Currently, the north property has an existing multifamily development that will be demolished, and the south property is vacant. According to the City's adopted Comprehensive Plan, Residential dwelling units are permitted in this designation at a maximum density that does not exceed the maximum gross residential density designated for the parcel of land by the Land Use Plan Map. The proposed residential use is consistent with the land use designation in which it will be located.

2. Complies with the applicable district, use, and intensity and dimensional standards of this Code (Articles 3, 4, and 5);

The proposed project includes residential condominiums and associated site amenities. These uses are proposed wholly within the RM-45 Multifamily Residential 45 zoning district. The proposed uses are permitted in the zoning district they are proposed. The project complies with the use, intensity, and dimensional standards of the code. Additionally, both parcels will be unified to further clean up the lot for development.
