive definition or precise delineation of Property ownership or boundaries.

The Environmental Professional Statement in Section 1.1 of this report does not “certify” the findings contained in this report and is not a legal opinion of such *Environmental Professional*. The *Environmental Professional* Statement is intended to document CEI’s opinion that an individual meeting the qualifications of an Environmental Professional was involved in the performance of the assessment and that the activities performed by, or under the supervision of, the *Environmental Professional* were performed in conformance with the standards and practices set forth in 40 CFR Part 312 per the methodology in ASTM Standard Practice E 1527-13 and the scope of work for this assessment.

Per ASTM Standard Practice E 1527-13, Section 6, User Responsibilities, the User of this assessment has specific obligations for performing tasks during this assessment that will help identify the possibility of *recognized environmental conditions* in connection with the Property. Failure by the User to fully comply with the requirements may impact their ability to use this report to help qualify for *Landowner Liability Protections* (LLPs) under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CEI makes no representations or warranties regarding a User’s qualification for protection under any federal, state or local laws, rules or regulations.

In accordance with the ASTM Standard Practice E 1527-13, this report is presumed to be valid for a six month period. If the report is older than six months, the following information must be updated in order for the report to be valid: (1) regulatory review, (2) site visit, (3) interviews, (4) specialized knowledge and (5) environmental liens search. Reports older than one year may not meet the ASTM Standard Practice E 1527-13 and therefore, the entire report must be updated to reflect current conditions and Property-specific information.

Other limitations and exceptions that are specific to the scope of this report may be found in corresponding sections.

## **2.5 Special Terms and Conditions (User Reliance)**

This report is for the use and benefit of, and may be relied upon by, the City of Pompano Beach. Any third party agrees by accepting this report that any use or reliance on this report shall be limited by the exceptions and limitations in this report, and with the acknowledgment that actual site conditions may change with time, and that hidden conditions may exist at the property that were not discovered within the authorized scope of the assessment. Any use by or distribution of this report to third parties, without the express written consent of CEI, is at the sole risk and expense of such third party.

Notwithstanding anything to the contrary contained herein, the City of Pompano Beach shall be entitled to rely upon and disclose the report and all amendments and additions thereto and any work of CEI expressly incorporated or referred to therein: (a) to the extent required by law, court order or governmental authority; (b) to the insurers of City of Pompano Beach in respect of any claim or potential claim under any insurance policies of City of Pompano Beach; (c) as required for evidence in court or similar proceedings; or (d) where it is reasonable to do so for the purposes of resolving any actual or potential dispute or claim to which the City of Pompano Beach is a party.

### 3.0 SITE DESCRIPTION

#### 3.1 Location and Legal Description

The Property is located on the northwest corner of Southwest 36<sup>th</sup> Avenue and West McNab Road within the City of Pompano Beach, Broward County, Florida. The Property address is listed as 1499 Southwest 36<sup>th</sup> Avenue. According to the Broward County Property Appraiser's (BCPA) public access website ([www.bcpa.net](http://www.bcpa.net)), the Property is identified by Parcel ID Number 4942 05 06 0091 and the abbreviated legal description of the Property is listed as "Palm-Aire Cypress Course Estates 4<sup>th</sup> SEC 118-36 B POR TR A Described as Comm at NE Corner of Said TR A, SELY 304.44, SWLY 75.54 to POB, SWLY 25.18, SELY 200, SWLY 57.15, W 25, NWLY 61.19, SWLY 50, SWLY 40.79, NLY 91, NELY 209.25, NELY 90 to POB". The BCPA lists Laurence D Locker as the current Property owner.

#### 3.2 Surrounding Area General Characteristics

The surrounding area is characterized by mixed use including commercial/office businesses, industrial/warehousing and manufacturing, and residential. Specific adjacent and abutting parcels are further described in Section 3.5.

#### 3.3 Current Use of the Property

Presently, the Property consists of an irregular-shaped parcel of land, encompassing approximately 43,844 square feet. The Property was undeveloped with the exception of trees and hedges (landscaping) along the Property lines; and several trees on the southern central portion of the Property. At the time of the site inspection, the Property was vacant and covered with low-lying vegetation and trees. At the time of the site reconnaissance, no permanent structures were present on the Property.

#### 3.4 Description of Property Improvements

The Property was undeveloped with the exception of landscaping along the Property lines. The following table provides general descriptions of the Property improvements.

PROPERTY IMPROVEMENTS	
Size of Property (approximate)	43,844 square feet
General Topography of Property	Undulating with a slightly lower elevation than the surrounding areas
Adjoining and/or Access/Egress Roads	Southwest 36 <sup>th</sup> Avenue (abuts the Property to the east) and West McNab Road (abuts the Property to the south)
Paved or Concrete Areas (including parking)	None
Unimproved Areas	The Property was undeveloped.
Landscaped Areas	The entire Property was comprised of grass, weeds, shrubs and trees, which exhibited no signs of staining. Several grassy areas appeared brown, due to lack of water.
Surface Water	None
Potable Water Source	Currently None – Potable water lines are available in the area
Sanitary Sewer Utility	Currently None – Sanitary sewer lines are available in the area
Storm Sewer Utility	None were observed.
Electrical Utility	Florida Power and Light (FPL) – Available in the area
Natural Gas Utility	None
Current Occupancy Status	None

PHASE I ENVIRONMENTAL SITE ASSESSMENT  
Proposed City of Pompano Beach Fire Station  
1499 Southwest 36<sup>th</sup> Avenue  
Pompano Beach, Florida 33069

PROPERTY IMPROVEMENTS	
Unoccupied Buildings/Spaces/Structures	None
Number of Occupied Buildings	None
General Building Description	Not Applicable
Number of Floors	Not Applicable
Total Square Feet of Space (approximate)	Not Applicable
Construction Completion Dates (years)	Not Applicable
Construction Type	Not Applicable
Interior Finishes Description	Not Applicable
Exterior Finishes Description	Not Applicable
Cooling System Type	Not Applicable
Heating System Type	Not Applicable
Emergency Power	Not Applicable

### 3.5 Current Uses of Adjoining Properties

Current uses of the adjoining properties were observed as follows:

Direction from Property	Address	Occupant(s) Name	Current Use	Environmental Conditions
North	None	The Preserve at Palm-Aire – Large Apartment/condominiums complex (retirement community)	Undeveloped (grass and wooded land)	None
South	West McNab Road then numerous residential addresses	Numerous – Residential Community	West McNab Road followed by residential community- Homes	None
East	3581 W. McNab Road	Lindstrom Air	Commercial sales and warehouse	None
West	Numerous - 3701 W. McNab Road	Numerous	The Preserve at Palm-Aire – Large Apartment/condominiums complex – Retirement Community	None

Regulatory findings pertaining to adjacent and other nearby facilities are further discussed in Section 5.1.

#### **4.0 USER PROVIDED INFORMATION**

The following section summarizes information (if any) provided by the City of Pompano Beach (“The User”) with regard to the Phase I ESA.

##### **4.1 Title Records**

The User provided no title records information.

##### **4.2 Environmental Liens or Activity and Use Limitations (AULs)**

The User stated that there are no known environmental liens or activity and use limitations for the Property.

##### **4.3 Specialized Knowledge**

The User provided no specialized knowledge regarding *recognized environmental conditions* associated with the Property.

##### **4.4 Significant Valuation Reduction for Environmental Issues**

The User provided no information regarding a significant valuation reduction for environmental issues associated with the Property.

##### **4.5 Owner, Property Manager and Occupant Information**

The User did not identified any Property owners, managers or occupants. Since the Property is currently and has been historically undeveloped land; CEI does not consider the lack of an owner or Property manager interview as a significant data gap.

##### **4.6 Reason for Performing Phase I ESA**

It is the understanding that this ESA was requested as part of a proposed real estate transaction.

##### **4.7 Other User Provided Documents**

The User did not provide CEI with any prior reports for this assessment.

## 5.0 RECORDS REVIEW

### 5.1 Standard Environmental Records

The regulatory agency database report discussed in this section, provided by Environmental Data Resources Inc. (EDR) of Milford, Connecticut, was reviewed for information regarding reported releases of hazardous substances and petroleum products on or near the Property. CEI also reviewed the “unmappable” (also referred to as “orphan”) listings within the database report, cross-referencing available address information and facility names. Unmappable sites are listings that could not be plotted with confidence, but are potentially in the general area of the Property based on the partial street address, city, or zip code. Any unmappable site that was identified by CEI as a being within the approximate minimum search distance from the Property based on the site reconnaissance and/or cross-referencing to mapped listings, is included in the discussion within this section. The complete regulatory agency database report may be found in Appendix D.

The following is a summary of the findings of the database review.

SUMMARY OF FEDERAL, STATE AND TRIBAL DATABASE FINDINGS			
Regulatory Database	Approx. Minimum Search Distance	Property Listed?	# Sites Listed
Federal National Priority (NPL)	1 mile	No	0
Federal Delisted NPL	½ mile	No	0
Federal Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) list	½ mile	No	4
Federal CERCLIS No Further Remedial Action Planned (NFRAP)	½ mile	No	0
Federal Resource Conservation and Recovery Act (RCRA), Corrective Action facilities (CORRACTS)	1 mile	No	0
Federal RCRIS non- CORRACTS Treatment, Storage, and Disposal Facilities (TSD)	½ mile	No	0
Federal RCRA Hazardous Waste Generators	Property & Adjoining	No	1
Federal Institutional Control/Engineering Control Registry	Property	No	0
Federal Emergency Response Notification System (ERNS) list	Property	No	0
State and Tribal NPL	1 mile	No	0
State and Tribal CERCLIS	½ mile	No	0
State and Tribal Landfill or Solid Waste Disposal Sites	½ mile	No	1
State and Tribal Leaking Underground Storage Tanks (LUST)	½ mile	No	1
State and Tribal Registered Underground Storage Tanks (UST)	Property & Adjoining	No	0
State and Tribal Institutional Control/Engineering Control Registry	Property	No	1
State and Tribal Voluntary Cleanup Site	½ mile	No	0
State and Tribal Brownfield Sites	½ mile	No	0
Priority Cleaners	½ mile	No	0

### **5.1.1 Federal Agency Database Findings**

The Property was not listed in the federal database provide by EDR.

Based on distance, topography, assumed groundwater gradient, current regulatory status, and/or the absence of reported releases, the facilities listed on the federal database are not considered to represent a likely past, present or material threat of release on the Property; and are not a *recognized environmental condition*.

### **5.1.2 State and Tribal Database Findings**

The Property was not listed in the state and tribal database provide by EDR.

As part of this assessment, CEI completed an online inquiry with the Environmental Protection Department (EPD) ENVIROS regarding the availability of regulatory files pertaining to the Property. This inquiry was completed using the EPD ENVIROS website, which allows for electronic access to agency-maintained files.

Based on distance, topography, assumed groundwater gradient, current regulatory status, and/or the absence of reported releases, the facilities listed on the state database are not considered to represent a likely past, present or material threat of release on the Property; and are not a *recognized environmental condition*.

Additional offsite regulatory listings identified on the EDR database report are not expected to pose a significant environmental concern to the Property based on respective distances and/or available regulatory data obtained for the offsite listings.

### **5.1.3 Local Environmental Records Sources**

#### *Local Environmental Department*

The Broward County Pollution Prevention, Remediation and Air Quality Division (PPRAQD) maintain records of storage tanks, pollution incidents, and environmental permits for facilities located throughout the entire county. The PPRAQD is also considered the lead jurisdictional agency in Broward County with respect to monitoring contamination events and enforcing environmental regulations; although, a final determination with respect to whether or not a pollution case is considered closed is made at the state level by the Florida Department of Environmental Protection.

Based on CEI's online review of records that are maintained by the Broward County PPRAQD ENVIROS website for the above listed facilities, CEI does not consider the listed facilities as a *recognized environmental condition* to the Property.

#### *Electrical Utility Company*

CEI's online review of the Florida Power and Light website confirmed that the referenced utility provides electrical service to the surrounding area. One pole-mounted transformer was observed adjacent to the eastern portion of the Property. The transformer was not labeled as containing no PCBs (blue labels). No evidence of leakage or staining attributable to the transformer was identified. Based on observed conditions, the transformer is not expected to pose an environmental concern to the Property.

As a general precaution, it is advised that FPL officials be contacted immediately if the transformers become damaged or show signs of leakage so that appropriate repairs and, if necessary, spill mitigation can be completed by the utility.

#### *Water and Sewer Utility*

Since the Property was undeveloped at the time of this ESA, no potable water or sanitary sewer lines were located on the Property. Based on the site inspection, municipal potable water and sanitary sewer lines are available in the adjacent and surrounding areas.

No National or State Pollution Discharge Elimination System (N/SPDES) permits or industrial wastewater discharge permits were recorded for the Property.

## **5.2 Physical Setting Sources**

### **5.2.1 Topography**

The Property location is depicted on the United States Geological Survey (USGS) 7.5-Minute Series *Fort Lauderdale North, FL* Topographic Quadrangle Map, dated 2012. A review of the referenced map shows that the approximate Property elevation is ten feet above mean sea level. The Property and surrounding area are depicted as being relatively flat with little or no topographic variations. When the referenced topographic map was published, the Property was depicted as undeveloped land. The nearest bodies of water illustrated on the reviewed map are a small canal located approximately 300 feet to the north and a man-made lake located approximately 750 feet north-northeast of the Property. Adjoining parcels were also shown as undeveloped land. A copy of the reviewed topographic map is included in Appendix A.

### **5.2.2 Geology**

According to H.K. Brooks' Guide to the Physiographic Divisions of Florida, the Property is located in the Gold Coast and Florida Bay Physiographic Province, which is a region with generally low relief, underlain by unconsolidated to poorly consolidated sediments and indurated carbonate rocks. Florida is mantled nearly everywhere by unconsolidated sands and carbonaceous soils that overlie a thick sequence of carbonate and clastic rocks. Locally, these sands, carbonaceous soils, and the sedimentary rock sequences form the Surficial Aquifer, which is underlain by the Floridan Aquifer. The former provides significantly large volumes of potable water to South Florida. Nearly all of Florida's groundwater originates from precipitation. Additional factors affecting the discharge of groundwater from the Surficial Aquifer include evapo-transpiration, floodgate controls and over-pumping of wells.

### **5.2.3 Hydrology**

Florida's aquifers vary in depth, composition, and location, and are divided into two general categories: Surficial and Floridan. The surficial aquifers are shallow beds of shells and sand that lie less than 100 feet underground. They are separated from the Floridan aquifer by a confining bed of soil. Some have been contaminated by saltwater, yet they provide most of the public freshwater supply southwest of Lake Okeechobee and along the Atlantic coast north of Palm Beach.

The Surficial (Biscayne) Aquifer is a surficial aquifer located in southeast Florida. It covers over 3,000 square miles, and is the most intensely used water source in Florida, supplying water to Miami-Dade,

Broward, Palm Beach, and Monroe counties. The aquifer lies close to the surface and is extremely vulnerable to pollutants that leach through the shallow limestone bedrock.

No past groundwater investigation has been identified for the Property; thus, no site-specific groundwater information was available. Depth to regional groundwater at the Property; is anticipated to be approximately 8 - 10 feet below ground surface. Regional groundwater flow in the area of the Property is anticipated to be to the east-southeast. Actual groundwater flow and estimated groundwater levels may be influenced by underground structures, surface topography, seasonal fluctuations in rainfall, local usage demands, and soil and bedrock geology, nearby bodies of water, production/irrigation wells or dewatering operations.

The actual groundwater flow direction under the Property can be accurately determined only by installing groundwater monitoring wells, which was beyond the scope of work for this project. Runoff on the Property is expected to percolate to the surficial aquifer.

Based on the review of the Wellfield Protection Zones of Influence in Broward County Map, the Property is not located within the cone of influence of a municipal water wellfield.

#### **5.2.4 Other Physical Setting Sources**

##### *Flood Plain Map*

According to the EDR report, the Property is located in the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) Community Panel Number 12011C0358H. According to the Detail Map contained in the EDR report, the Property is located within a 100-year flood-zone.

A copy of the flood plain overlay map is included in the EDR database report, which is presented Appendix D.

##### *Wetlands Map*

According to the Detail Map contained in the EDR report, the Property is not located within a federally or state designated wetlands area. EDR obtained its wetlands data from the National Wetlands Inventory (NWI), U.S. Fish and Wildlife Service in 2002 and 2005. No indicators of wetland hydrology, hydrophytic vegetation, and hydric soils were noted on the Property and/or surrounding area at the time of the site visit.

CEI also researched the U.S. Fish and Wildlife Service NWI Online Mapper (<http://wetlandsfws.er.usgs.gov/wtlnds/launch.html>) that indicated the Property was not located within a federally or state designated wetlands area.

A copy of the wetland overlay map is included in the EDR database report in Appendix D.

#### **5.3 Historical Records Sources**

The following table summarizes the findings of the research presented below pertaining to historical Property and surrounding area uses.

PHASE I ENVIRONMENTAL SITE ASSESSMENT  
Proposed City of Pompano Beach Fire Station  
1499 Southwest 36<sup>th</sup> Avenue  
Pompano Beach, Florida 33069

HISTORICAL USE SUMMARY				
Period	Identified Historical Uses		Source(s)	Intervals/Comments
	Property	Surrounding Area		
Prior to 1940	Presumed undeveloped and naturally vegetated	Presumed undeveloped and naturally vegetated	1921 and 1926 city directories. No additional information was obtained for the Property, prior to 1940 (an acknowledged data failure).	The acknowledged data failure is not considered significant based on a review of post-1940 historical resources.
1940-1960	Undeveloped and naturally vegetated	Undeveloped and naturally vegetated	1948, 1949, 1951, 1953, 1955, 1957 and 1958 city directories; 1947, 1949, 1953 and 1958 aerial photographs; and 1945 and 1949 USGS topographic maps.	No concerns
1961-1980	Undeveloped and naturally vegetated	Undeveloped and naturally vegetated	1961, 1962, 1965, 1970, 1973, 1975, 1979 and 1980 city directories; 1962, 1969 and 1973 USGS topographic maps; 1961, 1968, 1973, and 1976 aerial photographs	No concerns

PHASE I ENVIRONMENTAL SITE ASSESSMENT  
Proposed City of Pompano Beach Fire Station  
1499 Southwest 36<sup>th</sup> Avenue  
Pompano Beach, Florida 33069

HISTORICAL USE SUMMARY				
Period	Identified Historical Uses		Source(s)	Intervals/Comments
	Property	Surrounding Area		
1981 to present	<p>Undeveloped and naturally vegetated.</p> <p>The 1992 aerial photograph illustrated that the Property had been cleared of the heavy vegetation (woods) and was covered with low-lying vegetation and several trees (similar to present day conditions)</p>	<p>Undeveloped and naturally vegetated to the north, east (across SW 36th Avenue) and west of the Property.</p> <p>The 1981 aerial photograph illustrated the residential community to the south (across West McNab Road) and the current building to the southeast of the Property. The 1988 aerial photograph illustrates the current Lindstrom Air building to the east of the Property.</p> <p>The 1992 aerial photograph illustrates the Preserve at Palm-Aire facility to the west of the Property. Similar to present-day area configurations.</p>	<p>1985, 1986, 1990, 1999, 2005 and 2010 city directories; 1983, 1995 and 2012 USGS topographic map; 1981-2016 aerial photographs; EDR database report and Broward County ENVIROS website.</p>	No concerns

### 5.3.1 Aerial Photographs

CEI ordered and reviewed available aerial photographs of the Property, which were provided by EDR. These aerials ranged from 1947 through 2010. Applicable aerials dated prior to 1947 were not available from the referenced sources. Also, CEI reviewed available aerial photographs of the Property and surrounding area for the years 1998 through 2016 from the BCPA website.

Similarly, breaches in the sequence of reviewed photographs are the result of the limitations of the referenced collections. Pertinent findings and interpretations from the aerial photograph reviews are summarized in the table below.

AERIAL PHOTOGRAPH REVIEW SUMMARY		
Year	Scale	Comments
1947, 1949, 1953, 1958, 1961, 1968 1973 and 1976	1 inch = 500 feet	<b>Property:</b> The Property was undeveloped land covered with vegetation. <b>Surrounding Area:</b> The adjacent properties were undeveloped land covered with vegetation. West McNab Road ended at SW 36 <sup>th</sup> Avenue (not constructed) on the 1973 aerial photograph. Also the canal located to the north of the Property and been constructed (1973). The man-made lake located to the north-northeast of the Property was being constructed (1973).
1981	1 inch = 500 feet	<b>Property:</b> The Property was undeveloped land covered with heavy vegetation. <b>Surrounding Area:</b> The northern adjacent area was covered with vegetation. SW 36 <sup>th</sup> Avenue appeared to be under construction followed by undeveloped land to the east. West McNab Road appeared to be under construction followed by the residential community to the south. A large building (present day) was observed to the southeast of the Property. Undeveloped land to the west.
1988	1 inch = 500 feet	<b>Property:</b> The Property was undeveloped land covered with heavy vegetation. <b>Surrounding Area:</b> The northern adjacent area was covered with vegetation. SW 36 <sup>th</sup> Avenue followed by the current Lindstorm Air building and undeveloped land to the east. West McNab Road followed by the residential community to the south. A large building (present day) was observed to the southeast of the Property. Undeveloped land to the west.
1992	1 inch = 500 feet	<b>Property:</b> The Property was undeveloped land cleared of most of the heavy vegetation. The Property appeared to be covered with grass and a few trees. <b>Surrounding Area:</b> No significant changes to the surrounding area with the exception of the construction of the Preserve at Palm-Aire to the west. The surrounding areas were developed to present-day configurations - as described in Section 3.5.
1999, 2005, 2006, 2007, 2010, 2011, 2012, 2015, 2016 and 2017	1 inch = 500 feet	<b>Property:</b> The Property appeared to be covered with grass and a few trees. Similar to the conditions observed on the day of the site inspection. <b>Surrounding Area:</b> The surrounding areas were developed to present-day configurations - as described in Section 3.5.

In summary, no *recognized environmental conditions* were evident from a review of the referenced photographs. Copies of the 2006, 2010, 2013 and 2016 aerial photographs obtained on-line at the Broward County Property Appraiser's website and additional Property information are included in Appendix H. The aerial photographs obtained from EDR are included in Appendix E.

### 5.3.2 Fire Insurance Maps

A search for fire insurance maps for the Property and surrounding area was conducted by EDR, acting on behalf of CEI. According to EDR, no such maps were published for the Property area. The EDR “no coverage” letter is included in Appendix F.

### 5.3.3 Property Tax Files

CEI reviewed available tax files online using the Broward County Property Appraiser website. This review disclosed that the current Property owner, Laurence D Locker, acquired the Property on October 14, 2002, as recorded in Deed Book 33949, Page 335. No prior owners were listed in the appraisal summary.

### 5.3.4 Recorded Land Title Records

EDR conducted an Environmental Lien/AUL search as part of this assessment. Based on the information provided in the EDR database report, no federal institutional controls or engineering controls were listed for the Property or adjacent sites. Furthermore, the Property and adjacent sites were not listed on the Florida Department of Protection’s Institutional Controls Registry website. Mr. Laurence D Locker received title via a warranty Deed from Mr. Peter F Merkle recorded on October 14, 2002. A copy of the EDR Environmental Lien and AUL Search report is included in Appendix F.

### 5.3.5 Historical USGS Topographic Quadrangles

CEI reviewed available historical USGS Topographic Quadrangles for information regarding past uses of the Property. USGS topographic maps were supplied by EDR and were available for the years 1945, 1949, 1962, 1969, 1973, 1983, 1995 and 2012. Pertinent findings and interpretations from the reviewed topographic maps are summarized in the table below.

USGS TOPOGRAPHIC MAP REVIEW SUMMARY		
Year	Scale	Comments
1945 and 1949	1 inch = 24,000 feet	<b>Property:</b> The Property was depicted as an undeveloped wetlands. <b>Surrounding Area:</b> Adjacent parcels were similarly undeveloped wetlands.
1962, 1969 and 1973	1 inch = 24,000 feet	<b>Property:</b> The Property is illustrated as undeveloped land. <b>Surrounding Area:</b> Adjacent parcels are illustrated as undeveloped land.
1983	1 inch = 24,000 feet	<b>Property:</b> The Property is illustrated as undeveloped land. <b>Surrounding Area:</b> SW 36 <sup>th</sup> Avenue to the east followed by undeveloped land. West McNab Road to the south followed by the residential community. Undeveloped land to the north and west of the Property.
1995 and 2012	1 inch = 24,000 feet	<b>Property:</b> The Property is illustrated as undeveloped land. <b>Surrounding Area:</b> SW 36 <sup>th</sup> Avenue to the east followed by undeveloped land. West McNab Road to the south followed by the residential community. Undeveloped land to the north and west of the Property.

In summary, the referenced USGS topographic maps showed that the Property as undeveloped land. The adjacent parcels are shown as undeveloped land in 1945 - 1973. The Property and adjacent parcels were shown as either undeveloped or urban land in the 1983, 1995 and 2012 USGS topographic maps. No environmental concerns or *recognized environmental conditions* were evident from a review of the referenced topographic maps. The reviewed USGS Topographic maps are included in Appendix F.

### **5.3.6 City Directories**

Research regarding the availability of historical city directories was conducted on behalf of CEI by EDR. According to EDR, city directories were published for the years 1921, 1926, 1948, 1949, 1951, 1953, 1955, 1957, 1958, 1961, 1962, 1965, 1970, 1973, 1975, 1979, 1980, 1985, 1986, 1990, 1999, 2005, 2010 and 2014.

The Property was not listed in the referenced city directories. The EDR city directory abstract did not disclose any adjacent listings of concern. The reviewed city directory abstract is included in Appendix F.

### **5.3.8 Zoning/Land Use Records**

Available zoning and land use records were previously summarized in Section 5.1.3.

### **5.3.9 Prior Reports**

CEI was not provided any prior reports for the Property during this assessment.

### **5.3.10 Other Historical Sources**

No other historical sources were reviewed.

## **6.0 SITE RECONNAISSANCE**

The following is a summary of visual and/or physical observations of the Property on the day of the site visit. Photographs taken during the site reconnaissance are presented in Appendix C.

### **6.1 Methodology and Limiting Conditions**

The Property reconnaissance was conducted by CEI Project Geologist, Charles Overstreet. Mr. Overstreet was unescorted during the Property visit. The weather was sunny and warm, which allowed for favorable viewing conditions. The site reconnaissance consisted of visual and/or physical observations of: the Property and improvements; adjoining sites as viewed from the Property; and a view of the larger surrounding area based on visual observations made during the trip to and from the Property. Unimproved portions of the Property were observed along the perimeter and in a general grid pattern in safely accessible areas. No access restrictions were encountered or imposed.

### **6.2 Hazardous Substance Use, Storage, and Disposal**

At the time of the Property reconnaissance, CEI did not observe the storage, use or disposal of hazardous substances on the Property.

### **6.3 Underground Storage Tanks (USTs)**

At the time of the Property reconnaissance, CEI did not observe evidence of USTs on the Property.

### **6.4 Aboveground Storage Tanks (ASTs)**

At the time of the Property reconnaissance, CEI did not observe evidence of ASTs on the Property.

### **6.5 Other Petroleum Products**

At the time of the Property reconnaissance, CEI did not observe evidence of petroleum product storage or use on the Property.

### **6.6 Polychlorinated Biphenyls (PCBs)**

CEI did not observe evidence of the use, storage or disposal of PCB-containing transformers, hydraulic lifts, or other equipment on the Property.

One pole-mounted transformer was observed adjacent to the southeastern corner of the Property. The transformer was not labeled (no PCBs - blue labels). The transformer appeared in good condition with no evidences of leakage or staining attributable to the transformer. Based on observed condition, the transformer is not expected to pose an environmental concern to the Property.

As a general precaution, it is advised that FPL officials be contacted immediately if the transformers become damaged or show signs of leakage so that appropriate repairs and, if necessary, spill mitigation can be completed by the utility.

No other equipment suspected of containing PCBs was observed at the Property.

## **6.7 Unidentified Substance Containers**

At the time of the Property reconnaissance, CEI did not observe any unidentified substance containers on the Property.

## **6.8 Nonhazardous Solid Waste**

CEI observed small amounts of trash (litter) around several of the on-site trees. Based on observed conditions, CEI concludes that the trash does not represent *recognized environmental conditions*.

## **6.9 Wastewater**

At the time of the site reconnaissance no waste water was being discharged at the Property. Since the Property has been undeveloped land since at least 1947, CEI does not anticipate any buried former underground pipes. No processes that result in the generation of industrial wastewater or would likely require the filing of a National or State Pollution Discharge Elimination System (N/SPDES) Permit were identified at the Property.

## **6.10 Waste Pits, Ponds and Lagoons**

CEI did not observe evidence of waste pits, ponds or lagoons on the Property.

## **6.11 Sumps**

CEI did not observe evidence of sumps on the Property.

## **6.12 Septic Systems**

CEI did not observe evidence of a septic system on the Property.

## **6.13 Stormwater Management System**

CEI did not observe any stormwater drains on the Property. Stormwater runoff appeared to be maintained on the Property.

## **6.14 Wells**

CEI did not observe evidence of any wells on the Property.

## **7.0 INTERVIEWS**

CEI did not conduct any interviews during the preparation of this Phase I ESA. Since the Property has been undeveloped/vacant Property since at least 1947 through the time this report was prepared, CEI does not consider the lack of interviews as a data gap.

It should be noted that additional regulatory records were procured by CEI using online resources, which did not necessitate interviews. Regulatory findings were presented in Sections 5.1.1 through 5.1.3 and utilized references are summarized in Section 9.0.

## **8.0 OTHER ENVIRONMENTAL CONDITIONS**

### **8.1 Asbestos-Containing Material (ACM)**

Based on the scope of work for this Phase I ESA, a formal ACM survey was not performed.

### **8.2 Radon**

Radon is a naturally occurring colorless, odorless gas that is a by-product of the decay of radioactive materials potentially present in bedrock and soil. The EPA guidance action level for annual residential exposure to radon is 4.0 picoCuries per liter of air (pCi/L). The guidance action level is not a regulatory requirement for private owners of commercial real estate, but is commonly used for comparison purposes to suggest whether further action at a building may be prudent.

CEI's review of published radon data indicates that the Property is located in EPA-designated Zone 3 – an area of low propensity with regard to the potential for elevated levels of radon gas. Zone 3 areas are predicted to have an average indoor level of less than 2.0 pCi/L. Specific data compiled throughout Broward County revealed that 98 percent of 180 indoor tests yielded results that were less than 4.0 pCi/L, and the average result was 0.730 pCi/L.

Based on the published propensity data, no onsite radon testing was performed.

### **8.3 Lead in Drinking Water**

Since the Property was undeveloped, no potable water was provided to the Property.

### **8.4 Lead-Based Paint (LBP)**

Based on the scope of work for this Phase I ESA and since there were no permanent structures on the Property at the time of the site reconnaissance, LBP was not addressed for this Phase I ESA and no additional investigation pertaining to LBP is recommended at this time.

### **8.5 Mold Screening**

The performance of a formal mold screening was beyond the scope of this assessment.

### **8.6 Additional User Requested Conditions**

No additional user conditions were requested for evaluation for this assessment.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

FL RGA LUST..... Recovered Government Archive Leaking Underground Storage Tank

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal CERCLIS list***

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 10/10/2016 has revealed that there are 4 SEMS sites within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

#### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has

## EXECUTIVE SUMMARY

determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 10/10/2016 has revealed that there are 23 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

### ***Federal RCRA generators list***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 3 RCRA-SQG sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 2 RCRA-CESQG sites within approximately 0.25 miles of the target property.

### **State and tribal landfill and/or solid waste disposal site lists**

FL SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Environmental Protection's Facility Directory (Solid Waste Facilities).

A review of the FL SWF/LF list, as provided by EDR, has revealed that there is 1 FL SWF/LF site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

### **State and tribal leaking storage tank lists**

FL LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Protection's PCTO1--Petroleum Contamination Detail Report.

A review of the FL LUST list, as provided by EDR, and dated 10/06/2016 has revealed that there is 1 FL LUST site within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

### **State and tribal registered storage tank lists**

FL UST: The Underground Storage Tank database contains registered USTs. Shortly after the September 11 event, the DEP was instructed to remove the detail about some of the storage tank facilities in the state from their reports. Federal-owned facilities and bulk storage facilities are included in that set.

A review of the FL UST list, as provided by EDR, has revealed that there is 1 FL UST site within approximately 0.25 miles of the target property.

### **State and tribal institutional control / engineering control registries**

FL INST CONTROL: The registry is a database of all contaminated sites in the state of Florida which are subject to institutional and engineering controls.

A review of the FL INST CONTROL list, as provided by EDR, and dated 12/04/2016 has revealed that there is 1 FL INST CONTROL site within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

Facility-Site Id: NF-0346

### ADDITIONAL ENVIRONMENTAL RECORDS

#### ***Local Lists of Hazardous waste / Contaminated Sites***

FL FI Sites: This summary status report is a compilation and revision of other existing lists. It was developed from a number of lists including the Eckhardt list, the Moffit list, the EPA Hazardous Waste Sites list, EPA's Emergency and Remedial Response Information System list (RCRA Section 3012), and existing department lists such as the Obsolete Uncontrolled Hazardous Waste Sites list. The purpose of this list is to track the progress of activities within and outside the department as they relate to the listed sites. It is not a list of uncontrolled sites or sources causing environmental contamination. The Sites List comes from the Department of Environmental Protection.

A review of the FL FI Sites list, as provided by EDR, and dated 12/31/1989 has revealed that there is 1 FL FI Sites site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

#### ***Other Ascertainable Records***

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/12/2016 has revealed that there are 6 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

FL DWM CONTAM: A listing of active or known sites. The listing includes sites that need cleanup but are not actively being working on because the agency currently does not have funding (primarily petroleum and drycleaning).

A review of the FL DWM CONTAM list, as provided by EDR, and dated 09/30/2015 has revealed that there is 1 FL DWM CONTAM site within approximately 0.5 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### ***EDR Exclusive Records***

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
Not reported	6835 NW 21ST TER	S 0 - 1/8 (0.102 mi.)	8	14

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist

## EXECUTIVE SUMMARY

**FINDS:**

Registry ID: 110001411320

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Registry ID: 110002542008

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

**FINDS:**

Registry ID: 110002534678

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

### ***Federal NPL site list***

#### **NPL: National Priority List**

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/05/2016	Source: EPA
Date Data Arrived at EDR: 01/05/2017	Telephone: N/A
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 29	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Quarterly

#### **Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/05/2016	Source: EPA
Date Data Arrived at EDR: 01/05/2017	Telephone: N/A
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 29	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Quarterly

#### **NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 08/15/2011
Number of Days to Update: 56	Next Scheduled EDR Contact: 11/28/2011
	Data Release Frequency: No Update Planned

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### ***Federal Delisted NPL site list***

#### Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/05/2016	Source: EPA
Date Data Arrived at EDR: 01/05/2017	Telephone: N/A
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 29	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Quarterly

### ***Federal CERCLIS list***

#### FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 09/14/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 10/04/2016	Telephone: 703-603-8704
Date Made Active in Reports: 10/21/2016	Last EDR Contact: 01/05/2017
Number of Days to Update: 17	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Varies

#### SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/10/2016	Source: EPA
Date Data Arrived at EDR: 10/20/2016	Telephone: 800-424-9346
Date Made Active in Reports: 01/06/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 78	Next Scheduled EDR Contact: 05/01/2017
	Data Release Frequency: Quarterly

### ***Federal CERCLIS NFRAP site list***

#### SEMS-ARCHIVE: Superfund Enterprise Management System Archive

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 10/10/2016	Source: EPA
Date Data Arrived at EDR: 10/20/2016	Telephone: 800-424-9346
Date Made Active in Reports: 01/06/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 78	Next Scheduled EDR Contact: 05/01/2017
	Data Release Frequency: Quarterly

### ***Federal RCRA CORRACTS facilities list***

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 12/12/2016	Source: EPA
Date Data Arrived at EDR: 12/28/2016	Telephone: 800-424-9346
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Quarterly

### ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Quarterly

### ***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Quarterly

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Quarterly

### RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 03/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017
	Data Release Frequency: Varies

### ***Federal institutional controls / engineering controls registries***

#### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 05/28/2015	Source: Department of the Navy
Date Data Arrived at EDR: 05/29/2015	Telephone: 843-820-7326
Date Made Active in Reports: 06/11/2015	Last EDR Contact: 02/13/2017
Number of Days to Update: 13	Next Scheduled EDR Contact: 05/29/2017
	Data Release Frequency: Varies

#### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 11/15/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/29/2016	Telephone: 703-603-0695
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 02/28/2017
Number of Days to Update: 66	Next Scheduled EDR Contact: 06/12/2017
	Data Release Frequency: Varies

#### US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 11/15/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 11/29/2016	Telephone: 703-603-0695
Date Made Active in Reports: 02/03/2017	Last EDR Contact: 02/28/2017
Number of Days to Update: 66	Next Scheduled EDR Contact: 06/12/2017
	Data Release Frequency: Varies

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***Federal ERNS list***

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 09/26/2016

Date Data Arrived at EDR: 09/29/2016

Date Made Active in Reports: 11/11/2016

Number of Days to Update: 43

Source: National Response Center, United States Coast Guard

Telephone: 202-267-2180

Last EDR Contact: 12/28/2016

Next Scheduled EDR Contact: 04/10/2017

Data Release Frequency: Annually

## ***State- and tribal - equivalent CERCLIS***

SHWS: Florida's State-Funded Action Sites

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 11/04/2016

Date Data Arrived at EDR: 11/22/2016

Date Made Active in Reports: 01/18/2017

Number of Days to Update: 57

Source: Department of Environmental Protection

Telephone: 850-488-0190

Last EDR Contact: 02/24/2017

Next Scheduled EDR Contact: 06/05/2017

Data Release Frequency: Semi-Annually

## ***State and tribal landfill and/or solid waste disposal site lists***

SWF/LF: Solid Waste Facility Database

Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 01/18/2017

Date Data Arrived at EDR: 01/19/2017

Date Made Active in Reports: 02/15/2017

Number of Days to Update: 27

Source: Department of Environmental Protection

Telephone: 850-922-7121

Last EDR Contact: 01/19/2017

Next Scheduled EDR Contact: 05/01/2017

Data Release Frequency: Semi-Annually

## ***State and tribal leaking storage tank lists***

LAST: Leaking Aboveground Storage Tank Listing

The file for Leaking Aboveground Storage Tanks. Please remember STCM does not track the source of the discharge so the agency provides a list of facilities with an aboveground tank and an open discharge split by facilities with aboveground tanks only and facilities with aboveground and underground tanks.

Date of Government Version: 11/14/2016

Date Data Arrived at EDR: 11/15/2016

Date Made Active in Reports: 11/21/2016

Number of Days to Update: 6

Source: Department of Environmental Protection

Telephone: 850-245-8799

Last EDR Contact: 01/30/2017

Next Scheduled EDR Contact: 05/08/2017

Data Release Frequency: Varies

LUST: Petroleum Contamination Detail Report

Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records, and the information stored varies by state.

Date of Government Version: 10/06/2016

Date Data Arrived at EDR: 11/02/2016

Date Made Active in Reports: 12/01/2016

Number of Days to Update: 29

Source: Department of Environmental Protection

Telephone: 850-245-8839

Last EDR Contact: 02/01/2017

Next Scheduled EDR Contact: 05/08/2017

Data Release Frequency: Quarterly

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

INDIAN LUST R9: Leaking Underground Storage Tanks on Indian Land  
LUSTs on Indian land in Arizona, California, New Mexico and Nevada

Date of Government Version: 02/25/2016	Source: Environmental Protection Agency

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### INDIAN UST R9: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 9 (Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations).

Date of Government Version: 02/25/2016	Source: EPA Region 9
Date Data Arrived at EDR: 04/27/2016	Telephone: 415-972-3368
Date Made Active in Reports: 06/03/2016	Last EDR Contact: 01/26/2017
Number of Days to Update: 37	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Quarterly

### INDIAN UST R8: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 8 (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming and 27 Tribal Nations).

Date of Government Version: 01/26/2016	Source: EPA Region 8
Date Data Arrived at EDR: 02/05/2016	Telephone: 303-312-6137
Date Made Active in Reports: 06/03/2016	Last EDR Contact: 01/26/2017
Number of Days to Update: 119	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Quarterly

### INDIAN UST R7: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 7 (Iowa, Kansas, Missouri, Nebraska, and 9 Tribal Nations).

Date of Government Version: 09/23/2014	Source: EPA Region 7
Date Data Arrived at EDR: 11/25/2014	Telephone: 913-551-7003
Date Made Active in Reports: 01/29/2015	Last EDR Contact: 01/26/2017
Number of Days to Update: 65	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### INDIAN UST R6: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 6 (Louisiana, Arkansas, Oklahoma, New Mexico, Texas and 65 Tribes).

Date of Government Version: 12/03/2015	Source: EPA Region 6
Date Data Arrived at EDR: 02/04/2016	Telephone: 214-665-7591
Date Made Active in Reports: 06/03/2016	Last EDR Contact: 01/26/2017
Number of Days to Update: 120	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Semi-Annually

### INDIAN UST R5: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 5 (Michigan, Minnesota and Wisconsin and Tribal Nations).

Date of Government Version: 11/05/2015	Source: EPA Region 5
Date Data Arrived at EDR: 11/13/2015	Telephone: 312-886-6136
Date Made Active in Reports: 01/04/2016	Last EDR Contact: 01/26/2017
Number of Days to Update: 52	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### INDIAN UST R4: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 4 (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee and Tribal Nations)

Date of Government Version: 02/05/2016	Source: EPA Region 4
Date Data Arrived at EDR: 04/29/2016	Telephone: 404-562-9424
Date Made Active in Reports: 06/03/2016	Last EDR Contact: 01/24/2017
Number of Days to Update: 35	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Semi-Annually

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### INDIAN UST R1: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 1 (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont and ten Tribal Nations).

Date of Government Version: 10/20/2015	Source: EPA, Region 1
Date Data Arrived at EDR: 10/29/2015	Telephone: 617-918-1313
Date Made Active in Reports: 01/04/2016	Last EDR Contact: 01/26/2017
Number of Days to Update: 67	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### TANKS: Storage Tank Facility List

This listing includes storage tank facilities that do not have tank information. The tanks have either be closed or removed from the site, but the facilities were still registered at some point in history.

Date of Government Version: 10/06/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 11/02/2016	Telephone: 850-245-8841
Date Made Active in Reports: 12/01/2016	Last EDR Contact: 02/01/2017
Number of Days to Update: 29	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Quarterly

### ***State and tribal institutional control / engineering control registries***

#### ENG CONTROLS: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

Date of Government Version: 12/04/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 01/05/2017	Telephone: 850-245-8927
Date Made Active in Reports: 01/23/2017	Last EDR Contact: 01/05/2017
Number of Days to Update: 18	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Semi-Annually

#### Inst Control: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to institutional and engineering controls.

Date of Government Version: 12/04/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 01/05/2017	Telephone: 850-245-8927
Date Made Active in Reports: 01/23/2017	Last EDR Contact: 01/05/2017
Number of Days to Update: 18	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Semi-Annually

### ***State and tribal voluntary cleanup sites***

#### VCP: Voluntary Cleanup Sites

Listing of closed and active voluntary cleanup sites.

Date of Government Version: 11/18/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 11/21/2016	Telephone: 850-245-8705
Date Made Active in Reports: 01/23/2017	Last EDR Contact: 02/21/2017
Number of Days to Update: 63	Next Scheduled EDR Contact: 06/05/2017
	Data Release Frequency: Varies

#### INDIAN VCP R1: Voluntary Cleanup Priority Listing

A listing of voluntary cleanup priority sites located on Indian Land located in Region 1.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 07/27/2015  
Date Data Arrived at EDR: 09/29/2015  
Date Made Active in Reports: 02/18/2016

### **State and tribal Brownfields sites**

#### BROWNFIELDS AREAS: Brownfields Areas Database

A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

Date of Government Version: 12/28/2016  
Date Data Arrived at EDR: 01/05/2017  
Date Made Active in Reports: 01/17/2017  
Number of Days to Update: 12

Source: Department of Environmental Protection  
Telephone: 850-245-8934  
Last EDR Contact: 01/05/2017  
Next Scheduled EDR Contact: 04/17/2017  
Data Release Frequency: Quarterly

#### BSRA: Brownfield Site Rehabilitation Agreements Listing

The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP's Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans. It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.

Date of Government Version: 12/28/2016

Number of Days to Update: 12

Source: Department of Environmental Protection  
Telephone: 850-245-8927  
Last EDR Contact: 01/05/2017  
Next Scheduled EDR Contact: 04/17/2017  
Data Release Frequency: Semi-Annually

### **ADDITIONAL ENVIRONMENTAL RECORDS**

#### **Local Brownfield lists**

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/19/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/20/2016	Telephone: 202-566-2777

Data Release Frequency: No Update Planned

#### **US CDL: Clandestine Drug Labs**

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 09/30/2016

Number of Days to Update: 79	Next Scheduled EDR Contact: 05/29/2017
	Data Release Frequency: Quarterly

### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013  
Date Data Arrived at EDR: 03/03/2015  
Date Made Active in Reports: 03/09/2015

Last EDR Contact: 02/10/2017  
Next Scheduled EDR Contact: 05/22/2017  
Data Release Frequency: Varies

### TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2012  
Date Data Arrived at EDR: 01/15/2015  
Date Made Active in Reports: 01/29/2015  
Number of Days to Update: 14

Source: EPA  
Telephone: 202-260-5521  
Last EDR Contact: 12/23/2016  
Next Scheduled EDR Contact: 04/03/2017  
Data Release Frequency: Every 4 Years

### TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2014  
Date Data Arrived at EDR: 11/24/2015  
Date Made Active in Reports: 04/05/2016  
Number of Days to Update: 133

Source: EPA  
Telephone: 202-566-0250  
Last EDR Contact: 02/24/2017  
Next Scheduled EDR Contact: 06/05/2017  
Data Release Frequency: Annually

### SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009  
Date Data Arrived at EDR: 12/10/2010  
Date Made Active in Reports: 02/25/2011  
Number of Days to Update: 77

Next Scheduled EDR Contact: 06/19/2017  
Data Release Frequency: Annually

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 08/01/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/22/2016	Telephone: 202-564-8600
Date Made Active in Reports: 11/11/2016	Last EDR Contact: 01/23/2017
Number of Days to Update: 81	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104
Date Made Active in Reports: 08/07/1995	Last EDR Contact: 06/02/2008
Number of Days to Update: 35	Next Scheduled EDR Contact: 09/01/2008
	Data Release Frequency: No Update Planned

### PRP: Potentially Responsible Parties

A listing of verified Potentially Responsible Parties

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 10/17/2014	Telephone: 202-564-6023
Date Made Active in Reports: 10/20/2014	Last EDR Contact: 02/10/2017
Number of Days to Update: 3	Next Scheduled EDR Contact: 05/22/2017
	Data Release Frequency: Quarterly

### PADS: PCB Activity Database System

PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 01/20/2016	Source: EPA
Date Data Arrived at EDR: 04/28/2016	Telephone: 202-566-0500

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006  
Date Data Arrived at EDR: 03/01/2007  
Date Made Active in Reports: 04/10/2007  
Number of Days to Update: 40

Last EDR Contact: 02/03/2017  
Next Scheduled EDR Contact: 05/22/2017  
Data Release Frequency: Varies

### UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010

Data Release Frequency: No Update Planned

### US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### DWM CONTAM: DWM CONTAMINATED SITES

A listing of active or known sites. The listing includes sites that need cleanup but are not actively being working on because the agency currently does not have funding (primarily petroleum and drycleaning).

Date of Government Version: 09/30/2015	Source: Department of Environmental Protection
Date Data Arrived at EDR: 10/20/2015	Telephone: 850-245-7503
Date Made Active in Reports: 12/01/2015	Last EDR Contact: 03/09/2017
Number of Days to Update: 42	Next Scheduled EDR Contact: 04/24/2017
	Data Release Frequency: Varies

### Financial Assurance 1: Financial Assurance Information Listing

A list of hazardous waste facilities required to provide financial assurance under RCRA.

Date of Government Version: 11/01/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 11/03/2016	Telephone: 850-245-8793
Date Made Active in Reports: 12/01/2016	Last EDR Contact: 01/30/2017
Number of Days to Update: 28	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### Financial Assurance 2: Financial Assurance Information Listing

A listing of financial assurance information for solid waste facilities.

Date of Government Version: 10/26/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 11/01/2016	Telephone: 850-245-8743
Date Made Active in Reports: 12/01/2016	Last EDR Contact: 01/30/2017
Number of Days to Update: 30	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Varies

### Financial Assurance 3: Financial Assurance Information Listing

A listing of financial assurance information for storage tanks sites.

Date of Government Version: 10/06/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 11/02/2016	Telephone: 850-245-8853
Date Made Active in Reports: 12/01/2016	Last EDR Contact: 02/01/2017
Number of Days to Update: 29	Next Scheduled EDR Contact: 05/08/2017
	Data Release Frequency: Quarterly

### FL Cattle Dip. Vats: Cattle Dipping Vats

From the 1910's through the 1950's, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.

Date of Government Version: 02/04/2005	Source: Department of Environmental Protection
Date Data Arrived at EDR: 06/29/2007	Telephone: 850-245-4444
Date Made Active in Reports: 07/11/2007	Last EDR Contact: 01/09/2017
Number of Days to Update: 12	Next Scheduled EDR Contact: 04/24/2017
	Data Release Frequency: No Update Planned

### RESP PARTY: Responsible Party Sites Listing

Open, inactive and closed responsible party sites

Date of Government Version: 12/04/2016	Source: Department of Environmental Protection
Date Data Arrived at EDR: 01/05/2017	Telephone: 850-245-8758
Date Made Active in Reports: 01/18/2017	Last EDR Contact: 01/05/2017
Number of Days to Update: 13	Next Scheduled EDR Contact: 04/17/2017
	Data Release Frequency: Quarterly

### SITE INV SITES: Site Investigation Section Sites Listing

Statewide coverage of Site Investigation Section (SIS) sites. Site Investigation is a Section within the Bureau of Waste Cleanup, Division of Waste Management. SIS provides technical support to FDEP District Waste Cleanup Programs and conducts contamination assessments throughout the state.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 11/18/2016

Data Release Frequency: Quarterly

### ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## **EDR HIGH RISK HISTORICAL RECORDS**

### ***EDR Exclusive Records***

#### **EDR MGP: EDR Proprietary Manufactured Gas Plants**

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A

Data Release Frequency: No Update Planned

#### **EDR Hist Auto: EDR Exclusive Historic Gas Stations**

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### **EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners**

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

### OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

#### CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013  
Date Data Arrived at EDR: 08/19/2013  
Date Made Active in Reports: 10/03/2013  
Number of Days to Update: 45

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

### Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

### Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

### Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

### Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

### Daycare Centers: Department of Children & Families

Source: Provider Information

Telephone: 850-488-4900

**Flood Zone Data:** This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Longitude (West):	80.172276 - 80° 10' 20.19"
Universal Transverse Mercator:	Zone 17
UTM X (Meters):	582691.8
UTM Y (Meters):	2899084.2
Elevation:	10 ft. above sea level

### **USGS TOPOGRAPHIC MAP**

Target Property Map:	5655860 FORT LAUDERDALE NORTH, FL
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

### FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
12011C0358H	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
12011C0356H	FEMA FIRM Flood data
12011C0359H	FEMA FIRM Flood data
12011C0354H	FEMA FIRM Flood data

### NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
FORT LAUDERDALE NORTH	YES - refer to the Overview Map and Detail Map

### HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

#### *Site-Specific Hydrogeological Data\*:*

Search Radius:	1.25 miles
Status:	Not found

### AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
1	0 - 1/8 Mile SW	VARIES
33	1/2 - 1 Mile West	NW
36	1/2 - 1 Mile SE	SW
44	1/2 - 1 Mile East	SE
Q66	1/2 - 1 Mile East	SE-S

For additional site information, refer to Physical Setting Source Map Findings.

## **GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY**

### **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### **ROCK STRATIGRAPHIC UNIT**

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

#### Soil Map ID: 1

Soil Component Name: Immokalee

Soil Surface Texture: fine sand

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class: Poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 31 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 6 Min: 3.6
2	5 inches	35 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 6 Min: 3.6
3	35 inches	53 inches	fine sand	Not reported	Not reported	Max: 14 Min: 4	Max: 6 Min: 3.6
4	53 inches	72 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 6 Min: 3.6

#### Soil Map ID: 2

Soil Component Name: Margate

Soil Surface Texture: fine sand

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class: Poorly drained

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 77 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 6 Min: 4.5
2	7 inches	16 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 6.5 Min: 5.1
3	16 inches	27 inches	fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 7.8 Min: 6.1
4	27 inches	31 inches	gravelly fine sand	Not reported	Not reported	Max: 141 Min: 42	Max: 8.4 Min: 7.4
5	31 inches	31 inches	bedrock	Not reported	Not reported	Max: 141 Min: 14	Max: Min:

### Soil Map ID: 3

Soil Component Name: Water

Soil Surface Texture: fine sand

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class:

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

### LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## **TOPOGRAPHIC INFORMATION**

### USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

### Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

## **HYDROLOGIC INFORMATION**

**Flood Zone Data:** This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

**NWI:** National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

### State Wetlands Data: Wetlands Inventory

Source: Department of Environmental Protection

Telephone: 850-245-8238

## **HYDROGEOLOGIC INFORMATION**

### AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## **GEOLOGIC INFORMATION**

### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

### SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

#### PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

#### DEP GWIS - Generalized Water Information System Well Data

Source: Department of Environmental Protection

Telephone: 850-245-8507

Data collected for the Watershed Monitoring Section of the Department of Environmental Protection.

#### DOH and DEP Historic Study of Private Wells

Source: Department of Environmental Protection

Telephone: 850-559-0901

Historic database for private supply wells.

#### Well Construction Permitting Database

Source: Northwest Florida Water Management District

Telephone: 850-539-5999

#### Consumptive Use Permit Well Database

Source: St. Johns River Water Management District

Telephone: 386-329-4841

#### Permitted Well Location Database

Source: South Florida Water Management District

Telephone: 561-682-6877

#### Super Act Program Well Data

This table consists of data relating to all privately and publicly owned potable wells investigated as part of the SUPER Act program. The Florida Department of Health's SUPER Act Program (per Chapter 376.3071(4)(g), Florida Statutes), was given authority to provide field and laboratory services, toxicological risk assessments, investigations of drinking water contamination complaints and education of the public

Source: Department of Health

Telephone: 850-245-4250

#### Water Well Location Information

Source: Suwannee River Water Management District

Telephone: 386-796-7211

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## Water Well Permit Database

Source: Southwest Water Management District  
Telephone: 352-796-7211

## OTHER STATE DATABASE INFORMATION

### Florida Sinkholes

Source: Department of Environmental Protection, Geological Survey  
The sinkhole data was gathered by the Florida Sinkhole Research Institute, University of Florida.

### Oil and Gas Permit Database

Source: Department of Environmental Protection  
Telephone: 850-245-3194  
Locations of all permitted wells in the state of Florida.

## RADON

### State Database: FL Radon

Source: Department of Health  
Telephone: 850-245-4288  
Zip Code Based Radon Data

### Area Radon Information

Source: USGS  
Telephone: 703-356-4020  
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

### EPA Radon Zones

Source: EPA  
Telephone: 703-356-4020  
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

## OTHER

Airport Landing Facilities: Private and public use landing facilities  
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater  
Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey
