To Zoning Board of Appeals

In reference to P&Z #22-11000017 Variance Request by Entourage Florida Development.

In 2011 when I was the President of Lado Del Rio Condominium, Inc., I secured a permit to seal coat our parking lot. In order to satisfy the permit, I was required to submit an architectural drawing and add vegetation to our property. There was absolutely no more space on our property for vegetation. So I was told by the City to cut holes in the parking lot to plant 4 sabal palms, 7 gumbo limbo trees and 72 jasmine plants.

We could not afford to do this but we were told to do it anyway.

That being said, I am strongly against any variance for green space.

Respectfully submitted,

David Ingle  
Past President HOA
