MEMORANDUM #2021-45

DATE: April 20, 2021

TO: Carla R. Byrd, General Services Director

FROM: Nathaniel J Watson, Water/Reuse Construction Manager

VIA: Brian Donovan, Assistant City Manager
A. Randolph Brown, Utilities Director
Benjamin R. Bray, Utilities Field Superintendent

SUBJECT: E-11-21 Bid Award Recommendation for Water Interconnect Upgrades

Approval Request:

City Commission approval to award the qualified low bid for solicitation E-11-21 Water Systems Interconnect Upgrades and authorization to negotiate a construction service contract for the subject project.

Explanation:

The City has several outdated water system interconnects with neighboring utilities that lack safe accessibility for proper maintenance and operation. These connections serve as an approved alternative for water supply during critical emergency events of water demand and/or quality.

Southeastern Engineering Contractors, Inc. has satisfactorily performed a prior upgrade that modernized a City interconnect and improved the infrastructure for safe accessibility, proper maintenance and operation.

Recommendation:

Based on the submitted bid package review and prior documented work affiliation, the Utilities Department recommends bid approval award to Southeastern Engineering Contractors, Inc. The contractor's proposal was the lowest and most responsive. The construction shall be budgeted through the following account:

❖ 420-7566-533-65.12
