Good morning,

This email is to inform you that the resubmittals for BC EPGMD's SWML and BC HC&E P&D review have been submitted for both the O'Connor Lake Remediation project and the Andrews Logistics Industrial Office Park. Please see attached correspondence for reference. Should you have any questions or concerns, please do not hesitate to contact me.

Thank you,

Byron Reynolds

Byron,

Please refer to the attached redlined plan comments along with the detail sheets.

I previously sent you the HBMD comment memo.

I have not yet received comments from the HCED Plat Section.

I have already received BCTED acceptance letter.

If street trees/landscaping are proposed within the R/W of Andrews Ave, then a Revocable License Agreement will be required.

It is difficult to determine from the landscape plans exactly if they are in or outside of the R/W.

Please include a response letter with your re-submittal to HCEDPlan@broward.org with a copy to me.

Byron,

I am in the process of gathering the County Division comments, however since the comments from the Hwy Bridge & Maintenance Division (HBMD) seem to be the most important, I am forwarding those in advance to you. I received the HBMD comments on 10/13/22.

You will have the remaining County comments with the next day or two.

Alejandro,

We submitted this project back in July of this year per the correspondence below. We've not received any feedback going on over 3 months. Is there anyway we can get some assistance of having this project reviewed and feedback received? This review is holding up other permit and process reviews required to have this project fully entitled. The O'Connor Holdings project is also in the same boat. Can we please get any assistance on having these projects moved to the top due to the outstanding timeframe by which we've not received feedback?

Thank you,

We greatly appreciate you taking the time to meet with us to discuss our second proposal. Per our discussion, please find attached exhibit for your internal review. As mentioned, this option avoids the need for a 54" conveyance pipe through our client's property allowing all of Andrews Ave Extension's drainage to drain to the Southeast section of the O'Connor Lake. We're moving forward with running the calculations to demonstrate there is no negative impact to the existing system by said connection internal of County's ROW. We're aiming to have the calculations and models ready within the next couple of weeks.

Good morning Byron,

If the file is too large to upload, I suggest breaking it down into two or more smaller files. Just label them as Part 1, Part 2, etc. as needed. Another option is that you submit a flash drive with the files. Whichever is easier for you.

Good afternoon Johana/Tomas,

I am reaching out to you in request for a RAI extension on the SWMLs referenced above. Per the attached correspondence, we are finalizing our O'Connor Holding drawings, and associated reports, to make a resubmittal to BC HC&E. We'll be making the same resubmittal to your department as well but need a little more time. Please let me know should you need any additional information to

issue an extension to the RAI.

Also, we received our approved WUP for the O'Connor site. We'll be providing it in our resubmittal but wanted to make sure I got you a copy.

Have a great weekend!

Thank you,

RISE TO THE CHALLENGE

Under Florida law, most e-mail messages to or from Broward County employees or officials are public records, available to any person upon request, absent an exemption. Therefore, any e-mail message to or from the County, inclusive of e-mail addresses contained therein, may be subject to public disclosure.
