SECTION 1. That Section 76.02, “Definitions,” of Chapter 76, “Parking Meters,” of the City of Pompano Beach Code of Ordinances is amended to read as follows:

§ 76.02 DEFINITIONS.

For the purpose of this chapter the following definitions shall apply unless the context clearly indicates or requires a different meaning:

APPROXIMATE NUMBER OF SPACES. The approximate number of parking spaces in the described location. The number is not intended to limit the number of parking spaces approved to be metered but is intended to provide information to the reader.

BULK PARKING. Is defined as three or more public parking spaces leased by the public for a period of one or more months at the recommendation of the Parking Manager and by agreement approved by City Manager or designee.

...

HURRICANE PARKING GRACE PERIOD. The period of time that the city does not charge for the use of the Pier Garage for parking by residents, nonresidents and businesses for the purpose of protecting their vehicles from a hurricane or other major storm or hazardous weather condition. May include one day before and one day following the event or as determined by the City Manager or his designee.

...

PARKING PERMIT DECAL, HANGTAG, ACCESS CARD, LICENSE PLATE READER, ~~OR~~ AVI STICKER AND SMART PHONE PARKING APP AUTHORIZATION. The city may issue a decal, access card, prepaid access card, license plate reader permit, hangtag, ~~or~~ Automatic Visual Identification (AVI) readable sticker and mobile phone prepaid parking app authorization to a purchaser of a resident pass, business pass, or garage pass that allows the purchaser’s vehicle to be parked in a Parking Meter Zone without having to advance funds into the meter or through the use of the Pay By App, subject to restrictions and to the charges established by § 76.06.

PARKING RATE ZONE. Areas of the city that provide parking meters are divided into zones within which the meter rates are consistent within its own zone. There are multiple parking rate zones, since meter rates will vary according to location and demand. Rates within each zone will also vary during different times of the year, such as during the off-season, season, and events and holidays.

...

RESIDENCY. As used in this chapter, residency may be established by the presentation of the following:

(1) A declaration of domicile or a Broward County Voters Registration Certificate, a valid picture identification, or Driver License, and one of the following with a matching Pompano Beach address: current lease, current utility bill, mortgage statement or current cable or internet bill that are less than 60 days old.

(2) The city may, in its sole discretion, during any period of time an individual enjoys the benefits of residency status, require the individual to present written documents to the appropriate city personnel to establish any of the forms of residency as set forth above. In addition, the individual may be requested to execute an affidavit under oath in which the individual declares that the representations made to the city regarding residency are true.

In the event that residency is established by an individual, that individual's spouse or children residing in the same household shall also be entitled to residency rates.

...

SECTION 2. That Section 76.06, "Parking Meter Zones and Fees Established," of Chapter 76, "Parking Meters," and Section 76.06(A), "Designated Parking Meter Zones and Meter Fees," of the City of Pompano Beach Code of Ordinances is hereby amended to read as follows:
