REQUEST FOR QUALIFICATIONS (RFQ)
P-50-18

Planning and Design Services for Seven Park Facility Improvement Projects

Pursuant to Florida Statutes Chapter 287.055 "Consultants' Competitive Negotiation Act" (CCNA) the City of Pompano Beach invites professional firms to submit qualifications and experience for consideration to provide engineering, architecture and landscape architectural services to the City for the following projects:

- 1 - McNair Park Renovations (estimated maximum design fees \$475k, max.)
- 2 - Youth Sports Complex (estimated design fees \$375k, max.)
- 3 - Centennial Park Improvements (estimated design fees \$165k, max.)
- 4 - Kester Park Improvements (estimated design fees \$220k, max.)
- 5 - North Pompano Park Improvements (estimated design fees \$465k, max.)
- 6 - Ultimate Sports Park Improvements (estimated design fees \$450k, max.)
- 7 - Mitchell Moore Park Improvements (estimated design fees \$215k, max.)

The City will receive sealed proposals until **2:00 p.m. (local), October 22, 2018**. Proposals must be submitted electronically through the eBid System on or before the due date/time stated above. Any proposal received after the due date and time specified, will not be considered. Any uncertainty regarding the time a proposal is received will be resolved against the Proposer.

Proposer must be registered on the City's eBid System in order to view the solicitation documents and respond to this solicitation. The complete solicitation document can be downloaded for free from the eBid System as a pdf at: <https://pompanobeachfl.ionwave.net/CurrentSourcingEvents.aspx>. The City is not responsible for the accuracy or completeness of any documentation the Proposer receives from any source other than from the eBid System. Proposer is solely responsible for downloading all required documents. Responses will be electronically unsealed in a public forum and proposer names will be read aloud.

Mandatory Pre-Submittal Meeting

There will be a mandatory pre-submittal meeting to review the City's expectations for the project, including backgrounds and scopes, and answer questions from potential proposers on **October 9, 2018, beginning at 1:00 p.m.** in the Development Services Conference Room, 100 West Atlantic Blvd., 3rd Floor, Pompano Beach, Florida, 33060. **Proposals will not be accepted from firms that do not attend the pre-proposal conference.**

1. Scope Of Services

The City intends to issue a contract(s) to one or more professional engineering, architecture, and/or landscape architecture firm(s) to provide professional consulting services to the City for the design, bidding, and construction phase services for the seven park projects listed above. The City intends to short-list a minimum of one (1) and a maximum of three (3) firms. The number one ranked firm will be eligible for the contract with the highest anticipated fees' schedule. The number two ranked firm will be eligible for the second highest, and so forth. Should the City choose to select three (3) firms, then the number one ranked firm would be eligible for projects 1, 2, and 3. The number two firm would be eligible for projects 4 and 5, and the number 3 firm for projects 6 and 7. Should the City choose to select two (2) firms, then the number one (1) ranked firm may be retained for projects 1, 2, 3 and 4, while the number two (2) firm would be eligible for projects 5, 6, and 7.

Awards will be based on negotiated terms. Should the City be unable to come to terms with the number one ranked firm, then the City may choose to start negotiations with the number two firm. Should the City be unable to come to terms with the number two firm, the City may choose to negotiate with the number three firm. If the City is unable to come to terms with any of the short-listed firms, the City may choose to work with the number four ranked firm, and so forth. At any time, the City reserves the right to re-advertise and seek a new pool of applicants.

Proposed improvements vary by park. Anticipated design elements may include expansion, renovation and equipping facilities to include lighted synthetic football/soccer field, running track, tennis court, basketball court, playground with water features to include splash pad, meeting rooms, concession and senior center; replacement of flooring and renovating front desk areas; expanding the playground, open fields, ball fields, replacing dug outs and installation of perimeter fencing, etc. Other improvements may also be necessary and may be determined during the design process.

The Scope of Services may include, but is not limited, to the following:

- Prepare preliminary design reports, project schedules, feasibility analyses, site plans and/or design alternative recommendations and preliminary cost estimates. Identify any design restrictions resulting from unusual park-like configurations.
- Identify any tests that may be necessary to carry out a sound design including soils, concrete strength, permeability/percolation, density, pot holeing, etc.
- Prepare a detailed cost estimate at the 30%, 60% and 90% design intervals to confirm initial budget allocations and/or to seek City's advice before proceeding with final designs. The firm will be responsible for cost controls throughout the design and construction project except for design and construction elements added or deleted by an expressed City directive.
- Work hand-in-hand with a Construction Manager at Risk (CMAR) during the design process to ensure targeted construction costs can be met and constructability efforts will not result in a product that does not meet the City's expectations. Value engineering may be considered as a function of meeting budgets, but not at the expense of lesser quality.
- Conduct presentations to elected officials, advisory boards, staff, and the public.

- Prepare all required bidding and construction documents for the projects. This will include preparing surveys, design plans, supplementary contract requirements, technical specifications, cost estimates, responses to requests for information.
- Prepare plans for review and approval by Development Review Committee (DRC); Planning and Zoning (P&Z); Architectural Appearance Committee (AAC); City's Building Department; Broward County Traffic Engineering; Broward County Water Resources; Florida Department of Health (HRS); Florida Department of Environmental Protection (FDEP); Florida Department of Transportation (FDOT); and/or, any other government agency or City Department having jurisdiction or requiring plan review and approval.
- Attendance at City Commission, Advisory Committee meetings, pre-design, design, bidding and bid award meetings will be required.

Firms and/or any subconsultants must have previous experience in infrastructure projects, and must be licensed to practice Professional Engineering, Architecture, Landscape Architecture, Electrical Engineering, and Irrigation in the State of Florida.

PERMITTING/CONSTRUCTION ADMINISTRATION

Selected firm shall be responsible for all aspects of permitting and approvals except for specific requirements affecting the contractor(s). This section refers to preparation of permit applications and necessary plans (whether paper or electronic submittals), minimum number of site inspections, close-outs, construction progress meetings, change order's review, as-built plans, etc., as it may be deemed necessary for final project certification. The City, at its sole discretion, may choose to issue a contract for Construction Administration Services or carry out said activities with in-house Staff (i.e., own inspection services, etc.).

Firms must have previous municipal experience.

2. Tasks/Deliverables

Firms will provide plans at various intervals (30-60-90%) for City staff review. Firms will prepare 100% construction plans. Firms will assist during the permitting process and ensure documents are addressed in a timely fashion. Firms will provide onsite supervision on an as needed basis and as required for final project certification.

3. Local Business Program

On March 13, 2018, the City Commission approved Ordinance 2018-112, establishing a Local Business Program, a policy to increase the participation of City of Pompano Beach businesses in the City's procurement process.

For purposes of this solicitation, "Local Business" will be defined as follows:

1. **TIER 1 LOCAL VENDOR. POMPANO BEACH BUSINESS EMPLOYING POMPANO BEACH RESIDENTS.** A business entity which has maintained a permanent place of business within the city limits and maintains a staffing level, within this local office, of at least ten percent who are residents of the City of Pompano Beach or includes subcontracting commitments to Local Vendors Subcontractors for at least ten percent of the contract value. The permanent place of business may not be a post office box. The business must be located in a non-residential zone, and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the city. In addition, the business must have a current business tax receipt from the City of Pompano Beach for a minimum of one year prior to the date of issuance of a bid or proposal solicitation.
2. **TIER 2 LOCAL VENDOR. BROWARD COUNTY BUSINESS EMPLOYING POMPANO BEACH RESIDENTS OR UTILIZING LOCAL VENDOR SUBCONTRACTORS.** A business entity which has maintained a permanent place of business within Broward County and maintains a staffing level, within this local office, of at least 15% who are residents of the City of Pompano Beach or includes subcontracting commitments to Local Vendors Subcontractors for at least 20% of the contract value. The permanent place of business may not be a post office box. The business must be located in a non-residential zone, and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the city. In addition, the business must have a current business tax receipt from the respective Broward County municipality for a minimum of one year prior to the date of issuance of a bid or proposal solicitation.
3. **LOCAL VENDOR SUBCONTRACTOR. POMPANO BEACH BUSINESS.** A business entity which has maintained a permanent place of business within the city limits of the City of Pompano Beach. The permanent place of business may not be a post office box. The business must be located in a non-residential zone, and must actually distribute goods or services from that location. The business must be staffed with full-time employees within the limits of the city. In addition, the business must have a current business tax receipt from the City of Pompano Beach for a minimum of one year prior to the date of issuance of a bid or proposal solicitation.

You can view the list of City businesses that have a current Business Tax Receipt on the City's website, and locate local firms that are available to perform the work required by the bid specifications. The business information, sorted by business use classification, is posted on the webpage for the Business Tax Receipt Division: www.pompanobeachfl.gov by selecting the Pompano Beach Business Directory in the Shop Pompano! section.

The City of Pompano Beach is **strongly committed** to insuring the participation of City of Pompano Beach Businesses as contractors and subcontractors for the procurement of goods and services, including labor, materials and equipment. Proposers are required to participate in the City of Pompano Beach's Local Business Program by

including, as part of their package, the Local Business Participation Form (Exhibit A,) listing the local businesses that will be used on the contract, and the Letter of Intent Form (Exhibit B) from each local business that will participate in the contract.

The required goal for this RFP is 10% for Local Vendor.

If a Prime Contractor/Vendor is not able to achieve the level of goal attainment of the contract, the Prime Vendor will be requested to demonstrate and document that good faith efforts were made to achieve the goal by providing the Local Business Unavailability Form (Exhibit C), listing firms that were contacted but not available, and the Good Faith Effort Report (Exhibit D), describing the efforts made to include local business participation in the contract. This documentation shall be provided to the City Commission for acceptance.

The awarded proposer will be required to submit "Local Business Subcontractor Utilization Reports" during projects and after projects have been completed. The reports will be submitted to the assigned City project manager of the project. The Local Business Subcontractor Utilization Report template and instructions have been included in the bid document.

Failure to meet Local Vendor Goal commitments will result in "unsatisfactory" compliance rating. Unsatisfactory ratings may impact award of future projects if a sanction is imposed by the City Commission.

The city shall award a Local Vendor preference based upon vendors, contractors, or subcontractors who are local with a preferences follows:

1. For evaluation purposes, the Tier 1 and Tier 2 businesses shall be a criterion for award in this Request for Proposal (RFP). No business may qualify for more than one tier level.
2. For evaluation purposes, local vendors shall receive the following preferences:
 - a. Tier 1 business as defined by this subsection shall be granted a preference in the amount of five percent of total score.
 - b. Tier 2 business as defined by this subsection shall be granted a preference in the amount of two and one-half percent of total score.
3. It is the responsibility of the awarded vendor/contractor to comply with all Tier 1&2 guidelines. The awarded vendor/contractor must ensure that all requirements are met before execution of a contract.
4. **Required Proposal Submittal**

Sealed proposals shall be submitted electronically through the eBid System on or before the due date/time stated above. Proposer shall upload response as one (1) file to the eBid System. The file size for uploads is limited to 100 MB. If the file size exceeds 100 MB the response must be split and uploaded as two (2) separate files.

Information to be included in the proposal: In order to maintain comparability and expedite the review process, it is required that proposals be organized in the manner specified below, with the sections clearly labeled:

Title page:

Show the project name and number, the name of the Proposer's firm, address, telephone number, name of contact person and the date.

Table of Contents:

Include a clear identification of the material by section and by page.

Letter of Interest:

A Letter of Interest, signed by an authorized representative of your firm, expressing your understanding of the project and expressing a positive commitment to provide the services described herein. In the letter, include:

- complete corporate name of the primary firm responding
- applicable Federal Tax Identification Number
- address
- telephone and fax numbers
- name, title, and email of the person to contact regarding your submission

Please limit this section to two pages.

Technical Approach:

Firms or teams shall submit their technical approach to the tasks described in the scope, including details of how each phase of the project would be completed, and how their firm proposes to maintain time schedules and cost controls.

Schedule:

Proposer shall provide a timeline that highlights proposed tasks that will meet all applicable deadlines.

Project Team Form:

Submit a completed "Project Team" form. The purpose of this form is to identify the key members of your team, including any specialty subconsultants.

Organizational Chart:

Specifically identify the management plan (if needed) and provide an organizational chart for the team. The proposer must describe at a minimum, the basic approach to these projects, to include reporting hierarchy of staff and sub-consultants, clarify the individual(s) responsible for the co-ordination of separate components of the scope of services.

Statement of Skills and Experience of Project Team:

Describe the experience of the entire project team as it relates to the types of projects described in the Scope section of this RLI. Include the experience of the prime consultants as well as other members of the project team; i.e., additional personnel, sub-consultants, branch office, team members, and other resources anticipated to be utilized for this project. Name specific projects (successfully completed within the past five years) where the team members have performed similar projects previously.

Resumes of Key Personnel

Include resumes for key personnel for prime and subconsultants.

References:

References for past 5 or more projects in the tri-county area (Broward, Palm Beach, and Miami-Dade.) Describe the scope of each project in physical terms and by cost, describe the respondent's responsibilities, and provide the contact information (name, email, telephone number) of an individual in a position of responsibility who can attest to respondent's activities in relation to the project.

List any prior projects performed for the City of Pompano Beach.

Office Locations:

Identify the location of the office from which services will be rendered, and the number of professional and administrative staff at the prime office location. Also identify the location of office(s) of the prime and/or sub consultants that may be utilized to support any or all of the professional services listed above and the number of professional and administrative staff at the prime office location.

If firms are situated outside the local area, (Broward, Palm Beach, and Miami-Dade counties) include a brief statement as to whether or not the firm will arrange for a local office during the term of the contract, if necessary.

Local Businesses:

Completed Local Business program forms, Exhibits A-D.

Minority Business Enterprises:

It is the intent of the City of Pompano Beach to encourage minority and women owned firms to participate in the process. The methods by which this is accomplished should be developed and presented by the respondents in their submissions.

For any member of your team that is a certified Minority Business Enterprise (as defined by the State of Florida) you must include copies of their certifications for them to be considered toward Item 5 in the evaluation criteria. Complete Exhibit I and include all certificates in your electronic submittal.

Litigation:

Disclose any litigation within the past five (5) years arising out your firm's performance, including status/outcome.

City Forms:

Responses should include all City forms as stated above. Required forms must be completed and submitted electronically through the City's eBid System.

5. Insurance

The insurance described herein reflects the insurance requirements deemed necessary for this contract by the City. It is not necessary to have this level of insurance in effect at the time of submittal, but certificates indicating that the insurance is currently carried

or a letter from the Carrier indicating upgrade ability will speed the review process to determine the most qualified Proposer.

The successful Proposer(s) shall not commence operations until certification or proof of insurance, detailing terms and provisions of coverage, has been received and approved by the City of Pompano Beach Risk Manager.

The following insurance coverage shall be required.

- a. Worker's Compensation Insurance covering all employees and providing benefits as required by Florida Statute, Chapter 440, regardless of the size of the company (number of employees). The Contractor further agrees to be responsible for employment, control and conduct of its employees and for any injury sustained by such employees in the course of their employment.
- b. Liability Insurance
 - 1) Naming the City of Pompano Beach as an additional insured, on General Liability Insurance only, in connection with work being done under this contract.
 - 2) Such Liability insurance shall include the following checked types of insurance and indicated minimum policy limits.

LIMITS OF LIABILITY

Type of Insurance	each occurrence	aggregate
GENERAL LIABILITY: MINIMUM \$1,000,000 per OCCURRENCE/\$1,000,000 AGGREGATE		
* Policy to be written on a claims incurred basis

XX	other than umbrella	combined	\$2,000,000.	\$2,000,000.

XX **PROFESSIONAL LIABILITY** \$2,000,000. \$2,000,000.
* Policy to be written on a claims made basis

The certification or proof of insurance must contain a provision for notification to the City, and the City's contracted law enforcement provider if applicable, thirty (30) days in advance of any material change in coverage or cancellation.

The successful Proposer shall furnish to the City the certification or proof of insurance required by the provisions set forth above, within ten (10) days after notification of award of contract.

6. Selection/Evaluation Process

A Selection/Evaluation Committee will be appointed to select the most qualified firm(s). The Selection/Evaluation Committee will present their findings to the City Commission.

The Committee will rank responses based upon the following criteria.

<u>Criteria</u>	<u>Point Range</u>
1. Prior experience of the firm with projects of similar size and complexity:	0-40
a. Number of similar projects	
b. Complexity of similar projects	
c. References from past projects performed by the firm	
d. Previous projects performed for the City	
e. Litigation within the past 5 years arising out of firm's performance	
2. Qualifications of personnel including sub consultants:	0-30
a. Organizational chart for project	
b. Number of technical staff	
c. Qualifications of technical staff:	
(1) Number of licensed staff	
(2) Education of staff	
(3) Experience of staff on similar projects	
3. Proximity of the nearest office to the project location:	0-5
a. Location	
b. Number of staff at the nearest office	
4. Technical approach to perform the tasks described in the Scope of Services:	0-25
a. Level of effort	
b. Effectiveness of the technical approach to complete each phase of the project, maintain time schedules and cost control	
 Total	 0-100

Additional 0-5% for Tier1/Tier2 Local Business will be calculated on combined scoring totals of each company

Value of Work Previously Awarded to Firm (Tie-breaker) - In the event of a tie, the firm with the lowest value of work as a prime contractor on City of Pompano Beach projects within the last five years will receive the higher ranking, the firm with the next lowest value of work shall receive the next highest ranking, and so on. The analysis of past work will be based on the City's Purchase Order and payment records.

The Committee has the option to use the above criteria for the initial ranking to short-list Proposers and to use an ordinal ranking system to score short-listed Proposers following presentations (if deemed necessary) with a score of "1" assigned to the short-listed Proposer deemed most qualified by the Committee.

Each firm should submit documentation that evidences the firm's capability to provide the services required for the Committee's review for short listing purposes. After an initial review of the Proposals, the City may invite Proposers for an interview to discuss the proposal and meet firm representatives, particularly key personnel who would be assigned to the project. Should interviews be deemed necessary, it is understood that the City shall incur no costs as a result of this interview, nor bear any obligation in further consideration of the submittal.

When more than three responses are received, the committee shall furnish the City Commission (for their approval) a listing, in ranked order, of no fewer than three firms deemed to be the most highly qualified to perform the service. If three or less firms respond to the RLI, the list will contain the ranking of all responses.

The City Commission has the authority to (including, but not limited to); approve the recommendation; reject the recommendation and direct staff to re-advertise the solicitation; or, review the responses themselves and/or request oral presentations and determine a ranking order that may be the same or different from what was originally presented to the City Commission.

7. Hold Harmless and Indemnification

Proposer covenants and agrees that it will indemnify and hold harmless the City and all of its officers, agents, and employees from any claim, loss, damage, cost, charge or expense arising out of any act, action, neglect or omission by the Proposer, whether direct or indirect, or whether to any person or property to which the City or said parties may be subject, except that neither the Proposer nor any of its subcontractors will be liable under this section for damages arising out of injury or damage to persons or property directly caused by or resulting from the sole negligence of the City or any of its officers, agents or employees.

8. Right to Audit

Contractor's records which shall include but not be limited to accounting records, written policies and procedures, computer records, disks and software, videos, photographs, subcontract files (including proposals of successful and unsuccessful bidders), originals estimates, estimating worksheets, correspondence, change order files (including documentation covering negotiated settlements), and any other supporting evidence necessary to substantiate charges related to this contract (all the foregoing hereinafter referred to as "records") shall be open to inspection and subject to audit and/or

reproduction, during normal working hours, by Owner's agent or its authorized representative to the extent necessary to adequately permit evaluation and verification of any invoices, payments or claims submitted by the contractor or any of his payees pursuant to the execution of the contract. Such records subject to examination shall also include, but not be limited to, those records necessary to evaluate and verify direct and indirect costs (including overhead allocations) as they may apply to costs associated with this contract.

For the purpose of such audits, inspections, examinations and evaluations, the Owner's agent or authorized representative shall have access to said records from the effective date of this contract, for the duration of the Work, and until 5 years after the date of final payment by Owner to Consultant pursuant to this contract.

Owner's agent or its authorized representative shall have access to the Contractor's facilities, shall have access to all necessary records, and shall be provided adequate and appropriate work space, in order to conduct audits in compliance with this article. Owner's agent or its authorized representative shall give auditees reasonable advance notice of intended audits.

Contractor shall require all subcontractors, insurance agents, and material suppliers (payees) to comply with the provisions of this article by insertion of the requirements hereof in any written contract agreement. Failure to obtain such written contracts which include such provisions shall be reason to exclude some or all of the related payees' costs from amounts payable to the Contractor pursuant to this contract.

9. Retention of Records and Right to Access

The City of Pompano Beach is a public agency subject to Chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Law, as amended. Specifically, the Contractor shall:

- a. Keep and maintain public records required by the City in order to perform the service;
- b. Upon request from the City's custodian of public records, provide the City with a copy of requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes or as otherwise provided by law;
- c. Ensure that public records that are exempt or that are confidential and exempt from public record requirements are not disclosed except as authorized by law;
- d. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the City; and
- e. Upon completion of the contract, transfer, at no cost to the City, all public records in possession of the Contractor, or keep and maintain public records required by

the City to perform the service. If the Contractor transfers all public records to the City upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records in a format that is compatible with the information technology systems of the City.

10. No Discrimination

There shall be no discrimination as to race, sex, color, age, religion, or national origin in the operations conducted under any contract with the City.

11. Independent Contractor

The selected firm will conduct business as an independent contractor under the terms of this contract. Personnel services provided by the firm shall be by employees of the firm and subject to supervision by the firm, and not as officers, employees, or agents of the City. Personnel policies, tax responsibilities, social security and health insurance, employee benefits, purchasing policies and other similar administrative procedures applicable to services rendered under this agreement shall be those of the firm.

12. Staff Assignment

The City of Pompano Beach reserves the right to approve or reject, for any reasons, Proposer's staff assigned to this project at any time. Background checks may be required.

13. Contract Terms

The contract resulting from this RFQ shall include, but not be limited to the following terms:

The contract shall include as a minimum, the entirety of this RFQ document, together with the successful Proposer's proposal. Contract shall be prepared by the City of Pompano Beach City Attorney.

If the City of Pompano Beach defends any claim, demand, cause of action, or lawsuit arising out of any act, action, negligent acts or negligent omissions, or willful misconduct of the contractor, its employees, agents or servants during the performance of the contract, whether directly or indirectly, contractor agrees to reimburse the City of Pompano Beach for all expenses, attorney's fees, and court costs incurred in defending such claim, cause of action or lawsuit.

14. Waiver

It is agreed that no waiver or modification of the contract resulting from this RLI, or of any covenant, condition or limitation contained in it shall be valid unless it is in writing and duly executed by the party to be charged with it, and that no evidence of any waiver or modification shall be offered or received in evidence in any proceeding, arbitration, or litigation between the parties arising out of or affecting this contract, or the right or obligations of any party under it, unless such waiver or modification is in writing, duly executed as above. The parties agree that the provisions of this paragraph may not be waived except by a duly executed writing.

15. Survivorship Rights

This contract resulting from this RFQ shall be binding on and inure to the benefit of the respective parties and their executors, administrators, heirs, personal representative, successors and assigns.

16. Termination

The contract resulting from this RFQ may be terminated by the City of Pompano Beach without cause upon providing contractor with a least sixty (60) days prior written notice.

Should either party fail to perform any of its obligations under the contract resulting from this RFQ for a period of thirty (30) days after receipt of written notice of such failure, the non-defaulting part will have the right to terminate the contract immediately upon delivery of written notice to the defaulting part of its election to do so. The foregoing rights of termination are in addition to any other rights and remedies that such party may have.

17. Manner of Performance

Proposer agrees to perform its duties and obligations under the contract resulting from this RFQ in a professional manner and in accordance with all applicable local, federal and state laws, rules and regulations.

Proposer agrees that the services provided under the contract resulting from this RFQ shall be provided by employees that are educated, trained and experienced, certified and licensed in all areas encompassed within their designated duties. Proposer agrees to furnish the City of Pompano Beach with all documentation, certification, authorization, license, permit, or registration currently required by applicable laws or rules and regulations. Proposer further certifies that it and its employees are now in and will maintain good standing with such governmental agencies and that it and its employees will keep all license, permits, registration, authorization or certification required by applicable laws or regulations in full force and effect during the term of this contract. Failure of Proposer to comply with this paragraph shall constitute a material breach of contract.

18. Acceptance Period

Proposals submitted in response to this RFQ must be valid for a period no less than ninety (90) days from the closing date of this solicitation.

19. RFQ Conditions and Provisions

The completed proposal (together with all required attachments) must be submitted electronically to City on or before the time and date stated herein. All Proposers, by electronic submission of a proposal, shall agree to comply with all of the conditions, requirements and instructions of this RFQ as stated or implied herein. All proposals and supporting materials submitted will become the property of the City.

Proposer's response shall not contain any alteration to the document posted other than entering data in spaces provided or including attachments as necessary. By submission of a response, Proposer affirms that a complete set of bid documents was obtained from the eBid System or from the Purchasing Division only and no alteration of any kind has been made to the solicitation. Exceptions or deviations to this solicitation may not be added after the submittal date.

All Proposers are required to provide all information requested in this RFQ. Failure to do so may result in disqualification of the proposal.

The City reserves the right to postpone or cancel this RFQ, or reject all proposals, if in its sole discretion it deems it to be in the best interest of the City to do so.

The City reserves the right to waive any technical or formal errors or omissions and to reject all proposals, or to award contract for the items herein, in part or whole, if it is determined to be in the best interests of the City to do so.

The City shall not be liable for any costs incurred by the Proposer in the preparation of proposals or for any work performed in connection therein.

20. Standard Provisions

a. Governing Law

Any agreement resulting from this RFQ shall be governed by the laws of the State of Florida, and the venue for any legal action relating to such agreement will be in Broward County, Florida.

b. Licenses

In order to perform public work, the successful Proposer shall:

Be licensed to do business in Florida, if an entity, and hold or obtain such Contractor' and Business Licenses if required by State Statutes or local ordinances.

c. Conflict Of Interest

For purposes of determining any possible conflict of interest, each Proposer must disclose if any Elected Official, Appointed Official, or City Employee is also an owner, corporate officer, or an employee of the firm. If any Elected Official, Appointed Official, or City Employee is an owner, corporate officer, or an

employee, the Proposer must file a statement with the Broward County Supervisor of Elections pursuant to §112.313, Florida Statutes.

d. Drug Free Workplace

The selected firm(s) will be required to verify they will operate a "Drug Free Workplace" as set forth in Florida Statute, 287.087.

e. Public Entity Crimes

A person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a proposal on a contract to provide any goods or services to a public entity, may not submit a proposal on a contract with a public entity for the construction or repair of a public building or public work, may not submit proposals on leases of real property to public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Florida Statute, Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

f. Patent Fees, Royalties, And Licenses

If the selected Proposer requires or desires to use any design, trademark, device, material or process covered by letters of patent or copyright, the selected Proposer and his surety shall indemnify and hold harmless the City from any and all claims for infringement by reason of the use of any such patented design, device, trademark, copyright, material or process in connection with the work agreed to be performed and shall indemnify the City from any cost, expense, royalty or damage which the City may be obligated to pay by reason of any infringement at any time during or after completion of the work.

g. Familiarity With Laws

It is assumed the selected firm(s) will be familiar with all federal, state and local laws, ordinances, rules and regulations that may affect its services pursuant to this RFQ. Ignorance on the part of the firm will in no way relieve the firm from responsibility.

h. Withdrawal Of Proposals

A firm may withdraw its proposal without prejudice no later than the advertised deadline for submission of proposals by written communication to the General Services Department, 1190 N.E. 3rd Avenue, Building C, Pompano Beach, Florida 33060.

i. Composition Of Project Team

Firms are required to commit that the principals and personnel named in the proposal will perform the services throughout the contractual term unless

otherwise provided for by way of a negotiated contract or written amendment to same executed by both parties. No diversion or substitution of principals or personnel will be allowed unless a written request that sets forth the qualifications and experience of the proposed replacement(s) is submitted to and approved by the City in writing.

j. Invoicing/Payment

All invoices should be sent to City of Pompano Beach, Accounts Payable, P.O. Drawer 1300, Pompano Beach, Florida, 33061. In accordance with Florida Statutes, Chapter 218, payment will be made within 45 days after receipt of a proper invoice.

k. Public Records

1. The City of Pompano Beach is a public agency subject to Chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Law, as amended. Specifically, the Contractor shall:
 - a. Keep and maintain public records required by the City in order to perform the service;
 - b. Upon request from the City's custodian of public records, provide the City with a copy of requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes or as otherwise provided by law;
 - c. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the City; and
 - d. Upon completion of the contract, transfer, at no cost to the City, all public records in possession of the Contractor, or keep and maintain public records required by the City to perform the service. If the Contractor transfers all public records to the City upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records in a format that is compatible with the information technology systems of the City.
2. Failure of the Contractor to provide the above described public records to the City within a reasonable time may subject Contractor to penalties under 119.10, Florida Statutes, as amended.

PUBLIC RECORDS CUSTODIAN

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK

100 W. Atlantic Blvd., Suite 253

Pompano Beach, Florida 33060

(954) 786-4611

RecordsCustodian@copbfl.com

21. Questions and Communication

All questions regarding the RFQ are to be submitted using the Questions feature in the eBid System. Questions must be received at least seven (7) calendar days before the scheduled solicitation opening. Oral and other interpretations or clarifications will be without legal effect. Addenda will be posted to the RFQ solicitation in the eBid System, and it is the Proposer's responsibility to obtain all addenda before submitting a response to the solicitation.

22. Addenda

The issuance of a written addendum or posting of an answer in response to a question submitted using the Questions feature in the eBid System are the only official methods whereby interpretation, clarification, or additional information can be given. If any addenda are issued to this RFQ solicitation the addendum will be issued via the eBid System. It shall be the responsibility of each Proposer, prior to submitting their response, to contact the City Purchasing Office at (954) 786-4098 to determine if addenda were issued and to make such addenda a part of their proposal. Addenda will be posted to the RFQ solicitation in the eBid System.

23. Contractor Performance Report

The City will utilize the Contractor Performance Report to monitor and record the successful proposer's performance for the work specified by the contract. The Contractor Performance Report has been included as an exhibit to this solicitation.

Note: Communications

No negotiations, decisions, or actions shall be initiated or executed by the firm as a result of any discussions with any City employee. Only those communications, which are in writing from the City, may be considered as a duly authorized expression on behalf of the City. In addition, only communications from firms that are signed and in writing will be recognized by the City as duly authorized expressions on behalf of firms.

COMPLETE THE PROJECT TEAM FORM ON THE ATTACHMENTS TAB IN THE EBID SYSTEM. PROPOSERS ARE TO COMPLETE FORM IN ITS ENTIRETY AND INCLUDE THE FORM IN YOUR PROPOSAL THAT MUST BE UPLOADED TO THE RESPONSE ATTACHMENTS TAB FOR THE RLI IN THE EBID SYSTEM.

ADDENDUM #2, RFQ P-50-18

**PLANNING AND DESIGN SERVICES FOR
SEVEN PARK FACILITY IMPROVEMENT PROJECTS**

To Whom It May Concern,

Please review the following additional requirements for RFQ P-50-18.

Reviewed and Audited Financial Statements:

Proposers shall be financially solvent and appropriately capitalized to be able to service the City for the duration of the contract. Proposers shall provide a complete financial statement of your firm's most recent reviewed and audited financial statements indicating organization's financial condition and **uploaded as a separate file titled "Financial Statements" to the Response Attachments tab in the eBid System.** Financial statements provided shall not be older than six (6) months prior to the date of filing this Prequalification Application. The financial statements are to be reviewed and submitted with any accompanying notes and supplemental information.

The City of Pompano Beach reserve the right to reject financial statements in which the financial condition shown is of a date six (6) months or more prior to the date of filing. The City is a public agency subject to Chapter 119, Florida's Public Records Law and is required to provide the public with access to public records, however, financial statements that are required as submittals to prequalify for a solicitation will be exempt from public disclosure.

The City reserves the right to request additional information to ensure the proposer is financially solvent and has sufficient financial resources to perform the contract and shall provide proof thereof of its financial solvency. The City may as at its sole discretion ask for additional proof of financial solvency, including additional documents post proposal opening, and prior to evaluation that demonstrates the Proposer's ability to perform the resulting contract and provide the required materials and/or services.

The remainder of the solicitation is unchanged at this time.

Sincerely,

Jill Klaskin Press, CPPO

ADDENDUM #5, RFQ P-50-18

**PLANNING AND DESIGN SERVICES FOR
SEVEN PARK FACILITY IMPROVEMENT PROJECTS**

To Whom It May Concern,

- 1) RFQ P-50-18. Removal of "Essential Requirements" form from "Response Attachment" tab.
- 2) Replace verbiage for "Reviewed and Audited Financial Statements" with the following:

Reviewed and Audited Financial Statements:

Proposers shall be financially solvent and appropriately capitalized to be able to service the City for the duration of the contract. Proposers shall provide a complete financial statement of the firm's most recent audited financial statements, indicating organization's financial condition and uploaded as a separate file titled "Financial Statements" to the Response Attachments tab in the eBid System.

Financial statements provided shall not be older than twelve (12) months prior to the date of filing this solicitation response. The financial statements are to be reviewed and submitted with any accompanying notes and supplemental information. The City of Pompano Beach reserve the right to reject financial statements in which the financial condition shown is of a date twelve (12) months or more prior to the date of submittals.

The City is a public agency subject to Chapter 119, Florida's Public Records Law and is required to provide the public with access to public records, however, financial statements that are required as submittals to prequalify for a solicitation will be exempt from public disclosure.

The City reserves the right to request additional information to ensure the proposer is financially solvent and has sufficient financial resources to perform the contract and shall provide proof thereof of its financial solvency. The City may as at its sole discretion ask for additional proof of financial solvency, including additional documents post proposal opening, and prior to evaluation that demonstrates the Proposer's ability to perform the resulting contract and provide the required materials and/or services.

A combination of two (2) or more of the following may substitute for audited financial statements:

- 1) Bank letters/statements for the past 3 months
- 2) Balance sheet, profit and loss statement, cash flow report
- 3) IRS returns for the last 2 years

Addendum #3, P-54-18

- 4) Letter from CPA showing profits and loss statements (certified)
- 5) NOTE:

NOTE: Financial statements that are required as submittals to prequalify for a solicitation will be exempt from public disclosure; however, financial statements submitted to prequalify for a solicitation, and are not required by the City, may be subject to public disclosure

The remainder of the solicitation is unchanged at this time.

Sincerely,
Jill Klaskin Press, CPPO
Purchasing Consultant

**P-50-18 Addendum 5
Supplier Response
BERMELLO AJAMIL & PARTNERS, INC.**

Event Information

Number: P-50-18 Addendum 5
 Title: Planning & Design Services for Seven Park Facility Improvement Projects
 Type: Request for Qualifications
 Issue Date: 9/7/2018
 Deadline: 10/22/2018 02:00 PM (ET)
 Notes: Pursuant to Florida Statutes Chapter 287.055 "Consultants' Competitive Negotiation Act" (CCNA) the City of Pompano Beach invites professional firms to submit qualifications and experience for consideration to provide engineering, architecture and landscape architectural services to the City for the following projects:

- 1 - McNair Park Renovations (estimated maximum design fees \$475k, max.)
- 2 - Youth Sports Complex (estimated design fees \$375k, max.)
- 3 - Centennial Park Improvements (estimated design fees \$165k, max.)
- 4 - Kester Park Improvements (estimated design fees \$220k, max.)
- 5 - North Pompano Park Improvements (estimated design fees \$465k, max.)
- 6 - Ultimate Sports Park Improvements (estimated design fees \$450k, max.)
- 7 - Mitchell Moore Park Improvements (estimated design fees \$215k, max.)

The City will receive sealed proposals until 2:00 p.m. (local), October 22, 2018. Proposals must be submitted electronically through the eBid System on or before the due date/time stated above. Any proposal received after the due date and time specified, will not be considered. Any uncertainty regarding the time a proposal is received will be resolved against the Proposer.

Proposer must be registered on the City's eBid System in order to view the solicitation documents and respond to this solicitation. The complete solicitation document can be downloaded for free from the eBid System as a pdf at:
<https://pompanobeachfl.ionwave.net/CurrentSourcingEvents.aspx>. The City is not responsible for the accuracy or completeness of any documentation the Proposer receives from any source other than from the eBid System. Proposer is solely responsible for downloading all

required documents. Responses will be electronically unsealed in a public forum and proposer names will be read aloud.

Mandatory Pre Submittal Meeting

There will be a mandatory pre submittal meeting to review the City's expectations for the project, including backgrounds and scopes, and answer questions from potential proposers on October 9, 2018, beginning at 1:00 p.m. in the Development Services Conference Room, 100 West Atlantic Blvd., 3rd Floor, Pompano Beach, Florida, 33060. Proposals will not be accepted from firms that do not attend the pre-proposal conference

Bid Attributes

1 Acknowledgement of Addenda

Check this box to acknowledge that you have reviewed all addenda issued for this solicitation.

2 Terms & Conditions

Check the box indicating you agree to the terms and conditions of this solicitation.

3 Conflict of Interest

For purposes of determining any possible conflict of interest, all bidders must disclose if any City of Pompano Beach employee is also an owner, corporate officer, or employee of their business. Indicate either "Yes" (a City employee is also associated with your business), or "No". (Note: If answer is "Yes", you must file a statement with the Supervisor of Elections, pursuant to Florida Statutes 112.313.) Indicate yes or no below with the drop down menu.

4 Drug-Free Workplace

Whenever two or more bids which are equal with respect to price, quality, and service are received for the procurement of commodities or contractual service, a bid received from a business that certifies that it has implemented a Drug-free Workplace Program shall be given preference in the award process. If bidder's company has a Drug-free Workplace Program as outlined in General Conditions, section 32., indicate that by selecting yes in the drop down menu.

5 Vendor Certification Regarding Scrutinized Companies Lists (Any Dollar Amount)

Section 215.4725, Florida Statutes, prohibits agencies from contracting (at any dollar amount) with companies on the Scrutinized Companies that Boycott Israel List, or with companies that are engaged in a boycott of Israel. As the person authorized to electronically sign on behalf of Respondent, I hereby certify by selecting the box below that the company responding to this solicitation is not listed on the Scrutinized Companies that Boycott Israel List. I also certify that the company responding to this solicitation is not participating in a boycott of Israel, and is not engaged in business operations in Syria or Cuba. I understand that pursuant to sections 287.135 and 215.4725, Florida Statutes, the submission of a false certification may subject company to civil penalties, attorney's fees, and/or costs.

Bidder Company Name Bermello Ajamil & Partners, Inc**Qualifications Of Bidders**

To demonstrate qualifications to perform the work, and to be considered for award, each bidder shall submit at least three (3) business customer references. Provide information for business customers for whom you have performed work of this nature which you list as references, excluding the City of Pompano Beach. (Use an attachment if necessary.)

**RE: City of Pompano Beach, RFQ P-50-18
Planning and Design Services for Seven Park Facility Improvement Projects**

Dear Evaluation Committee Members,

Bermello Ajamil & Partners, Inc. (B&A) along with our partnering sub-consultants, are pleased to provide our response to the Request For Qualifications: Planning & Design Services for Seven Park Facility Improvement Projects. B&A will be the Prime Consultant for this proposal and has assembled a team of exemplary professionals uniquely qualified with significant experience in the City of Pompano Beach and South Florida, bringing a level of understanding and first-hand knowledge of the overall vision and goals the City has for its parks.

B&A has over 30 years of experience designing parks and public spaces for a variety of agencies including the City of Pompano Beach. Our team brings all of the necessary technical, management, and creative skills needed to execute the anticipated scope of work in a manner that will provide the City with superb design and planning skills while keeping within established budgets and project schedules.

B&A has successfully developed and built numerous park and municipal projects for a wide number of clients which include the Pompano Beach Library, 31st. Avenue, Collier City Park and George Brummer Park, in Pompano Beach, James Archer Smith and Wittkop Parks in Homestead, Margaret Pace Park in the City of Miami, Palmetto Bay Park in the Village of Palmetto Bay, and several parks in the City of Doral including Doral Meadows Park, Morgan Levy Park and J.C. Bermudez Park.

As the Partner-In-Charge for this project, I will be responsible for overall management of this contract. As Vice President and Partner at B&A and Director of the Planning, Landscape Architecture, and Urban Design Studios, I have overseen and managed numerous park projects and brings a diversity of skills required. In addition, Kirk Olney, our senior landscape architect, will serve as the Project Manager and the direct contact between our team and the City for the duration of the projects. Mr. Olney will be responsible for ensuring that the City's needs are met on a daily basis.

Along with B&A, each of the firms selected for our team understands how to tackle projects of varying sizes and complexity from conceptual design through construction. Moreover, our team is a collection of highly qualified local talent, representing some of the most prominent consulting firms in their respective fields of expertise. The individual team

roles for this assignment are as follows:

PRIME CONSULTANT

The B&A team is committed to this assignment and we welcome the opportunity to work with the City of Pompano Beach again and present our proposal to you and the selection committee.

Respectfully,

Randy P. Hollingworth

Vice President - Partner - Director Landscape Architecture - Planning - Urban Design
 Rhollingworth@bamiami.com

Technical Approach

Our Team's approach and design philosophy strives to achieve our Client's needs and vision while reflecting our passion for innovation and design excellence. From years of consulting experience, we have learned that successful projects require a thorough understanding of our Client's goals as well as methodical planning with respect to existing conditions, permitting, budgetary constraints, scheduling, security and long-term maintenance. By listening, partnering and becoming an extension of your City staff, we will develop the foundation for successful park projects. We also understand that you as a public Client is a fundamentally unique Client type with multiple stakeholders and regulatory review entities requiring a very important public involvement role. Our Team is well versed in the process required for this type of Client and is able to mediate between expedience to meet schedule constraints and patience with the process of stakeholder review in support of achieving a project's design objectives. Having reviewed the City's RFQ for professional services, we understand the scope of work the City anticipates under this contract. The Team we have assembled for this assignment offers all of the services outlined in the Scope of Work and we are confident we can provide unparalleled service for each assignment.

The following are the key components of the scope of services listed in the RFQ and how our Team will address them for each park assignment:

1. Design Reports/Project Schedules/Feasibility Analyses/Site Plans/Design Restrictions

Although these tasks cover a wide range of work assignments within the park plan development process, the B&A Team has extensive experience in all of them. The Team has developed Design Reports for a wide range of project types and will assist the City in developing such reports if needed. These reports are valuable summaries of the project status and helpfull in disseminating information about the project at any one point in the design process.

We will develop flexible project schedules that are based on realistic goals, task identification and task interrelationships. We will confirm that each task fits within the overall project and target dates and provides for contingencies within the work

plan. We will develop a complete time line for each project depending on the scope of work. Whether this be a simple assignment to replace plant material or the design of a regional park, we will meet with the City at the beginning of each project to understand the needs of the City and confirm the schedule meets the City's expectations. From that point on, we will regularly review the schedule to confirm the project is meeting specific milestones and if not, what steps need to be taken to meet the time line commitments. We have found that delays during construction can be substantially reduced by regular clear communication between the Client, our Team and the selected CM@R Contractor. We also understand the need to provide prompt responses to any RFI's released by the Contractor.

The Team has carried out various assignments requiring the need for a comprehensive Feasibility Analysis. With our in house expertise and subconsultants, we have the breadth of knowledge that will allow us to provide the City with a complete review of any land development opportunity taking into consideration the wide range of factors that will impact a project.

Our approach to every assignment is to first, listen. This occurs before we draw a single line or even develop a free hand sketch. We understand that you as our Client have very specific budgets, time lines, goals and objectives for your projects and

understanding those elements are critical to assuring a project's success. We also believe our role is to provide both the City and the community viable and creative alternatives in our site plans. This allows all stakeholders to view a project from a different perspective and encourages solutions which are unique to their location and context. We do not simply copy the successful parks we have designed in other communities. Although certainly not the only communication method, detailed readable site plans play a critical role in the development process and how design ideas and concepts are communicated to you as the Client and the community at large. Our site plans are the result of creative thinking and a collaborative effort of Team work and City involvement.

The identification of design restrictions are what we consider to be one of the most important first steps in the development of any park project. Understanding the limitations that affect a design are critical in the process of developing plans which are both realistic and appropriate.

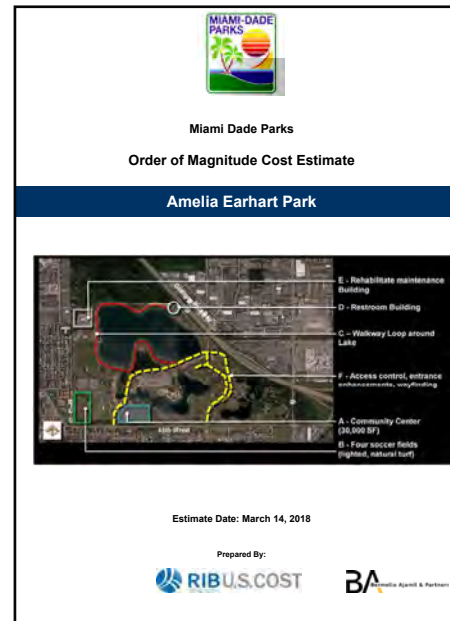

2. Testing (Soils, Concrete Strength, Permeability/Percolation, Density, Pot Holeing)

We have a complete Team of inhouse and subconsultant professionals who can identify, manage and direct a wide range of testing programs. We will also inform the City if any tests that have already been completed require further data collection or if different testing is required.

Since soil composition and percolation are critical factors when developing parks, we have included Tierra South Florida on our team, an excellent Geotechnical firm with extensive experience in this area. A critical elements to establishing efficient drainage, plant growth and building design are the soils composition and our Team will thoroughly investigate these before any conceptual or detailed design work is begun.

3. Detailed Cost Estimates (30%, 60%, 90%) and Cost Controls

We will design each project to meet the budgetary constraints established by the City. We will assist the City in establishing a project budget, and if needed, value engineer the project to ensure that it is within the established project budget. Due

Total Direct Cost Walkway Loop				\$986,635

to tight municipal budgets, we are accustomed to value engineering our plans to develop projects which meet high levels of design intent yet are realistic for our Client's budget. B&A has the experience in park development and design to help the City create memorable and successful public open spaces.

We have included one of the leading cost estimating firms in south Florida, RIB US Cost on our team. They will be constantly monitoring the project's costs as we move through the design process and will prepare detailed cost estimates at each milestone, working closely with the Team and the City to assure the budget is maintained and the project can be built with the available funds. Our past experience with US Cost has indicated the cost estimates they develop are very accurate and provide the level of detail needed to fully evaluate project budgets. If needed, they will also work closely with our Team and the City to effectively value engineer the project without sacrificing project quality.

If the City utilizes a Construction Manager at Risk process, the 60% and 90% estimates may not be necessary as they are often performed by the CM@R. This can be a considerable cost saving for the City. The B&A Team will work closely with the selected CMAR to develop accurate cost estimates at all phases of the project.

4. Construction Manager at Risk (CMAR)

The B&A Team has worked on projects based on various Contractor/Owner scenarios but in our experience, seasoned owners and developers are leaning more and more towards a CMAR project delivery model. So much so that CMAR delivery accounts for almost 85% of all our projects in the past decade. Three of our largest and most recent park projects were successfully constructed utilizing the CMAR system. The governing priorities which underlie our support of this process are that CMAR's mandate a unified commitment by all stakeholders for transparency, collaboration, and budget/schedule control and construction innovation.

Our team's experience and success with Construction Manager at Risk projects are unprecedented. So much so, we would hardly call the process a "risk."

5. Presentations to elected officials, advisory boards, staff and the public

The B&A Team will be available throughout the design process to attend and prepare any type of presentation needed by the City. We have considerable experience at conducting presentations for a wide range of stakeholders, public officials and review boards. In addition, working with our own inhouse public involvement group,

headed by Tere Garcia, we are capable of leading the City through any type of public meetings, presentations or workshops. We will utilize design communication tools, such as renderings, surveys, models, computer animations, simulations and material samples to communicate the design intent and elicit comments at meetings. These presentations are tools to educate the public, elected officials and stakeholders about the project, to hear their concerns, and to profit from their insights during design phase. The design critiques are then taken back to the drawing board in order to integrate the user groups' ideas into the final design. Obtaining the community's support in projects of this nature is critical. Understanding the needs of the community and managing expectations will be a key element within the design process.

Should it be needed, Tere's many years of experience managing public workshops, developing and implementing community outreach programs and working closely with community groups in Cities throughout South Florida allows us to fully manage a complete Community participation process. We would keep this group involved throughout the process from design to the final construction phase where interaction with the community can alleviate many construction activity/community conflicts.

We assist our Clients in developing public awareness programs that promote public buy-in to public improvement projects through activities such as forums, open houses, community meetings quarterly newsletters websites and public hearings. We believe the most successful park projects are those that "evolve" from the community and are a direct response to community needs and desires.

6. Bidding Documents/Construction Drawings/Surveys/Specifications/RFI's

Successful projects rely on carefully prepared plans and documents which do not expose the City to cost over runs or change orders. Quality is an important issue that must be addressed throughout an entire project. A consistent philosophy must be set which will be carried through the planning, design and construction process. B&A has a company-wide Quality Control Program that commences at the start of a project. This provides for a continuous check process and quality assurance throughout the entire development of the project. It is our Firm's view that quality work is the direct result of careful, properly sequenced production, and continuous "responsible professional" checking of each work element for completion and correctness.

Our Quality Control Program will perform detailed checks for accuracy, errors and omissions prior to substantial completion and before each "phase" submittal for the City's review. Established checking procedures are at each "phase" of the design to assure our special effort to produce accurate documents and "red flag" elements that need further attention. This allows continuous monitoring and coordination of all aspects of a project, assures the inclusion of any City staff review comments and requirements and results in the acceptance of only high quality work.

When the project reaches the construction phase, we will assure that every effort is made to see that construction proceeds in accordance with the contractual requirements, plans, specifications, and applicable codes in force at the time of permitting. As part of this quality control process, samples of materials, shop drawings, mock-ups, etc., may be required prior to the commencement of the physical work of that component from various contractors or subcontractors to establish acceptable levels of workmanship. A control process is then put in place to document and ensure that these goals are delivered, while maintaining direct communication with the City staff to advise on the status of approved work, specification infractions and corrective measures. The purpose of this ongoing program is to assure the

implementation of the project is in accordance with the contractual requirements, plans, specifications, applicable codes, accepted industry standards and within a predetermined cost and time framework.

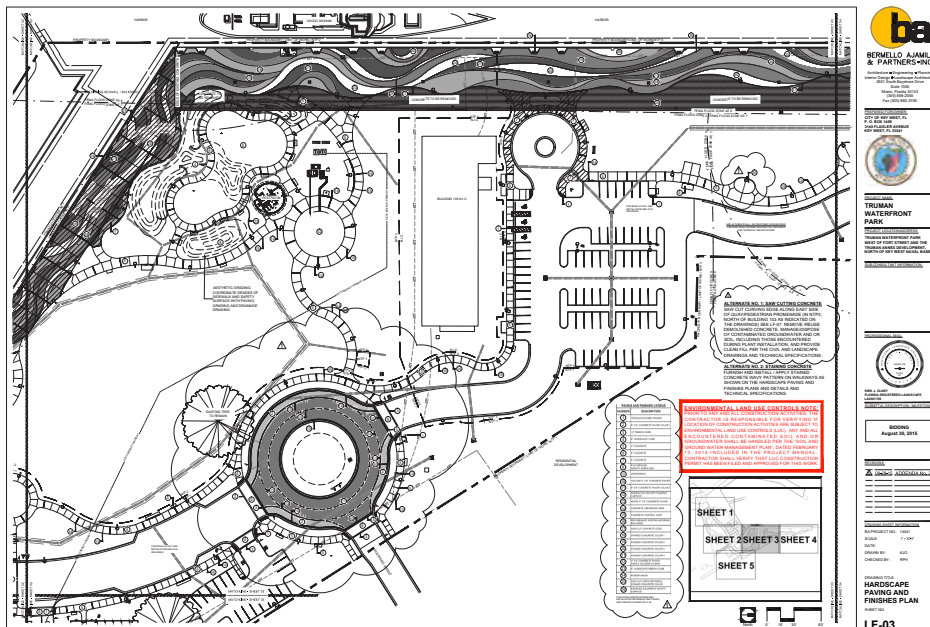

7. Plans for Review (DRC, P&Z, AAC, Building Department, HRS, FDEP and FDOT)

One of the key principals our Team has learned working with approval agencies, is the need to meet with them early in the design process. By clearly understanding their requirements in the preparation of review plans, we have saved our Clients considerable time and money. Long, drawn out review periods resulting from inadequate drawings can cost serious time delays and cost over runs. The preparation of all of our review plans will undergo the same scrutiny in our Quality Control Program as the construction drawings and specifications.

8. Meetings (City Commission, Advisory Committee, Pre Design, Bidding and Award)

Throughout the development of each project, the B&A Team members will be available to attend any meetings or presentations the City requires. Our offices are in close proximity to Pompano Beach and we can provide assistance on a moment's notice whether it be meeting local residents or attending a City Commission meeting. With David Harris serving as the Civil Engineer on our team and with his business located in the City, we are virtually in the community 24/7.

The B&A Team fully understands the Scope of Services specified in the RFQ and is committed to providing the City of Pompano Beach with projects which contribute to the community, improve the quality of life for your residents and expand the City's recreational opportunities with projects that set the Pompano Beach Parks system apart from any other community in South Florida.

Project Management Method

To meet the needs of the City, B&A understands that a strong project management program is crucial. B&A has developed an extremely effective methodology for all of its projects. It starts by understanding both the micro and macro issues.

The most critical first step of any project is the preparation of a preliminary performance schedule and project management strategy. In addition to the performance schedule, B&A will implement the following project management tools:

1 PROJECT GUIDELINES

At the start of the project, B&A will prepare Project Guidelines which will include all requirements by the review agencies, code requirements and design approvals the project must follow by City, County, State and Federal jurisdictions. In essence, this will provide a manual to the entire team establishing the "Authority Having Jurisdiction" for the project.

2 COMMUNICATIONS

It is critical at the start of the project to establish proper protocol and follow a "Chain of Command" and point of contact for each discipline. This will assure agreement on the format for memos, phone conversations and e-mails. Our Team believes that regular communication with you, our Client is critical to the success of the project. Our Clients are always kept aware of the status of a project and are immediately informed of any potential issues or conflicts.

3 TEAM MEETINGS

For each phase of the project, B&A will prepare a schedule for Team workshops and Team meetings to insure that decisions are made when needed and the momentum of the project remains constant during the project.

4 ACTION ITEMS/HOT LIST

As part of the meeting minutes, we will prepare a "Hot List", which is a comprehensive list of issues and action items that require resolution by established key dates. The Hot List is reviewed at every team meeting and tracks the development and/or progress of items that are on the "Critical Path of Travel" for that particular phase.

At this stage, the scope of each project is varied based on the park selected and it is difficult for our team to determine a timeline for any specific assignment. Once our team is awarded a project, we will meet with City of Pompano Beach staff to determine a realistic time schedule for the project scope.

We will routinely update this schedule throughout the project to assure the City of Pompano Beach expectations are met and that key components in the program are completed on schedule.

COMPLETE THE PROJECT TEAM FORM ON THE ATTACHMENTS TAB IN THE EBID SYSTEM. PROPOSERS ARE TO COMPLETE FORM IN ITS ENTIRTY AND INCLUDE THE FORM IN YOUR PROPOSAL THAT MUST BE UPLOADED TO THE RESPONSE ATTACHMENTS TAB FOR THE RLI IN THE EBID SYSTEM.

SUB CONSULTANT TEAM

SPECIALTY CONSULTANT TEAM

Overview of the Project Team

BERMELLO AJAMIL & PARTNERS, INC.

Architecture, Landscape Architecture & Planning

Bermello Ajamil & Partners Inc. (B&A) is a local firm providing Architecture, Engineering, Landscape Architecture, Planning, Urban Design, Interior Design and Construction Services. We specialize in providing these services to both public and private clients.

B&A has extensive experience in providing Architectural and Engineering services for the City of Pompano Beach, as well as other municipalities. Our municipal clients range in size and complexity from small towns and villages to large metropolitan areas. Because of our first-hand experience in working for the City of Pompano Beach, we fully understand the dynamics that are involved with contracts for the City, and will work hard to be responsive to the City's needs throughout the duration of the project.

B&A's experience ranges from community centers, parks and recreational facilities, streetscapes, and neighborhood/community master plans, to aquatic facilities, public safety complexes, parking garages, roadways, construction, and many others.

For this proposal, we have put together a seasoned team of inhouse professionals and sub-consultants that have previous experience working for the City of Pompano Beach, and we are confident that they will bring all of the necessary technical, management, and creative skills necessary to execute the scope of work outlined in the RFQ. Our Team can achieve this in a manner that will provide the City of Pompano Beach with superb design and engineering skills while keeping within established budgets and meeting specific project schedules. Our broad experience base, coupled with the unique composition of our Team, allows the City to work with one multidisciplinary group to achieve multiple successful projects.

HARRIS ENGINEERING, INC.

Civil Engineering

Harris Engineering, Inc. is a **local Pompano Beach based** general civil engineering firm that has developed thousands of acres of residential, commercial, and industrial property throughout Broward County. These developments include utility extension projects, transportation improvement projects, and general water, sewer, paving, and drainage plans for new developments.

Mr. Harris has contributed to the design or redevelopment of numerous park projects throughout his career. Mr. Harris has an extensive water management background and has served as the district engineer for the North Springs Improvement District, the Coral Springs Improvement District, and the Sunshine Water Control District. Harris Engineering, Inc. is currently working on and has recently completed several projects for the City of Coconut Creek's utility department where the City's sanitary sewer collection system has been analyzed; the system's flexibility has been greatly enhanced by upgrading small segments and adding new isolation valves. Harris Engineering, Inc. also recently completed the civil engineering, grading, and water management for the Pompano Beach Library - Beach Branch, a collaboration with Bermello Ajamil & Partners, Inc.

MUENGINEERS, INC.

Structural Engineering

MUEngineers, Inc. is a full service, dynamic structural engineering and inspection firm. They have a sound understanding of all types of building processes and provide services for commercial, industrial, legal, and residential clients for any type and size of project. Whether they are designing a one floor, an eight floor or a thirty-floor building, it is important for us to select the structural system which best suits the project, while keeping in mind the project budget, constructability, and local construction techniques and methods.

Their integrated approach to engineering is process driven, utilizing an open office and collaborative design environment to provide a well-coordinated design within the shortest possible timeline. They are committed to creating the best solutions for every project, while maintaining client satisfaction. This approach has accounted for over 90% of our work stemming from either "repeat" or "referral" clients.

They offer a full range of structural engineering services, including: structural design, specialty engineering, structural assessments, threshold, special and 40-year inspections, restoration and peer reviews and feasibility studies.

In addition to new construction, they have extensive experience with remodels, restorations and renovations of existing structures needing additional space, upgrades, or repairs of failing structural components. Example projects include: wood observation deck and tower repairs, hotel remodels, sea wall restorations, water proofing replacements, all types of concrete restoration and corrosion protections, airport expansions, water park features, etc.

As a company, they strive to be the industry leaders in terms of our design approach. They use the latest editions of the structural design and analysis software, as well as building information modeling (BIM) software to deliver a high quality set of construction documents. Our collaborative, solutions-oriented approach combined with our expansive experience and creativity provide for competent, practical, economical and sustainable outcomes.

DELTA G CONSULTING ENGINEERS

Mechanical, Electrical, Plumbing and Fire Protection Engineering

Delta G Consulting Engineers, Inc. was founded in 1992 and registered with the USGBC. They are a full service consulting engineering firm dedicated to providing our clients with the highest quality electrical, HVAC, plumbing and fire protection engineering services at a competitive cost. Delta G office has a total of 5 Registered Professional Engineers, 13 Engineers/Designers, and support staff; including, 12 LEED Accredited Professionals. They have over 300 years of Engineering Experience with the average engineer having 18 years of experience.

They are experienced in low-rise, mid-rise and high-rise residential and office building design, hospitals, fire and police stations, airports, schools, library, municipal, retail, hotel, and single family custom homes design. Delta G is centrally located to serving clients in Miami-Dade, Monroe, Broward and Palm Beach Counties. Our headquarters is located in Downtown Fort Lauderdale and they have offices in Coral Gables. Possessing a firm understanding of large-scale projects; Delta G professionals bring to the design team strong relationships with major institutional clients and an in-depth knowledge of the engineering disciplines. Clients trust them to conduct research, present options, and deliver thorough, accurate, timely construction documents, reports, and analysis.

Stephen Bender joins the team with over 24 years of design experience in the Mechanical Engineering industry, including 8 years as a Project Manager for Delta G Consulting Engineers Inc.

TIERRA SOUTH FLORIDA

Geotechnical Engineering

Tierra South Florida, Inc. (TSF) is a full-service consulting geotechnical engineering, construction materials testing and inspections engineering firm with capabilities to provide test borings, engineering analyses and reports, AutoCAD and Microstation plan sheets, laboratory soils testing, and construction materials testing. Their services also include threshold/special inspections and roofing inspection services. TSF was incorporated in the State of Florida in 2003.

TSF provides a complete range of geotechnical engineering services. Their organization helps define the construction and long-term performance risks associated with subsurface conditions. TSF will evaluate and then develop recommendations regarding both existing structures and new construction. Applications are for all types of buildings, airport facilities, transportation systems, landfills, dams, and other civil and private projects.

Their professional team has been working together since 2000 and is committed to providing quality, responsive service establishing a reputation for sound approaches and professional competence in a wide range of technically demanding areas. TSF is a certified Disadvantaged Business Enterprise (DBE) with the Florida Department of Transportation and a certified Minority Business Enterprise (MBE) with the State of Florida's Office of Supplier Diversity. Their main office is in West Palm Beach, Florida with a branch office and CMEC laboratory in Miami Lakes, Florida and a branch office in Altamonte Springs, Florida. Their staff includes principal engineers with more than 31 years of experience in geotechnical, construction, laboratory and field materials testing and inspection services. They feature Master's Degree level or higher educational background amongst the majority of our Registered Professional Engineers and maintain licenses in the State of Florida.

RIB U.S. COST

Cost Estimating

Since 1983, RIB U.S. Cost has been providing construction cost estimating, cost engineering, scheduling, project controls, value engineering services and developing leading-edge computer software to facility owners, designers and contractors throughout the world.

RIB U.S. Cost's clients – architects, engineers, contractors, government agencies, utilities and Fortune 500 companies, rely on construction cost management information that is accurate, up to date and easy to access. RIB U.S. Cost's Consulting Services and Integrated Cost Management software put the information where it belongs – in your hands.

RIB U.S. Cost continuously perfects construction cost management professionals – supplying them with the technology / resources necessary to give clients reliable cost information. Cost consulting and management is all about value. As a leader in providing cost consulting services, RIB U.S. Cost will assist in managing the cost of your project and stay within budget. Schedule controls assure that each job is delivered on time and provide the software tools, which support cost management and project control professionals – to do their jobs most efficiently. In all cases, the RIB U.S. Cost Team acts as technical extension for the client "in house" resources.

RIB U.S. Cost has a successful portfolio of estimating services for South Florida projects of all types. RIB U.S. Cost's experience in South Florida includes cost estimating, scheduling, program management, project controls and value engineering studies. They currently have several contracts to provide ongoing cost estimating services in South Florida.

KENNETH DIDONATO, P.E.**Irrigation Design**

Kenneth DiDonato has over 35 years of experience in the design and installation of irrigation systems. He has worked on projects ranging from golf courses, parks and recreational, institutional and commercial. He has also worked with numerous public clients such as Broward County, City of Hollywood, City of Miramar, Metro-Dade, City of Boca Raton, Cooper City, Town of Davie, City of Hialeah, City of Miami Beach, and Miami Dade Public Schools.

Most recently, Mr. DiDonato has worked on Pompano Beach projects in which the irrigation systems were responding to current Xeriscape and LEED Ordinances, as well as utilizing the latest in computer technology from the irrigation industry. Mr. DiDonato approaches his work with tireless energy to meet the needs of his client with designs that are both efficient and practical to implement. Mr. DiDonato has been registered as a Professional Engineer in the state since 1974.

TRAF TECH ENGINEERING, INC.**Traffic Engineering**

Traf Tech Engineering, Inc. specializes in traffic engineering, parking studies, safety analyses, pedestrian studies, access evaluation, and hurricane evacuation studies.

Traf Tech Engineering, Inc. was established in 2005 by Joaquin E. Vargas with two municipal clients (Coral Springs and Sunrise) and three private sector developers. In the past 12 years, the firm has completed over 1,000 traffic-engineering assignments for the private sector, and has provided traffic engineering consulting services to 15 South Florida municipalities (10 in Broward County and five in Miami-Dade County). The firm also worked with the Florida Department of Transportation on hurricane evacuation issues in the Florida Keys, Florida City and regarding the potential one-way Turnpike plan for a potential mandatory hurricane evacuation of South Florida residents. They have served clients in Jacksonville, New Smyrna Beach, St. Lucie, Martin, Palm Beach, Broward, Miami-Dade, Monroe, Collier, and Lee Counties. The firm also provided transportation services for a future resort development planned to be located near Cancun, Mexico, a mixed-use project in Honduras, Central America and recently completed a transportation study for the Port of Ghana in Africa.

BALLARD KING & ASSOCIATES, LTD.**Needs Assessment, Park Operations, Recreation Programming**

Ballard King & Associates, was established in 1992 by Ken Ballard and Jeff King in response to the need for market-driven and reality-based planning for parks and recreation agencies. They focus their park planning efforts on market assessment, park amenity development, and park operations and maintenance. From pinpointing specifics to broad visions, B*K provides direction to ensure the long-term viability of a parks project.

B*K has achieved over 26 years of success with over 70 combined years of recreation and parks planning experience in the public sector, their consulting firm has been involved with 20 park plan studies and 65 parks and recreation system plans.

Their firm has a keen awareness of the impact parks and recreation services have on a community and the organization that is responsible for delivering these services. Thanks to their extensive field experience, they are able to provide assistance with practical tools, an uncommon ability to see the overlooked and view studies from a wealth of expertise and knowledge.

AQUADYNAMICS DESIGN GROUP, INC.**Aquatic Engineering**

Aquadynamics Design Group, Inc is an Aquatic Design and Engineering Firm founded by John J Wahler, a veteran design professional educated and experienced in both architecture and engineering. Mr. Wahler has over 30 years of aquatic design engineering experience with projects in Florida and elsewhere. With respect to this project, he has been the Project Designer and Principal-in-Charge for several Aquatic Facilities, including High School and Municipal competition Pool Facilities that are similar in scope and complexity to this project.

Their clients differ within the public and private sector. Public sector clients include Municipalities, Parks and Recreation Departments & Architectural Firms involved with master planning. Private sector clients include developers, contractors, swim school instructors, architects, and homeowners.

GIBBS LAND SURVEYORS

Surveying

Gibbs Land Surveyors has been offering Land Survey Services for over 30 years. Part of their commitment to the community is their location at the Landmark Building at 2131 Hollywood Boulevard, Suite 204. From this office, they have provided a wide range of services related to this discipline including: Boundary, Topographic, Hydrographic, As-Built and Utility locations, Construction Staking, Vertical and Horizontal Control Surveys, ALTA/NSPS Land Title Surveys, Plat Recordation, Condominium Document preparation, Legal Descriptions and Expert Witness Testimony.

The company president, Mr. Stephen Seeley has over 35 years of experience in the field of Land Surveying, including boundary and topographic surveying, subdivision construction layout, survey project management, field and office team management and special survey projects coordination for FOOT and SFWMD contracts. He has acquired most of his experience in Broward County and has over 20 years experience in the Hollywood area.

YAZI MIAMI

Signage and Wayfinding

With over 35 years experience in the fields of environmental graphics and wayfinding, Yazi provides complete design and management services including: wayfinding analysis and recommendations for interior and exterior spaces; creation of wayfinding plans including sign type development, sign locations and sign message schedules; design and development of signage including design intent documents, sections and details; complete project management services including review of shop drawings, prototypes, work in progress and project installation.

Over the past seventeen years, Chris Rogers and Yazi have completed complex environmental graphic design & wayfinding projects for a variety of public and projects including the Town of Surfside, City of Pembroke Pines, City of Fort Lauderdale, Doral Design District, Downtown Kissimmee Master Plan, CocoWalk, Aventura Mall, Miami River Greenway, Bayfront Park Master Plan, Aventura ParkSquare, Mercato Naples, CityPlace, Calder Casino & Racetrack, The Cushman School, Fontainebleau Aviation, the University of Miami, and Town Square Las Vegas.

TEAM PAIN SKATE PARKS

Skate Park Designers

Team Pain is a Florida based skate park specialist working world-wide for over 30 years creating custom skate parks and skate structures for municipal and government agencies, communities, private sector, production companies for motion picture and televised events and professional skateboarders and bmx riders. As the Skate Park Specialists, they utilize experienced employees in the design concepts of the skateable features to the actual construction of these features, allowing the company to deliver high quality; custom skate parks, on-line quickly and within budget.

Team Pain specializes in three mediums of custom skate structures; concrete skate park facilities, indoor wood facilities and high profile specialty structures. Many years of experience and developed knowledge have given the company an ability to work with municipalities around the world by providing design and construction experience in custom poured in place concrete skate park facilities since 1997. This stems from over 30 years personal experience, Team Pain's Founder & President, Tim Payne, has with professional riders for extremely challenging "first-ever" structures that push the limits of skateboarding, including numerous private training facilities for core industry companies, movies and television, in addition to, privately owned skateparks and skateboard summer camps.

POMPANO BEACH CITY WIDE PARKS MASTER PLAN

Pompano Beach, Florida

All forty one of the City's parks existing conditions were evaluated. Early action projects included a new community center, the conversion of baseball fields to rectangular fields for soccer and football, and the expansion of McNair Park on the west side of the City.

Project Relevance

- Master Planning
- Landscape Architecture
- Public Outreach

B.F. JAMES PARK AND AQUATIC FACILITY

Hallandale Beach, Florida

B&A developed an extensive program for the redevelopment of this existing park, including a new swimming facility, relocated basketball courts, picnic areas, exercise stations, and an expanded covered playground for a greater range of age groups.

Project Relevance

MARGARET PACE PARK

Miami, Florida

The implementation of the BA park master plan has transformed this underused site into a social magnet for the community. The completed park now attracts visitors from all age groups and socio economic backgrounds. The incorporation of locally inspired public art provided the park its own identity and sense of place in the community.

POMPANO BEACH LIBRARY

Pompano Beach, Florida

The primary purpose of the master plan for this small urban open space was to provide an outdoor passive seating area and park like setting for the new public library. Due to the extensive tree and palm coverage on the site, B&A developed a plan to relocate and preserve many of the existing trees. Large seagrapes were relocated on-site to create a dramatic impact to the new landscape design. The new park serves as an outdoor extension of the library.

- Public Outreach

TRUMAN WATERFRONT PARK

Key West, Florida

The development of the 21 acre Truman Waterfront Park was envisioned as a regional focal point for the community on the last largest undeveloped waterfront parcel in Key West. The park includes a wide range of recreational activities including playgrounds, exercise trails, sports fields, interactive water feature, exercise trail, promenade, community center, amphitheater, parking and restaurant.

Project Relevance

- Master Planning
- Landscape Architecture
- Architecture
- Public Outreach
- Cost Estimating
- Permitting
- Construction Management

PALMETTO BAY PARK

Palmetto Bay, Florida

This 5 acre neighborhood park features a skateboard pavilion, basketball courts, the largest Boundless Playground in South Florida and a six field, state-of-the-art softball complex making it a true multi-recreational facility.

Project Relevance

- Master Planning
- Landscape Architecture
- Architecture
- Public Outreach
- Civil Engineering
- Cost Estimating
- Permitting
- Construction Management

WITKOP PARK

Homestead, Florida

Within this 2.5 acre park are two professional level basketball courts, two separate age defined tot lots, two handball courts, a walking trail, picnic areas with shelters and restroom facilities.

Project Relevance

- Master Planning
- Landscape Architecture
- Architecture
- Public Outreach
- Civil Engineering
- Cost Estimating
- Permitting
- Construction Management

DORAL TRIANGLE PARK & CULTURAL CENTER

City of Doral, Florida

This park master plan included the development of a new, 10,000 sf cultural center and the expansion of the City's central urban park. The goal was to create a design which seamlessly linked the new cultural center to the existing park and incorporate the architecture into the landscape as much as possible. The result is a project where park and building "flow" into each other.

Project Relevance

- Master Planning
- Landscape Architecture
- Architecture
- Public Outreach

FORT LAUDERDALE AQUATIC COMPLEX

Ft. Lauderdale, Florida

Delta G Consulting Engineers implemented energy efficient design and sustainable practices as part of our design services. This is a Design-Build with CM-at-Risk currently under construction. The building portion is approximately 50,000 SF and includes a parking garage for approximately 500 cars.

Project Relevance

- Mechanical Engineering
- Electrical Engineering
- Plumbing Engineering
- Energy Efficient Design
- Sustainable Practices
- Design-Build
- CM-at-Risk

QUIGLEY PARK & TENNIS CENTER

Parkland, Florida

MUEngineers's role on this project was to structurally design a free standing 10'0" tall 32'0" wide tennis practice wall, as well as a design of a concrete slab for a new 60'0" x 120'0" tennis court. The entire Quigley Park Tennis Center remodeled its practice courts, clubhouse and tennis courts.

Project Relevance

- Structural Engineering

SHIRLEY BRANCA PARK ADDITION

Miramar, Florida

Tierra South Florida provided Geotechnical Engineering, Material Testing and Threshold/Special Inspection Services for the Shirley Branca Park Addition located in Miramar, Florida. The construction included a restroom and amphitheater, new sidewalks, and concrete drive with total footprint area of approximately 3,060 SF.

Project Relevance

- Geotechnical Engineering
- Material Testing
- Threshold/Special Inspections

MIRAMAR REGIONAL PARK AMPHITHEATER

Miramar, Florida

Tierra South Florida provided Geotechnical Engineering, Material Testing and Threshold/Special Inspection Services on all concrete and structural steel construction for the Miramar Regional Park Amphitheater. The project consists of a new Cultural Amphitheater, Covered Canopy, Back Stage Storage, and Restroom.

Project Relevance

- Geotechnical Engineering
- Material Testing
- Threshold/Special Inspections

SUNSET PARK

Hallandale Beach, Florida

Kenneth DiDonato provided irrigation services for Sunset Park, a neighborhood park that got a redesign in 2017. Upgrades for the park included: new playground with rubberized surface and shade structures, new decorative fence, new concrete walking trail, new park entry, as well as upgraded park furniture and landscaping.

Project Relevance

- Master Planning
- Irrigation

POMPANO BEACH COMMUNITY PARK

Pompano Beach, Florida

With lush trees and manicured foliage, the Pompano Beach Community Park complex provides the local community with a park containing sports fields, basketball courts, an outdoor pool, tennis courts, outdoor gym stations, an open-air amphitheater, jogging paths, a kids playground, pavilions and BBQ grills.

Project Relevance

- Aquatic Engineering

AMELIA EARHART PARK

Hialeah, Florida

RIB U.S. Cost prepared a conceptual cost estimate for improvements to Amelia Earhart Park, a 515-acre regional suburban park and offers a number of recreational activities such as bike trails, water sports, skateboarding, fishing and a farm village and petting zoo.

Project Relevance

- Master Planning
- Architecture
- Landscape Architecture
- Permitting
- ADA Title II
- Architectural Construction Management

CARMEL CLAY CENTRAL PARK MASTER PLAN

Carmel, Indiana

Ballard*King & Associates completed the master planning for the development of a 161-acre Carmel Clay Central Park complex that includes both active sports elements (baseball & softball fields), specialized facilities such as a 10,000 sq. ft. skateboard park, an outdoor water park, plus an indoor recreation center.

Project Relevance

- Master Planning
- Park Operations & Recreation Programming
- Needs Assessment
- Operations & Maintenance Costs

JAX BEACH SKATE PARK

Jacksonville Beach, Florida

Team Pain Skate Parks provided a skate park concept to the City of Jacksonville Beach and the City Council approved the park's concept to move forward. Public input meetings were held with the skating community to develop the overall design. The park consists of advanced, intermediate and beginner levels.

Tierra South of Florida, Inc.
Mr. Raj Krishnasamy, P.E.
2765 Vista Parkway, Suite 9
West Palm Beach FL 33411

ANNIVERSARY DATE – Annually on September 30

Dear Mr. Krishnasamy:

The Florida Department of Transportation [FDOT] is pleased to announce that your firm is certified under the **Florida Unified Certification Program [UCP]** as a **Disadvantaged Business Enterprise [DBE]** in accordance with Part 49 Section 26, Code of Federal Regulations.

DBE certification is continuing, but is contingent upon the firm maintaining its eligibility annually through this office. You will be notified of your annual responsibilities in advance of the **Anniversary Date**. You must submit the annual **AFFIDAVIT FOR CONTINUING ELIGIBILITY** no later than the **Anniversary Date**. Failure to do so will result in immediate action to remove certification.

Only those firms listed in the UCP DBE Directory, are certified by Florida UCP Members. **Prime contractors and consultants should verify your firm's DBE certification status, and identify the work area(s) for which the firm is DBE eligible, through this Directory.**

Your firm will be listed in Florida's UCP DBE Directory which can be accessed via the internet, at <http://www.bjpinwebapps.com/biznetflorida/> or through The Department's website at www.dot.state.fl.us/equalopportunityoffice, then select "DBE Directory."

DBE certification is **NOT** a guarantee of work, but enables the firm to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, sub- If, at any time, there is a material change, you **must advise this office, by sworn affidavit and supporting documents, within thirty [30] days.** Changes

Mr. George San Juan
DELTA G CONSULTING ENGINEERS, INC.
 707 N.E. 3rd Avenue, Suite 200
 Fort Lauderdale, Florida 33304

ANNIVERSARY DATE – Annually, on June 14th

Dear Mr. San Juan:

Broward County is pleased to announce **Delta G Consulting Engineers, Inc.** has renewed its certification as a **Disadvantaged Business Enterprise [DBE]** in Florida, under a **Unified Certification Program [UCP]** in accordance with 49 CFR, PART 26.

DBE certification continues from your anniversary date, but is contingent upon Delta G Consulting Engineers, Inc. renewing its eligibility annually through this office, Office of Economic and Small Business Development (OESBD). OESBD will notify you in advance of your obligation to provide continuing eligibility documents; however, ensuring continued certification is your responsibility. Failure to continue your eligibility will result in immediate action to decertify Delta G Consulting Engineers, Inc. as a DBE.

As long as Delta G Consulting Engineers, Inc. is listed in the DBE Directory, it is considered DBE Certified by all Florida UCP Members.

DBE Certification is subject to actions by governmental agencies impacting the disadvantaged status of Delta G Consulting Engineers, Inc.

Delta G Consulting Engineers, Inc. will be listed in Florida's **UCP DBE Directory** which can be accessed via the internet, at

<https://fdotxwp02.dot.state.fl.us/EqualOpportunityOfficeBusinessDirectory/CustomSearch>

DBE certification is **NOT** a guarantee of work, but enables Delta G Consulting Engineers, Inc. to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, and sub-consultant or material supplier.

ANNIVERSARY DATE – Annually on September 30

Dear Mr. Krishnasamy:

The Florida Department of Transportation [FDOT] is pleased to announce that your firm is certified under the **Florida Unified Certification Program [UCP]** as a **Disadvantaged Business Enterprise [DBE]** in accordance with Part 49 Section 26, Code of Federal Regulations.

DBE certification is continuing, but is contingent upon the firm maintaining its eligibility annually through this office. You will be notified of your annual responsibilities in advance of the **Anniversary Date**. You must submit the annual **AFFIDAVIT FOR CONTINUING ELIGIBILITY** no later than the **Anniversary Date**. Failure to do so will result in immediate action to remove certification.

Only those firms listed in the UCP DBE Directory, are certified by Florida UCP Members. **Prime contractors and consultants should verify your firm's DBE certification status, and identify the work area(s) for which the firm is DBE eligible, through this Directory.**

Your firm will be listed in Florida's UCP DBE Directory which can be accessed via the internet, at <http://www.bjincwebapps.com/biznetflorida/> or through The Department's website at www.dot.state.fl.us/equalopportunityoffice, then select "DBE Directory."

DBE certification is **NOT** a guarantee of work, but enables the firm to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, sub- If, at any time, there is a material change, you **must advise this office, by sworn affidavit and supporting documents, within thirty [30] days.** Changes

July 30, 2018

Mr. George San Juan
DELTA G CONSULTING ENGINEERS, INC.
 707 N.E. 3rd Avenue, Suite 200
 Fort Lauderdale, Florida 33304

ANNIVERSARY DATE – Annually, on June 14th

Dear Mr. San Juan:

Broward County is pleased to announce **Delta G Consulting Engineers, Inc.** has renewed its certification as a **Disadvantaged Business Enterprise [DBE]** in Florida, under a **Unified Certification Program [UCP]** in accordance with 49 CFR, PART 26.

DBE certification continues from your anniversary date, but is contingent upon Delta G Consulting Engineers, Inc. renewing its eligibility annually through this office, Office of Economic and Small Business Development (OESBD). OESBD will notify you in advance of your obligation to provide continuing eligibility documents; however, ensuring continued certification is your responsibility. Failure to continue your eligibility will result in immediate action to decertify Delta G Consulting Engineers, Inc. as a DBE.

As long as Delta G Consulting Engineers, Inc. is listed in the DBE Directory, it is considered DBE Certified by all Florida UCP Members.

DBE Certification is subject to actions by governmental agencies impacting the disadvantaged status of Delta G Consulting Engineers, Inc.

Delta G Consulting Engineers, Inc. will be listed in Florida's **UCP DBE Directory** which can be accessed via the internet, at

<https://fdotxwp02.dot.state.fl.us/EqualOpportunityOfficeBusinessDirectory/CustomSearch>

DBE certification is **NOT** a guarantee of work, but enables Delta G Consulting Engineers, Inc. to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, and sub-consultant or material supplier.

ANNIVERSARY DATE – Annually on September 30

Dear Mr. Krishnasamy:

The Florida Department of Transportation [FDOT] is pleased to announce that your firm is certified under the **Florida Unified Certification Program [UCP]** as a **Disadvantaged Business Enterprise [DBE]** in accordance with Part 49 Section 26, Code of Federal Regulations.

DBE certification is continuing, but is contingent upon the firm maintaining its eligibility annually through this office. You will be notified of your annual responsibilities in advance of the **Anniversary Date**. You must submit the annual **AFFIDAVIT FOR CONTINUING ELIGIBILITY** no later than the **Anniversary Date**. Failure to do so will result in immediate action to remove certification.

Only those firms listed in the UCP DBE Directory, are certified by Florida UCP Members. **Prime contractors and consultants should verify your firm's DBE certification status, and identify the work area(s) for which the firm is DBE eligible, through this Directory.**

Your firm will be listed in Florida's UCP DBE Directory which can be accessed via the internet, at <http://www.bjpinwebapps.com/biznetflorida/> or through The Department's website at www.dot.state.fl.us/equalopportunityoffice, then select "DBE Directory."

DBE certification is **NOT** a guarantee of work, but enables the firm to compete for, and perform, contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, sub- If, at any time, there is a material change, you **must advise this office, by sworn affidavit and supporting documents, within thirty [30] days.** Changes
