**COMMENTS:**

This company utilizes Industrial Electric Testing Inc. for testing medium-voltage equipment and switchgear. These technicians and engineers are located in Jacksonville. It is unclear who does potential repair work if test technicians discover issues. Their technicians have NETA certifications.

**COMMENTS:**

This company is based in Chicago, Dallas and Scottsdale AZ. Their submittal mentions that they use IBEW Local Electricians. It's difficult to evaluate because no specific previous work similar to what we require was included in the proposal.. The management team that supplied resumes shows Master and Journeyman electricians and OSHA certifications.
