2. Definition

A medical marijuana treatment center related industrial establishment must be licensed by the state as an MMTC and is an establishment engaged in indoor industrial uses involving medical marijuana including: the indoor planting, growing, harvesting, drying, cleaning, curing, packaging and extraction of active ingredients to create cannabis related products and concentrate within a fully enclosed structure; the use may include analytical and testing services for medical marijuana dispensing organizations, including laboratory functions to ensure the products are safe for use/consumption and the labeled potency is accurate; or the storage and/or wholesale distribution of medical marijuana products.

3. Standards

A medical marijuana treatment center related industrial establishment shall comply with the following standards:

- a. No retail sales (dispensing) shall be permitted.
- b. Separation. In accordance with state law (F.S. Ch. 381.986), a medical marijuana treatment center related industrial establishment shall be separated by 500 feet from a public or private elementary school, middle school or secondary school.
- c. No outdoor uses, including but not limited to outdoor growing or outdoor storage, shall be permitted.

PROPERTY INFORMATION AND STAFF ANALYSIS

1. A Medical Marijuana Treatment Center (MMTC) Related Industrial Establishment is an establishment engaged in indoor industrial uses involving medical marijuana including: the indoor planting, growing, harvesting, drying, cleaning, curing, packaging and extraction of active ingredients to create cannabis related products and concentrate within a fully enclosed structure; the use may include analytical and testing services for medical marijuana dispensing organizations, including laboratory functions to ensure the products are safe for use/consumption and the labeled potency is accurate; or the storage and/or wholesale distribution of medical marijuana products.
2. Retail sales (dispensing) is strictly prohibited, and the establishment must be licensed by the State. The applicant, Gold Leaf, has provided proof of licensure by the Florida Department of Health, and has affirmed that no dispensing will occur on site. The facility will be used only as a distribution facility. No outdoor uses, including but not limited to outdoor growing or outdoor storage, are permitted.
3. In accordance with state statutes, MMTC related industrial establishment must be separated by 500 feet from a public or private elementary school, middle school or secondary school. Staff has verified compliance. Additionally, the proposed location of the facility is tucked away in an industrial part of the city, with the nearest residential district nearly half a mile away.

4. The applicant's narrative states no growing or production of marijuana products will take place, and there will be no signage that could otherwise attract customers looking for a dispensary. Again, the

proposed use is strictly limited to distribution.

5. Special Exception approval is required for a MMTC related industrial establishment to be located in the Office Industrial Park (OIP) district. The OIP district is intended to accommodate large-scale office and industrial park complexes under unified ownership and control that contribute to the local economy, improve the city's tax base, and provide new jobs, while minimizing adverse traffic impacts on nearby streets and other impacts on nearby areas. Staff finds the location to be appropriate and the proposed use compatible with the general character of the neighborhood, which is comprised of industrial, office, and warehouse uses.
