SUBJECT: Piggyback FDOT Agreement BE127

Atlantic Boulevard 4765 linear feet of 12" to 60" Drainage Clean and Video

The Utilities Department needs to inspect the condition of the storm drainage pipes serving the eastern portion of Atlantic Boulevard from Federal Highway to the Intracoastal Waterway. This road segment was recently acquired from the Florida Department of Transportation with limited records attesting to the condition of the pipes. The Utilities Department would like to have the pipes evaluated and desilted to ensure they are working correctly.

Procurement Background

The Florida Department of Transportation District 4 through RFP-DOT-15/16-4006PM for Districtwide Storm Sewer Inspection has a contract with Shenandoah to do this type of work.

Recommendation

The Utilities Department recommends approving the piggybacking of the Contract with Shenandoah Construction to furnish a crew and all necessary equipment to dewater, desilt, CCTV 15 to 60 inch pipe and Review of Video reports for repair evaluation for . for \$60,074.50. Money is available in account 425 7586 538 65-12 CIP account 17 308, Storm Sewer Pipe Rehabilitation.
