

Global Headquarters

Genetec Inc.
2280 Alfred Nobel Blvd.
Montreal, Quebec, H4S 2A4
Canada

T: +1 514.332.4000
F: +1 514.332.1692

To Whom it May Concern:

This letter is to confirm that Genetec's AutoVu License Plate Recognition (LPR) products, both hardware and software, are a unique and proprietary solution manufactured by Genetec and that Miller Electric is an authorized and certified reseller of Genetec's LPR solutions in the state of Florida with local offices in Broward County.

Whereas Genetec does not contract directly with end user customers for the sale of the above described AutoVu LPR hardware and software solutions manufactured by Genetec. Instead, Genetec utilizes a network of certified and trained partners around the world to provide sales and local services to end user customers and Miller Electric is the certified and approved AutoVu Partner assigned to the Southeast US territory.

If you desire additional information, please do not hesitate to contact me at 815.530.9392. Thank you for your interest in our products.

Sincerely,

A handwritten signature in black ink that reads "Rick Taylor". The signature is written in a cursive, flowing style.

Rick Taylor
National Director – Public Sector, North America
