

September 17, 2024

To the City of Pompano Beach:

JC's Recovery and Counseling Center is a faith-based treatment facility in Broward County Florida. We offer PHP, IOP, and OP services with housing to treat mental health and substance abuse. We have been in business to the community for over 11 years and take pride in contributing to helping people change their lives. Upon completion of treatment, we link our clients to FARR accredited sober living to continue on their path of recovery.

As we are located in Hollywood, Florida, we typically try to keep clients within Broward County upon their transition back to the community, however, we feel that it would be a benefit to allow for more community residences in Broward County, including Pompano Beach, such as the one We Step Up Sober Living is proposing. This would allow for better treatment outcomes, improved recovery rates, and a decrease in the toll addiction and poorly managed mental health has had on our communities.

Please feel free to contact me if you have any questions or need further information.

Sincerely,

Megan Potter, LMHC-QS, MCAP
Clinical Director
JC's Recovery Center
