TECO Peoples Gas has natural gas service in the vicinity of the above-mentioned property and we welcome the opportunity to service your client with natural gas.

The typical average daily energy demands can not be determined until we have more information about your client's gas equipment. Please ask your client to call us with that information.

A site plan is required for us to indicate our existing facilities and projected future facilities intended to service the project.

In the meantime, should you need further assistance you can contact Sherry Horton by calling 772-216-9622.

Sincerely,

***Sherry Horton***
