Air Park Obstruction Permit Application

155.2422. D. AIR PARK OBSTRUCTION

(Below is a summary of Section 155.2422. For the complete language, please refer to the Zoning Code)

REVIEW STANDARDS

(Each standard MUST be addressed in writing)

Following the receipt of a determination by the Federal Aviation Administration (FAA) that the proposed development would not result in an Air Park hazard, the Planning and Zoning Board may approve an Air Park Obstruction permit based on the following considerations:

1. Comments received from the City's Aviation Consultant and the Florida Department of Transportation.
2. The safety of persons on the ground and in the air.
3. The safe and efficient use of navigable airspace and any other aeronautical impacts.
4. The nature of the terrain and height of existing structures.
5. Federal airways, visual flight rules, flyways and corridors, and instrument approaches as designated by the Federal Aviation Administration.
6. The cumulative effects on navigable airspace of all existing structures and all other known proposed structures in the area.
7. The development order for Air Park Obstruction, if issued, would not permit a nonconforming obstruction to become a greater hazard to air navigation than it was when the applicable airport protection zoning regulation was adopted which allowed the establishment or creation of the obstruction, or than it is when the application for a permit is made.
8. Approval of a permit is not to be based solely on the determination by the Federal Aviation Administration that the proposed structure is not an airport hazard.
9. The following impacts to the Pompano Air Park, as applicable:
 - i. The potential to destroy or impair the utility of the airport and the public investment therein.
 - ii. The character of the existing and planned flight operations and developments at the subject airport.
 - iii. The effect of the obstruction on the state licensing standards for a public-use airport contained in chapter 330 and rules adopted thereunder.
 - iv. The effect of the construction or alteration of the proposed obstruction on the minimum descent altitude or the decision height at the subject airport.
10. The marking and lighting plan will be in conformance with specific standards established by the FAA.

PROCEDURE

1. Review by the City's Aviation Consultant and FDOT.
2. Recommendation by the Development Service Director.
3. Final decision by the Planning & Zoning Board.

Air Park Obstruction Permit Application

OWNER'S CERTIFICATE

This is to certify that I am the owner of the subject lands described in this application and that I have authorized the filing of the aforesaid application. I further certify that this request is not related to any existing violation of the zoning code.

By signing below, I acknowledge that development applications must have a determination by the governing municipality of approved, approved with conditions, or denied within 120 days from a complete submittal for projects that do not require final action through a quasi-judicial hearing or a public meeting and within 180 days from a complete submittal for projects that do require final action through a quasi-judicial hearing or a public meeting per FL Stat § 166.033 and the Pompano Beach Code Section 155.2303.F.3. It is the responsibility of the applicant to receive all final Development Orders and receive this determination within the allotted timeframe. If the applicant fails to resubmit an application within 30 calendar days after being first notified of deficiencies of the submittal, the application shall be considered withdrawn and a \$100 non-refundable administrative fee will apply (155.2303.F.2.b). Additionally, if all required approvals are not received within the allotted timeframe the application will automatically be denied unless both the City and the applicant agree to an extension of time (155.2303.I).

Note: If this request is related to an existing zoning violation, please submit documentation as to the Special Master's disposition of the matter.
