To the elected municipal Officials of the City of Pompano Beach

Good evening,

I am a Chartered Professional Accountant in Canada and since October 1997, I am the owner of the condo # 11 in the Cameron Building of 505 N Riverside Drive, Pompano Beach FL 33062.

Like all my neighbors, I fell in love with Pompano Beach and very proud to be one of its seasonal citizens since now more than 25 years especially with the fantastic work that you, our elected Officials, have dedicated in making our beautiful city more attractive than ever, especially in the Intracoastal and Beach areas.

Spending more time now in Pompano Beach, the Cameron does not answer anymore to all the needs and space that we are looking for and that's why my wife and I, along with some other neighbors were looking to a larger and more modern property to buy while not leaving the area that we love so much.

That's why, when we learned that a highly reputed developer bought a land only two lots besides the Cameron in order to build a 42 high end condominiums complex named Entourage-in-the-Sun, we immediately proceeded to buy one of its units. Knowing very well the Developer and the quality of its realizations, we are totally sure that this complex will become a fantastic addition to our neighborhood and create value to all the people around.

That's why most of my neighbors and myself, totally applause to the upcoming of Entourage-in-the-Sun.

Sincerely yours
 CDA
