Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

the undersigned:

Ladies And Gentlemen:

Please see the attached letter that states my negative position on the above project.

My wife and I have lived in Palm Aire for almost 20 years..... It is a beautiful community!

The project is just too much for the footprint!

I'm sure that many in the community would ACCEPT the project if it did NOT have the 5 apartment buildings?

Sincerely:

Kenneth Walters

Subject: Letter/Petition to stop the Palm Aire Oaks Project

Attachments: September_20_carta_palm_aire_a0a26802-f11e-4400-b491-f81657864a34.pdf

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's EMAIL ADDRESS as legitimate and know the contents are safe.

Dear Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values. We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

Andres Ellis & Andreina Ravelo

Dear Mayor Hardin - We wish to join virtually all of the owners of condos in PalmAire Country Club/Building 79 in Association 6 in OPPOSING (together with all of our owners we have spoken with)
re: this unwanted development. There are absolutely no benefits here for the thousands of existing residents now living in Palm Aire - and this proposal's legality is also very much in question. To allow this project to go forward would also set bad precedents with respect to proposals for future developments, which would also be very contrary to the wishes of the vast majority of our OWNERS! We beg our elected officials to vote NO with respect to the Palm Aire Oaks Project, and we trust that all of our elected officials will vote NO to protect our interests in our several communities, our "greenness", & our investments. Thank you!

William & Barbara Huber - PalmAire 79/106

To whom it may concern:

Attached is a letter which explains and expresses mine and my wife's complete and total opposition to this proposed project. I would appreciate it if you would read the letter and consider our views seriously. This project, if built, would have a huge and lasting negative impact on our neighborhood.

Subject: Proposed "Oaks of Palm Aire" Development

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's **EMAIL ADDRESS** as legitimate and know the contents are safe.

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community. Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas. We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer. Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city. Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high

turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures. Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values. We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Dear Mayor Hardin - We wish to join virtually all of the owners of condos in PalmAire Country Club/Building 79 in Association 6 in OPPOSING (together with all of our owners we have spoken with)
re: this unwanted development. There are absolutely no benefits here for the thousands of existing residents now living in Palm Aire - and this proposal's legality is also very much in question. To allow this project to go forward would also set bad precedents with respect to proposals for future developments, which would also be very contrary to the wishes of the vast majority of our OWNERS! We beg our elected officials to vote NO with respect to the Palm Aire Oaks Project, and we trust that all of our elected officials will vote NO to protect our interests in our several communities, our "greenness", & our investments. Thank you!

September 21, 2023

City of Pompano Beach
City Hall Main Building
100 West Atlantic Boulevard
Pompano Beach, Florida 33060 - Third Floor

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our

neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

David Chiossone Obdalis Marquez de Chiossone

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

the undersigned:

Dear Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which

can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values. We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

Andres Ellis & Andreina Ravelo

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's EMAIL ADDRESS as legitimate and know the contents are safe.

As a long term resident of Palm Aire (since 2013) I am opposed to the redevelopment of this property.

It does not seem that the city is taking care to evaluate the overall impact on traffic at the entrance of North Palm Aire Dr and Powerline of this, the proposed new apartments at the entrance to Palm Aire, the new proposed Publix shopping center, the 4100 residences adjacent to the Pomp (really is the best name they could come up with), the Pomp itself and the 1.5 million square feet of warehouse/office space adjacent to the casino/Pomp. The intersection is already often highly congested.

What will the city do when Clublinks decides it wants to close the golf club at the entrance to Palm Aire and convert it to residences. There appears to be no overall city planning.

C L Vincent

City of Pompano Beach
City Hall Main Building
100 West Atlantic Boulevard
Pompano Beach, Florida 33060 - Third Floor

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

the undersigned:

Honourable Mayor, Commissioner et al,

Kindly accept this email as our **strong opposition** to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood.

The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course.

The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure.

This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated.

Thus, there are no units left for the city to allocate to this developer. Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map.

Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents,

who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, we are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development.

This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Kindest regards,
Robert and Linda Guertin

CC: Kervin Alfred, City Clerk

Pompano Beach City Commissioners

Pompano Beach Design Review Committee

Pompano Beach Planning & Zoning Board

Dear Mayor Hardin, et al

10 April 2025

Recently, we have learned that members of other Palm Aire Country Club associations have expressed their support for the Club Link Oaks Country Club project, which proposes over 200 new units inside Palm Aire.

This letter offers no such support.

While we concur that a newly renovated Country Club & Restaurant in and of itself may be beneficial to the residents of Palm Aire, we do not approve of the proposed 200+ new units that are slated to be part of the proposed renovation.

Palm Aire is a unique, open, green, historically relevant community within Pompano Beach. The entire community was wisely separated from the rest of the city by a dashed line and master settlement agreement that limits the number of residential units in Palm Aire. The limit has been reached. That should be the end of the conversation.

Palm Aire Country Club 10 (composed of 5 buildings for a total of 279 units) does not approve of the City's plan to override the master settlement agreement using the concept of flexibility units. The Palm Aire community does not meet the criteria for such units. Further, every homeowner in Palm Aire purchased their residence under the protection of the master settlement agreement. Everyone in Palm Aire should expect their city's leaders to honor its agreements and support its residents rather than creating loopholes for Club Link and others to develop our disappearing green space. At the very least, the residents of Palm Aire should have a seat at the table to discuss any proposed changes to the master settlement agreement.

Moreover, the association is very concerned about the additional stress that the additional units will add to the infrastructures in Palm Aire, especially east/north bound traffic.

With this letter we want also to make clear that, for obvious conflict of interests, the organization "Palm Aire United" do not represent PACC10 interests in the matter of the Oaks project or any other current and future real estate development or re-zoning in Palm Aire.

Sincerely

The president of the PACC10 Board:

Bob Young

Pompano Beach

Dear Mayor Hardin:

We wish to join virtually all of the owners of condos in PalmAire Country Club/Building 79 in Association 6 in **OPPOSING** this unwanted development.

There are absolutely no benefits here for the thousands of existing residents now living in Palm Aire - and this proposal's legality is also very much in question.

To allow this project to go forward would also set bad precedents with respect to proposals for future developments, which would also be very contrary to the wishes of the vast majority of our OWNERS!

We beg our elected officials to vote **NO** with respect to the Palm Aire Oaks Project, and we trust that all of our elected officials will vote **NO** to protect our interests in our several communities, our "greenness", & our investments. Thank you!

Good morning,

Attached please find my signed petition opposing the proposed development "The Oaks at Palm Aire". Though the developer has every right to develop said land, the proposed project is unbalanced in regards to projected number of units in relation to neighborhood, infrastructure and environmental impact.

I am a recent home owner in bldg 79, and the main reason I purchased there was the peace, quiet and tranquility of the area which will be greatly disrupted with this project.

My fellow neighbors and I strongly implore to work with the developers to revise their plans to a more appropriate development that will fit seamlessly into the neighborhood.

I hope you do the right thing for the community.

Sincerely,

EDWARD TRELLES

September 22, 2023

City of Pompano Beach
City Hall Main Building
100 West Atlantic Boulevard
Pompano Beach, Florida 33060 - Third Floor

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn on the land currently occupied by the golf course. The proposed project includes 270 new flex units comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of

our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

Natasha Groysman
Palm Aire Unit owner

To whom it may concern:

Attached is a letter which explains and expresses mine and my wife's complete and total opposition to this proposed project. I would appreciate it if you would read the letter and consider our views seriously. This project, if built, would have a huge and lasting negative impact on our neighborhood.

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development in our neighborhood.

The application titled **'The Oaks at Palm Aire'** filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

The accompanying letter explains in detail how we feel about this project.
Sincerely yours,

Juan J. Calvo de Dios, CFP®, LLM

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

the undersigned:

Mr. Rex Hardin, Mayor:

Please find my signed letter attached. We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space they have had for more than 45 years, but

the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985. Thank you for your attention to this matter.

Dear madams and sirs:

*It's not that I don't want people around
It's that we've exceeded a numbered amount
Per a covenant that runs with the land
We've passed that limit, I understand;*

*The clubhouse is smelly and out of date
Refurbished, more visits it might rate;
But more apartments, and cars, and pollution
Is not a positive contribution;*

*More trees, more land to drink up water
And make more oxygen is what oughta
Happen in our neighborhood,
Not concrete, and walls, and congestion -- no good!*

*Covenants that run with the land
Have long been held to be most grand;
For you to skirt that intention of law
Seems to me should be outlawed;*

*Respectfully I request of you
To rethink Palm Aire where not a few
People look to you, our commission,
To respect covenants, not toss by omission;*

*Thank you for voting "no" to this plan:
Don't say, "I can't say 'no'" --say "I can."!*

*willasue susskind

Date: Saturday, September 23, 2023 11:40:32 AM

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's **EMAIL ADDRESS** as legitimate and know the contents are safe.

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community. Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas. We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer. Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city. Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures. Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values. We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

On Sep 19, 2023, at 10:31 AM, Attorney Christian Panagakos <cp@fbalegal.com> wrote:

Hello to the city employees mandated with the duty of representing the best interests of Pompano Beach Residents, and conformity with the Comprehensive Plan of Pompano Beach and all prior Covenants enacted by the City of Pompano Beach:

As some of you already know, I have been a Pompano Beach Resident since 1976, attending McNab Elementary, Pompano Beach Middle School and Pompano Beach High School. I have also been a frequent visitor of Palm Aire throughout, regularly visiting the family of Thor Amli, founding architect of our beautiful and precious community. Palm Aire, with its very scarce and unique variety of fully-matured canopied trees, abundant wildlife and scarce open green space, is one of the few remaining historic icons of this very special City of Pompano Beach. **The city officials reviewing the current applications submitted by the foreign publicly-traded Canadian company of Clublink/Canada, inc. must do everything in their power to protect the natural and historic resources of Palm Aire – for the long-term benefit of the actual Residents of Palm Aire, Pompano Beach and Broward County, as a whole.**

To begin, there are many inconsistencies between the project's applications and intent as judged against and our own city's Comprehensive Plan, longstanding Covenants that run with our land, and the overall best-interest of the actual Residents of both Pompano Beach and Broward County. Some of these concerns are outlined below.

Ultimately, we strongly encourage that the City of Pompano Beach strictly enforce the policies, intent and objectives of the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the Covenants that run with Our Land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

Inconsistencies with the Comprehensive Plan of Pompano Beach

- Policy 01.01.13 The City shall utilize flexibility units and redevelopment units to increase residential densities within the flex receiving area **when consistent with the community character; adjacent land uses; and public school capacity** both

within Pompano and affected contiguous municipalities; and has undergone a compatibility review relative to potential impacts on Environmentally Sensitive Lands and County or regional parks in accordance with Policy 2.10.01 of the Broward County Land Use Plan.

- **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Homeowner Associations and their respective unit-owner members.**
 - Moreover, **FLEX is not compatible with the adjacent Land Use designations of Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
 - Also, the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment. Who's building all the new schools, and when/where will they be built? Moreover, **the application unrealistically suggests there will only be 17 children in need of a public school** – with only 3 students projected as requiring a public middle school – at a school already at its permanent capacity level (considering the low-income nature of this project, this ridiculous suggestion should be viewed as a showing of bad faith by Canada, Inc.'s submission).
 - The city **must protect the safety of our children – as there is a public park and children playground almost adjacent to the project site, with a crosswalk intended to allow children and families to cross the road safely to enter and exit; and a public-school bus stop for elementary, middle and high school also within very close proximity.**
- Policy 01.03.02 **Require** residential densities of zoning districts to be **consistent with the densities on the Future Land Use Map**.
 - The density on the Future Land Use Map as to Palm Aire is explicitly identified as 10,631, and all of such capacity has already been allocated.
 - Policy 01.03.04 Consider the **preservation of established single family neighborhoods** in all rezonings, land use plan amendments and site plan approvals.
 - There are single family homes directly across the street from the project
 - Policy 01.04.01 The Planning Department shall support and

promote the intermix of residential and commercial uses **along major traffic corridors, where mass transit is available**, through the allocation of flex and redevelopment units and approval of land use plan map amendments allowing for mixed use and residential developments.

- The Canadian company's project site is not "**along major traffic corridors, where mass transit is available**".

Approving a Flex application that is NOT along a major traffic corridor is completely contradictory to promoting it along major traffic corridors, as the city is required to do.

- The City's Comprehensive Plan specifically states that: "The goals, objectives and policies **promote transit oriented development along the major corridors**; support access to a comprehensive local and regional multi-modal transportation network that moves the City toward a balanced system that accommodates the pedestrian and transit users as well as drivers;
 - From the Department of Transportation: **Transit Oriented Development** is compact, mixed-use development **near transit facilities** providing high-quality walking environments. It usually includes new residential development, office space, and other service amenities that are **within a half-mile of public transportation** and easily commutable by other means such as walking and biking.
- In addition to the City's Plan for adequate public school capacity, **please also advise on the City's intent to strictly prohibit city buses from entering Palm Aire in general, and to the project site, specifically** (as no road in Palm Aire, including West Palm Aire currently meets the compatibility or requirement of a major traffic corridor)

- Policy 01.06.01 Consider and **minimize the impacts** that land use amendments, rezonings or site plan approvals have **on natural resources**, including wetlands, and culturally, **historically**, archaeologically and paleontologically **significant resources**.
 - **Palm Aire is just one of a few remaining historic landmarks of Pompano Beach.** The few others include Hillsboro Lighthouse, the now Fisher Family Pier and the many waterways and beaches that permeate only the eastern sliver of our beautiful and historic city. To the west, there was Pompano Park Raceway, built in 1953 and opened for racing in 1964, but the City of Pompano already granted approval for that iconic piece of Pompano to be demolished by corporate giant Harrah's Entertainment, making way for a

223-acre expansion plan adding an additional 4,100 residential units, along with all of their many unattractive, congestive and accident-prone vehicles; thus, leaving Palm Aire as the only remaining sanctuary of Pompano Beach history to the West. And given Palm Aire's hundreds of acres of still-protected, undeveloped land, flourishing with such a unique variety of large and mature canopied trees, beautiful birds and a plethora of other natural wildlife, Palm Aire is perfectly positioned as a natural sanctuary for Pompano West, that we as a community should protect and preserve for the benefits of our residents.

- Policy 01.06.13 Work with Broward County and interested stakeholders to study and recommend **incentives to preserve designated environmentally sensitive lands that are privately controlled.**
- Policy 01.06.08 Review all proposals for development with consideration to the County's Natural Resource Map Series and **discourage activities which would have a detrimental impact on significant natural resource areas** which may or may not be designated by Broward County as Local Areas of Particular Concern.
- Policy 01.07.18 Continue to implement the **incentives** for providing affordable housing per the policies in the Broward County Land Use Plan and/or in the City's land development regulations including the use of density bonuses, flex and redevelopment units for affordable housing and the expedited permit review process for developments primarily aimed at providing affordable housing.
 - What incentives exactly is COPB providing to this Canadian landowner?
- Policy 01.12.03 Utilize the existing flexibility provisions to facilitate proposed mixed use developments in **urban infill areas** provided that the proposed developments are **compatible with the community character**
 - **How is Palm Aire considered an "Urban infill" area? And who made such determination?**
 - **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members.**
 - Moreover, **FLEX is not compatible with Open Park/Rec Space, as FLEX is intended to be located near commercial**

activity centers and adjacent to major traffic corridors.

- Policy 01.12.04 The City shall utilize flexibility units and reserve units to increase residential densities within the flex and reserve receiving areas when **consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities...
 - Again, wholly inconsistent with ALL of these requirements as explained throughout (the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment.
 - Who's building all the new schools, and when/where will they be built?
 - Of even greater concern is the fact that Broward County and Pompano Beach are projected to grow, in general, while the Broward County Public School district conflictingly suggests actual decreases in Broward County populations and student body attendance. Please explain this very concerning contradiction.
- Objective 01.14.00 – Smart Growth Initiative The City will promote “Smart Growth” type initiatives providing for energy efficient development and land use patterns which also account for existing and future electrical power generation and transmission systems in an **effort to discourage urban sprawl and reduce greenhouse gasses** (please see questions re public buses above)
- Policy 01.15.06 Quality, affordable housing opportunities shall be included as a functional component of **Regional Activity Centers** that allow for residential use
 - Palm Aire is not a Regional Activity Center
- Policy 01.16.01 The City may designate a Transit Oriented Corridor **within an area approximately ¼ mile on either side of the mainline transit corridor**. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.
 - The instant project site location is approx. 1.15 miles from Powerline Road as the crow flies (direct line). Walking distance is ~1.5 miles, or ~ 30 – 40 minutes, depending on age and health.
- Objective 01.19.00 – The City shall adopt the flexibility offered through Broward Next to allow additional development rights **in an**

activity center land use category, limited to the TOC, RAC, LAC, and TOD activity center districts, without a Broward County Land Use Plan amendment.

- I do not believe their project site is in any of the designated areas
- Policy 01.22.05 The City will work with the community to identify “food deserts” within neighborhoods and encourage quality food stores that meet the needs of the community to locate on appropriate sites in proximity to a majority of the area’s residents.
 - What is the City doing in terms of addressing the current food desert of Palm Aire, with only a single very small grocery store (Publix) with an approximate 2-mile radius from the project site? Moreover, how is the City addressing this very serious concern in consideration of the additional 4,100 units already approved for corporate giant Harrah’s Entertainment?
- Policy 03.03.02 Through the review of development proposals, the City shall support public and private sector efforts to create and/or preserve affordable housing for very-low, low and moderate-income groups in areas designated for residential land use for future and current residents recognizing the need for distance separation for subsidized low income tax credit projects of no less than one-half mile. **Review of such proposals shall be based on overall compatibility with already established residential areas...**
 - Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members
- Policy 03.03.04 To promote and support affordable housing, the **City shall consider locations that permit residents to walk or bike to work** which will provide savings to the residents, reduce traffic, promote health, and reduce carbon emissions.
 - There is absolutely no commercial opportunities for employment within walking distance from the project’s site, as the project land is adjacent to Open Parks and Rec (inconsistent with the above FLEX/affordable housing requirement), and the nearest bus stop is about a 40 minute walk (also inconsistent with the City’s requirement to promote FLEX along “major traffic corridors,”

In addition to the above inconsistencies with our Comprehensive Plan,

- **The project applications are wholly inconsistent with / in violation of the covenants that run with the land, binding on all successors in interest to the original owner FPA, pursuant to the Stipulation, Settlement and Master Plan Agreement for Palm Aire, as executed by Pompano Beach's then Mayor, City Manager, and City Clerk in July 1985** and recorded in the Broward County Public Records at Book 12707, Page 605 (even as Amended).
 - These covenants that run with the land are sacrosanct and not able to be disregarded or violated through the Canadian developers' request for FLEX housing (which in itself is inconsistent with the intent and requirements of Flex, as partially outlined herein).
 - The Master Agreement, even as amended, strictly prohibits a density within Palm Aire in excess of 7 dwelling units per acre, and explicitly limits the "maximum number of residential dwelling units permitted to be developed within Palm-Aire under the Broward County Land Use Plan and the City of Pompano Beach Land Use Plan is 10,631. There is no additional capacity permitted under the above Agreement, as amended, and it would be an inappropriate and violative use of Flex, as Flex does not grant the authority to trump the sacrosanct covenants that run with our land (which all of the unit owners in Palm Aire strictly relied upon when purchasing in Palm Aire).
- Moreover, the project appears to exceed the available Dwelling Units permitted pursuant to the **Broward County Capacity Limits**, as reflected on Exhibit 2 of the Broward County Land Use Plan last updated on Sept. 8, 2023.
 - Palm Aire Community is referenced as "Irregular Residential Zone 7", and the aforementioned Exhibit 2 reflects "Potential Dwelling Unit" capacity for Irregular 7 at 1,911, which – upon information and belief - was exceeded some time ago.
- **FLEX Unit Capacity Limits. Notwithstanding the inappropriate use of Flex housing, as referenced throughout this email**, the only remaining "Flex Unit" capacity we could find via publicly available sources - in the same Exhibit 2 to the newly updated Land Map Plan for Broward County, to the City of Pompano Beach is 442 as of March 2017 – all of which have either been exhausted or should be carefully used in strict accordance with the requirements of Flex

and in strict conformity with the Comprehensive Plan of Pompano Beach and the sacrosanct Covenants that run with Our Land.

- If there are updated numbers of Flex allocations, why are they not readily available via publicly information? If there are updated numbers, or better sources of information on flex allocations and availability, please provide those updated figures ASAP, along with the source of where they are published for the viewing of the Residents of Pompano Beach.

Again, **considering all of the above, we would like to understand exactly how the City of Pompano is weighing:**

1. the interest of this foreign (Canadian) developer, who purchased this property at a significant discount due to the restrictive nature of Palm Aire, in general, and this particular parcel's use (intended as a part of the restrictive Open Rec/Parks land that they operate and purchase as a golf course)

vs.

2. the interests of the actual local RESIDENTS of both Palm Aire and Pompano Beach (who strongly oppose this project, for a large list of valid and concerning reasons).

Ultimately, we respectfully request that the City of Pompano Beach strictly enforce the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the covenants that run with the land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). Moreover, we hereby request a complete and transparent understanding of the approval process and decision-making authority (if sole authority lies with David Recor, as is currently our understanding – contrary to the City Commission review box being checked on Clublink/Canada, Inc.'s applications), please explain exactly where this sole authority is derived. If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

We appreciate your specific feedback to each of the above inconsistencies

with the Comprehensive Plan of Pompano Beach (and the clear best interest of its Residents), and related concerns.

Respectfully,

Christian and Brooke Panagakos

Inconsistencies with the Comprehensive Plan of Pompano Beach

- **Policy 01.01.13** The City shall utilize flexibility units and redevelopment units to increase residential densities within the flex receiving area **when consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities; and has undergone a compatibility review relative to potential impacts on Environmentally Sensitive Lands and County or regional parks in accordance with Policy 2.10.01 of the Broward County Land Use Plan.
 - **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Homeowner Associations and their respective unit-owner members.**
 - Moreover, **FLEX is not compatible with the adjacent Land Use designations of Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
 - Also, the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment. Who's building all the new schools, and when/where will they be built? Moreover, **the application unrealistically suggests there**

will only be 17 children in need of a public school – with only 3 students projected as requiring a public middle school – at a school already at its permanent capacity level (considering the low-income nature of this project, this ridiculous suggestion should be viewed as a showing of bad faith by Canada, Inc.’s submission).

- The city **must protect the safety of our children – as there is a public park and children playground almost adjacent to the project site, with a crosswalk intended to allow children and families to cross the road safely to enter and exit; and a public-school bus stop for elementary, middle and high school also within very close proximity.**
- Policy 01.03.02 Require residential densities of zoning districts to be **consistent with the densities on the Future Land Use Map.**
 - The density on the Future Land Use Map as to Palm Aire is explicitly identified as 10,631, and all of such capacity has already been allocated.
- Policy 01.03.04 Consider the **preservation of established single family neighborhoods** in all rezonings, land use plan amendments and site plan approvals.
 - There are single family homes directly across the street from the project
- Policy 01.04.01 The Planning Department shall support and promote the intermix of residential and commercial uses **along major traffic corridors, where mass transit is available**, through the allocation of flex and redevelopment units and approval of land use plan map amendments allowing for mixed use and residential developments.
 - The Canadian company’s project site is not “**along major traffic corridors, where mass transit is available**”. **Approving a Flex application that is NOT along a major traffic corridor is completely contradictory to promoting it along major traffic corridors, as the city is required to do.**
 - The City’s Comprehensive Plan specifically states that: “The goals, objectives and policies **promote transit oriented development along the major corridors**; support access to a comprehensive local and regional multi-modal transportation network that moves the City toward a balanced system that accommodates the pedestrian and transit users as well as drivers;
 - From the Department of Transportation: **Transit Oriented Development** is compact, mixed-use development **near transit facilities** providing high-quality walking environments. It usually includes new residential development, office space, and other service amenities that are **within a half-mile of public transportation** and easily commutable by other means such as walking and biking.
 - In addition to the City’s Plan for adequate public school capacity, **please also advise on the City’s intent to strictly prohibit city buses from**

entering Palm Aire in general, and to the project site, specifically (as no road in Palm Aire, including West Palm Aire currently meets the compatibility or requirement of a major traffic corridor)

- Policy 01.06.01 Consider and **minimize the impacts** that land use amendments, rezonings or site plan approvals have **on natural resources**, including wetlands, and culturally, **historically**, archaeologically and paleontologically **significant resources**.
 - **Palm Aire is just one of a few remaining historic landmarks of Pompano Beach.** The few others include Hillsboro Lighthouse, the now Fisher Family Pier and the many waterways and beaches that permeate only the eastern sliver of our beautiful and historic city. To the west, there was Pompano Park Raceway, built in 1953 and opened for racing in 1964, but the City of Pompano already granted approval for that iconic piece of Pompano to be demolished by corporate giant Harrah's Entertainment, making way for a 223-acre expansion plan adding an additional 4,100 residential units, along with all of their many unattractive, congestive and accident-prone vehicles; thus, leaving Palm Aire as the only remaining sanctuary of Pompano Beach history to the West. And given Palm Aire's hundreds of acres of still-protected, undeveloped land, flourishing with such a unique variety of large and mature canopied trees, beautiful birds and a plethora of other natural wildlife, Palm Aire is perfectly positioned as a natural sanctuary for Pompano West, that we as a community should protect and preserve for the benefits of our residents.
- Policy 01.06.13 Work with Broward County and interested stakeholders to study and recommend **incentives to preserve designated environmentally sensitive lands that are privately controlled**.
- Policy 01.06.08 Review all proposals for development with consideration to the County's Natural Resource Map Series and **discourage activities which would have a detrimental impact on significant natural resource areas** which may or may not be designated by Broward County as Local Areas of Particular Concern.
- Policy 01.07.18 Continue to implement the **incentives** for providing affordable housing per the policies in the Broward County Land Use Plan and/or in the City's land development regulations including the use of density bonuses, flex and redevelopment units for affordable housing and the expedited permit review process for developments primarily aimed at providing affordable housing.
 - What incentives exactly is COPB providing to this Canadian landowner?
- Policy 01.12.03 Utilize the existing flexibility provisions to facilitate proposed mixed use developments in **urban infill areas provided that the proposed developments are compatible with the community character**

How is Palm Aire considered an “Urban infill” area? And who made such determination?

- **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members.**
 - **Moreover, FLEX is not compatible with Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
- Policy 01.12.04 The City shall utilize flexibility units and reserve units to increase residential densities within the flex and reserve receiving areas when **consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities...
 - Again, wholly inconsistent with ALL of these requirements as explained throughout (the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah’s Entertainment.
 - Who’s building all the new schools, and when/where will they be built?
 - Of even greater concern is the fact that Broward County and Pompano Beach are projected to grow, in general, while the Broward County Public School district conflictingly suggests actual decreases in Broward County populations and student body attendance. Please explain this very concerning contradiction.
- Objective 01.14.00 – Smart Growth Initiative The City will promote “Smart Growth” type initiatives providing for energy efficient development and land use patterns which also account for existing and future electrical power generation and transmission systems in an **effort to discourage urban sprawl and reduce greenhouse gasses** (please see questions re public buses above)
- Policy 01.15.06 Quality, affordable housing opportunities shall be included as a functional component of **Regional Activity Centers** that allow for residential use
 - Palm Aire is not a Regional Activity Center
- Policy 01.16.01 The City may designate a Transit Oriented Corridor **within an area approximately ¼ mile on either side of the mainline transit corridor**. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.
 - The instant project site location is approx. 1.15 miles from Powerline Road as the crow flies (direct line). Walking distance is ~1.5 miles, or ~ 30 – 40 minutes, depending on age and health.

- Objective 01.19.00 – The City shall adopt the flexibility offered through Broward Next to allow additional development rights **in an activity center land use category, limited to the TOC, RAC, LAC, and TOD activity center districts**, without a Broward County Land Use Plan amendment.
 - I do not believe their project site is in any of the designated areas
- Policy 01.22.05 The City will work with the community to identify “food deserts” within neighborhoods and encourage quality food stores that meet the needs of the community to locate on appropriate sites in proximity to a majority of the area’s residents.
 - What is the City doing in terms of addressing the current food desert of Palm Aire, with only a single very small grocery store (Publix) with an approximate 2-mile radius from the project site? Moreover, how is the City addressing this very serious concern in consideration of the additional 4,100 units already approved for corporate giant Harrah’s Entertainment?
- Policy 03.03.02 Through the review of development proposals, the City shall support public and private sector efforts to create and/or preserve affordable housing for very-low, low and moderate-income groups in areas designated for residential land use for future and current residents recognizing the need for distance separation for subsidized low income tax credit projects of no less than one-half mile. **Review of such proposals shall be based on overall compatibility with already established residential areas...**
 - Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members
- Policy 03.03.04 To promote and support affordable housing, the **City shall consider locations that permit residents to walk or bike to work** which will provide savings to the residents, reduce traffic, promote health, and reduce carbon emissions.
 - There is absolutely no commercial opportunities for employment within walking distance from the project’s site, as the project land is adjacent to Open Parks and Rec (inconsistent with the above FLEX/affordable housing requirement), and the nearest bus stop is about a 40 minute walk (also inconsistent with the City’s requirement to promote FLEX along “major traffic corridors,”

In addition to the above inconsistencies with our Comprehensive Plan,

- **The project applications are wholly inconsistent with / in violation of the covenants that run with the land, binding on all successors in interest to the original owner FPA, pursuant to the Stipulation, Settlement and Master Plan Agreement for Palm Aire, as executed by Pompano Beach’s then Mayor, City**

Manager, and City Clerk in July 1985 and recorded in the Broward County Public Records at Book 12707, Page 605 (even as Amended).

- These covenants that run with the land are sacrosanct and not able to be disregarded or violated through the Canadian developers' request for FLEX housing (which in itself is inconsistent with the intent and requirements of Flex, as partially outlined herein).
 - The Master Agreement, even as amended, strictly prohibits a density within Palm Aire in excess of 7 dwelling units per acre, and explicitly limits the "maximum number of residential dwelling units permitted to be developed within Palm-Aire under the Broward County Land Use Plan and the City of Pompano Beach Land Use Plan is 10,631. There is no additional capacity permitted under the above Agreement, as amended, and it would be an inappropriate and violative use of Flex, as Flex does not grant the authority to trump the sacrosanct covenants that run with our land (which all of the unit owners in Palm Aire strictly relied upon when purchasing in Palm Aire).
- Moreover, the project appears to exceed the available Dwelling Units permitted pursuant to the **Broward County Capacity Limits**, as reflected on Exhibit 2 of the Broward County Land Use Plan last updated on Sept. 8, 2023.
 - Palm Aire Community is referenced as "Irregular Residential Zone 7", and the aforementioned Exhibit 2 reflects "Potential Dwelling Unit" capacity for Irregular 7 at 1,911, which – upon information and belief - was exceeded some time ago.
- **FLEX Unit Capacity Limits. Notwithstanding the inappropriate use of Flex housing, as referenced throughout this email**, the only remaining "Flex Unit" capacity we could find via publicly available sources - in the same Exhibit 2 to the newly updated Land Map Plan for Broward County, to the City of Pompano Beach is 442 as of March 2017 – all of which have either been exhausted or should be carefully used in strict accordance with the requirements of Flex and in strict conformity with the Comprehensive Plan of Pompano Beach and the sacrosanct Covenants that run with Our Land.
 - If there are updated numbers of Flex allocations, why are they not readily available via publicly information? If there are updated numbers, or better sources of information on flex allocations and availability, please provide those updated figures ASAP, along with the source of where they are published for the viewing of the Residents of Pompano Beach.

Again, **considering all of the above, we would like to understand exactly how the City of Pompano is weighing:**

1. the interest of this foreign (Canadian) developer, who purchased this property at a significant discount due to the restrictive nature of

Palm Aire, in general, and this particular parcel's use (intended as a part of the restrictive Open Rec/Parks land that they operate and purchase as a golf course)

vs.

2. the interests of the actual local RESIDENTS of both Palm Aire and Pompano Beach (who strongly oppose this project, for a large list of valid and concerning reasons).

Ultimately, we respectfully request that the City of Pompano Beach strictly enforce the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the covenants that run with the land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). Moreover, we hereby request a complete and transparent understanding of the approval process and decision-making authority (if sole authority lies with David Recor, as is currently our understanding – contrary to the City Commission review box being checked on Clublink/Canada, Inc.'s applications), please explain exactly where this sole authority is derived. If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

We appreciate your specific feedback to each of the above inconsistencies with the Comprehensive Plan of Pompano Beach (and the clear best interest of its Residents), and related concerns.

Respectfully,

Christian and Brooke Panagakos

On Sep 19, 2023, at 10:31 AM, Attorney Christian Panagakos <cp@fbalegal.com> wrote:

Hello to the city employees mandated with the duty of representing the best interests of Pompano Beach Residents, and conformity with the Comprehensive Plan of Pompano Beach and all prior Covenants enacted by the City of Pompano Beach:

As some of you already know, I have been a Pompano Beach Resident since 1976, attending McNab Elementary, Pompano Beach Middle School and Pompano Beach High School. I have also been a frequent visitor of Palm Aire throughout, regularly visiting the family of Thor Amlie, founding architect of our beautiful and precious community. Palm Aire, with its very scarce and unique variety of fully-matured canopied trees, abundant wildlife and scarce open green space, is one of the few remaining historic icons of this very special City of Pompano Beach. **The city officials reviewing the current applications submitted by the foreign publicly-traded Canadian company of Clublink/Canada, inc. must do everything in their power to protect the natural and historic resources of Palm Aire – for the long-term benefit of the actual Residents of Palm Aire, Pompano Beach and Broward County, as a whole.**

To begin, there are many inconsistencies between the project's applications and intent as judged against and our own city's Comprehensive Plan, longstanding Covenants that run with our land, and the overall best-interest of the actual Residents of both Pompano Beach and Broward County. Some of these concerns are outlined below.

Ultimately, we strongly encourage that the City of Pompano Beach strictly enforce the policies, intent and objectives of the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the Covenants that run with Our Land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of

Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

Inconsistencies with the Comprehensive Plan of Pompano Beach

- Policy 01.01.13 The City shall utilize flexibility units and redevelopment units to increase residential densities within the flex receiving area **when consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities; and has undergone a compatibility review relative to potential impacts on Environmentally Sensitive Lands and County or regional parks in accordance with Policy 2.10.01 of the Broward County Land Use Plan.
 - **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Homeowner Associations and their respective unit-owner members.**
 - Moreover, **FLEX is not compatible with the adjacent Land Use designations of Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
 - Also, the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment. Who's building all the new schools, and when/where will they be built? Moreover, **the application unrealistically suggests there will only be 17 children in need of a public school** – with only 3 students projected as requiring a public middle school – at a school already at its permanent capacity level (considering the low-income nature of this project, this ridiculous suggestion should be viewed as a showing of bad faith by Canada, Inc.'s submission).
 - The city **must protect the safety of our children – as there is a public park and children playground almost adjacent to the project site, with a crosswalk intended to allow children and families to cross the road safely to enter and exit; and a public-school bus stop for elementary, middle and high school also within very close proximity.**
- Policy 01.03.02 Require residential densities of zoning districts to

be **consistent with the densities on the Future Land Use Map.**

- The density on the Future Land Use Map as to Palm Aire is explicitly identified as 10,631, and all of such capacity has already been allocated.
- Policy 01.03.04 Consider the **preservation of established single family neighborhoods** in all rezonings, land use plan amendments and site plan approvals.
 - There are single family homes directly across the street from the project
- Policy 01.04.01 The Planning Department shall support and promote the intermix of residential and commercial uses **along major traffic corridors, where mass transit is available**, through the allocation of flex and redevelopment units and approval of land use plan map amendments allowing for mixed use and residential developments.
 - The Canadian company's project site is not "**along major traffic corridors, where mass transit is available**".
Approving a Flex application that is NOT along a major traffic corridor is completely contradictory to promoting it along major traffic corridors, as the city is required to do.
 - The City's Comprehensive Plan specifically states that: "The goals, objectives and policies **promote transit oriented development along the major corridors**; support access to a comprehensive local and regional multi-modal transportation network that moves the City toward a balanced system that accommodates the pedestrian and transit users as well as drivers;
 - From the Department of Transportation: **Transit Oriented Development** is compact, mixed-use development **near transit facilities** providing high-quality walking environments. It usually includes new residential development, office space, and other service amenities that are **within a half-mile of public transportation** and easily commutable by other means such as walking and biking.
 - In addition to the City's Plan for adequate public school capacity, **please also advise on the City's intent to strictly prohibit city buses from entering Palm Aire in general, and to the project site, specifically** (as no road in Palm Aire, including West Palm Aire currently meets the compatibility or requirement of a major traffic corridor)
- Policy 01.06.01 Consider and **minimize the impacts** that land use

amendments, rezonings or site plan approvals have **on natural resources**, including wetlands, and culturally, **historically**, archaeologically and paleontologically **significant resources**.

- **Palm Aire is just one of a few remaining historic landmarks of Pompano Beach.** The few others include Hillsboro Lighthouse, the now Fisher Family Pier and the many waterways and beaches that permeate only the eastern sliver of our beautiful and historic city. To the west, there was Pompano Park Raceway, built in 1953 and opened for racing in 1964, but the City of Pompano already granted approval for that iconic piece of Pompano to be demolished by corporate giant Harrah's Entertainment, making way for a 223-acre expansion plan adding an additional 4,100 residential units, along with all of their many unattractive, congestive and accident-prone vehicles; thus, leaving Palm Aire as the only remaining sanctuary of Pompano Beach history to the West. And given Palm Aire's hundreds of acres of still-protected, undeveloped land, flourishing with such a unique variety of large and mature canopied trees, beautiful birds and a plethora of other natural wildlife, Palm Aire is perfectly positioned as a natural sanctuary for Pompano West, that we as a community should protect and preserve for the benefits of our residents.
- Policy 01.06.13 Work with Broward County and interested stakeholders to study and recommend **incentives to preserve designated environmentally sensitive lands that are privately controlled**.
- Policy 01.06.08 Review all proposals for development with consideration to the County's Natural Resource Map Series and **discourage activities which would have a detrimental impact on significant natural resource areas** which may or may not be designated by Broward County as Local Areas of Particular Concern.
- Policy 01.07.18 Continue to implement the **incentives** for providing affordable housing per the policies in the Broward County Land Use Plan and/or in the City's land development regulations including the use of density bonuses, flex and redevelopment units for affordable housing and the expedited permit review process for developments primarily aimed at providing affordable housing.
 - What incentives exactly is COPB providing to this Canadian landowner?
- Policy 01.12.03 Utilize the existing flexibility provisions to facilitate

proposed mixed use developments in **urban infill areas** provided that the proposed developments are **compatible with the community character**

- **How is Palm Aire considered an “Urban infill” area? And who made such determination?**
 - **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members.**
 - **Moreover, FLEX is not compatible with Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
- **Policy 01.12.04** The City shall utilize flexibility units and reserve units to increase residential densities within the flex and reserve receiving areas when **consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities...
 - Again, wholly inconsistent with ALL of these requirements as explained throughout (the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah’s Entertainment.
 - Who’s building all the new schools, and when/where will they be built?
 - Of even greater concern is the fact that Broward County and Pompano Beach are projected to grow, in general, while the Broward County Public School district conflictingly suggests actual decreases in Broward County populations and student body attendance. Please explain this very concerning contradiction.
- **Objective 01.14.00** – Smart Growth Initiative The City will promote “Smart Growth” type initiatives providing for energy efficient development and land use patterns which also account for existing and future electrical power generation and transmission systems in an **effort to discourage urban sprawl** and **reduce greenhouse gasses** (please see questions re public buses above)
- **Policy 01.15.06** Quality, affordable housing opportunities shall be included as a functional component of **Regional Activity Centers** that allow for residential use
 - Palm Aire is not a Regional Activity Center

Policy 01.16.01 The City may designate a Transit Oriented Corridor **within an area approximately ¼ mile on either side of the mainline transit corridor**. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.

- The instant project site location is approx. 1.15 miles from Powerline Road as the crow flies (direct line). Walking distance is ~1.5 miles, or ~ 30 – 40 minutes, depending on age and health.
- Objective 01.19.00 – The City shall adopt the flexibility offered through Broward Next to allow additional development rights **in an activity center land use category, limited to the TOC, RAC, LAC, and TOD activity center districts**, without a Broward County Land Use Plan amendment.
 - I do not believe their project site is in any of the designated areas
- Policy 01.22.05 The City will work with the community to identify “food deserts” within neighborhoods and encourage quality food stores that meet the needs of the community to locate on appropriate sites in proximity to a majority of the area’s residents.
 - What is the City doing in terms of addressing the current food desert of Palm Aire, with only a single very small grocery store (Publix) with an approximate 2-mile radius from the project site? Moreover, how is the City addressing this very serious concern in consideration of the additional 4,100 units already approved for corporate giant Harrah’s Entertainment?
- Policy 03.03.02 Through the review of development proposals, the City shall support public and private sector efforts to create and/or preserve affordable housing for very-low, low and moderate-income groups in areas designated for residential land use for future and current residents recognizing the need for distance separation for subsidized low income tax credit projects of no less than one-half mile. **Review of such proposals shall be based on overall compatibility with already established residential areas...**
 - Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members

- Policy 03.03.04 To promote and support affordable housing, the **City shall consider locations that permit residents to walk or bike to work** which will provide savings to the residents, reduce traffic, promote health, and reduce carbon emissions.
 - There is absolutely no commercial opportunities for employment within walking distance from the project's site, as the project land is adjacent to Open Parks and Rec (inconsistent with the above FLEX/affordable housing requirement), and the nearest bus stop is about a 40 minute walk (also inconsistent with the City's requirement to promote FLEX along "major traffic corridors,"

In addition to the above inconsistencies with our Comprehensive Plan,

- **The project applications are wholly inconsistent with / in violation of the covenants that run with the land, binding on all successors in interest to the original owner FPA, pursuant to the Stipulation, Settlement and Master Plan Agreement for Palm Aire, as executed by Pompano Beach's then Mayor, City Manager, and City Clerk in July 1985** and recorded in the Broward County Public Records at Book 12707, Page 605 (even as Amended).
 - These covenants that run with the land are sacrosanct and not able to be disregarded or violated through the Canadian developers' request for FLEX housing (which in itself is inconsistent with the intent and requirements of Flex, as partially outlined herein).
 - The Master Agreement, even as amended, strictly prohibits a density within Palm Aire in excess of 7 dwelling units per acre, and explicitly limits the "maximum number of residential dwelling units permitted to be developed within Palm-Aire under the Broward County Land Use Plan and the City of Pompano Beach Land Use Plan is 10,631. There is no additional capacity permitted under the above Agreement, as amended, and it would be an inappropriate and violative use of Flex, as Flex does not grant the authority to trump the sacrosanct covenants that run with our land (which all of the unit owners in Palm Aire strictly relied upon when purchasing in Palm Aire).
- Moreover, the project appears to exceed the available Dwelling Units permitted pursuant to the **Broward County Capacity Limits**, as reflected on Exhibit 2 of the Broward County Land Use Plan last

updated on Sept. 8, 2023.

- Palm Aire Community is referenced as “Irregular Residential Zone 7”, and the aforementioned Exhibit 2 reflects “Potential Dwelling Unit” capacity for Irregular 7 at 1,911, which – upon information and belief - was exceeded some time ago.

- **FLEX Unit Capacity Limits. Notwithstanding the inappropriate use of Flex housing, as referenced throughout this email,** the only remaining “Flex Unit” capacity we could find via publicly available sources - in the same Exhibit 2 to the newly updated Land Map Plan for Broward County, to the City of Pompano Beach is 442 as of March 2017 – all of which have either been exhausted or should be carefully used in strict accordance with the requirements of Flex and in strict conformity with the Comprehensive Plan of Pompano Beach and the sacrosanct Covenants that run with Our Land.
 - If there are updated numbers of Flex allocations, why are they not readily available via publicly information? If there are updated numbers, or better sources of information on flex allocations and availability, please provide those updated figures ASAP, along with the source of where they are published for the viewing of the Residents of Pompano Beach.

Again, **considering all of the above, we would like to understand exactly how the City of Pompano is weighing:**

1. the interest of this foreign (Canadian) developer, who purchased this property at a significant discount due to the restrictive nature of Palm Aire, in general, and this particular parcel’s use (intended as a part of the restrictive Open Rec/Parks land that they operate and purchase as a golf course)

vs.

2. the interests of the actual local RESIDENTS of both Palm Aire and Pompano Beach (who strongly oppose this project, for a large list of valid and concerning reasons).

Ultimately, we respectfully request that the City of Pompano Beach strictly enforce the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the covenants that run with the land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in

public records for Clublink USA LLC). **Moreover, we hereby request a complete and transparent understanding of the approval process and decision-making authority (if sole authority lies with David Recor, as is currently our understanding – contrary to the City Commission review box being checked on Clublink/Canada, Inc.'s applications), please explain exactly where this sole authority is derived.** **If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.**

We appreciate your specific feedback to each of the above inconsistencies with the Comprehensive Plan of Pompano Beach (and the clear best interest of its Residents), and related concerns.

Respectfully,

Christian and Brooke Panagakos

Subject: Re: Oaks at Palm Aire / Flex Application; Inconsistencies with Comprehensive Plan, Covenants that Run with Land and Best-Interests of the Residents
Date: Wednesday, September 20, 2023 1:02:22 AM

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's **EMAIL ADDRESS** as legitimate and know the contents are safe.

If you look online for the Broward County land use/planning map updated for 2023 you will see Palm Aire is surrounded by a dashed line which according to the map legend makes it ineligible for flex units. We need an attorney with zoning experience to take a look at this and advise us as to how the city is getting around this.

Best regards,

Stewart Mittler

On Sep 19, 2023, at 10:31 AM, Attorney Christian Panagakos <cp@fbalegal.com> wrote:

Hello to the city employees mandated with the duty of representing the best interests of Pompano Beach Residents, and conformity with the Comprehensive Plan of Pompano Beach and all prior Covenants enacted by the City of Pompano Beach:

As some of you already know, I have been a Pompano Beach Resident since 1976, attending McNab Elementary, Pompano Beach Middle School and Pompano Beach High School. I have also been a frequent visitor of Palm Aire throughout, regularly visiting the family of Thor Amlie, founding architect of our beautiful and precious community. Palm Aire, with its very scarce and unique variety of fully-matured canopied trees, abundant wildlife and scarce open green space, is one of the few remaining historic icons of this very special City of Pompano Beach. **The city officials reviewing the current applications submitted by the foreign publicly-traded Canadian company of Clublink/Canada, inc. must do everything in their power to protect the natural and historic resources of Palm Aire – for the long-term benefit of the actual Residents of Palm Aire, Pompano Beach and Broward County, as a whole.**

To begin, there are many inconsistencies between the project's applications and intent as judged against and our own city's Comprehensive Plan, longstanding Covenants that run with our land, and the overall best-interest of the actual Residents of both Pompano Beach and Broward County. Some of these concerns are outlined below.

Ultimately, we strongly encourage that the City of Pompano Beach strictly enforce the policies, intent and objectives of the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the Covenants that run with Our Land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). If any of you, as representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

Inconsistencies with the Comprehensive Plan of Pompano Beach

- Policy 01.01.13 The City shall utilize flexibility units and redevelopment units to increase residential densities within the flex receiving area **when consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities; and has undergone a compatibility review relative to potential impacts on Environmentally Sensitive Lands and County or regional parks in accordance with Policy 2.10.01 of the Broward County Land Use Plan.
 - **Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Homeowner Associations and their respective unit-owner members.**
 - Moreover, **FLEX is not compatible with the adjacent Land Use designations of Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
 - Also, the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment. Who's building all the new schools, and when/where will they be built? Moreover, **the application unrealistically suggests there will only be 17 children in need of a public school** – with only 3 students projected as requiring a public middle school – at a school already at its permanent capacity level (considering the low-income nature of this project, this ridiculous suggestion should be viewed as a showing of bad faith by Canada, Inc.'s submission).
 - The city **must protect the safety of our children – as there is a public park and children playground almost adjacent to the project site, with a crosswalk intended to allow children and families to cross the road safely to enter and exit; and a public-school bus stop for elementary, middle and high school also within very close proximity.**
- Policy 01.03.02 Require residential densities of zoning districts to be **consistent with the densities on the Future Land Use Map.**
 - The density on the Future Land Use Map as to Palm Aire is explicitly identified as 10,631, and all of such capacity has already been allocated.

Policy 01.03.04 Consider the **preservation of established single family neighborhoods** in all rezonings, land use plan amendments and site plan approvals.

- There are single family homes directly across the street from the project

- Policy 01.04.01 The Planning Department shall support and promote the intermix of residential and commercial uses **along major traffic corridors, where mass transit is available**, through the allocation of flex and redevelopment units and approval of land use plan map amendments allowing for mixed use and residential developments.

- The Canadian company's project site is not "**along major traffic corridors, where mass transit is available**".
Approving a Flex application that is NOT along a major traffic corridor is completely contradictory to promoting it along major traffic corridors, as the city is required to do.
- The City's Comprehensive Plan specifically states that: "The goals, objectives and policies **promote transit oriented development along the major corridors**; support access to a comprehensive local and regional multi-modal transportation network that moves the City toward a balanced system that accommodates the pedestrian and transit users as well as drivers;
 - From the Department of Transportation: **Transit Oriented Development** is compact, mixed-use development **near transit facilities** providing high-quality walking environments. It usually includes new residential development, office space, and other service amenities that are **within a half-mile of public transportation** and easily commutable by other means such as walking and biking.
- In addition to the City's Plan for adequate public school capacity, **please also advise on the City's intent to strictly prohibit city buses from entering Palm Aire in general, and to the project site, specifically** (as no road in Palm Aire, including West Palm Aire currently meets the compatibility or requirement of a major traffic corridor)

- Policy 01.06.01 Consider and **minimize the impacts** that land use amendments, rezonings or site plan approvals have **on natural resources**, including wetlands, and culturally, **historically**, archaeologically and paleontologically **significant resources**.
 - **Palm Aire is just one of a few remaining historic landmarks of Pompano Beach.** The few others include Hillsboro

Lighthouse, the now Fisher Family Pier and the many waterways and beaches that permeate only the eastern sliver of our beautiful and historic city. To the west, there was Pompano Park Raceway, built in 1953 and opened for racing in 1964, but the City of Pompano already granted approval for that iconic piece of Pompano to be demolished by corporate giant Harrah's Entertainment, making way for a 223-acre expansion plan adding an additional 4,100 residential units, along with all of their many unattractive, congestive and accident-prone vehicles; thus, leaving Palm Aire as the only remaining sanctuary of Pompano Beach history to the West. And given Palm Aire's hundreds of acres of still-protected, undeveloped land, flourishing with such a unique variety of large and mature canopied trees, beautiful birds and a plethora of other natural wildlife, Palm Aire is perfectly positioned as a natural sanctuary for Pompano West, that we as a community should protect and preserve for the benefits of our residents.

- Policy 01.06.13 Work with Broward County and interested stakeholders to study and recommend **incentives to preserve designated environmentally sensitive lands that are privately controlled**.
- Policy 01.06.08 Review all proposals for development with consideration to the County's Natural Resource Map Series and **discourage activities which would have a detrimental impact on significant natural resource areas** which may or may not be designated by Broward County as Local Areas of Particular Concern.
- Policy 01.07.18 Continue to implement the **incentives** for providing affordable housing per the policies in the Broward County Land Use Plan and/or in the City's land development regulations including the use of density bonuses, flex and redevelopment units for affordable housing and the expedited permit review process for developments primarily aimed at providing affordable housing.
 - What incentives exactly is COPB providing to this Canadian landowner?
- Policy 01.12.03 Utilize the existing flexibility provisions to facilitate proposed mixed use developments in **urban infill areas provided that the proposed developments are compatible with the community character**
 - **How is Palm Aire considered an "Urban infill" area? And who made such determination?**

Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members.

- Moreover, **FLEX is not compatible with Open Park/Rec Space, as FLEX is intended to be located near commercial activity centers and adjacent to major traffic corridors.**
- Policy 01.12.04 The City shall utilize flexibility units and reserve units to increase residential densities within the flex and reserve receiving areas when **consistent with the community character; adjacent land uses; and public school capacity** both within Pompano and affected contiguous municipalities...
 - Again, wholly inconsistent with ALL of these requirements as explained throughout (the City must also consider the approved but undeveloped units to be developed, including the 4,100 the city approved for Harrah's Entertainment.
 - Who's building all the new schools, and when/where will they be built?
 - Of even greater concern is the fact that Broward County and Pompano Beach are projected to grow, in general, while the Broward County Public School district conflictingly suggests actual decreases in Broward County populations and student body attendance. Please explain this very concerning contradiction.
- Objective 01.14.00 – Smart Growth Initiative The City will promote "Smart Growth" type initiatives providing for energy efficient development and land use patterns which also account for existing and future electrical power generation and transmission systems in an **effort to discourage urban sprawl and reduce greenhouse gasses** (please see questions re public buses above)
- Policy 01.15.06 Quality, affordable housing opportunities shall be included as a functional component of **Regional Activity Centers** that allow for residential use
 - Palm Aire is not a Regional Activity Center
- Policy 01.16.01 The City may designate a Transit Oriented Corridor **within an area approximately ¼ mile on either side of the mainline transit corridor**. The area may extend beyond ¼ mile around all major intersections, activity nodes and in locations served by existing or funded community shuttle service.

- The instant project site location is approx. 1.15 miles from Powerline Road as the crow flies (direct line). Walking distance is ~1.5 miles, or ~ 30 – 40 minutes, depending on age and health.
- Objective 01.19.00 – The City shall adopt the flexibility offered through Broward Next to allow additional development rights **in an activity center land use category, limited to the TOC, RAC, LAC, and TOD activity center districts**, without a Broward County Land Use Plan amendment.
 - I do not believe their project site is in any of the designated areas
- Policy 01.22.05 The City will work with the community to identify “food deserts” within neighborhoods and encourage quality food stores that meet the needs of the community to locate on appropriate sites in proximity to a majority of the area’s residents.
 - What is the City doing in terms of addressing the current food desert of Palm Aire, with only a single very small grocery store (Publix) with an approximate 2-mile radius from the project site? Moreover, how is the City addressing this very serious concern in consideration of the additional 4,100 units already approved for corporate giant Harrah’s Entertainment?
- Policy 03.03.02 Through the review of development proposals, the City shall support public and private sector efforts to create and/or preserve affordable housing for very-low, low and moderate-income groups in areas designated for residential land use for future and current residents recognizing the need for distance separation for subsidized low income tax credit projects of no less than one-half mile. **Review of such proposals shall be based on overall compatibility with already established residential areas...**
 - Rental units are not compatible with the already established residential areas of Palm Aire, which is an ownership community, self-governed by Condo Associations, Home Owner Associations and their respective unit-owner members
- Policy 03.03.04 To promote and support affordable housing, the **City shall consider locations that permit residents to walk or bike to work** which will provide savings to the residents, reduce traffic, promote health, and reduce carbon emissions.
 - There is absolutely no commercial opportunities for employment within walking distance from the project’s site,

as the project land is adjacent to Open Parks and Rec (inconsistent with the above FLEX/affordable housing requirement), and the nearest bus stop is about a 40 minute walk (also inconsistent with the City's requirement to promote FLEX along "major traffic corridors,"

In addition to the above inconsistencies with our Comprehensive Plan,

- **The project applications are wholly inconsistent with / in violation of the covenants that run with the land, binding on all successors in interest to the original owner FPA, pursuant to the Stipulation, Settlement and Master Plan Agreement for Palm Aire, as executed by Pompano Beach's then Mayor, City Manager, and City Clerk in July 1985** and recorded in the Broward County Public Records at Book 12707, Page 605 (even as Amended).
 - These covenants that run with the land are sacrosanct and not able to be disregarded or violated through the Canadian developers' request for FLEX housing (which in itself is inconsistent with the intent and requirements of Flex, as partially outlined herein).
 - The Master Agreement, even as amended, strictly prohibits a density within Palm Aire in excess of 7 dwelling units per acre, and explicitly limits the "maximum number of residential dwelling units permitted to be developed within Palm-Aire under the Broward County Land Use Plan and the City of Pompano Beach Land Use Plan is 10,631. There is no additional capacity permitted under the above Agreement, as amended, and it would be an inappropriate and violative use of Flex, as Flex does not grant the authority to trump the sacrosanct covenants that run with our land (which all of the unit owners in Palm Aire strictly relied upon when purchasing in Palm Aire).
- Moreover, the project appears to exceed the available Dwelling Units permitted pursuant to the **Broward County Capacity Limits**, as reflected on Exhibit 2 of the Broward County Land Use Plan last updated on Sept. 8, 2023.
 - Palm Aire Community is referenced as "Irregular Residential Zone 7", and the aforementioned Exhibit 2 reflects "Potential Dwelling Unit" capacity for Irregular 7 at 1,911, which – upon information and belief - was exceeded some time ago.

FLEX Unit Capacity Limits. Notwithstanding the inappropriate use of Flex housing, as referenced throughout this email, the only remaining “Flex Unit” capacity we could find via publicly available sources - in the same Exhibit 2 to the newly updated Land Map Plan for Broward County, to the City of Pompano Beach is 442 as of March 2017 – all of which have either been exhausted or should be carefully used in strict accordance with the requirements of Flex and in strict conformity with the Comprehensive Plan of Pompano Beach and the sacrosanct Covenants that run with Our Land.

- If there are updated numbers of Flex allocations, why are they not readily available via publicly information? If there are updated numbers, or better sources of information on flex allocations and availability, please provide those updated figures ASAP, along with the source of where they are published for the viewing of the Residents of Pompano Beach.

Again, **considering all of the above, we would like to understand exactly how the City of Pompano is weighing:**

1. the interest of this foreign (Canadian) developer, who purchased this property at a significant discount due to the restrictive nature of Palm Aire, in general, and this particular parcel’s use (intended as a part of the restrictive Open Rec/Parks land that they operate and purchase as a golf course)

vs.

2. the interests of the actual local RESIDENTS of both Palm Aire and Pompano Beach (who strongly oppose this project, for a large list of valid and concerning reasons).

Ultimately, we respectfully request that the City of Pompano Beach strictly enforce the Comprehensive Plan of Pompano Beach (intended to protect and benefit the actual Residents of Pompano Beach), and the covenants that run with the land, and fully disregard the Comprehensive Plan of Canada, Inc (the sole Manager referenced in public records for Clublink USA LLC). Moreover, we hereby request a complete and transparent understanding of the approval process and decision-making authority (if sole authority lies with David Recor, as is currently our understanding – contrary to the City Commission review box being checked on Clublink/Canada, Inc.’s applications), please explain exactly where this sole authority is derived. If any of you, as

representatives of the Residents of Pompano Beach, are inclined to put the economic and financial interests of Canada, Inc. in front of those of the actual Residents, we hereby request that you articulate all factors considered in doing so and how the interests of Canada, Inc. and its constituents outweigh those of your very own Residents.

We appreciate your specific feedback to each of the above inconsistencies with the Comprehensive Plan of Pompano Beach (and the clear best interest of its Residents), and related concerns.

Respectfully,

Christian and Brooke Panagakos

Michael ,
You have articulated what every homeowner in the Palm Aire Community feels about this project. It seems from the meetings that have been held that the city officials including our District 5 councilman Barry Moss feel that this is already a fait accompli . We should keep fighting in hopes that the Broward county officials have more sense about this project . We have to use the power of our large Palm Aire Community to vote for leaders that care about Palm Aire and this Donor district 5 .
Ed Jankowski , Board Vice -President PACC 10

Subject: Re: OPPOSITION: The Oaks at Palm Aire
Date: Friday, September 22, 2023 4:50:29 PM

EXTERNAL Email: Do not reply, click links, or open attachments unless you recognize the sender's **EMAIL ADDRESS** as legitimate and know the contents are safe.

To Dan Bale, Our Mayor, Our Commissioner et al,

We are sending this email to you as our “officials”, elected to office (amongst other issues) to protect and preserve our property and our community. Please accept this email as our **strong opposition** to 'The Oaks at Palm Aire - a proposed housing development whose foreign (Canadian) principals are seeking permission to build a major housing project near to our beautiful green and open “backyards”.

Our building is “home” or “home away from home” for many Canadians - and none of them I have spoken with want this development in our vicinity. For this company this is simply a “money machine” as their homes are far away and “over the border” - but for most of us these are our homes - period.

The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course.

The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

First, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure.

This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. In addition, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already

been allocated.

Therefore, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map.

Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, we are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to vote NO to 'The Oaks at Palm Aire' proposed housing development.

This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach in 1985, which gave our owners (current and future) assurance that there would be no further buildings built when we purchased our homes. We do not know any residents of Condo Association 6 PalmAire who are in favor of this development. Please help us to retain the beauty and quietness of our lovely community.

September 20, 2023

City of Pompano Beach
City Hall Main Building
100 West Atlantic Boulevard
Pompano Beach, Florida 33060 - Third Floor

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Sincerely,

the undersigned:

Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map. Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. Mr. Rex Hardin, Mayor:

We are writing to express our strong opposition to 'The Oaks at Palm Aire' proposed housing development, in our neighborhood. The application titled 'The Oaks at Palm Aire' filed by Clublink US LLC, seeks permission for the construction of multi-family buildings, parking lots, and a golf cart barn, on the land currently occupied by the golf course. The proposed project includes 270 new flex units, comprising rental and mixed-income units. The fact of the matter is, that the proposed development will have a detrimental impact, on the Palm Aire community.

Firstly, the proposed development is too large for our area. If approved, it will increase the population density and put a strain, on our already overburdened infrastructure. This will lead to increased traffic congestion, noise pollution, and increased pressure on our public services. Additionally, the construction of this project will result in a significant reduction of natural water drainage, increasing the risk of flooding in the surrounding areas.

We understand that Pursuant to the Stipulation, Settlement, and Master Plan Agreement for Palm Aire, adopted by the City of Pompano Beach, in July 1985, the number of units that can be built in the area known as Palm Aire, as defined in both the city and county land use maps, is 10,631, and all those units have already been allocated. Thus, there are no units left for the city to allocate to this developer.

Furthermore, according to Broward County land use regulations, flex units cannot be granted in an area enclosed by a dashed line, on the Broward County land use map.

Palm Aire is enclosed by a dashed line on the Broward County land use map, and thus the developer is not entitled to receive the approval of any flex units from the city.

Moreover, the type of housing being proposed is not in keeping with the character of our neighborhood. For over five decades, Palm Aire has been populated with only individual owner properties, thus avoiding a high turnover resident rate and increasing the long-term community feel and character. This development will bring in many short-term residents, who will not build strong long-term ties to our community, which can lead to increased crime rates and other negative social effects. It will also drastically alter the aesthetic of our area, replacing the existing greenery and open spaces with five high-rise, high-density

housing complexes, with supporting structures.

Finally, We are deeply concerned about the impact this development will have, on property values in the surrounding area. Not only will some owners face parking lots and high-rise buildings, instead of the golf course/open space, they have had for more than 45 years, but the influx of short-term residents, very likely will result in a decline in property values.

We strongly urge you to deny 'The Oaks at Palm Aire' proposed housing development. This project is simply not the right fit for Palm Aire and appears to be contrary to the covenant agreed to by the City of Pompano Beach, in 1985.

Thank you for your attention to this matter.

Please honor us, the people, by reading our Petition.
Kenneth & Janine Campbell
3900 Oaks Clubhouse Drive
Apt 406, Pompano Beach 33069, FL
(954) 805 7989

Shady trees that have been growing and giving us vertical green space, oxygen, respite from sun and rain since before 1971. That's only 52 years. They have served me as cover during many of my walks through the years. They are in Death Row.
