Comments: Overall, we have been satisfied with the service that is provided by Amazon Business. The reports and overall customer service have been very helpful, and our users benefit from the ability to "shop around" and receive the pricing/shipping benefits. One thing that we do monitor closely is the use of Amazon Business to purchase items that we have on contract with other vendors. We have asked that Amazon provide the ability to "block" certain items (catalog curation), but they do not currently offer this ability.

Comments: We have been working with Amazon since this past July and they have been very professional and forward thinking. They very much want to understand the K12 market and how they can fit into that space. They are very innovative and are willing to listen to our issues and what are our needs. _____
