In accordance with solicitation number RLI E-31-15 , Ordinance number 2016-20 dated November 2, 2015 for Consulting / Professional Services the City of Pompano Beach hereby directs the firm to perform the services for the project as detailed in the attached scope of work, attached hereto and made a part of this Work Authorization for the amount specified below.	
All terms and conditions of the Original Contract dated November 2, 2015 , and approved via Ordinance No. 2016-20 remain unchanged and in full force and effect.	
Description: To provide professional engineering and surveying services for proposed sanitary sewer improvements to Non Sewer Area C. This unsewered site area consisting of 38 properties is currently on septic systems and is occupied by numerous auto salvage companies and several small commercial / light industrial properties. An engineering sewer design report for Non Sewer Area C was completed in May of 2019, which provides recommendations for providing a new wastewater collection system to serve the existing septic system properties in the area. After construction of the new sewer system, these properties can then abandon (by others) their septic systems and connect to the new gravity sewer systems. The identified proposed solutions from the engineering sewer design report include connection to two existing City lift stations (LS#101 and LS#104) and a proposed sanitary sewer lift station that will be located on NW 18 street.
