Marie Puleo, Pompano Magazine

**F. Current Project Updates**

**1. Underwater Sculpture Garden Round 2**

Ms. Atria stated the Subcommittee did a wonderful job on the underwater sculpture selection.

Ms. Atria presented the proposed design entitled *Mechan H2O* by Tyler FuQua Creatives for the Underwater Sculpture to the Committee.

The sculpture will be six (6) feet tall.

Ms. Schorr stated the rods cannot be pointed, they will need to be rounded.

Ms. Maguire stated she requested the Committee select the location of where the sculpture will be placed.

Ms. Atria will send out a reminder email to Shipwreck Park and South Florida Diving to send Lady Luck location options.

Ms. Schorr asked if the Underwater Sculpture Garden can be seen through a glass bottom boat.

Ms. Atria replied the sculptures are placed on the top decks of the boat which is about 70 feet down, so most likely not.

Ms. Botscheller stated she is glad the Subcommittee concept is working great.

A **MOTION** was made by Mr. Miller approving the *Mechan H2O* Underwater Sculpture design. Motion was seconded by Ms. Houston Jones. Motion passed unanimously.
