FROM: Fernand Thony, GO Bond Director

RE: SR A1A Phase II

Please prepare a Resolution to enter into an LED Lighting Agreement (see attached Exhibit 1) with the Florida Power and Light (FPL) pertaining to the above referenced project in the City of Pompano Beach whereas the City will be responsible to pay a contribution of \$331,666.43.

This agreement is necessary to allow FPL to install or modify lighting facilities proposed within the SR A1A corridor (see Location Map). As a function of this agreement, FPL will install 231 sea-turtle compliant LED light fixtures including applicable concrete poles and remove 25 old sodium halide ones. At the completion of all work, the City commits to pay monthly fees as depicted in the Generator Tool (see Exhibit 2).

The work will be conducted in the areas shown on the Design Plans prepared by FPL (see Exhibit 3). The work is necessary to meet Florida Department of Environmental Protection (FDEP) regulations and it is being done in conjunction with the City's efforts to improve SR A1A, a GO Bond project that includes streetscape improvements from Sunset Lane to the Hillsboro Inlet Bridge.

Staff would like to add this agenda item to the City Commission meeting scheduled for January 23, 2024.
