---

At the September 13<sup>th</sup>, 2016 City Commission meeting the City Commission approved Resolution no. 2016-301, authorizing the proper city officials to apply for the state of Florida Department of Environmental Protection (DEP) revolving loan program for point source water pollution control; upon approval, execute the corresponding loan agreement.

After submitting the loan application staff was informed by the DEP that it should not have included the estimated loan amount. Excluding the estimated loan amount is desirable since bids have not been received for construct of the project. The DEP has reviewed the revised resolution and approved it.
