MEMORANDUM NO. 23-20

DATE: July 13, 2023
TO: Gregory P. Harrison, City Manager
VIA: A. Randolph Brown, Utilities Director
FROM: Mondy Claude, Utilities Business Operations Analyst
SUBJECT: Loan Application for Funding for Emerging Contaminant

The Utilities Department is working towards a loan agreement with the Florida Department of Environmental Protection (FDEP) under the State Revolving Fund (SRF) for a planning, design, and construction loan for treatment facilities that is intended to address upcoming EPA and State regulations. The loan (\$124 million) has the opportunity for 100% principal forgiveness.

The funds will be used to evaluate current treatment processes to meet the State regulations. Once the evaluation is completed, the Utilities Department will proceed with the design and construction of recommended alternative treatment processes.

Recommendation:

The Utilities Department recommends approval to apply for this loan that has the opportunity for 100% principal forgiveness. The funding will ensure that the planning, design and construction of recommended alternative treatments remain cost effective while providing safe and clean water to the residents of Pompano Beach, Lighthouse Point and Lauderdale by the Sea.
