Mr. Guevara:

In accordance with your request for an evaluation of the above referenced Pompano Beach Airpark Obstruction Permit application in accordance with s. 333.025(4), Florida Statutes we are providing the following comments for your consideration:

COMMENTS OF FLORIDA DEPARTMENT OF TRANSPORTATION PURSUANT TO
SECTION 333.025(4), FLORIDA STATUTES ON PETITION/ APPLICATION FOR AIRPORT
OBSTRUCTION ZONING PERMIT APPLICATION

Political Subdivision: City of Pompano Beach, Florida

Date of Receipt: February 23, 2023 (by email)

Date Comments sent: March 3, 2023 (by email)

Political Subdivision Representative: Diego Guevara

Applicant: Jonathan Cady/ Andrea Harper

RE: PZ No. 23-12400001 Ocean Residences

FAA Determination(s): 2022-ASO-23980-EO (Submitted with application)

Gentlemen:

Summary: Based upon the following the Florida Department of Transportation (Department) finds that the above referenced airport obstruction zoning permit application is technically consistent with s. 333.025(4), Florida Statutes, as set forth below.

Review Requirement: Upon receipt of a complete permit application, the local government shall provide a copy of the application to the department's aviation office by certified mail, return receipt requested, or by a delivery service that provides a receipt evidencing delivery. Section 333.025(4),

Florida Statutes (F.S.), provides the Department a 15-day review period, following receipt of a complete permit application from the local government by certified mail, for the construction or alteration of an obstruction which must run concurrently with the local government's permitting process, to evaluate technical consistency with s. 333.025(4), FS. The following Comments are intended to comply with this requirement

Review Standards: Subsection 333.025(4), F.S. requires the evaluate of airport obstruction zoning permit applications for technical consistency with the requirements of subsection 333.025(4), F.S. The department has received and reviewed the above referenced airport obstruction zoning permit application and attachments, if any, the Political Subdivision, for technical consistency in accordance with s.333.025(4), F.S., regarding the construction or alteration proposed by the Applicant. The Comments are not intended as legal advice and are non-binding evaluations solely for the consideration of the Political Subdivision with regard to the permit application.

EVALUATION

Section 333.025(4) provides, in part, that:

If political subdivisions have, in compliance with this chapter,
adopted adequate airport protection zoning regulations,
placed such regulations on file with the department's aviation office, and
established a permitting process,

a permit for the construction or alteration of an obstruction is not required from
the department.

COMMENTS

The Political Subdivision's submittal of the airport obstruction zoning permit application to the Department's Aviation Office (AO) is accepted as a representation by the Political Subdivision that:

1. the Political Subdivision is in compliance with Chapter 333.

[whether the Political Subdivision has complied with Chapter 333 requires a legal evaluation beyond the scope of this Comment and it is left to the determination of the Political Subdivision]; and

2. the Political Subdivision has adopted adequate airport protection zoning regulations

[whether the political subdivision has adopted adequate airport protection zoning regulations is a legal determination beyond the scope of this Comment and is left to compliance by the Political Subdivision]; and

3. the Political Subdivision has placed such regulations on file with the department's aviation office

[the department's records reflect that the Political Subdivision has placed certain airport protection zoning regulations on file with department's aviation office however it is undetermined if such regulations are in compliance with Chapter 333]; and

4. the Political Subdivision has established a
permitting process

[submission of an airport obstruction zoning permit application reflects the existence of a permitting process – it is noted that the application required appropriate information and documents for evaluation of a permit application including documentation showing compliance with the federal requirement for notification of proposed construction or alteration of structures and valid aeronautical studies. Adequacy of the permitting process is beyond the scope of these Comments and is left to the determination of the Political Subdivision] The intent of the Comments is to evaluate the Political Subdivision's compliance with the requirements of s. 333.025(4)]

1. Section 333.025(4) also provides, in part, that:

Upon receipt of a complete permit application, the local government shall provide a copy of the application to the department's aviation office by certified mail, return receipt requested, or by a delivery service that provides a receipt evidencing delivery.

[the Department notes receipt of the permit application by **email** on February 23, 2023]

2. Section 333.025(4) provides, in part, that:

To evaluate technical consistency with this subsection, the department shall have a 15-day review period following receipt of the application by certified mail, which must run concurrently with the local government permitting process.

[The AO has received a permit application, evaluated technical consistency as set forth herein and provided its Comments within 15 days after receipt of the permit application by **email**].

COMMENT: In view of the foregoing it is demonstrated that the Political Subdivision has substantially complied with the requirements of s. 333.025(4), Chapter 333, Florida Statutes and is entitled to proceed with the permitting process in accordance with its airport zoning regulations. The department accepts the filing of the Airport Obstruction Zoning Permit Application with the Aviation Office as a representation that the Political Subdivision has zoning authority in this matter, unless otherwise advised in writing. Since the foregoing requirements have been met a permit for the construction or alteration of an obstruction is not required from the Department and the City of Pompano Beach appears to be the appropriate zoning authority subject to the foregoing.

P&Z

These Comments do not constitute approval or disapproval of the permit application. The Comments are solely required to evaluate technical consistency with Section 333.025(4), F.S.
