Good afternoon,

As stated in our email, we just want to see and hear about this project. Our concern is increased traffic on our street due to the closure of a 60 plus year use of road. That's really not a big ask and all concerned would have gone to the hearing for the best first hand knowledge.

As for the mail date of your letter. Mailing on the 11th meant it was received on a 3 day holiday weekend which then gave us technically less than 3 days to address this issue. That's a fact. And changing from in person to remote is our current chief complaint. As I expressed to our commissioner, we might not be against this at all which will make for a smoother process for all. We just need the accurate info. I'm pretty sure you can agree with that.

Respectfully
