## A. Purpose

## Typical Building Type

The Heavy Business (B-4) district is established and intended to accommodate a wide and diverse range of moderate- to high-intensity retail, service, office, recreation/entertainment, and institutional uses that provide goods and services serving a community, city-wide, and regional customer bases. It also accommodates the city's major employment-generating non-industrial uses, as well as wholesaling, warehousing, and limited light manufacturing uses. Residential uses are generally inappropriate in this district, however, on the NW 31<sup>st</sup> Avenue Corridor between Dr. Martin Luther King, Jr. Boulevard and Atlantic Boulevard, the city will allow mixed use and residential projects.
