CERTIFICATE OF INSURANCE, reflecting evidence of the required insurance, shall be filed with the Risk Manager prior to the commencement of the work. In the event the Insurance Certificate provided indicates that the insurance shall terminate and lapse during the period of this Contract, the Consultant shall furnish, at least ten (10) days prior to the expiration of the date of such insurance, a renewed Certificate of Insurance as proof that equal and like coverage for the balance of the period of the Contract and extension thereunder is in effect. The Consultant shall not continue to work pursuant to this Contract unless all required insurance remains in full force and effect.

Limits of Liability for required insurance are shown in Exhibit D.

The City of Pompano Beach must be named as an additional insured for the Automobile and Commercial General Liability Coverage.

For Professional Liability, if coverage is provided on a claims made basis, then coverage must be continued for the duration of this Contract and for not less than one (1) year thereafter, or in lieu of continuation, provide an "extended reporting clause" for one (1) year.

Such obligation to indemnify and hold harmless shall include all costs, expenses and liabilities incurred by the City in connection with any such claim, suit, action or cause of action, including the investigation thereof and the defense of any action or proceeding brought thereon and any order, judgment or decree which may be entered in any such action or proceeding or as a result thereof. Consultant acknowledges and agrees that City would not enter into this contract without this indemnification of City by Consultant, and that the City entering into this Contract shall constitute good and sufficient consideration for this indemnification. These

provisions shall survive the expiration or earlier termination of this Contract. Nothing in this Contract shall be construed to affect in any way the City's rights, privileges, and immunities as set forth in Florida Statute § 768.28.

3. Twenty-five Dollars (\$25.00) of the amount paid to Consultant is given as separate, distinct and independent consideration for the Consultant's grant of this indemnity, the sufficiency and receipt of this consideration is acknowledged by the Consultant.

4. The City agrees that to the extent permitted by § 558.0035, Florida Statutes, an individual employee or agent of Consultant may not be held liable for negligence.

## **ARTICLE 12 – SUCCESSORS AND ASSIGNS**

The City and the Consultant each binds itself and its partners, successors, executors, administrators and assigns to the other party of this Contract and to the partners, successors, executors, administrators and assigns of such other party, in respect to all covenants of this Contract. Except as above, neither the City nor the Consultant shall assign, sublet, encumber, convey or transfer its interest in this Contract without prior written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of the City, which may be a party hereto, nor shall it be construed as giving any rights or benefits hereunder to anyone other than the City and the Consultant.

## **ARTICLE 13 – REMEDIES**

The laws of the State of Florida shall govern this Contract. Any and all legal action between the parties arising out of the Contract will be held in Broward County. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

The Consultant further represents that no person having any interest shall be employed for said performance.

The Consultant shall promptly notify the City's representative, in writing, by certified mail, of a potential conflict(s) of interest for any prospective business association, interest or other circumstance, which may influence or appear to influence the Consultant's judgment or quality of services being provided hereunder. Such written notification shall identify the prospective business association, interest or circumstance, the nature of work that the Consultant may undertake and request an opinion of the City as to whether the association, interest or circumstance would, in the opinion of the City, constitute a conflict of interest if entered into by the Consultant. The City agrees to notify the Consultant of its opinion by certified mail within thirty (30) days of receipt of notice by the Consultant. If, in the opinion of the City, the prospective business association, interest, or circumstance would not constitute a conflict of interest by the Consultant, the City shall so state in the notice and the Consultant shall at its

#### **ARTICLE 15 – EXCUSABLE DELAYS**

Such causes include, but are not limited to, acts of God; natural or public health emergencies; freight embargoes; and abnormally severe and unusual weather conditions.

Upon the Consultant's request, the City shall consider the facts and extent of any failure to perform the work and, if the Consultant's failure to perform was without it, or its subcontractors fault or negligence, the Contract Schedule and/or any other affected provision of this Contract shall be revised accordingly; subject to the City's rights to change, terminate, or stop any or all of the work at any time.

#### **ARTICLE 16 – DEBT**

The Consultant shall not pledge the City's credit or attempt to make it a guarantor of payment or surety for any contract, debt, obligation, judgment, lien or any form of indebtedness. The Consultant further warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms of this Contract.

#### **ARTICLE 17 – DISCLOSURE AND OWNERSHIP OF DOCUMENTS**

All covenants, agreements, representations and warranties made herein, or otherwise made in writing by any party pursuant hereto, including but not limited to any representations made herein relating to disclosure or ownership of documents, shall survive the execution and delivery of this Contract and the consummation of the transactions contemplated thereby.

Proof of such licenses and approvals shall be submitted to the City's representative upon request.

## **ARTICLE 23 – SEVERABILITY**

If any term or provision of this Contract, or the application thereof to any person or circumstances shall, to any extent be held invalid or unenforceable, to remainder of this Contract, or the application of such terms or provision, to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this Contract shall be deemed valid and enforceable to the extent permitted by law.

## **ARTICLE 24 – ENTIRETY OF CONTRACTUAL AGREEMENT**

The City and the Consultant agree that this Contract, together with the Exhibits hereto, sets forth the entire agreement between the parties, and that there are no promises or understandings other than those stated herein. ### POMPANO BEACH PIER REPLACEMENT

RLI H46-13

#### I PROJECT DESCRIPTION

Based on our various meetings with the City departments, the CRA and our pre-application meetings with the environmental permit agencies, we understand the City would like to pursue replacing the existing pier with a new pier and observation tower.

The new pier will be 864'-0 long. Near the west end, or entrance to the pier, a 40'-0 tall observation tower has been proposed. The pier walkway will form a circle around the tower and continue east. The pier walking surface will remain approximately 20'-0 wide until the mean high water mark.

Once past the mean high water line, the deck of the pier will be widened to 30'-0 foot to the east end of the pier. In lieu of the current octagon shaped end, the structure will be design to represent the head of a pompano fish, similar to the city logo.

The new pier and tower will be supported by concrete pile foundations with a concrete pile cap. The walking surface / deck will be constructed utilizing concrete beams with wood decking in between, similar to the existing pier.

The railings for the pier will be a combination of wood and aluminum with concrete light bollards at each pile bent.

Amenities on the pier will include two shade structures, electrical outlets for maintenance staff, fresh water hose bibs, a dry fire line for fire safety and (2) fish gutting stations.

The tower will be supported on concrete piles with a concrete base slab.

The observation deck is proposed to be a 40'-0 diameter concrete deck with round concrete support columns with an aluminum staircase. Above the observation deck will be an aluminum canopy.

The railing around the observation deck will be acrylic or aluminum.

Live video feed cameras on observation deck with a kiosk placed at the base of the tower is to provide "equivalent facilitation" as an alternate method to comply with the intent of the Florida Accessibility Code requiring vertical accessibility.

Based on recommendations from various environmental permit agencies, the new pier will be citted in the existing sovereign land lease from the west end to the mean high water line to avoid the taking of the existing turtle habitat. Once west of the mean high water line, the new pier will be widened south and the proposed end terminus will extend south to minimize and mitigate current hard bottom impacts. Mitigation for impacts at the pier head will be required.

All proposed lighting on the pier will meet the requirements for sea turtle friendly lighting.

Environmental education signs will also be required on the pier.

## EXHIBIT "B"

### II SCOPE OF WORK

The Bridge Design Associates, Inc. team will provide the following engineering, architectural, surveying, and environmental permitting services for the project.

Please note, although all aspects of the proposed pier and tower outlined above have been discussed with the various environmental permitting agencies, obtaining the necessary permits is not guaranteed. Permit agency review times and acceptance cannot be determined until complete construction plans and applications are submitted.

Task 1:

#### **ENVIRONMENTAL PERMITTING SERVICES, BENTHIC IMPACT ASSESSMENT, AND WAVE FORCE ANALYSES.**

1. **Pompano Pier Benthic Impact Assessment** A detailed impact assessment of the proposed footprint of the pier will be performed by marine biologists. Based on a preliminary pile layout, the benthic resources that may be impacted by the piles and by the shading of the pier will be identified. This data will be used to support the UMAM analysis to estimate the mitigation requirements. CB&I will conduct an *in situ* benthic assessment within the survey area on the hardbottom habitat based on the aerial delineation. This will use a transect approach and will employ quadrats for quantitative benthic documentation as well as line-intercept for sediment and sediment depth interval measurements. Video will also be conducted along the length of each transport.
2. **FDEP Application** We will apply for a JCP permit application from the Florida Department of Environmental Protection. The application will identify the proposed pier and the proposed pier construction schedule to identify potential impacts.
3. **USACE Application** We will apply for a permit application from the US Army Corps of Engineers. The application will identify the proposed pier and the proposed pier construction schedule to identify potential impacts. The application will include a National Marine Fisheries Service impact assessment form.
4. **Broward County** We will apply for a license from Broward County. The application will identify the proposed pier and the proposed pier construction schedule to identify potential impacts.
5. **FDEP Processing** We will respond to the Florida Department of Environmental Protection requests for additional information and notice to proceed requests based on existing information.
6. **USACE Application** We will respond to the US Army Corps of Engineers and the federal resource agencies request for additional information. These responses exclude developing a draft biological assessment which may be required to expedite the processing. We will coordinate with the USACE to get to public notice as soon as possible. We will follow up with the USACE and the federal resource agencies to encourage a responsible review time.

7. **Broward County** We will respond to Broward County's request for additional information based on existing information.
8. **Extreme Wave Analysis and Forcing** We will perform a site specific wave analysis during hindcasted waves up to a 50 and 100 year return period event. We will estimate wave forces based on schematic pile and pier designs (provided by you). A report of findings will be provided.
9. **State Lease Modification** We will request a modification of the existing lease to support the new pier design. This will include submission of new surveys (by others). We will respond to State comments and assist in the processing and signature of the lease.

Task 2: **MAIN PIER DESIGN**

1. General Meetings and coordination with City, permit agencies and consultants.
2. The fishing pier will be designed to meet applicable sections of the Florida Building Code and Florida Administrative Code. A minimum design criteria for erosion, scour and loads will meet or exceed a 20 year storm event.
3. Wave height and load analysis
4. Wind load analysis for the pier components
5. Railing and deck design
6. Architectural components including railing configuration, canopy and amenities.
7. Electrical, mechanical, fire safety lighting designs for maintenance of the pier, life safety and applicable building and environmental permitting codes.
8. Analysis and component design for "top-down" construction methods.
