MEMORANDUM NO. 24-101

DATE: September 30, 2024
TO: Gregory P. Harrison, City Manager
Via: A. Randolph Brown, Utilities Director
FROM: Nathaniel Watson, Utilities Field Operations Superintendent
SUBJECT: Ordinance: Pipeline Rehabilitation Piggyback Agreement No. 12376 Contract

Approval Request:

City Commission approval to award the Pipeline Rehabilitation Piggyback Agreement No. 12376 between the City of Pompano and Insituform Technologies Inc., LLC.

Explanation:

The Pipeline Rehabilitation Piggyback contract will allow the City to maintain and repair wastewater infrastructure using a trenchless method known as cured-in-place piping (CIPP). This technology restores piping structural integrity, reduces system infiltration, eliminates leaking pipe joints, improves water quality, and increases pipeline flow capacity through sewer mains and laterals without the inconvenience of digging up City streets.

Likewise, trenchless cured-in-place piping technology will be utilized to improve stormwater infrastructure.

Recommendation:

The Utilities Department recommends approving the Pipeline Rehabilitation Piggyback Agreement No. 12376 between the City of Pompano and Insituform Technologies Inc., LLC.

The fiscal impact is estimated not to exceed \$2,000,000.00 per fiscal year and shall be funded through the following budgeted accounts:

420-7248-535.65.12

426-7586-538-65.12
