

Artist Sonata Kazimieraitiene

BEE ON THE LOOKOUT!

The Honey Bee Trail project, commissioned by the City of Pompano Beach Public Art Committee, aims to connect the Innovation District to the Creative Arts District through a series of mosaic honey bee murals. Lead artist Sonata Kazimieraitiene has been entrusted with creating multiple mosaic murals of varying sizes, which will be installed throughout the city.

These murals will form the "Trail of the Honey Bees," connecting the Innovation District to the Creative Arts District. The project aims to highlight the importance of honey bees and their role in pollination. By educating the community through art, the trail promotes unity and supports the local agricultural community.

To find more information about the Honey Bee Trail project and other public art initiatives in Pompano Beach, you can visit the website pbpublicart.com. The website provides details about the various public art projects in the city, including updates on the Honey Bee Trail and its progress.
