I apologize in advance but this will be in bullet form to make it shorter and easier to read.

A drug abuser or alcoholic will not be cured by changing the environment; it is behavioral reformation.

They want to blend into the neighborhood... but twice when I was walking my dog they were told not to speak to me. They continued to ask me about my dog and were told they would be called in.

How can the residence help the neighbors if they cannot talk to us?

I think all residence employment should be verified. There are 3 cars there all day.

I would like to see the CAD report. There was one ambulance called to the residence.

The home owners gave the seller's a false statement. They sent a photo with their daughter playing at the house and looking forward to family memories.

It does not matter that one house is rehab and the other is adults with special needs. They are both considered Family Community RESidence.

The application follows the comments in order at the last meeting. It is a checklist of things that should have been done prior to this special meeting.

They are in the process of being accredited BUT there is no guarantee, until all paperwork is approved.

A lot of the application is redundant, not factual but more assuming these residences will improve our community.

I am not being critical of the residence. They have the right to turn their lives around. I am concerned that the owners' of the property were not honest and or upfront. They were trying to sneak something by the community and the City of Pompano Beach.

I would not like this property to exempt from the existinf zoning. It is almost like rewarding them for a job not well done.

Honesty from the beginning might have changed the out cry from this community.

Thank you for your time and interest in keeping Lyons Park a strong community.
