

MEMORANDUM

Engineering

Memorandum No. 23-01

DATE: December 5, 2022
TO: City Commission
FROM: Tammy Good, CIP Manager
SUBJECT: E-37-22 Alsdorf Park Seawall and Dock- Bid Award

Background: The Alsdorf Park public boat ramp facility is located at 2901 NE 14th St., Pompano Beach, FL, 33062, on the north side of the 14th Street Causeway along the westerly shoreline of the Intracoastal Waterway. The seawall was originally built in the late 1970's and has gone through numerous repairs throughout its life-cycle. In 2018, an updated seawall study was performed, which revealed several deficiencies. In 2020, the City applied for and was subsequently awarded the following two grants as supplement funding to replace the seawall:

1. Florida Inland Navigation District (FIND) up to \$475,000.00
2. Broward County Boating Improvement (BBIP) up to \$375,000.00

Recommendation: The City solicited for construction services to replace approximately 370' of the dilapidated seawall and dock, which extends from the easterly boat ramp to the Intracoastal Waterway. On November 17th, 2022 construction bids were opened for this scope and the contractor, B&M Marine Construction, Inc. submitted the lowest, responsive bid in the amount of \$1,781,595.50. An evaluation of contractor references, qualifications and prior work history was performed, with satisfactory results.

Request for Approval: Staff recommends commission approval to award this project to the lowest, responsive bidder, B&M Marine Construction, Inc., in the amount of \$1,781,595.50.
