This Agreement ("Agreement") is between BROWARD COUNTY, a political subdivision of the state of Florida, its successors and assigns, by and through its Board of County Commissioners, hereinafter referred to as "COUNTY";

AND

CITY OF POMPANO BEACH, a municipal corporation located in Broward County, Florida, organized and existing under the laws of the state of Florida, hereinafter referred to as "MUNICIPALITY."

RECITALS:

WHEREAS, COUNTY created the Broward County Consolidated Communication Implementation Advisory Board (the "I-Board") consisting of municipal managers/administrators from all Broward County municipalities, the County Administrator, the Sheriff or designee, a representative from the Broward County Chiefs of Police Association, and a representative from the Fire Chiefs Association of Broward County, to review, consider, and make recommendations to the Board relating to the creation, governance, funding, and operations of a regional and cooperative consolidated E-911 communications system; and

WHEREAS, the I-Board issued a final report in February 2013 which contained a series of recommendations which included a recommendation that Broward County ("COUNTY") create and wholly-fund a cooperative countywide consolidation of E-911 communications to be operated, or contracted for operation, by COUNTY; and

WHEREAS, the City Commissions of 23 of Broward County's 31 cities passed resolutions requesting that COUNTY fund the cooperative countywide consolidation of E-911; and

WHEREAS, the municipal function of providing emergency call processing in a large county with numerous cities has resulted in a fragmented system of emergency call-taking and dispatching; and

WHEREAS, COUNTY has determined that the current fragmented system of emergency call-processing and dispatching is inefficient, costly, and may result in delays involving the transfer of calls among numerous dispatch centers; and

WHEREAS, the establishment and maintenance of a Consolidated Regional E-911 Communications System will promote the health, safety, and general welfare throughout Broward County by improving the safety of first responders and persons residing or traveling throughout Broward County, eliminate call transfers that result in delayed responses, result in significant cost savings, and promote efficient and cost effective migration to consolidated new technologies; and

WHEREAS, COUNTY has determined that it is in the interest of the public health, safety and welfare of its residents, and those visitors that travel through or spend time within the boundaries of Broward County to create a Consolidated Regional E-911 Communications System to provide call-taking, teletype (queries only), and dispatching services which COUNTY shall operate, or contract to operate; and

WHEREAS, COUNTY has invited all municipalities located within Broward County to participate in the System; and

WHEREAS, the parties to this Agreement acknowledge and agree that, except for the unincorporated area of Broward County, COUNTY does not have the legal obligation to financially support police, fire, and emergency medical service ("EMS") dispatch within municipalities and COUNTY is voluntarily agreeing, by majority vote of its Board of Commissioners, to wholly fund police, fire, and EMS dispatch, subject to available funding; and

WHEREAS, COUNTY, with the cooperation from Municipalities, shall continue to meet its responsibilities to establish a countywide communications infrastructure for fire and emergency services as set forth in Section 5.03 of the Charter of Broward County, Florida; and

WHEREAS, the Consolidated Regional E-911 Communications System "System" shall consist of COUNTY's unincorporated area, Port Everglades, Fort Lauderdale-Hollywood International Airport, and any and all municipalities located within the geographic boundaries of Broward County that enter into this Agreement and agree to the conditions for participation in the System, NOW THEREFORE,

The System shall operate subject to the control, internal operating rules and regulations of COUNTY. COUNTY agrees to comply with the requirements of the applicable Management Control Agreements relating to COUNTY operation of the Regional Public Safety Infrastructure at Host PSAP(s).
- 4.2 It is the desire of COUNTY and Participating Communities that the Consolidated Regional E-911 Communications System consist of geographically dispersed Host PSAP locations; however, the number of Host PSAP locations shall depend on the level of participation by Participating Communities. COUNTY shall pursue good faith negotiations with prospective Host PSAP Participating Communities to enter into the necessary agreements, including lease agreements or otherwise obtain the right to use PSAP facility(ies) to provide a location(s) for the delivery of Consolidated Regional E-911 Communications System Services. The selection by COUNTY, in its sole discretion, of PSAP locations and facility(ies) shall consider, at a minimum, the following factors: geographic location within Broward

County, high level of security for both human issues and climatic events, modern and secure technological infrastructure for data and communication systems, and ability to house the necessary personnel.

- 4.3 MUNICIPALITY agrees and acknowledges that the FDLE Router to access the NCIC and FCIC Information System will be accessible through the Host PSAP locations. In the event of catastrophic loss or failure of the FDLE Router or its network at any Host PSAP location, the COUNTY shall be entitled to re-route FDLE traffic to another Host PSAP location.

The re-routing of FDLE Traffic can only occur in the following three (3) scenarios:

Any verbal approval must be followed-up and documented via e-mail.

Participating Communities that have a Host PSAP location within their City Limits agree to enter into an agreement with Operator to authorize the use of the Participating Community's FDLE router.

- 4.4 COUNTY shall establish operation and efficiency performance standards for the Consolidated Regional E-911 Communications System's operations and create a time schedule for implementing and meeting the efficiency and performance criteria. The operation and efficiency performance criteria for the System shall be as set forth on Exhibit "B" (the "Standards"); provided, however, the Standards shall only be in effect for calls received on the 911 telephone lines of a Host PSAP. COUNTY shall require in any contract it enters into with an Operator of the System that such Operator shall meet or exceed the Standards. COUNTY shall review monthly performance reports of the Operator of the System as a method to monitor the Operator's compliance with the Standards. In the event the Operator is unable to meet the Standards, the contract with the Operator shall contain provisions to address Operator failures, such as but not limited to the ability to terminate the contract with Operator. Additionally, the COUNTY shall endeavor to include in the contract with Operator a provision that Operator's employees performing System Services shall be given the ability to transfer to a subsequent Operator in the event of termination of the Operator's contract.

COUNTY shall distribute the monthly performance reports to the Participating Communities within 30 days after the close of the previous month.

- 4.5 To the extent authorized by law and applicable rules and regulations relating to access to criminal justice information, COUNTY shall provide Participating Communities with the ability to view performance information of the System.
- 4.6 In the event that COUNTY chooses to contract for the operation of the System, COUNTY shall pursue good faith negotiations prior to October 1, 2013, to enter into a definitive agreement with an Operator who shall be responsible for performing services and tasks related to day-to-day operations of the Consolidated Regional E-911 Communications System, the System's PSAP locations, and the hiring, training, supervision, and discipline of all Operator's personnel. The agreement with the Operator shall establish benchmarks that must be met by the Operator and address the time at which the benchmarks shall be fully achieved. The agreement shall authorize COUNTY to monitor the Operator's performance, require the Operator to implement COUNTY requirements if the Operator fails to meet such benchmarks, and provide a process to address any Operator failure to meet the contract requirements.
- 4.7 The COUNTY shall be responsible for the establishment, coordination and support of any workgroup, governance and/or technical boards created for the purpose of providing recommendations to the County Administrator on the operation of the Consolidated Regional E-911 Communications System. Membership of any such workgroup or boards may include, but not be limited to, representatives from COUNTY, Participating Communities, and Operator.

- 5.1 The parties agree to cooperate and utilize their best efforts to coordinate the many complex aspects of transition to the System. Transition elements include, but are not limited to the following:
 - 5.1.1 In the event that COUNTY chooses to contract for the operation of the System, COUNTY shall endeavor to include language in its contract with the Operator that the Operator shall employ civilian employees who performed, or have been hired by an existing PSAP facility and commenced the training to perform, call-taking, teletype, and dispatch PSAP functions as their primary job responsibility ("PSAP Employees") for any Participating Community that was operating its own PSAP prior to May 7, 2013, and that enters into this Agreement by August 30, 2013, and who meet the qualification standards, subject to the conditions set forth below:

- A. PSAP Employees will be hired by the Operator and shall not be employees of COUNTY.

- 5.1.2 To the extent required by FRS, a MUNICIPALITY shall provide its PSAP Employees that are hired by Operator, a one-time election to participate in the pension plan of the Operator or remain in the MUNICIPALITY's pension plan; or to the extent permitted by FRS, a MUNICIPALITY shall have the option of allowing its PSAP Employees that are hired by Operator, a one-time election to participate in the pension plan of the Operator or remain in the MUNICIPALITY's pension plan. In either event, any required contribution amount in excess of the required FRS contribution amount for the PSAP Employees remaining in MUNICIPALITY's pension plan shall be and remain the sole responsibility of MUNICIPALITY. COUNTY, or its OPERATOR, will fund the MUNICIPALITY's contribution amount up to the established FRS rates, or up to the MUNICIPALITY's contribution rate, whichever is less. The PSAP Employees shall be responsible for any employee contribution amounts required under either election. The

MUNICIPALITY shall provide to COUNTY and Operator the PSAP Employees' pension election documentation.

- 5.1.3 COUNTY, in conjunction with Participating Communities and the Operator, shall use reasonable efforts to develop an employee transition plan prior to October 1, 2013, which shall include implementation details, performance benchmarks, and the schedule for consolidation.
- 5.1.4 COUNTY shall schedule meetings with each individual Participating Community to develop a written transition plan, approved by COUNTY, relating to each individual Participating Community's transition to a Host PSAP. The transition plan shall also contain an assessment of Participating Community's current performance standards, organizational structure, staffing levels, equipment requirements, standard processes, protocols, and operating costs. Each Participating Community, that operates a PSAP on May 7, 2013, shall provide to COUNTY no later than September 1, 2013, its historical performance indicator data.
- 5.1.5 The transition of Participating Communities to a Host PSAP shall be accomplished following the development of System implementation plan by COUNTY which implementation plan shall provide for the transition of Participating Communities to a Host PSAP in a manner which will minimize adverse impacts on the System as a whole. Following the completion of the implementation plan, it is possible that MUNICIPALITY shall not be transitioned to a Host PSAP by October 1, 2013. In the event that MUNICIPALITY is not transitioned to a Host PSAP on October 1, 2013, COUNTY's responsibility for System expenses for such MUNICIPALITY shall be limited to the payments it makes to the Operator for the Operator's Personnel Costs of civilian employees who perform call-taking, teletype (queries only) and dispatch PSAP functions as their primary job responsibilities at a non-Host PSAP facility or other expenses as specifically addressed in the RILA.
- 5.1.6 The COUNTY will endeavor to include in the agreement with the Operator a requirement that PSAP Employees shall perform System Services for the same general vicinity that they were servicing while employed by their Participating Community during the first year of the Operator's agreement (October 1, 2013 through September 30, 2014) provided there are sufficient employees available in any given vicinity to ensure that the System meets the Standards.

ARTICLE 6

COUNTY agrees to fund Capital and Operation Expenses of the System out of legally available COUNTY funds subject to Section 3.5. COUNTY shall retain the fees distributed to COUNTY from the Emergency Communications Number E-911 System Fund pursuant to Florida Statutes and Participating Communities shall no longer receive distributions of E-911 fees received by COUNTY from the Emergency Number E-911 System Fund as those funds shall be utilized to pay the eligible expenses of the System. Upon execution of this Agreement, MUNICIPALITY acknowledges and agrees that the Interlocal Agreement between COUNTY and MUNICIPALITY providing for Distribution of the Proceeds According to the Florida Emergency Telephone Act shall terminate effective October 1, 2013.
