Subject: Share Plan Ordinance

Good afternoon Ed:

The Board of Trustees met this afternoon and an issue was raised regarding the correct interpretation of a specific group identified in the proposed share plan ordinance. The Board has directed its attorney to request an answer from the Division of Retirement and is also requesting that the City table the first reading of the share plan ordinance on October 25 pending the DOR's answer.

Can you tell us when the latest deadline is for tabling the item if we receive a fairly quick response from the DOR? A quick response is probably not likely but we would like to know the drop dead date just in case. Thank you.
