October 31, 2012

Kevin Gurley, Planner  
Development Services Department  
City of Pompano Beach  
Via email only: Kevin.Gurley@copbfl.com

Dear Mr. Gurley:

Attached is my completed application to serve on the Board for the Pompano Beach Public Art Committee. My husband and I have been residents of Pompano Beach since 1974 and are very excited about the commencement of Pompano's "Art In Public Places" Program.

In addition to being an avid art collector for many years, I have operated Art Rep Fine Arts in South Florida during this time as well (a copy of partial list of Corporate/Hospitality Installations is attached). I am anxious to serve on the Board for the Public Art Committee given my extensive experience in dealing with institutional clients and the unique challenges that they present; such as satisfying the needs and tastes that vary extensively within a group, whether a law firm, a board of directors or a community. I have contacts throughout the country with artists whose works I have purchased for my clients, oftentimes commissioned. I have many contacts with artists who work in a variety of media. I am very capable of identifying and sourcing appropriate artists and acquisitions for the City of Pompano Beach and I know I would be an asset to the Committee. I would appreciate your consideration of my application.

Please contact me if you would like further information.

I look forward to hearing from you.

Very truly yours,

  
Donna M. Schorr

Master's Thesis Defense

**Abstract**

**Parallel Relationships - Architecture and Water: The Urban Spa**

by

**Tobi Aycock**

This thesis explores the relationship of architecture and water through the design of an urban spa that offers both a bodily and a poetic experience of water. Research included investigation of recent architectural projects that enhance and order the view, sound, and touch of water as well as projects that integrate fountains, showers and reflecting pools into the experience of a building.

In the design of the spa, the movement of water was based metaphorically on the natural water cycle: evaporation, condensation and collection of water in pools. The building presents fountains, rivulets, and pools in a descending sequence that represents the natural flow of water. The temperature of water and the activities of the spa follow the same descending sequence, progressing from a warm water bath at the top of the building to cool swimming pool at the plaza level in a contemporary interpretation of the experience of a Roman Bath.

**Date:** April 1, 2004  
**Time:** 11:00 a.m.  
**Place:** University Park, PCA 311

**Department:** School of Architecture  
**Major Professor:** William McMinn

With all movement of the water, the outdoor spa, many of the air used to
