Re: Arborist Findings for Northwest 6th Avenue and Northwest 6th Street, Pompano Beach, FL

To Whom It May Concern,

I visited the above-mentioned property on Tuesday, August 31, 2021, to evaluate +/- seven trees/palms, verify condition, relocation suitability, measurements, perform Rule 14-40 appraisals and note any significant defects.

Please see attached tree table with data collected in the field including species, height, width, diameter at breast height (dbh), clear trunk, health condition, health condition percentage, Rule 14-40 Appraisal values, relocation evaluations, and pertinent notes. A numbered aerial tree overlay has also been attached for review. A total of four trees and three palms were evaluated.

End Report
