

### Memorandum No. 22-41

**DATE:** October 18<sup>th</sup>, 2022  
**TO:** Mark E. Berman, City Attorney  
**FROM:** John Sfiropoulos, City Engineer  
**SUBJECT:** Request for Ordinance for Code Amendment to Chapter 151.03

---

As a result of marine vessels having gotten larger over time and the marine community's input, the Marine Advisory Board and the Engineering Department are requesting an Ordinance in order to recommend the following Code amendment:

**151.03(G)(4):**

Vessel davits, elevator lifts, cradle lifts, floating lifts, floating Vessel platforms, personal watercraft / jet ski platform used for the express purpose of storing a watercraft out of the water or any other similar form of Vessel lifting device may be constructed or installed to extend into any canal, river, basin, or waterway, in a fully raised position, ~~a distance equal to 20% of the width of the canal, river, basin, or waterway or~~ a distance of 28 feet, ~~whichever is less~~, as measured from the Measurement Reference Line subject to the provisions of 151.03 (B) and (C).

Please do not hesitate to contact me for any additional information that may be required, X7009.

Thank you
