

DATE: January 19, 2017  
TO: City Commission  
FROM: Public Art Committee  
SUBJECT: VisualEYES Location Change

---

The Public Art Committee would like to recommend the amended location of Broward County's VisualEYES Mural to be on the back exterior wall of the Bailey Contemporary Arts Building. The mural, created by Cecilia Lueza and titled *Visionary*, will be the third mural to be placed in the alley behind the Bailey. The CRA and the Public Art Committee have future plans to transform this area into a Mural Garden.

The VisualEYES Program engages artists, galleries, museums and local organizations, bringing them together to showcase community-driven art works. This program features a select group of renowned South Florida artists. Murals will be installed in each of the nine County Commission Districts; the City of Pompano Beach's proposed mural would be installed in County Commission District 2.

The Public Art Committee would like to recommend the Bailey as the location and *Visionary* as the mural design for the VisualEYES Program. We feel like this will be a great attribute to the City's current art collection.
