Fire has approved it for temporary use. Project will have to request a building permit for review and approval of the outdoor storage, access roads, load weight of roads, gates 20ft with knox lock and location of fire hydrant.

Plan would be sufficient, will need to go through the building permit process.

Hi Jim, we have ZBA on this temporary use next Thursday. I saw in the staff report that Fire requested a more detailed site plan than what I did for them (attached). Are you looking for something specific to be shown on the plan?

Sincerely,

*Paola A. West*, AICP, ISA CA
