The Contractor may not disclose, use, license or sell any work developed, created, or otherwise originated hereunder to any third party whatsoever. The rights and obligations created under this Article shall survive the termination or expiration of this Agreement.

To the extent it exists and is necessary to perform the Work hereunder, City shall provide any information, data and reports in its possession to Contractor free of charge.

11. *Termination.*

A. *Termination for Breach or Default.* Breach or default of any of the covenants, duties, or terms of this Agreement shall be cause for termination, in whole or in part, of this Agreement. In the event of a breach or default, the defaulting party shall be given written

notice in accordance with Article 9 herein which describes in reasonable detail the alleged breach or default and ten (10) calendar days to cure same. Failure to cure all such described defects within the required time period shall result in termination of this contract with written notice to Contractor.

B. *Termination for Convenience.* City retains the right to terminate this Agreement for convenience upon ten (10) business days written notice to Contractor in accordance with Article 9 herein. Such Notice of Termination may include City's proposed Transition Plan and timeline for terminating the Work, requests for certain Work product documents and materials, and other provisions regarding winding down concerns and activities. In no event shall economic hardship or lack of funds be considered an event of Force Majeure. If either party is unable to perform or delayed in their performance of any obligations hereunder by reason of any event of Force Majeure, such inability or delay shall be excused at any time during which compliance therewith is prevented by such event and during such period thereafter as may be reasonably necessary for either party to correct the adverse effect of such event of Force Majeure.

Contractor must follow all Federal, State, County, and City safety guidelines, including all CDC safety guidelines in effect during the term of the program, including but not limited to social distancing, and personal protection equipment. Inability to conduct the program and follow any and all required safety guidelines applicable to the COVID-19 virus or other similar pandemic or emergency, or failure to follow such requirements, including but not limited to, social distancing, shall constitute grounds for immediate cancellation of this Agreement unilaterally by the City upon written notice, which may be provided via electronic mail.

13. *Insurance.* Contractor shall maintain insurance in accordance with Exhibit "B" throughout the term of this Agreement.

14. *Indemnification.* Except as expressly provided herein, no liability shall attach to the City by reason of entering into this Agreement.

misconduct of Contractor and/or any of its agents, officers, or employees hereunder, including any inaccuracy in or breach of any of the representations, warranties or covenants made by the Contractor, its agents, officers and/or employees, in the performance of services of this contract. Contractor agrees to investigate, handle, respond to, provide defense for, and defend any such claims at its sole expense and to bear all other costs and expenses related thereto, even if the claim(s) is/are groundless, false or fraudulent. To the extent considered necessary by City, any sums due Contractor hereunder may be retained by City until all of City's claims for indemnification hereunder have been settled or otherwise resolved, and any amount withheld shall not be subject to payment of interest by City.

B. Contractor acknowledges and agrees that City would not enter into this Agreement without Contractor's indemnification of the City. The parties agree that one percent (1%) of the total compensation paid to Contractor hereunder shall constitute specific consideration to Contractor for the indemnification provided under this Article and these provisions shall survive expiration or early termination of this Agreement.

15. *Sovereign Immunity.* Nothing in this Agreement shall constitute a waiver by the City of its sovereign immunity limits as set forth in section 768.28, Florida Statutes. Nothing herein shall be construed as consent from either party to be sued by third parties.

16. *Non-Assignability and Subcontracting.*

A. *Non-Assignability.* This Agreement is not assignable and Contractor agrees it shall not assign or otherwise transfer any of its interests, rights or obligations hereunder, in whole or in part, to any other person or entity without City's prior written consent which must be sought in writing not less than fifteen (15) days prior to the date of any proposed assignment. Any attempt by Contractor to assign or transfer any of its rights or obligations hereunder without first obtaining City's written approval shall not be binding on City and, at City's sole discretion, may result in City's immediate termination of this Agreement whereby City shall be released of any of its obligations hereunder. In addition, this Agreement and the rights and obligations herein shall not be assignable or transferable by any process or proceeding in court, or by judgment, execution, proceedings in insolvency, bankruptcy or receivership. In the event of Contractor's insolvency or bankruptcy, City may, at its option, terminate and cancel this Agreement without any notice of any kind whatsoever, in which event all rights of Contractor hereunder shall immediately cease and terminate.

B. *Subcontracting.* Prior to subcontracting for Work to be performed hereunder, Contractor shall be required to obtain the written approval of the City's Contract Administrator. If the City's Contract Administrator, in his/her sole discretion, objects to the proposed subcontractor, Contractor shall be prohibited from allowing that subcontractor to provide any Work hereunder. Although Contractor may subcontract Work in accordance with this Article, Contractor remains responsible for any and all contractual obligations hereunder and shall also be responsible to ensure that none of its proposed subcontractors are listed on the *Convicted Vendors List* referenced in accordance with the provisions of Article 28 below.

17. *Performance Under Law.* The Contractor, in the performance of duties under the Agreement, agrees to comply with all applicable local, state and/or federal laws and ordinances including, but not limited to, standards of licensing, conduct of business and those relating to criminal activity, and the Americans with Disabilities Act (ADA).

18. *Audit and Inspection Records.* The Contractor shall permit the authorized representatives of the City to inspect and audit all data and records of the Contractor, if any, relating to performance under the contract until the expiration of three years after final payment under this contract.

The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that City or any of their duly authorized representatives shall, until the expiration of three years after final payment under the subcontractor, have access to and the right to examine any directly pertinent books, documents, papers and records of such subcontractor, involving transactions related to the subcontractor.

19. A. *Adherence to Law.* Both parties shall adhere to all applicable laws governing their relationship with their employees including, but not limited to, laws, rules, regulations and policies concerning worker's compensation, unemployment compensation and minimum wage requirements.

B. *Conflict of Interest.* During the time period this Agreement is in effect, Contractor, its employees subcontractors, and agents shall not engage in any conduct or activities that would constitute a conflict of interest, and shall otherwise avoid any appearance of such conflict of interest. Additionally, Contractor, its employees subcontractors, and agents shall refrain from acting adverse to the City's interest in promoting the goals and objectives of this Agreement. Any potential such conflict of interest must be reported to the City and may be waived only upon additional review and approval by the City Manager.

Furthermore, none of Contractor's employees, subcontractors, and agents shall, during the term of this Agreement, serve as an expert witness against City in any legal or administrative proceeding in which he, she, or Contractor is not a party, unless compelled by court process. Further, such persons shall not give sworn testimony or issue a report or writing, as an expression of his or her expert opinion, which is adverse or prejudicial to the interests of City in connection with any such pending or threatened legal or administrative proceeding unless compelled by court process. The limitations of this section shall not preclude Contractor or any persons in any way from representing themselves, including giving expert testimony in support thereof, in any action or in any administrative or legal proceeding.

The existence of any such conflict of interest, or evidence of non-compliance with the above paragraphs, may serve as grounds for termination of this Agreement pursuant to Paragraph 11, Termination.

20. *Independent Contractor.* The Contractor shall be deemed an independent Contractor for all purposes, and the employees of the Contractor or any of its contractors, subcontractors and the employees thereof, shall not in any manner be deemed to be employees of City. As such, the employees of the Contractor, its Contractors or subcontractors, shall not be

subject to any withholding for tax, social security or other purposes by City, nor shall such Contractor, subcontractor or employee be entitled to sick leave, pension benefits, vacation, medical benefits, life insurance, workers or unemployment compensation or the like from City.

21. *Contractor cooperation.* The Contractor recognizes that the performance of this contract is essential to the provision of vital public services and the accomplishment of the stated goals and mission of City. Therefore, the Contractor shall be responsible to maintain a cooperative and good faith attitude in all relations with City and shall actively foster a public image of mutual benefit to both parties. The Contractor shall not make any statements or take any actions detrimental to this effort.

22. *Public Records.*

A. The City of Pompano Beach is a public agency subject to Chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Law, as amended. Specifically, the Contractor shall:

1. Keep and maintain public records required by the City in order to perform the service.

2. Upon request from the City's custodian of public records, provide the City with a copy of requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes or as otherwise provided by law.

3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the City.

4. Upon completion of the contract, transfer, at no cost to the City, all public records in possession of the Contractor, or keep and maintain public records required by the City to perform the service. If the Contractor transfers all public records to the City upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records in a format that is compatible with the information technology systems of the City.

B. No Waiver by Delay. The City shall have the right to institute such actions or proceedings as it may deem desirable for effectuating the purposes of this Agreement provided that any delay by City in asserting its rights hereunder shall not operate as a waiver of such rights or limit them in any way. The intent of this provision is that City shall not be constrained to exercise such remedy at a time when it may still hope to otherwise resolve the problems created by the default or risk nor shall any waiver made by City with respect to any specific default by Contractor be considered a waiver of City's rights with respect to that default or any other default by Contractor.

C. Either party may request changes to modify certain provisions of this Agreement; however, unless otherwise provided for herein, any such changes must be contained in a written amendment executed by both parties with the same formality of this Agreement.

In the event of Contractor's breach or violation of this provision, City shall have the right to terminate this Agreement without liability and, at City's sole discretion, to deduct from the Price Formula set forth in Article 7 or otherwise recover the full amount of such fee, commission, gift or other consideration.

26. *Attorneys' Fees and Costs.* In the event of any litigation involving the provisions of this Agreement, both parties agree that the prevailing party in such litigation shall be entitled to recover from the non-prevailing party reasonable attorney and paraprofessional fees as well as all out-of-pocket costs and expenses incurred thereby by the prevailing party in such litigation through all appellate levels.

27. *No Third Party Beneficiaries.* Contractor and City agree that this Agreement and other agreements pertaining to Contractor's performance hereunder shall not create any obligation on Contractor or City's part to third parties. No person not a party to this Agreement shall be a third-party beneficiary or acquire any rights hereunder.

28. *Public Entity Crimes Act.* As of the full execution of this Agreement, Contractor certifies that in accordance with §287.133, Florida Statutes, it is not on the *Convicted Vendors List* maintained by the State of Florida, Department of General Services. If Contractor is subsequently listed on the *Convicted Vendors List* during the term of this Agreement, Contractor agrees it shall immediately provide City written notice of such designation in accordance with Article 9 above.

29. *Entire Agreement.* This document incorporates and includes all prior negotiations, correspondence, conversations, agreements or understandings applicable to the matters contained herein, and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written.

30. *Headings.* The headings or titles to Articles of this Agreement are not part of the Agreement and shall have no effect upon the construction or interpretation of any part of this Agreement.

31. *Counterparts.* This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. A photocopy, email or facsimile copy of this Agreement and any signatory hereon shall be considered for all purposes as original.

33. *Absence of Conflicts of Interest.* Contractor represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with their performance under this Agreement and that no person having any conflicting interest shall be employed or engaged by either party in its performance under this Agreement.

34. *Binding Effect.* The benefits and obligations imposed pursuant to this Agreement shall be binding and enforceable by and against the parties hereto.

35. *Employment Eligibility.* By entering into this Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility." This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees, and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. Failure to comply will lead to termination of this Contract, or if a subcontractor knowingly violates the statute, the subcontract must be terminated immediately. Any challenge to termination under this provision must be filed in the Circuit or County Court no later than 20 calendar days after the date of termination. If this contract is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination

36. *Severability.* Should any provision of this Agreement or the applications of such provisions be rendered or declared invalid by a court action or by reason of any existing or subsequently enacted legislation, the remaining parts of provisions of this Agreement shall remain in full force and effect.

INSURANCE REQUIREMENTS

CONTRACTOR shall not commence services under the terms of this Agreement until certification or proof of insurance detailing terms and provisions has been received and approved in writing by the CITY's Risk Manager. If you are responding to a bid and have questions regarding the insurance requirements hereunder, please contact the City's Purchasing Department at (954) 786-4098. If the contract has already been awarded, please direct any queries and proof of the requisite insurance coverage to City staff responsible for oversight of the subject project/contract.

CONTRACTOR is responsible to deliver to the CITY for timely review and written approval/disapproval Certificates of Insurance which evidence that all insurance required hereunder is in full force and effect and which name on a primary basis, the CITY as an additional insured on all such coverage.

Throughout the term of this Agreement, CITY, by and through its Risk Manager, reserve the right to review, modify, reject or accept any insurance policies required by this Agreement, including limits, coverages or endorsements. CITY reserves the right, but not the obligation, to review and reject any insurer providing coverage because of poor financial condition or failure to operate legally.

Failure to maintain the required insurance shall be considered an event of default. The requirements herein, as well as CITY's review or acceptance of insurance maintained by CONTRACTOR, are not intended to and shall not in any way limit or qualify the liabilities and obligations assumed by CONTRACTOR under this Agreement.

Throughout the term of this Agreement, CONTRACTOR and all subcontractors or other agents hereunder, shall, at their sole expense, maintain in full force and effect, the following insurance coverages and limits described herein, including endorsements.

A. Worker's Compensation Insurance covering all employees and providing benefits as required by Florida Statute, Chapter 440. CONTRACTOR further agrees to be responsible for employment, control and conduct of its employees and for any injury sustained by such employees in the course of their employment.

B. Liability Insurance.

F. Waiver of Subrogation. CONTRACTOR hereby waives any and all right of subrogation against the CITY, its officers, employees and agents for each required policy. This Waiver of Subrogation requirement shall not apply to any policy which includes a condition to the policy not specifically prohibiting such an endorsement, or voids coverage should CONTRACTOR enter into such an agreement on a pre-loss basis.

EQUIPMENT

SFM has 3 full-time mechanics on staff that are responsible for maintenance and upkeep of the fleet and equipment. Equipment is replaced once it has expired its life expectancy. SFM has over 20,000 sq. ft. of warehouse that stores a large inventory of janitorial equipment and supplies. This ensures that services are not interrupted due to equipment breakdown or supply shortages.

SFM utilizes Whip Around, a web-based fleet maintenance software that allows us to track, document, and report vital data we need to optimize the performance of our fleet. Every driver completes a pre-trip inspection daily as a preventative maintenance measure. Whip Around also tracks fuel usage and integrates with our vehicle tracking software, GEOTAB.

For more than 12 years SFM and Veritiv have had a business partnership. SFM has access to their full line of resources. Veritiv is one of the nation's largest janitorial supply distributors. Veritiv is an industry leader in green cleaning initiatives.

SAFETY DATA SHEETS “SDS”

Currently, SFM is working with MSDSOnline, a web-based centralized management system that will digitize our Safety Data Sheets. SDS binders will be a thing of the past. Not only does this minimize our carbon footprint, but it also ensures that our employees have real-time access to the latest safety data sheets for the chemicals being used while meeting OSHA compliance.

FLOOR CARE

Terrazzo & Marble Restoration

SFM uses a five-step process to restore Terrazzo and Marble floors.

1. Stripping
In this process waxes, sealer, and residue are removed.
2. Repair
The repair process includes filling in chips, nail holes, smooth and remove stains from the surface.
3. Grinding
The grinding process proceeds with a series of increasingly fine diamonds until the floor is smooth and free of virtually all surface imperfections.
4. Polishing
Acid powder is distributed across the floor, which is then mixed with water and polished by a specialized machine. This method effectively ingrains the polish onto the surface of the terrazzo floor below and keeps the surface smooth and level.
5. Crystallization
The crystallization process provides a high gloss finish on the marble/terrazzo surface.

Below are actual before and after projects completed by the SFM Floor Care Team.

SAFETY & TRAINING PROGRAM

POMPANO BEACH

Our Team prides itself in having one of the best training programs in the janitorial sector. The quality of service we deliver through extensive training has permitted us to grow exponentially over the last decade. We believe that the best way to offer exceptional service to our clients is to recruit the most talented, dedicated people in the industry.

Our program consists of extensive classroom and hands on training procedures.

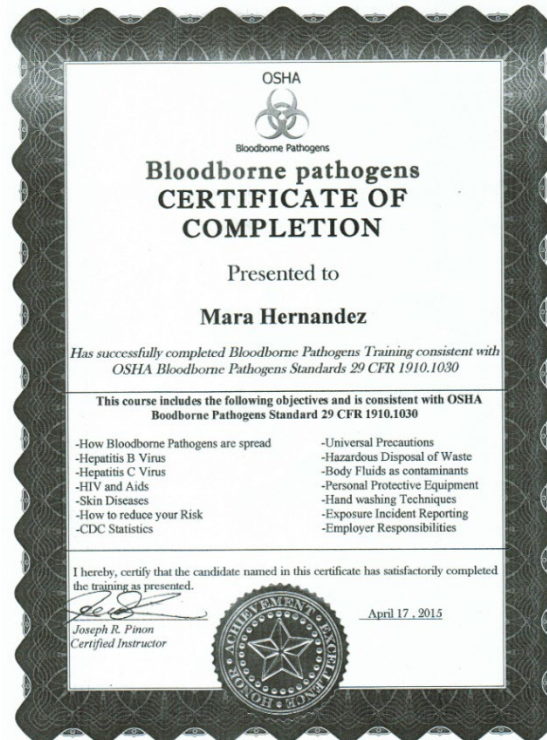

The following methodology is employed by Joe Pinon for his trainings:

1. Classroom teaching is based on research and personal experiences.
2. Professional participation by experts in the field of the subject.
3. Practical exercises discussed and acted in role plays in class.
4. Situational Exercises where specific issues are presented and resolved in class by the student and further discussed in a group setting.
5. Testing and Quizzes of materials shared in class.

SAFETY PROGRAM

SFM is committed to the safety and wellbeing of our employees. Our safety workplace and training program was developed to implement a safe and healthy work environment for both employees and clients. SFM has a robust Risk Management and Safety Program. Education and training provides all employees with:

- Knowledge and skills needed to do their work safely and avoid creating hazards that could place themselves or others at risk.
- Awareness and understanding of workplace hazards and how to identify, report, and control them.
- Specialized training when their work involves unique hazards.

As new hires onboard, they are provided with both education and training material relevant to their job as well as general safety procedures. All managers, supervisors, and workers are subject to continuing education and training as deemed necessary or requested.

Effective training and education are also provided outside our traditional classroom setting. Peer-to-peer training, on-the-job training, and worksite demonstrations are conducted to convey safety concepts, ensuring understanding of hazards and their controls, and promoting good work practices.

To ensure employees understand the material covered, every employee must complete and sign off on an Employee Orientation and Competency Assessment. Each employee is expected to obey safety rules and exercise caution in all work activities. Employees must immediately report any unsafe condition to the appropriate supervisor. Employees who violate safety standards, who cause hazardous or dangerous situations, or who fail to report, or, where appropriate, remedy such situations, may be subject to disciplinary action up to and including termination of employment. Employee training and education is documented and becomes a part of their employee file.

SFM has a Safety Committee Organization as a management tool to recommend improvements to our workplace safety program and to identify corrective measures needed to eliminate or control recognized safety and health hazards. Management will give top priority to and provide the financial resources for the correction of unsafe conditions.

QUALITY CONTROL PROGRAM

A major key to our success is the implementation of our web-based quality control program Orange QC. OrangeQC allows us to deliver real-time consistent reports on how well we're serving you. You'll see the inspection scores for your facilities, as well as our response times for your work orders and incident reports. SFM's QC software will guarantee all services are performed to the highest standard as recognized by custom and usage in the industry. Enclosed we describe some of our methods regarding inspection programs that involve first line employees, supervisors, and the management team. All are involved in quality control and all are trained to understand their role in this project. We also have Quality Control Managers that are involved in all SFM's accounts. Our Quality Control Managers will be very active in this account as we move forward. Other than safety, providing the best possible service to our customers is paramount. And that can only be achieved by maintaining excellent quality standards.

We have an in-house programming team that will customize programs that reflect the specific needs and requirements of your facility. We will work with you to develop a report in the format you desire at the frequency you want. The frequency of inspections is generally completed on a daily and weekly basis. Some of the benefits from this inspection program are detailed within this section.

With these improved controls, our Team can track work performance and highlight opportunities to enhance the overall appearance of your facilities while keeping our team members engaged in the operation. The written word really does the system little justice. It must be experienced to truly be appreciated.

Our quality control program delivers customer satisfaction.

Program Objectives:

- Ensure that all employees have the knowledge and skills needed to perform their job.
- Develop new skills in current employees to enable them to absorb changes in technology.
- Improve the productivity of both individuals and work teams.
- Encourage employee self-development and involvement in programs of lifelong learning.

This software allows the SFM Quality control officers to:

- Perform inspection using a smart phone or tablet.
- Monitors account performance & sends real time alerts based on triggers you set.
- Generate reports for customers.

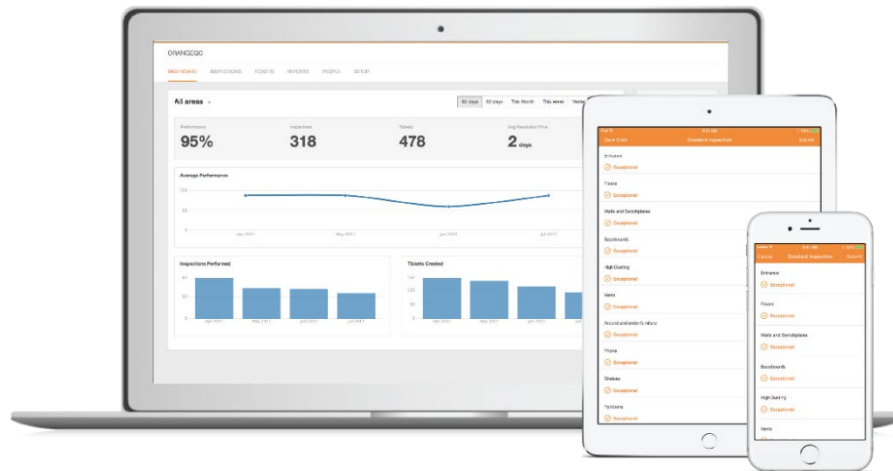

The SFM Quality Control Program consists of two mutually supporting modules:

1. **Quality Control Plan** – establish standards, supporting processes, performance objectives and performance indicators to meet all performance requirements.
2. **Quality Control Monitoring Plan** – implement SFM QC to provide a structured approach to performance monitoring, deficiency avoidance, corrective actions, and reporting.

MEASUREMENT TOOLS

Email notifications are configured to notify SFM managers about the QC performance. The QC officer's iPad automatically synchronizes via a wireless network connection, so QC inspections can be tracked in real-time. Corrective action requests are immediately communicated to the relevant person.

All quality control inspections have precise timestamps to ensure frequency of monitoring and a clear indication of the date, time, area, and results of the monitoring process.

REPORTING

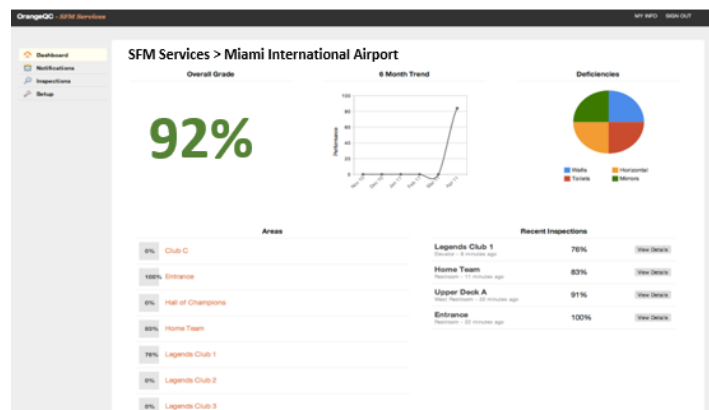

Below is report provided to client that will show the evaluation of progress in 3 forms which include:

These reports can be emailed to property managers in a pdf format.

Management reports contain the following:

- Labor budget
- Supplies budget
- Equipment budget
- Sales

SFM'S INTERNAL COMMUNICATION SYSTEM

In order to maintain high quality standards, SFM relies on effective internal communication to quickly remedy any account deficiency. Below is a representation of SFM's internal communication process when an area is found deficient by a quality control officer.

CLIENT TICKET SYSTEM

Through our Quality Control software, we ask our clients to use the “Ticket System”. This feature helps us document and keep track of the quality of our services.

Here is how it works:

All you have to do is send an email to our Quality Control System at ticket@sfmtservices.com so we can address it. It is that simple!

This email will trigger a ticket alert from the client to the SFM administration, who consists of:

1. Contract Manager
2. Contract Supervisors
3. SFM’s C.O.O.
4. SFM’s President

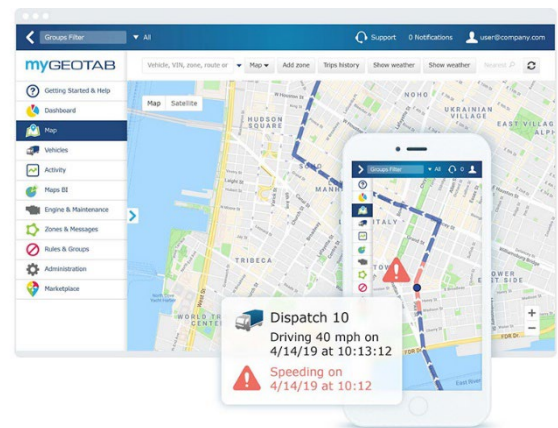

This ticket will remain open sending continuous alerts until addressed by the Area Supervisor and our SFM Operations Manager, who will then respond. Their response will then trigger a “pending” designation. Once the ticket’s content is addressed, it will be shown as completed and filed within your folder in our QC program. This will enable us to sporadically open the folder and see if there are any re-occurring situations that will assist us in managing your facility’s cleaning specifications better.

EMPLOYEE TRACKING

All SFM Vehicles are equipped with the “GeoTab” GPS tracking system. This ensures our drivers are servicing all locations and will tell us how much time is spent at each location. Other capabilities are:

- ✓ Daily Activity Reports (accessible via internet)
- ✓ Incident Reports (real time)
- ✓ Scope of Work (instantly available to users)

Although the Orange Bowl closed its doors in 2007, SFM Services continues its mission of making South Florida's most notable locations look their best.

Having a well-trained and organized staff is essential to maintenance operations, and everyone who is on our team plays an intricate role in the successful operations of every project. At SFM, our onboarding professionals and management team prepare hundreds of qualified individuals to successfully carry out their daily assignments. SFM employees are trained, uniformed, and fully equipped prior to their job assignment assuring effective performance as specified by our client.

In the past, human resources professionals focused primarily on administrative tasks such as finding qualified employees, matching them to appropriate jobs, and balancing the interests of the organization with the rights and needs of employees. Today, the roles of HR professionals have evolved to support an organization in reaching its strategic goals and improving business results, while cultivating talented and capable staff. Simply understanding human resources management terminology, concepts and principles just doesn't cut it today.

Our talented managers design and implement human resources management policies that support our organization's strategic plan for growth and "Brand" recognition. They serve to enhance our organization's ability to attract, motivate, develop, and retain effective employees, which is paramount to our client retention through quality service and growth through reputation.

SFM'S HIRING FORMAT

In addition to our recruitment strategies, SFM will make every effort to keep the incumbent staff. In efforts to promote a smooth transition for the incumbent operations to join our team, we will hold local job fairs as well as seek the use of a conference room on scheduled dates at your city hall building.

Our Team's primary objective is to make it as easy and convenient as possible for the existing staff to join our Team. Once a seniority list is obtained with contact information, we shall also mail information to all incumbent staff and contact them by telephone. As part of our interviewing and hiring process, we will offer to the eligible Custodians and Specialists of the incumbent contractor, the applicable positions required under the scope of services of the Agreement. Our team would begin contacting the incumbent staff within the first week after the formal award announcement. Assuring the staff that they have job continuation at their current wage and benefit structure not only lets them know that they will be joining a professional service company but one that cares about its employees.

Described below is a detailed plan for hiring, retaining, and training that identifies the methods for ensuring SFM's staff, including management personnel, are maintaining industry standards in training and best practices.

SFM Services performs LEVEL 1 & LEVEL 2 investigative background checks for all employees staffing our client's facilities. Our investigative background checks include the following:

- ✓ Social Security Number Verification
- ✓ Criminal History Search (7 years)
- ✓ Terrorist Watch List
- ✓ Employment Verification
- ✓ Violent Sexual Offender Registry Search
- ✓ DMV Records (7 years)
- ✓ Florida HRS Abuse Registry

SFM employee files contain health checks and required testing as well as all documented training and development compliant with OSHA.

All drivers for SFM are registered with SambaSafety. SambaSafety gives us the security of knowing that our drivers are continuously being monitored while on and off the job. Their system always encourages our employees to drive safely.

HIRING METHODOLOGY

Step 1: Utilize SFM's network of 1,000+ employees in local market, coordinate interviews with incumbent employees, utilize online digital platforms such as Zip Recruiter and Social Media. SFM also places advertisements in the local paper if necessary.

Step 2: Identify project supervisor candidates and perform 2 Panel Interview Process.

Step 3: Hire supervision.

Step 4: Employee application review and job orientation.

Step 5: Criminal background check and Drug screening.

Step 6: Make offer of employment to all new hires and I-9 verification.

Step 7: Joe Pinon, Director of Risk Management. Provide New Hire Training.

Assurance Personnel Availability

Some positions in this contract will be part time. This will allow us to have pool of back up staff on call that will already possess the necessary qualifications, training, and experience to carry out their work.

BACKGROUND CHECKS

As a standard practice, our Team will run level 1 & 2 federal background checks (nationwide check involving all states) on all its new hires as required.  Employees requiring access to federally regulated secure areas will undergo individual background screening. When it comes to assuming a client's staff or filling an open position for them, we are flexible. We have found that background research standards often vary by client choice. Some clients are involved in specialized hiring program initiatives. In these situations, we first consult the client as to the depth of report desired (city, county, state or federal) and run reports upon mutual agreement with the client. We have utilized the same FCRA (Fair Credit Reporting Act) compliant provider for over 5 years and have and have had no incidents of incorrect or false information. For this contract SFM will not hire any employee who:

- Has been convicted of a violent felony or conspiracy to commit a violent felony within the past five (5) years;
- Has been convicted of a felony involving the trafficking of a controlled substance within the past (5) years;

DRUG FREE WORKPLACE PROGRAM

SFM IS PROUD TO PARTICIPATE IN THE NATIONAL DRUG FREE WORKPLACE PROGRAM.

It is our desire to provide a drug free, healthy, and safe workplace. To promote this goal, employees are required to report to work in appropriate mental and physical condition to perform their jobs in a satisfactory manner. While on our account premises and while conducting business-related activities off premises, no employee may use, possess, distribute, transfer, sell, or be under the influence of alcohol or illegal drugs to help ensure a safe and healthy working environment.

Much like seat belts with automobiles, Insurance companies have stringent requirements in the coverage they provide. Job applicants and employees may be asked to provide body substance samples (such as urine and/or blood) to determine the illicit or illegal use of drugs and alcohol at any time during their employment if there is justifiable cause to do so.

All employees are subject to post accident drug testing. An employee involved in a work-related injury is required to take a drug/alcohol test with their post-accident visit at any care provider.

SFM's Drug-Free Workplace Policy sends a clear message that alcohol and drug use in the workplace is prohibited.

Objectives/ Goals

- To reduce drug use in the workplace
- To increase productivity
- To improve efficiency
- To reduce accidents in the workplace
- To deliver better customer service
- To demonstrate a more professional attitude and standard of conduct
- Encourage employees who have alcohol and/or substance abuse problems to voluntarily seek help

To achieve these goals, SFM Services conducts:

- Initial and periodic safety training sessions
- Drug Abuse Awareness pamphlets
- Random Drug Screening of existing employees
- Alcohol and Drug screening in the event of work-related accidents
- Complete drug Screening of all job candidates prior to start of assignments
- Formal and informal counseling by trained supervisors

EMPLOYEE IDENTIFICATION & UNIFORMS

We realize the importance that a properly identified employee can have working in a government building. For this reason, SFM provides uniforms that are easily identifiable and professional. Janitorial employees wear orange-colored t-shirts with our logo clearly visible on both sides. This color makes identification even easier. Shirts are made of a polyester-cotton blend that makes it easy for our cleaning staff to keep them clean. We issue three sets to each employee and mend or replace them as needed.

Should you wish a different type of uniform, we can provide shirts, slacks, windbreakers, and parkas, all labeled with the SFM logo. By request, we can provide uniforms tailored to represent you, matching colors, and logos.

The identification card is just as important as a clear identifiable uniform. Every SFM employee is provided an employee ID and required to carry it with them during work hours.

SFM understands and enforces the need to have all personnel clearly identified. We want to make sure your patients, hospital staff, and visitors feel safe and that they always know who is working around them.

Housekeeping Uniforms

- SFM provides uniforms that are easily identifiable & professional.
- The SFM logo will be stitched on button down shirt.
- Three sets are issued to each housekeeper.

UKG TIME AND ATTENDANCE SYSTEM

SFM has implemented UKG UltiPro as its Human Resources Information System (HRIS) including but not limited to recruiting, onboarding (which facilitates new-hire compliance such as I-9 management, E-Verify, W-4 filing and new-hiring mandated training), employee data management, time and attendance, payroll processing and tax compliance, certification and development tracking, document retention (including confidential document management), COVID-19 Vaccine Document Management, scheduling, benefit compliance and administration, grievance and performance management for accountability, custom reporting and business intelligence, and offboarding.

In addition to UKG UltiPro, we've integrated UKG's Workforce Ready Management software to monitor and control all aspects of employee time and attendance while reducing the cost of overtime, administrative labor, and clerical mistakes. Not only does this integration allow us to effectively manage our remote teams, it also ensures we have the adequate staff available to carry out the daily operational tasks assigned to each location.

Below is a list of tailored services available through our software.

Biometric Fingerprint Equipped Time Clocks

SFM Services uses biometric time clocks to make time fraud obsolete. Working in tandem with our cloud-based time and attendance system, the biometric fingerprint time clock systems give us real time visibility into our workforce.

Mobile Time Tracking App

SFM Services offers the on-the-go employees the option to clock in/out via a mobile time clock app. The app contains Geo-fencing and Geo-tracking, so that we can securely track our workforce. Mobile Punch captures the date, time, and GPS location of each punch.

Telephone Time Tracking

In worksites where a traditional time clock is not an option, SFM Services allows telephone time tracking. In a nutshell, telephone time tracking allows employees to clock in and out via a landline. Employees simply call a toll-free number and follow the prompts. These punches are audited regularly, to ensure employees are punching into the assigned landline.

Real Time Alerts

Real-time alerts are designed to ensure that our employees are in their designated worksites on time. A team of personnel, including the Supervisor and Manager, receive real time alerts when a scheduled employee forgets to punch in, punches in late, or fails to report to work. This scheduling technology assists us in responding immediately to no shows.

SFM only uses hospital grade and EPA registered products that kill 99.9% of bacteria and viruses including COVID-19. A key advantage to the highly effective electrostatic technology is its ability to cover 100% disinfectant solution to the applied surfaces. SFM is one of few local companies providing "Electrostatic Disinfecting" while most companies are using a less effective method called fogging.

SFM currently offers two different methods of disinfection services:

1. Electrostatic Disinfection. Using only EPA registered disinfectants, Electrostatic Disinfection provides 100% coverage.
2. Manual Disinfecting. Complete High-Disinfection wipe down of all high-touch, vertical and horizontal surfaces. (Tables, desktop equipment, light switches, doors, doorknobs etc.)

C. Qualifications

Proposals shall be considered only from companies that have been engaged in providing services similar (in size and scope) to those specified herein for a period of not less than three (3) years continuously and that are presently engaged in the provision of these services. The City reserves the right to conduct an on-site inspection of the Contractor's facilities, equipment, and delivery fleet during normal working hours prior to award, or at any time throughout the term of the contract or any renewal.

D. Expansion/Reduction of Janitorial Services

The City, at its own discretion, may choose to expand or reduce contracted janitorial services to City facilities in the future under the same General Terms and Conditions, Special Conditions, and Scope of Services described herein. Pricing for these conditions will be agreed upon by the City and Contractor prior to implementation of expansion or reduction of janitorial services.

E. Materials and Equipment

Storage space will be provided for Contractor's equipment, which remains on the job site during the term of the contract. The Contractor's equipment must be maintained in good operating condition and in sufficient quantities to adequately perform all services, and available to the Contractor's employees at all times. Sufficient cleaning products shall be furnished by the Contractor and maintained at the job site at all times for use by the Contractor's employees in performance of the required services. All materials, methods and equipment shall meet current OSHA standards as applicable. Prior to commencement of service, Material Safety Data Sheets (MSDS) for all chemicals shall be provided to the Facilities Supervisor.

NOTE: Paper towels, toilet tissue, hand soap, hand sanitizer and trash can liners will be furnished by the City.

F. Inspections

The Contractor shall be responsible for supervision and direction of the work performed by his or her employees. Adequate supervision shall be maintained, so that the quality of service will be maintained at the levels stated herein. Any supervisor shall have the authority to act as agent for the Contractor in his/her absence, and shall be fully qualified to implement the contract scope of services.

A daily inspection report for City Hall and Commission Chambers shall be completed by the employee designated by the Contractor as the site supervisor. A copy of this report must be furnished to the Facilities Supervisor, or his/her designee promptly upon request.

The City will supply inspection logs. These logs will be maintained by the Contractor, and completed each time the facility is serviced.

G. Scheduling

The janitorial services described herein are required at the designated facilities, after regular working hours. Services are to be rendered as listed for the number of days per week specified. Services are to be rendered at specific hours stated for each location.

Service at specified locations shall include cleaning of all offices, conference rooms, file rooms, print rooms, break areas, and common areas, including, but not limited to: lobbies; hallways, waiting areas, janitorial closets, elevators (passenger and freight, if applicable), stairwells and landings (if applicable), restrooms and restroom lobby areas.

The Contractor shall perform services on each of the specified days, except for City observed holidays. When a City observed holiday falls on a regularly scheduled service day, and the City facility is not accessible to the Contractor, the Contractor shall perform the regularly scheduled services on the next workday following the holiday closure. Exceptions will require arrangements with the Facilities Supervisor or his/her designee in writing and pre-approved. Services for the Commission Chambers are to be performed four (4) days per week.

Various meetings are also held in the Commission Chamber building at differing times. During these small meetings, the Contractor will be required to "work around" the building occupants. Contractor's personnel must be courteous.

H. Additional Services/Additional Facilities

Additional Services may be required. The City will provide twenty-four (24) hours' notice to the Contractor if additional services are required.

Although this solicitation and resultant contract identifies specific facilities to be serviced, it is hereby agreed and understood that any City department or agency facility may be added to the contract at the option of the City. When required, the Contractor shall be invited to submit price quotes for these additional facilities. If these quotes are determined to be fair and reasonable, then, the additional work will be awarded to the Contractor. If this contract has a single incumbent vendor, the additional site(s) shall be added to this contract by formal modification of the award sheet.

The City may determine to obtain price quotes for the additional facilities from other vendors in the event that fair and reasonable pricing is not obtained from the current Contractor or for other reasons at the City's discretion.

I. Initial Cleaning Requirements

~~No more than fifteen (15) days after contract execution, the Contractor will be required to submit a proposed schedule of "heavy" cleaning tasks to the appropriate City contact. "Heavy" cleaning tasks are defined as: deep carpet cleaning, floor stripping and waxing, interior and exterior window washing, cleaning ceramic tile floors, and cleaning upholstered furniture. The initial round of "heavy" cleaning tasks shall be completed~~

~~by the end of the first thirty (30) calendar days of service, with subsequent performance of these tasks scheduled at the intervals, as specified herein.~~

J. Floor Maintenance

This section generally applies to all sites to be cleaned. Scope of services are minimums.

For all hard surface floors (concrete, terrazzo, tile, vinyl composite tile, etc.) the following shall be done at the intervals specified: floors will be thoroughly washed using a commercially acceptable ~~of~~ floor (as appropriate for the flooring materials). Floors will be thoroughly damp mopped on each day of service. In the event a floor is found to be in a condition in which damp mopping is not satisfactory, it will be the duty of the Contractor to machine scrub the floor to an acceptable level. A clean mop should be used for all floor maintenance. The Contractor is responsible for maintaining a clean inventory of mops. Restroom mops may not be used on any other floor surfaces. Baseboards shall have a clean, streak free surface, free of any mopping residue.

~~Carpets are to be spot-cleaned as necessary, at least weekly. Deep carpet cleaning must be performed by extraction machines at the intervals specified; surface shampooing or bonneting is not acceptable. Carpet dryers must be used, post extraction to assist in drying. Contractor should provide references for prior carpet cleaning services.~~

K. Quality Control

The monitoring of the Contractor's performance is vested in the Facilities Supervisor. All questions concerning the acceptability of material used, the work performed, the manner of performance, and progress being made in meeting specification requirements shall be determined by the Facilities Supervisor. Disputes between the Facilities Supervisor and the Contractor shall be resolved by the Purchasing Division of the General Services Department.

L. Penalty Schedule/Deductions

The Facilities Supervisor or his/her designee will perform inspections of each area to ascertain compliance to the scope of services. A janitorial inspection report will be communicated to the Contractor by 9:00 a.m. the next business day following the performance of service listing any deficiencies found. In the event the Contractor shall not have completed all of the required daily, weekly, monthly services as scheduled in the scope of services, then, the Contractor will be required to make corrections of all discrepancies during the following scheduled work day. These corrections must be completely performed in accordance with the specification requirements. If these corrections are not completely performed in accordance with the specification requirements, then, a deduction for the total daily cost for that location will be subtracted from the Contractor's monthly invoice.

Failure of the Contractor to appear on any scheduled workday without the advance approval from the Facilities Supervisor or his/her designee shall result in the deduction of the total daily cost for that location. Penalties will be applied in accordance with the Contractor's Proposal form prices. A full penalty price will be levied against the Contractor each time cleaning is not performed in full accordance with work scope of services, whether it is to be performed daily, weekly, or monthly. Such penalties will continue until said cleaning is performed or the contract is cancelled.

M. Uniforms and Security

1. Contractor shall at all times enforce strict discipline and good order among his or her employees. Unauthorized use of City or City employee's property is prohibited, including the use of office equipment, computers, fax machines, and telephones. No smoking is allowed in City buildings.

3. Contractor's employees shall wear distinctive clean, neat appearing uniforms and footwear while working on City premises. Uniforms shall bear company name or identification tag, so that Contractor's employees may be identified.
4. Contractor shall provide the Facilities Supervisor or his/her designee with a roster listing all personnel assigned to the contract within fifteen (15) days prior to contract commencement. In addition, the Contractor shall provide a listing of names, emergency telephone numbers and cell numbers of supervisory personnel assigned to the contract. It will be the Contractor's responsibility to keep this list up to date.
 - a. The roster shall list all personnel including but not limited to: managers, supervisors, and janitorial staff who will provide services under the resulting contract, work in or on City property, or have access to City property. Access to City facilities shall be denied to Contractor's personnel not listed on the Employee Roster and pre-approved by the City.
 - b. The roster shall be accompanied by the City's Background Check Affidavit to ensure background checks have been conducted on all required personnel.
 - c. If any changes to the roster are to occur, then, the Contractor shall provide an updated roster for the City's prior approval showing the new information or personnel, including background checks, via e-mail to the Facilities Supervisor or designee prior to effecting the change. Failure to notify the Facilities Supervisor of personnel changes, conduct a background on personnel assigned to the contract, or the misuse of assigned access badges and keys shall be grounds for finding the Contractor in default of the contract.

5. The Facilities Supervisor, or his/her designee, may request the Contractor to remove any employee for security reasons, or if it is determined that services are not being performed in accordance with the terms and conditions of the contract.
6. The successful Proposer(s) will pick up one set of keys for each area/building from the Facilities Supervisor after notice of solicitation award. Keys will be signed for by the Contractor's designee. The Contractor shall be responsible for returning or surrendering the keys at the request of the City. The successful Proposer will also receive badges to enter City Hall and Commission Chambers. If keys/badges are misplaced by the Contractor the cost of re-keying the locks and replacement of keys/badges will be incumbent upon the Contractor.

N. Supervision

Contractor shall provide an adequate number of trained and qualified supervisors capable of providing the necessary supervision to satisfy the contract during all service hours. Supervision must be by an on-site supervisor. The on-site supervisor shall be responsible for monitoring and administration of personnel activities, and resolution of any service problems with designated City staff. Each supervisor, and the night crew foreman, to the satisfaction of the Facilities Supervisor, or his/her designee, shall be capable of verbal and written communication in the English language and shall be able to effectively communicate with City staff.

The Facilities Supervisor, or his/her designee may request the Contractor to remove any supervisor if it is determined that services are not being performed in accordance with the terms and conditions of the contract.

The Contractor's employees are not to be accompanied in their work areas on the premises by acquaintances, family members, or any other persons unless said person is an authorized Contractor employee. The City prohibits teenagers, minors, or children to work in City-owned buildings under this Contract.

O. Sample Contract Form

By submitting a Proposal, the Proposer agrees, if awarded the solicitation, to enter into a contract with City using the City's sample Contract form. See sample Contract form attached as a sample in the eBid system.

P. Verification of Employment Eligibility

Contractor acknowledges and agrees to utilize the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of:

1. all persons employed by Contractor to perform employment duties within Florida during the term of the contract, and;

2. all persons (including subcontractors) assigned by Contractor to perform work pursuant to the contract.

The Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security's E-Verify System [<https://www.uscis.gov/e-verify>] during the term of the contract is a condition of the contract. Contractor shall annually certify compliance with this requirement in writing to the City's Facilities Supervisor assigned to the contract.

Q. Method of Award

The intent of the Solicitation is to select the two (2) most qualified companies, based on criteria established, on a group-by-group basis. To be considered for award for a given group, the Proposer shall offer prices for all items within the given group. If a Proposer fails to submit an offer for all items within the group, its offer for that specific group may be rejected. Most Qualified means the basis for awarding of this contract will be made with limited consideration of cost.

The City may at its sole discretion ask for additional proof of financial solvency, including additional documents post Proposal opening, that demonstrates the Proposer's ability to perform the resulting contract and provide the required materials and/or services.

R. Term of Contract

The initial contract period shall be one year, commencing upon award by the appropriate City officials.

In the event the City determines the Contractor to be in full compliance with the contract and Contractor's performance thereunder to be satisfactory, then the City, with City Commission approval, shall have the option to renew the contract for an additional four (4) one (1) year terms upon the written consent of both the City and Contractor provided that the City provides written notice of its intention to renew within sixty (60) days of the termination date of the contract.

In the event delivery/service is scheduled to end because of the expiration of this contract, the Contractor shall continue to deliver/service upon the request of the General Services Director. The extension period shall not extend for more than ninety (90) days beyond the expiration date of the existing contract. The Contractor shall be compensated for the product/service at the rate in effect when this extension clause is invoked by the City.

The business must be staffed with full-time employees within the limits of the city. In addition, the business must have a current business tax receipt from the respective Broward County municipality for a minimum of one year prior to the date of issuance of a solicitation.
3. **LOCAL VENDOR SUBCONTRACTOR. POMPANO BEACH BUSINESS.** A business entity which has maintained a permanent place of business within the city limits of the City. www.pompanobeachfl.gov by selecting the Pompano Beach Business Directory in the Shop Pompano! section.

The City shall award a Local Vendor preference based upon vendors, contractors, or subcontractors who are local with a preference as follows:

1. For evaluation purposes, the Tier 1 and Tier 2 businesses shall be a criterion for award in this Solicitation. No business may qualify for more than one tier level.
